GOVERNOR

Democratic Prospects of Success are Very Bright.

"The situation in Illinois hardly ould be better from the Democratic Dunne, Democratic nominee for Gov.

ernor, on the completion of his twenty being the same each day. The high tour hundred mile automobile tour of est temperature was 94, the lowest 72

tickets. The dissatisfaction among rain, amounting to .65 of an inch. the voters who normally are Republican is very pronounced, far more the month registered as follows: general than is apparent until one gets out and meets the voters in close

Everywhere I have been in the state I have found a pronounced anti-Deneen sentiment. The citizens of the state are practically unanimous in holding him primarily responsible for the almost unbearable high taxation brought about by the increase of maintaining the government from \$5,000,000 a year under Altgeld to nearly \$15,000,000 under Deneen.

I charge that there are three things the Republicans have done while they have been in office in this state which ought to drive them from power.

The first thing I charge against the Republican party is extravagance. I would like to quote to you some figures which were recently published in a prohibition circular. The governor's salary at present is \$12,000 per year while twenty years ago it was \$6,000; the cost of keeping up the governor's house in the last two years has been \$41,000 while twenty years ago it was \$6,000; the cost of the maintenance of the governor's office was \$16,000 last year while it Gertle Brown was \$2,000 eight years ago.

Senator Hurburgh has said that he made some investigations as to the cost of heating and lighting the state house in Illinois compared with other states. He found that it cost \$47,ooo to heat and light the state he

went to Ohio and the cost was \$24,- Prant Stephenso ooo; in Indianapolis the cost was \$22,000 and in Iowa the cost was \$21,000.

Governor Deneen has appointed Mr. Wray Sullivan Bottling Co. wardens in the city of Chicago and the only game we have known about there was the species which formerly flourished which was known as the 'crap game' which has been stopped under the Harrison administration. Now all the work these game wardens have to do is to protect the flock of innocent pigeons that fly about the Board of Trade building and feed on the grain which is scattered in the street, from the infuriated populace of Chicago.

I say the present administration is and double crossing during the whole of its history.

band have seen that they did not get get it.—Arthur Graphic.

I charge that another fault of the administratation of Governor Deneen is the scandalous abuse of the taxing

Birthday Supper.

Tuesdayevening being Earl Flynn's 24th birthday, his wife, assisted by Mrs. C. E. McPheeters and Mrs. Idella Watson, served a supper in honor of the occasion. The guests were J. R. McClure, T. P. Flynn, D. Cook, Dr. W. E. Scarborough, C. E. McPheeters, C. P. McClure, Ralph David, F. W. McPheeters, J. R. Beau, Albert Poland, Walter Jenkins and Joe Michael, After supper Dr. Scarborough, C. F. McClure, Earl Flynn and C. E. McPheeters went to the river to fish. They caught two cat fish, one weighing 36 pounds and the other one 12 pounds. Dr. Scarborough took the cramp in the water, was sick all night and confined to his bed the next day.

which are accurately described and. Mail all bids to Lawrence Purvis, Sullivan, Ill.

OBITUARY

MRS. E J. STEWART.

Riza Jane Montgomery was born Ireland Oct. 14, 1839. Died in tur July 14, 1912. Age 72 years months.

She came to America with her andparents when eight years of age, hey resided in Philadelphia.

e was married to John Stewart 1860; in the fall of 1867, Mr. Stew-teame to Moultrie county and pur-lassed a home in Old Nelson. Soon er his arrival a horse ran away ith him, and the injuries received sitated the amputation of one His wife, four children and a other, David Stewart came to his elief. Mr Stewart died in 1884.

They were the parents of nine hildren; those surviving are Mrs. laggie Martin, D. M. Stewart of Alenville, Mrs. Hattie Wiley of Highore, S. D., and Mrs. Emma Watzen Decatur.

Mrs. Stewart worked very hard aring for an afflicted husband and earing her family. She accumulatd considerable property. She was a ue christain woman and a number f persons who have boarded in her ne will voice the sentiment.

Her ailment was cancer of the omach. She had been and invalid six months. She was taken to St. Mary's hospital in Decatur Thesday of last week. On Friday a surgical operation was performed. The lineis-ion revealed a cancer, which had spread over all the internal organs; the incision was closed as there was no help. She died Sunday. Theremains were taken to her home in Allenville, Monday. The funeral was preached at the residence Tuesday by Eld. J. W. Mathers assisted by Rev. Griffith, The interment was made at Sullivan in Greenhill cemetery.

Old Salem Booklets Out.

We are in receipt of the beautiful ogram booklet of the Old Salem nautauqua, announcing the assemly to be held on its grounds near ersburg, Ill., August 14 to 29. Delike many chantanque programs, the Old Salem booklet is quite free from advertisements of any kind. It is therefore not only an artistic aunouncement and guide for the visitor, but a souvenir of this great chautau-

The booklet contains 32 pages, with handsomely embossed cover. It describes each of the lectures and entertainments in the program, the educational departments, the athletics, and many of the other attractions of the greatest chautauqua west of New York. It is profusely illustrated with scanes from the Old Salem Chautauqua park, as well as with cuts of the speakers and entertainers. A look at some of the scenes portrayed fills one with a desire to be on this ideal vacation ground.

An edition of 18,000 has been printed this year to supply requests for coming in from all parts of the state this part of the state. long before time for publication, Requests for copies, addressed to Old years has been with the jewelry de- ville. Salem Chautauqua, will receive prompt attention.

CLIFTON-KELLEY CARNIVAL CO

Shows Provide Clean and Healthy Amusements.

Although the weather was decided y unfeverable to outdoor amusement last evening an exceptionally large crowd visited the McFerren commons and enjoyed the excellent attractions

offered by the Clifton-Kelley shows.

The comany is one of the largest and cleanest that has ever visited Hoopeston. It was noticed last night that an exceptionally fine class of people was in attendance and this bears out the theory of the Clifton-Kelley shows, to the effect that a car. nival in this day and age must be strictly moral to gain the confidence and patronge of all classes of people.
Although all shows were open and

running last night and did a good business, a number of added attractions will be added tonight. This will include the big Eli Ferris Wheel which will be in operation and will no doubt be the center of much attraction. The grounds present a gala appearance, well lighted and prettily decorated, and with hand concerts down town at 1:30 and 7 p. m. and a sensational free high dive by Capt, Cherry at 4:30 and 11.30, in addition to all the other attractions Hoopeston will evidently enjoy a big carnival week,-Hoopeston Herald.

The carnival company above mentioned is the one engaged by Com-pany C to exhibit in Sullivan for the week of August 19 to 24.

Democratic Nominee.

Harry Woods, the Democratic nomince for secretary of state of Illinois has never has held a political office. He was born in Canada in 1863 and came to Illinois with his mother in 1877 at the age of 14. He was called by necessity to aid in the support of his mother and found employment as a messenger.

His rise in the commercial world was, like most of our American self made men, slow.

In 1890 he embarked in the grain trade and remains in it to the present day and the interest taken in his candidacy by his fellow members both in the Illinois and the National Grain Dealers' Association bespeaks his popularity and the esteem in which he is held by his associates in the grain trade. Throughout the state many farmers are rallying to his was held in the court house Tuesday. support as his business has brought him in touch with them.

In the primary Mr. Woods carried House. 76 out of 101 counties in the state,

The Lure of Rod and Reel

By HAROLD LARSEN. go a-hshing! Whether our angler is the barefooted farm boy out for perch with a hickory pole and a worm or the grownup, absorbed in the serious problenis of matrimony, contemplated mat-rimony, politics, the high cost of living and such things, it's all the same. And that means that to either fishing is lots This exhilarating sport lasts all summer, and the real angler looks forward to it as certainly as he does to the bills of creditors and other unpleasant certainties, but more happily.

Why, it's fun to go a fishing even if you have to stop at some fish dealer's to make purchases of sufficient extent to avoid the ridicule of the folks at home. And what would a summer be without a string of new fish stories? Fun to fish? You bet it is, and if you who have never experienced it are doubtful ask the fellow who goes every year. It has been a favorite pastime

Then, too, if you are an angler, you tony and Cleopatra had a fishing match, and the first treatise on angling ap peared in Greek sixteen centuries ago Skipping along, we come to the time of Izaak Walton. He was an English man born in 1593 and known as the "father of angling." Izaak Walton was the high priest of the craft. As an author and otherwise he created such interest in the sport of fishing that it has endured unabated ever since.

Pugnacious Black Bass.

Some disciples of Walton call the black bass the king of fishes. They will tell you that "inch for inch and ounce for ounce he is the gamest fish that swims." He will bite at a minnow, a worm, a frog or a bit of meat. and most fishermen use bait to lure him." But if he is of the small mouthed variety he also will rise to a fly, and as the black bass flourishes in the waters of the Mississippi valley, where trout are scarce or not known, the fly fisherman in many regions must depend upon the bass for his sport. It is true that bass do not rise to flies with the eagerness of trout and also that they are more susceptible to live bait. But they are always game.

Even trout, the shiest fish that swin sh water, are game when hooked and fight well considering their size. "speckled beauties" seldom run more than five to seven inches in the eastern part of the United States. Trout are the wariest of game fish, Don't let them see you, don't be noisy sunk in the ordinary way. with your tackle and let the hook drop in the water silently.

Shooting fish sounds rather odd, but the natives of the Andaman Islands shoot fish with bows and arrows and

WHAT IS A FISH STORY? HERE'S A SAMPLE.

Lenox, Mass. -Superintendent Norman of the George W. Westinghouse estate is sponsor for this remarkable nature story:

The blooded Jersey cows of Mr. Westinghouse recently ceased to give milk. Watch was kept, and the other day when the cows walked into a pond it was noticed that the pet carp in the pond selzed the opportunity to gorge themselves the pet carp in the pond selzed the opportunity to gorge themselves with milk. To prove just where the milk went employees of the place cast hooks and lines into the water. The first carp to bite fought gamely and thrashed about in the water fully fifteen minutes before it was landed. When cut open there were no traces of milk, but instead several thy balls of butter, the product of the churning incident to the struggles of the carp.

quite like their natural element. Children are taught to swim and fish in early childhood, and they soon become expert. Their fishing instruments seem to be restricted to bows and arrows. belong to an ancient and honorable harpoons, spears and rude wicker clan dating back many centuries. Antraps. The line and net do not appear to be in use in the Andamans. They watch intently the various signs on the surface, and when a fish come within striking distance they shoot their arrows or throw their spears with unerging aim and deadly force through the clear water. Immediately i fish is struck the fisherman himself plunges in and dives after his capture

In the many islands in the south seamajor portion of the denizens spend much of their time in pursuing the piscatorial pastime, and for this work nets, lines and rods are used according to the kind of fish sought.

Fishing by Torchlight. Fishing at night by torchlight is very popular, the glare of the dried ocoanut leaf torches attracting the fish in large numbers, when they can be speared or caught with a line. The se of fish as food is, of course, gener al throughout the south seas, where the natives have such abundant opportunity of gratifying their taste. When caught the fish are tied up separately in leaves and cooked whole and in this way are "served up at table"-that is

The Tamils of the island of Jaffna on the north coast of Cevion, catch fish in a peculiar way. The principal fish they go after is the seir, quite like a

The Tamils employ several methods of fishing. The most common of these is a buoyed net made of coir, which is

These people also kill fish with spears. They fish for turtle, but for some reason or another they only kill these "fish" on Sundays. To be precise, they don't really hunt for them, but they also spear them.

The channels and bays fairly teem with various kinds of fish and turtle. These people are so much at home both ca and in the water that the sea is one over on its back and hack out a

few pieces of flesh, not troubling to

kill the poor creature first.

The small vessels in which Samoans fish are carved out of a single block of wood, and pains are taken to secure correctness in its lines. For further security a rough outrigger is fixed on one side, thus lessening the chance of an upset. Although by no means safe looking, accidents very rarely occur with these craft, the natives navigating their boats with wonderful skill, sending them flying through raging surf that would infallibly swamp any ship's

Fishing is a leading industry in Bengal. Before the fishers begin operations it is necessary that a barrier should be made at one end of the stream selected. This is done to prevent the escape of the fish. The national stream is a selected of the fish. tives then form into line at the other end, extending right across the channel. In their hands the people have long round wicker baskets open at the bottom and top. The bottom is much wider than the other end. These bas kets are stamped down in the water till they touch the mud. If a fish should get inclosed it will soon presence known by jumping about in an excited manner. The fisherman then inserts his hand through the top and simply takes out the wriggling victim, which is placed in an earthen ressel which floats behind each person. In this way the larger fish are all gradually driven to the barrier, where they caught either by means of ingen ious traps or by the hand baskets.

There are various ways of catching the hapuku, the best of New Zealand's edible fish, but strength of tackle is the first essential. Once the fish is brought to the surface of the water he ceases to fight and has to be hauled up by main force. The fish frequently attains a weight of sixty pounds.

The Hapuku's "Grandmother." Hapuku fishing requires skill and strength and a knowledge of the habits of the fish. The best time of the year, is the New Zealand autumn, months of March and April for pref-

erence, just before the fish leave for

their deep water winter quarters in the north.

he north. . The mode most favored for the capture of the fish is for a party of twenty or thirty to hire a steamer of about tons and, leaving Auckland at midnight, make the fishing ground by daylight the next morning. The stretch of deep water in which the big fish lurks has frequently to be cruised over for hours before the spot is found, as the hapuku has its favorite spots and moves from one to another in search of the food on which it feeds. Sportsmen accustomed to hapuku fish-ing keep a sharp lookout for a small red fish colloquially known as the "ha-puku's grandmother," which is sup-posed to indicate the vicinity of a

Whether there is any ground for this elief, it is a fact that this fish is freuently seen near the surface of deep vater where hapuku are plentiful

ROUND THE BASES

By M. PIRE

NTON TECUMSER YOUNG

The grand, old man of the game after twenty-three years in harness has decided to capitulate to the inevitable. The grip of time has manacled an arm of Iron that for almost a quarter of a century proved the greatest stumbling block ever thrown into the middle of a diamond.

Cy Young passes out of the national

Cy Young passes out of the national pastime, but his name will live as long as the great summer sport flourishes. This honored veteran, who has pass ed the forty-eighth milestone of life's journey, decided weeks ago that he had outlived his days of major league usefulness. He then notified the Bos-ton, Nationals that it was impossible for him to round into winning form. A sore arm, which afflicted him this spring for the first time in his brilliant

career, failed to respond.

Rather than besmirch the most wonderful pitching record of all history Cy Young decided to retire to his Ohio farm to spend the rest of his days tilling the soil. No minor league ball could satisfy a spirit that had triumphed for almost twenty-three years in the fastest company. fastest company.

There is nothing tragic in the pass-

ing of Cy. He lived, both on and off the field, a life of which the best might be proud. One of the most unassum-

ing characters that ever graced the diamond, he always set a perfect exam-ple to both teammates and associates. As a veteran he was always free with good advice to the youngsters, and many a star pitcher of recent years owes much of his success to the wisdom of the retired star.

In Manager Davis' opinion, South-paw Pitcher Gregg's delivery is an ex-act duplicate of Waddell at his best.

Hub Northen, the Brooklyn outfielder, was once a member of the Reds when Griffith was a manager there, but he was released because he was a left handed hitter. Griff wanted a right hander, having plenty of left

The average man in charge of a ball team tries to steer clear of eccentric ball players, but there is one excep-

tion to this rule, Joe Cantillon.

It is questionable if there was ever a team which numbered among its members as many individuals who, in the parlance of the game, are called "bugs," as are to be found on Cantil-lon's Minneapolis team this season.

Waddell, Altizer and Ferris are but three of his players who are, to say the least, a little out of the ordinary, but there are others, including Rossman, once a star with the Tigers. Cantillon seems to delight in gathering about him this class of players, and, peculiarly enough, he seems to have made up another winning combination in this way.

The philosophy of Jim Delahanty has it that "errors are the staff of life of baseball. They are to the nationa game what good food is to the human tomach." But Del might have added if not properly assimilated they are likely to create gastritis of the per-

Reference has been made to the fact that Umpire Carpenter is now in the twelfth year of service with the Southern league. Hank O'Day umpired fif-teen years for the National league and continuously. Bob Emslie has been a

Photo by American Press Association. Hank O'Day, Successful Manager of the Cincinnatis.

was officiating in a Baltimore-Cincinnati game. Frank Dwyer was pitching, and an Oriole bunted the ball. Hank made tracks for first base, thinking there would be a play there, but Dwyer caught the bunt on the fly. Hank didn't see that, and he called the batter safe at first base. Up to a short while ago they were still harping on that mistake of O'Day's in Cincinnati. However, there never was a cinnati. However, there never was a better umpire than O'Day, and a few boots can be forgiven him.

Steve Evans, the St. Louis Nationals' right fielder, tells a story of a fan who park every day and devoted most of his time to roasting him. His favorite expressions in connection with Evans were "bonehead," "wooden head," and so on. He loudly claimed that Steve had no knowledge of the game and spoiled every play that Bresnahan tried

spoiled every play that Bresnahan tried to put through.

One day when the Giants were playing in St. Louis some one knocked up a high foul which landed in this orator's box. He saw it coming, tried to dodge, used poor judgment and, realizing that the ball was going to strike him, suatched his hat off and took it full on an immediately held head. See the string of full on an immodestly bald head. Steve Evans was waiting to go to the bat. He shifted his chew to his other cheek and exclaimed in a voice that could have been heard more than two blocks away, "That's the 'gink' who has been calling me a 'bonehead."

Steve got a great laugh from the crowd, but right there the St. Louis club lost a patron, for the baldheaded one has never been seen at the grounds since, according to Evans, and his obituary has not been printed yet either.

Cy Morgan of the Athletics has a record at last. He was derricked twelve times last season, which was the high honors in the league, but Jim Scott of the Sox was close behind him,

DIVORCE FOR A DOLLAR

Haroun-al-Raschidic institution this side of Samarkand. A great hall of justice, vaulted and floored with maible and strewn with eastern carpets, forms the setting, while husbands in turbans and lawyers in turbans mad lawyers in turbans and lawyers in turbans and lawyers in turbans and lawyers a white veiled women and green robed, gray bearded judges, complete a scens which might have been taken straight from the "Arabian Nights," says a writer in the Metropolitan Magazine. The women, closely veiled and hooded and herded like so many cattle within an iron grill, take no part in the proceedings which so intimately affect their futures, their interests being left in the hands of a voluble and gesticulative avocat. In each of the four sides of the great hall is an alcove, and in each alcove, seated cross legged on a many cushioned divan, is a green robed, gold turbaned cadi. To him the husband states his case, the wife, through her avocat, putting in her defense—if she has any.

The judge considers the facts in allence, gravely stroking his long gray beard the while, and then delivers his decision—in nine cases out of ten, so I was told, in favor of the husband. Should either party be dissatisfied with the finding he or she can take an appeal by the simple process of walking across the hall and laying the case

the finding he or she can take an appeal by the simple process of walking across the hall and laying the case before one of the other judges, whose decision is final. A case, even if appealed, is generally disposed of well under an hour and at a total cost of \$1.20, which proves conclusively that the record for quick and easy divorces is not held by Reno.

SENIOR BEREAN LESSON.

Golden Text.-Thy kingdom come Thy will be done on earth as it is in heaven.-Matt. vi. 10.

Mark iv. 26-29.—The law of growth. The parable of the sower had emphasized the real value of the good seed, and Jesus concluded his interpretation with a word of warning. Take heed what ye hear (verse 24), be thoughtful and give attention, be truthful and make application of the message to your own life. This parable which we are to study today enlarges on the thought of the good ground and makes yet another application. It is found only in Mark and holds a very impor tant truth. * * * "Bringeth forth of herself." What takes place of germination in the interval between sowing and reaping is beyond the control of the farmer. It is therefore to his advantage to see that he does his best at the beginning as regards the soil and the seed. So also, after we have sults in the hands of God, trusting and . "First the blade," Notice that the mature experience of a saint of threescore years and ten. But we must

there is an order in the natural world as also in the spiritual world. must not expect from a young Chris-tian, just beginning the religious life, threescore years and ten. But we must see to it that there is progress in the Christian life, just as the blade is followed by "the ear, after that the full corn in the ear." Then again we must not expect to hurry the growth of piety. * * * We must be satisfied if there is a gradual growth that will give us the assurance that when

"the harvest is come" the results will be gratifying. * * * Mark iv. 30-32.—The law of expan-

Jesus knew that sooner or later the company which he had organized into a society would be compelled to sepa-rate from institutional religion and pursue its own cereer independently. The opposition of the leaders was increasing, and it was becoming clear that no support of any kind could be expected from them. Jesus also saw that his soclety would in time cover the earth with its benign and gracious operations. He frequently sought to help his disciples to get this vision, as in this parable. "Mustard seed." This is relatively one of the smallest seeds but the plant which grows out of it comes to perfection in a single sum-mer, and it reaches a height of from mer, and it reaches a neight twelve to twenty-four feet. "Shooteth out great branches." The thought emproduces so large a garden herb the kingdom of God likewise, which is small in its beginnings, has infinite possibilities of extension.

Matt, xiii, 33.—The law of influen "The kingdom of heaven" works divers ways, but it is always with a view toward advance. This cannot be otherwise when it is divine in its origin and eternal in its permanence.

* * * Just as the leaven affects the * * Just as the leaven affects the flour nearest it and then spreads by contact "till the whole is leavened," so also is the spread of Christian influence. Jesus stamps the impress of his pure character upon a soul who carries the influence to other souls. In this way by degrees society is leavened by the pervasive and progressive influence of Christian ideals. Every individual Christian must then be a missionary, determined to influence others for Christ. * * *

The Weekly Farm Budget

Government Trying Hard to Down the Gypsy Moth.

STICKY TREES WORK BEST.

need Has Caused Loss of Many Mil-lions in New England States and Threatens Damage to Other Régions. Using Arcenical Spray.

The methods used for destroying the sypsy moth, which has done damage to trees estimated at many millions of dollars in Massachusetts, Maine, New Hampshire, Rhode Island and Connectlcut and threatens to infest many other states, are described in a bulletin issued by the bureau of entomology of the United States department of agri-culture. It is asserted that such methods as treating egg clusters, cleaning up brush and thinning infested woodlands have not been improved to a

he use of burlap has been continued from year to year, but owing to the expense involved in applying and attending it throughout the season it is not now considered as satisfactory LITTLE FARM NOTES.

Be sure that the cream separator is set on a level founda-tion. The foundation should be such as will prevent the sep-arator from wabbling when in operation.

Alfalfa is the best hog pas-

ture. Where alfalfa grows it is absolutely essential to the most

economical production of pork.
All cripped and "heavy" mares
should be bred in the fall of the year, soon after the hot weather has passed, according to the

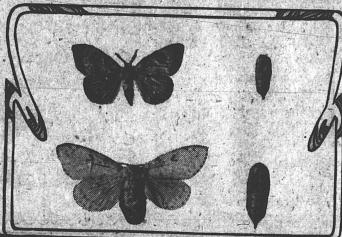

American Breeder.

A little salt in the food for the A little salt in the food for the hens is an aid to digestion and so keeps them well and vigorous. Too much salt, however, is the cause of bowel trouble. If the food is salted about as much as would make it agreeable to the human palate it will be in the right proportion and is an aid to egg production.

Clover raised for the seed should not be cut until the seed is well matured. The heads

should her be cut until the heads is well matured. The heads should be well browned and the seed rubbed out in the hand. This means to let it get thorough oughly ripe before cutting.

GYPSY MOTH AND TREES GIRDED TO FIGHT DESTRUCTION.

Photographs by United States department of agriculture. Upper-Male moth and pupa. Lower-Female moth and pupa.

a method as the more recent system of banding the trees with a sticky substance. Many of the caterpillars seek the burlaps when they are about to spin their cocoons for the purpose of pupation, and the serious poisoning which results to the men employed when turning such burlaps makes thorough work well nigh impossible. Every season hundreds of men suffer extremely from this trouble, and in many cases efficient and well trained workers are obliged to resign rather than attempt to continue on the work. This is leading to a general discontinuance of the burlap method of treating the gypsy moth. The sticky bands are very satisfactory, and the men are enabled to work with less discomfort. The methods used in cutting out zones along infested roadways has been in strict accordance with latest ideas of

modern forestry.

By adopting the best known methods in thinning and pruning, the trees which remain are in sound condition, and with the care which is given from year to year after the roadways have once been thinned they have a favor-able opportunity to make a satisfactory growth. In many of these clean-ed areas, which are kept free from undergrowth by mowing them in August, it has been possible to induce a stand of grass which greatly improves the condition of the roadside.

Perhaps the greatest advancement has been made in spraying with arsenicals.

FRESH VS. ROTTED MANURE

Minnesota Experiment Station Gives Information on This Subject.

The belief in general prevails that rotted manure is more valuable than fresh. Just why this impression should exist is not apparent. The Minnesota experiment station says: "The value of manure is determined by the amount of nitrogen, phosphoric acid and potash contained therein, usually estimated in value at 15, 6 and 5 cents a pound, respectively. On this basis a ton of fresh barnyard manure is worth \$1.98 and a ton of rotted \$2.04, or only 6 cents more. Since it takes nearly two tons of fresh manure to make one of rotted, owing to the loss from evaporation and leaching, much of the fer-tilizing matter originally contained is lost in the rotting process.
"The Maryland station tried both

kinds on corn and wheat crops in comparison with unmanured land. The yield of corn on the latter was 38.1 bushels an acre; on land dressed with rotted manure, 65.1; on land treated with fresh manure, 70.7. On wheat the effect was similar, but not so marked. Moreover, in the use of fresh manure there are the prevention of loss by leaching and the saving of labor. some crops fresh manure would not be desirable. It should be applied on grass land or just ahead of the corn crop in

HOUSEHOLD HINTS.

Never burn your old shoes in the furnace. They fill the air with an unpleasant odor. Keep them to throw at the neighbors' cats.

For it is dark both night and day; But, what's as wondrous quite, The darkness it doth pass away, And then for weeks 'tis light.

WATERING HOGS.

Importance in Hot Weather.
In warm weather the task of p renting drinking water for hogs fro becoming contaminated is difficul The percentage of farms in some r gions where there is a constant su ply of running water is so small a to be almost a negligible quantity, so that when we discuss this subject we assume that the average man must resort for his supply to the use of the

To keep fifth out of the supply of water is the one great problem, and the full significance of the importance of this we believe is not always appreciated. The hog contaminates his own supply of water unless special precautions are taken to prevent it. There are so many different types of automatic waterers on the market and these are so comparatively inexpensive we believe there is rarely any excuse for using the old fashloned trough, into which a hog puts his feet every time he drinks. These automatic waterers are designed so that they can be attached to tanks or barrels, and their capacity is so small that it is absolute ly impossible for hogs to contaminate the water, and there is a constant change in the supply available,

Sometimes it is not practicable to attach a waterer to the large drinking tank used by the horses and cattle, in which case a barrel can be used to great advantage, and it is always a simple task to change its location when this is necessary. The theory of the automatic hog waterer is that, while only a few quarts are available at any one time, yet when the supply in the small fountain is lowered the move-ment of a valve admits a new supply. In this way as long as there is water in the main vessel there will always be a supply available for the hogs. By keeping a little lime in the tank or barrel the water is in a way disin-fected, so that even when it becomes warm it is not easily made stale.-Iowa Homestead.

Students Will Work In Fields.

How to run a farm at its highest effi clency will be taught in a practical way to students in the College of Agriculture of the University of Wisconsin this summer. In charge of Professor D. H. Otis, the students will live in tents on some of the best farms in the They will study the individual conditions on each farm they visit, map each place, plan the farm work and gather data regarding investments, re-celpts and expenditures.

It is generally understood at present

by all farmers who grow legumes that these crops can only be grown satisfactorily where the soil is thoroughly inoculated with the bacteria which form the tubercles or nodules upon the roots. Some soils seem to be naturally inoculated, while others must be artificially inoculated either with soil from thoroughly inoculated fields or by the ise of pure cultures.—Farm Progress.

Two Kinds of Farmer. Better copy the farmer who produces his yields at the lowest cost than the man who produces the largest

An Incident of the

French Revolution

By MERCEDES STUYVESANT

URING the French revolution | well who was suspected. "Summon Mme. de Four and Mme. Bre- | the inmates of the chateau." Mme, de Four and Mme. Bre-ton, two friends, found themselves on opposite sides. Mme. de Four's husband took sides with the revolutionists, while M. Breton was n royalist. One day Mme. Breton came hastily from her chateau and told her friend that young Victor Breton was

to be arrested. An arrested.

An arrest during the reign of terror meant death. The young man must be concealed, and the two women hurriedly consulted as to how this could be best accomplished. Mme, de Four finally agreed that he should come to her house, provided he could be taken there without being seen. But how was this to be done? It was morning, and as the arrest was liable to take place that afternoon he must go in broad day-light. In fact, the revolutionary conmittee had him already under surveil-lance till they could make other impor-tant arrests and find time to attend to his case. Therefore, since the mother and her friend could not wait for darkness, some disguise was essential, and as the boy was only twenty, had no beard, but did have a pair of pink cheeks, they decided to put him into girl's clothes. Young Breton, having donned feminine attire, walked down the road, passing "citizens" who were watching to see that he did not leave the house. Mme. de Four picked him up in her carriage, and he drove with her to her chateau. Once there, he was introduced as Mme, de Four's

The risk Mme. de Four was running The risk Mme. de Four was running in concealing a royalist kept her in an agony of fear, for if discovered she would fall under the ban of the revolutionists. She would have better taken her husband or at least her daughter into her confidence. Louise de Four was only eighteen, but was far herond her years in good sense. Bebeyond her years in good sense. Be-sides, women are far better fitted for aiding and abetting such concealment than men. Madame's keeping her seto the revolutionists. Louise spoke to a friend about her cousin, wondering why she had never heard of her before and why she always kept her room. This friend told the police.

One evening there was a stormy scene at the De Fours'. M. de Four came home and told his wife that he was suspected of harboring young Breton. Madame confessed to her husband, and, the danger threatening the whole family being of the greatest mo-ment, Louise was called into the conference. She saw at once that in her ig-norance she had put the hounds on the scent. But now that she knew all she proved the most fertile of any of them in expedient. She laid a plan and at

once put it in operation.

It was just after dusk that a corporal and six men, accompanied by a woman, reached the De Four chateau. The lamps were lighted, but turned

"Corporal," said M. de Four, "proceed with your search. The premises are at your service, and if any royalist is hiding here I hope you will find

This was done, and when all were assembled the corporal at once turned his attention to the niece who had lately come and who was present with

"Who is this person?" asked the cor-

"My niece, Julie de Four," replied Mme. de Four. "And this?"

"My daughter."

"My daughter."
"Mme. Renaud," said the corporal to
the woman who had accompanied him,
"take Mile. Julie de Four aside and
see if she is a woman."
The woman called the niece to one

end of the room and ordered her to unbutton her dress from the throat. "What!" she exclaimed. "Is it really She's a woman." "By gar! Who has put us to all this trouble for nothing?" exclaimed the

corporal.
"If it is any one in this house," said M. de Four, with dignity, "I demand to be informed who he or she is!"

"Monsieur need not suspect any or here. The information came from the outside. I am sorry to have troubled so good a friend to the cause. Mon-sieur, I bid you good evening."

With that he led his men and the

With that he led his men and the woman, Renaud, away. As soon as they had gone M. and Mme, de Four, Louise and the niece went upstairs and entered a room for conference. She who had been Louise jook the hand of her who had been the niece and said:

"A thousand thanks, mademoiselle. I own you my life!"

we you my life!"

owe you my life!"

"Yes, and you came pretty near owing me your death. It was I who innocently gave you away."

Louise took off a wig and, going to a basin began to wash paint from her face. During the process part of her nose came off, a thin slice of her cheeks and the paint of her chin. She had made herself up to play the part of the suspected niece, and Victor Breton was similarly altered to look like her.

The next day Mme. de Four, with

was similarly altered to look like her.

The next day Mme. de Four, with
Julie (Victor Breton), drove to the hotel, whence the post started for Paris,
the niece took her departure, and the
same evening Victor in man's attire
left the capital with a party of emigrants for the border. When the Bourbons were restored he entered the
service of the king and was instrumental in saving from banishment M.
de Four, who had become prominent
as a revolutionist. The families were,
however, meanwhile united in the marhowever, meanwhile united in the mar-riage of Victor and Louise.

Queer Clothes Worn in Siam.

In Siam both men and women wear the panung, which is described as a piece of silk or cotton cloth wound around the hips, the slack being rolled up, passed between the legs and hitched up behind in such a way as to give the appearance of a pair of loose knickerbockers. For waist coverings the erbockers. For waist coverings the women wear jackets or blouses and the men coats

VOLCANO BECAME A LAKE

A Natural Wonder of America in Na-

Unique among the natural wonders of America is the lake in Crater Lake National park in Oregon, which is described in a publication entitled "Geological History of Crater Lake," just issued by the department of the interior. The traveler who, from the rim of the lake, looks across its waters to the cliffs beyond stands where once the molten lava of Mount Mazania boiled and seethed in its efforts to find an outlet, for Crater lake is all that remains of a great volcano that ages ago reared its summit high above the crest of the Cascade range. Before the Cascade range existed the region now included in the state of

Oregon was a great lava plateau that extended from the Rocky mountains to the present Coast range. Gradually mountain making forces became operative; the surface of the plateau was arrived and there was arched, and there rose the great moun-tain system which is now known as thin system which is now known as the Cascade range. With the hardening of the crust the centres of eruption became fewer until they were confined to a few high mountains that were built up by the flows of molten lava. In this way were created Hood, Rainier and Mazama, from whose sides and summits streams of lava poured. Hood and Rainier still lift their caps to the clouds. Mazama alone is gone, engulfed in the earth from which it came. In what is left of its caiders lies Crater lake.

Mount Mazama in its prime rose to a height of over 14,000 feet above the

Mount Mazama in its prime rose to a height of over 14,000 feet above the sea. Mount Scott, which towers above Crater lake on the east, was only a minor cone on the slope of Mount Mazama. The portion of the mountain that has been destroyed was equal in size to Mount Washington in New Hampshire and had a volume of seventeen cubic miles.

From the crest of the rim surrounding the lake the traveler beholds twenty miles of unbroken cliffs which range from 500 to nearly 2,000 feet in height. the clear waters of the lake reflect the vivid colors of the surrounding walls, and, whether in the soft glow of early morning, in the glare of the noon-day sun or in the rosy hues of the dying day, the view is one of awe inspiring grandeur and beauty.

A SONG.

If I were rich, then would I give to you Many a treasure, many a price

less gem,
A golden helmet or a diadem,
A horse to ride, a volve, clock to
wear,
Pictures of splender, books beyond compare—
If I were rich!

But I am poor, and what have I to give?
Only a smile or two when you are glad,
A little pity when your heart is

A little pry
sad,
A little love, a little tenderness—
Nothing but these—there could
not well be less,
But I am poor!
—Harper's Weekly.

MAP FOR THE BLIND.

London's Thoroughfares Will Be "Seen" by Sightless Through Finger Tips.
The most remarkable map of London

yet conceived is now contemplated for the use of the blind. It is a map that will convey to the sightless through the sensitive tips of their fingers a true mental impression of the position of the main thoroughfares, the princioughfares and the means of access to them. This map will be "drawn" in relief, and will consist of a combination of dots and dashes, a medium that has already provided for the sightless what had before been denied to them, says the London Standard.

Already the blind are in possess of the most complete series of plans of London's underground railways that are available for public use. They are able, by the aid of eleven embossed charts, to study in detail the routes of each tube system, the Metropolitan and the District railways, and can follow without any possibility of error the complete inner circle or the whole network of underground services. There are even diagrams demonstrating the construction of the tubes and the fact, not always realized by normally sighted passengers, that a tube station is itself a tube, only of much greater diameter than that provided for the passage of the cars between the stations.

Geese That Pick Cotton. Dr. R. O. Williams of Humboldt,

Teun.. who is also a farmer, claims to have a flock of geese which he has trained to pick cotton. There are ten geese in the flock, and Dr. Williams claims each goose will pick on an average seventy-five pounds of cotton a day and that often his flock will gather sufficient seed cotton in one day to make two large bales. The doctor says he first taught his geese to do the pick-ing act by placing grains of corn in the open bolls of cotton in such a way that in order to get the grain the goose would have to pick out the cotton.—

Origin of the Toast.

Washington Post.

The word "toast" as applied to a health drunk in some one's honor comes from the old clistom of offering the pieces of toast floating in the punchbowl to the most distinguished guests present at a banquet.—Ave

Market Letter.

Kansas City Stock Yards, July 15, 1912. The country remains apathetic with respect to stock and feeding cattle, despite the fact that plenty of good grass is going to waste. A Missouri cattleman was here last week in search of something cheap to go into a six hundred acre blue grass pasture, but went sway empty handed, preferring to wait a while. He has stripped his grass, and in lieu of beef he now has 750 bushels of blue grass seed in his barn, with the prospect of conserving his grass for fall and winter use. Shipments to country points from here last week footed up to 4,ooo head, as compared with 10,000 head the same week last year. At that time grass cattle were running freely, but now they are being held back because of the excellent grazing. Receipts here today show a fair increase over a week ago, standing at 11,000 head, and the best killers are steady to strong, likewise stockers tion, steam-roller tactics and general and feeders, medium and plain kill- denunciation of Chicago as having ing cattle steady to 15 lower. Stock | selzed the control of the election maers and feeders sold higher the first of last week, but they were put on the bargain counter the last half of the week in an effort to move them, Top stockers in the last week brought \$6 40, but a good many plain steers sold at \$5.50 or less, One bunch of fancy feeders, carrying plenty of flesh. brought \$7.50 today, but generally speaking feeders sell at \$5,25 to \$6.80. It is not difficult to make top Chicago cattle in a short time out of the second or third grade steers brought here, which certain Illinois feeders frequently do. Some of the Beggs distillery steers that brought \$9.65 in Chicago last week fed at Terre Haute, were bought here last August around \$4.60, Prime corn ted steers brought \$9.65 here today, best wintered grass steers at \$7.50 to \$8.45, quarantine steers \$4.50 to \$6.65, grass cows \$3.65 to \$4.75, veal calves \$6.50 to \$8.25.

THE SATURDAY HERALD SENATOR LOGIMER LOSES HIS SEAT

End of a Struggle Which Has Lasted Three Years.

Ousting of the Illinois Senator Follows Many Days of Debate-Final Stand Made by Mr. Lorimer.

The United States senate, by a vote of 56 to 27, declared that William Lorimer of Illinois was not entitled to his seat. This final decision of the senate marks the end of Mr. Lorimer's fight to retain his seat which has extended over a period of three years.

Senator Lorimer of Illinois made speech in the senate covering three days, in which he lashed his enemies and defended his right to the seat in

Considerable speculation has been caused in political circles the country over by the statement of William Lorimer of Illinois that the vote of the United States senate ousting him from his seat was not the end of the fight, which he vowed to still car-

The vote of the senate followed many days of debate, during which eloquent pleas were made both for and against the Illinoisan's retention of his seat. The final ejection from the senate of Illinois' junior representa-tive follows two lengthy federal investigations, between which the Illinois legislature took a hand and conducted an investigation of its own, unearth-ing new evidence which in reality led second investigation by the federal body.

The final decision of the seate

marks the end of a fight made by Lori-mer to retain his seat which extended over three years. It brings the end of a national scandal into which were drawn various interests. In a way the vote of the senate ignores the ac-quittal of Lee O'Neill browne, alleged to have been the manipulator of the legislative "jackpot," and finds the facts as heretofore alleged to be true. Senator Lorimer made his last stand before the settlement of his More dramatic and eloquent than on any of the proceeding days, he brought in every resource of ora-tory and appeal. Like a trapped lion in the pit of an arena of old, he stood in the center of the senate floor, short, stout, shaking his long, sandy hair, his double breasted blue coat closely buttoned over his hot and panting figure, alternating hurling defiance to his en-

emies and pleading beseechingly for vindication like a Roman. The immense audience sat hushed and stolid. The senators, the judges of his fate, were like so many graven images as they drank in the impas sioned plea. Even when he called this one or that by name, winch harsh tone or quavering voice, no response

FAIRCHILD IS ELECTED

Chosen President of National Educational Association.

Chicago Edward T. Fairchild, superintendent of schools Kansas, was elected president of the National Education association after some preliminaries almost as exciting as those of the recent Republican national convention.

There were accusations of intimidachinery for the purpose of defeating the candidacy of Miss Grace C Strachan of New York.

The latter was nominated on the floor of the convontion by Miss Katherine D. Blake, and Miss Matilda Ford, one of Miss Strachan's campaign managers, made charges of in-timidation after a heated behind-thegaret Haley of Chicago.

The fight reached a crisis follow ing the submittal of the report of the nominating committee, which in the forencen session had given the Fair-child candidacy thirty-four votes as against seven for Miss Strachan.

ORDERS RATES REDUCED

Express Companies Hit by Interstate State Commerce Commission.

The interstate commerce commission has ordered reductions in the rates charged by express companies. It has also ordered far-reaching reforms in the regulations and practices of the companies and has also imposed upon them a uniform system of rate mak

The order of the commission, while not final, is subject only to a hearing to be given the express companies on Oct. 9. The commission calls upon the companies to show cause at that time why the changes in rates and practices should not immediately go into effect. This tentative arrange ment of the commission merely means that they desire to give the express companies an opportunity for a final

word in their own defense.

The decision of the company will cause a general reduction in rates on small packages of about 20 per cent.
White the average reduction is only
20 per cent the reductions taken altogether range from 10 to 50 per cent.

in the purchase of postal saving bonds offered for sale on July 1. Post bonds offered for sale on July 1. Post-master General Hitchcock stated that 125 postal savings depositors in the state on the first day of the present menth applied for \$38,820 of the bonds, and that \$25,000 of the postal savings deposits found permanent in vestment in the bonds because that amount of bonds was purchased. Applications were received for 120 coupon bonds, 44 of the applications saking for bonds of the \$20 denominaasking for bonds of the \$20 denomina-tions, 65 of the \$100 and 11 of the \$500. Of the registered bonds appli-cation was made for 61 of the \$20 de-nomination, 156 of the \$100 and 19 of

mer, was pitching hay when a rat ran and killed. Fauber noted a peculiar shape to the head of the animal. Inspection revealed a ring around the then unable to remove it. An cort is being made to find Mrs. Swaider.

CHICAGO—Being impelled by mysterious motive, Adolph Rosenberg mysterious motive, Adolph Rosenberg, formerly a resident of New York, shot and dangerously wounded his brother in-law, Rudolph Grann, 1257 West Twelfth street, and attempted to murder the entire family, consisting of husband, wife and three children. After shooting Grann he turned the weapon on himself and committed suicide by shooting himself in the head.

GALESBURG — A very, singular fatality seems to attach to relatives of Mrs. E. H. Bronson, wife of the engineer killed in the wreck near Chicaby a projecting crane, and her brother, George Bone, also an engineer,

PEORIA - President Charles C. Shay, in convening the three hundred delegates to the International Alliance of Stage Employes here, exceriated the "subsidized press" for denying or ganized labor a square deal simply be cause two men (McNamara brothers) went wrong. He affirmed the belief of the alliance in the integrity of Gompers, Mitchell and Morrison.

JOLJET-Two very short minutes dying companion probably will cause the death of Charles O'Brien, engineer. Louis Cook, an Illinois University graduate, was the other man. He died after O'Brien carried him out.

force to strictly enforce the city or dinances governing the speed of automobiles and also the regulations governing the rights and rules of the road in meeting other cars, overtak-ing and passing other cars.

ly crucified when he hung to a picket fence with his feet caught between the pickets and a nail driven an inch into his skull, eleven-year-old Lloyd Colgate is alive and shows good chances of recovery, though the nail brain.

CAIRO - Baseball Umpire Frank Cooper of the K. I. T. league was attacked by a crowd of fans while he was officiating in a game between the ocals and the Clarksville Prompt work by a squad of police aved him from injury and the game was continued under police guard.

SPRINGFIELD - Governor Charles Deneen has offered a reward of \$200 apprehension of George Nicho las, who entered the room of Miss Grace Geers and Miss Julia Schmitt at their home near Troy, Madison county, June 26.

FREEPORT-The Stephenson Coun organized, has drafted a resolution to be presented to the legislature asking that body to return to each county in the state the money from auto mobile licenses, paid by car owners of each county.

SPRINGFIELD-As the direct re sult of a quarrel which started when he was refused a meal ticket on credth Edward Smith is dying at St. John's hospital with a bullet wound in the abdomen. James E. Henderson is abdomen. James E. Henderson is charged with firing the fatal shot.

MOUNT CARROL - While he was lowing on his farm near Mount Carproving on its term near mount con-roll, Henry Fraser unearthed the petrified bone of the toe of a prehis-toric pterodactyl. The prize will be sent to the Museum of the University

Interest In Collections, It is quite the fad among smart folk to flock to sales of rare books, furniture or pictures, even when they have no intention of buying. For each of these collections is the result of a lifetime of study, and the opportunity to see them as a whole cannot recur again, while individually the pieces, passing into private hands, may be lost to the public for years. For this reason young girls are sent with their governesses to see the treasures that will soon be scattered far and wide, and even whole classes from fashionable schools are taken for morning views. Such visits, naturally, do more for the artistic education of these fortunate young folk than weeks of lecturing and photographs.

PROLOGUE OF THE STORY.

der of the Bosnian army, starts a revolution against the tingdoms of Bosnia and Herzegovina. The young queen, Anna Victoria, ruler of the latter country, although beloved by her people, is forced to resort to flight. She is accompanied by the prime minister, Baron Cosaca. The queen commands that they take the next steamer to America. On the boat she becomes acquainted with Robert Trainor, New York manager of the firm of Laumann & Son, beef packers of Chicago. In New York the queen finds hotel life expensive and on Trainor's advice moves to an apartment house. Mary Horrigan is engaged as a servant. To reduce cost of living it is later decided to let Mary go, which proves a vexatious problem. Trainor learns from the queen of her betrothal to Stephen IV. of Bosnia. Adolph Laumann, head of mann & Son, and his daughter visit the queen. Laumann speaks of his Laumann & Son, and his daughter visit the queen. Laumann speaks of his plans to "buy" a noble for his daughter, much to her embarrassment. King Stephen arrives without kingdom and penniless. Anna Victoria and he enter the employ of Laumann & Son as cierks. During the king's absence Sherman, a shiftless office assistant, secretly appropriates some of the firm's money from Stephen's desk. The money was in marked bills, with which Sherman pays Stephen's 20 he owes him. Through Cosaca, under the belief that it is the income from some of her property in Austria, Anna receives the \$20, Laumann finding the bills in her possession. The king and queen profess their love for each other. Anna Victoria chides Stephen on his idleness, and he decides to reform.

The Stelen Money.
TEPHEN IV. stepped to a shelf,
took down an armful of letter files and then began to work the letterpress, while his queer miled her approval and nodded her head encouragingly. He went to his desk and gathered up a double handful of letters. Busily he began corting them, when Laumann entered from his private office. The beef pack-er was startled to a degree beyond words to express as he saw his royal ployee engrossed with the busine ters on his desk.

"Hello! What's this?" he cried. Stephen began in a low voice, aparently ashamed, "I am only"—
Anna Victoria stepped forward roudly, her face beaming with pure

Herr Karlovac is doing his work."

she said quietly.

Laumann stood still in his astonishment. His eyes literally bulged from his head as he saw Stephen IV. Indus-

triously at work.

"Huh!" he grunted contemptuously.

The beef packer sent Anna Victoria
away to translate and deliver a letter to one of the company's officials. "Where'd you leave Lizzie!" he asked

the king.
"She left me. She had an engage-ment." Stephen went on industriously

at his desk.
"Let those things go for awhile. I want to talk to you," went on Laumann. The men took seats at oppoite sides of the desk.

"You've been with my daughter a good deal of late. What do you think "She is very charming."

"What I want to know is how you think she'd size up as the queen of Bosnia," exclaimed Laumann.

Stephen gasped in his amazement. "As queen of"-

"As your wife," interrupted Laumann "I s'pose it seems funny that I should get store by a title, but I do. Our fam-

Began to Work the Letterpress, While His Queen Smiled Her Approval.

My was bang up, but it hadn't any money. Now I've got the money I find my daughter ain't good enough for a lot of these swells. So I'm going to talk business to you!"

The king rose as though to walk away, protesting, "I do not love Frau-Laumann." Laumann reached out and clutched his sleeve. "I said business, not poetry," he reminded the "Laumann & Son are worth He loosed his hold on the Bosnian's sleeve and rose, adding, "The day you marry my daughter I am the nann and you are the son."

"But I am no longer the king of Bos-

stuck to the map. Sit down." The king sat down reluctantly, and his employer, drawing a paper from his pocket, spread it on the desk and resumed his "How big an army would it take to put you back on your throne?" he

"My supporters hoped to do it with 3,000 men. "Three thousand more-Americans

would make it sure," said Laumann en thusiastically. He picked up a pencil and began to figure on 'a blotter. "Three thousand men at \$20 a month," he continued, "is \$60,000, ain't it?"

"I've got the rest figured outgrub, transportation, arms and ammu-nition. For a quarter of a million I can hand you Bosnia bottled up and labeled 'Shake well before taking.'"

The king was dased. "A quarter of million," he said faintly.
"Yes, and the joke is we got a string on it. Soon's you're in power you call that quarter million a national debt, soak on war taxes and make 'em settle

soak on war taxes and make 'em settle for their own licking."

"A king must be true to his people,"

"A king must be true to his people,"

exclaimed Stephen, a note of indignation sounding in his voice. He rose and said sternly to the beef packer, "You advise something that is very much like stealing."

Laumann laughed harshly.

"Stealing—no! Politics, business, mmon sense! You get a wife, a throne and a fortune free gratis. There's the scheme. What do you think of it?"

"Impossible," snapped Stephen.
"Impossible, nonsense," insisted the
ther. "Why, I've got it figured out right here." He banged his fist on the

Stephen's cheeks flushed; his eyes flashed fire.
"It is impossible to me," he cried. "I

have been king of Bosnia by grace of God and the will of my people. I can-not buy my throne nor take it at the point of alien bayonets. Do you not see that I am right? .Whatever else I did, I could not rob my country to pay its invaders. That would be theft, and I am not a thief."

Laumann's rage surged high. What manner of man was this that dared defy a man of millions, whose leaf lard and potted ham were known the world made up his mind. He leaned threat eningly toward Stephen and sneered: "Oh, you're not a thief! Indeed?"

Stephen paid no attention to the packer's insinuating words and man-

"Last of all," he said with dignity, "I could not wed Fraulein Laumann She cares nothing for me, and I-I love Queen Anna"

'You didn't when you agreed to mar-

"Sir, she was the queen of Herze govina. Laumann sprang up, his anger almost

ungovernable. "A see!" he cried. "And my daughter ain't a queen! She ain't good

enough for you, my pretty boy, and your toy kingdom! "I do not mean that."

"That's what you say!" shouted the beef packer violently. "Well, it's your crown I'm willing to buy. I got the measure of the man under it, and, let me tell you, my daughter may not be good enough for a throne, but she's too good for a thief!"

Anna Victoria re-entered the office in time to hear her employer's ringing de-nunciation of Stephen IV, and saw the king spring menacingly at his accu Stephen, astounded as well as in-

tensely angered at the accusation of the beef packer, seized Laumann's shoulders violently, exclaiming, "How dare you call me a thief! I"—
Anna Victoria stepped forward. She

was completely unnerved by the clash between the two men. She handed Laumann an important letter, but he would not concern himself with it "Never mind the letter," he snarled as he drew away from Stephen. "But I'll tell you a few things about Ste-

nia," suggested Stephen.

"Leave that to me," the German responded bluntly, "The first time I test, when Laumann broke in. "Stephen," he gneered, "who has a

take it." He turned to the kine see, you'd better have marri-daughter, for you've lost wi chance you had with the queen

"You proposed to restore Stephenrone," gasped Anna Victoria and "If he would share it with y

"Yes, and fair enough, too," and "Yes, and fair enough, too, answer-ed Laumann. "He prefers being a beggar. He talks schoolboy rot about love and 'alien bayonets' and robbing his people. Well, maybe he won't rob his people, but he ain't had any ob-

is people, but he am't had any objection to robbing me!"
"Robbing you!" exclaimed the girl, clasping her hands distractedly and gazing first at one man and then at the

er every moment.
"Once and for all," he shouted at his

employer, "what do you mean by "I mean that I'm paying rent for that cottage in Austria. The \$20 you

showed me is mine! This fellow stol

it from me to give you!"
"But that money was sent to Cosaca," argued Anna Victoria. "Handed to Cosaca by this king," he retorted. "Ask him if the \$20 didn't

The girl turned to Stephen and rais

"Yes," responded Stephen, "but I wanted to help you. I meant to divide my salary with you, and of course I endeavored to prevent you from learning of it." Her face brightened in her new de

light at this revelation that the king really cared for her in an ambitious, manly way—that he was willing to work to give her money.
"But I have taken nothing that was

not mine," insisted Stephen. "Who ever says so lies!" "Oh, lies, eh?" sneered Laumann. "I marked them bills and mailed 'em in an envelope addressed to me. If you look at 'em you'll see my initials in my handwriting. What have you got to say about that?" The entrance of Sherman was taken

advantage of by the king.
"I say this money came to me from
Herr Sherman. He owed me"—
Laumann turned swiftly on the clerk.

"You gave him them bills, Sherman? he thundered.

The clerk maintained an even de-

meanor. There was not even the slightest tremor in his voice as he re-"I never saw them before in my life."

"There," announced Laumann triumphantly. "You believe this, Sherman?" falter-

"I believe my own eyes. That's my writing, and whatever's wrote is writ!

Holy writ!" The queen turned to Stephen "Surely you can explain?" be

"He takes this man's word in pref-

erence to mine," he answered with dignity. "I will explain nothing." Laumann craned forth his head at the king's words.
"Oh, you won't explain, eh?" he said.

"Well, I'm sick of copybook maxims. I've made a businesslike proposition, and I want a businesslike answer. And if the answer ain't 'Yes' you go to iail."

"You'd rather have jail than-marry my"- Laumann checked himself me entarily. "Then that's where you'll go," he finally added.

"Miss Fitzgerald, police headquarters and ask for Captain Donaghey!" he cried to the telephone girl, who sat at her desk in a far corner of the office. Anna Victoria clutched the heef packer's arm.

"Oh, no! You must not!" she cried hysterically. "You do not realize what

But he was unmoved. "Send Cap-tain Donaghey into my office," he tersely instructed the girl. He roughly shook off Anna Victoria's hold and strode away.

"Gilmore," continued the cardinal,
"was famous for his playing of Mozart's Twelfth Mass.' On one occasion he played it in a North Carolina
town, and next day the local paper
amnounced that he 'rendered with
great effect Mozart's Twelfth Massachusetts.'"—Popular Magazine,

A Glanceal Current Topics

OW that the country is in the midst of a presidential campaign a recent calculation as to the cost of electing a chief executive of the United States is a matter of public importance. Who would think that the expenditure for this pur-pose nowadays reaches a total of \$25. pose nowadays reaches a total of \$25,000,000? It seems preposterous at first thought, but as a matter of fact that is about what it costs. It costs something like \$2,500,000 to nominate the candidates on each ticket, and the national committees of the two big parties will spend about \$6,000,000. The salaries of the 10,000 or more spell-binders sent out by the Republican and Democratic national committees run Democratic national committees run all the way from \$25 to \$200 and in some cases even more for every working week. Besides that, they get an eight dollar a day allowance for expenses; but, as the state committee have to have ten campaign orators to one for the national committee, here is another big item in the cost of a presidential election. Each national committee will have spent \$300,000 or thereabouts in postage stamps alone, while lithographs of the candidates, campaign buttons and all such details

take a surprising sum.
William Howard Taft has been the first president to receive a sqlary of \$75,000, which is \$25,000 more than any of his predecessors received. It is generally admitted that even \$75,000 a year is a small salary for a president of the United States to receive in view of the enormous demands upon the purse of the occupant of the White House in the form of dinners and other functions which the etiquette of the office imposes.

Value of a Workingman's Eye. California's industrial accident board has found the loss of one eye by a laborer does not impair his working power and that the danger of risk of employment is little greater than in normal man, but that one so injured is impaired in his earning power by creating an additional difficulty in securing work. The case in point involved an interpretation of the new employ-ers' liability act passed by the last legislature. The man was allowed \$100 for medical and surgical expenses, full wages for slightly more than one week while he was in the hospital, 65 per cent of his wages for the following eight weeks and 65 per cent of his probable loss in earning power, the same amounting to \$1.30 per week for a period of fifteen years, which will amount to a total of \$1,014 in that period of time.

Passing of Auerbach's Collar. A famous curiosity is about to disap-pear at Leipzig. This is Auerbach's cellar or drinking place, which owes celebrity to the fact that Goethe lo cated in it the scene in "Faust" in which Mephistopheles, standing upon a wine cask, takes his flight into space,

to the stupefaction of the drinkers.

The old building in which the cellar is found was built by Dr. Stromer d'Auerbach between 1530 and 1538, and the worthy doctor began by putting there the wine which he intended for his own use. Later, as the wine was good, he conceived the idea of selling it, and so was established the tavern to which his name has since been attached. From the earliest part of the seventeenth century legend located in this cellar the famous adventure of Faust and Mephistopheles.

Ohio Gubernatorial Campaign.
Representative James M. Cox, who
has received the Ohio Democratic nomination for governor, said when he was elected to congress, "While I am gratified, I shall always regard the newspaper profession as the most eminent in existence." And he holds that opinion yet. Mr. Cox is a newspaper

Nominated For Governor

man himself. He is a native son of the Buckeye State, was born in 1870, taught school for a time, has been a newspaper reporter and now owns two newspapers. He is serving his second term at Washington. Cox's friends call him a fighter.

New System of Wireless.

A system of wireless stations connecting Mexico and all the countries of Central America with one another

by radiotelegraphy is likely to result from negotiations already under way between an American company and the governments of southern republics. It is proposed to establish chains of stations along both coasts of Mexico and Central America, the coast sta-tions to be in communication with oth-ers located at the capitals of these re-bublics, all of which are in the interior. publics, all of which are in the interior. The coast stations will likewise be in communication with the stations on the United States coast.

A Prospective New Governor.

Locke Craig, who has been nominated for governor of North Carolina by the Democrats, had the unique distinction of being the only candidate before

Locke Graig, Who Expects to Becom North Carolina's Executive.

the convention that named him. The prospective governor is a native of the northeastern section of North Carolina and is a member of a family that has lived in that region for more than 200 years. He was educated at the Unimitted to the bar in 1883. Mr. Craig has twice been elected a national elector and has served four terms in the state legislature.

It will surprise most persons to learn here is no authorized or official version of the "Marseillaise." It seems that the hymn has been "denatured" since Rouget de l'Isle wrote the words, and it was found necessary to appoint a commission to revise the text and issue a definite version. The commission came to the conclusion that at from the other, the one adopted by th military and the other by the education authorities in Paris. The revised version was made ready for the fetes of July 14.

Helping Convicts' Families.

Kansas City is making an experiment in the much discussed problem of supporting the families of convicts. The judge of the juvenile court of Kansas City has power to give pen-sions for the aid of such families, to wives or widows of convicts residing in his county. For one child under fourteen years of age \$10 a month is granted, for each additional child \$5 a month. The pensions are given only abled to remain at home with her children instead of going out to work, leaving the children uncared for and in danger of becoming delinquent.

A number of governors' messages have called legislative attention to the question. During 1911 legislation enacted showed greater liberality on the part of the states toward convicts and their families. The prisoner received compensation for labor in six states-Florida, Kansas, Michigan, Nevada. Rhode Island and Wyoming. pendent family was given assistance in five—Colorado, Maine, Massachusetts, Missouri and New Jersey. .

Irrigation. Within comparatively recent years irrigation in the United States has progressed to wonderful proportions, although almost all the work of this sort has been done in the west. Arid lands have been made fertile, and soil hitherto unfit for cultivation has been made to produce millions of dollars' worth of crops. Vastly important, in view of the achievements already credited to irrigation, will be the convention of the national irrigation congress at Salt Lake City Tale at Salt Lake City July 22 to 27, which more than 7,000 delegates will attend.

New Revenue Cutter.
The revenue cutter Unalga, which sailed on an 18,403 nautical mile trip to reach Alaska to patrol the seal rook-eries, is one of the largest of the goveries, is one of the largest of the government's revenue cutters and one of the smallest to attempt such a long voyage. The longer route by way of the Suez, canal was taken for purposes of economy. The saving is in coal. Had the vessel been scheduled to go around Cape Horn, a adorfer distance by several thousand miles, a great deal more coal would have been needed, which would cost the government on an average \$16 a ton.

THE BLOOD RED PANSY.

Remarkable Specimen Produced After Twenty-five Years' Work. It is a fitting time to write of my

favorite flower, says Professor Cut bertson in the Strand. 'It celebrat the centenary of the beginning of its improvement this year. It was in the year 1812 that a daughter of the then Earl of Tankerville transplanted into her garden from the hedgerows plants of the wild heartsease and gave them good cultivation. She gathered seeds from the best flowers every year and became possessor of some greatly improved specimens.

This is exactly what all keen growers of pansies have been doing ever since, and by following the process along distinct lines the pansies of dif-ferent colors and shapes have been ferent colors and shapes have been evolved. The old pansles are too prim and precise to please the modern taste. Nowadays something large and showy is desired, and such we have in the class called fancy pansles. Many of these are flowers which can be grown to three or four inches in diameter and are possessed of the most brilliant colorings—yiolet, crimson, rose, bronze, yellow, primrose, black and white—all these and many other shades in fanthese and many other shades in fau-

A really red pansy has long been the desire of florists, and for twenty-five years I have worked to obtain it, doing exactly what the daughter of Lord Tankerville did-gathering seed every year from the plants which gave a lit-tle more red in their coloring than any seed beds. In the year 1898 I obtained a strain of pansies which were wallflower red in color. The process of selection has gone on ever since.

Now we have a pansy blood red in color, of medium size, nearly sound in shape. The blotches in the center are intensely dark, the little eyebrows are white, the eye itself being bright yellow—"a gem of purest ray serene." Thousands upon thousands of seedlings were grown before this novelty was

It was one fine summer morning that the new pansy I have referred to was discovered blooming among its neighbors, and it was on that account fittingly named sunrise

RABBIT BEAT THE AUTO.

The Chauffeur Had to Speed Even to Keep Bunny In Sight.

The scene was on the road to Point place. Illuminations were furnished by the moon and stars. Besides the rabbit and the auto, there were one

The big automobile was speeding along the highway, sending its white light ahead, when suddenly right across the path of the rays from the head lamps shot a young rabbit. The chauffeur slackened speed, hating to hurt the little creature, and then the rabbit hopped back into the center of the road again, gave one look into the glinding glare of the lamps and started

Straight down the center of the nooth white highway he shot on ahead of the car, and the chauffeur speeded up a bit just to see how fast the race was going to be, but he could not catch the rabbit, not by ten feet. That little critter's feet went so fast there did not seem to be any there and just a speck where the long ears bobbed with the motion of his little body and a brown blur of hair. And still he ran, on and on, keeping

his distance ahead of the big machine as if the light had hypnotized him and he could not stop, while behind in the car big, lazy pursuers laughed and watched and begged the chauffeur not to run him down. There was no such The rabbit was too quick. When he

vas tired of the sport he hopped to one side of the road as the car went by, tipped up his tiny head and winked out of one pink eye as he looked af the speeder and its occupants with a quis-zical curve to his little moutn.—Toledo

Flattery as a Fine Art.
One must be a genius to be a successful barber. One is reminded of the tonsorial artist who operated in the same village for fifty years and never made a mistake. In his early days a handsome boy got into his

"Shave, sir?" asked the barber.
"You flatter me," laughed the youth.
"You flatter me. No; I can only use a hair cut."

Years passed. In fact, thirty years did it. The same man came to the same barber. "Hair cut, sir?" asked the be

"You flatter me." signed the man.
"No; only a shave."—Cleveland Plais

Pashion and Care of the Home

This pretty turban of flexible straw braid in satin finish is gracefully shaped to bring out the attractive lines of the head. The only trimming consists of nacre hyacinths applied at each side of the turban. This style of hat is useful for summer wear. It presents no projecting brim to interfere with the parasol, and its lines are such that it safely defies the attacks of the sum-

TRANSPARENT MATERIALS.

Wide Choice Is Offered This Season

Midsummer Lingerie Gowns. Marquisette, voile and such trans parent materials, which are as appro-priate fabrics as one could wish for the summer weather, are seen in a bewildering variety this season. There are many different qualities and different designs with just a shade of difference, and all are woven on much the same plan. There are various ways of making up these transparent fabrics. Some have linings of silk or satin; others have only lawn and ba-tiste linings. Others again are made without any linings, but are worn over princess slips of silk or satin the color of the gown or in contrast.

Marquisette wears well, is so sheer

that any lining shows prettily under it, and it does not pull as chiffon is likely to do when not of the best quality. The favorite colors are all to be found in this fabric as well as black and white, and there is something in the weave that makes it not such a ult task to match with the lining, as it takes its color most readily from the heavier material.

For midsummer wear there is the popular lingerie gown, and under the heading of lingerie are included all thin materials that can be trimmed with lace or embroidery and that can be

Batiste is a fashionable material this year both in white and colors, while the soft muslins of all kinds make up

styles of dress. There are very few plain skirts to be seen. Almost all are trimmed with bands of lace insertion or embroidery or have flounces or panels. The width of the skirt is the same as if it were made of heavier material, although around the foot it is so cut as to give sufficient width to permit taking a long step.

FASHION BRIEFS. 840000000**000000000000000**

Flower-like ornaments with bands of velvet remain popular for neckwear. Hand bags of lace and linen are

argely used with lingerie dresse Some tailored gowns are made with the directoire collar, that leaves the throat bare, the guimpe being of em-

broidered linen or mousseline. Striped materials are mostly self trimmed, the stripes being used in reverse fashion for bands and facings.

Colored veils are worn to some ex-tent, the favorite shades being taupe, brown, navy, prune and champagne. Some of the prettiest of the deep col-

lars are of flowered batiste with an edging of fine lace. Little frocks of sprigged muslins are smart and pretty for summer wear.

Coarse lace is much used as trimming on gowns of linen and casement cloth.

Salt Water For the Skin. Salt water acts as a tonic on the well with face or embroidery and are skin. Gently spatted on the face it remarkably well suited to the present will help to make the cuticle firm.

Victory and Defeat

ON YOUR BAKING DAY.

Checolate Cream Cake.
One egg white, two tablespoonfuls butter, four tablespoonfuls milk, half a cup sugar, three-quarters cup flour, one egg yolk, one and a quarter teaspoonfuls balling powder, half a teaspoonful vanille.

spoonful vanilis.

Cream butter, add sugar gradually and egg yolk well beaten. Mix and sift together flour and baking powder and add alternately to first mixture with milk. Add egg whites beaten stiff and bake in layer cake pan in a moderate oven. Put together with jam and pile chocolate whipped cream

Coffee Cake.

One-third of a yeast cake, one egg. two tablespoonfuls lukewarm water, about one and a half cupfuls flour, half a cupful scalded milk, paste made of two tablespoonfuls of water and half a teaspoonful cornstarch boiled to-gether, two tablespoonfuls butter, one dozen blanched almonds, two tablespoonfuls sugar, a quarter teaspoonful salt, half a teaspoonful of cinnamon.

Melt the butter in the milk, add sugar and salt. When lukewarm add the yeast dissolved in the warm water and the egg; stir in flour enough to make a stiff batter. Let rise. Spread smoothly in a buttered pan and let rise. Then bake half an hour. Make a cooked paste with cornstarch and hot water, spread over the top of cake, sprine kle with almonds cut in thin slices and sugar mixed with cinnamon. Then

************** MACAROON ICE CREAM.

Dry, pound and measure a cupful of macaroons; add to a quart of cream; then add three-fourths of a cupful of sugar and a tablespoonful of vanilla. Free ing three parts finely cut ice to one part rock salt.

Egg Salad Sandwiches Allow an egg to each sandwich and cook hard, as usual; cut rather soft bread in quarter inch slices and butter lightly. Reserve yolks from three egg and chop balance with whites. Mix and season with salad dressing and spread thickly upon bread. Dip crisp lettuce leaves in dressing, place over egg and set second slice of bread in place. Place on individual plates on paper doilies, rice egg yolks over sandwiches and serve at once.

Lingerie Pillowe. Dainty lingerie pillows, oblong in shape, are effective when made of lace insertion and strips of tucked mull or lawn. This is a good way to use small scraps of heavy material, and you are sure to be satisfied with the result.

CATS' EYES AND THE DARK.

Feline Pets Contract or Expand the

Pupil at Pleasure.

Some persons will tell you that cats can see in the dark. Now, nothing can

see in the dark, but some animals can see with much less light than others.

You open or close the lens in a cam-

era according to the amount of light

or else you speed up the shutter or

The human eye does this automatically, as the pupil expands or contracts according to the amount of light to which it is exposed, but cats

can expand or contract the pupil of their eyes at pleasure, just as you

open or shut the stops in the lens of

When cats are not particularly anxlous to see anything the pupils of

their eyes become nothing but narrow slits, but when a cat is hunting a mouse in a room where there is very little light or when the cat is being

hunted by some bad boys and wants to see every move the boys make it opens the pupils of its eyes until they

If you happen to be between the cat

and the light you will see a peculiar gleam in this wide open pupil, which is the reflection of the light at the

back of the cat's eye. New York Sun.

A Country Chit Quite Too Clever to Be Hoodwinked

By ALICE JENNINGS

ATILDA THORNE, a country girl, received an invitation for a visit to her fashionable aunt, Mrs. Treaddle, who lived in the matter of the fashionable aunt, and the fashida was down on the fashida was that Matilda was down on a list legatees for small amounts in the ill of Schermerhorn Wrinkle, Mrs. readdle's brother, a bachelor, aged orty, and he insisted on seeing each nd every beneficiary. When Matilda rrived Mrs. Treaddle, struck with her eauty and freshness, was at once ter-ided lest her brother might fall in love with and marry her. Since the bulk of his fortune was to descend to Mrs. Treaddle that lady determined to head off any such possible result.

"Matilda," said the lady, "It is my

duty to warn you against the men of this big city. Now, there's my own brother, Schem. He has no conscience whatever in the matter of a conquest. ie has broken many a girl's heart and would not scruple to send you back to your home jilted and disgraced." "Oh, aunty, how awful!"

"Shun him as you would an adder."
"But he is my uncle."

"Only by marriage. Even if he were don't think that would protect you." This was not the only safeguard Mrs. Treaddle threw out against a pos-sible loss of her brother's fortune. She gave Reginald Knickerbocker, a young profligate with whom she had been carrying on an affair, instructions to win Matilda, thus preventing Scher-merhorn from doing so. Having thus

merhorn from doing so. Having thus put up the bars, Mrs. Treaddle felt that she had her brother corralled.

"Oh, aunty," said Matilda a few days later, "what do you think? Mr. Knickerbocker— But I shouldn't tell."

"Tell-ine everything, my dear."

"Last night when we were alone he put his arm around me."

"Indeed, what else did he do?"

"Oh, I don't like to tell!"

"You'd better, my dear."

"He kissed me."

"Well, my child. I congratulate you.

"Well, my child, I congratulate you

Mr. Knickerbocker is one of the few fine young men in fashionable society." "Isn't it nice that he's not like Uncle

"Very nice. I trust it will all come out right and you will be very happy."

A few evenings later Matilda entered the drawing room and saw Mrs. Tread-dle and Reginald Knickerbocker hand in hand. The young man and the lady looked annoyed, but she was equal to the emergency.

"Come here, Matilda. I want to congratulate you. Reggy has been giving me his confidence just as if he were my own son. He had told me of your engagement to him."

"Oh, aunty, how you surprise me! Mr. Knickerbocker hasn't proposed to me." She turned away, with her eyes

The Children's Part of the Paper

"That is only because I was waiting," said Knickerbocker, rising and advancing toward her, "for your aunt's

permission."
"Why for that?" asked Matilda, turn ing a pair of wondering eyes on him.
"You dear, unsophisticated child,"
said her aunt. "In our set it is not con-

sidered honorable for a man to win a girl without permission."

"Oh, dear!" said Matilds, a mild dis-appointment in her voice and eyes. "I'm so sorry! You can't be honor-able. You didn't have permission when you kissed me." Mrs. Treaddle put a lace handker

chief to her lips to hide a smile. "Mr. Knickerbocker had my permission to win you from the first," she said.

Matilda looked as if she were going

"What's the matter, child?" asked

her aunt. "Oh, nothing! Mr. Knickerbocket asked permission to love me, then

loved me afterward. Suppose he hadn't got permission. I should have been so disappointed." And, putting her hand-kerchief to her eyes, she glided out of the room.

A month passed, during which Reginald Knickerbocker spared no pains to make himself agreeable and restore confidence. One day Schermerhorn Wrinkle asked his sister if she were not going to give Matilda an entertain-

"An entertainment. Why, Schem are you crazy? Give that country chit an entertainment? It would cost me my position in society."

But Schem insisted on it in a quiet

way as the proper thing, and Mrs. Treaddle did not dare disobey. On the evening of the function Matilda appeared in a simple white dress, with a rose in her hair, looking for all the world like a Greek statue, Mrs. Treaddle was astonished to find that the introduction instead of injuring her reputation in society had made a hit.

"Mrs. Treaddle," said a guest, "what a pity to introduce such a charming girl and announce her engagement at the same time!"

"Her engagement!" stammered the hostess. "Ah, yes—to Mr. Knicker-bocker. But I did not know it was to

be given out tonight."
"Mr. Knickerbocker! Why, your brother announced to me himself that he was engaged to Miss Thorne." Mr. Wrinkle at the moment was passing with Matilda on his arm and heard the remark.

"Martha," he said to his sister, "this little chit has consented to be my wife."

"Little chit! Little cat! She has been stealing around like a snake and deceived us all."

"Not at all," said Matilda, with dig-nity. "You deceived yourselves."

"THE FARMER CHIPMUNK."

Little Fellow Was Zealous Guardian of

His Patch of Corn.

In New York's zoo some time ago there was a chipmunk which had earn-

ed for himself the name of "the farmer chipmunk." Born in the wilds of Cali-

fornia, he was taken to New York and

locked up in a great wire cage, where he amused himself with catching crumbs and peanuts thrown to him by

curious little boys and girls. One day

the keeper noticed that there were sev-

eral little blades of corn growing in

one corner of the animal's yard. It

looked as though the little creature had planted them there, for he guarded them carefully and drove away the

birds that slipped in once in awhile to

peck at them. The blades soon grew into large stalks and actually bore

ears of corn. When the corn was ripe the little fellow climbed up the stalk

and feasted on the pulp, and he would

stand no interference from birds or

Doubt arose as to how the seeds had

Religious (Cor

cocounts in over department of church the Rev. A. F. McGarris in a recent address in St. Louise. "The minister ought to heart at end of the year that all allo shall hunted up and paid. The treasu ought to read from the pulpit a fine cial statement every quarter. The should be the fullest publicity also financial matters. People ought make their gifts, not to the minist but to the Lord, and the minister has a right to insist that his salary be paid, because this salary is part of what belongs in the treasury of the Lord. It is nothing personal with the

"There ought to be the fullest audit There ought to be the fullest anditing of all departments. I wouldn't
eay what I know of temptations having been thrown in people's way to be
dishonest. It is not right to lead some
man or woman into temptation by letting them go on year after year with
their accounts never looked over. I wouldn't allow a five dollar bill to lie on the floor to tempt an office boy. It is wrong to tempt anybody beyond his wrong to tempt anybody beyond his power of resistance. Thank God there have been few in the churches who ever stole any money, but the best way is to audit all the books. The examiner is welcome, because he shows the cashier is honest."

Formed to Fight Mormonism.
A society has been organized by women well known in social and religious circles to fight Mormonism. This society has been working in a quiet way for some time, but has recently been spurred to activity on account of the number of converts to the Mormon faith that have been made in the last year. At present there is said to be a year. At present there is said to be a Mormon in every 180 of the population of the United States, and the country swarms with Mormon missionaries.

Nonchurchgoere.
More than 57,000,000 persons in the United States are nonchurch members, and of the number 12,000,000 are children, according to a report of the committee on industrial conditions considered by the United Presbyterian assembly at Seattle, Wash.

A Ministerial Arraignment

A Ministerial Arraignment, "The churches today carry an it creasing mortgage in a memberah that contains penurious, intolerant, ufair, discourteous, dishonest, bigots indifferent, careless, cowardly, seithmen—men who cheat, deceive, wi give and steal, who keep and was who exaggerate and prevarients, me who increase their riches and decreatheir taxes, men who sing and predictions of their taxes, men who sing and predictions of their taxes, men who sing and predictions of their taxes. and who steal the livery of heave cheat the devil in."

The above arraignment was made be the Rev. F. D. Sheets, pastor of the South Park Avenue Methodist church at the Chicago Methodist preaches

aceting.
"Is this hyperbole?" he asked at the finish of one of his climaxes. "No sir. It is just plain truth in English. Are these men backsliders, gentiles, without casts or standing, barbarians? No, sir. They are of the "Four Rundred" in church administration and control."

Aggressive Efforts.

Recent plans perfected by leaders in Presbyterian, Episcopal, Methodist, Baptist and other bodies in New York for aggressive religious work in New York were on a scale and a breadth never before attempted. The plans grow out of the men and religion for-ward movement. Beginning at the end of June, there were weeks and week ends for young men at a new resort on Greenwood lake, the purpose being give young wor ideal outings and to bring them into touch with each other and with the Christian leaders of New York.

schools to train laymen for church work are to be opened in all of the boroughs of Greater New York.

"A farmer's son in Illinois conceived a desire to shine as a legal light. Accordingly he went to Springfield, when he accepted employment at a small sum from a fairly well known lawyer. At the end of three days' study he returned to the farm.

Germany's Vast West African Tract. The territory in West Africa recently ceded by France to Germany is almost half as large as the German empire and contains more than a million inhabitants. In the southern part of the district the inhabitants are Bantus, heathen, without culture or civilizat while the northeastern part is inhab-ited largely by Sudan negroes who have become Mohammedans.—Argonaut.

Transgression.

I meant to do my work today,
But a brown bird sang in the apple tree,
And a butterfly filtred across the field.
And all the leavist were calling me,

The summer meetings conclude Labor day, and immediately thereaft

Three Days Wasted,

Roller Skating. Roller skating, which so many boys and girls enjoy, is of comparatively recent origin. It is said that wheeled skates were known as far back as the eighteenth century, but the four wheeled skate, as we know it today, was the invention of a New Yorker, who introduced it in 1863. WHEN FATHER GETS HOME AFTER THE GAME

THERE'S BIG MONEY

BIG FARMS

because land prices are low, and a man who sells his farm in an older section of the country can buy here two or three times as many acres with the same money.

because this soil, naturally as fertile as any in America, is practically new—it has not been the victim of the "soil-robbers" who have so nearly exhausted the fertility of the older states.

No. E. H.—240 ACRES IN REDWOOD COUNTY, MINN.

This is a fine piece of rich, dark soil, nicely located close to good railway town. Farm is level and the soil of high quality and very productive, all in cultivation but about 40 acres. Buildings, which are good, are a new 8-room house with cellar and furnace, barn 28x42 with crib and wagon shed 16x42 attached and new poultry house 10x30. Fine drainage outlet. A good corn, oats, wheat and clover farm. Price, \$90 an acre.

No. L. R.-160 ACRES IN MCLEOD COUNTY, MINN.

Five miles from a good town on C. M. & St. P. Ry. This is a good piece of dark rich loam with clay subsoil, about 125 acres being in cultivation and about 5 acres in nice grove. Buildings are a 10-room house, good barn 30x50, granary 16x24, wagon shed 12x20, poultry house and corn crib. Fine assortment of both tree and bush fruits. Price, \$87.50 an

Southern Minnesota is the place for the business farmer, the man that is out for the dollars. His capital and his labor will bring greater returns here than anywhere else in the United States.

Why not let someone else wrestle with the problem of making your high-priced farm pay a reasonable income on its selling value? You sell it and take your money where it will do more. Come to this land of bounteous crops and start farming on a real money-making basis—on

Twice as many acres of newer and more productive land

DOUBLE YOUR ACREAGE BOUBLE YOUR PROFIT FOR THE SAME MONEY

It's poor business to stick to 80 acres when you can sell it and with the proceeds buy 160 to 200 acres of just as good or better land in a section where you will have the same advantages as to markets, roads, improvements, schools, churches and good neighbors that you now possess.

No. J. W.—314 ACRES IN REDWOOD COUNTY, MINN.

Located in splendid neighborhood 5 miles from two good towns. This farm lies level to gently undulating and soil is dark loam of excellent quality; 275 acres is under plow; there is a nice grove of three acres. Good drainage. Improvements are an 8-room house with cistern and cellar, barn 40x60, machine shed, granary 20x60, corn crib and poultry house; wind pump. Splendid value at our price of \$85 an acre.

No. W. G.-140 ACRES IN LYON COUNTY, MINN.

Four miles from a town of 1,000 on Great Northern Railway. This is a nicely improved farm, having a good 11-room house, good barn with full. set of outbuildings, including wagon shed, hog house, poultry house, granary and crib. About 135 acres in cultivation and about 5 acres in grove. Price, \$85 an acre.

WE HAVE A MINNESOTA FARM FOR YOU

Carefully selected—of highest quality—in the size you want and can handle. Its price is right; and as to terms, we will-carry you for three-fifths its price, for long time and at low interest. Isn't that a fair and liberal offer?

WRITE FOR THE STRAUS RED BOOK

It tells all about the sections where we own farms, 312 of which it fully describes with prices. Get posted on soils and values in Minnesota, Indiana, Ohio, Michigan and Ontario. Ask us for a RED BOOK—it's free.
