Luther Rose, of Mattoon, was found ring in a demented condition

wandering in 's demented condition Tuesday evening in Whitley and East Nelson townships. He was first po-ticed by Mrs. East See in the Smyser neighborhood. The next first any notice was taken of him, he was go-ing along the lane west of James Do-lan's (living on the township line, between Whitley and East Nelson) trying to pull up the fence posts. At

the home of John Nickola he was taken in and the sheriff called. He was brought to Sullivan and cared

for in the county jail. Being a resident of Mattoon, Coles county officials were notified to come and get him, The Red Men's lodge of Mattoon came for him Wednesday and took him home. They will keep him at Mattoon a few days in hopes his

condition will improve. Mr. Rose came to Whitley from the state of New York a number of years ago. He has been married twice, his first wite being Miss Rebecca Smyser. He is a brother to Edwin P. Rose, de-

cessed, who at one time was princi-pal of the Sullivan public school, Mr. Rose was in the habit of drinking intoxicating liquor to excess, which no doubt caused his trouble.

Essay on Woman.

Woman makes use of a letter just as she employs a glance or a smile, in a way that is carefully thought out and with an eye to effect. And, aft-sr all, does a woman's hat serve to sover her head? Does a woman's parasol keep off the sun? Are a womin's shoes good for walking? Why then should a woman's letter serve to sourcey her real thoughts to the person addressed, just like a communication from a grocer, who writes, "I send you live pounds of coffee," because he realv does send you five pounds of cof-te?-London Chronicle.

Governor Concedes Opponent Victory --- Cannon Beaten for Congress

Decatur, Ill.—Returns indicate the defeat of Representative William B. McKinley for congress from the Nine-teenth district by Charles M. Borch-ers of Decatur, Democrat. His plurality is estimated at 1,000.

Chicago.—Theodore Roosevelt ap-parently has carried Illinois for presi-dent by a plurality of 15,000 over Woodrow Wilson. True to the great majority of the forecasts made, Presi-dent Taft is a poor third in the race. incomplete returns from Cook county indicate that Mr. Roosevelt has a margin of about 15,000 over Gov. Wilson. Down state, Wilson and Roose-velt ran a neck-and-neck race.

For governor Edward F. Dunne of Chicago (Dem.) has carried Cook county by 60,000 and the state by county by so, out and the basis of probably as much. Gov. Dencen, at Springfield, con-ceded Dunne's victory, and said he would send a congratulatory message

to his victorious opponent. In Cook county Gov. Deneen and Frank H. Funk, Progressive candi-Jate, are running neck and neck, with a slight margin in favor of the gov ernor. Down state, Mr. Funk is mak ing an unexpectedly strong showing beating out Gov. Deneen in many counties where the opposite result was confidently looked for by the friends of the governor. Deneen is third in the race. There are not enough legislative re-turns to justify a forecast on the prob-

able make-up of the next general as sembly, but unless there was a vast deal of scratching it seems certain that the Democrats and Progressives have wrested control of that body from the Republica nd that Democrats will be able to send two men to the United States senate.

In the Fiftcenth district it is prob able that Representative George Prince is beaten by his Democ Prince is beaten by his Democratic opponent, Stephen A. Hoxworth, while in the Tweifth district the indications are that Representative Charles F. Fuller has been re-elected, although his Democratic opponent, William H. Hinebaugh, was running close. Sterling in Baster.

Hinebaugh, was running close. Bierling is Besten. In the Seventeenth district the re-turns indicate that the present Repub-lican, John A. Sterling, is beaten by Louis Fitzhenry, the Democratic con-didate. Fitzhenry claimed the seven-tion by 3,000 plurality as he carried Livingston, Logan and Woodford counties, while Sterling carried his home county of Macon and Ford. Outside of Cook county, the returns indicated that the Democrats would gain at least three seats and retain all that they held in the last congress. Another surprise was in the Eigh-teenth district, where the returns in-dicated that Joseph G. Cannon is de-feated by Frank T. O'Hare, his Demo-cratic opponent. Twenty-eight precratic opponent. Twenty-eight pre-cincts out of sixty-seven in Vermilion county, heavily Republican under or dinary circumstances, gave O'Hare a lead of fourteen. The failure of Cannon to make a stronger showing in his home county was taken as an indi-cation that he would lose the district by about 1,200 votes, as O'Hare claims he will carry Cumberland, Clark, Edgar and Iroquois counties by plurali-ties sufficient to more than overcome the Cannon lead in Vermilion and Kankakee counties.

S. SUPREME BODY REVISES RULES OF PRACTICE IN FORCE FIFTY YEARS.

COST OF LITIGATION REDUCED

Serving of Injunctions Without No tice to Other Party Will Not B Permitted After Feb.1, 1913 -English Plan Adopted.

Washington, . D. C .-- Revolutionary changes in procedure in equity cases in federal courts throughout the United States are effected in revised rules promulgated by the supreme court of the United States.

The object is to reduce the cost of litigation and to eliminate delays.

Among new rules is one which would prohibit issue of preliminary injunctions without notice to the op-posite party and also restricting is-sues of temporary restraining orders. The new anti-injunction rule incorporates into practice several demands of labor leaders which they sought to have recognized by the enactment of the so-called Clayton anti-injunction bill. The new rule follows in a gen-eral way the rules of the federal court in the Ninth dircuit, which comprises the Pacific const states.

Task of 17 Months.

The new rules were announced by Chief Justice White from the bench One of the tasks undertaken by him when he was appointed chief justice was to reform procedure in the courts. He first revised the rules of the su preme court itself.

the courts of England with only one or two revisions since the beginning of the republic. The last revision was about 50 years ago. Chief Justice White, explaining the rules from the bench, grouped the re-forms under four or five heads. One was in regard to the exercise of pow-er by the federal courts in equitable matters. Another was described as being defined primarily to remove all unnecessary steps in modes of plead-ing and to bring the parties quickly to the issue. to the issue.

to the issue. In Effect February 1, 1913. "The whole intention has been," add the chief justice, "to bring the taking of testimony down to a more simplified inargensive method." Another reform was said by the statement that the new rules as a general thing provide for trial by the court instead of a reference of the suit to a referee to take the testimo-ny and report back to the court. The chief justice said the new rules would make it impossible for the ap-pellate court to reverse suits merely

Democrats Elect Congressmen. Also it is likely that the Democrat

have elected William E. Williams and Lawrence B. Stringer, members of congress at large from Illinois. The present Illinois delegation stands fourteen Republicans and eleven Democrats. Illinois will have twenty-sever members in the next house, and the outlook appears favorable for the Democrats to make a gain of five to ten members.

If the Democrats control the legislature, Illinois, for the first time since 1861, will have two Democratic United States senators after March 4. James Hamilton Lewis, primary nominee will be one of them. He will succeed Shelby M. Cullom, who will retire after fifty-six years of continuous pub lic life. Another Democrat will be chosen to succeed William Lorimer, ousted from the senate last summer. There is talk that he will be Charles Boeschenstein, Democratic national committeeman.

Incomplete returns from the various congressional districts throughout the state indicated that the Democrats would gain a number of new seats in the house of representatives In the Twenty-second district the returns indicated that William E. Rodenberg, the present Republican representative, was defeated by his Democratic opponent, William N.

Baltz. James M. Graham, the present Dem ocratic representative from the Twen-ty-first district, is re-elected by a plu-rality of more than 2,500 votes, ac-

cording to theearly returns.

Returns Indicate They Will Have a Majority on Joint Ballot-To Elect Two Senators.

Chicago, Nov. 6 .- Returns from the fifty-one senatorial districts in Illinois indicate that the Republicans have lost control of the legislature for the first time in twenty years. The Democrats seem to have come

out on top. The result is so close, however, that it is possible that neither the Republicans nor Democrats will have a majority on joint ballot.

The Progressives have elected more than half a dozen members of the house and possibly one or two members of the senate. They may hold the balance of power and be in a po-siltion to make a deal either with the Republicans or Democrats involving the two United States senatorships, which are the big stakes involved in the fight for control.

St. Louis.-Woodrow Wilson was elected president of the United States Tuesday by a vote of landslide proportions. So pronounced was the Democratic victory that the result was

So pronounced was the Democratic victory that the result was evident early in the evening. Returns indicate that Wilson is sure of 800 electoral votes (261 is a majority), and that later returns might swell this figure. Wilson took the lead in the returns from the start. Reports from Massachusetts as early as 6 o'clock indicated he would carry that rock-ribbed Republican state. New York returns followed closely on the heels of Massachusetts, showing a tremendous Democratic plur-elity. ality.

Chairman McCombs of the Democratic national committee declared shortly after 9 o'clock that victory for Gov. Wilson was then assured. He said Wilson had carried Massachusetts, Maine, Connecticut, New York, Maryland, New Jersey and all of the Southern states

McCombs had previously wired Wilson, telling him he had made a clean sweep and that there were only two states where the vote was close.

McCOMBS WIRES WILSON.

Chairman McCombs sent his mes-eage to Gov. Wilson over a direct wire to the governor's home in Princeton. "I told him," said Chairman Mo-Combs, "You have carried New York by a tremendous plurality. 'You have also carried Massachusetts by 60,000 plurality. I have just received a mes-sage from National Committeeman Fred B. Lynch that you have carried Minnesota by 25,000. It is a clean

sweep.' " Chairman William Barnes, Jr., of the Republican state committee, shortly before 7 o'c'ock made the statement that Gov. Wilson will carry New York state by a plurality of between 100,000 and 150,000.

Senator Joseph M. Dixon, Progress-ive national chairman, said, after scanning the returns from New York, Massachusetts and several other eastorn states:

"We have to go to the west for the Roosevelt vote,"

ALABAMA. Montgomery, Ala.—The Democrats made a clean sweep in Alabama, elect-ing their entire state and congres-sional tickets. Wilson's plurality is estimated at from 40,000 to 50,000. House Leader Oscar Underwood was molected by an insected with re-elected by an increased vote.

ARKANSAS. Little Rock, Ark.—Returns from the interior or the state indicate that an unusually large vote was polled and that Wilson's plurality will be in the meighborhood of 45,000 votes.

COLORADO.

Denver, Colo.-Early returns seem to give Colorado's electoral vote to Wilson, but both the Taft and Roose-velt managers claim their candidate will win on the full vote. The Demo-cratic state ticket is leading and the indications point to a solid Democratic congressional delegation.

CALIFORNIA. San Francisco, Cal.-With only a few precincts heard from both the

FLORIDA.

Jacksonville, Fia.-Wilson carried Florida by a plurality estimated on the early returns at about 50,000. The Socialists colled an increased vote, but the Progressives made a poor showing.

GEORGIA.

Atlanta, Go.—Indications are that Woodrow Wilson has swept the state by a majority greater than the state has given a national Democratic can-didate in many years. Indications are Wilson will run somewhere around 90,000, with between 50,000 and 60,000 divided between all the other candi-dates, and that Wilcon will have a majority anywhere from 30,000 to 40, 600, as against a majority of a little over 21,000 for Bryan four years ago.

IDAHO.

Boise, Idaho.—Taft electors and Re-publican state ticket have apperently carried Idaho on the showing of the first returns. The legislature seems safely Republican and Wm. E. Borah, probably, will be returned to the probably will be returned to the United States senate. The race for governor is close and later returns may place it in doubt.

ILLINOIS.

Chicago, Ill.-Col. Reosevelt appar-ently swept Illinois in the race for the presidency. The early indications were that the colonel would carry the state by 100,000 votes, but later returns reduced that figure. Edward F. Dunne (Dem.) of Chicago, appears to loave won the gubernatorial fight, with Deneen (Rep.) second and Funk (Prog.) third.

INDIANA. Indianapolis, Ind.—Indiana apparent-y went overwhelmingly Democratic. labama Arizona . Gov. Wilson, on the basis of returns from 571 precincts out of the 3,172 in Arkansas Florida the state, had almost as many votes as Tait and Roosevelt combined. Wil-son was leading Tait by more than two to one. For governor Samuel M. Ralston ,Dem.) led over Albert J. Bev-eridge (Rep.) and Winfred T. Durbin (Rep.) Senate and House also will be safely Democratic. Roosevelt runs away from Taft, who is a poor third. Wilson electoral vote, reasonably certain, between 350 and 400. The electoral college majority is 266. Roosevelt's certain electoral vote between 60 and 75. Taft's certain states, Vermont, with 4 vote, and Utah with 4. Wilson carries New York by 150.000, and Sulzer (Dem.) is elected governor by from 150.000 to 170.000. Roosevelt and Straus (Prog.) run behind Taft and Hedges (Rep.). Major elected governor of Missouri by at least 50,000. Wilson carries the state by about same plurality. Taft and McKinley sec-ond, and Roosevelt and Nortoni third. Thirteen Demogratic con-gressmen from Missouri certain. "Uncle" Joe Cannon, William A. Rodenberg and William B. McKinley, congressmen in Illinois, probably defeated. Illinois elects Dunne (Dem.) governor over Dencen (Rep.), with Funk (Prog.) third.

New York.—Woodrow Wilson has carried the state of New York by a plurality closely approximating 150,000. William Sulzer (Dem.) for governor has carried the state by

about 170,000.

William Barnes, Jr., chairman of the Republican state commit-tee, admitted the defeat of Taft, but claimed he would be second in the race.

Gov. Wilson carried New York city by about 125,000. With pluralities in most of the cities throughout the state, the estimate of

150,000 is regarded as conservative. Oscar Straus, Progressive candidate for governor, is running third, from present indications. Job Hedges, Republican nominee for

governor, appears to be second. The city of Syracuse went Democratic for the first time in its history, giving Wilson a plurality of 1,000. As returns continue to come in the tidal wave toward Wilson increases, and William F. McCombs stated that he did not consider estimating Wilson's plurality at 300,000 in New York as extravagant. by early returns for congress in the First district over Congressman Sells

NEW MEXICO. Albuquerque, N. M.-Democrats claim to have carried New Mexico on the face of the incomplete returns. The Republican and Progressive par-ties split the normal Republican vote.

NU MARCE

NORTH CAROLINA.

Raleigh, N. C.—The Democratic party won a sweeping victory in this state, electing both the national and state tickets.

NORTH DAKOTA. Fargo, N. D.—Indications early point to a close race between Wilson and to a close race between Wilson and Roosevelt for North Dakota's five elec-toral votes. Many Taft and La Fol-lette men voted for Wilson in an af-fort to head Roosevelt and this cut down the strength of the Republican national ticket. The indications are that the Republican state ticket has been elected, although Heilstrom (Dem.) is showing great strength. Heigesen, Young and Norton, the Re-publican congressional nominees, are all elected by good maporities, having been indorsed by the Progressives.

OKLAHOMA. Oklahoma City, Ok.—The first pre-cincts in Oklahoma City to report give Wilson electors 126; Republican elect-ors, 144. Seven of the ten Republican electors are Roosevelt adherents. It has not been determined how they will vote should Republicans carry the state. For congress the re-election of Representatives Scott Ferris and Charles D. Carter. Democrats is con-Charles D. Carter, Democrats, is conceded.

OREGON. Portland, Ore.—The race between Wilson, Taft and Roosevelt is close on the early returns, with the indications favoring Wilson. The fight for United States senator to succeed Jonathan Bourne is close, with Lane (Dem.) ap-parently in the lead. The Democratic state ticket probably has been elected.

PENNSYLVANIA.

First district over Congressman Sells (Rep.) Memphis probably will give 5,000 plurality for Wilson. TEXAS.

TEXAS. Dallas, Tex.—Returns are too mea-ser to estimate the size of the Demo-cratic majority, but it is certain the usual clean sweep has been made on state and congressional tickets. Texas was one of the original Wilson states and it is expected his plurality will equal that of Bryan four years ago, 151,000. Taft and Roosevelt were run-ning about even on the early returns.

UTAM. Salt Lake City, Utah.—Early returns indicate that the Republican national and state tickets will win, though the Democratic managers claim a portion of their state ticket may pull through and the Progressives are hopeful.

VERMONT. Montpeller, Vt.—The Republican have carried Vermont, incomplete re turns indicate.

VIRGINIA. Richmond, Va.—Incomplete returns indicate Wilson's majority over 25,000. The Roosevelt and Taft vote was about equally divided. Nine of the ten congressmen elected are Democrats.

WASHINGTON.

WASHINGTON. Senttle, Wash.-Returns indicate that Roosevelt has carried Washington by a small plurality and that the Pro-gressive state ticket has been elected. Hodge, the Progressive candidate for governor, is running behind his ticket and may be defeated by Lister, Demo-crat. The three Progressive candi-dates for congressmen-at-large proba-bly are elected. Women voters turned the scales in favor of the Progressives:

Thomp son, Democratic candidate. The So cialists polled a large vote in the West Virginia coal fields. Liquor men ad-mit the state has gone dry by a large majority.

Wilson and Roosevelt managers are claiming victory. The woman vote, which was expected to be heavy, and on which the Roosevell leaders count-ed, was cut down by showers in the central and heavy rains in the north-ern part of the state.

ARIZONA

Phoenix, Ariz.—Democrats claim to have carried Arizona on the face of incomplete returns. Indications are that Roosevelt will run second and Tatt third. The election of Representative Carl Hayden, Democrat, is con-ceded. No other officers were elected.

CONNECTICUT.

Hartford, Conn.--Connecticut has gone for Wilson and Gov. Baldwin, the latter running ahead. Democratic Chairman Forster claims the state for Wilson by 7,500, and for Baldwin by 10,000. The Democrats gain the state senate and the indications are the Democrats and Progressives combined will total the Republican vote in the Democrats claim the election of three congressmen. The Roosevelt vote ran about one-half that of Taft. Late returns seemed likely that Wil-son's plurality would reach 10,000 and son's plurality would reach 10,000 and Baldwin's 15,000. Both branches of the legislature will probably be Demo-

DELAWARE.

Wilmington, Del.—Indications are that Wilson has carried the state by a small plurality. Franklin Brockson, Democratic candidate for Congress, probably has been elected. Late reports indicated that George W Clark (Rep.) for governor had defeated his Democratic opponent, E. G. Dunn, but definite returns were unavailable.

KENTUCKY.

Louisville, Ky.—According to figures compiled by the Courier-Journal gave: Wilson, 39,932; Taft, 18,016; Reose-veit, 13,980.

LOUISIANA.

New Orleans.-Louisiana gave the Democratic ticket the usual large ma-jority, and sent a solid congressional delegation to Washington. 'The Proressives made an active campaign and polied a comparatively large vots, leading the regular Republican ticket. Wilson's plurality probably will be more than 40,000.

MAINE.

Portland, Me.-Wilson has carried Maine by an estimated plurality of between 10,000 and 15,000. Portland, the largest city, gave Wilson a plur-ality of 936 over Roosevelt.

MARYLAND. Baltimore, Md.—The Sun, a Demo-cratic paper, claims Maryland for Wilson by 40,000 plurality.

MINNESOTA.

MINNESOTA. St. Paul, Minn.—With five state tick-ets in the field and a lively presiden-tial fight between Taft, Roosevelt and Wilson, the result of the election in Minnesota is in donkt. MISSOURI, St. Louis.—Woodrow Wilson (Dem.) for president, and Elliott Major (Dem.) for governor have swept the state, and from incomplete returns the Democrats have elected the entire state ticket.

MONTANA.

Helena, Mont.—Woodrow Wilson has carried Montana, upon the facts of in-complete returns, and the Democrats complete retring, and the benderates are claiming the state ticket. It is be-lieved that the state legislature will be Democratic, thus defeating United States Senator Dixon, who is a candi-date for re-election.

MISSISSIPPI.

Jackson, Miss.—Mississippi gave the Wilson electors `a plurality of over 40,000, and elected a solid Democratic 50,000, and elected a solid Democratic congressional delegation. An active Bull Moose campaign was conducted, but the Republicans left the state go by default. State officers elected in 1911 hold over until 1915.

Providence, R. I.—Early and incom-plete returns indicate a Republican victory for the national and state tickvictory for the national and state tick-ets. There were three state tickets in the field and the Progressive cut into the normal Republican vote. The legislature, which it appears is con-trolled by the Republicans, will elect a United States senator to succeed Geo. P. Wetmore (Rep.).

SOUTH CAROLINA.

Charleston, S. C.—South Carolina gave Wilson a big plurality and elected the complete Democratic state and congressional tickets. The Progressives made a good showing in this city. Wilson's plurality may reach 50,000. The legislature chosen is expected to return Benjamin R. Tiliman to the United States senate.

SOUTH DAKOTA.

Sioux Falls, S. D.-The indications are that the Republican state ticket has been elected by a fair majority. Roosevelt and Wilson are running a close race for the presidential electors, with the former slightly in the lead. Many La Follette men and most of the Many La Follette men and most of the supporters of President Taft, who was denied the right to an electoral ticket, voted for Wilson. The indications are that Thomas Sterling (Rep.) will be the new senator from South Dakota.

TENNESSEE.

WYOMING. Cheyenne, Wyo.—With only a small part of the state heard from, the Re-publicans claim a plurality for Taft and the election of Cyrus Beard for justice of the Supreme Court, the only, state office to be filled. The legisla-ture elected will choose a successor to Senator Francis E. Warren. The indications are that Senator Warren will succeed himself, although the Democrats and Progressives combined against him.

MASSACHUSETTS.

MASSACHUSETTS. Boston, Mass.--Massachusetts has gone for Wilson by probably 30,000. Gov. Foss (Dem.) is re-elected by am increased plurality. Republican lead-ers, however, are confident that every office except that of governor and lieu-tenant governor will be filled as usual by Republicans.

Angeles, during the past summer, have both had epidemics of poliomyelitis; notwithstanding the unsatisfactory experience of San Francisco a few years ago in regard to the concealment of plague, a few misguided business men, politicians, and unfortunately, a few physicians, opposed the efforts of the health departments in promptly suppressing the epidemic, wishing to resort to the old exploded method of conscalment of conditions. Concorncerning this, Public Health Reports of September 20 has the following comment:

"During the course of the outbreaks in both Los Angeles and Buffalo, there was an effort on the part of certain residents to belittle the importance of the epidemics and the active measutes being taken by the health departments, with special reference to the publicity being given regarding the presence of the disease and the number of cases occurring. And vet she was half bound to him. The recollection of his kiss was not altogether a pleasant memory; he had not done himself any good by that bold assault upon her modesty, that reckless attempt to rifle the treasure of her lips. No man had ever really touched her heart, although many had engaged her interest. Her experience therefore was not definitive or con-clusive. If she had truly loved James Armstrong, in spite of all that she might have said, she would have thrilled to the remembrance of that wild caress. The chances, therefore, were somewhat heavily against him that morning as he rode down the trail plone.

what troubled present aspect. She threw off her preoccupation instantly and easily, however, and joined readily enough in the merry conversation

of the way. Mr. Robert Maitland, as Armstrong has said, had known him from a boy. There were things in his career of which Maitland did not and could not approve, but they were of the past, he reflected, and Armstrong was after all a pretty good sort. Mr. Maitland's standards were not at all those of his Philadelphia brother, but they were very high. His experiences of men had been different; he thought that Armstrong, having certainly by this time reached years of discretion, could be safely entrusted with the precious treasure of the young girl who had been committed to his care, and for whom his affection grew as his knowledge of and acquaintanceship with her

CHAPTER III.

The Story and the Letters. Imagine, if you please, the forest primeval; yes, the murmuring pines and the hemiocks of the poem as well, by the side of a rapidly rushing mounby the side of a rapidly rushing moun-tain torrent fed by the eternal snows of the lofty peaks of the great range. A lovel stretch of grassy land where a mountain brook joined the creek was dotted with clumps of pines and great boulders rolled down from the everiastic, fulls—half an acre of open descrine. On the appendix side of the clearing. On the opposite side of the brook the canon wall rose almost sheer for perhaps five hundred feet,

The black thick coffee and the condensed milk, drunk from the granite ware cup, had a more delicious aroma and a more delight-ful taste than the finest Mocha and Java in the daintiest porcelain of Jrance. Optimum condimentum. The girl was frankly revenously hungry, the air, the altitude, the exertion, the excitement made her able to est anything and enjoy it.

She was gloriously beautiful, too; even her brief experience in the west had brought back the missing roses to her check, and had bunished the to her check, and had bankshed the bistre circles from benesth her eyes. Robert Maitland, lasily reclining propped up against a boulder, his feet to the fire, smoking an old pipe that would have given his brother the hor-rors, looked with approving com-placency upon her, confident and sat-isfied that his prescription was work-ing well. Nor was he the only one who looked at her that way. Marion and Emma, his two daughters, wor-shipped their handsome Philadelphis cousin and they sat one on either side of her on the great log lying between the tents and the fire. Even Bob Junior condescended to give her ap-proving giances. The whole camp was at her feet. Hys. Maitland had been greatly taken by her young proving gainess. The whole camp was at her feet. Hrs. Mattiand had been greatly taken by her young niece. Kirkby made no secret of his devotion, Arthur Bradshaw and Henry Philips, each a "tenderioot" of the er-tremist character, friends of business connections in the gast, who were spending their vacation with Mait-land, shared in the general devotion; ito say nothing of Geotge the cook and Pete, the packer and horse wrangler. Philips, who was an old acquaint-ance of Enid's, had tried his luck with her back east and had sense enough to accept as final his failurs. Brad-shaw was a solemn young man with-out that keen sense of humor which was characteristic of the west. The others were suitably dressed for ad-venture, for Bradshaw's idea of an ap-propriate costume was distinguished venture, for Braanaw's idea of an ap-propriate costume was distinguished chiefly by long green felt puttees which swathed bis huge calves and excited curious inquiry and ribald comment from the surprised dealers of each mountain hamlet through which they had passed to be the which they had passed, to all of which Bradshaw remained serenely oblivious. His efforts not being productive of much success, finally in his despair he resorted to brune strength; he would pick the little ani-mal up bodily, pack and all—he was a man of powerful physique—and swing him around until his head pointed in the right direction; then with a prayer that the burro would keep it there for a few rods anyway, he would set him down and start him all over again. The process of repeated because mo-The process oft repeated became mo-notonous after awhile. Arthur was a slow thinking man, deliberate in action; he stood it as long as he possibly could. Kirkby, who rode one horse ind led two others, and therefore was exempt from burro driving, observed him with great interest. He and Brad-shaw had strayed way behind the rest of the party. of the party.

At last Arthur's resistance, patience and piety, strained to the breaking point, gave way suddenly. Primitive institucts rose to the surface and over wheimed him like a flood. He de liberately sat down on a fallen trees by the side of a trail, the burro halt-ing obediently, turned and faced him with hanging head, apparently con-scious that he merited the disappro-bation that was being heaped upon him, for from the desperate tender-foot there burst forth so amazing, se fluent, so comprehensive a torrent of At last Arthur's resistance, patience foot there burst forth so amazing, so fluent, so comprehensive a torrent of assorted profanity, that even the old past master in objuration was aston-ished and bewildered. Where did Bradshaw, mild and inoffensive, get it? His proficiency would have ap-palled his rector and amazed his fel-lew vestrymen. Not the Jackdaw of Rheims himself was so cursed as that little burro. Kirkby sat on his horse in fits of silent inughter until the tears ran down his check, the only outward and visible expression of his outward and visible expressi mirth.

Arthur only stopped when he had thoroughly emptied himself, possibly of an accumulation of years of repres

"Wall," said Kirkby, "you sure de overmatch any one I ever heard wers it comes to cursin'; wy, you could gimme cards an' spades an' beat me, an' I was thought to have some gift that-a-way in the old days."

"I didn't begin te exhaust myself." answered Bradshaw, shortly, "and what I did say didn't equal the situa-

"Gladly," said Arthur. "I would rather ride an elephant and drive a herd of them than waste another min-ute on this infernal little mule." ute on this informal little nule." The story was too good to keep, and around the camp fire that night Kirkby drawled it forth. There was a freedom and easiness of intercourse in the camp, which was natural enough. Cook, teamster, driver, host, guest, men, women, children, and I had al-most said burros, stood on the same level. They all ate and lived together. The higher up the mountain range you go, the deeper into the wilderness you plunge, the further away from the conventional you draw, the more homogeneous becomes society and the less obvious are the irrational and un-scientific distinctions of the lowinds. The guines stamp fades and the man and the woman are pure gold or base and the woman are pure gold or base metal inherently and not by any artificial standard. tificial standard. George, the cattle man, who cooked, and Pets, the horse wrangler, who se-sisted Kirkby in looking after the stock, enjoyed the episode uproarious-ly, and would fain have had the exact language repeated to them, but here Robert Maitland demurred, much te Arthur's relief, for he was thoroughly humiliated by the whole performance. It was very pleasant lounging around the camp fire and one good story easily led to another. "It was in these very mountains," story easily led to another. "It was in these very mountains," said Robert Maitland, at last, when his turn came, "that their happened one-of the strangest and most terrible ad-rentures that I ever heard of. I have pretty much forgotten the lay of the land, but I think it wasn't very far from here that there is one of the mange; nobody ever goes there; I don't suppose anybody has ever been there since. It must have been at least five years age that it all happened." (TO BE CONTINUED.)

"You ought to be," severely. "Well, maybe so, but I'm not; couldn't help it any more than I could help loving you the minute I saw you. Put yourself in my place."

"But I am not in your place, and can't put myself there. I do not wish to. If it be true, as you say, that you have grown to-care so much for me and so quickly-"

"If it be true?" came the sharp in terruption as the man bent toward her, fairly devouring her with his bold, ardent gaze. "Well, since it is true," she admin

"You find some justification for me, tt.en? "No. only a possibility, but whether

at be true or not, I do not feel that way-yet."

There was a saving grace in that last word, which gave him a little heart. He would have spoken, but she suffered no interruption, saying:

"I have been wooed before, butbecome suddenly blind," he said softly "But never in such ungentle ways."

"I suppose you have never run up regainst a real red-blooded man like me before.

rest of the party. There were curious glances and strange speculations in that little company as they saw her sitting her horse alone. A few moments before James Armstrong had passed them at a gallop, he had waved his hand as he dashed by and had smiled at them, hope giving him a certain assurance, although his confidence was although his confidence was scarcely werranted by the facts.

His demeanor was not in consonantith Enid's somewhat grave and so

As for Mrs. Maitland and the two girls and the youngster, they were Armstrong's devoted friends. They knew nothing about his past, indeed there were things in it of which Maitland himself was ignorant, and which had they been known to him might have caused him to withhold even his tentative acquiescence in the possibilities.

Most of these things were known to old Kirkby, who with masteriy skill, amusing nonchalance and amazing profanity, albeit most of it under his breath lest he shock the ladies, tooled along the four nervous, excited bronchos that drew the big supply wagon. Kirkby was Maitland's oldest and most valued friend. He had been the latter's deputy sheriff, he had been a cowboy and a lumberman, a been a cowboy and a numberman, a mighty hunter and a successful miner, and now, although he had acquired a reasonable competence, and had a nice little wife and a pleasant home in the mountain village at the entrance to the canon, he drove stage for pleas-ure rather than for profit. He had given over his daily twenty-five mile jount from Morrison to Troutdale to other hands for a short space that he might spend a little time with his old friend and the family who were all greatly attached to him on this outing. Enid Maitland, a girl of a kind that Kirkby had never seen before, had won the old man's heart during the wooks spent on the Mailiand ranch. He had grown fond of her, and he did not think that Mr. James Armstrong merited that which he evidently so overwhelmingly desired. Kirkby was overwhelmingly desired. Kirkby was well along in years, but he was quite capable of playing a man's game for all that, and he intended to play if in this instance. Nobody scanned Enid Maitland's face more closely than he, sitting humped up on the front seat of the wagon, one foot on the high break, his head such almost to the level of his

For two days since leaving the wagon, the Maitiand party with its long train of burros heavily packed, its horsemen and the steady plodders on Aot, had advanced into unexplored and almost inaccessible retreats of the mountains—into the primitive in-deed! In this delightful spot they had pitched their tents and the perma-nent camp had been made. Wood was abundant, the water at hand was as cold as ice, as clear as crystal and as soft as milk. There was pas-turage for the horses and burros on the other side of the mountain brook. CHURCH TO COMBAT IIIVE EVI 211:11:42

Our English exchanges report Len G. Broughton as baving made a diagnosis of the arrest-ed progress of the Noncontorm-int churches in Great Britain. His con-clusion is that much of the trouble is due to lack of proper emphasis apon the importance of the church. He feels that instead of spending time in the discovery and criticism of faults in church organisation and life we should devote ourselves to the strengthening of organised Christian-ity.

While the denominations in America While the denominations in America have made a lagger proportionate growth than they have done in Great Britain during the last few years, con-ditions here are by no means ideal. We are compelled to face the fact of issemed interest in the church on the part of Christian people. Only in ex-ceptional cases is there the loyalty to the church which marked the religious life of 50 years ago. This decadence may be explained, in part, by the growing devotion to pleasure; the mo-tor-car and the golf links have not a little to do with the decrease in at-tendance upon the services of the house of God. As we have increased in wealth and ability to supply our-selves with various forms of recreaselves with various forms of recrea-tion, we seem to have decreased in devotion to the great interests of the an soul.

devotion to the great interests of the human soul. Need for Return to Church. Whatever other reasons there may be, however, for the decrease in church attendance, it seems clear that the removal of emphasis from the church, as an essential factor in the work of the kingdom of God has had not a little to do with the change that has taken place. For some years, now, most of us have been busy in mak-ing it clear that salvation does not hings upon ecclesiastical relationship, and that it is possible to serve the cause of Christ without using the church as a medium of expression. We have laid stress upon the immediacy church as a medium of expression. We have laid stress upon the immediacy of relationship between the believer and his Lord, something which always needs emphasis, and have measurably neglected to set forth the necessity for oc-operative effort for the exten-sion of the kingdom of God. In our desire to promote the essential unity of all the followers of Jesus Christ, we have, perhaps, unconsciously to ourselves, conveyed the impression that the world would get along very well without Christian organization of any kind. Those of us who believe and teach that Jesus did not organize a church may have been understood as holding that the organization is un-necessary.

Must be Organized Work. It is high time to open a campaign on behalf of the church; to undertake the task of making it clear that life the task of making it clear that life must organize in some form of expre-sion. The first thing to be done is not so much to convince people of the importance of any particular form of church organization, as to put beyond question the necessity for organiza-tion. We as Baptists have our com-victions as to the proper constitution of the church. At the present time the question seems to be not so much as to the specific form which the church shall take, but whether or not we shall have a church at all. In conversation with a young man recently who had just returned from a conference of Christian young men, he said that he had been impressed by the indifference, not to say con-

Law of Love. "Love is the fulfilling of the law." The law of love is a positive prin-ciple. Neither morals nor manners can be taught by saying "Do not." The old law said, "Thou shalt not," can be taught by saying "Do not." The old law said, "Thou shalt not," but Jesus says, "Thou shalt love." Against the pharasale legalism that constructs a law of negative require-ments and calls it righteousnes, he places love, which is the soul of duty, the unfailing fountain of all benefi-cence and service. It displaces bad-ness by the "expulsive power of a new affection." Love is the fulfilling of the law." As in the tree every bit of bark, trunk, branch, twig, leaf and bloom are manifestations of the one life that builds up all its strength and beauty, so every commandment of the moral law and every virtue of the moral law and svery virtue of the moral law and strength and beauty, of this single theme all hero-tems and secrifices, all philanthropies and reforms, all saintliness and use thiness are endless variations. PLACE SAN JUM

The last two years have shown sai isfactory advances in the prices fo all local products, with the natural result that hitherto unimproved lands have been placed under cultivation, producing large quantities of tobacco, sugar cane and fruits of various kinds Production figures show the sugar crop of 1911 to have been \$46,785 tons, an increase of about 25 per cent. over the previous year. There was an out-put of 244,000,000 cigars and 406,000,-000 cigarettes, a large increase over the previous year, and for all of which satisfactory market was found.

The exportation of coffee amounted to 45,000,000 pounds, and this was an increase in production over 1910. The coffee industry in this island is one of great possibilities, and has not heretofore received the attention it de serves, but the better prices now prevailing will certainly encourage

creased production. The fruit industry is enlarging. Last year the declared value of shipments of fruits reached the figure of \$1,635, of fruits reached the site home con-817, while the value of the home consumption-which was largee ascertained.

New Capital Invested.

Much new capital is being invested in the fruit, tobacco and sugar dis tricts; virgin lands are being brough tricts; virgin under cultivation, and all these indu tries will show important advance from year to year. There is no bet ter grapefruit than the Porto Rican product, and the exportation, as well as that of pineapples, cocdanuts, toacco, coffee and sugar, will increas in volume and value as the new lands are brought under cultivation. There are many kinds of fruits produced or this island, some of which are too dell-cate to admit of shipment.

There has been a wonderful in crease in the external commerce of Porto Rico within the last few years. During the last fiscal year the external commerce of the island reached the sum of \$68,595,074, representing an increase of 40 per cent. over the exter nal trade of 1901 and approximately 21 per cent. over the year ending June 30, 1910. This trade consisted of exports valued at \$37,960,219 and im-ports at \$30,634,855, the former being larger by 25 per cent. and the latter by 15 per cent. than during the previ-

At the time of the American occancy of this island the illiteracy the population was 84 per cent. Today ong the adults-the percentage of illiteracy is still great, but of those under fifteen years, there are few who cannot read and write. Of course, in some of the remote and sparsely settled districts schools are scarce, and possibly not up to date, but, on the whole, progress has been made and is still being made and results have been satisfactory.

Official records of 1899 give the number of children enrolled in schools at that time as 25,798. There was only one schoolhouse in the island built for school purposes. Scarcely half a dosen schools were taught in public buildings, and the remainder were, as a rule, conducted in rented houses, many of them unsanitary, in-adequate in size, having no proper equipment, and often providing but scant protection from the inclemencies of the weather.

The continuation of progress is shown by an increase from 105,125 pupils enby an increase from 105,125 pupils en-rolled during the fiscal year 1909, to an enrollment of 121,453 during the last year in all public schools, being an increase of approximately 17 per cent, for the year. There are now 831 buildings used for rural schools, and 206 for schools in cities and towns, a total of 1,025 schoolhouses. As rapidly is evalu-

ous year. This indicates a greater increase in sales of home products abroad than in purchases of supplies rom without, and shows a balan trade in favor of the island to the

mount of \$7,325,616. This is a creditable showing when it is considered that agriculture is the principal basis of prosperity in the island-that a large proportion of the available lands are as yet uncultivated, and that only a feeble attempt has been made at intensive farming of the

lands now being tilled. The opportunities here for capab and energetic men who have a knowledge of and feel an interest in the growing of fruits under favorable cli matic conditions, are excellent, and are likely to prove profitable. a reasonable amount of capital and an abundance of energy there can be only a small chance of failure for the intelligent and persistent grower of fruits, tobacco and sugar cane. Frost

is unknown, and for this reason the slogan of the island is, "Winter is ai-ways summer." While this is true, it is equally as true that there is no win-

ter in the summer. The island of Porto Rico is a charm-ing winter resort. In the middle of winter may be seen. cocoa, orange, lemon, mango and almond trees, each bearing fruit. Only a short distance in other directions are fields of grape fruit and pineapples, while still farther on are great plantations of sugar cane and tobacco. Many kinds of fruits, the names of which are unknown in the names or which are unknown in the states, grow here in wild prom-alon and without cultivation. It would be possible to sustain life the year through on what is found growing an bush and vine and tree every month in the year.
