CENTRAL

CHICKEN CLINIC IS LARGELY ATTENDED. There were twenty-five from Sullivan registered at the chicken clinic held on Thursday of last week at the plant of the Wadley Poultry Com-pany in Mattoon. Drs. S. J. Lewis and A. K. Merriman of this city assisted in the demonstration. estimated that three hundred It is fifty persons brought fowls to the free

Over four hundred birds were ex amined and their diseases diagnose by Dr. E. A. Tunnicliff of the Uni versity of Illinois, assisted by thirteen veterinarians. Poultry owner from a wide radius of Mattoo brought sick fowls to be examined. owners

This is said to have been the first clinic of this kind held in the state of Illinois. "I am very much taken up with the idea of holding free chicken clinics," said Dr. Tunnicliff, "and we at the university have been given an idea which we intend to carry out. I believe that much of the is due (Mr. Wiekery of the Wadle company, for suggesting a free said. Already there has been a demaid for more clinics, and I predict they will be-come general throughout the state this winter."

About ninety per cent of the fowly were found to be infected with warms. Dr. Tunnicliff said, which is the cause of starting many diseases in poultry, because of a weakened condition through the ravages of the

As a remedy for worms, Dr. Tunnicliff suggests the following feed To one gallon of oats and one gallor of wheat add three tablespoonfuls of common lye, cook the mixture thor oughly and feed it to the fowls

In addition to the worm infection one case of fowl tuberculosis was found, two cases of cholera, one case of fowl typhoid, several cases of roun and three turkeys were found to be infected with black head, for which no remedy is known.

was announced by Dr. Tunnicliff that he had agreed to take charge of another clinic at Sullivan the latter part of this month, and had received applications from Mt. Vern-on and other parts of central Illinois.

-By Courtesy Of Decatur Review.

-By Courtesy Of Decatur Review. To live to be ninety-four years of age is a thing which falls to the lot of few men, but to live and see all the children and grandchildren and grandchildren and grandchildren gather together on the ninety-fourth birthday is a still more wonderful thing, but this is what occurred at the reunion of the Jacob Pea family, on October 4, when it gathered in Decatur. Jacob Pea's home is in Sullivan, and he has lived here all his life, but he secretion of four, all the went to Decatur to the home of his daughter, Mr. and Mrs. With the exception of four, and his has lived here all his life, but wight, 270 East Division street, to celebrate hig ninety-fourth birthday and it. was

fault, as the report goes. The driv-er of the car stated that there being no black line down the center of the road and the further fact that a misty rain was falling, made it impossible to tell which side of the road he was on. Both cars were traveling at a fairly good rate of

The Harmison car, which is practically new; out only a few months ago, was brought to the Overland garage at this place. The fenders, running board, front and rear wheel, showed the worst damage, although the entire side of the car was battered and dented and the glass from the two doors and windows was broken. The Moon car suffered a smashed front wheel and axle, while the side of the car was dented and mashed. Only the glass in the front door was broken, however. The car was towed into the Dixon garage at this place.-Lovington Reporter.

REPORTS GOOD SALE. D. W. Suppes reports a good Chester White boar and gilt sale. A large crowd was present and most large crowd was present and/most of the offering was purchased by buyers from the surrounding towns. Best boars sold from \$45 to \$55, top \$57.50. Average of entire of-fering around \$40. The offering was highly praised by many of the farm-ers as well as breeders.

THE SETTLEMENT OF THE FRENCH DEBT. red benefit from pre-ue treatment. If] not honestly believe in treat your case cessfully, will send home without tak-any money. This hy I have continsettlement of the French The ebt still remains in the air. M Callaux returned to France without securing the terms he wanted. He returned to his native land because the President of the United States did not propose to have French statesmen tie up the United States with an agreement that was most indefinite in its terms. The President stands today as he stood since assuming the office of Chief Execu ive; in securing for our people an honest, just, fair recognition of the debt that France owes this country. He does not and never has had any desire to force upon France, or any other nation, an agreement that would work any hardship, but he has and still does, insist that the money that France borrowed from us came from the pockets of the citizens of the United States and that they are entitled to have the same repaid

Citizens of this country of French lescent are among those who helped subscribe the money to loan France They are firm in their determination that the land of their birth must play fair with the citizens of this country. A former Frenchman, on country. A former Frenchman, on descendents of Frenchmen, they feel that the foreign politicians are not acting fairly. They feel that it is a reflection upon the French" citizen. They feel that he either -has been mislead, or been told but half truths. Debts, whether they are between nations or individuals, are hard facts. France today is in a better way financially, physically, indus-trially, than Germany. If the latter country can pay the Allies six hun-dred and twenty-five million dollars a year France should at least be able to pay the interest she owes on her debt to us, and part of the principal. The colonial possessions of France are larger than they ever were be-fore. She has regained Alsace Lorraine; she possesses large, valu-able holdings of minerals; she has a gigantic steël-making organization and, incidentally, this has a lower production cost than obtains in any other country; and, from the very best sources obtainable, comes the word that France is really in a position to pay the debts.

A large part of the French press and numerous Frenchmen have tak-en keen delight in calling the United States a "Shylock." This is most unjust. The people of the United States want to be kind to France They want to be kind to all nations of the world, but the present at-titude of the French statesman is not conducive to amity. If the European Statesmen have an idea that the President stands alone in his aftitude regarding the payment of monies owed to the United States

they are very much mistaken, be-cause the people in every part of the land stand solidly back of the President in regard to his attitude on the collection of the money that Europe THE RED DEFEAT IN BRITAIN.

The American people are grati-fied to learn that the Russian sympathizers had been decisive'y defeated in the British labor conven-tion held recently. It will not do, however, to form the opinion that the Reds in Britain have been en-

tirely routed. As Ramsey McDon-it is just a question how lon ald, leader of the more conservative laborites, put it, "The situation is not so much changed as clarified." home games is the important

DAIRY SIRE TRAIN TO AID IN WAR ON SCRUBS.

Grade and scrub dairy bulls in this ction of the state are due for a sharp setback next month, according to plans which are heing made for the "Better Dairy Sire Special" which the Baltimore & Ohio railroad, in cooperation with the College of Agriculture, University of Illinois and other interested agencies, will operate through 14 counties in this ection during the second and third weeks in November. The train not only will bring farmers some convincing arguments on the worth of pure bred sires, but also will make it pos sible for them to get purebred sire right on the spot. Representatives of the Jersey, Guernsey and Holstein breed associations will have a total

and this

unemployment dole.

of 50 purebred bulls on the train so that farmers who are interested in putting a purebred sire at the head of their herd can buy such a sire when the train passes through their section of the state. Care will be taken when these 50 bulls are selected for the train to

see that they are true to breed type and from high producing dams. All of them will be ten months or more old and will be guaranteed to be free from tuberculosis. Arrangements for the sale of

good share of these bulls will be made before the train comes through this part of the state. Representa-tives of the breed associations will

visit the farm adviser in each county where the train will stop and in company with the adviser will try to see all farmers in that county who are interested in getting a bull from the train. Speeches, exhibits and demonstra-

tions will be among the features or the program which will be given during the half-day stop that the train will make at 19 different towns and be ten cars in the train and stops will be made at Flora. Iuka, Carlyle Breese, O'Fallon, Fairfield, Norris City. Ridgeway, Shawneetowo Lawrenceville, Summer, Olney, Al-tamont, Beecher City, Cowden, Pana, Taylorville, Springfield and Beards town. Arrangements are being made with

the business men in these various towns to give away a bred grade heifer to some farmer who visits the train at the different stops.

ILLINI READY TO BATTLE MICHIGAN Spurred on by the memories of the history-making game with Michi-gan last fall, Coach Bob Zuppke's Illinois football team is working at top speed to prepare for Saturday when the Wolverines will again in

vade the stadium bent on exacting retribution. The game should be a classic to go down in football history. Michigan fans will count their season uccess if Michigan wins. All of the tickets at the Illinois ticket office

were gone three weeks ago, and more than 67,000 spectators will watch the battle. But the Illini and their friends are

looking beyond to the Chicago game on November 7. Illinois has set it heart on winning to break the fam ous 21-21 deadlock of last year bu Chicago is sending down possibly the most feared team in the conference. Tickets are on their last legs. There will be a sellout-that is sure-and it is just a question how long the

Peoria this year and reports a large \$5.00; second prize, \$3.00, amount of interest in the same. Comics—First prize, \$3.00; sec

of a heated bin of slack coal in the basement of the church Monday night. There is little doubt that the night. coal would have burst into flames before morning and it would have likely meant the destruction of the fine new church building.

The choir was having its regular weekly rehearsal at the church, otherwise the janitor might have had no occasion to be on duty and the smouldering coal pile would have gone unnoticed until it became a mass of flames.

Mr. Head noticed smoke coming from the coal room. He took up a shovel of the coal and it was so hot that he could not hold his hand on it. He called in the pastor, Rev. Hess, and the latter called G. W Bryant. The three men got busy and moved out the coal into the furnace room and into another basement room, just south of where the regular bin is located. The men moved about about 22 tons of coal before they felt that it had been sufficiently scattered to be free from combustion.

It will be recalled that the Metho dist folks here. lost their church property a few years ago by fire thought to have come from an over heated furnace. Their new and present church plant is one of the inest and most complete to be found n the Illinois conference and have had it wiped out by a similar accident would have been a most apnalling loss.-Lovington Reporter.

CHAMBER OF COMMERCE. Forty members of the local Cham-er of Commerce enjoyed another ber of chicken dinner Monday evening, fol-lowing which J. A. Countace of Springfield, an official in the Central Illinois Public Service Company, gave an address on "Service." Mr.

Countace is a fine speaker and many pronounced it as one of the best talks that they ever heard. "At the November meeting the local Boy Scouts will be dinner guests

of the association, at which time they will listen to an address by Rev. W

B. Hopper of Sullivan. At the December meeting the as sociation will entertain the Arthur high school football squad and Mr. Countace has been invited to return and again address the association members and their guests.

The association and high school are sponsoring a band under the direction of Prof. Harlan D. Darling. -Arthur Graphic.

HALLOWE'EN AT SCHOOL. The Arthur grade school, 'under the auspicies of the Parent-Teachers' Association, will hold its annual Hallowe'en Festival and frolic at the school grounds on the evening of Friday, October 30. Refreshments will be served and prizes will be awarded by competent judges to the best masked children in the various lasses named below:

First and second grades and under school age—First prize, \$3.00; see ond prize, \$2.00.

ond prize, \$2.00. Serving will begin at 5 o'clock on Friday, October 30th. Don't forget the date.—Arthur Graphic.

COAL HEATS IN BIN AT M. E. CHURCH. The M. E. folks can thank Janitor R. R. Head for his timely discovery three new transformers in Arthur at three new transformers in Arthur at a cost of \$2,000 - each. They have three times the capacity of the old ones and the voltage of local light and power has been increased ac-cording to the local electricians, 25 per cent. It had been known for a long time that the old transformers were inadequate to carry the load.—Arthur Graphic.

UNITE TO FIGHT FOR FARM MARKETING ACT

Eight of the middle west state farm bureaus, representing the mid-west group of the American Farm Bureau Federation, have pledged themselves to fight with "unremit-ting and determined effort" toward the enactment of legislation in the next Congress to give agriculture equality with industry and labor according to information received by Farm Adviser Turner from the Illi nois Agricultural Association.

These states are Illinois, Iowa, Indiana, Ohio, Michigan, Wisconsin Missouri and Minnesota.

Observers of the rural legislative barometer regard this as an oper renewal of the determined figh nade by farm interests to gain pas age of the McNary-Haugen bill ir That fight had considerable 1924.support in the Middle West, especial ly in Iowa and Illinois where the lowa Farm Bureau Federation and the Illinois Agricultural Association were the strongest state units behind the measure, which was designed to place agriculture under the protec tive tariff system which the farmers assisted industry and labor in secur

ng. Failure of the McNary-Haugen bill did not divorce support from it in the middlewest, in fact, the defeat served to crystallize its adherents. Following is the text of the pledge

which was passed unanimously at the regular meeting of mid-west farm bureau officials at Chicago las week:

"The effort of the mid-west state farm bureaus to improve method of production and marketing, and to speed adjustments in farming t meet changing conditions, will b pushed vigorously in the future as i the past, but we insist that in addi tion to all the savings that can b made thereby, agriculture is entitle to and must be accorded the ful penefits of protective tariffs if the

American protective system for in-dustry it to be retained. "We call attention once more to the fact that-world prices of farm products will prevail in our domesti markets regardless of tariff sched ules since the surplus determines the

price of the whole crop, whether a nome or abroad. "We therefore pledge our unre mitting and determined effort to-ward the enactment of legislation to

give agriculture equality with industry and labor in the American pro tective system."

ILLINOIS DAIRY CATTLE BEING T B. TESTED. Nearly two-thirds of the dairy cows in Illinois have been tested forovine tuberculosis and placed unde rederal and state supervision accord ng to a report of the Illinois Agri ultural Association to the Moultri County Farm Bureau, which is base

"To be exact, 61.8 per cent or 730,602 milk cows were in the fav-ored class on October 1", states A. D. Lynch, director of the Association's dairy marketing department. "With only about 500,000 more cattle still to be tested, dairymen are looking forward to the not far distant day when they can tell the world that milk in Illinois is produced from cows free from tuberculosis:

"In September, 60,822 head o cattle were tested. Indications DRAINAGE NOTICE.

DRAINAGE MOTICE. To all persons interested: Public notice is hereby given— 1. That on the 2nd day of Oc-tober, A. D. 1925, there was filed in the County Court of the County of Moultrie and State of Illinois a pe-tition for the organization of a drainage district to be known as Randol Irainage District Number One of the Towns of Sullivan and Lovington, in the County of Moul-trie and State of Illinois, which said petition yet remains and is on file in said Court. 2. That the starting point, route, termini and general descrip-tion of the proposed work is as fol-lows:

ows:

Beginning at the starting point at or near the northeast corner of section fourteen (14,) Township fourteen (14,) North, Range five (5,) East of the third P. M., in the said county and state, the route shall run thence west along the public highway between section eleven (11,) in said township and range and said section fourteen (14,) to a point about eight (8,) rods east of the southwest corner of the southeast quarter of the southeast quarter of said section eleven (11,) thence southwest to a point about five (5,) rods south of the said southwest corner of the south-east quarter of the southeast quarter of said section eleven (11,) thence west to a point about fifteen (15,) rods west of the west line of the north-west quarter of the northeast quarter of said section fourteen (14,) and thence northwest to the terminus at or near the northwest corner of the northwest quarter of the southeast quarter of section ten (10,) in said township and range, and that the work shall consist of a main system of drainage tile beginning, running and termi-nating as above described with

Quality Gave Volume and Volume these Amazing Prices

Years of brilliant advancement in quality have given Hudson-Essex a leadership everyone knows and acknowledges.

It has given them the world's largest volume of 6-cylinder cars.

And to buyers, amazing price advantages, passed on from unequaled volume economies.

Yet it is not price, but popularity of the finest quality ever produced by Hudson-Essex, of famous Super-Six performance, reliability and fine appearance that motordom recognizes as the World's Greatest Values.

To all who know the facts it is the supreme type among "Sixes." In Essex, it brings the quality, performance and reliability of finest "Sixes" within reach of all.

eeds.

Students who carry, or rather at-empt to carry, more than four sub-acts are doing themselves an injus-ters are doing themselves an injustempt to carry, more than four sub-jects are doing themselves an injustice in more ways than one. In the writer's opinion there is no student minutes of play and was taken out of the game. It was too slick for end runs, so who can really carry five subjects well. A student may get grades well It was too slick for end runs, so Sullivan ploughed Lovington's line for good gains Friday. Lovington's line seemed to be the weakest depart-ment of their team, so Sullivan took above passing and not be well acquainted with the work he is trying to do. Grades are the smallest part of school work. Do you have suf-ficient knowledge of the subject to advantage of the situation but were unable to score because of penalties

ficient knowledge of the subject is use your knowledge intelligently? That is the question to ask and not "What grade did you make?" Ask "What grade did you make?" Ask yourselves, how much do I know about the courses I studied last year that I can use easily and accurately this year?

The students who try to, carry ex tra work are usually those who could be of great help in all of the student activities. Instead, they are too busy trying to do an impossible task that of doing "good" work in five subjects. The school activities out side of the classroom are very im-portant in your well being now. They will be when you leave here. They build up school traditions worth while. Do not be too busy to support your own organization.

Literary News.

The Agorian Literary Society met Friday, October 16. The president Collie Baker, read the constitution, including the two amendments. An interesting program followed consisting of: Duot_Maxing Robertso

The Best Dog On Earth. Perhaps no two people in the world would agree on the subject of "The Best Dog On Earth."

A certain class of ladies would im-mediately show you their darling little Ferdie, Clarence, or Peaches. The little dear would probably be taking his beauty nap on "mother's" arm: or you wight be there. Roscoe Lane has been absent the st week. Between running the arm; or you might be shown to a pile of costly robes in a huge easy farm and making passing grades in his studies, Roscoe has his hands in

chair. Upon searching these thorough-ly, you might be able to dig out a fluffy ball (the size of a healthy marble) to which you might have th

courage to apply the name "dog." Upon conferring with various other people you would meet with every breed and description of the dog family; from the tiny poodle to the Airdale, Great Dane, and German Police types. You might wander all over the

held at Decatur Saturday. Twenty schools represent this section and world looking at the long pedigrees every school except Arthur was rep-resented at the conference. Plans of the great blue ribbon winners, yet you could not confine the title of "Best Dog On Earth," to any one for the winter courses and grain and stock judging contests were made for

the coming year. Interesting features of the recent National Dairy Exposition held at Indianapolis, Ind., were reported by Mr. Iftner to the Animal Husbandry "Sic'em, Jack! Sick'em!" Then you would see a dusky form flash through the bush, hear the sound of ass. The report was as follows: The different dairy breed associa into the open would dash a dog closely followed by a barefoot, tan tions had exhibits designed to foster their particular breed. The Hols-tein Friesian Association of America ned, freckled, curley-haired young savage. You would arise, only to be confronted by a bristling, growling, announced that in the United States there are ten thousand boys and snapping dog ready to protect the life of his master and his "God", with his own; a dog which shared all that "God's" troubles and all his joys, girl club members who are raising Holsteins. Some of them will be the future breeders of note. They also showed an aged mother of nine a true friend and comrade. might be terrier, collie, shep teen calves. The American Jersey club exhibited Indiana's only Gold Medal herd, the property of R. W. Riggs of Inglefield, Ind. This airdale or a mixture of all breeds: yet you would be safe in taking the word of the little "God" that there herd of ten purchred Jerseys were put on test for one year. Six of the cows closed the test with over 500 was the "Best Dog On Earth." Glen Wright.
