Married Man—"Well, judging from my own experience, she does."

FRESH AIR CHILDREN.

A NUMBER OF YOUTHS BROUGHT FROM CHICAGO TO SULLIVAN FOR A TWO WEEKS' OUTING.

The Bureau of Charities in Chicago is composed of men of means, merchants, manufacturers, professional men of the city and presidents of the railroads. They are giving money and influence for the betterment of Chicago, and one work they are doing is to, if possible, improve the future generation by instilling good principles among the children of the poorer classes. As it is necessary to have healthy and strong subjects to get a trainable mind they are making an effort to improve both mind and body of the youths they find in the city.

Two conditions of children are found there, one the lower class; children without homes, sleeping any where, in dry goods boxes or any recess into which they can crowd their little dirty, neglected bodies, and God only knows where they obtain sustenance.

There is a grade above these children that have homes, parents or relatives, a place to sleep, a cover for their bodies and something to eat. Some of them have wage earners in the family who scantily supply them with the necessities of life, but many of them are dependent upon the public charity.

Many of them have mothers who are doing all in their power to save their children.

Last Tuesday evening twenty-eight children of this latter class were brought to Sullivan by Rev. John Chandler of the Baptist church of Sullivan. They were collected from the street, taken to the Bureau placed in a sanitary condition, then taken to the La Salle depot, where the C. & E. I. railroad company gave them passes to Sullivan and return in two weeks.

They alighted from the train in Sullivan at 4 p. m. Tuesday and their faces clearly showed that they were filled with wonder at the sights presented. Although clean, when they left Chicago, the dust and journey had them fairly well begrimed, poorly clad and their appearance aroused pity and sympathy in the hearts of the bystanders; children who had never seen the country, placed in a strange community and in a strange world to them. Used to battling for themselves they showed no timidity or fear, but rather indicated the fact that they were able to oppose any slights or wrong doings. Many of them despite their surroundings, are intelligent, bright and witty. As we read their faces the little red headed one at Dr. Davidson's and the little fellow at Carl Thomason's made us wish we were mind readers, that we might have their thoughts as they stood and viewed the crowd.

The ministers of the town had been busy for several weeks arranging for their visits and many kind people had consented to take them into their homes and care for them for two weeks, giving them a chance to breathe pure air and get all the purities of country life for a brief period. The children were provided with good places and so far as we are able to learn, both visitors and hostesses are well satisfied with each other.

Several wanted children that could not get them. These children should be in school next year, it would be a good deed if they were sent home with good substantial clothing for school wear, helped and instructed to an education that may take them to a higher level.

They were not the only children sent out for a vacation, numbers have been sent and are still leaving the city, not only to Illinois towns and villages but to adjoining states, the railroads furnishing all transportation. It is expected that all the children in Chicago, who are able to go, and coming under the charitable class will have two weeks in the country. Rev. Chandler at one time lived in Chicago preached in a suburban church, and has been a constant and tireless worker with the charity bureau.

Below we give a list of the children and the homes to which they were taken.

Miss Wood, Mary Schyer; Edward Swisher, Katherine Kelly Margaret

Hincley; F. E. Pifer, Susie Capozze, Tressa Lenciuadis; Mrs. Kate Powell, Mary Prause, Tressa Cianco; Jacob Miller, Clarence Caldwell, Carmann Bragrole; Charles Bathe, Hazel Hinchley; F. A. Purvis, Margaret Kelly; R. M. Magill, Rosie Christopher, Louise Christopher; David Monroe of Bruce, Joe Schrin, Hazel Caldwell; Mrs. Alice Thomason, Tone Caldwell; Dr. W. P. Davidson—Thor Lawler, James Lawler; Paul Thunemann, Lucy Nuece, Della Nuece; Dr. S. T. Butler, Stanley Caviez; Sam T. Miller, Louis Pantarelli, Altonso Pantarelli, Willie McBean, Nick Rominaki; Geo. Nichols; Angelina Balsion, Josie Balsion.

Fair and Races.

Arrangements for the Moultrie County Fair and Races to be held at Sullivan, September 13-16, are progressing nicely. One new well on the grounds has been completed. A section of additional grand stand has also been completed and contract let for widening the track upon the home stretch.

The association has engaged the Bethany band to furnish music for the first two days of the fair and the band that was used at the Old Settlers' Reunion held here last week will furnish the music for the third and fourth days of the fair.

Contracts have been closed for free attractions; the association having booked Velde's Trio, which consists of two women and one man, acrobats that do a number of acrobatic feats. These people furnish another act by trained dogs, and one of the leading features on the part of the trained dogs is the act by the dogs of looping the loop. Another free act is by Ethardo, one of the world's most famous equilibrists, a lady who does a very difficult balancing feat.

The premium lists will be ready for distribution next week and it is hoped that every body interested in the Moultrie County Fair will get one of these lists and arrange to become an exhibitor at the fair. The outlook for the races is the best that the Association has ever known. More than one hundred harness horses are expected upon the grounds to compete in these races.

CHURCH SERVICES.

CHRISTIAN.
9:30 a. m.—Bible School.
10:45 a. m. Sermon subject—"Symbols and Metaphors of the Holy Spirit."
8:00 p. m. Sermon subject—"The Significance of Pentecost."

Only a month until our tabernacle meetings. The members of the church should be at every service possible prior to that meeting. There are things of importance and of interest you will want to hear about. Messages from the evangelists and so on.

Only two more Sundays to receive our offerings for our year's missions and benevolences. Let each member contribute something for these worthy causes.

J. W. WALTERS, Minister.
PRESBYTERIAN.
"The Deep Things of God" will be the subject of the Sunday morning service.

Let us strive for 100, in the Sunday school next Sunday. Let every man, woman and child of the church and Sunday school be present.

You have been sent the envelopes for the Home Mission offerings. Please be sure to return them with the most liberal offerings you can make. Let us make it \$50.00.
Evening services at 8 o'clock.
A. T. CORY, Pastor.

BAPTIST.
9:30 a. m. Bible School.
10:45 a. m. Morning Services.
8:00 p. m. Evening Service.
Mid week meeting prayer service on Wednesday at 8 p. m.
A cordial invitation is extended.
JOHN CHANDLER, Pastor.

Prohibition Candidates.

The following list of candidates have filed on the prohibition ticket. County Clerk—J. A. Robertson, for Superintendent of Schools—Alice Porter, Sheriff—B. P. Potts.

The temperature may be greatly modified by keeping mentally cool.

Equal Suffragists.

Several parties in Sullivan received letters a few days ago from Mrs. Ella Seass Stewart, stating that herself and two other prominent speakers were touring Illinois in an automobile, and speaking in behalf of equal suffrage.

The presidents of different clubs in Sullivan, at a special meeting, have arranged to give them a reception while in Sullivan.

Their time in Sullivan is limited.

On Saturday morning August 27, the president of each club in Sullivan and three of the members will meet them early in the morning near the Masonic Home, as they will come here from Mattoon, they will then be conducted to the square, and at 10:30 a. m. they will speak on the shady side of the court house. Voters are requested to be present, as well as all others, they are prominent women and good orators. The speakers are: Mrs. Ella Seass Stewart, Mrs. Catherine Waugh McCullough, a lawyer and justice of the peace in Chicago and Miss S. Grace Nicholes.

Windsor Picnic.

The following great attractions have been positively engaged for Windsor's monster picnic on Thursday, August 25:

One tereenoon balloon ascension with parachute leap.

One night balloon ascension with fireworks and parachute leap.

Weislogel, the strong man, in two performances.

A great team of acrobats in two performances.

The funny Williams in his funny musical act, two performances.

Prof. Cowan, in his sensational fire leap; wrapped in blazing gasoline and jumping from a 70-foot tower.

A famous male quartet in six concerts.

A great free moving picture show at night.

There will also be concerts by the Windsor band, and the committee is negotiating with another band.

There will probably be a merry-go-round, and famous speakers will be here to deliver living truths and to talk on topics of the day. Plenty of water and shade for man and beast will be provided, and in Windsor on Thursday, August 25, will be the greatest picnic of the decade, and all as free as the air you breathe. Come out and meet kindred and friends and visit the best little town in Illinois. The fun will begin early in the morning and be fast and furious until 10:00 o'clock at night.

The attractions named have positively been contracted for through a responsible booking agent, and if for any reason any performer slated for Windsor cannot be here, another performer will be sent in his place, so there will be no disappointments.

LIGHT PLANT

Why don't we have light is a prevalent question in Sullivan?

The reason we are without light is good and sufficient.

One of the boilers at the pumping and light plant cracked, while it was being patched a state inspector condemned the one supposed to be in a good condition. Then after the first one was mended it was decided imprudent to make it do the work of two, and the city electric plant was put off of duty.

A new boiler is being installed and as soon as the connections can be made and arrangements made to get water from the surface well to supply the boilers the lights will shine forth again.

The life of a boiler is from thirty to forty years under ordinary circumstances but owing to the saltiness of the water here the boilers rust out in five or six years which makes it expensive. In order to protect the boilers it has been decided to use the water from the surface well in the boiler tank.

Special Election

At the special primary election on Wednesday August 17, to determine what Moultrie county man should be the candidate for nomination at the democratic primary on September 15. The ballot was as follows.

Dr. W. E. Stedman, 387; George A. Fields, 259; A. E. Eden, 90; C. O. Patterson, 40.

OBITUARIES.

FRANK M'DONALD.

John Franklin McDonald passed away at his home in Arthur, Wednesday, August 10, 1910. Mr. McDonald was born near Bridgeport, West Virginia, April 16, 1836, and was 74 years, 3 months and 24 days old at his death.

He was the son of James McDonald. His earlier days were spent in what is now West Virginia. In the spring of 1859, in company with his brother Leonidas, he came to Jonathan Creek township, Moultrie County, Illinois, being then 23 years of age.

October 18, 1865, he married Miss Sarah Elizabeth Powell, of near Sullivan, Ill. They chose as their home a farm lying four miles southwest of Arthur. Six children were born to them; Eva, now Mrs. B. F. Pedro, of South Dakota; Mand, now Mrs. B. E. Conkitt, of Des Moines, Ia.; and John J., Victor, Dr. Charles H. and Frank R. McDonald of Arthur.

The faithful wife and mother passed away December 14, 1894.

Mr. McDonald was one of the rugged pioneers of this vicinity, seldom experiencing a day of sickness prior to his final illness. Blessed with health and vigor of intellect, he was able to successfully conduct his ever increasing business.

He commanded the confidence of his fellows. Personally, he was an example of strict integrity in all his dealings. For a number of years he was a member of the board of supervisors.

He was a friend of the common schools and urged that competent, well paid teachers should be employed. He wanted every child to have a chance to attend a good school. His own children were given the privilege of a liberal education and are all honored members of their respective communities. The uprightness, integrity and activities of Mr. McDonald and his compeers have brought our county to its present splendid condition.

The funeral services were conducted by J. H. Wright, pastor of the Arthur Vine street Church of Christ.

THOMAS L. M'DANIEL.

Thomas L. McDaniel died unexpectedly at his home in Lovington, at 2 a. m. Tuesday.

He was 49 years of age and went from Moweaqua to Lovington in 1885, where he has since been engaged in the mercantile business.

In 1898 he was elected a member of the state legislature.

He is survived by a wife and four children.

Rev. A. L. Huff conducted a short service at the residence Wednesday. The body was taken to Assumption for interment and the funeral discourse conducted by Rev. J. H. Wright of Arthur.

Look at The Date.

Look at the date opposite your name on the margin of this paper. If you are in arrears please come in and square up. We have to meet our obligations and in order to do so we must have our money. The postal regulations make it so that we can not long continue to send papers to delinquent subscribers.

Tabernacle Meeting.

On Sunday, September 18, another great Tabernacle meeting similar to the one held four years ago. Charles Reign Scoville, will be here and continue four weeks. The meeting will be held under the spices of the Christian church. The tabernacle will be built in the same location as four years ago.

The evangelist is William J. Lockhart of University Place, Des Moines, Iowa. He is one of the foremost evangelists of the Christian church to-day, although yet one of the youngest evangelists.

He will be assisted by Linnt Bros. of Lincoln, Nebraska, one a chorister and the other a soloist. These men are both specialists in their respective callings.

The object of the meetings is the moral and spiritual uplift of the community. A hearty invitation is extended to all churches and individuals to unite with us in trying to bless our community and save souls for Christ's Kingdom.

Very cordially,
COMMITTEE.

ANNUAL CEMETERY MEETING

Camfield cemetery annual meeting will be held the third Saturday, August 20, 1910. Everybody invited; come and bring your dinner. Preaching in the afternoon.

RACES FOR THE PENNANTS.

Table with columns for National League, American League, Club, Won, Lost, Pct. Lists teams like Chicago, Pittsburgh, Philadelphia, etc.

Indictments were presented in the United States district court in New York against James A. Patten, the "cotton king"; Sidney J. Harmon of Shreveport, La.; Eugene R. Scates of Dallas, Tex.; Col. Robert R. Thompson, partner in the firm of F. H. Pell & Co., cotton brokers of New York; Frank B. Hayne and W. T. Brown. The indictments charge conspiracy to violate the Sherman anti-trust law in connection with the organization of the recent Patten cotton pool.

Michael Chrisman Sauley, judge of the Thirteenth Kentucky district and former associate justice of the Wyoming territorial supreme court, was found dead in the stable of his home at Stanford, Ky. He was 68 years old and one of the most distinguished lawyers of the state.

Joseph Wendling, arrested in San Francisco on the charge of murdering Alma Kellner, arrived in Louisville and was taken to the city jail. There was no demonstration.

In Omaha, Neb., Mrs. Bertha Mott, 19 years old, shot and fatally injured Otis Heddy, a married man whose wife and baby are out of the city, when the man came into her kitchen and insulted her.

The International Typographical convention, in session in Minneapolis, named San Francisco as the convention city for 1911.

Four persons were killed and several others wounded during a clash at Bari, Italy, between troops and participants in a general strike which had been organized in protest against house rents.

Senator Nelson W. Aldrich of Rhode Island, enumerating the counts under which he was indicted by Senator Bristow of Kansas in recent campaign speeches, dealing with the tariff on rubber, in a letter to the public, denies the charges in their entirety.

Oscar Pullen, self-confessed murderer of W. L. Deloney, wealthy farmer of Little River county, Arkansas, who was shot and killed as he lay in bed last June, is not to receive the death penalty imposed by a trial judge at Ashdown last month. The sentence was commuted by Gov. Geo. W. Donaghey, in a remarkable statement, in which the governor asserts that Mrs. Deloney was mainly responsible for the crime.

Walter Brookins, the aviator, was badly injured at Asbury Park, N. J., while making a landing in his aeroplane in a desperate effort to avoid injuring a crowd of spectators. Brookins saw that his machine was likely to strike a group of onlookers and he made a quick turn. The machine turned over and fell to the ground, striking several spectators in its descent.

A fire that started at Dover and Albany streets in Boston swept up Albany street on both sides as far as the Randolph street play grounds. More than two acres of property was laid waste and more than a million dollars damage was done.

A northbound passenger train on the Illinois Southern railroad killed John Mollet and severely injured his daughter. They were crossing the track in a wagon at Roots, Ill.

The French ministry of war has received a Wright aeroplane and a machine of the Bleriot type capable of carrying two passengers, to be added to the military aerial fleet.

In Canon City, Colo., Mrs. Joseph Machin, 33 years old, was accidentally shot and killed by her 6-year-old son.

The triennial convocation of Knights Templar is in progress in Chicago, and an immense throng is in attendance. Every hotel is filled to overflowing, and many of the visitors have had to find accommodations in lodging houses.

One of an auto party was killed outright, three others so seriously injured that they died shortly afterward, and three more seriously injured when a passenger train on the Southern railroad struck the machine in Bessemer, a Birmingham (Ala.) suburb.

Five persons were killed and two were injured when an automobile was struck by a Chicago & Erie train near Loganport, Ind.

Attorney General Bingham of Indiana, acting for the state, has filed with the Interstate Commerce commission a complaint against the Pullman company and all railroads operating in Indiana, declaring sleeping car rates too high and demanding a reduction, also lower fares for upper than for lower berths.

J. W. Daniels was probably fatally wounded in Streator, Ill., by his wife, who shot him five times and later attempted suicide by taking carbolic acid.

During July 52,727 citizens of foreign lands entered the port of New York. Of this number, the Ellis Island records class 12,985 as illiterate. The number barred was 1,127. The immigrants brought \$1,537,794.

All civil action by the Illinois Central Railway company against the Memphis Car company and its officials was brought to an end by a settlement in the nature of a compromise consummated in Memphis. Under the terms of the compromise the Illinois Central takes over absolutely all the visible and tangible possessions of the car company and obtains other satisfaction in the way of cash.

Figures which were given out at the census bureau in Washington show that the population of Kansas City, Mo., in 1910 is 248,381, as against 163,752 in 1900.

Sir William B. Melish, Cincinnati, O., was elected right eminent grand master of the Grand Encampment of the United States in the Knights Templar election in Chicago. Sir Arthur McArthur of Troy, N. Y., was elected deputy grand master, and Sir W. Frank Pierce, San Francisco, grand generalissimo.

W. J. Myers shot and killed his wife, Grace; his son Ralph, seven years old; his father-in-law, Frank Bouton, and then killed himself in Chicago. Meyers had separated from his wife.

William Davis, 52 years old, a wealthy farmer of Braymer, Mo., shot and killed his sister-in-law, Mrs. Mattie O'Dell, a widow, in a rooming house in Kansas City and killed himself.

The discovery of a new comet was announced at the Harvard college observatory. The discovery was made by Rev. Joel H. Metcalfe, at Burlington, Vt.

On charges of kidnaping her own 4-year-old child, Mrs. Louise Wipfle of Moline, Ill., is under arrest in Denver.

Joseph A. Proctor, the wealthy lumberman, who has been missing from Peoria, Ill., since July 21, was located by officers at Chillicothe, Mo., and is being detained.

The grand jury investigating the lynching of Carl Etherington, the "dry" detective, in Newark, Ohio, returned 39 indictments. Fifteen indictments charge first degree murder.

Exploding a stick of dynamite behind Tom Lenox, night guard of the state convict camp at Bigelow, Ark., and blowing him into the timber, three long-term negro convicts made their escape.

The home in Delaware, O., in which the late President Rutherford B. Hayes was born in 1832 was destroyed by fire. The owner will erect

By the overturning of a small launch in Canandaigua lake, two men, Jacob Echlcr and Richard Hogan, each about 35 years old, of Canandaigua, N. Y., were drowned. Five other men in the launch were rescued.

The enlisted strength of the army the coming year has been fixed at 87,000 men by Maj.-Gen. Leonard Wood and approved by President Taft.

Figures showing the operation of the Payne-Aldrich tariff law for its first year are announced with a total of \$20,214,026 to its credit in the surplus of receipts over expenditures, which is nearly fifteen millions of dollars greater than was recorded for the previous record year of 1907. The total ordinary receipts for the year ending August 6, 1910, were \$678,850,816.

In Cleveland, Ohio, William L. Rice, a millionaire attorney, was murdered by a gang of assassins acting out of revenge. At least, that is the police explanation of the crime.

Former Governor J. W. Folk of Missouri was injured in an auto smash-up near Muscatine, Iowa, when, to save the machine from turning turtle, the driver took a ditch and hit a telegraph pole.

Miss Lulu Schaffer, aged 16, of Bloomington, Ill., swam two miles in the Kankakee river in one hour as the result of a "dare" by her girl friends, who doubted her ability to cover the distance named.

Seiba and Truxillo, two of the leading cities of Honduras, have been captured by the revolutionists and the entire Honduran coast between the two towns is now in the hands of former President Bonilla.

Revenue officers raided an opium still in a Chinese den in the heart of Kansas City and seized \$25,000 worth of opium.

Eva Goldberg, of Memphis, Tenn., was indicted on a charge of murder in the first degree by the grand jury in connection with the killing of Edwin Boyson, a banker, at her home. She was released on bond after pleading not guilty before a magistrate.

A specific and positive denial that he had made any sort of confession to the police authorities at Quebec has been cabled by Dr. H. H. Crippen, the alleged murderer of his actress wife, Belle Elmore, to Attorney Newton, Crippen's attorney, and was made public in London.

BRUSSELS FAIR IS SWEEPED BY FLAMES

THREE SECTIONS OF INTERNATIONAL EXPOSITION DESTROYED BY FIRE.

WHITE CITY IS IN RUINS

Buildings Containing World Displays Burn Like Tinder—Only Two Are Killed in Great Crowds That Filled the Grounds.

Brussels.—Fire started in the Belgian section of the international exhibition in Brussels and the flames spread quickly to the English and French sections, which were soon destroyed.

Two were killed in a panic, and a number of persons have been injured. Before the fire was finally gotten under control the Belgian and English sections were in ruins, while all the other sections, including the American, were partly destroyed.

Bands of thieves were engaged in pillaging, and a soldier was stabbed while attempting to arrest three men whom he found rifling a jewelry exhibit.

The aggregate loss is estimated at \$10,000,000. The diamond exhibitors are sufferers.

The crowds became panic-stricken, and men, women and children fought madly to escape. The exits became choked with the struggling masses and men used their fists to clear the pathway. Many were tramped under feet and badly injured.

At the time of the outbreak but less than 100,000 persons were circulating in the grounds, and the kerfmesz.

SOCIETY WOMEN IN ORGY

Many Believed to Be at Seaside Resorts Witness to Brawl at Prominent Oklahoma Club House.

Tulsa, Okla.—Angry husbands of leading society women in Tulsa dashed to the Tanaha club house, six miles east of here, in automobiles, following reports that their wives, many of whom were supposed to be at seaside resorts, had been witness to a drunken brawl there in which three men were shot.

The victims of the shooting, it is reported, are J. J. Beck, a Tulsa capitalist; W. O. Graybill, a Kansas City produce merchant, and a waiter in the club house.

BRISTOW PASSES THE LIE

Kansas Senator Responds to Aldrich's Letter Attacking the Rubber Trust Charges.

Milwaukee, Wis.—Senator Bristow of Kansas, although circumspect in his choice of words, passed the direct lie to Senator Aldrich, in a speech in behalf of Senator La Follette, in response to Aldrich's answer to his charges that the Rhode Islander juggled the rubber tariff to further his financial interests.

In brief, Senator Bristow insists Aldrich not only aided the trusts in his manufacture of schedules, but profited financially by his deal as well.

MAN GETS \$50,000 DAMAGE

Brakeman Hurt on Iron Mountain Road Is Given an Award for Personal Injury.

St. Louis.—In the circuit court here a jury returned a verdict for \$50,000 in favor of Claude Brown, against the St. Louis, Iron Mountain & Southern Railway company.

Brown sued for \$75,000 damages for personal injuries received at Ozark, Ark., January 1, while serving as a brakeman on the Little Rock and Fort Smith line. Senator Jeff Davis was one of the attorneys for Brown.

FALLS MORE THAN A MILE

Youth Is Joined to Death From Cross Bar of Parachute in Attempt to Descend.

Asbury Park, N. J.—A parachute jumper who attempted to float from a hot-air balloon down to the aviation field of the Asbury Park meet, 6,000 feet below him, was jolted from the cross bar below his parachute just as he cut loose from the balloon. His body struck first on the main branch of an apple tree and tumbled lifeless into a garden.

Coal Operator Is Insane

New York.—Capt. John Calvin Martin, multimillionaire coal operator, philanthropist and civil war veteran, was adjudged a lunatic at Paterson and committed to a private sanitarium at Totowa, N. J.

Earl of Spencer Is Dead

London.—J. Poyntz Spencer, fifth earl of Spencer, died here. The earl twice held the posts of viceroy of Ireland and president of the council and was first lord of the admiralty from 1892 to 1895.

ILLINOIS NEWS

Proctor Collapses on Reaching Home. Peoria.—Weary and worn, but happy at being restored to friends and home once more, Joseph A. Proctor collapsed as he entered the door of his residence. Physicians are at work determining the mental condition of the man who so mysteriously disappeared from Peoria three-weeks ago, leaving debts estimated at \$100,000.

Phone Companies Combine

Nashville.—Charles W. Lafferty of Ashley effected an agreement with the E. B. Harvey Telephone system and the Lafferty Telephone company to unite at Ashley. The Harvey system will become a free exchange with the Lafferty Telephone company. The new company will have long-distance Kinloch connection.

Bank Claims Settled

Peoria.—The wind-up in the Teis Smith bankruptcy case came in the United States court here when the final settlement of claims was made. All creditor receive 50 per cent. The trustee's final report was accepted and the failure of one of the largest banks in central Illinois became history.

Militia Company Disbands

Duquoin.—Company C of the Fourth infantry, Illinois National Guard, stationed at Carbondale, has been formally mustered out of service after an existence of 20 years. The company's new armory was recently destroyed by fire and the disbanded followed soon afterwards.

Convention Cities Named

Bloomington.—The Republican congressional central committee selected Bloomington as the place for holding the Seventeenth district convention, September 21. Republicans of the Nineteenth congressional district selected Clinton for the convention city on the same date.

Granite City Interurban

Springfield.—Articles of incorporation for the St. Louis & Eastern Traction company were filed in the office of Secretary of State Rose. The proposed line is to be constructed from Granite City, passing through the counties of Madison and Bond, to Greenville.

Funeral Party in Accident

Okaville.—John Kemper, Mrs. Henry Teppenhoff, Mrs. Mary Kemper and Miss Mary Juenger were injured in a runaway here shortly after their return from East St. Louis, where they attended the funeral of Mrs. Herman Kemper.

Victim of "Italian Leprosy"

Aurora.—Mrs. Nettie Blanchard, 35 years old, wife of Clarence Blanchard, an official of the Richards Manufacturing company, lies at her home here in a pitiable condition, Aurora's first victim on pellagra, or "Italian leprosy."

Package of Spurious Money Found

Springfield.—A package of counterfeit \$2 bills was received at the United States marshal's office from J. E. Joffrug of Glen Carbon, with the explanation that the money was found near the railroad tracks at that place.

14 Birthdays in 56 Years

Shelbyville.—Israel R. Small, county clerk of Shelby county from 1894 to 1898, died here. He was formerly a leader in politics. He was 56 years old, but had but fourteen birthday anniversaries, being born Feb. 29.

Prof. Reid to Texarkana, Ark.

Duquoin.—Prof. George W. Reid, formerly of Duquoin and for several years superintendent of the public schools of Monroe, La., has been elected superintendent of the public schools of Texarkana, Ark.

Iced Tea Drowns a Child

Decatur.—The 18-months-old daughter of Noah H. Miller was drowned in a jar of iced tea on the Miller farm, near La Place, Ill., while the threshing hands were being fed.

Woman Dies of Burns

Flora.—Mrs. S. M. Dalley, wife of a prominent Louisville, Ill., merchant, died at a hospital in Evansville, Ind., of burns received by the explosion of a gasoline stove.

Girl Killed in Auto Crash

Springfield.—An automobile driven by Father T. M. Moore of Atchens, Ill., was struck by a street car in Springfield and Miss Irene Dodge, formerly of Normal was thrown out and killed.

Telegraph Lineman Killed

Bloomington.—While trying to board a Big Four freight train at Peoria, R. C. Freeman, a telegraph lineman of La Salle, Ind., fell under the wheels and was killed.

Permit Granted to Rockford Bank

Springfield.—Auditor McCullough granted a permit to G. A. Peterson, L. H. Birdsall and O. A. Wedler to organize the Swedish-American Trust and Savings bank at Rockford, with a capital of \$100,000.

Falls From Launch and Drowns

Springfield.—Frank Knott of Lewistown, an engineer, was drowned in the Illinois river at Quiver Beach, near Havana. Knott was standing on the stern of a gasoline launch and fell into the river.

"G. N. R." A traveler to the north, having delivered his luggage to the care of an alert railway porter, proceeded to make himself comfortable in the corner of a first-class smoking compartment. The porter, having performed his duty, came to the carriage to report, not without expectation of acceptable reward.

"Well," said the passenger. "I see by the letters 'G. N. R.' on your cap, 'Gratitudes never received.'"

"Not quite that, sir," replied the porter, touching his cap peak. "It might mean 'Gratitudes never refused.'"

"He Knew the Painless Process." The bald man had just come in and was still wearing his hat. He looked up from his desk at the thin young caller.

"I have here, sir," said the latter, glibly, "a preparation for removing superfluous hair. It removes it thoroughly and painlessly."

"Yes," interrupted the bald man, wearily, "I know the process. My hair," he added as he took off his hat, "was removed in the same way."

Public Sets the Gait. Winks—Don't you think editors and reporters ought to be requested to sign their names to their articles?

Reversed. "The wise men tell us," said the star boarder, "that the less we eat the longer we live."

For Minor Heiresses. "Have you a copy of Burke's 'Peerage' you could loan me?"

WHERE BEAUTY COUNTS. "Just a little scheme. I'm thinking of compiling a mail-order catalog of bargain dukes."

Down to Facts. "Did you ever get a diamond ring at the seashore?"

A Doubtful Scheme. Gyer—An English scientist proposes to do away with those London fogs.

Wooden Courtship. "I pine for you," the young man cried. She took him unawares.

The Immortal Sherlock. "Any clew?"

A Warning. "So Gazzam died suddenly. Was it the heat?"

Driven to It. "Johnny positively refuses to wash his ears."

Perfectly Harmless. "A poet, writing of his lost love, says: 'I kiss your memory.'"

A Complete Change. "You need a mental rest. Stop discussing pennant prospects."

Drastic Criticism of Today. "How did you like the show?"

SONG OF THE FOOLKILLER.

The foolkiller said, said he I ride on the auto free. When the risks are rash And they scorch and smash Right there on the job I'll be!

The foolkiller said, said he: "I swim in the lake or sea! When the weight unassumed Beyond his depth has fared I follow upon his sea."

The foolkiller said, said he: "I bend to the ear with glee! When the boat is rocked And the world is shocked I listen to no one's plea."

Our Own Minstrels. "Wot am de diff'unce, Mistah Wak-kah, 'tween collectin' graft 'm a dive-keeper an' detachin' de kewpons 'm a gov'ment bond?"

"I don't know, Sam; what is the difference between collecting graft from a divekeeper and detaching / the coupons from a government bond?"

"Ladies and gentlemen, the brass lunged basso, Sig. Emitts de Growella, will now sing a selection entitled: 'You Smoke 'Em, George, and Yet You Live! How Sad!'"

REAL TALENT.

Old Gentleman—So, he's your little brother, eh? He seems to be a bright little chap.

The Flyless Kind. The flypaper lay on the table. Where all could plainly see; Could it spot 'twould probably say: "There are no flies on me."

Which is Different. The editor was trying to placate an indignant statesman.

"All we said about you in the paper, Mr. Krakajak," he assured him, "was that you seemed to have an inadequate sense of proportion."

Down to Facts. "What you said about me was that I seemed to have an inadequate proportion of sense!"

"Not by a blamed sight!" roared the caller. "What you said about me was that I seemed to have an inadequate proportion of sense!"

Myer—How is he going to do it? Gyer—By erecting skyscrapers all over the city.

POLITICALLY.

Wiggins—I tell you that a fellow who wants to get along these days must have some push about him.

Higgins—I know a good many that are doing so because they have a pull.

He Was It. When Hayrube bought a golden brick His heart was filled with rage; "By grass!" said he, "I sure hev reached! What's called 'a green old age.'"

Not for Them. "Why are the sad sea waves moaning on the shore?"

Amusement Note. "Anything entertaining booked in the city for the fall?"

Protection Causes Deficiency.
Protection afforded to the seal and
the salmon has for the time being
made a serious deficiency in the value
of the fish product of Canada.

LEGAL NOTICES

ADMINISTRATOR'S SALE OF REAL ESTATE.

By Virtue of an order of the County
Court of Moultrie County, entered on
the first day of August A. D. 1910,
in the matter of the application of
Leonard Conwell Administrator of
the estate of Elizabeth Hamilton, de-
ceased, to sell land to pay debts, I,
the undersigned Administrator of
said estate, will, on the 3rd day of
September A. D. 1910, between the
hours of ten o'clock in the forenoon
and five o'clock in the afternoon of
said day, to-wit: At the hour of 10
o'clock a. m. of said day, sell at pub-
lic vendue at the West door of the
Court House, in the City of Sullivan,
Moultrie County, Illinois, to the
highest and best bidder therefor, the
real estate described in said decree, as
follows, to-wit: The undivided one-
half interest in and to the following
described real estate, to-wit:

Fourteen acres of land out of an
eighteen acre tract, which said four-
teen acres is described as follows:
Fourteen acres of land, more or less,
being all of a tract of eighteen acres
of the east side of all of that portion
of the south west quarter of the south-
west quarter of section two (2) in
township twelve (12), north range
six (6), east of the third principal
meridian, that lies north of Whitley
Creek, except a tract of two acres
out of the northeast corner of said
eighteen acre tract, that was hereto-
fore deeded to Mary Henry, and ex-
cept also another two acre tract im-
mediately of south and adjacent to the
Henry tract, deeded to Walter Chaney,
leaving fourteen acres, more or less,
in which the said Elizabeth Hamilton
owned an undivided one half interest
at the time of her death. All of said
real estate lying and being in said
Moultrie County and State of Illinois.

Said real estate will be sold sub-
ject to rights of the present tenant.

The purchaser or purchasers of said
real estate to pay one-half of the pur-
chase money cash in hand on day of
sale, and the remaining half to be
secured, by note and mortgage on
real estate, due one year from day of
sale, with interest at 6 per cent per
annum. Purchaser may pay all cash
on day of sale, if he so desires.

Dated this 1st day of August A. D.
1910.
LEONARD CONWELL, Administrator.
E. J. MILLER, Attorney for estate.
32-4

ADMINISTRATRIX'S NOTICE.

Estate of Samuel N. Davis, de-
ceased.
The undersigned having been ap-
pointed Administratrix of the said
estate of Samuel N. Davis, late of the
County of Moultrie and the State of
Illinois, deceased, hereby gives no-
tice that she will appear before the
County Court of Moultrie County, at
the Court House in Sullivan, at the
October term, on the first Monday in
October next, at which time all per-
sons having claims against said es-
tate are notified and requested to at-
tend for the purpose of having the
same adjusted. All persons indebted
to said estate are requested to make
immediate payment to the under-
signed.

Dated this 2nd day of August, A.
D. 1910.
NANCY C. DAVIS, Administratrix.
E. J. MILLER, Attorney. 32-3

There is nothing so disappointing as the
fake cloud that comes up in a dry time.
It reminds me of some people, great for show
but nothing when it comes to performance.

Short grass in the pastures is a test on
the fence, especially if there happens to be
a cornfield near and the cattle get a taste of
it. The worse fence creeper of all is usu-
ally the pet calf, one that has been "brought
up" on a pall.

Any one should be punished for address-
ing the "Is this hot enough for you?" chest-
nuts to any person except to those, who
early in the season, were so sure that this
was to be a year without a summer.

THAT CONTAINS MERCURY.

As mercury will surely destroy the sense
of smell and completely derange the whole
system when entering it through the mucous
surface. Such articles should never be
used except on prescriptions from reputable
physicians, as the damage they will do is ten
fold to the good you can possibly derive
from them. Hall's Catarrh Cure, manufac-
tured by F. C. Cheney & Co., Toledo,
Ohio, contains no mercury, and is taken
internally, acting upon the blood and mucous
surfaces of the system. In buying
Hall's Catarrh Cure be sure you get the
genuine. It is taken internally and made
in Toledo, Ohio, by F. J. Cheney & Co.
Testimonials free. Sold by Druggists.
Price 75 cents per bottle. Take Hall's fam-
ily Pills for constipation. Sold by S. B.
Hall, Sullivan, Illinois.

LEGAL NOTICES.

PUBLICATION NOTICE - Chancery.

STATE OF ILLINOIS,
MOULTRIE COUNTY, } ss.

Circuit Court of Moultrie county,
September term, A. D. 1910.

John N. Powers vs. J. G. Slater,
L. A. Slater and T. D. Slater in
Chancery.

Affidavit of non-residence of T. D.
Slater one of the defendants above
named, having been filed in the office
of the Clerk of said Circuit Court of
Moultrie County, notice is hereby
given to the said non-resident de-
fendants, that the complainant
has filed his bill of complaint in said
Court on the Chancery side thereof
on the 18th, day of July, A. D. 1910,
and that a summons thereupon is-
sued out of said Court against said
defendant, returnable on the 26th,
day of September, A. D. 1910, as is
by law required.

Now, therefore, unless you the said
T. D. Slater, shall personally be and
appear before the said Circuit Court
of Moultrie County on the first day
of the next term thereof, to be holden
at the Court House in the City of Sulli-
van in said County, on the 26th, day
of September, A. D. 1910, and plead,
answer or demur to the said com-
plainant's bill of complaint, the same
and the matters and things therein
charged and stated, will be taken as
confessed, and a decree entered
against you according to the prayer
of said bill.

E. A. SILVER, Clerk.
CRAIG & CRAIG AND WINKLER,
Complainant's Solicitors.
Sullivan, Illinois, July 29th, A. D.
1910. 32-4

TESTED AND PROVEN.

There is a Heap of Solace in Being Able to
Depend Upon A Well Earned Reputation.

For months Sullivan readers have seen the
constant expression of praise for Doan's
Kidney Pills, and read about the good work
they have done in this locality. Not another
remedy ever produced such convincing proof
of merit.

Andrew Baugher, Sullivan, Illinois, says:
"For three or four years kidney complaint
clung to me and the doctors' medicine and
remedies of various kinds, failed to help me.
My back was extremely lame and painful
and the usual condition of the kidney
secretion showed that my kidneys were out
of order. I had a frequent desire to pass
the kidney secretions and was compelled
to arise several times at night on this account.
Finally I went to Hall's Drug store and got
a supply of Doan's Kidney Pills. Their use
soon improved my condition and before long
the backache and pain had disappeared."

Mr. Baugher gave the above statement in
March 1907 and confirmed it in detail on
Dec. 31, 1909
For sale by all dealers. Price 50 cents
Foster-Milburn Co., Buffalo, New York
sole agents for the United States.
Remember the name—Doan's—and take
no other.

The dry weather has made the roads so
good that there is a tendency to be a little
slack about the road work. This is a mis-
take. The center of the road should be
kept in shape to shed water as well as a
stack of grain, because the rains will come
and we have all seen the effect of water
standing in puddles on the grade.

ITCHING SKIN QUICKLY COOLED

Itching skin troubles some people as soon
as hot weather comes. There seems to be
no preventive but when the trouble does
break out, it is a very simple matter to stop
that itch and to stop it instantly.

Just a few drops of gentle winter-green
lotion mixed with thymol and washed over
the eruption will soothe and smooth the skin
instantly, giving that cooled, and refreshing
sensation.

Try a 25 cent bottle of this lotion, D. D. D.
Prescription. It will stop the itch, not in
half an hour, not in ten minutes, but in five
seconds. If you will call at our store, we
will tell you more of this D. D. D. com-
pound. Sold by S. B. Hall.

ICE CREAM STANDARD.

To Whom it May Concern:
At a meeting of the Illinois State Food
Standard Commission, August 5, 1910, the
following tentative standard for ice cream
was adopted to be in force until a perma-
nent standard is adopted.

ICE CREAM is a frozen substance, pro-
duced, stored and sold under sanitary con-
ditions, and made from clean milk products
and sugar, with or without the addition of
other wholesome foods stuffs, of not more
than eight tenths (8-10) of one per cent
of gelatin, gum tragacanth, or other harm-
less vegetable gums and contains not less than
(8) per cent milk fat and not more than five
million bacteria centimeter of the melted
article."

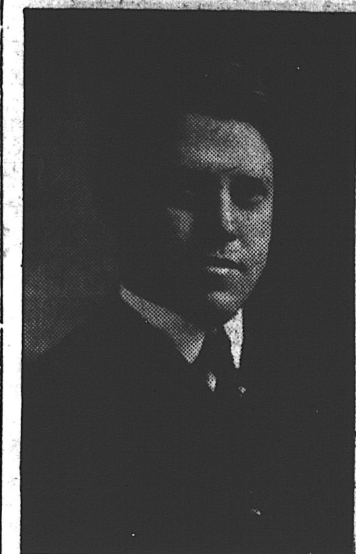

Any skin itching is a temper-tester. The
more you scratch the worse it itches. Doan's
Ointment cures eczema, any skin itch-
ing. At all drug stores.

To make two blades of grass grow where
one grew before is great and has its own
rewards but, during fly time the bald headed
man would rather find someone who could
make two hairs grow where one grew before.

A specific for pain—Dr. Thomas' Eclectic
Oil, strongest, cheapest liniment ever de-
vised. A household remedy in America for 25
years.

Parents and Purity.

If there is one message that
the National Purity Federation,
now in convention assembled at
Burlington, Iowa, would prefer
above all others to give to the
world at this time, it is probably
that parental neglect is responsi-
ble for a large part of our preva-
lent social and personal impurity.
Almost every speaker who has
thus far addressed the conven-
tion has touched upon this point.
Many of them have strongly em-
phasized it.

CLIFFORD G. ROE.

One of those who addressed
the convention Tuesday evening
was Clifford G. Roe, Chicago's
assistant state's attorney Mr.
Roe, as may be seen by refer-
ence to the news columns of to-
day's Daily, presented a formid-
able array of appalling facts re-
garding the infamous white slave
traffic. He spoke eloquently and
forcibly out of his own experi-
ence of this sort of criminal
cases. He told how girls are
lured into houses of shame and
he illustrated his account of the
general methods employed by
procurers with pathetic chapters
from the lives of Chicago's hun-
dreds of wronged girls. In some
instances, the agents of vice actu-
ally entered their unfortunate
victims' homes. One of the
children was trapped by protesta-
tions of love. Another was
caught in the meshes of ambition
—the worthy ambition to better
her social condition. Had the
parents been just a little less
trusting, either girl might have
been saved. A few inquiries, a
little supervision of the girl's af-
fairs, a hint as to the conditions
that young woman was likely to
meet in the world—these might
have obviated the wrecking of
precious lives. Mr. Roe's ac-
counts of these cases show plain-
ly where the responsibility rests,
but the assistant state's attorney
was not willing to make his in-
diction one of inference. Ex-
perience with many white slave
cases has taught him the neces-
sity of impressing upon the
minds of fathers and mothers
that they must fore-arm their
daughters if they expect them to
come stainless through world ex-
periences. The prosecutor says:

Why do I ask parents to
bring into the midst of the
family circle facts that are
so black and ugly? It is be-
cause fathers and mothers
are often morally responsible
for the downfall of their
daughters by not taking
them into their confidence
at the fireside. They should
cast aside all fanciful notions
of modesty so that their
daughters may know the
truth about men and women
which to them is hidden in
mystery. It is far better
that the girl should learn
this at home, under proper
tutelage, than that misin-
formation should be picked
up on the street.

The older we get the harder it is to
make a train without worrying.

HERE IS THE PROOF
That the best body-building
and strengthening tonic for
Delicate Children
—is—
Vinol
"My 9 year old daughter was
weak, pale, and had no appetite. I
gave her Vinol, and she began to
thrive at once. She gained rapidly
in weight, color and strength."
—Mrs. W. H. GILMORE, Durand, Mich.
"My two children, who were puny
and sickly, rapidly gained flesh and
strength when I began to give them
Vinol. I proved that Vinol is a quan-
dant tonic for delicate children."
—Mrs. C. ALLEN, New Bedford, Mass.
Vinol builds up healthy flesh and makes thin little limbs round
and plump. Children love to take it.
We return people's money without question if Vinol
does not accomplish all we claim for it. Try it, please.
SAM B. HALL, Druggist, Sullivan.

Are fathers and mothers will-
ing to profit by the extended
experience of others or
are they so blind to the truth
placed under their very noses and
so careless of the best interests
of their own children that they
must learn for themselves, at
first hand, through the wrecked
lives of their own daughters the
pitiful facts that other parents
have had so cruelly brought home
to them?

Be sure and take a bottle of Chamberlain
Colic, Cholera and Diarrhoea Remedy with
you when starting on your trip this summer.
It cannot be obtained on board the trains or
steamers. Changes of water and climate
often cause sudden attacks of diarrhoea,
and it is best to be prepared. Sold by all
Dealers.

A great many men who deplore
the tendency to teach children idleness
are more interested in the possi-
ble profits than in the welfare of
the children.

Dysentery is a dangerous disease but can
be cured. Chamberlain's Colic, Cholera
and Diarrhoea Remedy has been successfully
used in nine epidemics of dysentery. It has
never been known to fail. It is equally
valuable for children and adults, and when
reduced with water and sweetened, it is pleas-
ant to take. Sold by All Dealers.

It seems that when Johnson knock-
ed Jeffries over the ropes he also
knocked prize fighting in this coun-
try out of existence.

If your liver is sluggish and out of tone,
and you feel dull, bilious, constipated, take
a dose of Chamberlain's Stomach and Liver
Tablets tonight before retiring and you will
feel all right in the morning. Sold by all
dealers.

About the time the strong man is
boasting loudest of his strength some-
thing happens to make him boller
for help.

"I have been somewhat costive, but Doan's
Regulets gave just the results desired. They
are mild and regulate the bowels perfectly."
George B. Krause, 300 Walnut Ave., Altoona,
Pennsylvania.

Honestly now, if you think your
name is in the paper don't you keep
right on hunting until you find it?

Dyspepsia is our national ailment, Bur-
dock Blood Bitters is the national cure for it.
It strengthens stomach membranes, pro-
motes flow of digestive juices, purifies the
blood, builds you up.

We always feel near to nature
while browsing in the juicy heart of
a lucious watermelon.

Julius Ranch, Roscoe Selock and
In buying a cough medicine, don't be
afraid to get Chamberlain's Cough Remedy.
There is no danger from it, and relief is sure
to follow. Especially recommended for colds
and whooping cough. Sold by all
Dealers.

A lot of people who think they are
"live wires" are really not connected
up with anything.

When the digestion is all right, the action
of the bowels regular, there is a natural
craving and relish for food. When this is
lacking you may know that you need a dose
of Chamberlain's Stomach and Liver Tablets.
They strengthen the digestive organs, im-
prove the appetite and regulate the bowels.
Sold by all Dealers.

Honesty is the best policy, but the
honesty that has its source in policy
is dishonesty.

Passing the Time.
The Scotchman could not find his ticket.
On the conductor's second round it was still
missing. "What's that in your mouth?"
he asked. Sure enough, there was the mis-
sing ticket. The conductor punched it and
went his way. "Ah, we'll," said Sandy, in
reply to his fellow passengers' banter, "I'm
naw sae absent minded as ye wad think.
You was a vera auld ticket an' I was just
sucken aff the date."—Success.

BRAIN LEAKS
The prize for the race is at the end
of the course.

The right made by might usually
gets left in the end.

PROCLAMATION
CELMO
The King Remedy for Rheumatism and
all Uric Acid Ailments
The remedy that cured the Ambassador of
France after 30 years suffering, that had endan-
gered his life three times. CELMO reaches the
trouble in the logical way—the right way. It does
so without upsetting the stomach, or the system.
The most delicate child can use CELMO safely,
for the reason that it contains none of the harsh
ingredients met with in the majority of prescriptions
for Rheumatism. With CELMO, special diets and
chemical baths are unnecessary. It is something
entirely different—removed from all the known,
present and past remedies. It is easy to make
claims, but sometimes hard to prove them—but we
make no claims which cannot be fulfilled—no
statements which cannot be substantiated. It is
sometimes hard to distinguish between Exaggeration
and Truth. We stand ready to prove that we
have in CELMO a remedy that is beyond all
doubt or question. You are taking no risk of any
kind with this product. What it has done and is
daily doing in America, England, France and the
world over, is known. Ask us for evidence—for
proof—for letters from citizens of the United States
everywhere—from the subjects of England's
Ruler—from the Army—there are few places that
cannot testify to the remarkable results of CELMO
in Rheumatism, Sciatica—Lumbago—Gout, etc.
Ask to see CELMO at our store. Ask for a
handsome book telling all about it. You will
quickly recognize CELMO by its real dressing of
purple and gold—for it is originally a British pro-
duct and always bears the crown. A pocket size
—convenient—pleasant—in tablet form—no rules
to follow—no mixtures to take—no oil to rub on—
Get CELMO today and be rid of your pain.

Thirty of her little friends were present and they all enjoyed the evening very much playing games on the lawn. At four o'clock refreshments was served in the dining room. The room was darkened and five tapers were lighted on the birthday cake which presented a beautiful appearance.

Disciples' State Convention.

At the Annual State Convention of the Illinois Disciples great issues will be discussed by the most prominent workers of the brotherhood. There is no greater field of service in the Missionary work than our own great state. It is a task worthy of our great body of Christian workers. Say, Disciple reader, are you going to be at the convention? When? September 12 to 15. Where? West Side Church, Springfield. Ask your minister about it.

J. W. STREET, Church Pub. Co.

New Cable Drops.

Last Saturday forenoon while workmen were connecting up one of the new one and one fourth inch hoisting cables at the coal shaft, chumps holding it in place gave way and the cable dropped to the bottom of the shaft a distance of 900 feet. It was badly kinked and twisted out of shape and it will be necessary to procure a new cable. Fortunately there was no one in the shaft and no damage done except to the cable. The cable was 1210 feet in length and weighed 3000 pounds. The cost was about \$300 but the loss will not be total as it is thought at least half of it was uninjured. The loss to the company will probably be about \$200 and it all happened in less than half a second. Superintendent J. J. Rittman was in Decatur when the accident happened. LOVINGTON REPORTER.

The Hot Blast Air Tight Florence Patent Again Sustained By The United States Circuit Court.

In the suit of J. B. Howard against Donat Bros., Antwerp, Ohio, for infringement of the United States patent No. 626997 in selling of the Globe Hot Blast Stove, the United States court sitting at Toledo, Ohio, has again sustained the J. B. Howard Combustion patent and held the same infringed by defendants. An injunction and accounting for profits and damages has been ordered.

The Hot Blast Air Tight Florence, which has made wonderful reputation wherever used, is fully covered by the J. B. Howard Combustion patent and Mr. Howard is determined to protect his customers in the sale of the Hot Blast Air Tight Florence and to continue the prosecution of infringers.

The J. B. Howard Combustion is also embodied in the Searchlight Utility Return Flue Floor Heater, a stove for burning anthracite coal, which is manufactured by the Utility Stove & Range Company, Indianapolis, Indiana.

W. H. WALKER, of Sullivan, is the local agent for the Hot Blast Air Tight Florence. 34-4.

Republican Meeting.

The Moultrie county republican committee met in the master in chancery's office in the court house Saturday August 13th at 11:30 a. m.

The meeting was called to order by Chairman W. A. Steele. The roll was called and a quorum being present, the following business was transacted.

The following resolution was presented and adopted by the committee: "The county secretary was ordered to notify all absent members of committee that the primary to be held August 17 is declared off and that the committee had endorsed Levi Seass for the legislature.

WHEREAS, Levi Seass and Lucas Lambrecht, the only two republican candidates in this county, for the member of the legislature, met with the county central committee on July 12, and proposed to the committee that a county primary election should be held to determine which one of them should be the candidate at the regular primary in September, and agreeing to abide by the result of said county primary, the one who was defeated to withdraw his petition and not have his name on the regular primary ticket, and

WHEREAS, the committee agreed to the proposition and by resolution fixed the time of holding said primary on August 17, pledging the support of said committee to the successful candidate and under said resolution a call was made fixing the time and manner of holding the primary, which was published, etc.

WHEREAS, shortly after the meeting of the committee, Mr. Lambrecht notified the committee chairman and the members of the county committee that he had decided not to abide by the result of the primary, nor to have his name on the ticket to hold said primary, there being but the one candidate to be voted for;

THEREFORE, be it resolved by the county central committee, that the primary called for August 17, be declared off;

And be it further resolved, that it is the judgment of the committee that Levi Seass be recognized as the republican candidate for member of the legislature from Moultrie county, the same as though he had been nominated at the county primary, and that he should receive the support of the republican party in this county, and believing, as we do, that Mr. Seass is an honest, upright, honorable gentleman, and will, if elected, represent this district with credit, and, believing also, that Moultrie county is entitled to a representative in the legislature, we urge his support by the voters of Moultrie, Piatt and Champaign counties."

The resolution was passed and adopted by the Moultrie county central committee August 13, 1910.

The candidates as filed by the republican party are:

Representative—Levi Seass.

County Clerk—Wm. Stables, Bethany.

County Treasurer—J. R. Pogues, Sullivan.

Sherrif—W. D. Kinkade, Whitley.

FROM EXCHANGES

The eighteen months-old daughter of Mr. and Mrs. Noah Miller of LaPlace fell into a ten-gallon jar of ice tea Friday afternoon and was drowned. The accident occurred on the farm of Jacob Miller, near LaPlace, where Noah Miller was helping his brother thresh oats. The jar of ice tea was on the porch and the child fell in head-first when no one was watching. There was only five or six inches of tea in the jar, but that was enough to cause death, as the infant was not found for several minutes.

A little girl one day came in the sitting room with a little sick chicken in her hand and said: "Do something for him quick. I am 'fraid he's got the perrin jercitis (appendicitis)!"

What is believed to be a record yield of wheat for this section of Illinois has been harvested, by Henry Cochran, a farmer who resides near Lawrenceville, Illinois. From thirty nine acres he cut a crop that averaged thirty-seven and one half bushels to the acre.

No conquering hero in any line of endeavor ever received a more elaborated greeting than did Dan Patch, king of race horses, when he arrived in Peoria shortly before noon from the M. W. Savage farm at Minneapolis, Minn. Met at the railway station by a brass band, he was carefully taken from his private car and with the other Savage horses that are traveling with the wonderful pacer was paraded through the downtown streets at the noon hour. The parade gave Peorians an opportunity of looking upon a quartet of the greatest horses in the world—Dan Patch, Minor Heir, Hedgewood Boy and Lady Maude C., the latter three being the property of Mr. Savage, who will start them at the Peoria races next week in their first attempt to equal or break the world's records of a mile in 1.55 now held by Dan Patch. After parading through the business portion of the city Dan Patch and his retinue, including a number of pace makers, trainers and handlers, headed for the mile track where they will remain all next week as features of the Great Western Circuit harness meeting, which opens next Tuesday.

Thursday is Big Picnic

Windsor wins, sir! The greatest of all! Sixteenth annual harvest home picnic and home coming will be held in Windsor, Illinois, on Thursday August 25, 1910 (on the last Thursday in August every year). Most stupendous array of free attractions at any picnic in Illinois. Forenoon balloon ascension and parachute leap, trio of juvenile acrobats in two performances; Weislogel the strong man, in two performances; the funny Williams in two laughable musical acts; parades; Cowan, the human torch, in his sensational leap of death into blazing gasoline; free moving pictures; night balloon ascension with fire works. A great musical treat: Music by Windsor Concert Band, Pearson's Recit band of Shelbyville Aolian Male Quartet of St. Louis, and by boys' and girls' choruses. Prominent speakers will also be present to talk on [live] topics of the day. There is a plethora of amusement that will mark the day as an epoch in your life, and will revivify your tired muscle.

nd electrify your jagged nerves. Why deny yourself and family a day of such enjoyment? Come and be the guest of Windsor, 'the forest city of the prairie' and the liveliest little place in the Illinois corn belt. Three beautiful shady parks—free water and hotchicks.

Since the above was put in type Frank B. Wendling, the silver-tongued orator, has been engaged for an afternoon address.

Good Positions

WOMAN'S SPHERE

BEST MODELS STAY GIRLS MUST WAIT UNTIL OCTOBER FOR NEW STYLES.

Scarcely a Dress Now Being Made That Is Not Intended for Late Autumn Wear—Thin Stuffs Used.

It is pretty safe to assume that there will be no absolutely new fashions until October, so that the prettiest styles now offered for girls may be employed until then with perfect safety. In fact, there is scarcely a dress now being made that is not intended for quite late autumn use, all the fashionable leaning toward thin

Sometimes it is made by the cut, which is so done as to give a drawn-in look about the ankles. Again there will be very flat plaits stitched to a closely-fitting hip-yoke which comes far below the hips. Still again there are hip shirrings or bands put below the knees to keep the skirt breadths flat, these devices permitting more ease in walking than the narrow cuts allow. But so far I have avoided the use of any exaggerated style for misses, as the very narrow frocks are extremely odd looking, and anything that attracts attention is not the best taste for a young girl. At present there is a special demand for three models—the coat style for stout linens and serges, the tunic one for more elegant materials and some little gathered models that would be suitable for muslins, thin mercerized cottons, etc.

For the coat suit, which is so important; a feature of the miss' wardrobe, there are beautiful double-width linens in the smart coarse weaves going at 50 cents a yard. Five yards will make a dress for a girl sixteen years old, the coat coming something below the hips and the skirt a plain gored model. The dress, then, if made at home, buttons and furnishings excepted, would cost only two dollars and a half. For the tunic dress, there is nothing prettier than voile or marquisette, and without a doubt such textiles will be worn in the house all winter long.

Our illustration shows the coat gown approved by fashion and good sense. The skirt adopts some of the growing scantness, but it is still wide enough for easy movement and good taste. The single-breasted coat fastens with three buttons, and has the plain back smartness demands, for the moment a coat has a middle seam at the back it cannot possibly have a new look.

For this dress linen, pongee or rajah silk would be excellent material for the present moment—deep blue linen, oyster white pongee or beige rajah, for the correct tone of either white or tan is a matter of importance. So when buying remember that a cream white is not quite so stylish as one which has a grayish tone and that any shade of tan is more effective if it is not too yellow. A gray linen would be immensely smart for the dress, this without any tinge of slate color, however, for the fashionable gray is rather on the tone of the summer sky at noonday—it is very pale, deliciously cool looking and very becoming.

Mary Dean

A Toilet Novelty.
A small silver novelty that makes a useful gift for a traveler—especially in summer—is a flat, plain silver case to hold the books of powder paper.

The case is double, clasping like a card case, and is made with an inner rim, beneath which the powder book covers are slipped.

Marked with a monogram on one side and date on the other, such a case makes a useful engagement present; unmarked it is suitable for a prize.

and those little odds and ends that have such a habit of accumulating upon a dressing-table.

For sale in a bazaar, too, these pin-cushions should prove most attractive, and they are easily and quickly prepared and very inexpensive to make.

SIMPLICITY IS THE KEYNOTE

This Season's Linen and Cotton Dresses Are Cut on Simple Lines.

Linen and cotton dresses are this season cut on simple lines that never fail to please. Gingham, madras, percale and the various linen patterns depend largely upon their perfection of fit.

Many of the dresses are arranged with belts that are sufficient in themselves, but allow the addition of the wide leather belts so much in vogue.

Simplicity is the keynote of the summer frock. The individual touch can be given by applying the decoration in embroidery of an unpretentious sort, either to the collar and cuffs, on plain linen or to the embroidery that is used as trimming.

The decoration of the summer frock must not be overdone. Just a few masses of color, will suffice, and the more dainty and, of necessity, quickly done lace stitches the better.

A belt of patent leather or soft suede is the usual thing, giving a tailored finish to the dress and solving the difficulties at the waist line.

And last of all, if you possibly can wear the collarless frock, take advantage of the cool comfort that is attractive, clean and that is so easily achieved by the home dressmaker.

Mending Kid Gloves.

When a tiny hole appears in a black or white kid glove, instead of sewing it cover it on both sides with a bit of court plaster and press the two pieces closely together until fast bound. The hole will not again show itself, and the method is easier and better looking than sewing on kid.

CALLED TO BE WITNESS

THE word "witness" is one of the great words of the Bible. It is found at least a hundred times in the Old and New Testaments with reference to testimony to God; and the thought that lies beneath the word is simply "telling out what we know," for which any child is competent, and for which even the greatest man is no more than competent. To know something about God and tell what we know—that is witness in the true Biblical sense.

There is the relation of the witness to God himself. "Ye are my witnesses," saith the Lord. "Ye shall be witnesses unto me." God depends upon human witnesses; the Lord Jesus Christ is dependent upon his followers for witnessing of him to a dying world. If we do not testify for the Lord by lip or pen, how is he going to proclaim his gracious gospel? This great work of witnessing is the magnificent and all-comprehensive work of Christians individually and collectively. As long as the church rests upon the rock-foundation of Peter's confession, "Thou art the Christ, the son of the living God"—the foundation upon which our Lord said he would build his church—"the gates of hell shall not prevail against it," but it shall stand unaffected by demoniacal rage and malice.

Dying Thief a Great Witness.

The greatest witness in the word of God, next to the Lord Jesus Christ, is not Paul the apostle, but the dying thief. We have long depreciated the penitent thief. There was the darkness over all the earth, there was the dying Christ, and even the disciples themselves had given up their hopes, that Christ was he "who should have redeemed Israel." Perhaps that penitent thief had never seen Christ before, or, at best, only in the course of the trial, when the Christ said: "I am a king; my kingdom is not of this world." He had no opportunity, for aught we know, of any acquaintance with the Lord Jesus Christ or with his teaching. And yet, while the other malefactor railed on him, he gave his witness, even before he had the Lord's assurance and blessing. He said: "Doth not thou fear God, seeing thou art in the same condemnation?" And we indeed justly, for we receive the due reward of our deeds; but this man hath done nothing amiss. What a melting testimony! A thief dying on a cross and Jesus Christ dying beside him, he not knowing the person of Christ, or his character, never having even sat under his teaching; and yet that poor penitent thief saw a king in the dying Jesus, and that death and burial were the ushering of the king into his kingdom. He says: "Lord, remember me when thou comest into thy kingdom." There is hardly anything more pathetic and melting and marvelous in the whole of the New Testament than that penitent thief's testimony and prayer.

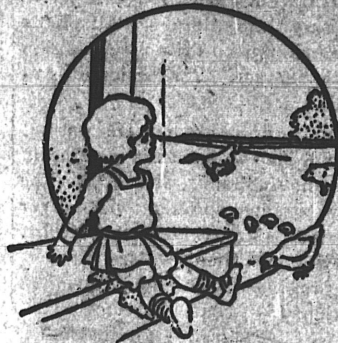

The next most marvelous witness in the New Testament is the blind man, (John 9). Eight times he witnessed to Christ. He witnessed to his own identity—to the cure and the manner of it; he repeated that witness before the Pharisees; he bore his witness to Christ as a prophet; he bore his witness to Christ as his master. The words: "Will ye also be his disciples?" showed that he had virtually accepted him as his master; he confessed him as the greatest miracle-worker since the world began; he confessed him as a righteous man; he owned him probably as Messiah when he said: "If this man were not from God, he could do nothing." These eight times he witnessed to Christ, and when our Lord found him cast out, he said: "Dost thou believe on the son of God?" and the man said: "Who is he, Lord, that I might believe on him?" he was in an attitude of craving new light and knowledge that he might obey. The Lord Jesus said to him: "Thou hast both seen him, and it is he that now talketh with thee." And he said, "Lord, I believe. And he worshiped him."

Testimony Enriches Experience. Experiences enriches testimony, but testimony enriches experience. Every time he confessed something that he found, the Lord revealed to him something he had not previously known. Many people keep silence because they think they do not know anything; but they do not know more because they keep silence.

Yet it is a dangerous thing to give what is not a sincere expression of experience. To talk about and pray for consecration, while your neighbors and family know that you are carnal—it is a dangerous thing to yourself and hurtful to other people. Lot was twenty years in Sodom, and he never saved a soul that we know of. If he had brought one soul to God in each of these twenty years, Sodom would not have perished. There was no man in the Old Testament that compared with Daniel as one who witnessed to God. Not only were Daniel's enemies compelled to confess that he was a faultless man, but King Darius glorified the God of Daniel; Daniel compelled Darius to confess to the reality of Jehovah. Are you a sincere and genuine witness? Is the testimony of your lips borne out in your life? I beseech you, turn unto God, that he may enrich your spiritual experience, and then be sure that your experience enriches your testimony in a constantly growing manner.—Rev. Arthur T. Person, D. D.

BOYS AND GIRLS

LITTLE ONES.

A little Coltie, black and sleek,
Does in the barnyard run;
He kicks up his heels and flirts his tail,
And has such loads of fun.

A little Piggie in the pen
Roots round with funny snout;
He knows just where to find good things,
And soon he roots them out.

A little Chickie in the yard
Does scratch with tiny feet;
'Tis happy when it finds a crumb,
For it does love to eat.

A little Baby in the house
Runs everywhere and plays;
It laughs and crows and merry is
Throughout the summer days.

AMUSING GAME WITH VOWELS

Each Player Writes as Long Sentence as Possible, Using Only Words Containing Vowel Selected.

"Now," said Charles, when everybody was gathered around the table, "let's play the vowel game father told us he used to play when he was a boy."

"How do you play it?" asked every one at once.
"It's very easy," replied Charles, distributing pencils and paper impartially among the family group, says the Comrade. "You take the five regular vowels, a, e, i, o, u, and beginning with the first letter, each player writes as long a sentence as he can, using no vowel except 'a' in any word, but repeating that letter as often as he wishes."

"I don't quite understand," said Cousin Lucy. "Please give us an example."

"You'll have to give me a few minutes' grace, then," laughed Charles, taking his pencil and paper. "Suppose I take 'a.' He wrote industriously a few minutes and then read the result aloud:

"Ah, madam, Frank Farna, a tall, tasty, black man at Panama, has a cat that can catch all bad ants and bats at Nathan's pantry and barn."

"Bravo!" cried uncles and aunts and cousins, as Charles finished reading the queer sentence.

"You see," continued Charles, "you may give the players five minutes, or any time you agree on beforehand, to make up the sentence. When the time is up, the sentences are read and the one having the longest sentence of good, plain, commonplace English has gained the first point. You go this way for each of the five vowels, and, when all the sentences are read and compared, the person who has gained the most points wins the game."

GLOVE HELPS IN SWIMMING.

Device With Concave, or Dished Surface, Enables Swimmer to Get Better Grip on Water.

In order to increase the effective area of a swimmer's hand, an inventor has provided a glove consisting of an elastic web formed with cuts or stalls in which the fingers and thumb may be inserted. The glove is also attached to the wrist by means of a

Swimming Glove.

strap. The cuts are made of open-work material, so that they will have a tendency to grip and bind the fingers to prevent the glove from slipping off, says Scientific American. The outer edge of the web is curved downward, forming a concave or dished surface, which will enable the swimmer to secure a better grip on the water.

A Remarkable Library.
A gentleman a good many years ago built a fine house and wanted to have a good library, and so this is the remarkable order he sent to a book buyer:

"I want six feet of theology, same quantity of metaphysics and near a yard of old civil law in the folio."

TEN LITTLE KITTY CATS.

Ten little kitty cats all dressed up fine,
One tore her pinafore, then there were nine.
Nine little kitty cats eating from one plate,
One got crowded out, then there were eight.
Eight little kitty cats sat up till eleven,
One fell fast asleep, and then there were seven.
Seven little kitty cats playing funny tricks,
One rolled out of sight, then there were six.
Six little kitty cats, learning to dive,
One went down too deep, then there were five.
Five little kitty cats playing on the shore,
A big wave caught one, then there were four.
Four little kitty cats climbed up a tree,
One fell down again, then there were three.
Three little kitty cats met a kangaroo,
One went home with him, then there were two.
Two little kitty cats sitting in the sun,
One ran in the house, then there was one.
One little kitty cat went to buy a bun,
He never came back, and so there was none.

TOY BILLY GOAT BUTTS HARD

Novel Device, Invented by Georgia Man, Intended to Cause Much Amusement for Children.

An amusing toy for children has been invented by a Georgia man. It is a rearing, tearing billy goat that butts a mannikin flat in its charge. The toy comprises a base with a figure elastically mounted at one end. The figure normally stands erect, but when struck a blow on the chest will flop over backward and spring back when the pressure is released. Facing this figure a goat is mounted on a platform, through which the animal's forefeet pass to a slide, which is also elastically operated. By means of a projecting button the slide is drawn out. When it is released the elastic makes it fly back and the goat pitches forward, raising his hind legs in the air and butting the mannikin full in the chest or face. The mannikin thereupon falls flat on his back, to the great

Toy Billy Goat.

amusement of any children who may be watching, but upon the goat resuming his normal position, the other figure boldly springs up and faces Billy again.

ANIMALS WEEP FROM GRIEF

Horses Cry From Thirst, Mule From Injured Foot and Other Beasts From Pain or Annoyance.

Travelers through the Syrian desert have seen horses weep from thirst. A mule has been seen to cry from the pain of an injured foot, and camels, it is said, shed tears in streams. A cow sulked by its mistress, who had tended it from calfhood, wept pitifully, says Harper's Weekly. A young soko ape used to cry with vexation if Livingstone didn't nurse it in his arms when it asked him to. Wounded apes have died crying, and apes have wept over the young ones slain by hunters. A chimpanzee tried to carry water jugs broke one and cried, which proved sorrow, though it wouldn't mend the jug. Rats, discovering their young drowned, have been moved to tears of grief. A graffe which a huntsman's rifle had injured, began to cry when approached. Sea lions often weep over the loss of their young. Gordon Cumming observed tears trickling down the face of a dying elephant. And even an orangoutang when deprived of its mango was so vexed that it took to weeping. There is little doubt, therefore, that animals do cry from grief or weep from pain or annoyance.

TWO AMUSING PARLOR GAMES

Pastimes Which Have Been Carried Out With Success and Are Sometimes Unusually Funny.

Two parlor amusements which have been carried out with great success are as follows:—Send a person out of the room, decide upon an object or some simple performance, recall the person and have a member of the party place his fingers lightly upon a person's shoulder while he and all the others think intently of the object or act decided upon, says Home Herald. The results sometimes are almost uncanny. A lady went straight and drew a scarpin from a man's necktie, just as he willed, found a key hidden in a lady's slipper, and so on.

The other "trick" is to draw upon a sheet of paper a square, with diagonal lines between the corners, the only opportunity of the artist to watch his own progress being a mirror held up before his hands by a second person. A newspaper is made to screen the sheet and the hand which is doing the drawing. The results are sometimes uproariously funny.

A Queer Ache.

One day Mary came to her mother and said: "Mother, my ear aches!" "Does it ache very bad, Mary?" asked her mother.

"No, well, run out and play, then you will forget about it."

Mary went out, but pretty soon she came back and said: "Mother, my ear does ache. It is not the hole, but the rume around it."—Dulacator.

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am to-day a well woman."—Mrs. WILLIAM ABBEY, 935 W. 21st St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham Laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaint, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

STOCKERS & FEEDERS

Choice quality; reds and roans; white faces or Angus bought on orders. Tens of thousands to select from. Satisfaction Guaranteed. Correspondence Invited. Come and see for yourself.

National Live Stock Com. Co.
At either
Kansas City, Mo., St. Joseph, Mo., S. Omaha, Neb.

DAISY FLY KILLER

placed anywhere, it kills all flies, mosquitoes, gnats, house flies, etc. It is safe for all animals, and does not harm the human system. Guaranteed to kill. Of all dealers or sent prepaid for 10c. HAWK & SONS, 110 West 4th Ave., Brooklyn, New York.

Quaint Table Manners.

Jerome S. McWade, the Duluth millionaire, talked at a dinner about the delights of a backwoods vacation.

"I go to a quaint backwoods village every summer," he said, "and numberless are the quaint people I meet there."

"Old Boucher, for instance, the janitor of the village church, is most amusing with his quaint ways. I had old Boucher to lunch one day, and the cold lobster was served with a mayonnaise sauce. When my servant offered this sauce to Boucher, the old man stuck his knife in it, took up a little on the blade, tasted it, then shook his head and said: "Don't choose none."

A Fitting Design.

"I want an estimate on 10,000 letter heads," said the professional-looking man with the silk hat.

"Any special design?" asked the engraver.

"Yes, sir," replied the caller. "In the upper left-hand corner I want a catchy cut of Patrick Henry making his memorable speech, and in distinct letters, under the cut, his soul-inspiring words, 'Give me liberty or give me death.' You see," he added, handing a card to the engraver, "I'm a divorce lawyer, and want something fitting."—Lippincott's.

You Know Them.

"Is that a new hobby he is riding?" "No; same old frayed hors. It's the new bit and bridle that attract attention."

Convenient For Any Meal Post Toasties

Are always ready to serve right from the box with the addition of cream or milk.

Especially pleasing with berries or fresh fruit.

Delicious, wholesome, economical food which saves a lot of cooking in hot weather.

"The Memory Lingers"

POSTUM CEREAL CO., Ltd.
Battle Creek, Mich.

the velvet used for the cushion should be carefully chosen to harmonize with the color of the china, and it may be fastened in its place just inside the edge of the cup with a little seccotine.

Apart from the ordinary usefulness of a little pincushion of this nature, these little Japanese cups and saucers always make dainty ornaments, and look wonderfully pretty upon a dressing table. Smart little bows of ribbon tied round the handles would go still further to make this article decorative, and the saucer forms a useful receptacle for hair-pins buttons

NOTES FROM MEADOWBROOK FARM

By William Pitt

Retentive soils should be drained.

Send to market all old hens right now.

A poor milker, man or maid, is an abomination in a dairy.

The shorter the fattening period the greater the profit from the pen.

If there are any bare places on the lawn now they should be reseeded or resodded.

The disk is a better implement than the plow for breaking up sod in the orchard.

There is a distinct difference between weeds and corn. There should also be an extinct difference.

An orchard will live longer, bear better and be more profitable for being well cultivated and enriched.

Perhaps the first important factor to consider in dairying is the stable wherein the cattle are to be housed.

Strawberries should be cultivated, the weeds eradicated and the moisture conserved for late summer drouth.

When the incubator is to be started for late hatches set things in order and run it two days before intrusting the eggs to it.

The scientific, thoughtful farmer works with his head. He knows every cow, her yield, her condition and her profit producing capacity.

Allow the calf to run with the mother for a day or so immediately after birth. The new milk is necessary to promote a proper digestion.

Aside from the commercial value of the products from the poultry yard the value of fresh eggs and fine poultry for the table should not be underestimated.

No sane and active poultry keeper will tolerate lice in the nest. Place water, feed and dust bath where the hen can easily get at them when she daily leaves the nest.

Unless you secure the guinea eggs and have the young ones hatched under the hens, along with the chicks, they are almost certain to become wild and unmanageable.

Beware of "red rust" in blackberry or blackcap bushes. When seen, promptly dig up and burn infected plant, being careful not to scatter the fungous dust over healthy bushes.

Those who have large apple orchards are fortunate if they have evaporators for drying windfall apples. This is a good way to utilize unsalable fruit and thus add to the profits of the orchard.

Keep your eyes open for better hens. You will often see some advertised for sale. But steer clear of old worn-out stock. None over one or at the outside two years old should be bought or kept on the farm.

For grape-rot and mildew, begin early and spray the vines with Bordeaux mixture at intervals of about two weeks. Newly-set grape vines should be allowed to grow only one main shoot which should be tied up.

When we understand that it requires twenty tons of moisture to produce a bushel of corn we will study to make its evaporation as slow as possible, as crops suffer more from lack of moisture than from any other single thing.

It is quite a temptation sometimes to have a dealer offer you a big price for the best sheep and lambs. If you need them in your own herd, however, you cannot afford to take any price offered. Keep the best and make that best better another year.

Cottonseed meal fed to excess will injure the flavor of butter just as linseed meal in excess will injure the grain and flavor. While both of these can be fed to an advantage to dairy cows the best results are possible only when they are used in connection with other materials.

Do not neglect to examine the currant and gooseberry-bushes and look for the white eggs of the currant-worms, and the larva of the currant-sawfly. If you find any, dust the leaves, top and under sides, with finely powdered hellebore, when the foliage is wet, or put a heaping tablespoonful in a gallon of water, and apply.

There is money in bees.

Start an asparagus bed. It thrives on a sandy soil.

Sell off all the roosters except the prime ones for breeding.

The breed of white hogs is rapidly disappearing from this country.

The good roads movement increases the pleasure of moving over the roads.

Some men never discover where a fence is weak until they attempt to climb over it.

Even a city man can come to the front with a small flock of poultry in his back yard.

No cow which averages less than one and one-half gallons of milk per day can be kept at a profit.

Take the chill off the water for the mare, and feed her carefully and keep her quiet for a number of days.

The man who said "that the best poultrymen on most farms are the women," knew what he was talking about.

It is more difficult to secure the seeds of forest trees than any other kinds of seeds, since there is so little market for them.

Beets may be canned or pickled and saved for winter use. When vegetables are scarce they will be greatly enjoyed if saved in this way.

In Japan there are 192 people for every 40 acres of land and 256 cows, 256 donkeys, and 512 swine for every square mile of land in the kingdom.

It is not fair calculation to take the average of the herd as the basis of computing annual profit from the dairy. Let each individual stand on her merits.

The sitting hen should be given a new, clean box for a nest, filled with the cleanest of material. Place her on the new nest and give her the eggs in the evening.

No animals are bred that are capable of supplying the largest amount of rich milk and storing away the largest amount of flesh and fatness in their bodies at one and the same time.

Most people find that the yearling hens lay more eggs than the older hens, but some chicken raisers claim that the old hens eggs are better for hatching, because they are more strongly fertilized.

Good food never creates the character nor temperament of a cow, nor makes of her a good dairy animal, any more than it never makes a good cow out of a small milker; it is useless to make the effort.

Water or moisture is always on the move. When it rains it soaks the ground, and as soon as it stops raining it starts its upward movement by capillary attraction. It travels from one soil particle to the next and so on until the soil becomes what we call dry.

It must be apparent to every unprejudiced thinking man that if the dairy farmer wishes to obtain the greatest profit in his dairy he must grade up his herd by one of the pure-bred bulls of one of the four great dairy breeds, Ayrshire, Guernsey, Holstein or Jersey.

All stock will be healthier and will thrive better if salt is kept where they can help themselves daily rather than at intervals. Medicated salts are now put up and sold that are better in every way for the stock than the common salt usually used besides being a better conditioner.

The soil has wonderful absorptive power to hold on to its moisture, for if we place some soil in the oven and drive off the moisture by heat and then examine these soil particles under a powerful microscope we will find each soil particle coated with a thin film of what is termed hygroscopic water.

Shade and water are important matters in connection with grazing cattle, and the more nearly natural the conditions can be made, the better. In a pasture which contains no trees, it sometimes pays to put up a board roof to protect cattle from the hot sun in July and August, but summer feeding on a large scale is not generally advisable at all where there is no natural shade in the field.

Unless the cockerels are to be retained for breeding purposes, it is advisable to kill them off as soon as they are sufficiently large, thus clearing the ground and giving more space to the pullets to grow. When cockerels are allowed to run together, growth is considerably retarded; besides which the flesh loses a good deal of its excellence, both in flavor and fineness.

Professor Washburn of the Minnesota division of Entomology at University Farm finds toads to be friends of the farmer. They feed entirely upon an incredible number of insects. The federal department of agriculture, investigating the toad, discovers the startling fact that in 24 hours the insect food consumed by one toad equals in quantity four times the capacity of its stomach, which is practically filled and emptied four times every 24 hours.

THE YEARS OF SUFFERING.

Restored at Last to Perfect Health by Doan's Kidney Pills.

Mrs. Narcissa Waggoner, Carterville, Ill., says: "For over ten years I suffered terribly with backaches, headaches, nervous and dizzy spells. The kidney secretions were unnatural and gave me great trouble. One day I suddenly fell to the floor, where I lay for a long time unconscious. Three doctors who treated me diagnosed my case as paralysis and said they could do nothing more for me. As a last resort, I began using Doan's Kidney Pills and was permanently cured. I am stronger than before in years." Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

SOMETIMES.

Henderson—When a man marries he keeps his wife in dresses, hats, shoes—in fact, everything she needs. What does a wife keep her husband in?

Henpeck (absently)—Hot water.

One Side Enough.

Senator William Alden Smith tells of an Irish justice of the peace out in Michigan. In a trial the evidence was all in and, the plaintiff's attorney had made a long and very eloquent argument, when the lawyer acting for the defense arose.

"What are you doing?" asked the justice, as the lawyer began.

"Going to present our side of the case."

"I don't want to hear both sides argued. It has a tendency to confuse the court."—Washingtonian.

LEG A MASS OF HUMOR

"About seven years ago a small abrasion appeared on my right leg just above my ankle. It irritated me so that I began to scratch it, and it began to spread until my leg from my ankle to the knee was one solid scale like a scab. The irritation was always worse at night and would not allow me to sleep, or my wife either, and it was completely undermining our health. I lost fifty pounds in weight and was almost out of my mind with pain and chagrin as no matter where the irritation came, at work, on the street or in the presence of company, I would have to scratch it until I had the blood running down into my shoe. I simply cannot describe my suffering during those seven years. The pain, mortification, loss of sleep, both to myself and wife is simply indescribable on paper and one has to experience it to know what it is.

"I tried all kinds of doctors and remedies but I might as well have thrown my money down a sewer. They would dry up for a little while and fill me with hope only to break out again just as bad if not worse. I had given up hope of ever being cured when I was induced by my wife to give the Cuticura Remedies a trial. After taking the Cuticura Remedies for a little while I began to see a change, and after taking a dozen bottles of Cuticura Resolvent in conjunction with the Cuticura Soap and Cuticura Ointment, the trouble had entirely disappeared and my leg was as fine as the day I was born. Now after a lapse of six months with no signs of a recurrence I feel perfectly safe in extending to you my heartfelt thanks for the good the Cuticura Remedies have done for me. I shall always recommend them to my friends. W. H. White, 312 E. Cabot St., Philadelphia, Pa., Feb. 4 and Apr. 13, 1909."

Bliss Be Nothing.

Wife—The doctor writes that in view of our poor circumstances he will not present his bill immediately.

Artist—We are lucky that our circumstances are no better; if they were, we might have to pay at once!

The lamb that plays around a mint bed tempts fate.

Lewis' Single Binder gives a man what he wants, a rich, mellow-tasting cigar.

Many a man who stops to think twice fails to act once.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules.

Better a nagless wife than a horseless carriage.

THE DOCTOR'S IDEA.

Invalid—Doctor, I must positively insist upon knowing the worst.

Dr. Wise—Well, I guess my bill will be about \$85.

Had Lost Faith in Doctors and Medicines

"I wish to thank you for the sample of Resinol Soap sent me several weeks ago," writes Mrs. M. F. Clemmer, Sunbury, Pa. "At that time my baby's face was like a raw and bleeding piece of meat. Medicines from three different physicians, besides various salves recommended by friends, all seemed to make the Eczema worse. Then another mother recommended Resinol Ointment which I procured at once, although I had no more faith in it than in the rest I had tried; but never did I spend fifty cents to better advantage. The first and second days I noticed a remarkable change, and now at the end of the third week, my pretty blue-eyed, rosy-cheeked baby is perfectly well again. I think the cure was surely something remarkable. Resinol Ointment and Soap did in three weeks what everything else failed to do in four months. My baby had been positively disfigured, now his complexion is all right again."

Resinol Ointment cures all skin troubles, from pimples to the most disfiguring eruptions and rashes. The first application stops the intense itching of Eczema, Itching Piles, Pruritus, etc., and subdues the pain of a burn or scald instantaneously. It is sold in every leading drug store in the world.

Booklet on Care of the Skin and Complexion sent free. Write for it. Resinol Chemical Co., Baltimore, Md.

Keeping It Dry.

An old woman of a wealthy New Jersey family was going visiting. The coachman, who had not been in this country long, had just been equipped with a new uniform and a new silk hat. Before they had gone far it began to sprinkle, and the old woman told the coachman to fasten down the side curtains of the wagonette.

He drove up to a hitching post beside the road and, dismounting, hung his new hat on the post, and began to fasten the curtains.

The old woman noticed his bare head and asked him where his hat was.

"Oh, took it off me head, mum, so as it wouldn't get wet," the coachman replied.

Another Tradition Exploded.

Two Englishmen were resting at the "Red Horse Inn" at Stratford-on-Avon. One of them discovered a print picturing a low tumbling building underneath which was printed: "The House in Which Shakespeare Was Born." Turning to his friend in mild surprise he pointed to the print. His friend exhibited equal surprise, and called a waiter, who assured them of the accuracy of the inscription.

"Pon my word," said the observing Englishman, shaking his head dubiously, "I thought he was born in a manger!"—Success Magazine.

Try This, This Summer.

The very next time you're hot, tired or thirsty, step up to a soda fountain and get a glass of Coca-Cola. It will cool you off, relieve your bodily and mental fatigue and quench your thirst delightfully. At soda fountains or carbonated in bottles—5c everywhere. Delicious, refreshing and wholesome. Send to the Coca-Cola Co., Atlanta, Ga., for their free booklet "The Truth About Coca-Cola." Tells what Coca-Cola is and why it is so delicious, refreshing and thirst-quenching. And send 2c stamp for the Coca-Cola Baseball Record Book for 1910—contains the famous poem "Casey At The Bat," records, schedules for both leagues and other valuable baseball information compiled by authorities.

And They Wondered!

Judge Nicholas Longworth, who used to sit on Ohio's supreme bench, looked unnaturally grave, and a neighbor, in recognition of his facial depression, named a pet owl "Judge Longworth." It was the very next day that an excited maid broke up his wife's garden party. "Oh, madam," said she. "Madam! Judge Longworth has laid an egg."

Force of Habit.

Little Girl—Mummy! (No answer.) Mummy! Are those swallows? Mummy (deep in her book)—Yes, dear. Don't touch them.—Punch.

Good intentions are always hot stuff; that is why they are used for paving material in a certain locality.

Armour's Fertilizers

Increase the yield—Improve the quality—Enrich the soil. Every harvest proves it. Can you afford to risk your wheat? Be safe.

Armour's Fertilizers

grow the biggest crops. Ask your dealer.

Armour Fertilizer Works

Chicago

THEIR IDEAS.

First Woman—A smart woman can fool a man all his life.

Second Woman—And a smart man can only fool a woman until she finds it out.

Quotation Marks.

Senator Beveridge, in an after-dinner speech in Cleveland, said of a corrupt politician:

"The man's excuse is as absurd as the excuse that a certain minister offered on being convicted of plagiarism.

"Brethren," said this minister, "it is true that I occasionally borrow for my sermons, but I always acknowledge the fact in the pulpit by raising two fingers at the beginning and two at the end of the borrowed matter, thus indicating that it is quoted."

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson* In Use For Over 30 Years.

The Kind You Have Always Bought.

Men are always betting that their sins will not find them out.

There are imitations, don't be fooled. Ask for Lewis' Single Binder cigar for 5c.

Statistics are almost as unsatisfactory as facts are stubborn.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, always cures wind colic. Non-bottle.

A woman tells her troubles to a doctor; a man tells his to a lawyer.

One gets it by highway men—Tens of thousands by *Bad Bowels*—No difference. Constipation and *Dead Liver* make the whole system sick—Everyone body knows it—*CASCARETS* regulate—*Cure Bowel and Liver troubles* by simply doing nature's work until you get well—Millions use *CASCARETS, Life Saver!*

CASCARETS are a box for a week's treatment, all druggists, biggest seller in the world. Million boxes a month.

You can shave first time you try with a *Chere*.

Around the County

Lovington

Oral Turner, who lives in the east part of town, is sick with typhoid fever.

An expensive accident occurred at the coal mine last Saturday a week. The new cable, 1210 feet in length and weighing 3,000 pounds, dropped to the bottom of the coal shaft and was ruined. Fortunately no one was hurt. The damages amounted to about \$200.

Miss Nellie Potts returned last week from Kansas, where she had been visiting friends.

Born to Edward J. Lewis and wife, a son, August 10, 1910.

Mrs. Webb Lewis was called last Thursday to Oakland to see her sister, Mrs. May Logan, who is at the point of death with typhoid fever.

Mrs. Henry Muschl is ill with inflammatory rheumatism.

Rev. Curtis Munch is home from Grigsville for a few days' visit with his mother.

Mrs. Cone and daughter, Ruth, of Chicago are visiting old friends and attending the Home Coming.

Charles Foster, Miss Lonie Foster and Mrs. Emma Martin of Decatur attended the funeral of Thomas Anderson Saturday.

Harry H. Clore, wife and daughter of St. Francis, Kan., are visiting the former's parents, James W. Clore, Harry was born and raised here and is attending the Home Coming this week.

Thomas B. Anderson, aged 72 years, died at his home on Washington street Thursday evening. He is survived by his aged wife and two sons, George and Larel. The funeral services were held at the residence at 2 o'clock, conducted by Rev. Lyles. Interment was at the Hewitt cemetery.

Illinois Equal Suffrage Association is directing a series of automobile tours. Mrs. Ella Seass, St. Louis, a Moultrie girl, will be one of the speakers, also Miss Grace Nichols, State Secretary. Catharine M. Cullloch of Evanston will be in Lovington Saturday, August 27 at 2 p. m. and will hold an out-door meeting on the street. Hope there will be a big crowd to hear them.

Gays

Miss Minnie Bolan is improving slowly.

I. F. Sexson and wife who were hurt in a runaway a few days ago are slowly improving. They were not seriously hurt.

Grain in this vicinity is moving rapidly.

Quite a number of Mattoon people are attending the Gays union meeting.

Wm. Bence visited his brother, Elmer and family Sunday.

W. S. Young was in Gays Monday. He is improving rapidly.

Dr. Orval Stone visited his best girl Sunday.

Vern Kern has returned from the west where he has been working in the wheat harvest. He is looking hale and hearty.

James Alexander, sr., is now in charge of the Gays meat market.

Don't forget the Old Settlers' picnic at the usual place September 1st.

The union meeting at Gays will probably close next Sunday.

T. D. Slater is at home in Gays in very poor health.

Our union meeting is doing good work. Over 100 conversions to date. Evangelist Lively is a strong and earnest man and many good results are expected.

Kirkaville

T. H. Grantham and family visited Mrs. Arthur Herendeen, who has been quite sick, but is better.

Fleta Mitchell who has been suffering for two weeks with tonsillitis, is much better.

The marriage of Miss Hazel Evans and Opha Yarnell was solemnized Tuesday evening at the home of the bride's parents, Mr. and Mrs. Job Evans. We wish them a long life and much happiness.

Mrs. Joseph Bailey left last Saturday for a visit with her mother, Mrs. Hostetler, in Arthur.

Mrs. Jane Williams of Sullivan spent most of last week at the bedside of her daughter, Mrs. Guy Wirth.

Oma Spencer returned home last Wednesday from Dexter, Ill., after a three weeks' visit with her grandparents, D. Wickizer and wife.

William Yarnell and wife of Sullivan was assisting their sons, Opha and Chester, with their thrashing on Monday.

YUM! YUM! FREE WATERMELONS!

Georgia to Play Hostess at Ohio Valley Exposition.

COLONEL DUNLAP'S SCHEME

Will Send Carload of State's Most Luscious Fruit to Cincinnati For Distribution Among Visitors—Will Be Languid as the Typical Southerner is Supposed to Be.

Free watermelons! And each weighing at least 80 pounds!

Oh, doctor, doctor, pass the paregoric!

This gratis distribution of the luscious, red-hearted, overgrown fruit of the summer season is set down as one of the thousand and one special events of the Ohio Valley Exposition, with the state of Georgia as the hostess.

As everybody knows, Georgia is as proud of her watermelons as she is of her peaches—and everything else that she grows and produces, including senators, congressmen and a general line of politicians. So, in order to let the half million or more visitors to the Exposition in one of her secrets, Georgia will cull from her pet watermelon counties just one carload of the choicest melons she grows—melons that are languid as the typical Southerner is supposed to be, but isn't—melons that do not deign to put on their delightful-to-the-eye green dresses until long after the general crop had found its way to Northern markets.

And these melons, coming so late in the season, also are large for their age, none of them being under 80 pounds in weight, and each having a flavor and a firmness that makes the ordinary melon taste and look like a bundle of colored oakum. This one carload of melons, coaxed away from the residents of the only two counties in the state that grow them, will be placed on exhibition at the Exposition, properly labeled and duly refrigerated. And then, when they have reached the full stage of their ripeness—when they are just coaxing the general and hungry public, that has been deploring for some time the passing of the watermelon season—comes a voice which says: "Come, have a melon with the state of Georgia; get acquainted with lusciousness of one of our thousand or more magnificent products." And then watch the rush.

The gentlemen who conceived this idea of giving away watermelons as samples of Georgia's agricultural prowess are Colonel S. C. Dunlap and Ed Hafer of the Georgia Bureau of Industries and Immigration. Mr. Hafer was in the city Thursday, attending a meeting of the executive committee of the Southern Resources Department of the Exposition, who met here for the purpose of completing the plans for the collective exhibit from Dixie, which will cover 21,000 square feet of space on the second floor of the north hall. "And we'll go through with it, too," declared Mr. Hafer before he hid himself southward.

LUMBERMEN WILL ERECT BUILDING

Will Exhibit Southern Woods at Cincinnati.

Cincinnati, O.—(Special.)—The lumbermen of the South are showing extraordinary diligence in the matter of getting out the highest class of examples of their products for exhibition at the Ohio Valley Exposition, which will be held in Cincinnati from Aug. 29 to Sept. 24. The keen competition between various sections of the South for the distinction of producing the highest grades of finished hardwoods as well as the best lumber for general purposes, has given added zest to the assembling of the lumber exhibit, which promises to be one of the striking features of the Southern States exhibit. A special committee has been at work for weeks in the South, securing the best samples of hardwoods, general lumber and furniture for display in Cincinnati, and with the undoubted result that when the Southern States exhibit is opened for inspection in the North hall, it will contain the most perfect collection of woods ever shown from this territory.

Nor have Northern lumbermen been dilatory about bringing their products before the Exposition crowds. One of the promised features in the forestry display will be a two-room cottage, finished entirely in yellow pine, this exhibit being made by the Yellow Pine Lumber Manufacturers' association, and representing one of the most attractive and unique displays in this portion of the Exposition. There also will be installed in the Forestry exhibit a miniature sawmill, showing how logs are converted into the finished lumber product. The indications are that

more money will be spent by the lumber interests for display in the Southern States and Forestry exhibits than in almost any other department of the Exposition.

RAILROADS MAKE BIG REDUCTION IN RATES

Cincinnati, O.—(Special.)—For the first time since the various state legislatures took a hand in the matter of fixing railroad rates, the various companies operating in the Central and Southwestern Passenger association territories are offering liberal reductions from the regular rates in fixing the scale for round trips to the Ohio Valley Exposition, which is to be held in Cincinnati from Aug. 29 to Sept. 24. Realizing the great industrial and commercial benefits involved in this project, the railroads have established a series of tariffs that are certain to add to the general attractiveness of this gigantic enterprise, which bids fair to be the most important industrial congress ever held in the Middle West.

In the Southeastern Passenger association territory a rate of 4 cents per mile, plus 25 cents for the round trip, which is equal to a rate of 2 cents per mile each way, is authorized, beginning Aug. 24 and continuing to Sept. 24, with the return limit at point of destination on Sept. 29. A further reduction to 3 cents a mile for the round trip, equaling 1½ cents per mile each way, plus 25 cents, is authorized on tickets to be sold daily during the time of the Exposition from all points beyond a radius beyond which rates on this basis would figure higher than \$5, the final limit on such tickets to be 10 days from and including date of sale. Also tickets to be sold at 3 cents per mile, plus 25 cents, for the round trip, equaling 1½ cents per mile each way, plus 25 cents, daily during the period of the Exposition from points within a radius where rates on this basis would make \$5 or less, with final limit good to reach original starting points returning five days from, but not including date of sale.

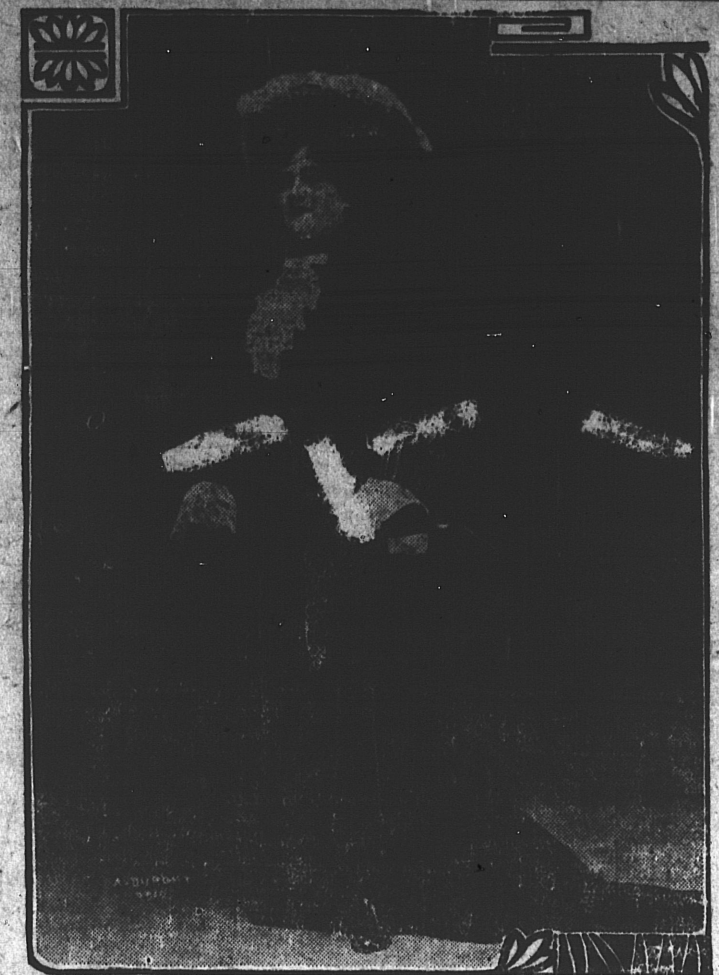

In the Central Passenger association territory season tickets will be sold at the rate of 2 cents a mile each way, beginning Aug. 24, with return limit good to and including Sept. 30. From Louisville, Indianapolis, Columbus and point about equidistant, on other railroads, a rate of one and one-half fare for the round trip is established, tickets to be sold on Tuesdays and Fridays of each week during the Exposition, with return limit of three days, including date of sale. From territory beyond points above named tickets will be sold at one and one-half fares from all points in the Central Passenger association territory on Wednesday of each week during the Exposition, with return limit of seven days, including date of sale.

PAGEANT TO SHOW MANY INDUSTRIES

Merchants Take Advantage of Exposition Opportunities.

Cincinnati, O.—(Special.)—Industrial advertising as fresco will be a feature of the opening of the Ohio Valley Exposition on Monday, Aug. 29. In other words, manufacturers and merchants will be given the opportunity to bring their products and wares before the public through the means of a magnificent street pageant, which will traverse the principal thoroughfares of the city before concluding at the grounds of the Exposition. This street spectacle will be made up of a number of floats, artistically created, illustrating the various trades and industries interested in the Exposition, factories, stores or sections arranging their products or commodities on floats, which will become a portion of this mammoth industrial pageant. Not only will the special rates granted for the Exposition by the railroads be in force on that day, but a number of excursions are being arranged for the occasion. This means that there will be tens of thousands of strangers in the city to witness this parade, making each display in the pageant an invaluable advertising medium for the enterprising firm that created it. Places in this parade will not be limited to local concerns, a general invitation being extended to the business men of all cities interested in the Exposition to prepare floats to participate in the spectacle. Nor will the parade be confined to strictly industrial features. One of the divisions will be devoted to a display of work horses, this department being under the direction of the Ohio Humane Society, which has appropriated the sum of \$2,500 as prize money for various interesting features in connection with the treatment and general condition of the horses in the parade. And in order to add zest to the industrial portion of the parade, the Exposition management offers three prizes of \$250 each, one for the most unique float; one for the most beautiful float, and one for the float offering the greater number of general points of excellence. Entries for the pageant now are being received and will be assigned places in the various divisions in the order of their receipt.

WILL CREATE TITLE ROLE

Bernice de Pasquall, a Boston girl, leading coloratura soprano of the Metropolitan Opera company, who will create the title role in the Jones-Florida popular romantic opera, "Paoletta," to be produced at the Ohio Valley Exposition, Cincinnati, Aug. 29 to Sept. 24.

MARBLE QUARRIES IN KEEN RIVALRY

Will Make Big Displays at Ohio Valley Expo.

Cincinnati, O.—(Special.)—There has developed a keen rivalry among the marble and granite quarries of the South for the privilege of doing something out of the ordinary in the way of beautifying the exhibit which the Southern roads will make of the Ohio Valley Exposition at Cincinnati from Aug. 29 to Sept. 24. The Committee on Southern Resources has already received the proffer of several large urns, six feet in height, fashioned out of granite and marble of various colors, as adjuncts to the Southern exhibit. All that the quarries ask is that the Southern Resources Committee supply them with specifications for this work and that they will do the rest, supplying the raw stone, executing the sculpturing and arranging for the polishing. These offers have been tentatively accepted, and plans will be evolved by which all of them possibly can be taken advantage of. Another attractive feature that has been suggested for the Southern exhibit is a series of twelve individual columns, each surmounted by a highly polished ball of different colored marble or granite, all being the products of North Carolina quarries and now part of the agricultural and mineralogical exhibit in the North Carolina State Museum. It is promised that the South will be particularly prominent in its displays of marbles, granites and other ornamental stones, the variety and quality of the products of the Southern quarries being of so high an order that this display is certain to attract more than ordinary attention. Other sections of the

country also will contribute displays along these lines, but it is generally conceded that the Southern exhibit will be the most complete and comprehensive shown at the Exposition.

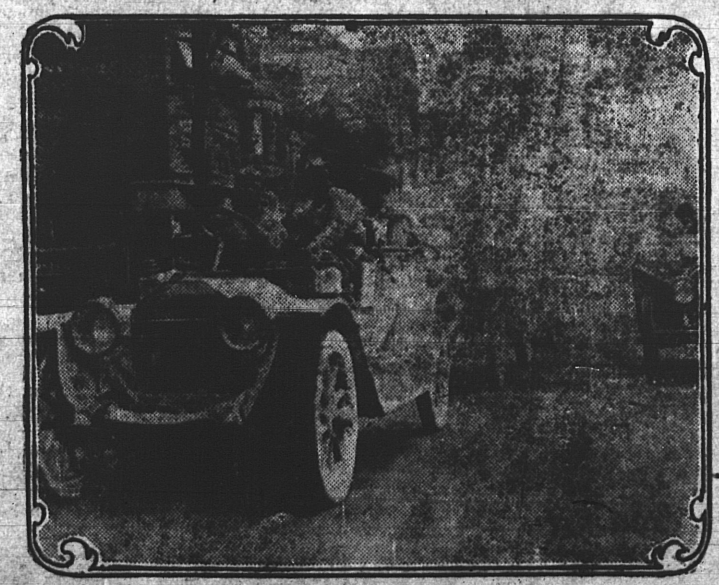

EXPOSITION EMPLOYS ONLY UNION LABOR

Cincinnati, O.—(Special.)—Not only have union workmen the call, but no man who can not show a union card in good standing has the slightest chance to break into the force of artisans who are erecting the buildings for the Ohio Valley Exposition, which will be held in this city from August 29 to September 24. About a dozen buildings will be erected on the banks of the canal in the rear of Music Hall for the accommodation of various kinds of exhibits and amusement enterprises, and not a tool will be welded on any of these that is not in the hands of a union workman.

In order to avoid all question as to the standing of any contractor in any kind of work connected with the Exposition, Claude Hagen, director of amusements, under whose supervision the buildings are being erected, decided to employ all his men directly instead of letting out the work by contract. In this way he has been able to secure the highest class of union men, with the result that work has progressed rapidly and satisfactorily, so that there is not the slightest doubt that all the structures will be completed some time before the date set for the opening of the Exposition.

Speaking of his experiment in taking charge of the entire construction work himself instead of letting it by contract, Mr. Hagen, who has designed and built some of the largest amusement enterprises in Europe and America, said: "I find this method of construction more satisfactory than any I have ever engaged in. I don't have to wait on contractors to finish one line of work before I can start on something else, and I don't have to worry about prospective labor difficulties."

THE END OF THE TOUR

Parade of autos that took part in the recent Glidden tour at the finish in Chicago. Cino car, manufactured in Cincinnati and leading the procession, will be exhibited at the Ohio Valley Exposition, Cincinnati, Aug. 29 to Sept. 24.

There was a number from here at tended the Shelbyville chautauqua on Sunday.

Sunday Dr. S. T. Butler of Sullivan the township Sunday school president, visited the Sunday school here and gave a very encouraging talk, which was greatly appreciated by all present.

The rain Tuesday morning put a quietus on thrashing in this neighborhood.

Saturday of last week Amos Ridwell and wife, Wm. Byron and wife of Sullivan, Cleve Merritt and family, Job Evans and family, Nora Riethy and children and Mrs. Julia Pasco and children and Misses Goldie Reedy of Missouri and Mabel Wilkinson all took supper near the Coal Shaft bridge and fished and had a very pleasant evening.

East Whitley

Henry Boydsare remodeling their residence. They will add another story, making it a two story residence.

Mrs. Anna Armantrout of Sullivan visited with her sister, Mrs. R. P. Montague, over Sunday.

Levin See returned to his home in Kinnmudy August 13, after spending the summer with his brother, Earl See.

Mrs. William Clarkson and six children of Oklahoma, Indiana, are visiting Mrs. Susan Bullock and other relatives.

The little son of Mr. and Mrs. John McDavid has been very sick.

Robert Warren of Bethany is visiting at Jesse Lilly's.

W. S. Young's are camping at the Lithia Springs.

E. O. Tinkembinder passed through this vicinity recently taking orders for household goods. He is a graduate of the University of Illinois.

Mrs. Harve Armantrout and her daughter, Esther, went to Mattoon Tuesday to visit relatives.

Mrs. Clara Deuisdieker and daughters, are visiting Mr. and Mrs. A. B. McDavid.

The families of Jesse Lilly, Lawson Lilly, Homer Boyd, Farley Young, James Dolan, Frank Doughty and Joe Lilly were picnicing on the river Wednesday.

Mr. and Mrs. Dennis Carmine are camping this week at Litha Springs.

Harmony

Uncle John Hoke, wife and granddaughter, Lucile Banks, spent Monday with Edgar Hoke and family.

W. G. Butler and son, Joe, were in Sullivan Monday.

W. C. Robinson, wife and son of Allenville called on relatives here on Sunday evening and attended the tent meeting in Clifton Kinsey's grove.

Elder Dudley will fill his regular appointment at Liberty church the third Sunday in the month.

Mrs. J. W. Cazier spent Saturday and Sunday with her daughter, Mrs. Eliza Taylor, and family. Twin girls arrived at their home last week, one weighed eight pounds and the other four pounds.

Mrs. Grace Selock called on Mrs. Julius Rauchs Tuesday evening.

John Meeks and family and Mrs. Magill of Sullivan spent the day, Tuesday, with H. C. Strader and wife.

Uncle John Hoke and wife were shopping in Findlay Wednesday.

Elmer Selock and Willie Waggoner have purchased, what is known as the John Slavin farm, by the Liberty church.

J. E. Briscoe transacted business in Findlay Friday.

Mrs. Jane Miller and daughter, Mamie, and Mrs. Lota Selock and son, Roscoe, were shopping in Findlay Saturday.

Arch Leslie, wife and daughter, Janie, of near Findlay were entertained at I. N. Marble's Sunday evening.

Henry Naab and wife of near Windsor called on friends here Sunday evening.

B. F. Siler was a business visitor in Bruce Monday.

Allenville

W. T. Farlow and Sherman Burcham are building a nice barn for C. E. Purvis on his farm near the Purvis school house.

Metereological

"Gee, but it's getting dry in this section."

"Oh, I don't know. I just had a little business with Jimpen and he soaked me proper."

Village Lady (to rustic laborer)—"And where is your sailor son now?"

Laborer—"Well, I don't rightly mind, mam, if he be gone to Gibraltar in the Jupiter, or to Jupiter in the Gibraltar, but it be somewhere in them parts."—Punch.
