

Dear Suzie—

December 22, 1937.

I'm sorry, but in this last minute mad rush of lessons, shopping, and what not, I simply can't find even a few minutes to write you my usual letter.

Merry Christmas,

Patty

Sports Review (By Dale Smith.)

Sullivan High Shows Form In Handling Tuscola A 38 To 17 Okav Loss. Pated by the sharp shooting of Kent Bone, who tossed in seven buckets and two free throws, an inspired Sullivan high school basketball team thrilled a small band of cage fans here Friday night with a furious 38 to 17 victory over Rex Benoit's Tuscola Novelists.

Improved rebounding and ball handling especially apparent in the second quarter, gave Sullivan high school followers a glimpse of one of the best Red and Black combinations to perform on the local hardwoods since the 1934-35 campaign. It was the first Okav Valley conference win for the Dennismen in as many starts while it was Tuscola's initial loss in loop activity in their only game. Friday's win ran the Redshirts winning streak to four consecutive games.

Coach Dennis' boys wasted little time in jumping off to a flying start. Some brilliant shooting on the part of Bill Shasteen and Kent Bone was backed up by some expert rebounding. Sullivan pulled away early in the opening period to build up a 21 to 4 advantage at intermission. Tuscola fired away from all angles of the court but were having trouble with "Old Lady Misfortune." Coach Dennis' famed man-to-man defense was functioning with success while the Redshirts had little difficulty in shifting through Tuscola's zone defense for easy pot shots.

Elder Checks High Scoring Artist. Junior Moore, high scoring Tuscola forward, was limited to two field goals due to a fine piece of defensive work on the part of Wayne "Little Bear" Elder. A week before the Sullivan game Moore popped in baskets from all positions to lead the Tuscola team to an impressive victory over Les Moyer's Champaign Terriers. From all indications the Reds were looking forward to an unhappy evening but by their brilliant work against Tuscola, it is the general opinion that the locals must receive consideration as a possible contender for the Okav crown.

A Welcome Addition. An injured knee received in the game with the Alumni before the opening game forced Captain Kent Bone out of the first game with Shelbyville. Incidentally Sullivan dropped this tussle by a lopsided count. Our next game took place at Lovington. He wasn't in the peak of condition for this tussle but participated anyway. Lovington won in the closing minutes of play. From this game on, the former Bethany prodigy quickly is hogging the spotlight. His services are much appreciated at this time.

Tuscola Reserves Winner Of Tilt From Sullivan, 24-23. Tuscola and Sullivan Reserves locked in a fast, wet hard fought second team basketball game here Friday night, the visitors emerging victorious, 24 to 23. Sammie Seolck was the fire and zip for the losers as he led the Sullivan offensive with four nifty baskets for a total of eight points. Oscar Holzmueller and Jack Whitfield kept the Reds in the running with six points apiece. After trailing 6 to 2 at the quarter, the locals tied the count at 12 all as the half closed. Sullivan took the lead in the third quarter 21 to 20 but were unable to score more than a measly fielder in the final period of the game. For Tuscola Snider and Colwell, with five field goals, were the offensive leaders for the evening. Sullivan 2nds (23) B. F. P. Whitfield, f.....3 0 0 Sims, f.....0 0 0 B. FARMERS FACE 1938 SHORT-AGE OF LEGUME SEED.

Faced with another shortage of adapted legume seed, Illinois farmers will need to be cautious in their purchases of alfalfa and red clover for 1938 plantings. The carryover of alfalfa seed is unusually small, and the 1937 production of seed adapted to the corn belt was short. On the other hand production in the southwest, which produces seed not well adapted to the corn belt, is reported to be 50 per cent above 1936, and the heaviest importation of foreign unadapted alfalfa seed in 10 years was made in 1936-37.

Supplies of red clover seed adapted to Illinois are also short for 1938. United States production in 1937 is estimated at 30 million pounds—only half the average annual consumption and the smallest crop since 1926. Greatest decreases occurred in the corn belt states, where the seed best adapted to Illinois is grown. Although there is little if any carryover of domestic red clover seed from the 1936 crop, approximately 3,000,000 pounds of imported seed not adapted to Illinois are carried over. Conditions are somewhat different with sweet clover seed. The 1937 crop of sweet clover seed, now estimated at 54 million pounds for the United States, was the largest since 1929. However, the carryover is comparatively small despite a larger 1936 crop than estimated and importations of more than 7,400,000 pounds the largest importation on record. The rapid disappearance was caused by the low price as compared with red clover seed.

United States production of alsike clover seed in 1937 is estimated at approximately 67 per cent of the 1936 crop and 80 per cent of normal consumption. Although an unusually heavy crop was produced in 1936 and importations totaled 3,100,000 pounds, the carryover is smaller than usual. Imported alsike clover seed is adapted to Illinois. Even with a below-normal carryover of lespedeza seed into 1938 from the short crops of 1936 and 1935, supplies for 1938 plantings are believed to be ample for the 1937 United States crop is large. Supplies of most grass seed seem adequate. The large 1937 timothy crop assures a supply in excess of anticipated needs in 1938. Total United States production is estimated at 90 million pounds, one of the largest crops in recent years.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson for December 26

CHRISTIAN CONSECRATION

LESSON TEXT—Philippians 1:12-26. GOLDEN TEXT—For to me to live is Christ and to die is gain.—Philippians 1:21. PRIMARY TOPIC—Our Best Friend. JUNIOR TOPIC—Answering Jesus. INTERMEDIATE AND SENIOR TOPIC—Choosing a Life Purpose. YOUNG PEOPLE AND ADULT TOPIC—What Christian Surrender Means.

Consecration is one of the words expressing Christian truth which has been so much used and so often misused that it has lost its savor. The writer remembers many a "consecration service" which meant nothing to those present except the fulfilling of a certain formula or program. The purpose of the meeting was excellent, but results were lacking because it had become a mere formality.

Paul the apostle knew nothing of any theory of consecration. He knew and lived and proclaimed such an abandonment of self to Christ and his cause as really required no statement in words—it was his life. We close today a three-month series of studies in the Christian life. We began at the right point by considering "Christian Sonship," for no one can live until he is born and no one can live a Christian life until he is born again. We have considered together God's grace in keeping, renewing, guiding, blessing, and communing with his own. All these precious truths call us to devote ourselves to Christ in glad and full consecration.

Do You Know Illinois? (By E. J. Hughes, Secy. Of State.)

Q. When was the first appropriation for a library for the Supreme Court voted? A. By the Eleventh General Assembly in 1839. Q. When was the "Illinois Assembly for the Education of the Deaf and Dumb" established? A. By Act of the Eleventh General Assembly in 1839. Q. What provision as to the residence of the Governor was passed by this assembly? A. The Governor was required to reside at the seat of government. Q. What prohibitory clause as to bank notes was passed by this assembly? A. The circulation of bank notes of a denomination less than five dollars was prohibited. Q. When did the last General Assembly sit at Vandalia adjourn. A. March 4, 1939. Q. Who were appointed agents to sell bonds for Internal Improvements in the United States and Europe? A. Ex-Governor Reynolds and Senator Richard M. Young. Q. What ill-advised negotiations did Reynolds and Young make in New York? A. In 1839 they sold and delivered in New York 300 bonds, agreeing to accept payment therefor in monthly installments—the last of which did not fall due until January 15, 1840—under which arrangement

III. "To Live Is Christ and to Die Is Gain" (v. 21).

Humanly speaking when a matter is one of "life or death" it is a question whether death may not intervene. The hope is that this may not be the case and every effort is made to prevent it. How different with Paul. He rightly points out that to a Christian death means entering into perfect fellowship with Christ and unlimited service for him. Every human limitation will then be put aside—knowledge, service, communion, will all be perfect and complete. He would not, however, turn away from his present privilege and duty. Since it is God's will that he should abide in the flesh he will do it in such a way as to make it literally true that to him "to live is Christ." Every life has a purpose and that ruling passion which controls and directs a life is what should be written into the sentence, "To me to live is..." What is it—money, position, pleasure, sin? Or is it Christ? If he is your life, then you enter into the New Year with the assurance that it will be full and satisfying, and gloriously useful.

Spiteful Words

A spiteful word cuts both ways. A slanderer hurts the man or woman who spreads it in a more deadly, though unseen, way than it hurts its intended victim. Victor Hugo no doubt says, "Every sword has two edges; and the man who wounds with one, wounds himself with the other."

General Agent **M. E. Huelster** Farm Bureau

FARM BUREAU OFFERS

INSURANCE SERVICE.
Twenty or more years ago when the Farm Bureau first started in Moultrie County there was no insurance service to offer the people but what a change has been made since. Year after year as the county added more Farm Bureau members and the organization grew stronger, the members demanded that the organization start a complete insurance service to be offered to the people of the county.

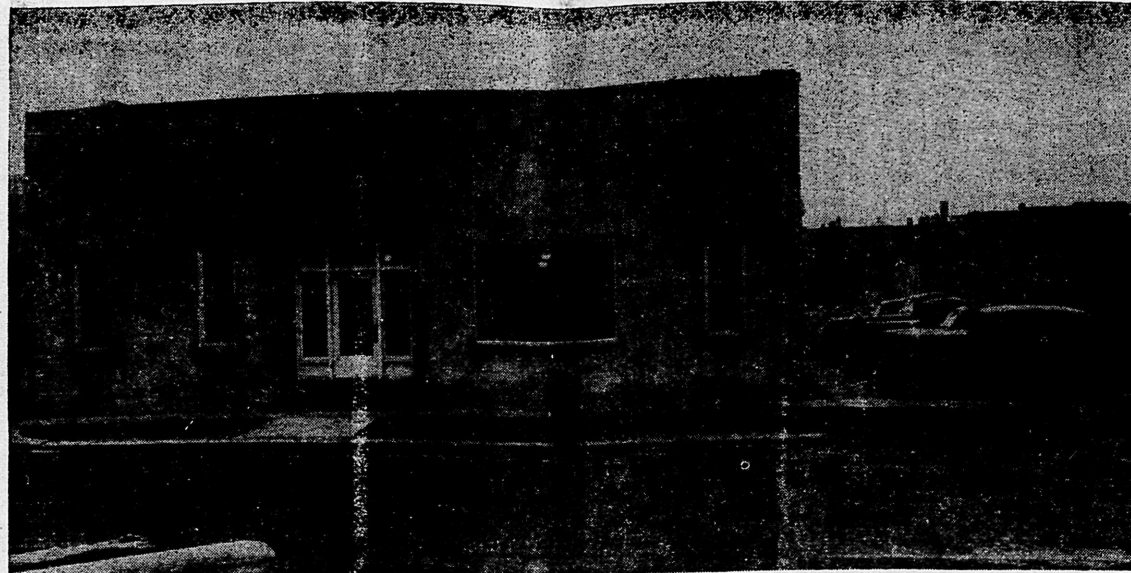

Illinois Agri. Mutual Ins. Co.
—Automobile Insurance
On April 1, 1927, this insurance company began operation. There were 3,000 Farm Bureau members who made application for membership. That number grew each year so that by the end of 1937 there will be over 60,000 Farm Bureau members that have their insurance in this strong insurance company. This Auto Insurance Service is available only to Farm Bureau members and their families. Compare our rates before taking auto insurance out in any other company.

Farmers Mutual Reins. Co.
—Fire, Wind And Hail Insurance
They did not undertake the start of all the companies at the same time, but did, on November 21, 1935, start the Farmers Mutual Reinsurance Company, the company that is

still in operation.
Starting December 30, this company is to change its present rates and issue policies without contingent liabilities. In other words, we have the same type policy as all the old line companies but the rates will be less. All policies, as they fall due in 1938 will have to be changed to this new type policy.
This insurance is not limited to Farm Bureau members. Anyone by making application may purchase the fire and windstorm insurance from this company.

Country Life Insurance Company
In February 1, 1939, this old line legal reserve insurance company mailed out its first life insurance policy. There were 8,000 of such policies that were requested before the company started. Since then, there has been over \$116,000 issued and a total of over \$110,000,000 of insurance in force at this time.
No one ever heard of a company growing this fast from \$12,000,000 in 1929 to over \$110,000,000 in 1937. This insurance service is for all the people in the county that wish to avail themselves of our lower rates. Compare our rates:
Age 5—\$10.66—\$1,000 insurance
Age 25—\$15.54—\$1,000 insurance
Age 35—\$20.63—\$1,000 insurance
The above rates would be lower after the second year.

ANNUAL MEETING Moultrie County Farm Bureau Wednesday, Dec. 29th, 1937

PAUL M. KROWS,
Farm Adviser

The annual meeting of the Moultrie County Farm Bureau will be held in Sullivan on Wednesday, December 29. The new Farm Bureau building has been in use since the middle of September and will be open to the public on annual meeting day.

The new building is conveniently located on Hamilton street (Route 32) just south of Harrison. The car parking lot will accommodate the members and visitors during their stay at the office. The exterior of the building is of stucco and is neat and attractive in every respect.

The interior arrangement was planned to give the most possible working space. The assembly room has already proven its value for the holding of Farm Bureau meetings.

REGISTER FOR FREE LUNCH TICKETS

Registration will begin at 8 a. m., in the Farm Bureau Building. Lunch tickets for the whole family will be given on registration. Also 1938 calendars for members will be given to those who register. Awards will be made at the close of the meeting and there are some pleasant surprises in store for those who receive them.

LUNCH SERVED BY LADIES OF ROSEDALE CHURCH

The lunch to be served at noon is furnished by the Moultrie County Farm Bureau and the Shelby-Effingham Service Company and will be served by the Ladies' Aid of Rosedale Church in Lowe Township. Preparations are going ahead for a large number to be served at noon.

Annual Meeting in Armory at 10 a. m.

The annual meeting will start promptly at 10 a. m., in the Sullivan Armory. The registration desk will be moved to the Armory at the start of the meeting.

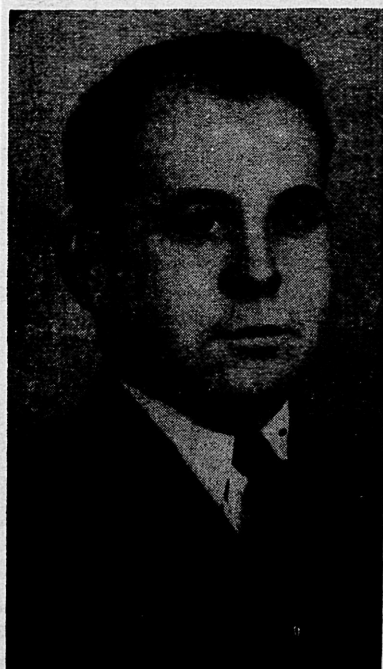

THE PROGRAM WILL BE AS FOLLOWS:

- 10:00 a. m. Music—Leon Broutin Lovington H. S. F. F. A.
- Invocation Rev. H. C. Munch, Bethany
- Minutes of 1936 Annual Meeting Hubert Powell, Sec.

- Election of Directors for 1938.
- 12:00 FREE LUNCH.
- 1:15 p. m. Entertainment W. J. B. L., Decatur, Saturday Morning Roundup
- 1:45 p. m. "Greetings From Extension Service", University of Illinois F. E. Longmire
- 2:00 p. m. "The County Home Bureau in Illinois" Mrs. Elsie Mies, Illinois Home Bureau Federation
- 2:30 p. m. W. J. B. L. Saturday Morning Roundup.
- 2:45 p. m. "Recent Illinois Agricultural Association Activities" Eugene Curtis, Director
- 3:00 p. m. Awards.

TWENTY YEARS!

Twenty years of Farm Bureau service! This month of December marks the end of the first 20 years of Farm Bureau activities, growth and progress in Moultrie county. The Board of Directors of the Moultrie County Farm Bureau have set a day—December 29th—to celebrate the anniversary and honor the past. The Membership of the Moultrie County Farm Bureau has made it possible to set the same date, December 29th, to dedicate our organization to the next 20 years of service to the farmers of the county. We, the Organized Farmers of Moultrie County are proud of our past accomplishments and we are proud of our new building and modern facilities through which we may better serve in the future. We invite every citizen of Moultrie County to join with us in this dedication and re-dedication, visit our building and attend our annual meeting in the Sullivan Armory.

CONTRACTORS AND BUILDERS

ORGANIZATION.

In the midst of our definitely agricultural county is our agricultural city of Sullivan and in the midst of that city is the center of the county's agricultural activities—The Farm Bureau Building.
The new office as it is today, its neat appearance, convenience, and friendly atmosphere is the result of a definite need in our county for such facilities. The new center or home was made possible by the faithful support of our membership over a long period of time.

Every member is and should be proud of the new home and also be proud of the good work the Farm Bureau is doing in the county, the state and in the nation.

Our County Farm Bureau along with the 96 other County Farm Bureaus with a total membership of approximately 80,000, is under a strong (the strongest in the world) state organization, the Illinois Agricultural Association. The state organization sets the policies for County Farm Bureaus and handles activities too large for one county organization.

Our state organization along with 42 other states is affiliated with the American Farm Bureau Federation for the best and most widespread benefit of the farmers all over the

United States.

Some of us wonder sometimes why this or that neighbor does not belong to the Farm Bureau. We just can't see their point of view. The fact of the matter is, if that neighbor had our experiences he would feel toward the Farm Bureau as we do. We have the job of, in some way or other taking that neighbor through experiences like ours with the Farm Bureau and creating our point of view before he will join and make our support 100%.

Those of you who are not members of the Farm Bureau remember that our members lend their support because they know it pays. The cash returns from profits of farmer owned enterprises in Moultrie County in 1936 more than paid all memberships by \$1500. This does not take into consideration the indirect benefits from factors influencing our prices, taxes etc.

W. H. Tammeus,
Organization Director.

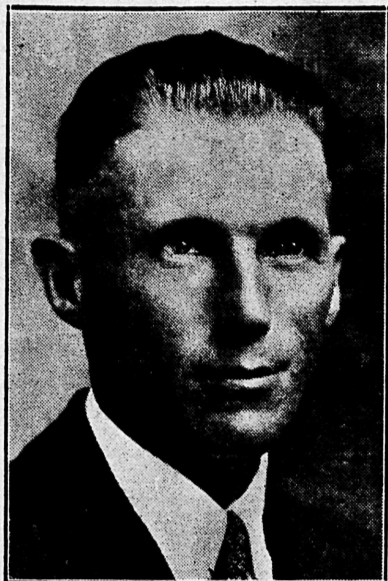

EXHIBITS TO PORTRAY

FARM BUREAU WORK

The different departments and affiliated organizations will have exhibits on display to show the work of the Farm Bureau in the Assembly Room.

Grand Opening Wednesday, Dec. 29th, of the Shelby-Effingham Service Co.'s. New Super-Service Station

SERVICE COMPANY MAKES REMARKABLE GROWTH.
The opening of the new Shelby-Effingham Service Station in Sullivan on Wednesday, December 29th, marks another step in the growth of a great cooperative concern.

C. H. BUZZARD, PRESIDENT

According to a review of the growth of the Company given by C. H. Buzzard, President, of Altamont, Illinois, the company was organized ten years ago by a handful of Farm Bureau members centered around Stewardson, Illinois. Since that time the Company has expanded until it now serves over 4,000 farmer patrons in the three Counties of Shelby, Effingham and Moultrie.

Mr. Buzzard advises that the Company was originally organized for three purposes; first, to insure quality products being served to the farmers; second, to be sure that farmers were able to get the type of service to which they were entitled; and third, to insure the savings in the form of dividends by which the actual cost of production on the farm could be lowered. The Company has grown from its original size with assets of less than \$10,000.00 to one with assets of more than \$125,000.00, and during that same period of time it has returned cash dividends to its stockholders, principally Farm Bu-

reau members, of more than \$147,000. The Company up until the present time, has specialized in rural trade, and has only recently seen fit to offer its customers the benefit of Modern Filling Station Service. Only this year a station similar to the one built in Sullivan was erected in Effingham and was opened to the public in September.

Mr. Buzzard advises that the new Service Stations were not built in an attempt to gain additional volume, but that they were built after several years of insistent demands from the members for a complete Modern Service Station where members and customers could secure the best of lubrication service at reasonable rates.

SERVICE ROOM TO LIVE UP TO THE NAME.

The Service Room of the new Shelby-Effingham Service Station is so designed and equipped that it can

WILLARD BROWN

actually give the best of service obtainable anywhere and is under the able direction of Willard Brown.

The room is amply large, being approximately 30 feet wide and 42 feet long, with a ceiling height of approximately 18 feet. The size of this room provides space to have two

hoists, one a regular car lift, and the other a two-post truck lift for 20 foot rails, and being so designed that either end of the lift can be raised or lowered, or both ends raised at the same time.

The washing pit is under the two-post hoist, and is so arranged that cars can be tilted in order to better facilitate the washing of a car or truck. The washing is done by warm water, properly mixed with air pressure through a mixing nozzle which enables the attendant to remove hardened or frozen dirt from a paint film without injuring the finish.

Battery service is amply provided for by the new Allen A. Battery Charger and Analyzer. This unit is compactly arranged so that batteries can be stored on the inside, and the charger is located at the top. The analyzer is located on the front of the door and is so constructed that an attendant can actually show a customer how much good there is left in his old battery.

The greasing system is of the finest type of high-pressure lubrication fed by a Lincoln Streamliner Unit with overhead swivel outlets above each hoist. A gun for every purpose has been provided, and every type of grease necessary on any modern automobile will be on hand at all times.

A complete set of tire repairing and tire changing tools are provided and the Company expects to specialize in tire service.

Other items of equipment in the Service Room are wheel packers, Spark plug testers, spark plug cleaners, oil dispensing equipment and gear flushers.

Mr. Brown has had not only several years experience in handling petroleum products with this Company, but has also had a complete course in automotive electrical work in Chicago and is considered one of the most experienced service men in this part of the country. He will be assisted in his work by Mr. W. Charles Walker, who is at present the Bulk Plant Manager for the Company at Sullivan, and who will maintain his office at the Station and assist in the Service Room in his spare time.

Both Mr. Walker and Mr. Brown earnestly solicit your patronage in this Service Room and assure you that you will be more than pleased with the results obtained.

W. CHARLES WALKER

COMPANY TO STRESS RETAIL SALES.

The New Modern Sales Room, together with its up-to-the-minute sales merchandising equipment affords an opportunity for the Company to properly display and merchandise its numerous miscellaneous items.

Mr. Harold Watson of Bethany, who was formerly a truck salesman for the Company in charge of that area, and who has had several years of sales experience will be in charge of sales of all products retailed at the new service station.

Mr. Watson will not only have charge of the disposition of gasoline, oils, and anti-freezes on the pump island located in the center of the finest concrete driveway in the city, but will also have charge of the retail Sales Room inside the Station in which will be stocked Soyol Paint, Brunswick Tires, Tire Accessories and numerous items of automotive equipment, such as fan belts, windshield wipers, radiator hoses, defrosting fans, and heaters.

The driveway has been equipped with three modern Tokheim Computing Pumps and customers driving up to those pumps for services can not only get speedy service, but can be assured that they are being given accurate measurements and that their charges have been figured accurately to the penny.

A new feature at this Station is

the idea of retailing stove and light gasoline, kerosene, and cleaners' naphtha through dispensing pumps which have been installed at the East side of the Driveway.

The interior of the Sales Room presents a most modern picture of a retail sales display room. The walls are lined with paneled celotex and the flooring is of modern tile. The steel display shelving and sales islands are of a most modern design and not only afford excellent display and storage room, but also provide an opportunity to keep the merchandise clean and orderly.

HAROLD WATSON

Mr. Watson will have an able assistant on duty with him at all times and welcomes the opportunity of serving both farm and city customers at the new Station.

NEW STATION OF MOST MODERN DESIGN.

The new Service Station erected by the Shelby-Effingham Service Company in Sullivan has been planned by experienced architects, together with the best advice obtainable from the State Association of the local Service Company.

According to G. H. Foley, Manager of the Service Company, who has been serving in that capacity for the past five years, the Station erected here is built of one of the newest types of construction. The exterior

G. H. FOLEY, MANAGER

walls of the Station have been erected of poured concrete under the special direction of the Portland Cement Association, trimmed with a Blue Pre-Cast Stone Base. The front of the building contains generous sections of plate glass, affording plenty of light to the interior as well as giving adequate sales window displays. The side of the grease room is built of glass brick, which not only diffuses light but also serves as insulation. The doors to the service room have built-in glass panels and are of the overhead type.

The interior of the building has been planned so as to most efficiently serve the patrons of Moultrie county. It contains a large two-car Service Room, and a Sales Room large enough to accommodate a complete stock of items handled by the Company, displayed on the most modern type of steel shelving and display islands.

A feature of the new Station is the Ladies' Lounge. This has been built at the West end of the building, and contains a comfortable window seat, and a modernistic suite of chromium plated steel framed furniture, upholstered in leather. The ladies' rest room opens off of the ladies' lounge. It is the intention of the Company to provide a waiting room for farm women in this lounge, whereby they may leave their packages, or wait for their husbands when doing the

Saturday shopping.

Another important item in connection with the Station is the Free parking space provided at the rear of the Station and at the side of the Farm Bureau Office in connection. It is the intention of the Company to furnish free parking to any farmer so desiring it, and to be in a position to assist any farm women in getting their cars properly parked.

Mr. Foley advises that the Service Station is open to the public, and that services are not merely confined to Farm Bureau members.

1 OF 5 FARM HOMES IN ILLINOIS HAVE ELECTRIC SERVICE.

Rural electrification is a community matter and must be built on community interest, according to R. R. Parks, extension specialist in agricultural engineering, College of Agriculture, University of Illinois, who points out that 21.8 per cent of the 206,102 farms in the state having dwellings valued at more than \$500 are now served by electricity.

During the first six months of the year 4,908 farms received electric service for the first time, Parks said as he called attention to the growing demand for rural electrification.

"Farmers who formerly felt that high-line electricity was too far distant are now talking to their neighbors about the possibility of getting a line," he said. "This act of interesting the neighbors is the first step in obtaining rural electrification. The second step is to make a survey of the proposed area to be electrified which may be either small or large."

To assist Illinois farmers who are interested in obtaining electricity, Parks has prepared a mimeographed publication, "How to Get Electricity for Your Farm," which may be obtained by writing the College of Agriculture at Urbana. A blank to be used in making a proposed survey form is a part of the publication.

Ordinarily where there is an average monthly guarantee of \$15 a mile of line to be built, the local power company will extend service with no investment cost to the customers, Parks explained. If on the proposed line there are three farm homes to the mile, the average guaranteed bill will be \$5 a month for each customer. This is the average amount paid by Illinois farmers for electricity, and for this amount they can do all their lighting, pump water, wash and iron clothes and operate a refrigerator and radio.

**FARM AND HOME WEEK
GRAIN AND CORN SHOW.**

The Illinois Seed Grain Show and 18th Annual Utility Corn Show will be held at the College of Agriculture, University of Illinois during Farm and Home Week, January 10-14. No visit to Farm and Home Week should be considered complete without a visit to this show and a study of the accompanying educational exhibits.

The Ten Acre Yield Show is well worth the time of anyone to visit and study the results. The coming of hybrid corn has made this section of the show exceptionally interesting. Cost of production records and the cultural practices will be on display in connection with the individual enterprises.

Just as the Utility Corn Show twenty years ago set an epoch in corn growing, so hybrid of proper adaptation is now establishing another milestone in the progress of corn production. The new class for hybrid utility corn is an innovation in Illinois corn shows, giving promise of as great an advance over the utility open-pollinated type as did it surpass the old corn show type of 20 years ago.

Persons desiring to exhibit in the grain show should make application on official entry blanks a copy of which may be obtained at the Farm Bureau office. Exhibits may be left at the Farm Bureau by Friday, December 24, or taken to the College of Agriculture not later than Thursday, December 30.

GOITRE

MAKE THIS QUICK TEST.
Get a small Sorbol-Quadruple, a colorless liniment. For simple goitre apply twice daily. It quickly supplies substances needed by the thyroid gland. Thousands have been relieved. Get more information at most drug stores. Locally at Sam E. Hall's. Note: Mrs. Jessie McKee, 427 N. Mulberry, Moline, Ill., says, "I was relieved 12 years ago. I will tell or write my experience to anyone."

SLIPPERY HIGHWAY CAUSES AUTOS TO COLLIDE.

Two cars, one driven by L. A. Lorenson and one by Geo. L. Hendrickson, collided at the Hudson corner east of Lovington Monday morning. The icy roadway was given as the cause. Mr. Hendrickson was bringing his two daughters, Doris and Georgia, to high school. Doris, who is a junior in LTHS, suffered a cut forehead and lower lip. Georgia, however, while not injured as her sister, was suffering somewhat from nervous shock and returned to her home. Doris after being taken to Dr. Ambrose's office for treatment, went on to school.
Mr. Lorenson who was on his way from home to his farm northeast of town, was not injured.
Both cars were damaged.—Lovington Reporter.

MILLIKIN HONORS

MISS GUIDA ABBOTT.
Kappa day exercises at James Millikin University are to bestow the highest honors that the school can give. In addition to the awarding of the Kappa Keys to seniors, there are some others who receive honorable mention for very outstanding work. All of the under-classesmen, i. e., anyone not a senior, are mentioned and it is understood that those mentioned are future material for the Kappa society.

Miss Guida Abbott, formerly of Lovington, was among the upper one-sixth of her class last year. For her years in school Miss Abbott can now proudly exhibit a scholastic average of more than B.—Lovington Reporter.

BAPTIST PASTOR RESIGNS.

Rev. H. L. Alley, pastor of the First Baptist church has resigned as the pastor of the church. The same to be effective on January 1st.
Mr. Alley came to Arthur in May, 1936, and has been an aggressive and energetic worker. Since his coming thirty new members have been added to the church with a net gain of 24 which is the largest in the past five years and more than in the combined past four years. An active young peoples society has been organized and regular meetings have been held each Sunday with a fine average attendance. The attendance at both morning and evening services have been materially increased.—Arthur Graphic.

STATE ENTOMOLOGIST WARNS FARMERS TO PREPARE FOR HOPPER BATTLE.

Illinois farmers had better roll up their sleeves for another battle with the grasshoppers next summer.

W. P. Flint, chief entomologist of the Illinois state natural history survey and of the college of agriculture University of Illinois has reported on the results of a grasshopper egg survey an out break of the pests could be expected.

The farmers' battle, however, Flint said, probably will not need to be as general as it was during the past season. Somewhat fewer eggs are overwintering than this time last year, he added.

A cold wet spring in 1937 aided systematic control measures, Flint said, and weather conditions next spring will determine just how much of a threat the insects will be to 1938 crops.

The extreme northern and northwestern portions of the state, Flint reported, show infestation of eggs. Another area catalogued as moderately infested covered roughly Adams, Hancock, Henderson, McDonough, Fulton, Mercer, Bureau, Stark, Putnam, Marshall, Woodford, Southern LaSalle and extreme western Livingston counties.

Damage 17 Millions.
In Central Illinois, moderate infestation was found in Macoupin, Sangamon, Christian, Shelby, Moultrie, Piatt, Macon, Dewitt, Logan, McLean Champaign, Douglas and Coles counties.

Scattered infestation was found along the Wabash river in White, Edwards, Wabash, Monroe and Randolph counties.

Farmers' control measures this year were credited by Flint with reducing the amount of infestation. He said the insects had caused \$17,000,000 damage to Illinois crops in 1936.

ANNUAL MEETING.

The Policy Holders of the Sullivan Mutual County Fire Insurance Company will meet Tuesday, January 11, 1938, at one o'clock p. m., in the court house, Sullivan, Illinois to elect three directors for full term and one Director to fill vacancy; also to transact any other business that may come before the meeting.
Directors meeting will follow the Policy Holders meeting.
5114 Tobias Rhodes, Sec.

The Panay Incident

By DOROTHY THOMPSON

The Panay, a practically unarmed American gunboat—in reality a small yacht—has been bombed and sunk by Japanese war planes, while proceeding peacefully in the Yangtze River, above Nanking, together with three Standard Oil vessels. The action occurs while the Japanese government is making repeated protestations to the United States that it desires wholeheartedly to retain American goodwill. And while Japanese diplomacy is doing its best to win America away from close co-operation with Great Britain.

The question is: Why did this incident occur? How could it occur? The Japanese Ambassador in Washington says that this was "a grave blunder", a "great mistake", and "completely accidental." We are informed that members of the Japanese cabinet were near tears when the news was announced.

The circumstances of the bombing are such as to preclude any possibility that it was accidental. First of all, the Japanese navy according to news reports, has boasted that there were no more Chinese ships left in the Yangtze. Therefore, any other ships remaining there, would be foreign. Second the identity of the Panay was conspicuously displayed by American flags on every mast. Third, the American naval command in Shanghai had repeatedly informed the Japanese navy of the whereabouts of our vessels in the Yangtze. And fourth, the Panay was so small that the bombing planes had to swoop very low, where they could plainly see what they were aiming at. And then they bombed it four times.

One is forced to draw a few conclusions from this incident. It would appear, that the civilian government of Japan is without authority. There is no connection between its diplomatic policy and the actions of the army and navy, who really rule Japan.

These armed forces of Japan, which have never been defeated, apparently think that they are invincible against the forces of the world, if need be.

The younger and more radical element in the Army and Navy—it was this element that was responsible for the murder of Takahashi and other great Japanese moderates—is riding the whirlwind. It appears that the Military Command does not dare to punish these people for egregious breaches of discipline. Since this conflict broke out, there have been numerous attacks on foreign ships and on foreigners—including the British Ambassador in Shanghai—and while the Japanese government has sometimes reluctantly apologized, and made vague promises of punishing

the offenders, guilty of these attacks, we have no knowledge that any such punishment has ever been meted out.

These facts—if they are correct—are of extreme importance. For it would seem that what we are dealing with—and what the Chinese are fighting—is not a responsible Japanese government, or even a responsible army! That the much vaunted Japanese discipline is, at this moment, a myth. And that the aggressive element of the armed forces is criminally irresponsible and reckless.

It is taking, on behalf of the Japanese people, an extremely long chance, counting on the fact that, by and large, the people of the United States are peaceful and that Great Britain and France however much they might be inclined to fight for the preservation of their interests in China, are impotent to move, because of the critical situation in Europe and the Mediterranean.

All this also throws a light upon the claim of the Japanese that they are in China, not because they have any quarrel with the Chinese people, or because they have any territorial ambitions—such is the official propaganda—but merely because they wish to restore order in China and free China from the machinations of irresponsible politicians and irresponsible military leaders. It all breaks down to the argument that irresponsible Japanese firebrands are engaged in freeing a neighboring country from irresponsible leadership and thus becomes idiotic.

The Japanese government has "accepted full responsibility" for the attack—so the question now is: Is the Japanese government in a position to accept such responsibility, and what does it amount to?

If one reads the situation rightly, or even part rightly, then one will have very little faith that a promise not to let such events occur again, will, or can be kept.

Meanwhile, the position of our government is difficult in the extreme, and the State Department needs the sympathy of cool-headed citizens. There will be those who will counsel that we withdraw everybody from the Far East, and abandon even the most peaceful pursuits there. But if a large part of the world, and by no means the most responsible part, had not become convinced that the democratic nations were unwilling to defend, anything, and that anything goes in treatment of them, I doubt whether the Panay incident would ever have occurred. We have done a lot to encourage the thought that long chances have, excellent hopes of succeeding.

G AT THE GRAND 20 Years Ago

HOLLYWOOD GRANTS GRANT DIVORCE WITH MORE TO-DO THAN THREE-RING CIRCUS.
Getting a divorce in Hollywood isn't always as easy as it sounds.
Irene Dunne got one from Cary Grant for scenes in Columbia's new comedy, "The Awful Truth", coming next Sunday and Monday, Dec. 26-27 to the Grand theatre. It is an uncontested divorce with a property settlement made in advance yet the trial took seven days, and that didn't include the ten days required to build the courtroom.

In the early days of pictures, movie couples went to a real courtroom to make scenes dealing with divorce. Now they prefer to build their own courtrooms on sound stages, where they can control the lighting the acoustics and even the temper of the judge.
The courtroom in "The Awful Truth" was modeled from a court in New Jersey, where the case is supposed to be heard. It was supervised by an ex-judge from that state, to confirm to the New Jersey laws and legal procedure.
Evidence was taken, and the decision made time after time so that the cameramen could move the cameras about and get it from all angles.
It was fully a week before Director Leo McCarey finally gave his OK to the legal parting and let them take down the classic walls of the courtroom, yet the actual scene requires only a few minutes on the screen.
Probably a dozen really expensive divorces could be paid for with the money required to stage and photograph these few minutes of actual picture which audiences will see; to pay the salaries of the synthetic judges, attorneys and court articles.
But in one regard Columbia saved money. Although the courtroom had a capacity of 400, only six sleepy villagers were needed for spectators. Because that's about all the visitors in any New Jersey courtroom for an uncontested divorce of perfect strangers, with no fireworks.
And those 394 empty courtroom chairs represented a saving of \$15 a day each for seven days.

10 YEARS AGO.
The home of Mr and Mrs. Dave Cummins was badly damaged by fire. Archie B. Chaney died at the home of his son Scott Chaney.
Frank P. Davis died at his home south of Coles Station.
Miss Hazel Tabor and Paul Temple were married at the home of her sister, Mrs. Erma Carter, in Houston, Texas.
Arthur Palmer went to Chicago to enroll in the Worsham School of Embalming.

1938 AUTO LICENSES PLATES MAILED WEDNESDAY.
The mailing of automobile license plates for 1938 began on Dec. 15, it was announced by the office of Secretary of State Edward J. Hughes. The usual volume of early business requires much preliminary clerical work before the plates may be issued and as a consequence some delay is necessary. Over the counter service also began on Dec. 15.
Secretary Hughes stated that motorists who have requested high numbers must of necessity receive their plates at a later date than those whose numbers occur in the regular run as the plates are made in rotation by the manufacturer and the mailing is done in accord with the run.
An important point was emphasized by Secretary Hughes with regard to new car buyers. Any car purchased on or after Dec. 6 does not require a 1937 license. All new car buyers of this date forward need not hesitate to send in their applications for 1938 plates in the fear that they will be assessed for 1937 also. Any application received at the present time from such car owners will be for 1938 only.

CIVIL PRACTICE ACT.
STATE OF ILLINOIS, County of Moultrie, ss.
IN THE CIRCUIT COURT. CURTIS SMITH, ET AL., Plaintiffs, VS. WILLIAM D. SMITH, ET AL., Defendants.
CIVIL ACTION IN EQUITY. NO. 37-91.
Affidavit showing that the defendant, Robert Smith has gone out of this State and on due inquiry cannot be found, so that process cannot be served upon said defendant, having been filed in the office of the Clerk of this court, notice is therefore hereby given to said Robert Smith defendant, that the plaintiffs in the above entitled cause filed their complaint in said cause on the 7th day of December, 1937, and that said action is now pending and undetermined in said court, and that you, the said Robert Smith defendant, must file your appearance in said action on or before the second Monday in the month of January, 1938, and in the event you fail to do so default may be entered against you.
IVAN D. WOOD,
Clerk of said Court.

DAIRY PRODUCTION CHANGES.
During the past few months the production of butterfat on farms has been low, not only in this district but throughout the country. Production is low in many dairy herds and just now when corn husking is the chief activity on the farm some cows have not been getting as much feed or care as they need. Cows are increasing in price and many say they would buy cows if they knew where to get them. However, it is expected that when field work is ended cows will get more abundant feed, due to its low price and abundance, and production will increase.
What is needed is plenty of ground corn and oats together with protein supplement and legume hay to raise production where it should be.
Dairymen may look forward, during the coming year, when they will enter a cycle of prices more in line with that of other things. In fact, dairy prices may reach a point in a number of months where they will be more favorable than some other lines of farm production.

MEMBERS OF COUNTY BAR ASSOCIATION ENTERTAINED BY ATTORNEY J. R. FITZGERALD.
 Members of the Moultrie County Bar Association were entertained at a dinner on Tuesday evening at the National Inn by Attorney John R. Fitzgerald of Decatur, a former member of the local organization. All of the members of the Moultrie county organization, Judge J. L. McLaughlin and Court Reporter, Jack McLaughlin, were present at the dinner.

Attorney Fitzgerald started to practice law in the office of Judge W. G. Cochran in this city. He was born and raised near Dalton City and has always taken a big interest in affairs in this county. He later went to Decatur, where he has been practicing for many years.

NOTICE.
 The annual stockholders' meeting of the First National Bank, Sullivan, Ill., will be held in the directors room of above bank on Tuesday, January 11, 1938, at 2 o'clock p. m., for the purpose of electing directors for the ensuing year, and such other business as may become before the meeting.

 Lowe Township—Orville Jurgens, Muriel Casteel.
 Whitley Township—John Edwards, Margaret Garrett.
 Lovington Township—Not elected.
 The January meeting will be held Thursday evening, January 20th.

Farm Bureau Account School Will Be Held Here Today.
 Thursday, December 23 will mark the start of a new business year and the close of a generally successful season for Moultrie county's record keeping farmers.

On that date J. B. Cunningham of the College of Agriculture, University of Illinois will meet at the Farm Bureau to assist those farmers who wish to check in their old account records and open their 1937 books, he explained.

Mr. Cunningham and the Farm Adviser have arranged to spend about 30 minutes with each farmer who kept records last year to assist in checking values and balancing the 1937 books. They also plan to meet at 1:30 p. m., that day in the Farm Bureau with those farmers who will be keeping accounts for the first time. They will explain the details of the record books and answer any questions that may arise.

The visit of Mr. Cunningham is a continuation of the farm account project started in Moultrie county several years ago. For more than 20 years the extension service of the agricultural college has been cooperating with farm advisers in sponsoring this project throughout the state as a means of helping farmers put their business on a better basis.

Moultrie county has farmers who join some 2,000 others in the state in keeping simple farm account books the basis of the project. The book of each account keeper is summarized at the end of the year, and a comparative report is made for each farm showing its strong and weak points in comparison with other farms in the neighborhood.
 The project is open to any farmer who cares to learn more about the income and expenses of his farm business. The only cost is a 20-cent account book. However, any farmer interested in starting the project should make arrangements for attending the meeting on December 23rd, at 1:30 p. m.

December-January Calendar.
 Dec. 29—Annual Meeting, Moultrie County Farm Bureau.
 Dec. 30—Moultrie County Music and Drama Tournament, Sullivan.
 Jan. 10-14—Farm and Home Week and Adviser's Conference—University of Illinois.
 Jan. 20—Moultrie County Rural Youth Meeting, Farm Bureau.
 Jan. 21—Home Bureau Membership Check-up meeting, Sullivan.
 Jan. 26-28—I. A. A. Annual Meeting, Springfield.

JUDGE McLAUGHLIN DIRECTS JURY TO TURN DOWN CLAIM IN AUTO CASE.

At a hearing in the circuit court on Tuesday morning, the jury in the suit of Rose Benner, administrator of the estate of William Benner for \$10,000 damages, against C. H. Gowdy of Shelbyville returned an instructed verdict of no cause for action.

Judge McLaughlin sustained the motion of John R. Fitzgerald, attorney for Gowdy, that the jury be directed to return the verdict on the basis that the plaintiff had not proved that Gowdy was guilty.
 Frank Wolf, attorney for Benner, dismissed the suit against Francis Russell, employee of Gowdy, on a non-suit count.
 Benner was killed near La Place on Aug. 29, 1936, when the car in which he was riding, driven by Russell and owned by Gowdy overturned.
 The jury which heard the case was: C. P. Bacon, foreman, Don Warren, Rodney Adkins, Loren Rhodes, J. M. Hickman, Rex Barnett, Lyle Bobbitt, Otto Frederick, Herschel Lowe, Orval Roby, James Lehman and Orval Oathout.

FRED B. HOFFMAN OF LOVINGTON WEDS MISS GENEVA REIFSTECK.
 Fred B. Hoffman, son of A. F. Hoffman of Lovington, and Miss Geneva Reifsteck of Decatur were united in marriage on Sunday at the home of her parents, Mr. and Mrs. Louis Reifsteck of Cowden.
 Rev. F. G. Brown of the First Christian church in Cowden officiated and attendants were Mr. and Mrs. Noble Corley of Cowden, brother-in-law and sister of the bride. The two families attended and a reception followed the ceremony. After a trip to Chicago, they will live in Lovington. The bride has been with the Mueller company in Decatur for two years.

THE FRIENDS-IN-COUNCIL AND GUESTS ENJOY A CHRISTMAS PROGRAM.

The Friends-in-Council was hostess to the clubs of the community, Lovington, Bethany and Windsor on Monday afternoon at the Grand theatre.
 Mrs. R. W. Heim and Mrs. Harold Vaughn, were elected to membership. Mrs. Pifer asked those wishing to contribute to the Christmas baskets to leave their contributions with Mrs. Mattie Harris at the court house by Thursday noon.
 The program was presented by Mrs. Gladys Whitfield and Mrs. Paul Bryant. Mr. A. H. Turner, accompanied by Mrs. R. W. Heim sang, "The Holy City". Ruth Miller accompanied by Miss Louise Lane played as a Saxophone solo Victor Herbert's "Kiss Me Again." The brass quartette composed of Wayne Bragg, Carl Baker, W. Kuhn, cornets and Bill Flannigan, baritone, with Louise Lane at the piano played an arrangement of "Silent Night."
 In the play that followed, Mrs. Paul Krows and daughter Janice made a charming picture of home life. Janice sang the "Santa Claus Express" and then tuned the radio to Station FIC and the following voices were heard presenting Dickens' Christmas Carol: Mrs. C. E. McFerrin, Mrs. C. W. Tichenor, Mrs. William George, Mrs. J. A. Sabin, Mrs. Paul Bryant and Mrs. Frances Acuff.
 A Christmas Carol film was presented through the courtesy of Mr. Everett Hays.
 A rising vote of thanks was extended to Mr. Hays for the use of the theatre and to Mr. Dunscomb for the furniture used in the stage setting.

MRS. W. S. YOUNG RETURNS TO HOME FROM HOSPITAL.
 Mrs. W. S. Young of Gays, who had been in Mattoon hospital for about two months with a fractured hip, returned to her home on Friday.

S. T. H. S. Gossip

By Check and Double Check

Again, this has to be turned in early and news is rather scarce. However, this is vacation time so therefore we're taking advantage of it. We're sure you won't mind though having to read through a little less of this. Next week we doubt if there will be any news because during vacation there will be very little doing connected with school.

The cantata went off with a "bang." It has been said that it was one of the best cantatas that has ever been given in the high school. The stage was beautifully decorated with blue lights. Candles burned on the front of the pupils marched in. The entire chorus sounded excellent and the solos were done equally well. The brass quartet composed of Carl Baker, Don Dolan, Wayne Bragg, and Billy Flannigan played "Silent Night" very beautifully. All in all it was one grand cantata and we believe Mr. Kuhn and the chorus deserve a lot of praise.

The band is now working very, very hard on the new contest piece, that has just arrived. It is called, "The Wanderer's Call," and when properly played it will be very beautiful. Our band has proven itself one worth having in previous years and we're expecting big things from it this year. We're for it, and wishing it all the luck in the world!!!

On Monday night the Home Economics club held their party in the Home Ec room. Due to the tournament being held at Arthur on that night not as many members as were expected were present. However, the girls had a very good time. A 6 o'clock pot-luck supper was enjoyed. After that they exchanged ten cent gifts. These proved nice and of a great variety. A very enjoyable reading was given by Marjorie Hamilton. She's getting to be famous by giving those Christmas carols were sung and then the girls left the school to sing carols over the town. We've heard these carols were very much appreciated by many people. We hope they enjoyed hearing them as much as the girls enjoyed singing them.

We have been informed that the boys Hy-Wy club is having a Christmas party on Thursday night. By the time this gets out it will be "last night." Anyway, we'll bet those girls really had one grand time. We also heard the rumor that a few girls wanted to "barge in" on the party. Tish, Tish, girls, this isn't leap year.

On Friday night a basketball game was played in our gym with Tuscola as the visiting team. Much to our delight we again captured another game. There was a large cheering section to urge the boys on to victory. Mr. Kilby was very proud of the large percentage of the school that appeared at the game. In fact we're all proud of it, and we hope we keep having such a large percentage come on and see the basketball game every time one's played.

Speaking of games the county tournament was held on Monday, Tuesday and Wednesday at Arthur in their new gym. At the time of this writing we have only the results of Monday night's game. Windsor won the first game from Arthur in an extremely close game. Lovington was victor over Dalton City by a very great margin. Then we won from Bethany by a score of 31 to 19. We're certainly proud of our boys.

SECOND ANNUAL OKAW VALLEY BANQUET TO BE HELD IN VILLA GROVE.

The second annual Okaw Valley athletic banquet will be held at Villa Grove again this year on the night of Monday, March 21. Monticello has been awarded the track and field meet, but the date was not selected. A possibility is the Monday night following the state track meet. Guy Collins, Tuscola, F. A. Wilson of Arcola, and G. M. Kilby of Sullivan were named on a committee to arrange the program for the banquet.

It was voted at the meeting of the athletic directors of the Okaw Valley that two officials must be used for each conference basketball game, if the visiting school requests it. The two types of basketballs, leather and molded came in for some discussion. It was decided to adopt the leather ball for both tournaments, but to allow each home school to decide which one would be used for individual games. Coaches were asked to specify which kind of ball was to be used in each game on the eligibility sheet.

Most of other business was taken care of at the morning and afternoon meetings, which were very delightfully represented for a dinner at the expense of the conference, served in a down town cafe. Principal J. H. Trinkle of Newman, who has been

We're hoping we can come through on the other nights and gain the championship. On Tuesday night the first game was Windsor and Gays, and the second was Sullivan and Lovington. On Wednesday night the winners of those games played for first and second places and the losers played for third and fourth.

We decided to tell you what each teacher has planned to do during Christmas vacation. Here they are: Our principal, Mr. Kilby, says he is going to take his boys to spend Christmas with their grandfather at Mackinaw, Illinois. He says the boys would rather be at grandfather's than any place else.

Miss Emel says she has no definite plans at all. She says she will probably be some visiting near at home. Miss Coolman is going to her home in Crawfordsville, Ind., where she expects to eat and sleep most of the time. She says she will probably do some visiting in Indianapolis.

Miss Nichols is going to leave at the early hour of 4 a. m., on Christmas morning for her home in Aleo. She expects to spend the day with her uncle.

Miss Montgomery is going to her home near Maroa. She is going to spend Christmas with her grandmother Montgomery. She is also very happy that during the vacation her arm will be removed from the cast. She says she does not expect a very eventful vacation as due to her arm she can't do her favorite sport—go coasting.

Miss Edmiston says she knows of nothing in particular that she will do. She will just remain around Sullivan.

Mrs. Wolf informs us in the same way as Miss Edmiston.

Miss Whitfield should have an interesting vacation. She is going to Chicago and McHenry. While away she is going to see the play, "Victoria Regina" with Helen Hayes. You'll have to tell us all about it Miss Whitfield.

Miss Arends is going to spend the holidays in her home in Melvin, Ill.

Mr. Vaughn says he will just be at home here and visiting relatives in near-by towns.

Mr. White is going to stay at home and get a good rest.

Mr. Kellar is another one who is going to stay at home most of the time and rest. However sometime during vacation he is going to attend a basketball game in Champaign.

Mr. Dennis is going to attend a family reunion at Chambersburgh on Christmas day. After that he says he is going to be at home practicing basketball. That sounds as though he's already planned for them.

When we asked Mr. Erwin, here is the statement he gave us—"I fire the furnace, go rabbit hunting, start evening school, and look for old Santa Claus." It sounds as though he will be quite busy.

Mr. Kuhn is going to his home in Paris, Illinois. He says if there is ice—he'll skate; if there's snow—he'll ski; if there is neither he'll sit in front of the fire place and read what time he isn't playing with the electric toy train he wants "Kris Kingle" to bring him." He says he always did want to be a conductor anyway.

Don't forget that school begins again on Jan. 3, 1938, and don't forget to make those New Year's resolutions either. Well, here we are at the "end of the rope—or rather list." Now to one and all we wish you a VERY MERRY CHRISTMAS and a HAPPY NEW YEAR.

president of the Principals' association for ten years, voluntarily retired and was replaced by Harry Slusser of Bement. George Hamilton of Atwood was named vice-president and Guy Collins was elected as secretary and treasurer on his record of years and years of unremitting carefree service.
