AMENDANCE Services Last Sunday Written by the Minister of Each Church.

METHODIST CHURCH.

The day was ideal. The Sunday hool was more than a third larger than usual, and the collection corres ponding larger. Many remained for the morning service and swelled the congregation so that the gallery and the lecture room had to be used. In the evening the attendance was even larger. It is safe to estimate that more than seven hundred attended both services.

The orchestra and the choir render ed special music at both services. In the morning Mr. Harry Barber saug a beautiful solo, with Miss Rose Corbin at the organ. In the evening he and Mr, E. J. Miller sang an antiphonal piece which pleased both the bastor, and the whole congregation. Dr. Wohlfarth preached two sernons in which Jesus Christ was great ly magnified. In the morning his theme was, "What Christ said of Himgelt", and in the evening"What Christ Says to You". No audience could give better attention than the people gave, and that always helps the preacher. It is hoped many who were there last Sunday will "get the habit" and continue to honor God's house and his day by regular attendance.

PRESBYTERIAN CHURCH.

Going to church is not a thing of the past in Sullivan, From a presbyterian stand point at least.

For last Sabbath was a "red letter dry", at this church. And good interest and attendance.

lift. The orchestra, the choir and the congregational singing all was splendid -

As the people gathered they were greeted in the vestibule by a committee of reception, who placed in the hand of each one a neat program of the services, and as the congregation went away a small card was handed each one bearing these words 'Welcome. Come every Sabbath." The sermon subjects were appro-

received. This being the first Sabservice in auditorium. Every one was pleased to see the splendid improvement and many complimentary words were expressed.

LINOIS, SATURDAY, MARCH 21, 1914.

LETTER TO VOTERS Sullivan, Illinois, March 16, 1914.

To voters:-I am a candidate for the nomination to tax collector of Sullivan township on the democratic ticket, subject to the democratic primary of March 21st. The voting places are in Sullivan, Kirksville aud Cushman, Polls are open from 12 m. to 5 p. m.

I take this method of soliciting our support, and hope you will not only vote for me, but use your in-fluence in my behalf.

The condition of the roads and my occupation prevents me meeting you sonally, but hope this introduction and my standing in Sullivan will convince you that I am cometent and reliable.

I have spent my life in Sullivan. graduated from the Sullivan high chool, and since that time have been engaged in book-keeping and clerial work.

Women are legally eligible to ofce and have been given the right to ote. I beg of you not to be prejidiced against supporting me, a woman. Women can and will attend the polls with the same propriety that they go to other places. The fact that she is a voter need not claim her attention from home or other duties. Women, like men, have their faults and some women as well as some men are not true to their station or vocation in life. Please be liberal on the question of woman suffrage. I am desitous of having a good at-tendance of women at the polls next Saturday.

ANNOUNCEMENT.

Jesse Byrom.

We are authorized to announce Jesse Byrom for the nomination for assistant supervisor of Sullivan township, subject to the decision of the democratic primary of March 21.

Mr. Byrom is a highly respected citizen of the township. He lives on a farm west of Sullivan. Mr. Byrom is qualified and capable of filling the office, and if nominated and elected will perform the duties of the office to the satisfaction of the people.

Testing Moultrie County Seeds.

The Sullivan Chamber of Com merce and the Moultrie County Farmers Institute have purchased an ample supply of the cloth testers for testing seed corn and of blotters for testing seed oats.

These testers are to be furnished free to the pupils of all schools in the county. All farmers are urged to co-operate with the pupils in each school district in Moultrie county in testing the oats and corn to be used tor seed, in the various communities, These supplies will be sent out to all schools at once and a record will be kept of all tests made, and a report published later.

NUMBER 12.

S. T. Walker of Atwood has becom proprietor of the Moultrie County News, the only Republican paper in Moultrie county. W. G. Covey proprictor, editor and publisher of the News retires, after twenty-six years service on the paper. Mr. Covey has worked carnestly and zealously as a iournalist.

His paper has always been clean in every respect, no rough, obscene or slang phrases ever appeared in the columns of his paper. He always avoided sensation or

publishing news that he feared might bring pangs of sorrow to his acquainances and especially to parents, he at all times was considerate and careful,

The pages of his paper were as clear of typographical as any sheet that came to our exchange table. May mercy be mered to Mr. Covey as he measured to others.

Mr. Walker has published the Atwood Herald for the last six years Mr. Covey in the trade took the At wood Herald, which he sold to his son-in-law, Ray Lane, Ray Lane and hold your peace. Game Warden's Conference

C. M. Cochr.n, deputy game and fish warden of Moultrie, Shelby, and Coles , counties attended a conference of game wardens in Shelbyville last Thursday.

Eight persons having passed the civil service examination at Shelbyville were certified to District Warden Storm for assignment of territory and they met to organize.

While some of the districts of territory assigned seem quite large, too much for one man to handle, yet it is the best that could be do the number of men with which to work,

With a 'proper co-operation of the people with each deputy in his district the law can be enforced and the game, birds and wild towls protected ftom slaughter.

It is desired that the practice of killing fish by means of dynamite and other explosives, and all illegal devices, be stopped. The deputies of the several districts have been instructed to be diligent in search for violators of the law as it relates to fish, and to prosecute any and all persons who violate that part of the law.

Sherman Law Will Be Clarified, Inter locking Directorates Prohib and Organized Labor Gets a

Slap on the Wrist.

Washington, D. C.-The he of representatives will get the admin-istration anti-trust bills in about eight The bill defining the debatable ground around the Sherman law will be changed so as to make all viola-tions of the Sherman law personal and provide the punishment therefor. The president and house members agreed it was too dangcrous to go into definitions; that to do so would raise new issues which would have to go through the courts and in this man-

inrough the courts and in this man-ner make the meaning of the Sher-man law doubtful for several years. The interlocking directorates bill will be changed to prohibit interlocking directorates where the corpora-tions actually are competitive or would be competitive under ordinary circumstances. As the bill stands, it prevents interlocking directorates of all kinds. The holding companies bill is still

in a more or less crude state and it will take a week to iron out the wrinkles and get something more than generalities. This will be done at once.

The demands of organized labor that the Sherman law be changed to exempt them from the provisions of the law have not been taken up by the president. According to high-au-thority, none of the administration trust bills will provide for exempting organized labor from the operation of

the Sherman act. The position is taken by the admin-istration lawyers that to exempt or-ganized labor would mean the amend-ing of the law and this the president

is unwilling to have done. There is a stiff fight in congress conducted by friends of organized labor, to induce lawmakers to accept an amendment, but it is doubtful if their efforts will avail in view of the presi-dent's refusal to take up the question in the pending bills. It is said that when the bills are

completed they will be in such shape that the courts will have no chance to read anything into them that is not expressly contained, and no judge can tinker with them.

LINTS of gold from vast oriental domes, Venetian blue on minarets, pro-digious works of sculpture and the arrival of notables from all parts of the globe give glimpses of the great Panama-Pacific International Exposition as it will appear when its gates swing open to the world 1 on Feb. 20, 1915.

Not for many years will the world be enabled to enjoy so marvel Not for many years will be work be contemporary sculptors. The World's Columbian Exposition at Chicago first proved that the greatest talent might be engaged to produce work of even temporary value. Since then more and more atten-tion has been given at each succeeding exposition to sculpture as a form of decoration, and the great Panama-Pacific International Exposition at San Chicago e exposition at San

Francisco promises to surpass even Chicago's exquisite display. Every phase of the exposition is far advanced. Thirty-three of the world's nations will participate with government displays, Argentina leading with a government appropriation of \$1,300,000 gold.

Ours Alone matter ever offered to our subscribers. It in-cludes our paper—the best weekly published in this part of the state—and the Four Magazines of national prominence shown above, sample copies of which may be seen at our office.

We have never sold our paper alone at less than a dollar a year. But on account of the splendid contract we have made with these big publications we are able to give our readers the four magazines with our paper, all one year for only \$1.18—just 18 cents more than the regular price of our paper alone.

Send us your orders right away, give them to our representative or call and see us when you are in town. As soon as you see these clean, beautiful, interesting magazines you will want them sent to your own home for a year.

The Saturday Herald and any one of the four magazines is worth more than we ask for all five of the combination. Send your order at once.

FRANCISCO IN 1915.

A ERONAUTS from all the civilized nations of the globe with every standard type of air craft driven by motors will participate in an aerial race around the world, which will be a feature of the sporting events to be held during the Panama-Pacific Interna-tional Exposition at San Francisco in 1915.

The race will start from the grounds of the Exposition in May, 1915, and will end there. Three hundred thousand dollars has been hung up in prizes for this stupendous world girdling contest. A number of the world's greatest aviators have signified their intention of entering the races. The recent flight of Stoeffler, ending at Mulhausen, Germany, in which he covered 1,375 miles, convinces aviators that long dights are a matter of adequate supply stations. The above photograph shows the route around the world and the various supply stations.

LANS for the Canadian building at the Panama-radic Interna-tional Exposition at San Francisco in 1915 have been approved, and the work on the great structure has started. The Canadian Palace, as it is officially named, will be one of the largest and most imposing of the foreign buildings, having a length of 340 feet, a width of 240 feet and a height of 50 feet, and will cost in the neighborhood of \$300,000. It will be the largest building area control by Canada of an international expectition covering 65 000 ever erected by Canada at an international exposition, covering 65,000 square feet, and will house one of the most elaborate and comprehen-sive exhibits of the Dominion's resources and products ever shown on foreign soil. Six hundred thousand dollars has already been voted by the Canadian parliament for the building and exhibits, but a further grant, bringing the appropriation up to \$1,000,000, will be recommended by the government.

by the government. Canada at the Panama-Pacific Exposition is following the same policy that has obtained at former expositions—namely, the display of specimens or exhibits of the natural products of the country—agricul-tural, borticultural, mineral, forest and fisheries—for the purpose of showing her climatic advantages and her resources to the great number of people who will visit the Exposition. Attention will be devoted to transportation facilities, and the railways will be assigned considerable space in the building. Practically the entire exhibit of Canada at the recent Ghent exposition—and it was conceded by all judges a most magnificent display—is en route here now, while many new and attrac-tive exhibits are being prepared in the various provinces. The exhibit will be under the supervision of Colonel William Hutch-ison, who will represent the Dominion government.

And the broken-hearted one Alize. Lucy Hampton, listening, was so thrilled with this romance of a life-long love that she could silence her aching heart and her aching pride and could be—with a painful sick efforf— but yet could be, utterly generous. There is no midway in a case between entire selfishness and entire selfies-ness. The young southern girl, wound-ed, shamed, cruelly hurt in vanity and was smiling.

And Prancois, enchanted to be friends again with his friend, wondered at the goodness and generosity of the people of this world. It is roughly true that one finds life in general like a mirror; that if one fooks into it with a smile and a cordial hand held out one meets smiles and outstretched hands in return. Through all his days it had happened so with this child of a French village. So that when the day came at last So that when the day came at last when he stood once more on the deck of the Lovely Lucy, loaded with her cargo of tobacco for foreign ports. Francois felt as if he were leaving home and family. The long green car-pet of the rolling lawn of Roanoke was crowded with people come to tell him good-by. All of his soldier boys were there the lads trained hy him one and there, the lads trained by him, one and all ready to swear by him or to die for him. Lucy and Harry stood together, and the servants were gathered to do him honor, and people had ridden from all over the county for the farewell. His eyes dimmed with tears of gratefulness, he watched them as the gang-plank was drawn up and the sails caught the wind and the ship swung slowly out into the stream.

"Come back again—come back again," they called from the shore. back Francois heard the deep tones of the lads and the rich voices of the negroes and he knew that some there could not speak, even as he could not. So he waved his hat silently, and the ship moved faster and the faces on the lawh seemed smaller farther away, very old and wise, me. It would never do," he went on. The general was firm as to that; his boy should not be hounded; he should stay at home in the quiet old chateau and get well. But the boy was restless; a fever of enthusiasm was on him and he wanted to do more At this point two things happened: Pietro came from London, and Fran-cols, on the point of leaving for anothcois, on the point of leaving for anoth-er secret errand, broke down and was ill. He lay in his bed in his room at the farmhouse, the low upper chamber looking out—through wide open case-ment windows, their old leaded little panes of glass glittering from every upper case looking out is broad uneven angle-looking out at broad fields and bouquets of chestnut trees, and far off, five miles away, at the high red roofs of the chauteau of Vic-ques. And gazing so, he saw Pietro on old Capitaine, turn from the shady ave-nue of the chestnuts and ride slowly to the house. With that he heard his mother greeting Pietro below in the great kitchen, then the two volces— the deep one and the soft one—talking, talking, a long time. There is an angel of perversity who possesses our souls at times. He makes us say the unkind thing when we wish not to; he tangles our feet so that we fall and trip and hurt our-selves and our dearest—and behold long after we know that all the same it was an angel; that without that trouble we should have gone forever down the easy wrong way. We know trouble we should have gone forever down the easy wrong way. We know that the perverse angel was sent to warn us off the pleasant grass which was none of ours, and by making things disagreeable at the psycho-logical moment, save our souls alive for right things to come. Summoned.

On the morning of May 9, 1840, the sun shone gaily in London. It filtered in intricate patterns through the cur-tains which shaded the upper windows of a house in Carlton gardens, and the of a house in Carlton gardens, and the breeze lifted the lace, and sunlight and breeze together touched the bent head of a young man who sat at a writing-table.' A lock of hair had es-caped on his forehead and the air touched it, lifted it, as if to say: "Be-hold the Napoleonic curl! See how he is like his uncle!"

But the pen ran busily, regardless of the garrulous breeze; there was much to do for a hard-working prince who found time to be the hero of ball-rooms, the center of a London season, mother and Pietro have to talk about so long? And then Pietro's step was coming "p the narrow stair, and he was there, in the room. "Francols," Pietro began in his di-root feshion." ion. It

inconscious as he was of the letter availing for him at the moment in Norfolk, was thinking of the event to come to which that letter called him. "Lucy! Oh, Lucy!" A voice called from the lawn, and in a moment more the colonel was upon them. "Lucy." he began, "somebody must arrange about the new harnesses; my time in too valuable to be taken up with de-tails. "They gave me a letter for you, chevaller, knowing that you would be at Roanoke house today. 'Here it is"—and Lucy saw a light leap into Francois' eyes as they fell on the English postmark. With that Francois turned aroun His face shone with an excitement

But Francois had laughed and taken her hand and was holding it with a tender force which thrilled her. He understood. She knew he understood the shame and fear of a woman who has given love unasked; she was safe in his hands; she knew that. With a sigh she let her fingers rest in his and sat down again and waited.

"Dear Mademoiselle Lucy," said the Virginia, my comrade, my little scholar--"

Why did Lucy grow cold and quiet at these words of gentleness? Francois was sitting beside her, holding her hand in both his, gazing at her with the clearest affection in his look. Yet she braced herself against she did not know what. The voice went on with its winning foreign inflections, its slip of English now and then, and its never-to-be-described power of reaching the heart.

"See, mademoiselle," said Francois "we are too real friends, you and I, to have deception between us. We will not pretend, you and I, to each other-is it not, mademoiselle? Therefore I shall not try to hide from you that I heard that day those words so wonderful which you spoke to me so unwor thy. I have thought of those words ever since, mademoiselle, as I lay ill with this troublesome arm; ever sinc -all the time. My heart has been full -gratification to you which cannot be told. "Moreover, Mademoiselle Miss Lucy, there is a fairy prince who awaits only the smallest sign from you."

Lucy smiled. "No." she said. And then, "A fairy prince-in Virginia?" "Ah, yes, Mademoiselle Miss Lucy. still.

The stately walls slope of Roanoke house, the green crowded with figures of his friends the sparkling water front-the current had swept away all of the picture and he could only hear that wailing music of the negroes' voices, lower, more fit-ful; and now it was gone. He had left Virginia; he was on his way to friends. And for all his joy of going, he was heavy-hearted for the leaving.

The weeks went slowly at sea, but after a while he had landed, was in France, was at Vicques. He had seen his mother, with her hair whitened by those years of his prison life—a happy woman now, full of business and re-sponsibility, yet always with a rapt look in her face as of one who lived in a deep inner quiet. He had talked long talks with his prosperous father and slipped into his old place among his brothers and sisters, utterly refusing to be made a stranger or a great man. And over and over again he had told the story of his capture and the story of his escape.

At the castle the returned wandered picked up no less the thread droppe so suddenly seven years before. The general, to whom the boy seemed his general, to whom the boy seemed his-boy risen from the dead, would hardly let him from his sight; Alize kept him in a tingling atmosphere of tenderness and mockery and sisterly devotion, which thrilled him and chilled him and made him bilsstul and wretched in turns. The puzzle of Alize was more unreadable than the puzzle of the sphinx to the three men who loved her, to her father and Francols and Pietro. The general and Francols and Pietro. Francois regarded him with startled eyes, saying nothing. There was a chill and an ache in his heart at the thought of yet another parting. Pletro went out. "I have a letter from Harry Hampton. The place needs you; the people want you; and Harry and Miss Hampton say they will not be married unless you come to be best man at the wedding." Francois smiled. Pletro went on again. "Moreover, boy, Francois—you are not doing well here. You are too useful; they want to use

shortly to Virginia. On the day before he went he sat in the garden of the chatesu with Alixe, on the stone seat by the sun-dial where they had sat years before when the general had seen him kiss the girl's hand, in that unbrotherly way which had so surprised him. "Alixe," said Francols, "I am going to the end of the world." "Not for the first time," Alixe an-

of being of his existence, that with the ashes of the emperor his family should come back to France. For months the network had been spread, was tightening, and now the memory which held its friendships securely al-ways, took thought of a Frenchman living in Virginia. As soon as his let-ter was finished to his father—the pen flew across the lines: "The sword of Assterlits must, not be in an enemy's hands," he wrote to his father. "It must stay where it may again be lifted in the day of dan-ger for the glory of France." His let-ters were apit to be slightly orstorical; it was moreover the fashion of the day to write so.

It was moreover the maniou of the day to write so. He raised his head and stared into the street. It was enough to decide his expedition for this summer that General Bertrand, well-meaning, and ill-indging, had given to Louis Phil-lipe the arms of the emperor, to be placed in the invalides. Every mem-ber of the Bonsparts family was aroused, and to the help it was a trum-pet call. He could hardly wait to go to France, to reclaim that insulted sword. Springfield.—In the expectation of securing a more efficient and soo-nomic administration, Governor Dunne-has addressed a letter to the heads of all state departments, asking that they submit, at least once every 30 days, a report covering the doings of their department. The governor, in his letter, states that the reports will be made a mat-ter of record and parts of them at least published in the newspapers. The letter, in mark savs:

The letter, in part, says: "This year should be one of con-spicuous progress in the efficiency and economy of every department of the state government, and I rely upon you to produce results in your de-partment which will prove the wisdom of your selection as its head. "Important as it is that results should be produced, it is also well that they shall be exhibited to the public. The success of a denariment head will

The success of a department head will be judged by his administration of his partment and in a large measure by department and in a large measure by the extent to which he obtains public recognition of his work. Income Returns Puzzle Farmers,

Several hundred farmers in the southern section of the state in all probability have made incorrect in-come tax returns because of the fact that instructions given out in January and February have been reversed and superseded in regard to the income from grain and produce raised on the farm

Many farmers listed in their returns as income for 1913, grain raised in 1912 and not sold until 1913, in doing 1912 and not sold until 1913, in doing so they acted on early instructions given out by the commissioner of in-ternal revenue which were later super-ceded. Many more farmers, without doubt, failed to estimate the value of the grain raised in 1913 in making their 1913 returns. In doing this, they acted in accordance with the early in-structions of the department. The latter instructions are changed by a recent ruling of the commissioner

THE BEST TREATMENT FOR ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling bair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following spe-cial treatment is most effective, agree-able and economical. On retiring, comb the hair out straight all around, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticurs Oint-ment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the pur-pose being to get the Cuticurs Oint-ment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticurs Soap morning, shampoo with Cuticura Soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment

for women's hair. Cuticura Sosp and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L. Boston."—Adv.

CANADA WINNING CHAMPIONSHIPS IN AGRICULTURE

Latest Is Winning Cham-The pionship for Oats a Third Time.

Recently was published the fact of markable winnings by Canadian immers in several events during the mat three or four years. The latest that of Messrs. J. C. Hill & Sons University of the several events of the several e of Lloydminster, Saskatchewan, who won in a hard contest for the oat hampionship over Montana. At the lational Corn Exposition at Dallas ing February, Montana oats were arded the championship for the dited States. Waiting for the win-r of this to be announced was a ck of oats belonging to the Cadian growers above mentioned, and ongside of these was a like quantity longing to a Minnesota grower, who is barred from the regular compe-ion because he was at one time the tition because he was at one time the winner of the trophy—the prise. The three entries were side by side on the judge's bench. It would not be pos-sible to bring together three more likely samples. The Montana and sastatchewan entries were of equal weight—50 pounds to the bushel. The Minnesota sample was some three pounds lighter. The award was unanimous in favor of the Saskatche-wan oats. A remarkable feature and one greatly to the credit of the Ca-nadian product was that the oats, grown in 1913, were grown and shown grown in 1913, were grown and shown by those who had competed during the past two years, winning on each occasion. This, the third winning, gave them for the third time the world's championship and full posses-sion of the splendid \$1,500 silver trophy contributed by the state of Colorado.

The oats which have thus given to The cats which have thus given to Western Canada another splendid ad-vertising card, were grown 300 miles north of the international boundary line, proving that in this latitude, all the smaller grains can be grown with greater perfection and with more abundant yield than further south. In all this country are to be found farm-ers who produce oats running from 42 to 48 pounds to the bushel, and with yields of from 60 to 100 bushels per acre. Wheat also does well, grades high, and yields from 30 to 40 gra bushels per acre. The same may be said of any portion of Manitoba, over the world not only as a country where championship grains are grown, but where cattle and horses are raised that also carry off championships and that also carry off championships and where wild grasses are abundant yielders, cultivated hay and alfalfa are grown, thus giving plenty of feed, and with a good climate, sufficient shelter and plenty of water, bring about results such as western Canada has been able to record. Thousands of farmers from the United States who have their homes in Canada bear ample testimony to the benefits they ample testimony to the benefits they have derived from farming in west-ern Canada.—Advertisement. THIS NEW MEDIGINE SAVES YOU MONEY

We are druggists right here in your own town and make a living out of the drug business, but it is because people have to have drugs and not because we like to see people saffer-we don't. Our duty is to render the best service we can, and when something is ailing, we are interested in seeing them take the best medicine there is for the particular trouble. We don't recommend "cure-alls" as we don't believe there are such things We don't want you to spend more than you

have to. Some of you get small wages. and when you'r sick, none at all, and you should get the most you can for your money.

We recently come a cross a new remedy for increasing strength and building up people who are run-down and emaciated. We know that a slight trouble sometimes grows into a serious one, and to stop it in the beginning, will save you money in the end. This new compound is called Rezail Olive Oll Emulsion. It is the best remedy, when

you are run-down, tired out, nervons-no matter what the cause. It doesn't merely matter what the cause. It doesn't merely stimulate you and make you feel good for a faw hours, but takes hold of the weakness and builds you up to a bealthy, normal con-dition. It is a real nerve-food tonic and builds of good blood, strong muscle, good digestion. It contains. Hypophosphilie, which house the nerves, and pure Oilye Oil, which noughthes the nerves, the blood and the entire armtem. Pleasant to take.
