He is expecting as his assistant Dr. Morgan of Heron formerly president of the State Board of Health. All are invited.

HEALTH AND HAPPINESS DEPEND UPON YOUR LIVER

That sluggish liver with its sluggish flow of bile is what makes the world look so dark at times. Dr. King's New Life Pills go straight to the root of the difficulty by waking up the action of the liver and increasing the bile. Dr. King's New Life's Pills will cause the bowels to act more freely and drive away those "moody days". 25c a bottle adv

Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

Why is it men who are as sharp as tacks in most things are as careless as an infant in others?

Get in a car and drive around the country and you will see farm implements everywhere exposed to the elements, plows standing in the fields, mowers, rakes, wagons, and dozens of implements out in the rain from January to December. Lift a five spot from the pocket of one of those fellows and he will want to either lick you or send you to the penitentiary to square up for his loss. But he lets many times that amount go to rack and ruin in exposing his machinery and implements to the elements without an apparent thought as to their value. Queer—but it's true.—Ex.

You Can If You Will.

Would you increase the value of your town property if you could? It's easy to do and worth doing. Get busy on it; clean it up; repair and paint up; grade your grounds, if they need it; keep your walks in good condition and add new ones where required; cut the weeds and keep them down, both on and adjacent to your property; don't throw trash in the street or the back yard; keep up your fences, if you have them; grow plenty of flowers and neat shrubbery, and MAKE IT A PLACE OF BEAUTY.

Then go around and brag like the dickens to your neighbor about YOUR place, and keep on bragging until you make him jealous of its beauties and he goes to work and does the same with his.

Then let him in on the secret and start him out to rubbing it into his neighbors, and see that he keeps it up until they, too, become tired of the contrast and the bragging and get busy on their own property with a determination to outdo the rest of you.

And in time the whole town will become jealous of the property of each other and every fellow will be whooping it up to see who can have the most attractive place.

Then the traveling public will come along and take notice, and go away and talk of the beauties of our town and the thriftiness of our people, and other people will want to come and live in such a fine community.

And isn't it easy to see that your property then will be worth nearly double what it is today?—Ex.

PLAYERS HAVE AIDED IN TEAMS' SUCCESS

Vic Saier and Buck Weaver.

The Chicago teams in both National and American leagues have been either on the top or very close to the top of the pennant races all season, and no two players have contributed more to the success of the rival organizations than Vic Saier and Buck Weaver. Saier is the hard-hitting, smooth-working first baseman of the Chicago Cubs. He is rated as one of the most dangerous men in a pinch in the older league. He is hitting well over the .300 mark and, in addition, leads the league in long-distance drives. Weaver is the shortstop of the White Sox, one of the most sensational fielders in his position in the American league. He is also a good hitter, and a base runner better than the average.

LEARN JOHNSON IS BEATABLE FOOTBALL SEASON NOW HERE

Previous to This Season It Was Custom of Opposing Managers to Send Weak Pitchers Against Him.

This looks as if it might be about the hardest year that Walter Johnson has had. There are seven clubs in the American league that are after him this year. When Johnson was at the peak of his game he had the American league rolling over and playing dead for him. It was the understanding that when Johnson pitched he was sure to win, so the managers got into the habit of sending in weak pitchers to oppose him. In those days the Washington club got runs for Johnson.

It's another story now. The other seven clubs have learned that Johnson is beatable; that if one keeps his eyes open and his muscles taut he is likely to be able to whang the ball

Walter Johnson.

back as fast as it comes up. To beat Johnson gives a club prestige. So the attitude of the seven managers has changed. They used to say when Johnson started pitching, "Well, here's a game gone." Now they send in their strongest pitchers and fight harder against Johnson than against any other pitcher.

The Washington club finds it harder to make runs for Johnson than any other of its pitchers, and the Kansas comet is learning that the life of the conspicuous is not always a happy one.

Will Bear Watching.

Ducky Henderson, pitcher of the Charleston (W. Va.) team, pitched two games the other day and shut the other fellows out without a hit in the first game and allowed only five hits in the second game.

Boy Pitches Remarkable Game.

Pitcher Maden Harris, nineteen years old, of Dallas, Texas, struck out 20 out of 29 batters to face him. He will be watched by the big league scouts for further records.

Appearance of Annual Guide Sounds Doom of Summer—Rough Play is Eliminated From Game.

Summer's doom is sounded, as it always has been for more years than Walter Camp cares to remember, by the appearance of the annual football guide from the pen of Yale's justly famous football alumnus. The book is full of new information, not the least of which is the codification of the rules for 1915 and the schedules of practically every school and college eleven in the country.

As has been the case since 1905, when the first great reform wave struck football, the essence of most of the changes in the rules this season has to do with the elimination of rough play. Furthermore, the committee has taken a half step in the direction of numbering all players on the field by recommending that numbers be worn. The success which numbering players in college basketball games and in the few games in which numbers were used by football teams last fall has achieved, brought the rules committee around to the new way of thinking.

The presence of a field judge on the gridiron has been made obligatory. This means that henceforth there will be three officials on the field of play and the head linesman on the sidelines. It is from the linesman that most of the duties of the field judge have been taken, the object being to leave the former free to observe the particular province of the game which he is detailed to watch, particularly offside play.

Already some of the college squads have begun work, and more than one small boy has ushered in the season on the vacant lots with bangs and bruises.

SPORT NOW DEAD IN CANADA

Hundreds of Leading Athletes of Dominion Have Shouldered Guns and Are Fighting in Europe.

Sport throughout the Dominion of Canada is as dead as the proverbial doornail.

The reason for it all is the war, and until the great European conflict has passed into history Canadians will be without sport on a major scale. Efforts to hold local tournaments and national track and field championships have been fairly successful, but on the whole interest has been lacking.

Travers Never Musses the Ground.

Jerry Travers is said not to have swung on a ball and missed or taken up the sod behind a ball for a three-inch shot since the days when he used to play around in his back yard and holed out his ball by hitting a tree. Many duffers who swing on the ball and fracture a rib without touching the thing are said to be slightly envious of Travers' little weakness in being able to get off a straight ball and true about every time he tries his hand.

Speed of Ball Games.

Silk O'Laughlin says the speed with which a ball game is played depends on the pitchers, but it has always looked as if the umpires had a lot to do with it.

HAS PREHENSILE FEET

"Back to Nature" Shoes Made Star Pitcher of Benton.

Success of New York Giants' New Hurler Due to Discovery of Sane and Sensible Style of Foot-Gear While Working

There was some question as to the status of Rube Benton, former Cincinnati pitcher, until it was finally decided that he was entitled to wear the uniform of a New York Giant.

The pitching of Mr. Benton continues to be wonderful beyond all belief, gorgeous without a chance of rivalry. Game after game, without enough hits off him to shake an ounce of dust out of a carpet! According to one of Mr. Benton's friends, the pitcher's success is due to his discovering a sane and sensible style of foot-gear.

Down in No'th Calliny they say that Rube has prehensile feet, and when he was the terror of that region he worked in soft moccasins, enabling him to grip the slab with his hoofs, and thus get extra leverage on every ball.

Ordinary shoes hampered him; he slid off the hill whenever he tried to shut his toes, and so he wasn't showing his real versatility. This year, Mr. Benton's shoes are only leather on top—below, they are excavated, so that his little tootsies can peek out.

Rube Benton.

wander around, and coyly dive out and in as the occasion may require.

When pitching, he takes a firm toe hold upon the slab, and thus adds power to the force of each delivery, as well as giving great assistance to his control. You have to hand it to Mr. Benton—his native ingenuity could not be restrained, even by modern shoe leather.

YANKS WANT CHARMED PENNY

Captain Huston Wants to Secure Twin Brother of Stallings Luck Bringer—Rice Spurs Offer.

A bundle of regular U. S. green-back money was offered for the twin brother of the penny that won a pennant and a world's series for George Stallings, chief of the Boston Braves.

Captain Tillinghast Huston, part owner of the Yankees, made the offer. Captain Cushman Rice, the foremost American in Cuba and the owner of the penny, spurned it. And now "Cap" Rice fears that "Cap" Huston will bang him on the knob some dark night and try to take the penny away from him, or hire someone to burglarize his rooms.

Cap Huston wants the penny so that he can pass it along to "Wild Bill" Donovan, manager of the Yankees. "Wild Bill" wants the penny because he feels that if he gets it he can win a pennant and a world's series just as did George Stallings. Cap Rice gave the penny to Stallings early last summer. At that time the Braves were hopelessly in the rut.

"Take this, George, and keep it with you. It'll bring you luck," said Cap Rice.

Stallings took the penny—and everybody knows what happened afterward. On the same day that Stallings got that penny the Braves won a game. The next day they won another. And they continued to win until there wasn't any more use of winning. They had won everything in sight.

Regular Job for Sister.

The report that the Boston Red Sox had offered Dick Hoblitzel and a bunch of cash for George Sisler of the Browns brought out a statement from Manager Branch Rickey as to his intentions regarding Sisler. The college phenom will be played regularly on first base, says Rickey, as soon as he can land another outfielder and a pitcher on whom dependence can be put. There has been some criticism of Rickey because he has shifted Sisler around, but the manager of the Browns realizes as well as any one else the advisability of leaving Sisler in one position and will put him there just as soon as he can do so.

AMMUNITION FOR TURKS IN GALLIOLI

Caravan of camels laden with munitions for the Turks on the Gallipoli peninsula, passing through a Turkish village.

HAULING TORPEDO THROUGH NEW YORK STREETS

An unusual sight that attracted much attention in New York was this modern Whitehead torpedo being hauled through the streets. It was lent by Secretary of the Navy Daniels to the American Defense society to be used as an exhibit in the preparedness campaign. The torpedo is 17 feet long and weighs 1,700 pounds. It could sink the largest ship afloat.

NEW AUSTRIAN ARMED LOCOMOTIVE

The Austrians have placed rapid-fire guns behind armor plates on the rear ends of locomotives and have been using the device with great effect against the Russians in Galicia.

EDWIN GOULD AT PLAY

Edwin Gould, director and part owner of more than a dozen railroads and commercial enterprises, keeps in condition by playing tennis, of which he is very fond. This photograph was taken on the courts at Coronado Beach, California.

FRENCH WOMEN MAKE AMMUNITION

This photograph shows a scene now common in France, where the women have largely taken the place of men in the ammunition factories. They are seen filling shells with shrapnel.

Mackensen No Scot.
The idea current in the Scottish press that General von Mackensen is a Highlander gone astray is quite erroneous. One finds on the continent occasional traces of Scottish names slightly transformed to fit their surroundings. They are common enough in Holland, thanks to the famous eighteenth century regiment of the Scots-Dutch, and we have an example in the Norwegian pianist, Grieg, whose ancestors, Groigs of Arboeth, settled in Bergen, in Norway. Von Mackensen is no sort of a Mackenzie. He takes his name from the village of Mackensen, on the Solling, a small agricultural spot in Hanover, not far from the once pleasant town of Hildesheim. Like most families who derive their names from the soil, General von Mackensen comes from a very old family, though its patent of nobility is entirely modern. — Manchester Guardian.

Mineral Waters.

According to the annual statement on the production of mineral waters in 1914, now available for distribution by the geological survey, 54,358,466 gallons of mineral water were sold during the year. This quantity came from 829 commercial springs and had a value of \$4,892,328.
