CHAPTER XXIV .-- Continue

CHAPTER XXIV—Continued.

At the end of an hour we knew that Jo's abductors had crossed the wire fence to the pasture, a miladown the shore, for a piece of the dark blue dressing from that was missing from her wardrobe was found on the wire where, evidently, it had caught. A little farther on, one of her slippers was found. But there all trace of the thieves and Jo ended.

We telephoned for Winthrop and he came immediately. He knew more about that part of the country in a minute than any of the rest of us in a year. But noontime brought nothing more, and afternoon still nothing. Then the police were notified and that brought also newspaper men and photographers. The police and the newspapers spemed the end

of our desperate hoping.

Doctor Graham came and barricaded
me in my sitting-room when the reporters began to arrive, with Celle as entinel. He said it would not do for mentinel. He said it would not do for me to see them; that I would be ill. Then the attempted jewel robbery teaked out—reporters just scent such things—embellished with my having heard suspicious noises, dramatically rushing out and saving the jewels, and plunging down the steps and ibreaking my arm as a fitting climax. As actist sketched one of the maids An artist sketched one of the maids and added a broken arm, as they couldn't snap me; and the newspapers that afternoon came out with extras

that sizzled,
But out of that episode Mr. Samuel Dick of the Evening Columbian, concocted a very plausible story of Jo's disappearance. She had heard a noise, just as I had; she had investigated, which accounted for her having on as much as she had; she had perhaps recognized the thieves, which made it necessary for them to carry her away until they had made good their escape. They had left the de-tective behind because he had not tearned who they were. Mr. Dick consectured that we would find Jo alive because if the thieves had intended to atil her they would not have taken the trouble to carry her off. The big question, of course, if we accepted this theory, was: Whom had she recognized? And that was a chance The story breathed hope in every

we could only conjecture. After all, I couldn't see that it made any difference where, for our only idea was to get her back, to know she had not been harmed, but the police and the reporters gave a great deal of thought and space to this matter. I told John of the pistol when he came once during the afternoon to say there was nothing new, but he only groaned. She had not defended herself

mothing new, but he only groaned. She had not defended herself,

When the dinner-gong sounded, Lone Cak, for once, was demoralized. John had not come back; Hap was disheveled and tired and refused to dress. He dined on coffee and sandwiches which Mrs. Hazard directed Burrows to serve in the smokingroom to anybody who wanted to eat. I was in my room, dry-eyed and hopeless, with Laura consoling me; and poor, dear Mrs. Hazard was trying to be everywhere and see everybody, while an immaculate, muchly-starched nurse from town only got in everybody's way and added to the confusion. No one would let her nurse.

body's way and added to the confusion. No one would let her nurse.

Natalie constituted herself hostess.

I don't think anybody gave a
thought to His Grace or cared how
he amused himself. He came upon
the terrace once during the afternoon, the terrace once during the afternoon, and a photographer snapped him, not for any particular reason, but just because he was a duke and was lying around loose. It was an awkward situation for a house-party. The dinner must have been a hideous affair. The women were left alone after dinner, for all the men, except. His Grace, changed to rough clothes and went to see what could be done to help. Not that they had any particular hope, but they chafed at being idle in such a crisis. The billiardroom was deserted, the card-room dark, and one by one lanterns began to fift in the direction of the ninth hole, where Jo's slipper had been found.

It was quite dark when John came,

and besides the horror of its being dark, there was no news. He knocked softly, came in, spread out his hands helplessly. He was tired and dusty, and his clothes were torn where evidently he had struggled through gaps in wire fences. When I met his clear gray eyes and the look in them I mouned. Then he gave way, too, and set down, burying his face in his hands. I knew the truth; he loved her! He had waited a long time to love, then had tumbled in pell-mell, and the woman was Jo. I obeyed an impulse and put my hand on his bowed head.

"We'll find her," I whispered brok-

"We'll find her," I whispered brokenly.

"Yes, we'll find her!" he repeated grimly.

"One of the newspapers suggests that perhaps she was abducted and is being held for ransom. In that case

there's a chance—"

He came to his feet with an excis-mation and eagerly scanned the paper gave him.

"If they are holding her—if only they will demand a ranson," he said hoarsely. "Great God! If only they will!"

"You think they have killed her?" I cried. "No. no!" he denied. "She's alive

She must be alive. Why, she's got to live, live!"

It was an awful thing to see him

Just Because He Was a Duke and Was Lying Around Loose.

question, of course, if we accepted this theory, was: Whom had she recognized? And that was a chance to display Mr. Dick's ability as a reporter. He wrote a lot and said nothing, but ended with a clever aliusion to the emerald bracelet and Winthrop. The story breathed hope in every line, but it did not find Jo; and that's all I wanted—a find her!

The thieves had gone away empty-handed. Plainly they had come back for the jewels, not knowing, of course, the jewels, not knowing, of course, the jewels, not knowing, of course, the jewels had been conveyed, to town and locked in good strong boxes in various banks. But Jo knew it, and she did not follow in the hope of getting back anytiks. Just where we have the was a Duke and Was Lying Around Loose.

Lying Around Loose.

Lying Around Loose.

By he was a Duke and Was woman on this here very road about four o'clock in the .morning, and drove 'em about two miles. He ain't sour; 'he don't remember nothing about the dressing gown, for it was dark and he didn't see it, but he spoke his words, try as he did to know that see them from being so, were tragic. I didn't know what had happened before, but I know what had happened before, but I know what had happened before, but I know what was going to happen if she ever came back alive. He fill the more her about two miles. He ain't gour o'clock in the .morning, and drove 'em about two miles. He ain't source; 'he don't remember nothing dark and he didn't see it, but he spoke his words, try as he did to know that's the mile more them from being so, were tragic.

I didn't know what had happened before, but I know what was going to happen if she ever came back alive. Bill's story was that the milkman agreed to take Charile to the stable and introduce him to Bill.

Bill's story was that be had driven a couple who had missed the last train up to a stable that boasted an automore was a stable that boasted an automore was

ould lil

"Te's an awful thing man, now, isn't it?" I dturn. "Even if he is

turn. "Even if he is a thick "Great Lord, no, when a danger; it's self-defense." "Well; that's the way I'd fe

it, and that's the way she wor Perhaps when she realized the danger it was too late." He was exasperated with me. He couldn't see that a woman's mind works differently from a man's. He came close to me after a moment, drew me into his arms and placed a very brotherly kiss upon my forehead.

"Women," he said softly, "women

"Women," he said softly, "women are angels."

The worst continued to happen. Just at that particular instant Hap banged on the door and, without waiting, suddenly opened it. It was an awfully awkward situation. There was John with me in his arms—John, who never looked twice at a woman in his life—and I practically engaged to Hap, and Hap looking as if something had exploded just under his nose. I know I went red, and I'm sure I would have done something foolish if John's beautiful self-possession had not saved us. He continued to hold me in his arms.

"Women," he remarked over my shoulder to Hap, "women are angels." Hap blinked.

"You bet they are!" he said. But he was trying to readjust himself. I went to him.

"Don't you see it's Jo, you goose, not me," I whispered. "Get him a drink; he needs it."

"Scotch or rye, John?" Hap, asked from pure force of habit."

drink: he needs it."

"Scotch or rye, John?" Hap asked from pure force of habit."

"Neither," John replied.

"Scotch," I said firmly, "Make it a long one"—I think that's the way to say it, and I illustrated as the men do—"and—and put a cherry in it!"

CHAPTER XXV

The Man at the Bridge.

The Man at the Bridge.

It's a strange thing that the first definite clue we had to Jo after the slipper and the torn place of her dressing-gown, came from Charlie Ayer. There had been no demand for ransom on the following morning and we were in despair. Mr. Partridge arrived, but he could only bring me consolation. A rumor that some strange men had been seen at the railroad station came to naught, and finally Charlie had taken the runabout and gone away, no one knew where and had not bothered. He came back late that afternoon, grimy, with two men in the car, one a milk man, the other a stable boy, and held up to the shocked 'gaze of everybody present Jo's other slipper.

While the detectives John had had sent down from town, and the local police, were following up clues that led nowhere, Charlie had stumbled upon one that seemed to be good, through pure unadultered chance, and a puncture, He had started to town, I don't think he himself knew why, and he got the puncture on a stretch of roadway that didn't boast a tree for a mile. It's a thirsty job fixing a puncture, more so when the sun isn't particular just how hot it shines,

puncture, more so when the sur n't particular just how hot it shines

and it's the first time the shoe has been off and has rusted on the rim. When Charlie finally threw the pump and the jack into the tonneau wagon. Now, I don't think Charlie ever took a drink of milk in his life but milk is better than nothing and Charlie halled the wagon. While he was drinking the milk, the milkman began reading a morning paper Charlie gazed at the back page, know ing that on the front page, just under the mikman's eyes, was a story, capped by a two-column head, to the effect that Miss Codman was still missing. He asked a perfectly silly question, with startling results:

"You don't happen to have seen a young woman, in a dark-blue dressing.

gown, looking lost, strayed or stolen? "No, sir," the milkman answered, "but Bill, the stable boy where we keep the wagons"—he jerked his head toward the interior of the wagon "says he thinks he knows about this here young woman who was stolen from Lone Oak. Are you a-looking from

"Yes," admitted Charlie, "I'm a-looking for her." The milkman whistled, then held up two fingers and dexterously ex-

ectorated between them.
"Well, Bill says he thinks he picked up them three men and the young woman on this here very road about

hey had called "goot-man ine of them, he thought, spoke in ierman. He had ceased to think of he incident until he saw the row the sawspapers had kicked up about a young woman having been, presumably, abducted from a place in that yieinity on that very moraing. He had hesitated about informing the police, because he didn't want to get mixed up bout nothing when he wasn't sure bout nothing, and didn't want to get and he couldn't be account. n't sure 'bout nothing, and didn't w nobody; and he couldn't be ed from the stable to go to court

know nobody; and he couldn't be spared from the stable to go to court bout nothing.

But when he had been promised full pay for any time lost and a guarantee of his job from the owner of the stable, he consented to accompany Charlle to Lone Oak, if the milkman would go also, and place himself and his information at the disposal of whoever wanted it. He gave Charlie a slipper which he had found in the carriage. It was Jo's.

The terrace became a newspaper office, and at the rustic tables where we usually had tes in the late afternoon reporters were frantically writing. The photographers mapped Bill and the milkman every time they leoked up.

lcoked up.
It was quite a procession that down the driveway to take Bill to the spot near the small bridge where the men and their victim had alighted. Winthrop said he knew the path and

A Passing Automobile Party Had Found an Unconscious Man Beside the Road.

the bridge—it was perhaps four mile or more below Lone Oak—and if Jo's abductors had left the carriage there abductors had left the carriage there he was certain it was not to follow the path. He knew it led to a little house and a celery farm, owned by an old German couple named Hingelmuller, simple, honest folk who certainly had no hand in an abduction or in concealing any one who had. But everybody went, fust the same, and rather eagerly when it was remembered that Bill said he thought one of the men spoke in German.

The little old couple were astonished at the intrusion, but answered questions straightforwardly, and because Winthrop, who knew them well, requested it, allowed a search of their house and premises. Absolutely no

requested it, allowed a search of their house and premises. Absolutely no trace of any person was found. The detectives and—more to the point—the newspaper men were finally convinced that the Hingelmullers knew nothing. If it had not been for the slipper, it is probable Bill's story would have been entirely discredited. The bridge spanned a small brook that ran through the Hingelmullers' celery farm on one side of the road, coming through an estate on the other helonging to a family who had been abroad for three years. This estate

abroad for three years. This estate was vacant. The house was some distance from the stream, and stood on a knoll that gave a view of the ocean. It was surrounded by weeds and overgrowth.

The detectives decided to inspect this house. A careful search, however, proved conclusively that no one had been near the place. The house was securely shuttered, its shutters was securely shuttered, its shutters and porches thick with dust. There was no indication anywhere of the weeds having been trampled. It was reasonably certain that the house neither was nor had been occupied for some time. But the police took the responsibility of tearing off a shutter and searching. Inside was the same coating of dust, no footprints tnywhere, no signs of anything having been disturbed.

The search from that time on

ing been disturbed.

The search from that time on seemed to stand still. Bill and the milkman were sent back to the stable handsomely rewarded, but the story came to naught, just as everything else had. We were no nearer finding Jo than we had been the morning of ber disappearance.

John still expected a demand for ransom, so did Mr. Partridge, who broke two pairs of glasses the morning he came, rubbing them. I had ceased to hope. I nursed my broken arm and cried every time I looked—and I looked often—at Jo's long, alim gowns hanging on their page. Just

the newspaper men and photographers to the rustic bridge on the run. A passing automobile party had found an unconscious man beside the road just at the rustic bridge. He had been shot in the throat. How he came there no one knew. He could not speak and no one could identify him. Afterward a trail of blood was found leading into the woods along the stream, but before it had been followed many things had happened.

The wounded man was taken to Dr. Graham's, where it was not thought he could live, as he was terribly exhausted from loss of blood, and he evidently had dragged himself from the place where he had been shot, to the road for assistance.

While we were digesting this new horror, John, who was pacing up and down Mrs. Hazard's sitting room, suddenly gave a short, sharp cry, and the next instant he was tearing madly—tearing madly is exactly what he was doing—down the steps and across the lawn. Coming from the direction of the beach, stumbling, weary, exhausted, was Jo!

THOUGHT HE GAVE THE SIGN

#### THOUGHT HE GAVE THE SIGN

But Old Gentleman Naturally Was In dignant at Mistake of Drug Clerk.

A well-dressed old man walked into a corner drug store the other day, mopped his brow with a handkerchief and took a seat at the sods fountain. The clerk faced him expectantly.

"I am very thirsty," he remarked as he drummed on the counter. "I don't know what I want. Well, I believe I will take a phosphate," he concluded, still drumming on the marble with his lingers. The clerk smiled, picked up a stein and went to the rear of the store. He came back, set it in front of the old man and rang up 15 cents out of the half dollar which was given him. The old man, without looking in the stein, thirstilly raised it to his lips and took a long draught. Then he quickly set the stein down, sputtered a moment and then exploded between his coughs.

"What do you mean? I never took a drop of liquor, sir, in my life. But I know it, sir, the rotten stuff, when I small it. I'll not stand for its sir. I

know it, sir, the rotten stuff, when I small it. I'll not stand for it, sir. I called for a cherry phosphate. What do you mean, sir, by giving me whisky?" And the old man stopped for breath as he glared at the amazed

"Well, I—I er—I guess I made a mistake. I thought you wanted it for medicine," stammered the clerk.
"Sir, I am a testotaler. I wouldn't touch the stuff for love nor money." And the old man marched out indig-

"Well, for the love of Mike!" ex-claimed the clerk to a man at the counter who had been served a stein in the same way, but who made no kick. "That old duffer came in here and certainly gave me the correct high sign. And he drank nearly half of it; too." The clerk laughed as he looked into the stein.—Kansas City

Care of Your Umbrella.

A soft silk wears the best in an umbrella. A steel frame is lighter to carry and admits of a closer roll. When carrying your umbrella on the street not in use, keep it furled; if hanging in your closet keep its case on. In fact, it presents a very nest appearance if the case is on when it is carried. To furl, grasp the stick in the right hand, shake out the folds, wrap them closely around the stick beginning at the lower end, and smooth as they are wrapped around the stick, then fasten with the silk band on the silk cover.

When coming in with a wet umbrella, wipe off the handle and ferrule, and furl the silk sections. If the silk gets a spot on it, remove it with a silk cloth, warm water and soap. Clean a gold or silver handle in warm soapsude, rub up a wooden handle with a very slightly oily cloth.

Up in Chemistry,
"Thomas," said the professor to a
pupil in the junior class in chemistry,
"mention an oxide."
"Leather," replied Thomas.
"What is leather an oxide of?"
asked the professor.
"An oxide of beet," answered the
bright youngster.

Logical.

Little Robbie had ben refused a second dish of ice cream. His grandma had told him that it would cause him a pain in the stomach.

While out walking with his uncle one afternoon they chanced to see a horse that had been taken sick. Robbie was informed by his uncle that the

bie was informed by his uncle that the horse had a pain in the stomach. Gazing at the helpless animal, the boy asked: "Uncle, did the horse have two plates of ice cream?"

Studying the Game. On a certain southern golf course the sand pits are famous for their difficulty. A New York man played into one of the pits, and then cursed none the less malevolently, if sliently, while he took six ineffectual atrokes, raising only clouds of sand and fairly burying the ball. Presently he was aware of an interested and incredulous darky watching him.

"Whar you see dat snake you's tryin' to kill, man?" he demanded.

Willing to Oblige.

Willing to Oblige.

"While," says a New Yorker, "the Gotham car conductor is generally rude, sometimes he is witty.

"Not long ago, on a Broadway car, a woman said to the conductor in a voice of command:

"You will let me off at 931."

"The conductor regarded her curiously for a moment, while the other passengers grinned; then, quite submissively, he answered:

"Yes, ma'am; what floor, please, ma'am."—Judge.

And Then He Left:
"I wish I was a star," the dude sighed, smiling at his own poetic fancy.
"I would rather you were a comet,

"I would rather you were a comet," she said, dreamily,
His heart beat tremulously,
"And why?" he asked, tenderly, at the same time taking her unresisting little hand in his own. "And why?" he repeated, imperiously.

"Oh." she said, with a brooding earnestness that fell freezing upon his soul, "because then you would come around only once in fifteen

years. And he took his hat and went out into the shimmering moonlight.

> BANISHED Coffee Finally Had to Go.

The way some persons cling to cor-fee, even after they know it is doing them harm, is a puzzler. But it is an

them harm, is a puzzler. But it is an easy matter to give it up for good, when Postum is properly made and used instead. A girl writes:

"Mother had been suffering with nervous headaches for seven weary years, but kept on drinking coffee.

"One day I asked her why she did not give up coffee, as a cousin of mine had done who had taken to Postum. But Mother was such a slave to coffee she thought it would be terrible to give it up.

"Finally, one day, she made the change to Postum, and quickly her headaches disappeared. One morning while she was drinking Postum so freely and with such relish, I asked for a taste.

"That started me on Postum and I

freely and with such relish, I asked for a taste.

"That started me on Postum and I now drink it more freely than I did coffee, which never comes into our house now."

Name given by Postum Co., Battle Creek, Mich. Write for booklet, "The Road to Wellvilla."

Postum comes in two forms.

Road to Wellville."

Postum comes in two forms.
Regular Postum (must be boiled.)
Instant Postum doesn't require boling, but is prepared instantly by stirring a level teaspoonful in an ordinary cup of hot water, which makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a leave samply of ereasy.

A big the people who like structured the people who like structured the people who large supply of cream.

Experiment until 'you know the amount that pleases your palate and have it served that way in the future.

There's a Reason' for Postum.

Engin.—Fifty entries have been resided for the first annual motorcycle road race here on July 6. Chairman Robert Hill is confident that this number will be increased to 100.—This rige entry list was a surprise, man of the leading riders of the professional class being included.

tantly filled near Moccasin while lischarge of his duties as a freight keman on the C. & H. I. railroad. hes H. Cherry; Bartonville.

Murphysboro.—Two of seven men accused of attacking Edith Gray, nineteen years old, several nights ago are in the Jackson county jall, and officers are searching for the others. Mike Williams of De Soto, twenty-seven years old, and Corum Beavers, twenty-three, of Cambria are under arrest. Heavers admits that he took the girl for a buggy ride and that he and four of the others attacked her, but denies that she resisted. The girl says each of the seven attacked her, the others holding her. She is a maid in the home of Mr. and Mrs. Peter McKinney, about thirteen miles each of Murphysboro.

Mount Vernon.—Mrs. Charles Beal and two children, while crossing the Southern railway at Dix, met with an accident that cost the life of a two-year-old son and probably fatally injured Mrs. Beal and the daughter. The horse became trightened at a train and crossed the tracks just as the passenger train did. The victims were thrown about forty feet. They were hurried to a Mount Vernon hospital. The little girl's arm was sut off.

Quincy.—A man believed to be J. W. Benning of Gregory, Mo., shot and killed Theodore Pogue and then killed himself at West Quincy. Mo. Pogue was a bachelor about seventy-five years of age, a soldier in the Confederate army and owned 1,000 acres of valuable Missouri bottom land. Benning worked for Pogue a year ago and then threatened to kill his employer.

Aurora.—Geneva women will be the first in the state of Illinois to efercise their suffrage rights. They will vote on July 12 on a Geneva school proposal for free kindergartens. Members of the school board opposing the free kindergarten feature in Geneva admitted that the vote of the women if it can be brought out will give the proposition a majority.

Springfield.—The tenth Springfield.—The tenth annual encampment of the department of Illinois. United Spanish War Veterans, adopted resolutions urging the national encampment to extend to King Alfonso of Spain an invitation to visit the United States. Fivehundred veterans are in attendance and are quartered at Camp Lincoln.

Harrisburg.—Allen H. Sykes, loco-motive engineer, was badly scalded about the face and eyes by the explo-sion of a steam gauge of his engine.

Springfield.—Henry Worth, aged twenty-eight, a farmer near Williams-ville, died of tetanus at St. John's hos-

Joliet. Posses are searching the nearby woods as a result of a story told Sheriff Stevenson by two small boys, that they had seen two former convicts and a third man dragging a fifteen-year-old girl through the woods. The two former convicts are residents of this city.

Bloomington.—Rev. Mones Ropp, ploneer clergyman of the Menno-alte church and widely known in that denomination, met death by a fall from a cherry tree at his home in Groveland. He was sixty-four years old and had occupied numerous pas torates in Illinois.

Joliet.—Fred Reitz, a motorcyclist went over a stone fence, down a forty-foot embankment, into a quar-ry partly filled with water and came out alive. Most of his benes are bro-ken. A passing autoist rescued him.

Sycamore.—Miss Emma Peterson, a native of Blekeng, Sweden, has , the distinction of taking out the first naturalization papers in De Kalb count to become an American citizen sine sing of the suffrage bill.

Springfield. — That prisoners in county jails in Illinois ought to be under the direct control, administration and supervision of the state, is the belief of A. L. Bowen, executive secretary of the Illinois State Charities commission, who jed the first discussion in the fourth annual conference of the American Association of Officials of Charity and Correction. Mr. Bowen discusses county jails and his state system of control under the caption, "The Administration of Jails and Houses of Correction in Illinois." Springfield. - That priso

net, Apostle, Preacher an ligious Teacher May All

to realize that this less place; but that his ter, must feel the need that is not supply world. The lies youder, must feel the need of something that is not supplied by this material world. There is a longing desire for something not made, nor created, and therefore past finding out by creatures of time. The spirit of the inner man cries out for a something of, and belonging to, aternity, that an immortal soul, on the tossing, changeful see of human life, may be able to rest upon.

changeful sea of human life, may be able to rest upon.

The apostle claims to have found this soul desideratum, and prays and labors that others may also find it. He would "make all men see what is the fellowship of the mystery, which from the beginning of the world hath been hid in God, who created all things by Jesus Christ; to the intent that now unto the principalities and powers in heavenly places might be known by the church the manifold wisdom of God."

Such fellowship comes by that faith which honors man and ascribes glory to the Creator, and furnishes the believer with mental power and facilities to scale the heights, and sound the depths, and gain a vision of the "length and breadth of the love of Christ, which passeth knowledge."

Strange paradox! To make known the universable for the total the content of the

Christ, which passeth knowledge."

Strange paradox! To make known the unknowable! Such is the mission of the spirit through men, their words, and their deeds: The ideal work of prophet, apostle, preacher and religious teacher, is to translate the message of God's love through Christ to a world lost and ruined without it, in a life and language that all men may understand, and he "convinced of sin, of righteousness and of judgment."

"He that hath an ear" may "hear what the spirit saith unto the churches."

God is Love.

God le Love

No man can translate the message of divine love until he has learned the divine hatred of sin. Both the love and the hate are revealed in the sacred history of God's "wonderful works among the children of men."

Judgment and mercy each has its message; one complements the other, and should be studied together. When each is considered in its proper relation to the other, there are no contradictions and nothing incredible, the "paradoxes of divine love" blend as light and shade in the perfecting of a ploture,

"God is love," and all his doing "God is love," and all his doings among the children of men are acts of mercy and for the eternal good of the greater number. When this is seen by the eye of faith, the heart yearns and the mouth gives utterance: "O that men would therefore praise the Lord for his goodness, and for his wonderful works among the children of men."

For a true interpretation of the di-

ful works among the children of men."

For a true interpretation of the divine revelation, and for a proper translation of the message of God's love to a lost world, there must be a deep, earnest, sympathetic study of the scriptures, under the guidance of the holy spirit, who inspired it. Then will be seen the unity of a purpose running through the whole Bible. That purpose is expressed with epitomized brevity in Ephesians iii, 19, "To know the love of Christ, which passath

brevity in Ephesians fil, 19, "To know the love of Christ, which passeth knowledge, that ye might be filled with all the fulness of God."

We can go back of all beginning, and say, with the inspired Psalmist:
"O give thanks unto the Lord, for he is good; for his mercy endureth for-ever." "In wisdom he made the worlds." He made great lights—"the sun to rule by day, the moon and stars to rule by night." In all this men are ready to believe in the goodness and mercy of the Almighty. But the same inspired truth declares that "He slew inspired truth declares that "He slew great kings and famous kings, for his mercy endureth forever." We must be in harmony with the whole truth, believing that God is good and merciful when he destroys as well as when he creates. The vessel, stamped with the image of its maker, is marred at the potter's wheel; it must be broken and made over again.

Purposes in Mis Providences.

and made over again,
Purposes in Mis Providences.
"Hard sayings," "Dark sentences."
"Who can stand it?" "An austere man—I was afraid," "My punishment is greater than I can bear."—These are the unwise who criticise the unfinished work of the all-loving father.
Pain is often but the pressure of the father's hand, pressing his wayward child closer to himself. The inactivity of months on a bed of sickness has saved many a soul that would have lost itself in the swirl of gaiety and pleasure. For some, poverty and and pleasure. For some, poverty and toil are needed to save them from be-coming ingrates to infinite love, which supplies their need. Labor gives by far a more satisfying and fuller life than idleness.

There are many who are blind to the lofty purposes of God in his provi-dences, which, to mortal sense, seem hard, dark and terrible. The cause is not hard to find—"men" still "love darkness rather than light." "None so blind as he who will not see."

It is said there is always an anti-dots to be found growing close to a poison. This is certainly so in life. If we looked about us with intent, we should find examples everywhere.— Barah Grand.

Childs, who fits them out forthwith.

It's easy pleasant work and it saves It's easy, pleasant work, and it saves Childs a lot of trouble over measure ments and so forth."

# THE BEST TREATMENT FOR ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura Ointment into the parting with a bit of soft fiannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura Ointment on the scalp skin rather than on the hair. It is well to misce a light the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticura Soap and hot water. Shampoos alone ed as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L. Boston." Adv.

Bound to Bargain.

# Ashbrook - Steele - Shuman PARA SIL

Location of Court House with reference to Park Site plat.

### **Best Location**

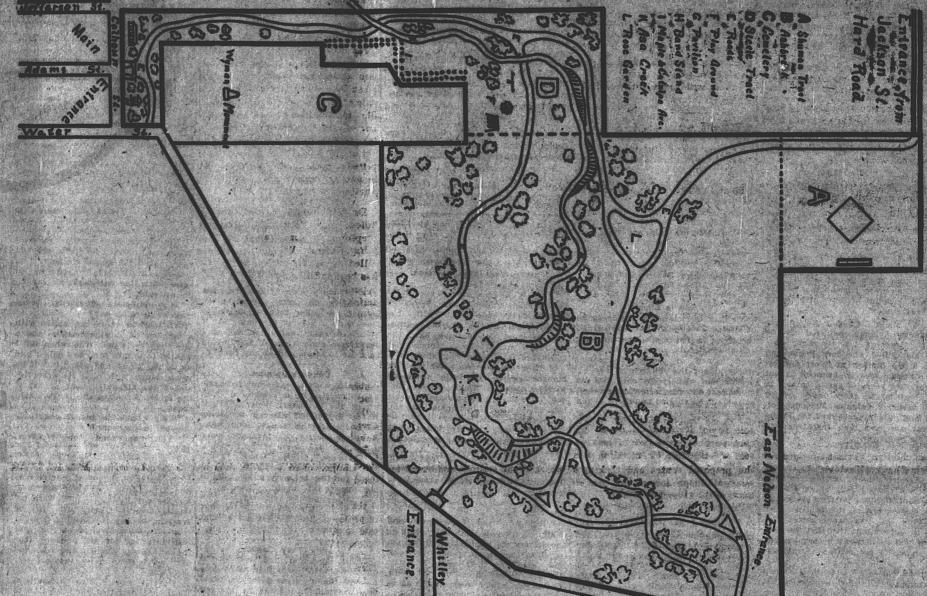

Only four Blocks from Court House on principal street. Within Easy walking distance from anypart of the city. Good Side walks already built leading directly to it.

## Best Natural Site

Well shaded, well watered, naturally picturesque and beautiful, easily improved and maintained, plenty of Trees and Verdure.

#### Least Cost

Total cost of entire 46 acres, \$7000, or \$152 per acre, as compared with from \$310 to \$400 per acre asked for the other sites,

NORTH

## Location

This tract is made up of three parts: The Ashbrook land, consisting of 35 1-2 acres; the Steele land, consisting of 8 acres; and the Shuman land, consisting of 3 acres; all connected together making one body of land of about 46 acres.

The Steele tract lies along Calhoun street, extending north and south between Water street and Jefferson street, and from there runs east to the line of the Harshman tract, and then south where it joins the Ashbrook tract.

The Shuman tract joins the Ashbrook tract at the northeast corner and extends east and then north to the hard road.

The Ashbrook tract joins the cemetery at its southeast corner, runs east to the Frank Fleming farm, south to the East Nelson road, running east from the Tile Works, and also the road branching south toward Whitley township. On the west it joins a small three cornered tract of about six acres, owned by B. W. Patterson, but not included in his park offer. If this six acres should be obtained by the city, an entrance could be made at Water street, directly into the park.

## How to Reach It

The main entrance to this park would be at Calhoun street, either from Water, Adams or Jefferson street. It is just four blocks east of the court house, on Jefferson street. Good sidewalks run directly to these three entrances, and are connected with side walks running to all parts of the city.

Entrances for carriages can be made from Cal-

houn street; from the hard road over the Shuman tract; from the East Nelson road on the southeast and the Whitley road on the southwest. All good, well traveled public roads, leading to all parts of the county.

### Cost

This is by far the cheapest of all the sites offered. The Ashbrook thirty-five and one-half acres will cost \$7,000.00; the Steele eight acres will cost \$1.00 and the Shuman three acres will cost \$1.00. The Steele and Shuman tracts are really gifts. So that the entire forty-six acres will cost but \$7,000.00, or a fraction over \$152 per acre, less than one-half the price asked for any other tract.

The Wyman Park fund amounts to about \$31,000 so that if this site is chosen, there would be \$23,000 or \$24,000 that could be used to improve and beautify the park. Isn't it better that this large sum be used for the benefit of the public, for whom it was intended by the donor, rather than for the benefit of any private individual?

## An Ideal Park

This entire tract is admirably suited for park purposes; there is no waste land, every foot of it can be used. There is an abundance of shade, both from forest trees and from trees that have been planted. Asa's creek runs through it, affording running water and a natural basin, where a large lake could easily be made. The land is partly rolling, affording many beautiful views. There is ample level ground for all athletic sports and plenty of play ground for children. It is set in blue grass and can be opened at once for public use.

## The Cemetery

The most frequent objection heard against this site is that the cemetery is a part of it. This is a wrong idea. The cemetery forms no part of the park and not a foot of ground within the bounds of the cemetery is included in this offer. It is true that parts of the park site adjoin the cemetery, but the two are separate and distinct from each other. The cemetery can be entered without passing through any part of the park and the park can be entered without passing into the cemetery.

Have you ever been over this tract? Do you know how easily it can be reached, and how beautiful it is, when you are there? "The proof of the pudding is in the eating." Mothers, take the children and walk out to the different sites. Would you rather walk 10 or 12 blocks these hot days, or 4?

## To the Voters, Both Men and Women

The selection of the park site is a most important matter. When once done, it cannot be changed, but must remain for all time. The thing to consider is not who has the tract for sale, but whether it is most suitable for a Public Park. Individuals should be forgotten, and the park only considered. Before voting for any park site, visit each one of them, go all over them, look at them from every point of view. Compare their advantages and disadvantages with each other. Consider the important things; location, natural beauty, accessibility, present cost and cost of future maintenance; make up your mind fully on all these points, and vote for the site that is best suited for the purpose, and will best carry out the wishes of Mr. Wyman.

## TITUS PARK STEE

embracing practically! the same tract of land which have not been so fully discussed as some of the other ters. Of course most of the voters we understood that there is a Titus park site offer and they have under-spect approximately where it is loated and the price that it is offered for. What they have not understood is that Mr. Titus has offered two sets of plans and but very little has been said of the technicalities and finer

Roger Huff testified that Mr. VanGundy told him that Nim was in trouble with a girl. That was just as the 5;30 train was going through.

When I got home at 6 p. m. Nim was on the porch with some whiskey and a shot gun. Mother was there crying, trying to get the gun from him. I tried to keep him from going to town and got the gun once. He said he wasn't going to town, just then: John Taylor came past, Nim haloced to him, I pinched my father saying keep Nim, while I go talk to John Taylor. We, Taylor and I tried to keep him at home. His mother smatched the whiskey but he The first plan that Mr. Titus has offered is practically as follows:

Land beginning at point on North Worth street (paved) about 100 feet city for any puspose it may see fit, with fee absolute and no restrictions.

The 40 acres described in the above tract is offered the city at \$450 per

The second offer he has made is a tract beginning at the southeast corner of Main and Hunter streets and running thence north 420 feet, thence west 540 feet, thence north 1934 feet thence east 1120 feet thence south 2354 feet to north line of J. B.
Titus' home, thence west 240 feet to
place of beginning. This land is offered at \$350 per acre.

Both tracts embrace practically First and Second wards and both have a stream running across them in a suitable location for a lake.

The first tract mentioned here is in the shape of an oblong and with the exception of the five acres donated to the city, it is all between Worth and Main streets making it three blocks wide and its greatest dimensions extending north and south. The five acres to be donated are located on the west side of Main street near the south end of the pro-

The second offer is in the general shape of a square bounded on the east by Worth street and on the west by Hamilton extended, both of which are good paved streets, ee entrances are planned on Worth street and this tract is reached by several of the best streets in the city, including Hamilton, Van Buren, Main and Worth, Adv, Adv.

GOVERNOR, MADE DEFENDANT IN BREACH OF PROMISE AC-TION, MAKES DENIAL

#### IODEL TELLS OF CONTRACT

n Says New York Executive Wanted Engagement Kept Sporet and Then Married Another— Tells of Alleged Contract.

New York.—Gov. Sulzer, on his way to Gettysburg, was asked about the breach of promise suit brought against him by Mignon Hopkins, he replied: "It is rot—another move by my enemies to discredit me."

Clock Model Sues Governor.

Philadelphia.—Miss Mignon Hopkins, a clock model, has brought suit against William Sulzer of New York for breach of promise for failure to marry her as he had bromised, according to a contract made between them. Miss Hopkins has retained Theodore Cayler Patterson, an attorney of standing, to represent her, and he, swore to the affidavit against Sulzer. Cloak Model Sucs C

According to the affidavit filed in court No. 5 to which Mr. Patterson took eath. Miss Hopkins declares she has been seriously distressed and affected on account of a broken contract with William Sulser of New York. She states that she became entaged to him on September 15, 1903, and that on that date he asked her to become his wife and keep it secret until he could marry her.

She avers that she complied with his request and lived with him from his request and lived with him from time to time and for a period of sev-eral years and accompanied him on trips and lived with him in various hotels, and that he introduced her to his triends as his wife.

Says Defendant is Governor.

They were continuously together, she avers, until November 7, 1907, when she went to Boston to nurse a sick sister.

Miss Hopkins then declares that

she was much distressed to find that on January 8, 1909, William Sulzer was married in Atlantic City to an-other woman, and that since that time she has not heard from him.

"Is the William Sulzer mentioned in your suit and the William Sulzer, governor of New York, one and the same man?" Miss Hopkins was asked. "Why, of course, he is," she re-

"Wasn't this case all settled at on wasn't this case all settled at one time?" was the next question asked Miss Hopkins. "Didn't you bring suit against Mr. Sulzer about six months after his marriage, and wasn't the case amicably settled?"

This question seemed to surprise Miss Hopkins, and she refused to make any reply to it.

"Wasn't the case brought in the New York courts while you still had

your residence in Brooklyn?"

Miss Höpkins remained silent.

## Washington Law Drastic.

Washington.—The Jones-Works ex-cise law, the most drastic liquor law ever designed for the District of Columbia, is now in effect. Under its terms not a drop of intoxicating liquor of any kind can be purchased in the national capital between the hours of 10 o'clock in the evening and 7 o'clock in the morning, or on Sun-

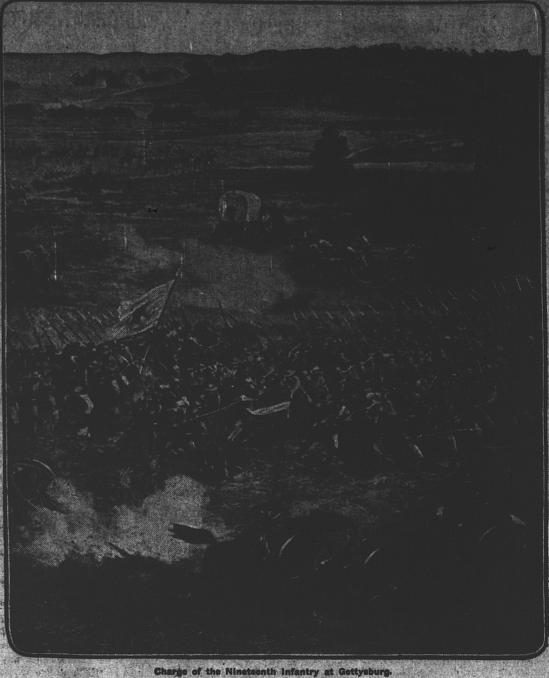

Railroads Give Up Fight.
Chicago.—The American Railroad Employes' and Investors' association which was formed for the purpose of trying to check legislation hostile to railroads and also to bring about a better understanding between the railroads and their employes, has closed its offices in this city and ended its existence.

\$100,000 Month's Interest to U.S. Washington, D. C.—National hanks will pay about \$100,000 into the United States treasury as interest for one month on deposits of the federal government. This is the first step in carrying out Secretary McAdoo's cent order charging interest on government deposits at the rate of 2 per cent per annum.

40 Women End Their Lives Mexico City.—Forty women residents, most of them of the better class, have ended their lives in the city of Durango since its occupation last week by the rebels, after a long siege. The women became desperate as the result of their treatment by the victorious rehele

Four Indiana Sisters Drowned. Elkhart, Ind.—Alice, 16; Clara, 14; Ida, 13, and Grace, 8, daughters of Mr. and Mrs. John Schwyn, residing five miles east of Elkhart, were drowned while bathing in St. Joseph river, three miles east of Elkhart.

McClaughry's Successor Sworn.

Morgan, a newspaper editor of Ottawa, Kan., has taken the oath of office as warden of the federal penitentiary here, succeeding Maj. RopertW. McClaughry, resigned.

Story of the Famous Battle of Gettysburg, Fought Fifty Years Ago.

## LOSS OF LIFE WAS FEARFU

Both Armice Struggled Bravely, and the Confederates Were Conquered. Only After Three Days of Bloody Conflict.

Fifty years ago nearly 165,000 Americans met on the field of Gettysburg, and for three days fought one of the greatest battles of history. Gen. Robert E. Lee's army of some 84,000 southerners which had invaded the north was met there and overcome by about 80,000 Federal troops under the command of Gen. George G. Meade, and the tide of fortune in the Civil war, which up to then had often favored the south, was turned. Thereafter the Confederacy was on the december of the confederacy was on the december of the confederacy was considerated to the confederacy was considered to the conf

Though the south lost the battle there was nothing to choose between their bravery in the conflict and that of the northerners. Both armies fought with valor and stubbornness, and the losses in dead and wounded

Commanding the corps of the Union army were Generals John F. Reynolds, W. S. Hancock, Daniel F. Sickles, George Sykes, John Sedgwick, O. O. Howard and H. W. Slocum. Lee's corps commanders were Generals James Longstreet, Richard S. Ewell and A. P. Hill.

Reynolds, sent ahead to feel out the enemy, arrived at Gettysburg the evening of June 31, and in the fighting which began early the next day, was killed. Gen. Abner Doubleday, who succeeded him, was forced back to succeeded him, was forced back to Seminary Ridge, after hard fighting, and then had to abandon that posi-tion, so that the first day of the battle was in reality a Confederate vic-tory. That night Meade ordered the entire Union army to Gettysburg, and by next morning the two armies were confronting each other along a ten-mile line of battle.

Lee ordered Longstreet to turn the left fiank of the Federal army by tak-ing Little Round Top, but Sickles defended that position so stubbornly that Longstreet's movement was checked, Peach Orchard, Cemetery Hill, Culp's Hill and The Devil's Den

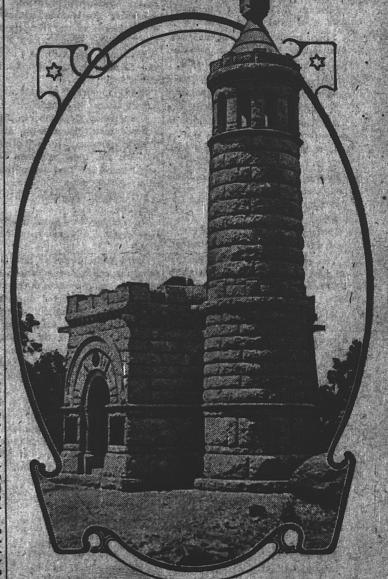

and Little Round Top was saved to the Federals by the arrival of a bris-ade under General Weed.

The third day opened with a won-derful artillery duel, the greatest of the entire war, and them came Pict-ett's charge, which has gone into his-tory as one of the most heroic as-saults of all time. The men of Pickett's division formed in brigade columns, move detendily across open fields which were swept by such a storm of shrapnel and rifile fire as had

never before been seen, and though they fell like grain before the reapers, home of them reaching the Union lines, only to be speedily overcome.

That ended the mighty battle, and there was nothing left for Lee to do but get back into Virginia.

Gettysburg cost the Union army the lives of a number of generals, and the loss of nearly 24,000 men. On the Confederate side five generals were killed and nearly 30,000 men killed or wounded.

ne woman suffrage bill. aders and others who had

Suffragiat leaders and others who had part in its passage were present.

Moving pictures were taken of the scene. Royalities from their sale will go toward a \$25,000 fund which the women are raising to make an educational campaign in Illinois. The women are assured of more than \$1,000 from the pictures.

Governor Dunne need four silver-

from the pictures.

Governor Dunne used four silvermounted pens in signing the bill. Each
of the four women who composed the
suffrage lobby, Mrs. Grace Wilhur
Trout, Mrs. Sherman M. Booth, Mrs.
Antoinette Funk and Mrs. Medill MoCormick, will have one of the pens
as a souvenir of the event. The governor changed pens after each letter
of his name and thus used each pen
several times.

The bill was signed in the gover-

deveral times.

The bill was signed in the governor's office in the state house. It was a gala occasion. The women carried large bouquets of flowers which made the rooms fragrant with their per-

Aume.

Mrs. Dunne accompanied the governor to the statehouse and stood behind him while he signed the bill. At the end of the table stood Mrs. Trout. Mrs. Booth and Mrs. Funk, together with Speaker William McKinley, B. H. McCann, clerk of the house; William L. Sullivan, the good Wrong a private acceptance and Freed W. nor's private secretary, and Fred W. Rinck and W. H. Richards, the senate ngrossing clerks who prepared the micial copy of the bill.

Miss Margaret Haley of the Chi-cago Teachers' federation sat opposite Governor Dunne. Miss Haley formed one of the group at the request of the governor, who said the aid given him while mayor of Chicago by Chicago school teachers had made him a con-

went to the cause of women's suffrage.
When the stage was set the govermor's secretary brought the bill. The
governor then slowly signed the bill,
with the women eagerly watching the

"Governor Dunne, in signing this bill you have won the everlasting gratitude of the women of Illinois," said Mrs. Trout. "I feel sure they will prove worthy of the trust and confidence you have inspired. May the divine power that guides us all keep, direct and bless you and every one of us forever."

"I wish to assures you that in sign.

ORE THAN SCORE RESCUED BY SATHERS IN MERRIMAG AT LAWRENCE, MASS.

#### LADS DROPPED INTO RIVER

Wooden Walk Collapses When They Stamp Feet—Four Sisters Periah In Indiana Stream—Parents See Their Two Sons Sink

Lawrence.—A narrow wooden walk leading over 15 feet of water to the municipal bathhouse in the Merrimac river gave way under the stamping feet of a crowd of impatient boys and at least 12 of the little fellows were drowned. There may be more bodies in the stream. The boys, ranging from \$2 to 15 years were waiting for Williams of in the stream. The boys, ranging from 3 to 15 years, were waiting for William B. Blythe, the bathhouse keeper, to open the door. No one knows how many there were in the party, but it is thought that 40 is a conservative estimate. The boys were jumping up and down as they shouted for Blythe to open the door, when the supports sank the walk extension dropped like a trap door, rolling the lads into the river.

Boats and grappling irons were obtained, and the river bed was dragged.
Twelve bodies have been recovered.

Four Sisters Drown

Elkhart, Ind.—Alice, 16; Clara, 14; Ida, 13, and Grace, 8, daughters of Mr. and Mrs. John Schwyn, residing five miles east of Elkhart, were drowned while bathing in St. Joseph river, three miles east of Elkhart. The bodies were discovered by Clarence of the bodies were discovered by Clarence of the property of the second Hugh Estarday. and Hugh Exterday, young sons of George Exterday, on whose farm the girls had come to pick cherries.

Parente-See Children Drown

Parents See Children Drown.

Terre Haute, Ind.—Harry and Clyde Bowers, brothers, aged 11 and 9, were drowned in the Wabash river while their parents, both deaf mutes, frantically gesticulated for help from people along the shore. Both father and mother plunged into the river. The woman was nearly drowned and it is feared she will die from the shock.

Maiaria increases in Philippines.
Washington.—In the face of advanced medical precautions, the number of cases of maiaria among the troops in the Philippines more than doubled in the last year. At present 171 men in every 1,000 have the maiady, the sufferers being mostly among the soldiers of the regular army.

Blinders for Men, Prophesy.

Boston.—"It is going to be a choice between blinders for the men or vells for the women," said Rev. Fred E. Heath, pastor of the Warren Baptist Hearn, pastor of the warren Baptist church here, discussing the latest dresses worn by women. He asserted that the new styles in dress cause dis-gust to the "right-minded."

Bryan Names Department Ald.

nual celebration of the signing of the Decla-

signing of the Declaration of Independence this year will cost 200 lives. No more serious results, as far as casualties are concerned, could expected from a considerable batFor though the number of dead be relatively small, the list of punded will be very large. Probably 000 or more will be seriously hurt one way or another by explosives, these more than 100 will lose one both legs. Nearly 100 boys will cave injuries in the right hand from pistols, from which they will die a lingering and painful manner from citiaw.

the palm of the human han re is a plexus, or network of nerve en a toy pistel explodes, or shoo backward, as it is always liable to do, the wound inflicted is usually in the paim; there is laceration of the network of nerves aforesaid, and lockiaw is likely to follow.

The estimate of 20,000 wounded of mercury.
Years ago, as most people will be able to recall, there was a dreadful Fourth of July accident in Philadel-

oes not include the slight-hurt, who will make a much longer list. But taking the figures given, and leaving out of consideration all destruction of property by fire, it would seem that the nation's bill for its Fourth of July celebration is a pretty heavy one.

celebration is a pretty heavy one.

The property loss by fires due to excless use of explosives, will amount to at least \$500,000. Possibly it may run up into the millions, but the estimate here given represents merely an average Fourth of July. People will throw firecrackers into places where they are likely to start conflagration, and skyrockets, which excite such enthusiasm when they go up, have a deplorable way of coming down upon roofs and making mischlef.

Then, too, many of the modern kind of fireworks, such as the bombs, which rise 1,000 feet in the air and explode. Hiberating beautiful showers of varicolored stars, contain considerable

liberating beautiful showers of varicolored stars, contain considerable quantities of high explosives, and are proportionately dangerous. Only last Fourth of July, it will be remembered, many people were killed and wounded by the accidental setting off of a quantity of such bombs which had been put in readiness for a fireworks exhibition.

hibition.

Some, probably a dozen, shops that contain large stocks of fireworks will be destroyed by the accidental setting off of the combustibles, incidentally endangering much property in their neighborhood. Few finer and more striking exhibitions in the fireworks line are given on the glorious Fourth than are furnished by such impromptudisplays, but they cost a great deal of money.

If grown people are satisfied to risk explosives contained in many kinds of fireworks, it is nobody's business but theirs. Unfortunately, some of the in-struments of celebration placed in the hands of children are loaded with small quantities of similar deadly materials. Naturally, the little ones like best the torpedoes which make the loudest torpedoes which make the loudest noise, and those are the ones that con-tain fulminate of mercury (an exceed-ingly dangerous substance) and some-

times even dynamite.

Just why the police do not take the necessary pains to suppress the sale of such torpedoes nobody can say. To of-fer them for sale is against the law, but ordi fly the regulation is not enforced, and little Bobby or Johnny walks innocently about the streets on the Fourth of July with enough dynamite in his jacket pocket to injure him seriously, or possibly kill him, if a mis-chance should set off his package of torpeddes all at once,

torpedges all at once,
Parents are not acquainted sufficiently with the danger that lurks in some ly with the danger that firsts in some kinds of torpedoes. If they were at all aware of it, accidents of the kind would be less frequent, and public opinion would bring about the propar-enforcement of the law which forbids the sale of these bombs—for bombs they are, though only small ones. Of astrous results. Indeed, the list of killed and wounded would be enor-mously diminished if parents would take the necessary pains to keep toy pistols, raw gunpowder, and giant fire-crackers out of the hands of their chil-dren, reserving to themselves also the business of setting off the fireworks in the evening. business of setting off the fireworks in the evening.

If we must have a Fourth of July celebration, let us try to be more sensible about it, and so cut down the number of slain and injured, as well as the serious property loss of bygone Fourth.

Guns and pistols are not suitable

Guns and pistols are not suitable playthings for children.

The little boy who picks up his toy gun and playfully says. "I'll shoot you." should be taught that even in play he must not point a wespon at another, for it is in just such ways that respect for life is lessened and involuntary manslaughter is the result.

Thoughtful parents will not give children such toys. It has been the custom for many years to celebrate the Fourth of July with noise and freworks. harmless; but some of the small ones, round and very hard, about the size of a marble, which go off with a report like a pistol-shot, are in the deadly class, containing as they do fulminate

phia. A large quantity of torpedoes, of a kind whose sale had been expressly prohibited by local ordinance, was exposed on a street stand, kept by an Italian, on one of the busiest downan Italian, on one of the busiest flowntown thoroughtares. Exactly what
caused it nobody ever knew, but apparently a stone thrown by a boy struck
the torpedoes, and all of them went off
together. They were loaded with dynamite, and the explosion was tremendous. Seven children were tilled, while
a number of others were inore or less
seriously hurt.

A great many of the Fourth of July
accidents are caused by children's mischief. A boy will throw a firecracker
at a girl, for example, burning her
seriously. Then there is the deadly
oracker that has failed to explode, and

from for many years to celebrate the Fourth of July with noise and fraworks.

Children did not originate the practice. It is the method shown by their parents, and so each year we have a slaughter of the innocents equal in number to the loss in a great battle, and, as in the days of old, when himan sacrifices were laid on the altar, we sacrifice to the nation's glory hundreds of its embryo citizens.

The man who takes his life in his hands and goes to battle for his country's protection gives his life to a worthy cause, but the children whose lives are sacrificed to celebrate the nation's birth have given their lives to little purpose.

Is it not time that parents should think of this subject, and see if they cannot devise other methods of celebrating our national holiday that will not entail such sacrifices of life and property? Is it not time that in an ago when peace and arbitration are in the air, and when the great nations of the earth are steadily advancing toward the day when disputes and differences will be settled by arbitration that we will be settled by arbitration that we at a girl, for example, burning her seriously. Then there is the deadly cracker that has failed to explode, and which must be examined and relighted, the consequence being an unexpected report and possibly the loss of an eye. The large crackers, some of which are a foot or more in length, are really dangerous bombs, and should not be put in childish hands. No prudent father would allow his boy to use a toy cannon, with loose gunpowder, which is likely to become ignited with dis-

#### JUDGED OTHERS BY HIMSELF

Small, Persistent Jibber Imagine ored Man Had Been Punish In the Customary Way.

Arkansas traversed by the St. Paul branch of the St. Louis & San Fran-eisco railroad. Accordingly many children grow to the age when they attend high school before they see a

Little Johnny had been a resident of Combs, Ark., all his life. He was an adept at fibbing and to break him an adept at fibbing and to break him of the habit his mother painted a little spot on his hand with ink every time she caught him fibbing. The result was that some days he would have several black spots on his hands.

A new railroad is building from Combe south, and some of the grading contractors imported negroes to drive teams. One day Johnnie ran to his mother very excitedly, and excitained:

"Mamma, I have seen the biggest liar in the world. His mother must have used a whole bottle of ink on

him! Come and see him!"

The mother went to the door and Johnny pointed to a negro driving by with a team of supplies.—Kansas City Star.

Call Me Early.

"Why do you call that drummer the Queen of May?"

"Because his leaves such early calls," explained the hotel cierk.

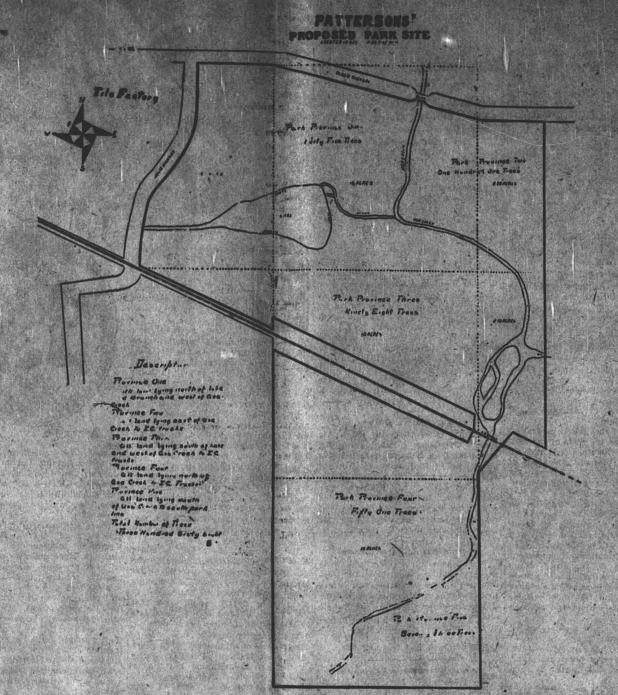

A vote for the Patterson park site is a vote for a park that can be opened tomorrow.

A vote for the Patterson park site is a vote for a park ou can enjoy in your life time.

Remember when you vote for the Graveyard park site (Ashbrook-Steele-Shuman) that you are voting to relieve W. A. Stéele from the care of Greenhill Cemetery, and putting that burden upon the City of Sullivan.

The voter should remember that no part of the historic Freeland Grove is included in the Titus park site.

The Patterson park site can be improved and beautified for less money than any other site offered.

W. A. Steele has not withdrawn or modified his original proposition made to the City Council, May 19, 1913, which says among other things, in describing the land included in his proposition: The above premises include all of what is known as Greenhill Cemetery.

The whole page ad in the county papers denies this. Let the voter examine the original proposition on file with the city clerk. This proposition should be posted in polling place where all can see it.

The Patterson park site proposition carries with it 2,339 feet of concrete side walk, built to the standard required by the city.

## OLD FAIR GROUND

To the voters of the city of Sullivan: In discussing the above location ests, more than a voter. I will not abundance of pure water. be influenced by a monetary considation which I might obtain should the voters desire to cast their ballot through it, is what would be obtained

pecially when picnickers or delegafrom the o'd fair ground,

The C & E I and Wabash runs see the park from the trains. The state law provides that the city council has the power to compel a railroad to construct and maintain viaducts or tunnels at any street crossing or alley at the railroad's expense.

There is but a slight diference in the distance between the old fair ground and the Titus tract from the center of population, which is one block west of the north side school house and not the court house square.

It is the best known spot in this county, and many visitors would come for Old Time's Sake, and talk over old times and old days when battles waxed warm between each one's favorite speed steed, or best type of colt, cow or drafter And the locating of the Wyman park at the old fair ground will be the preservation of the one land mark for public gatherings of Moultrie county.

A park should be located above a city so that no surface water will drain onto it. And in the event that a lake is built it should not be contaminated by surface water running into it. The Old Fair Ground is one within its boundaries. By turning lad entitled "In the Shade of the Old all the tile and conserving water fall on the 40 acres and delivering it through a tile, a take of pure water. Freeland Grove is included in 1

A dam across Asa Creek will make a lake with the sewerage flowing for the old fair ground to be the Wy- in the Ashbrook-Steele-Shuman proposed site,

The old fair ground is situated on | Then the sewer if taken entirely a main road to Sullivan, making it through the Patterson proposed park convenient for the people from the site and emptied below it, will cost tions coming to our town can come When a natural drain is dammed, it the building of a lake on a natural sewer is not what it seems to be at pure water can be maintained by its natural location and elevation. You will also find never-failing wells there, not "will-bes" or "has-beens" but "is-ers."

Now there is one other site that is could be done, if you will stay away from the ditch that drains the sur. flowers, plants and shrubs. rounding country, and that is the Titus site; or as it should be properly christened. "Umbrella Park." because about 95 per cent of the tract being offered as a park site is devoid of shade So in the event of one visiting the park and wanting shade, should it be located on the Titus site. There is no need of trees; why they would just be in your way! You can take your umbrella and view the ap-ple trees and feel so grateful to Albert Wyman for being so gener and leaving the money to buy such a nice, CLEAR place, where there is not a thing to obstruct your view, or of the highest points near the city.

prevent you from carrying your um
the drainage goes from it in every
brella. And while in that graciou direction with a natural depression mood, you could hum that little bal-

stand it, and I want to say to every voter, who has the impression that reservoir clear above the city, where the Freeland Grove is included in no surface water will contaminate Mr. Titus' proposition, in my judgment, as I so understand it, it has The money expended for building nothing to do, and is in no way connected, nor not a part of his proposito be just as fair as if I had no inter- taminated, will supply the city an tion. As I am informed by good authority to acquire the Freeland Grove, which is held by several different owners, would cost about \$5000. For the three acres, if included in connection with Mr. Titus' proposition, would make it cost in the neighborhood of \$23,000, which would only leave, as I am informed, convenient for the people from the site and emptied below it, will cost about \$6000 or \$7000, for improvecity, country or depots to reach this about \$50,000. What kind of a sewer proposed site for the Wyman park.

The relieved will be a bouefit as here on the trains, when they get to fills up with sediment to the top of and closely scrutinize each proposithe depots which is about 90 rods the dam If you will look and think, tion, and take into consideration not only the first cost of the site itself. but the transporting of the material so near the site that passengers can first sight. At the old fair ground for the building of drives, walks, you are offered a site where a lake of fountains etc. And to look carefully over each proposition, and I will just state that the Old Fair Ground site that a mile of driveway and a mile of sidewalk can be built and every inch of it practically under a shade. Also with fine clusters of trees, where being offered where the same thing benches and seats can be had under shade, with plenty of open space for

And as to the price, my improve ments, at a conservative estimate, are worth at least \$5000, and the quality of the land, with the city vater almost entirely through th ground now, and a private water plant, a paved street and a sidewalk to its very entrance, can be made it would be very little bother—just take along your umbrella and you can have shade all over, anywhere.

There is no expense. For the continuous practically no expense. For the can have shade all over, anywhere, opening up of streets or any other opening up of streets or any other opening up of streets. la that is based upon pro ises by the other sites. The p \$15,000. I have been offered \$16,800 for the 37 acres and I now have an option on 3 acres adjoining the west at \$300 per acre, which makes the price to the city \$2,700 less than or iginally offered.
And last, but not least, and or

the most important points to all—d we, when we want to spend a day on from the business and the hundren of this busy world, and have a da pleasure, do we want to spend i close proximity to the loved of

who have gone on before, and bring oack to our minds all the agonizing terrors of the deaths of the daparted And any gathering, or even a visit of an individual, would throw such a pall over it or put him or them in such a mood that it would be a melancholy and nerve-wrecking day in stead of a day of recreation and pleasure, and it would become a deserted, burdensome spot to the citizens of

this community. Now in conclusion, before you vote in favor of any of the sites offered, take all things into consideration and don't be blinded by glowing, wholepage advertisements in which the washed down around your home?
Do you think an undesirable and unsanitary place for a home would be
desirable for a public park? I notice
some of the owners of park sites have
built nice homes but I fail to see any
of them build on the site they laud as
so desirable for a public park. But I
presume they are so benevolent that
they did not want to deprive the
dear people of a public ground of such
a desirable locality, S. L. SEASS,
Adv.

## The Cure for Appendicitis was not Accidentally Discovered.

The treatment for the cure of APPENDICITIS and other INTERNAL, DISEASES formulated and perfected years ago by Dr. G. F. Dougherty, of Neoga, Ill., was not an accident

It is a cure for APPENDICITIS gradually worked out by the use of chemical formulas. It is the chemical blending of certain medicinal agents into compatible compounds in such a form and quantity until a cure is perfected for APPENDICITIS and other INTERNAL DISHASES.

His extraordinary chemical findings for this unusual procedure in the treatment of APPENDICITIS has awakened much medical interest. Many physicians are sending to him patients not only for his cure for APPENDICITIS, but also for his trearment for STOMACH, LIVER and BOWELDISEASES, as well as gall stone conditions.

The railroads will be a benefit, escally when picnickers or delegations coming to our town can come ere on the trains, when they get to the company of the cheap kind and gate so they will know exactly what they are voting for, when they vote. The quality is of the cheap kind and gate so they will know exactly what cheap kind and gate so they will know exactly what they are voting for, when they vote. Years ago he was able to cure this old disease (APPENDICITIS) now under a new name. His cure for appendicitis has long been tested by hundreds of patients in Central Illinois and in adjoining states. More than 300 patients have recently tested the merits of this cure and are spreading its worth, while patients continue to come from various parts of the country.

Dr. Dougherty has been in the present location all his professional He does not travel. 35 years ago he laid the foundation for this treatment He has his own laboratory and is fully equipped with all modern invention for the examination and disguosis of Internal Diseases.

He has his Special Chemist, Microscopist and Pathologist, and after an exhaustive examination, if your case proves to be APPENDICITIS, or some other Internal Disease, you receive your treatment and return home and take the cure. You must secure a date before coming. Many dates are taken in advance.—Exchange,
