SIXTY-FOURTH YEAR—NO. 14.

SULLIVAN, ILLINOIS, FRIDAY, APRIL 2, 1948—EIGHT PAGES

FIVE CENTS

17 CANDIDATES FILE FOR UNIT SCHOOL BOARD

Seventeen candidates had filed petitions for places on the ballot for directors of unit school district No. 300, when the deadline for filing expired at midnight Wednesday. Seven members will be chosen at the election to be held Saturday, April 10. Petitions for places on the ticket were filed in the office of County Superintendent of Schools Raymond Scheer, and names will appear on the ballot to be voted in the order of the time of filing.

The seventeen candidates, in the order of filing are:
James W. Shasteen, Sullivan twp., 13 N, R5E.
Earl Horn, Sullivan twp., 14 N, R5E.

Ivan D. Wood, Sullivan twp., 13 N, R5E.
William E. Elder, Sullivan twp., 13 N, R5E.

Clifford Houser, Whitley twp., 12 N, R5E.
Vernon Houchin, East Nelson twp., 13 N, R6E.

William C. Ingram, Sullivan twp., 13 N, R5E.
Ernie Freese, Jonathan Creek twp., 14 N, R6E.

Walter H. Jenkins, East Nelson twp., 13 N, R6E.
Lloyd R. Wacaser, Jonathan Creek twp., 14 N, R6E.

John Hoskins, East Nelson twp., 13 N, R6E.
W. M. Lane, Sullivan twp., 13 N, R5E.

T. H. Boyd, Sullivan twp., 13 N, R5E.
Guy W. Bolin, Jonathan Creek twp., 14 N, R6E.

John Fleschner, Whitley twp., 12 N, R5E.
Fred Maxedon, Sullivan twp., 13 N, R5E.

John Goodwin, Sullivan twp., 13 N, R5E.

In choosing a seven man board by a vote of the residents of the district, complications arise due to the regulation which stipulates, according to County Superintendent of Schools Raymond Scheer, that not more than three candidates can be elected to the board from any one township. Residence of the various candidates by townships will be designated on the ballot so that voters may determine how to cast their votes.

With nine candidates filing from Sullivan township there is a possibility that these candidates may receive more votes than candidates from East Nelson or Whitley, and yet not gain a place on the board, as only three persons can come from Sullivan township. Ballots will carry two sets of instructions. First, "to vote for seven members of the board"; second, "that not more than three persons can be elected from any one township."

Polls will be open from 12 noon to 7 p.m. Sullivan and Jonathan Creek township residents will vote in Sullivan at the City building; Whitley and East Nelson township residents at the Allenville village hall.

Married In Kentucky

Friends of Wilbur Donnell and Betty Wicker have just learned of the recent marriage at Morganfield, Ky. They were accompanied by Mr. and Mrs. Robert Hughes.

The bride wore a gray dress for her wedding and her corsage was of orchids. She is the daughter of Mr. and Mrs. Irvin Wicker of Bethany.

The bridegroom is the son of Mr. and Mrs. Edgar Donnell and graduated from Sullivan Township high school with the class of 1945. He served in the army for 19 months and is now employed at the West garage.

The young couple are making their home in Bethany with the bride's parents.

William Morford Held For Larceny

William Morford was placed in the county jail Tuesday, March 30, charged with larceny, after a warrant was signed for his arrest on Thursday of last week.

It is alleged that he stole two sets of silverware and sold them in Mattoon, and issued three bad checks.

A radio message was sent out by Sheriff Glenn Braden Tuesday, March 23, and he also sent a message to Matton police, who recovered the silverware a short time later.

Morford was apprehended at the Rainbow Inn on the Mississippi-Tennessee state line and was held in Selmer, Tenn.

Sheriff Glenn Braden and Deputy Ross Thomas drove to Selmer Monday and brought Morford back to Sullivan Tuesday, and placed him in the county jail.

SUIT AGAINST BILTRITE COMPANY IS DISMISSED

Last week, the suit by Albert Litwin against Biltrite Products Company of this city, in the circuit court, was dismissed with prejudice from the court calendar. It has also been reported that the suit against the company by Mr. Litwin, in the United States district court in Chicago had also been dropped.

The suit was filed here last year by Mr. Litwin, who was then a stockholder in the company. In his suit, he made a number of charges against the management at that time, asking that the company be dissolved and an accounting be made.

The Biltrite company plant here is located in the brick building, formerly occupied by the Sullivan Box Factory, south of the Brown Shoe company plant. They purchased the building from Hagerman and Harshman, and moved equipment here last year.

According to Harry C. Alberts, of Chicago, head of Biltrite, plans are going ahead for the opening of the local plant.

For News and Advertising

Thrifty shoppers should make plans to be in Sullivan on Wednesday, April 7. That is Dollar Day!

Merchants have searched their stocks for items on which they can offer low prices for the one-day selling event. They have gathered items of winter merchandise which they do not wish to carry over for another season. They have bought special items for the event; and they have cut prices on some popular lines to make the sale a success.

The event is sponsored by the Sullivan Chamber of Commerce. In charge are members of the retail trade committee. An intensive advertising campaign has been arranged, with newspaper space and circulars to be used in promoting the event.

Regular store hours will be observed. Early shoppers will get best bargains, it was stated by some committee members, as there is some low priced merchandise offered on which the quantity available is limited.

Sullivan Dollar days have been successful events over a long period of time. This year's Dollar Day is expected to out-shine any merchandising event of other years.

Thrifty shoppers, shoppers seeking bargains, everyone interested in stretching a dollar—making it go farther—will make plans to be in Sullivan on Wednesday, April 7.

Walker Co. Has Mobile Phone Unit Installed

The Earl Walker company has had a mobile telephone installed in Robert Keeler's car so that he may be reached by phone when he is away from his office. At present the calls must go through the mobile operator at Champaign, but in the near future there will be operators in both Decatur and Effingham.

The phone is a combination of radio and telephone with the phone installed in the front of the car. Should a call come in while there is no one to answer, a red signal flashes on and remains on until the call is answered. The receiving and sending set is in the trunk of the car. The unit was installed at Champaign.

Engagement Of Local Couple Is Announced

Mrs. Ruby Kenney has announced the engagement of her daughter, Mable, and Francis Whitchurch, son of Mr. and Mrs. Boyd Whitchurch.

Miss Kenney was formerly employed as cashier at the IGA market, and is now assisting her sister, Mrs. Margery Bathe, in Marge's Beauty shop.

Mr. Whitchurch is a student of Eastern Illinois State college in Charleston. No wedding date has been set.

55th Wedding Anniversary On April 5

Mr. and Mrs. George W. Thomason, who are visiting their daughters, Mrs. Leonard Tevis of Vandalia and Mrs. Wilbur H. Gaffner of Smithboro, will observe their fifty-fifth wedding anniversary on April 5.

Their daughters are planning a potluck dinner for them on Sunday, April 4.

Mr. and Mrs. Thomason have been in ill health but are somewhat better at the present time.

GARDEN CLUB WILL ENTERTAIN

The Garden club will entertain the Woman's club with a special program next Monday afternoon, beginning at 2 o'clock.

The committee has engaged some local talent, and a tea will follow the program.

BUILDING PERMITS

A building permit was issued to Robert Roney for alterations on a house at Monday night's meeting of the city council. An application by Owen G. Shank to erect a building on the lots in the rear of the Jibby building to be used as a cooler was turned down by the council. It was stated that the building would be located in the fire zone and would have to be of brick or other fire-proof construction.

More LIP

Yes, we've moved again. This time over on East Jefferson street. We're sharing an office there with the Railway Express Agency (Louie Myers). We personally, managed to duck the moving, coming in Tuesday morning after our two desks had been settled in place. That let us out of any discussion as to the placing, and we are quite satisfied with it that way. This move has been in the process of completion for some time, and we had hoped to have some new office furniture by the time it came about. Those pieces of furniture are still hard to get, however, and we just moved the old. We'll miss the atmosphere of refrigerators, radios, and electrical appliances, but we think the atmosphere

of office routine will be conducive to better work. We hope so.

A nearby daily newspaper has caused our efficient police chief, Carl Weakley, a lot of trouble. It seems that a Carl Weakley drove too fast in Decatur over the weekend and paid the usual fine and cost in that city's police court after a plea of guilty had been entered. Sullivan Policeman Carl Weakley denies for all to hear that he was the man in police court. Residents who know him better than this writer whisper confidentially about it. What are we to believe, being comparatively newcomers to Sullivan. All we can do is repeat: "Carl denies it."

Mrs. Lip is enjoying herself no end endeavoring to identify the various plants and flowers now

coming up at our recently acquired home. She reads all the books and magazines, compares pictures, and speculates. We appeal to some of the horticulturists to help her. When snow covered the ground she was wondering what she was going to buy to fill in the spaces. Now she is wondering where she is going to find room to plant the new things that she bought, including the apple tree that grows six varieties.

PHARMACOLOGIST PERFECTS AN AMAZING FORMULA FOR SICK PEOPLE

Works Quickly To Overcome Conditions Which May Have Been Causing Untold Misery Over A Long Period Of Time

Since countless ages, man has been seeking a panacea for his ills. Hordes of people have sought alleviation at the spas of Europe and here at home. Baths, mineral waters and literally thousands of remedies have been used by countless people. Now, a pharmacologist, who has spent many years in prescription work, with ample opportunity for research, has perfected an amazing formula that has helped thousands of people back to health. From letters on file, many many people have reported relief, after using this formula, from rheumatic pain, kidney ailments, getting up nights; relief from sour stomach, gas, bloating and many other ailments. This formula, called Rentox is compounded from 26 nature's own herbs and other splendid ingredients. It contains: Iron, Black Cohosh, Barberry, Burdock, Dandelion, Gentian, Licorice, Poke, Mandrake, Sarsaparilla Roots, Cascara Bark, Buchu Leaves, Juniper Berries, Senna Leaves, Aloes, Magnesium Sulphate, Wild Cherry Bark,

Capsicum, Stillingia, Salicylic Acid, Glycerine, Oil Sassafras, Methyl Salicylate, 1/10 of 1% Sodium Benzoate. **Quick Action** Users of this remedy report remarkable results within a very short time. Now you can help chase those strength-sapping symptoms easily, pleasantly, quickly and inexpensively. Rentox relieves constipation within a few hours and helps to tone the bowels into a more rhythmic action. Helps to build rich, red blood; creates a better appetite and gives you a real zest for food. Makes you feel more like living. Relieves indigestion, sour stomach, bloating and gas quickly. By removing poisonous waste matter from the system, many torturing rheumatic pains disappear. Rentox contains no narcotics, opiates or calomel and will not make you sick, gripe or nauseate you in the slightest degree. It can be taken by every member of the family. You can now get this splendid medicine from any druggist in Illinois. Just ask for 8 ounces of Rentox Compound.

Peace Comes . . .

CASH IN ON SCRAP

STEEL MILLS NEED SCRAP METAL FROM YOUR FARM

Supplies of scrap for the steel furnaces are critically low. The furnaces thrive on a diet of about equal portions of pig iron and scrap. More scrap is urgently needed, if there is to be enough steel for making farm implements and countless other products. More than three million tons of steel scrap lie idle

on America's farms, according to the latest estimates—scrap that only litters up the place, scrap that is wasted where it is. How much is there on your farm? How about the old car body, that rusted cultivator, those old plow bottoms, discarded tools? Every bit helps—and it is needed now.

IT'S HARVEST TIME FOR SCRAP

There's a bumper scrap crop to be harvested this spring—and there's money in it for you. Your scrap dealer will pay for everything usable. You can do three good turns in one scrap harvest:

1. You make some money on what you can't use.
2. You get your outdoor spring housecleaning done.
3. You help the steel mills turn out more steel for the implements and equipment you'd like to have on your farm.

Scrap means savings to you—if you'll collect it and sell it. On the first rainy day, when you can't plow or sow or cultivate, put on your oldest clothes and get that scrap together.

HERE'S WHAT TO DO

1. Pile up every bit of iron and steel scrap on your place.
2. Take a payload into town the next time you go. You'll make more money out of it that way.
3. If you can't drive it in, call your scrap dealer and ask him to pick it up.
4. If there is no scrap dealer near you, call your implement dealer. Ask him how to get your scrap started toward the steel furnaces.

Specimen Ballot

Below is a true and correct copy of the separate ballot to be voted at the Primary Election in the nineteen precincts of Moultrie County, State of Illinois, on Tuesday, the 13th of April, A. D. 1948.

RALPH HANRAHAN
County Clerk

"Shall an annual tax in a maximum amount of .00029 mill on the dollar of the full valuation, as equalized by the Department of Revenue, State of Illinois, of all the taxable property of Moultrie County be levied for airport purposes, provided that no land shall be purchased but that a portion of the present County Farm be utilized for the land area required for such purposes, as specified in Moultrie County Airports Commission Request "A"?"	YES	
	NO	

1. (The main capital expense will be incurred during the first year, for the county's share of development expense, i. e. hangar and office building; thereafter, only such tax levy will need be made as will be required for maintenance, repair, small items of equipment, and running expenses, and only to the extent that probable operating revenues will not equal such current expenses.)

2. (The portion of the County Farm which would be utilized for airport purposes would be the North 156 acres. Of this area approximately 48 acres would be utilized for run-ways and administration area; the remainder would be farmed as a revenue producing measure.)

3. (The above proposition does not mean that the maximum amount will be levied every year.)

(The following will appear on the back of the ballot.)

MEN GET PEP!
RESTORE VIGOR
Why feel old at 40, 60 or more—why be the victim of the older years? If life apparently has lost its zest, you again may be able to enjoy life as you did in your youth. If added years have slowed down your vim, vitality and youthful pleasures, here is a simple method that may change your whole outlook on life. Why not try and regain the pleasures of living you once enjoyed? Why be discouraged—why not regain the verve and zest of a much younger man? Many men are obtaining amazing results with Beytron tablets. Just ask your druggist for Beytron. (Each tablet sealed to retain high potency.) Women too find Beytron helpful.

ATTEND YOUR TOWN MEETING

With Illinois farm real estate taxes now at an all-time high, Bert Vandervliet, director of the Illinois Agricultural Association department of taxation, said today that farmers should have record attendance at their town meeting April 6.

This year annual town meetings will be held at 2 p. m., Tuesday, April 6 as required by law. This law applies to all of the 1400 townships in downstate township governed counties.

"If you object to your taxes being higher than at any time in history," Vandervliet said, "now is the time to do something about it. Attend your town meeting."

Vandervliet pointed out that about one hour after the start of the town meetings \$20,000,000 will have been appropriated throughout the state for the cost of township services for the ensuing year.

Emphasizing the need for a close watch on the township purse strings, Vandervliet said that some counties spend five times as much for the same services as other counties practically identical in size, population, wealth, and social conditions.

SWINE DAY AT U. OF I. APRIL 8

Hog producers in Moultrie County are invited to attend Swine Growers' Day at the University of Illinois, Urbana, Thursday, April 8.

An informal inspection beginning at 9:00 a. m. of the swine farm and its herd will be the first event on the program. Herds of Poland Chinas, Duroc Jerseys, Chester Whites and Hampshires will be observed. Equipment used in handling 50 sows with litters and 125 market hogs will be on display.

Results of feeding tests will be reported during the morning program by members of the swine division in the University auditorium.

Dr. C. C. Morrill, College of Veterinary Medicine will discuss "necro" and its control and treatment at the afternoon session; Leslie W. Heiser, Fisher, Illinois, president of the Illinois Swine Herd Improvement Association, will explain a brood sow testing program; and Dr. W. A. Craft, Ames, Iowa, will report on progressive swine breeding.

DISTRICT BOWLING PLANNED FOR SPORTS FESTIVAL

The dates for the 1948 Illinois Farm Sports Festival have been set for August 26 and 27 on the campus at the University of Illinois. Due to the fact that participation in bowling and softball has grown so large, it has been decided to have district contests this year. The state has been divided into sixteen districts of six or seven counties each. District Nine, comprising DeWitt, Champaign, Vermilion, Moultrie and Douglas was represented by several from each county at a meeting held in Champaign last week.

District Nine plans to have a district bowling play-off in Champaign sometime between May 1 and May 15 to determine the district's winning team and individual high bowlers for the Sports Festival in August.

Each county can have a team of five bowlers and in addition five individual bowlers entered in the District Contest.

It is thought that a county play-off will likely be arranged sometime during April in both men's and women's bowling. The county play-off would thereby determine the bowlers to represent the county in the district contest.

M. E. Huelster, General Agent of Farm Bureau Insurance Service, will be in charge of lining up the contestants for men's bowling. Mrs. Walter Welsh, Moultrie County Home Bureau Recreation Chairman, will be in charge of the women's bowling. All Farm or Home Bureau members who wish to participate in the bowling should contact one of these.

ON THE WAY UP TOWARD BETTER THINGS—

In Moultrie County there are 85 Farm Bureau members to every 100 farmers. It is my honest opinion that if all farmers in the County knew the many activities which your Farm Bureau performs—we would have almost a 100 per cent membership.

Your Farm Bureau—through its unlimited efforts in the State and National Capitals has, and is, saving each of us several dollars annually.

Its educational program has kept the farmers in Moultrie County well informed at all times in new scientific developments in the agricultural field. Through 4-H Clubs, it is preparing our boys and girls to be better farmers.

There are many other services your Farm Bureau does for you. As you know we are in a new world and all should carry the load together.

We ask you to join the Farm Bureau and work with your neighbors in helping to make farming more pleasant for all. You need a strong Farm Bureau and the Farm Bureau needs you.

CLEAN-UP MONTH

April is designated as Spring Clean-Up month. It is sponsored by the National Fire Protection Association in cooperation with other groups, such as the National Safety Council and U. S. Department of Agriculture. In Illinois The Extension Service and Illinois Agricultural Association are co-sponsors of this activity. The campaign gives every community an opportunity to "clean-up" "paint up" and "fresh up" before the summer season begins.

Such an effort in Moultrie County will not only eliminate many fire hazards but will also get rid of many health hazards.

CLOVER MADE THE DIFFERENCE

Growing more and better clovers and alfalfa is the important problem in soil improvement on most Illinois soils.

This is certainly not a new discovery, but it is a practice that has not yet been generally adopted in the grain sections of the state. The need for growing clover even on the best land has been demonstrated in a costly lesson during the drought of the past summer. A severe shortage of nitrogen along with a lack of moisture caused severe firing and low yields on land that had not had clover. Other fields of corn where clover has been grown showed little or no firing. The value of legumes, such as clover and alfalfa, has been clearly established by the University of Illinois soil experiment fields and the experience of farmers over the past 40 years.

One of these experiments to study the value of clover is being carried on at the University soil experiment field in Macoupin county. On land where organic matter and cheap home-grown nitrogen fertilizer in the form of sweet clover has been plowed under, the corn made 74 bushels as a four-year average. Where no sweet clover has been grown the soil had only enough nitrogen and organic matter to produce 42 bush-

els. Thus, a sweet clover crop grown regularly in the rotation has increased the yield of corn 32 bushels to the acre.

To supply enough organic matter and nitrogen, heavy crops of clover need to be grown every three or four years. The application of limestone without the growing of clovers will not build up the fertility of the soil and will not increase crop yields to any extent. The benefits from limestone come only after clover has been grown to build up the nitrogen and organic matter of the soil.

On many soils limestone alone is not enough to grow heavy crops of clover. On about 75 percent of the farmland in the state, phosphate is needed and on many soils potash as well as limestone and phosphate is needed for either sweet clover, red clover, or alfalfa.

There is no need to waste time and money in guessing what the soil needs. Soil tests will tell where limestone, phosphorus, and potash are needed and how much is needed to the acre. Soil testing is available to all farmers in the state through the county farm adviser who is the extension representative of the University of Illinois.—C. M. Linsley—Extension Service, University of Illinois.

GUERNSEY BREEDERS FORM COUNTY CLUB

Guernsey cattle breeders in Moultrie County met one evening last week and formed the Moultrie County Guernsey Cattle club. There were 18 breeders present for the meeting and they were assisted by George Campbell, Fieldman for the Illinois Guernsey Breeders Association and Jesse E. Tuttle, State Secretary.

Officers and directors elected by the County group are:

President—George L. Todd, Sullivan; Vice president—Otho W. Snyder, Dalton City; Secretary Treasurer—Leon Graven, Sullivan; Directors—D. W. Rozene, Sullivan; Delmar Elder, Sullivan; Wilbur Hendrickson, Arthur.

The club outlined a five point program as follows:

1. To promote Better Guernsey cattle
 2. To hold a "Type School" in July
 3. To promote and encourage F. F. A. and 4-H Guernsey Projects
 4. To encourage participation in the Central Illinois Dairy Show and Wabash Valley Parish show
 5. To encourage every breeder to become a member of Illinois Guernsey Breeder's Association.
- Plans were discussed by the group for locating and finding suitable registered Guernsey heifers and calves for 4-H Club and F. F. A. members for their projects.

KILLING WEEDS WITH 2, 4-D

2, 4-D is a powerful weapon. So use it with care.

In the past three years, 2, 4-D has become the most widely used chemical weedkiller in this country. But 2, 4-D affects different plants differently. So, remember, the idea is to use it to kill weeds and not to damage other plants.

The slightest trace of 2, 4-D will kill some plants and you can't put enough of it on some other plants to hurt them at all.

Weed specialists of the U. S. Department of Agriculture say that, in general, grasses are highly resistant to 2, 4-D. So you can often spray lawns, grain fields and corn with 2, 4-D solution and kill the weeds without injuring the crop.

2, 4-D has proved most useful in eradicating broadleaved weeds like wild mustard, cocklebur and ragweed. But, remember, it will also kill or severely injure other broadleaved plants, including nearly all legumes, most vegetables, garden flowers and shrubbery.

In using 2, 4-D close to flowers, shrubbery, vegetables or other valuable plants, spray or dust with care, and do it on days when there's little or no wind.

CLAAR SPEAKER FOR NEW MEMBER MEETING APRIL 8

HARRY B. CLAAR

Harry B. Claar, District Organization Director for the Illinois Agricultural Association, will be the speaker for the Annual New Member Dinner - Meeting to be held at the Lovington Methodist church Thursday, April 8, 6:30 p. m.

As has been the custom for several years, all new Farm Bureau members since last year's meeting, their wives or husbands and all those who have assisted in organization membership work are being invited. Organization Director Brewer is asking all those invited to make their dinner reservations by returning the card enclosed with their invitation, by tomorrow, April 3.

Lloyd Wacaser, Organization Chairman for Moultrie County Farm Bureau is program chairman for the meeting. His committee is arranging for some entertainment during the evening.

The dinner will be served by the ladies of the Lovington Methodist church.

SEVENTY YEARS AGO—

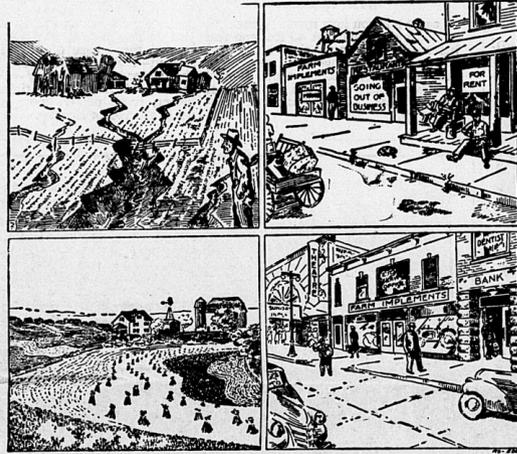

Mr. H. L. Dick of Arthur was in the office a few days ago and gave us some interesting information on the trend of land prices in the last 70 years. Mr. Dick had attended the Meece Estate sale recently at Monticello where 135 acres of land sold at \$420 per acre.

Forty acres of the Meece land laid next to his old homestead in Lowe township. He compared this forty with a forty acre tract which he bought 70 years ago for \$25 an acre. He bought the forty acres 70 years ago when it was being sold to satisfy a \$500 mortgage. Taxes on the forty acres at that time were \$9.00.

Mr. Dick is an active gentleman at 90 years and is enthusiastically in favor of soil conservation.

Approximately 28 percent of Illinois cropland is level. About 45 percent has more than a 2 percent slope, and 9 percent is river and creek bottomland.

As The Land Goes—So Goes Man!

Here we have two sets of pictures. The two at the top show what can happen and the large gullies shown in the upper left picture are mainly the reason. The influence of erosion is tragic. Tragic not only for the farm, but the business district of the town as well. The farm implement store has moved, the restaurant "going out of business" and the nearby building for rent.

In the lower left picture we see a thriving farm with its soil held in place by conservation practices such as waterways, grass strips and contouring. The corresponding activity in the town is good.

There is no more land to lose. Actually we need more good land for crops now so that some of the poorer land can be put back in grass.

A farm conservation plan developed by you with the assistance of the Conservationist for the Moultrie County Soil Conservation District, will help you do and apply the conservation practices that will keep your soil in place. For further information see Charles Roodhouse, Conservationist, 110 E. Harrison in Sullivan.

STRAWBERRY GROWING TIP

This new way of growing strawberries is found to save labor, space and produce larger berries.

Early in the spring as soon as your strawberries in your old patch are large enough to transplant, remove the plants with soil around the roots and plant your new rows where you are going to have tomatoes. On soil high in fertility, place your berry rows three feet apart and the plants twelve inches apart in the row. When it is time to plant tomatoes place them in between the strawberry rows. This will make your tomatoes and strawberry rows 18 inches apart. When hoeing the weeds out of your tomatoes you will keep the berries clean.

In July when your tomatoes cover the ground you will feel you have done the wrong thing. Don't worry about the strawberries. They like it and will take care of themselves. Leave the tomatoes on the patch after the frost kills the vines and throw a few leaves or straw over them.

The following spring remove the old vines and leaves and you will have a nice thinpatch of berries.

How Much is Each Pig Costing YOU?

AN AVERAGE SOW requires approximately 1600 pounds of feed during gestation and lactation. This represents about a \$65 feed bill with present feed prices. Profits will depend on the number of pigs weaned per litter.

BLUE SEAL PIG & SOW SUPPLEMENT

Diet of the sow during gestation and lactation is a big factor in the number of pigs that will be weaned. BLUE SEAL PIG AND SOW SUPPLEMENT contains these important vitamins, minerals, and high quality proteins. BLUE SEAL PIG AND SOW SUPPLEMENT will help you wean large, healthy litters at a low cost per pig.

Eat Plenty and Lose Ugly Fat With Ease

Try This Amazing Home Recipe For Taking Off Weight Without Starvation Diet

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your drugist and ask for four ounces of liquid Rennel Concentrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

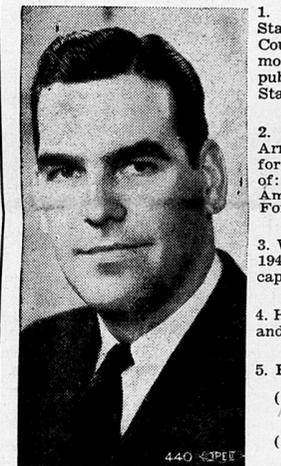

Evanston Lady Lost 28 Pounds With Rennel
"I am very thankful to you for Rennel and have lost 28 lbs. I have been feeling fine and have never had any ill effects while taking Rennel. I would advise anyone wishing to reduce to take Rennel." Mrs. George Miller, 3200 Grant St., Evanston, Ill.

Centralia Man Lost 40 Pounds With Rennel
"I can't tell you how much Rennel has helped me. I have lost 40 lbs. and feel better in every way. I sleep better and am no longer troubled with gas on my stomach. I have recommended Rennel to several people and am still using it myself." Mr. S. W. Ferguson, Centralia, Ill.

Rennel Is Wonderful Says Mommec Lady
"I have lost 50 lbs. with Rennel and feel much better. Rennel is simple to make and take. I have told many friends about this wonderful reducer and know that they will be as pleased with it as I am." Marie Brooke, Rt. 1, Mommec, Ill.

East Moline Lady Lost 50 Lbs.
"Since I started taking Rennel I have been losing weight right along. So far I have lost 50 lbs. Rennel has done wonders for me and I feel much better." Mrs. Elsie Rockwell, Box 703, East Moline, Ill.

No Diet Necessary
When you buy Rennel you buy a preparation for taking off weight. You do not pay for a printed diet. Rennel is not a vitamin tablet, to fortify you against weakness while on a starvation diet. You need never know a hungry moment while reducing with Rennel. It contains no harmful drugs, but DOES contain ingredients to make you feel BETTER. Rennel when mixed with grapefruit juice does this: First—Cuts down your desire for sweets and fatty foods, but you do not have to FORCE yourself. Rennel takes care of your DESIRE. Second—Dehydrates and eliminates, so that water is carried away—almost like melting fat. At the same time, you feel better, more peppy, more alive, but never starved or hungry.
