Patients are coming daily for this cure for appendicitis without an operation which is administered by one of our physicians. The hundreds of patients cured are giving this cure a country wide notice,— Neoga News, April 3, 1913

Neoga, Ill., April 28, 1912 — "My two sons suffered with appendicitis, Dr. G. F. Dough-erty, of Neoga, Illinois, cured one in 1902 and the other in 1910. They have had no re-turn of the trouble. I know of many patients now taking his cure,

"The Neoga physician has gained wide recognition for his perfecting a cure for appendicitis without an operation. For years he has been recognized as a leading authority on internal medicine. After more than a quarter of a century in active practice and years of labora tory work he perfected his cure for appendicitis and hundreds of patients have proved its worth thus avoiding a surgical operation."—Mattoon Commercial Star, April 3, 1913.

Special Meeting of the Board of rvisors.

cordance with a request in writing addressed to the undersigned, county clerk of Monitrie county, Illinois, signed by at least one-third of the members of the board or supervisors of said county, I hereby call a special meeting of said board to convene on the 2nd day of April, A. D. 1914, at the hour of 12 o'clock noon of said day, at the court house in the city of Sullivan, Illinois' for the purpose of considering any unfinished business that may properly come before

Dated at Sullivan Ill., this the 1/th day of March, A. D. 1914. ... Cash W. Green, County Clerk.

United Effort.

A meeting of the three young peo-ples societies of the different churches was held in the Presbyterian church, Monday evening.

The purpose of the meeting was to form the organization of a federation of young peoples societies, and to bring the young people nearer to-

gether spiritually and socially.

The organization was perfected and officers elected as follows:

President, Lowe Hall; first vice president, Confident Hoke; second vice president, Don Butler; third vice president, Fern Moore; secretary, J. W. Finley; corresponding secretary, Fern Moore; treasurer, Cled

CHAPTER XXVIII.-Continued. "Mademoiselle Lucy," he said. "I will do it," Lucy promised blithe-

y, not waiting for details.
Francois laughed. "You trust one, fademoiselie Lucy—that is plain. Then his face became serious. "Do you emember a talk we once had together. n I told you of my old playmate,

The bride-to-be flushed furlously as he recalled that talk. Then she noded in a matter-of-fact manner. "I re-nember very well," she said. "It was then I threw myself at your head and you didn't want me."

Francois' shoulders and hands and yes went upward together into an minently French gesture. "What a corror!" he cried. "What an unspeakable manner to recollect that talk! How can you? How can you be so rutal to me?"

Both of them, at that, burst into light-hearted laughter, Lucy was grave ddenly. "But you have something to ask

me, François. You spoke of your— playmate—beautiful Alixe."

It is only you whom I could ask to to this, Mademoiselle Lucy. I have never told anyone else about her. Only ou know of"—the words came slow-—"of my love for her. She does not know it. Alixe does not know. And I may be killed, one sees, in this fight or the prince. Quite easily, And like will not know. I do not like that. In fact I cannot bear it. So this is what I ask of you, dear mademoi-selle." He brought out a letter and held it to her. "If you hear that I am Rilled, wil! you send it to Alixe?"

Lucy took the letter and turned it over doubtfully. "I do not like this port of post-mortem commission. Fran ols. I feel as if I were holding your death-warrant."

"But it is not by a bit of writing shall meet my finish, mademoiselle. promise not to die one minute sooner for that letter. It is only that it will make me happy to know you will send

So Lucy, holding the letter gingerly, agreed. But as Francois rose to go she stood by him a moment and laid her hand on his coat sleeve.

cois—I want to tell you something." "But yes, mademoiselle—yes, Lucy.
"It is something wrong."

"Yes-Lucy."

"I am going to tell Harry I said it."

"This is it, then"—and Francols

miling, waited and there was deep stience in the big, cool, quiet drawing-room for as long as a minute. "This is it, then. I don't know how I can be so inreasonable—but I am. I love Harry —I am happy. But I am quite—jealous of Alixe. And I think you are the most wonderful person I have ever known wonderful person I have ever known—much more wonderful than Harry.

If there had been no Alixe; if you had—liked me—I can imagine having adored you. I do adore you, François.

Now, how is all that compatible with my joy in marrying Harry? I don't know how it is—but it is so. I am a wicked sinful person—but it is so.

The next time Lucy Hampton saw
Francois it was when, white-robed and
sweet in her enveloping mist of veil
the went up the chancel steps of the
little Virginia country church, and
looking up met a smile that was a
benediction from the man whom she

had loved, who stood close now at the

CHAPTER XXIX.

The Prince's Bright Shade.
There are old people living it
and today who remember had fathers and mothers speak ung Frenchman of uncommon mality, constantly seen with Pr sonality, constantly seen with Prince
Louis Napoleon during the last days
of his life in London in the year 1840.
Lady Constance Cecil nicknamed this
Frenchman "the prince's bright
shadow." There seemed to be a closer
tie than brotherhood between them,
and the tradition runs that the myetical prince had a superstition that his
luck went with him in the person of
the Chevaller Beaupre.

It was all as it should be; he was
entirely happy. He had asked three
wishes of the good fairies, as he had
said long ago; that the prince should
be emperor—that he might become "a
marshal of France under another Bonaparte'—that Alixe should love him.
The first two he believed about to be

The first two he believed about to be realized. The last? It was not now the time to think of that. Alixe had kissed him good-by. That would more than do till the fight was over. So he sped back to London, missing Pietro, but hopeful and buoyant. And in Lon-don there was a letter for him from

don there was a lotter of the control of the contro her. I am distressed beyond words, for I have made a mistake which may for I have made a mistake which may mean distress to you. You remember the letter to Alixe which you trusted to me to send in case anything should happen to you? I had it in my hand the week after my wedding when I had gone upstairs to get other letters for Europe which my father had command-Burope which my father had commanded me to send by the next packet. And in some stupid unexplainable way I slipped yours—your precious letter—among them in place of one to my father's agents in London, and I hurried down and gave the parcel to Same bo, who was waiting to ride to Nor folk with them. And then Harry and I went away on a visit to Mertin's Brandon for three days, and it was only when I came back that I discov-ered the dreadful mistake I had made Can you ever forgive me? Harry and I thought over every possibility of stop ping it, but there seemed to be no chance. Are you very angry with modear friend of Harry's and of mine?"

The letter went on with representes and regrets and finally ellipped into a tale of a new happy life which Francois had made possible for the two. He read it over several times. His letter to Alixe, which should have been sent only after his death, had gone to her. What then? She would know that he loved her; that he had loved her always; that he would love her forever; that the one wish of his life had been that she should love himself -not Pietro. He had said that in the letter; that was all. He was glad that

The Gray Eyes Met Hers.

she should know, though he would never have told her in life. It was done and he would find out now if Pietro indeed cared for her, if she cared for Pietro. And if not, then one had waited long enough; then at last—the joy of the thought choked him. A knock came at the door of the room in the London lodging where he sat with Lucy Hampton's letter before him. Frits Rickenbach stood there; his highness would like to see the chevalier. All personal thoughts were locked swiftly into the drawer with Lucy's letter and "the prince's bright shadow" went to the prince.

CHAPTER XXX.

The Third Wish. On the day when Francois in London read that letter of Lucy Hampton's which had awaited his return from France, a letter from Lucy Hampton reached Alixe at the chateau of Vicques. She carried it to Pietro's of Vicques. She carried it to Pietro's room where he sat in a deep chair at a window which looked over Delesmontes valley and the racing Cheulte river, and the village strung on the shores. His elbow on the stone window-slil, his chin in his hand, he stared at the familiar picture.

Alixe, coming in without insocking

Coq and pla

And Pietro turned slowl otherly, from

up at her with eyes full ness and adoration. Such had never before given i lock no one could mistal

woman who would not let he derstand.

"It is good to be up and at dow, isn't it?" Alixe spoke ch and her hand left his head went on in a gay disengar. "You will be downstairs in two days now, and then it is only to being out and about, and the to being out and about, and th in a minute you will be well a
"'Oh, yes," Pietro answered
animation. "It will not be los
I am well."

"Look, Pietro;" Alixe held out the "LOSE, Pietro;" Aixe new out the paper in her hand. "Such a queer let-ter! From Virginia. From the little Lucy Hampton of whom Francois talks. I don't understand it. Will you let me read it to you?"
"Surely," said Pietro, ar

"Surely," said Pietro, and waited with his unsmiling eyes on her face.

"My dear mademoiselle," Alire read.
"I am writing to beg your forgiveness, as I have begged that of the Chevalier Beaupre, for the very great fault I have committed. The chevalier trusted to me a letter for you which was to have been sent you only in case of a certain event; by a carelessness which, unmeant as it was, I shall never forgive myself, I gave it with other letters to our negro Sambo to be posted at once. By now it may have reached you. I cannot tell if I have made trouble or not, but in any case, I cannot rest without saying to you—as not rest without saying to you—as well as to the Chevalier—how sorry I am. If you can find it in your he am. If you can find it in your heart to forgive me, please do so, dear mademoiselle. That I should have made trouble for one as dear to the chevalier as you are is a deep grief to me. He has talked to me of you. With a very earnest prayer again for your forgiveness I am, mademoiselle, yours faithfully and sincerely.—Lucy Hamp-ton Hampton." on Hampton.

Pietro looked bewildered. "What is it about?" he asked.
"I wonder," and Alize laughed and
frowned at the paper in her hand. "It
seems Francois wrote me a letter and left it with little Mistress Hampton to

be sent 'in case of a certain event,' What event? What a strange thing What event? What a strange thing for Francois to do! And then he came to us here and said nothing of mysterious letters left cooking in Virginia. I cannot make it out, Pietrocan you?"
"Not I," said Pietro.

"The letter of Francois has not come; that is certain; I wonder if the egro Sambo lost it."

"Probably," Pletro said. "It should have come before this one, otherwise." "It is a riddle," Alixe decided, "and I never guess them." Then, dropping into a seat on the wide window-sill Pletro-you are letting yourself be depressed.

The gray eyes met hers with so thing that seemed a wall of reserve in their steady glance. "I think possibly I miss having no exercise," he said.
"I will feel more natural when I can

Alixe looked at him. "You are esting your heart out to be with Fran-cois," she said, and laid her hand on

Pletro stared as if the light tot had shaken him; then slowly his large fingers twisted lightly around the small ones, and he turned his face again, holding her hand so, to the window and the view of the valley and the river and the village. A moment they sat so, the girl's hand loose in the hollow of the man's; a slow red crept into Alixe's face; there was con-fusion in her brain. She had laid her hand on that of her brother; her brother had taken it in his—and behold, by a witchcraft it was all changed. This elicate big grasp that held her not brotherly; through all her ve suddenly she knew that; the flush a up to her eyes, to her forehead, and she tried, with an attempt at an every day manner, to draw her hand away But Pietro, his set pale face toward the window, his eyes gazing out, her hand. With that the world reeled and was whirling past her. Pietro had caught both her hands in a tight grip and had drawn them against

tight grip and had drawn them against him, was holding them there, was looking at her with a face which not even she, this time, might mistake.

"Alixe," he said, "I know you don't care for me. I know you love Francois. I did not mean ever to speak, but when you put your hand on

mine—"

He held her palms together and parted the palms and kiesed the finger-tips, first of one and then of the other, as if he kiesed something holy.

"I shall never speak again, but this once I will. I always loved you—one must. I knew always that a slow eilent person like me would have no chance against a fellow like Francois. So I have kept still, and it was hard. It won't be so hard now that you know. Are you angry, Alire?"

Alire, with her head bent to that Pictro did not see her tace, with her head bending lower—lower, suddenly was on her knees by the chair and her face was on Pictro arm.

etro and Alixe still, the ancient n Pletro and Alixe still, the ancient play-fellows, the childhood friends—all the dear familiarity was there yet, but no longer were they brother and eister. And then, after a while they began to compare notes of things hidden. "When did you begin—to like me— this way, Pietro?"

"I don't know," answered Pietro stupidly. "Does it make any differ-ence?"

ence?"

"A great deal," Alixe insisted. "It's important. It's historical."

"But this isn't history," said Pletro. Alixe, however, returned to the charge, "Last year?"

"Last year—what?" Pletro asked; he had already forgotien the question. "Oh—that I began to—mon dieu—no. Last year! Why, I think it was the day I came and saw you riding Coq."

"Oh, Pletro—if you will talk only-nonsense!" Alixe's voice was disappointed. "But why, then, didn't you ever say so before this? We are both a thousand years old now. If you—loved me"—she spoke the word in a lower voice—"why, then, were you as

lower voice—"why, then, were you a quiet as a mouse about it all thes

years?"
"I thought you cared for François,"
Pietro said simply, And added, "Didn't

you?" Alixe considered. "I don't-Alixe considered. "I don't—think—I ever did, Pietro. Not really. I thought I did perhaps. He dazaled me—Francois—with his way of doing all sorts of things brilliantly, and that wonderful something about him makes everybody love him. He believed in his star; there was around him the romance of the emperor's prophecy and the romance of the career which is, we believe, about to begin now; there was always a glamour about Francois."

"Yes," Pietro agreed. "The glamour

Francois."
"Yes," Pietro agreed. "The glamour of his courage, Alixe, of loyalty and unselfishness; the qualities which make what people call his charm. Francois is unlike the rest of the world, I believe the world.

lleve, Alixe."
Pietro talked on, the silent Pietro Pietro talked on, the silent Pietro, se if delivering a lecture. He had read much and thought much; it was seldom he spoke of the speculations which often filled his scholarly mind; today it seemed easy to talk of everything. Joy had set wide all the doors of his being. Alixe opened her eyes in astonishment.

shment.

"Pletro! You are—talking like a book! But it is true; something of that sort has come to me, too—which proves it to be true. I have felt always that Francois had notes in him which are not on our planes." Pietro smiled, looking at her.

"And yet, Alixe, you do not love Francois, with all these gifts and all his power over hearts—but only commonnice ma?"

onniace ma?"

his power over hearts—but only commonplace me?"

Alixe straightened against his arm. "Monsieur the Marquis Zappi, the gentleman I—care for, is not commonplace. I thank you not to say it," she shot at him, and then, melting to a sudden intensity, she put a hand on each side of his dark face and spoke carnestly. "Pietro, dear, listen. I believe I always cared for you. When I was little it hurt me to have Francols forever the one to do the daring things. Do you remember how I used to scold at you because you would not fight him?" Pietro smiled again. "Then he was captain of the school and you only a private, and I cried about that when I was alone at night. And when you went off to Italy so quietly, with never a word said about the danger, I did not know that you were doing a fine deed—I thought it a commonplace that you should go back to your country, till Francois opened my eyes."

"Francois?" Pietro asked.

"Yes. The day before he went to join you we were riding together and he told me what it meant to be a patriot in Italy under the Austrians. That day I realized how unbearable it would be if anything happened to you. But I thought I cared for Francois; if he had spoken that day I should have told him that I cared for Francois; if he had spoken that day I should have told him that I cared for Francois; if he had spoken that day I should have told him that I cared for him. But he did not; he went—and was in prison five years."

"And all that time I believed you

did not; he went—and was in prison five years."

"And all that time I believed you loved him, and were mourning for him," Pletro said gently.

"I half believed it too." Alixe answered. "Tet all the time I was stealous for you, Pletro, for it was still Francois who was the hero—not you. Then when there came a question of his rescue I was mad with the desire to have you do it—and you did it."

Her voice dropped. She laid her hand against his shoulder and spoke, in a quick cautious way.

"But all that is immaterial. I just love you—that's the point." A mo-

ly, and the blue intensity of her eye grew misty. "Dear Francois." she is peated, "it is only he who could hav had those three wishes. The single one that was for himself was not be cause it was the Emperor's prophecy. "I always thought." Pietro spot slowly, "that it was not indeed to himself that he wished to be a Mar shal some day, but because it migh make him, in a manner, your equa-it was for you."

It was for you."
"For me!" Alixe w lever thought of the thought of it, Pietro, only because you hought of it, Pietro, only because you

wie must care also."
"Yes, I thought

considered. "I can not believe otherwise yet."

"You may believe it." Alixe was 'rm. "For he said that what he had wished always was that I should—love you. I did it mostly to please Francols," she added serenely.

And Pletro's response to that was apt, but not to be given here. The minds of these two happy lovers were full of that third who had been so close always, to each of them.

"Pletro," Alixe spoke earnestly, coming back to the same subject, "you know that I love Francols—of course. But you do not know in what way. I love him as if he were one of the saints—but also as if he were a helpless little child. Yet not—Pletro—as if, he were—the man I love. I would its little child. Yet hot—Pietro—a if, he were—the man I love. I would give my life for him in a rush of de light, if he needed it. But I know now whatever were my vague dreams it past years, that it is not in Francoi to care for a woman as a human man. "I am not so sure," said Pietro, an shook his head.

shook his head.

"You know I am not abusing on Francols." Alixe protested. "Why Pletro, my father believes, and I be lieve, that if affairs should so happed that he has his opportunity he may yet be one of the great characters in history. My father save he to the protection of the great characters in history. history. My father says he is m up of inspirations, illuminations—

"Yes," said Pietro thoughtfully, "He has the faults of brilliancy and fear-lessness. He judges too rapidly. If he were afraid over—if he saw the other side of a question ever, his judg-ment would be safer. It may well hap-pen that he will be one of the great

Suddenly a Thought Shook Him.

en of Europe; it may also happe

men of Europe; it may also happen that by some single act of mismanagement he will throw away his career—or his life. God keep him safe!" Pletro said simply.

And Alixe echoed it—"God keep him safe!" And then, "I am going to write him, Pletro—about us. My father knows where to reach him at Boulogne I am going to say just a word—that what he has wished for all his life is true. It will get to him the night before the hattle."

"Are you sure you are right, Alixe?" Pletro asked doubtfully.

"Sure," said Alixe Duoyantly.

Pietro asked doubtfully.
"Sure," said Alize Duoyantly.
"Give him my love, then," said Pie

CHAPTER XXXI.

my brother—Louis." And went believe I shall not sleep tonight. I believe I am too happy to slee As one reads a novel for rela in the strain of a critical busin fair, Prince Louis caught at the traction of this side issue. The traction of this side issue. The importing was planned to the last tail; there was nothing to do till light, yet he could not sleep at pent. Here was a romance of a sort. He sank back on the cush of the coach of Lieutenant Aladeni smoking room and put his feet up uriously, and slowly lighted a coach of Havana.

urlously, and slowly lighted a cis of Havana.

"Tell me," he ordered, and the get tleness of appeal was in the order.

"Sire"—the young man began—a corrected himself. "Louis," he sa The Prince smiled dimly. "Since of landing I have known that a wond ful thing has happened to me. It is he spoke lower—"it is the tove of t woman who is to me the only one the world."

said gently. "Is it by any c delightful little Mademoisell

delightful little Mademoiselle Alixe of the old chateau?"

Beaupre turned scarlet. He was marvelous man, this Prince Louis How had he guessed? "She loves m—I have here a letter in which sh tells me that she loves me. Will highnesh read it?" With an impete ous step forward he held the paper toward Louis Napoleon.

"I thank you," the Prince said gravely. He read:
"Francois, what you have wished a

is, what you have wished all

your life is true. The good fairles have granted one of your wishes before the battle. That they will give you the other two on the day of the battle is the belief of your "ALIXE."

hattle is the belief of your "ALIXE."

And below was written hurriedly. "Pietro sends his love."

The Prince gave back the letter with a respectful hand; then looked at Francois inquiringly. "What you have wished all your life," mon ami?" Francois laughed happily. "One must explain, if it will not tire his Highness." And he told, in a few words, of that day when his self-restract had given way and how, when his guard was down and he was on the point of telling his lifelong secret love, some spirit of perversity—but Francois did not know it was an angel—had caught Alixe, and she had accused him of wishing always that she might love Pietro. And how, meshed in that same net of hurt racklessness, he had anawered in her own manner—"Yes." he net of hurt recklessness, he had swered in her own manner—"Yes," had said, "It was that which had be the wish of his life—that Alixe mi love Pietro!" And Francois laug gaily, telling the simple entanglem to the Prince, the night before battle. "One sees how she is quand clear-sighted, my Alixe," he s"For she knew well even then it not that I wished." He stopped, in the quiet contained took of listener an intangible something strachill to his delicately-poised as tiveness. "What is it, Louis?" he cout. "You do not think I mistake—alixe!"

stako—Alixe!" (TO DE CONTINUED.)

one of the greatest problems of all education.

In the year we find our county boards appervisors more awake to the distance from the farms. It has often by me for the farms as we lide the farms of the f

rty-six boys from the seventh to lenth grade registered for this e and listened intently with note-

the tenth grade registered for this course and listened intently with notesooks in hand to daily programs made
ap from the following topics:

The purpose of this school; att factors of crop production; methods of
controlling the factors; the principles
of pruning; life history, habits and
how to control the white grub; the
care of farm tools in field and shop;
care and operation of farm gas engines; relation of plants to the carthen cycle; bank organization—the
function of the bank; irrigation; life
history, habits and-bow to control the
corn root-louse; instruction in rope
work; shrinkage of corn in crib; the
aspect of the sell; the physical improvement of soils; the capillarity of
fat important soil types; work in conerete—building fences; the value of
farm land; purpose of Coles County
Boys' Corn club; economic biology;
where and how people live; general
review of the work.

The expense of the school was
borns largely by the fund provided
by the county board. A number of
excursions were made into the country for practical demonstrations and
object lessons.

The economic value of such a
course can hardly be calculated.
These boys were led to an entirely

The economic value of such a course can hardly he calculated. These boys were led to an entirely new viewpoint in agriculture, with encouraging prospects toward better tarming and the atmosphere of the class-room as well as the leadership of their instructors, have every reson to develop into stronger men as well as examples in their several communities.

During pregnancy the brood sow has a strong demand on her for material for hone, muscle, nerve and hair. And she should he so fed that she can supply this demand without robbing her own system to do it.

Corn alone will not supply the necessary element; the sow needs a variety of feeds. Mill feeds, such as bran and wheat middlings, are most excellent. I prefer to feed bran dry so it will be thoroughly masticated before being swallowed.

In case wheat middlings are used, it is best to make it into swill. In the bill of fare a few roots should be added, or, where roots are not available, a few potatoes may be fed, as farrowing time approaches.

I feed my brood-sows no corn at all for at least two weeks before farrowing time. I find wheat bran far superitor, as it furnishes plenty of bone making material and also keeps the bowels in good condition.

I give my sown a warm, dry place in which to dissp, and do not allow them to draw themselves over any obstructions, such as boards, bars and the like I watch them closely and give them the best possible care without overconfining or overteeding them. They have all they will drink, twice day, of good, clean water.

times as much wheat as she produces. Inglish farmers use several hundred thousand tons of commercial plant food, annually.

Belgium imports five times as much wheat as she produces and quantities of corn and oil cake,

Germany consumes nearly twice as much wheat as she produces and imports corn and a billion pounds of oil cake, while she exports principally two billion pounds of sugar, containing no plant food of value.

Denmark imports more wheat than she produces, besides corn and 600,000,000 pounds of oil cake, and exports principally 176,000,000 pounds of butter, containing practically no plant food.

These countries that feed practically all they raise and buy in addition large quantities of fertilizers and other foodstuffs from which to produce still larger amounts of manure, can thus make their soils richer than ever before, but the great agricultural areas of the United States are being steadily depleted.

Improvement in seed, cultivation and erop rotation and the addition of 2,000,000 acrés of richest black soil have increased the average yield of corn in illinois, but some portions of the 7,000,000 acrés of older corn land are now producing smaller crops.

If we repeat in the great corn belt the history of land ruin in Falestine, in southern Europe, in Russia and in the eastern United States, where shall our children go for bread? After the land is impoverished it is too late to invest in soil improvement. Poverty is helpless. Illinois can not afford to wait 25 or 50 years before adopting permanent systems of soil improvement.

If we are to maintain the fertility of our lands was must areal.

If we are to maintain the fertility If we are to maintain the fertility of our lands we must apply limestone and phosphate where needed to grow legumes, and we must plow under the legumes to feed the grain crops. This is the Illinois system for not only maintaining fertility, but for increasing it indefinitely.

WITH THE SOWS AND PIGS

farrowing time approfind that it pays to be on friendly terms with the brood sows, for even if they are given the best of food and care there are certain losses we can-

Many hog raisers will laugh at the idea of making friends with the brood sows, but I have found it a paying proposition to go among the sows and their litters and handle them in a care-

ful manner during the farrowing period and for a few days after.

The young pigs must have dry nests and the bedding should be changed frequently, and lime or some other disintectant sprinkled in the nest when

son to develop into stronger men as well as examples in their several communities.

CARE OF BROOD SOWS

During pregnancy the brood sow has a strong demand on her for material fig. bone, muscle, nerve and hair. And she should be so fed that she can supply this demand without robbing her own problems to do it.

Corn alone will not supply the ascessary element; the sow needs a variety of feeds. Mill feeds, such as bran and wheat middlings, are most excellent. I profer to feed from thy so it will be thoroughly mustlented before being rawallowed.

In case wheat middlings are used, it is best to make it into swill. In the bill of fare a few roots should be added, or, where roots are not available, as few potatoes may be fed, as throwing time approaches.

I seed my brood-sows an corn at all fee at least two weeks before farrow hig time. I find wheat heart far suspendent, as it furnishes pleuty of hone making material, and also Keeps, the bowles in good condition.

I give my swore a warm, dry place in which to also, and do not allow them to fraw homesters over any do structions, such as boards, bare and the life. I watch time closely and give them the best possible sure without oversonishing or west-collect, but to ascending the values of the law of the many homes of the life, but to ascending the values of the law of the play is not allow them to fraw homesters over any do structions, such as boards, bare and the life. I watch time please are did not understand the cause of the through any homesters over any down and alwer have all they will draik, twice a day, or good, clean water.

Many humans often have is me heg and do not understand the cause of the many homestal and sever how and after them the best possible sure without oversonishing or west-collected and provided the law of the play have all they will draik to a separately to bring on inhumitum.

WAS A PERSONAL SUBJECT

od Reasons Why Mr. Higgins Was Not at All Sorry the Conversa-tion Was Interrupted.

Mrs. Hiram Higgins was speaking her mind to Hiram in a manner that was emphasis long drawn out. From the room where they were Hiram could see the front porch and when he observed the parson come in and pause at the steps within ear-shot he told his wife of the visitor, and went out to meet him."

"Ah good morning Brother Higgs

"Ah, good morning, Brother Hig-gins," said the parson in pleasant greeting. "I hope I didn't interrupt a family conversation. Didn't I hear your wife talking?"

"That's all right, parson. Come right in," said Mr. Higgins, glad enough.

right in," said Mr. Higgins, glad enough.

"I hope I didn't disturb her before she finished her subject," said the parson, taking a chair.

"I'm glad you did, parson," said Mr. Higgins, cheerfully.

"What was the subject?" laughed the parson. "Woman suffrage?"

"No, sir; it was me."

Whereupon both of them began to laugh, but suddenly quit as Mrs. Higgins came out smiling.

PIMPLES ON FACE AND ARMS

411 Howard St., Dayton, Ohio.—
"About a year ago my face, neck, arms and back were beginning to become afflicted with pimples and blackbeads. My pimples would get very large and appear to come to a head. If I tried to open them the path would be terrible, but nething could be taken from them. They itened very badly; I suffered terribly from Itching. After scratching, the pimples would swell and after the swelling was gone my face would become very red and remain so for some time. My clothing caused the Itching to be worse. When it was warm it was utterly impossible to elect.

It was warm it was utterly impossible to sleep.
"I used a cream and the more I used the worse they got. Shortly after, I read the advertisement of Cuticura Saap and Ointment and determined to use them. 'The itching stopped almost immediately. This was about three months ago and I am entirely cured now.' (Signed) Miss Marguerite E. Jacobs, Jan. 13, 1913.

Believed in Daylight Saving.
The late King Edward practiced daylight saving on lines similar to those proposed in the daylight saving parliamentary bill. For many years at Sandringham he caused his clocks to be advanced 30 minutes during the summer months, and in the last two years of his life he caused the same rule to be observed at Windsor and Balmoral, and said that he was favorably disposed towards the bill.

Modern War Fireworke.

The most elaborate fireworks in the world are those reserved for use in time of war. The possibilities of signaling for long distances and of fireminating the enemy's position by might have been carefully studied and areworks of unprecedented size and brilliancy have been constructed.

Let another great war be fought and the fireworks display would completely cellipse our most elaborate Fourth of July celebrations. One of the most beautiful of these fireworks is a star shell. By means of a large rocket arrangement these stars are sent to great altitudes, and on bursting throw a powerful white light over a considerable radius.

The war rockets are the jargest ever constructed, measuring eight feet or more is length. On exploding at great altitudes combinations of colored stars are set free which will signal widely scattered troops.

Half of the fun of anything is looking forward to it, and the other half is looking back at it; the climax, the event itself, is merely the point at which the two kinds of pleasure meet in the middle.

Learn to go to your good time, when

Learn to go to your good time, when you have earned it, with the full expectation of enjoying yourself; and when it is over, let the happy memory of it keep coming back to bless and sweeten the subsequent days.

To a great extent, wherever you go, you bring your own happiness with you. You will have the best time by giving it to others, contradictory as this may seem. You will look back with most satisfactior on the occasion, when you were "the life of the party," when you entered into the fun and when you entered into the fun and made most of it yourself, and did not sit back and expect to have it made

STOMACH HEALTH-OR NO COST TO YOU

Very likely others have advised you to use Rexall Dyspepsia Tablets, because scores of people in this community believe them to be the best semedy ever made for Dyspepsia and Indigestion. That is what we think, too, because we know what they have done for others and what they are made of. We have so much faith in them that we urg you to try at our risk. If they don't help you they will cost you not a cent. If they don't do not do all you want them to bo—if they don't restore your stomach to health and make your digestion easy—just tell us and we will give digestion easy—just tell us and we will give back your money without a word of quest

Containing Pepsin and Bismulth, two of the greatest digestive aids known to medical lining, help in the secretion of gastric juice, check heartburn and distress, promote regular bowel action, and makes it posible for niar bowel action, and makes it posible for you to eat whatever you like whenever yo u like, with the comfortable assurance that there will be no bad after effects. We believe them to be the best remedy made for dyspepsis and indigestion. Sold only at the more than 7,000 Rexall Stores, and in this town only at our store. Three sizes, 25c 50c and \$100.—J. W. Finley. Rg. Pb. Adv.

Must Not Whistle in Russia. In certain cities of Russia street whistling by civilians is a penal of-fense, the privilege being reserved for the police; who exercise it, however, not in order to make tunes with their mouths, but to send signal blasts to each other. The whistling habit being hereditary, it soon disappears, and in these cities no difficulty is ex-perienced in dealing nowadays with the few who offend.

"Johnnie," said the teacher of a metaphysical class, "can you give me a familiar example of the human body as it adapts itself to changed condi-tions?" "Yessum," said Johnnie, "my aunt gained 50 pounds in a year and her skin never cracked."

Dr. Miles' Anti-Pain Pills

will help you, as they have helped others.

Good for all kinds of pain. Used to relieve Neuralgia, Headache, Nervousness, Rheumatism, Sciatica, Kidney Pains, Lumbago, Locomotor Ataxia, Backache, Stomachache, Carsickness, Irritability and for pain in any part of the body.

"I have always been subject to neuralgia and have suffered from it for years. While visiting my son and suffering from one of the old attacks. he brought me a box of Dr. Miles' Anti-Pain Pills. I used them as directed and after taking them it was the first time in years the neuralgia ceased from the use of medicine." MRS. E. C. HOWARD.

MORALITY AND FASHION.
It may be argued with considerable force that more harm that good has been done by the fulmination of morallets against the silt skirt and discontinuous and the silt skirt and discontinuous and the silt skirt and discontinuous and skirt skirt and skirt s alists against the slit skirt and di-aphanous gown. What these philip-ples have done in chief is to empha-size the comparatively few cases of extreme styles and kept the prurient aspect of the subject constantly be-fore the public. The mind that is stirred to evil by the slight reveal-ment of the average slit skirt needs no special excitant. It is unwholes comely provided and will see avil any nely prurient and will find evil any where, It is childish to believe its prurience can be so created, says the Chicago Tribune. Puriets are con-stantly exaggerating the importance stimuli and attacking symptoms instead of causes. If ther; were more sermons preached against impure thoughts and fewer against objects, often of themselves quite innocent, which purists are afraid will stir impure thoughts, more progress would be made. M our minds are so unclean that we cannot see the lines of a wom an's body without impure suggestion the cure should be applied to us, not to her. "If thine eye offend thee, pluck it out," has a meaning as valid now as

We note that there is the futures musician in the forefront now claim ing the attention of the musical world, It is said he has fallen away from the path of harmony and has created al-most a new method of musical expression, says the Ohio State Journal. As the cubist and futurist are associated together in the mind of the nonde script looker on, it will be very inter esting to know how the futurist will acquit himself and whether he will finally eject discord into the soul of melody, as the cubist would convert chaos into grace and beauty. Some how the common people, who have never reached the heights of musical culture, are waiting for some reforme to come to awaken their emotions by a new strain, and possibly this futurist is the dreamer expected. It is under stood he will appear this winter. Old Wagner will melt into a soft lullaby when this futurist tunes up his pipes It is time we were having something new in music, and the times are get ting too ragged and the classic too fashionable to appeal to the soul of humanity that feels a faith in music.

automatic soldier, which he claims will do away with most of the dangers of war for the army employing his inven-tion. It consists of a steel cylinder inclosed within another cylinder which is embedded in the ground. The fighting power is set in motion by means of wireless telegraphy, the inner cyl-inder rising to a height of about five feet above the surface of the ground. At the same time an automatic gun fixed in the cylinder opens fire with 400 bullets in any required direction. The automatic soldiers may be brought into action by an officer at a distance of five miles from the line of defense. Further, it is pointed out that there is no danger of panic.

The Swiss astronomer, Le Coultre, who has been observing the planet Mars during the past five years, calls attention to intermittent luminous appearances resembling the rays of powerful searchlights, which appear always in the same spots. This suggests the old notion that Mars is inhabited by intelligent beings who are endeav-

Not so very long ago the blonde was blamed for all that went wrong in the world. Now, she has been exonerated and the brunette pilloried in her turn. But it may be noticed that however the fashions in wickedness change it is always the woman, light or dark, who is to blame.

A Chicago man explained to the judge that he turned in false alarms of fire to amuse his mother-in-law With all our boasted progress, amusing mothers-in-law does not seem to have been made any easier.

When a woman feels like complaining that the hats and gowns of the present day are not as pretty as in the past, she should remember that it is a sign she is getting old.

That judge who sentenced an egg thief to a five day diet on eggs set a bad precedent. Suppose some one takes to stealing steak!

My no! The man who is continually supporting a frown isn't necessarily a grouch. He may be trying to

Efforts to conserve the birds of pasage will work devastation among the mock ducks.

Say what you will about football, it discourages the mollycoddle.

Tip to everybody: Why not investirate something?

HIS simple rule of health is daily called attention to by every doctor in the land, whose first question to the patient almost invariably is, "Are your bowels regular?" Yet there's not one person in fifty who takes proper care of the bowels. And the result of this foolish neglect is nine-tenths of all ill-health. If today you are unable to free your body of waste matter at the usual time, or if the act causes straining, pains and discomfort, don't let that condition occur again tomorrow. Unless your bowels can carry away the waste materials left after food is digested, decay sets in, the poisons of which, taken up by the blood, increase the risk of Typhoid Fever, Appendicitis, and many other serious diseases.

In treating constipation, there is a right way and a wrong way. The wrong way is to take harsh purgatives which even though they do clear the bowels, cause griping and nauses, injure the delicate tissues, and so disturb the normal functions as to cause the return of constipation. The right way is to help Nature to produce natural movement, without pain or discomfort, by using called attention to by every do

Rexall Orderlies

More One Hundred Million Were Sold Last Year

This enormous quantity was used with good results by busy men who suffered from constipation, due to lack of exercise, or indigestion caused by overwork—by children whose parents realize the harmful effect of common purgatives—by old people whose systems cannot stand anything harsh—by women during pregnancy, and after child-birth, when any medicine with a violent action would be particularly dangerous. Many of these people are your neighbors and friends. Ask anyone who has ever used them—they'll tell you Rexall Orderlies satisfied and helped them.

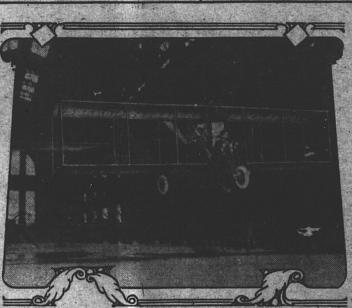

a gentle laxative in the form of a chocolate-tasting tablet. One of these tablets eaten just before going to bed will help to restore your bowels to normal activity at a time when, your body being at rest, the medicine can do its best work. As a result trest, the medicine can do us test work. As a resulking that tablet (or say two, if your case is obtained, your bowels will move easily and naturally in the morning. The use of Rexall Orderlies for a few days afterward will restore nor-

ing. The use of Rexall Orderlie days afterward will restore normalized by them, and it of necessary to continue the atment for a long time, because, instead of driving Nature, they simply help her to help herself. tin boxes,

This ls Our Guarantee-You

Risk No Money If Rexall Orderlies do not make your bowels act right, tell us so and we'll give back your money without asking a single question. There is no red tape to this guarantee. It means just what it says. You sign nothing. We won't hesitate, or ask you any questions. Your word is enough. If Rexall Orderlies do not do all you expect them to —if you don't feel better after using them and find that they are the pleasantest-acting and best laxative you have ever used, we want you to tell us and get your money back.

Copyright, 1914, by Panama-Pacific International Exposition Ca.

THE WORLD'S FIRST INDOOR AEROPLANE FLIGHT, PAN-AMA-PACIFIC INTERNATIONAL EXPOSITION, 1915.

HE world's first indoor aeroplane flight was made recently by Lincoln Beachey, the American aviator, on the grounds of the Panama-Pacific International Exposition in San Francisco. Starting at one end of the Palace of Machinery, which is the largest wooden frame structure in the world, being almost 1,000 feet in length, Renchey attained a terrific momentum and rose into the air to a height of fifty feet, actually flying for a distance of 300 feet. At the opposite end of the building barriers of cloth were held by assistant to lessen the impact of the néroplane. The machine, however, provided with a hundred horsepower engine, easily tore through the cloth, and the aviator received a severe shaking up. The difficulties of the flight were increased by the fact that the interior arrangement of the building consists of three longitudinal aisles each seventy-five feet in width, and Beachey flew down the center aisle, having to keep a straight course in order to prevent the aeroplane from striking the great columns of the aisle.

Marks End of Childhood.
Children pass out of a stage—open, beautiful, exquisitely simple—into at lences and discretions beneath an imposed and artificial life. And they are lost. Out of the finished, careful, watchful, restrained man and woman no child emerges again.—"The Passionate Friends"

She Knew Her Righte.

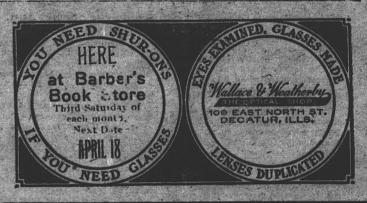

"Yes, grandma," murmured the littie girl drowsily, "Til be a good girl
and let you rock me to sleep, but
you got to wake me up when mamma
comes home so she can rock me to
sleep regular."

Simple Cure for Headachs. Simple Cure for Headachs.

One of the quickest known ways of dispelling a headache is to give some of the muscles—those of the lage, for instance—a little hard, sharp work to do. The reason is obvious. Muscular exertion flushes the parts engaged in it, and so depletes the brain. When your head aches take a stiff wells of a short bicycle ride.

Fover Drink.

Pour cold water on wheat bran, let boil one hour, strain and add sugar and lemon juice. Pour boiling water on faxseed, let stand till it is ropy, pour into hot lemonade and drink.

Gen. Villa and his army of 12,000 rebels invested the federal stronghold of Torreon. The khaki-clad columns occupied the environs of the city without opposition.

Dr. Edward S. Holden, 68 years old famous as an astronomer, scientist and educator, librarian of the United States military academy since 1902 died at West Point.

switch engine.

After a vigorous defense of wor suffrage in the senate, Senator Borah of Idaho shocked suffrage advocate on the floor and in the galleries by declaring that it was impractical and impossible to obtain the vote for women by a constitutional amendment.

Vincent St. John, general secretary of the Industrial Workers of the World, scouted the possibility of any army of unemployed conducting a revolution against the government.

A conference of representatives of commercial clubs of the Mississippi valley from St. Paul to New Orleans is to be held in St. Louis April 29 to consider river terminals.

The senate went on record in favor of a constitutional amendment for equal suffrage. The vote was 35 to 34 in favor of the resolution, but, as a two-thirds vote was required to pass the resolution, the vice-president as nounced that it had failed to carry.

Grave events are impending in Ul ster, according to the Unionist news papers, and a rumor is current that the government is preparing for the military occupation of the province. There are various indications that a crisis has been reached.

VARIOUS MESSAGES ANNOUNCE REBELS HAVE PENETRATED FEDERAL STRONGHOLD.

700 DEFENDERS ARE KILLED

Chihuahua Dispatch Says Flores Fight ing Continues at Gomez Pa ndreds of Huerta Trop Said to Have Described.

Chihuahua.—An official dispatch received here says fighting continues fercely at Gomez Palacio. The rebels are said to have captured the stone railroad roundhouse and to be fighting from it. The rebels claim the federal dead number 700. No report as to their own losses have been made public, but it is learned that they have at least 80 wounded.

VILLA ABSOLUTE MASTER

VILLA ABSOLUTE MASTER
OF ALL NORTHERN MEXICO.
Ell Vergil, Durango, Mexico.—Gen.
Villa has won a complete and sweeping victory in Torreon. The former
bandit and refugee is now the absolute master of Northern Mexico.
He has routed the federals to the
aorth, scattering many of them over
the United States border for their
lives. He has amashed and driven
everything before him, from the border to Torreon.
There are only meager federal

der to Torreon.

There are only meager federal forces to resist his occupation of Monterey and Saltillo, and Tampico on the east and Mazatlan on the west. With the Huerta army under Velas-co scattered and broken beyond re-pair, the road to Mexico lies open to Villa, the capital lies 600 miles to

the south of him. The fierce hand-to-hand fighting in the streets, the flaming of buildings put to the torch and the devastation generally that fell on Gomez Palacio

also have visited on Torreon. In the fierce fighting of the last 48 hours hundreds of federal troops broke from their ranks and deserted

Villa's army.
Villa, on entering Torreon, found an epidemic of cholera raging in the federal ranks. Corpses of soldier victims were strewn in all the trenches.

Bading and Seidel Named. Milwaukee.—Returns from Milwau-kee's primary election indicate that Mayor Gerhard A. Bading, nonpartisan, and Emil Seidel, Socialist, wil oppose each other at the municipal election, April 7, as candidates for mayor. David S. Rose, who served the city as mayor five terms previous to 1908, ran third.

Senator Crawford Defeated. Pierre, S. D.—Congressman Charles H. Burke, candidate of the minority Republican faction, was nominated for United States senator over Senator Coe I. Crawford, the majority faction candidate, according to incomplete re-turns from a state-wide primary elec-

"Don't Swear" Campaign. Cleveland, O.—The police have been enlisted in the "don't swear" movement started by Cleveland club wom. en. Chief Rowe instructed the mem-bers of the force to detain any one heard swearing and give the offender colding.

Naturalist Loses Notes. Wellesley, Mass.—The results of three years' experiments with the brains of ants-a mass of statistics and 4,000 photographic slides—were lost in the fire which destroyed College hall at Wellesley college.

died at West Point.

Harry Nisbet of Coulterville, III., and John Donley of Whatcheer, Ia., were killed when a handcar on which they were riding was struck by a of the wounded, Stanislaus Sloienski, died in a hospital.

> Editor Suss Rock Island Mayor. Rock Island, Ill.—Mayor H. M. chriver and six members of the police force have been made defendants in a suit for \$100,000 damages by John Looney, former publisher of the Looney, former publisher Weekly News.

Boats Collide; 18 Drown Koepenick, Germany.—Fifteen peo-ple were drowned here when a tug ran into and sank a small ferry boat crowded with workmen and their wives.

Colonel to Get Revolver,
Milyaukec.—Col. Roosevelt will be
given the revolver with which John
Schrank attempted to kill him, togother with five unused shells.

510-Pound Man Is Dead Arensville, III.—Peter Baujeu, the largest man in Illinois, is dead here. He weighed 510 pounds and for many years traveled with the late P. T. Bar num. He was a Russian and born in 1851.

ciecte Mule, Wife Murc Palermo, Sicily.—Fearing would steak a mule, Michael stable. The robbers broke in bedroom, murdered his wife an with all his money.

ALL MEN WHO RESIGNED ARE ORDERED TO RETURN TO THEIR REGIMENTS.

MEN TO RESUME COMMANDS

lounderstanding of Order for Marc Into Ulster in Home Rule Crisis Blamed for Situation, Which la Much Relieved.

London.—Mutiny in the Britis my growing out of the Ulater cris-ill, he crushed with an iron han-ling directly from a conference with King George to the house of conous, Col. J. B. B. Seely, secretary war in the Asquith esbinet, announce hat all the officers who had resigned Ireland rather than proceed to r, had been ordered to rejoin the

His statement that defections fro the army would not be tolerated was cheered by the Liberals and jeered by the Unionist opposition, which has tostered the Ulster rebellion with its

nti-home rule support.

The government took the greatest aim to extend assurances that the hreatened disruption of the army rowing out of the movement in troops in Ulster was entirely due to a mismoderstanding of orders; that there is no the support of the supp inderstanding of orders; that there was no real danger of officers with-rewing from the service because of their refusal to serve in Ulster, and hat a complete understanding had seen astablished between the war of the and troops' commanders.

As a further indication that the in-

As a further indication that the in-structions of the war office had been misinterpreted, but later made clear, Gen. Gough, commanding the Six-teanth Lancers and Fourth Hussars, stationed at the Chrragh, withdrew his resignation. Similar action was taken by other officers stationed in Treland, and all have resumed com-mand.

After a statement by War Secreely in the house of comm admitting that many officers had re-signed, Premier Asquith went into great detail to set at rest the reports of wholesale disaffection and explain the exact situation.

Absolute denial was made by Asquith and Seely that the movement of troops in Ireland was for any other reason than to assure adequate pro-tection for government stores in UI-

The withdrawal of the resign of Gen. Gough and the other officers relieve the tense situation materially.

Severe Volcano Eruption Tokio.—A severe eruption of the volcane on Suwanese Island, south of Kyushu, has started. The flames rose 500 feet above the mouth of the crater. An expedition has been sent to give relief to the 280 inhabitants on the island.

Train Kills Man and Woman Portland, Ore.—George L. Michelle of Portland and Miss Essie Ellis of Salt Lake City were instantly killed by an electric train on a treatle near lastacada. Miss Ellis' foot became caught in a crevice as the train ap-

Early to Bed for 75 Years. Freeport, Ill.—Mr. and Mrs. Thomas Sifer, who reside near Lanmark, will celebrate their diamond wedding anniversary soon. They are 97 and 96 years old, respectively, and until recently neither had suffered a day's ill-

Convicted 415 Times, He Beasts.
London.—Sentenced to 14 days' imprisonment in Eastbourne for begging, William Jeffray boasted that he had been convicted 415 times and that it had taken 1,200 policemen to arrest

Cannibals Kill Six Teachers. Sydney, N. S. W.—Natives in the aorth of Malekula Island of the New Hebrides group have murdered and eaten six natives, teachers from the Walla Island mission station.

Louvre Papyrus la Missing.
Paris.—An Egyptian papyrus of great value is missing from the Louvre. It was presented to the museum in 1887 by Adolphe Cattani, a noted Egyptologist.

Four Attempts to Wreck Train.
Chicago.—Four attempts have been made to wreck the Olympia Special, one of the crack trains of the Chicago, Milwankee & St. Paul railroad, within a few weeks.

Gas Kills Man and Wife. New York.—Gas poisoning cause he death of Hiram J. Collins, 82 years old, and his wife, Anna W., 81, in rooming house. In his youth Mr. Co lins was an associate of Samuel . n, governor of New York.

Toppling Train Kills 2, injures 5.
Indianapolis, Ind.—D. D. Alsden, a fireman, and M. F. Pelance, a brakeman, both of Indianapolis, were killed and five other men injured when a Big Four freight train struck a deceiling article here.

Marine.—As a result of alleged differences between local officials of the Benk of Marine and its president, B. Munday, who is vice-president, the LaSalle Street National bank is Chicago, the vice-president, cashies assistant cashier and two other direct tors resigned and will start a new bank in Marine. Differences of opinion concerning the value of collateral are said to have caused the resignations. "There is nothing to the story, said C. B. Munday of 1917 Drexel coulevard. "There was simply a change in the stockholders and consequently a change in officers at the resent election, the first since the shift of stock."

minated at the primary ele is: Improvement Competant lage clerk, H. M. Lipe; treasu Village clerk, H. M. Lipe; tressurer, Howard B. Haines; trustees, J. J. Eaton, Alva Campbell and S. D. Marlowe. Progressive Temperance—Treasurer, George Galbraith; trustees, John Norton, James Norton and Charles Taylor. Socialist—Clerk, Charles Stoker; treasurer, Henry Staer; trustees, Charles Wiggins, J. C. Farmer and F. G. Ford. Democratic—Trustees, J. H. Bell and Dave Hartman. Republican—Trustees, Mrs. Cleero Barber, Mrs. Louise Rice and J. J. Burge.

J. J. Burge. Marine.—Half of the officials of the Bank of Marine, a state institu-tion, resigned following a dispute be-tween C. Munday, president of the bank, and Oscar H. Gehre, cashier, over the value of certain collateral. Munday is vice-president of the La. Salle Street National bank of Chi-cago, of which William Lorimer is president, and has a chain of banks through southern Illinois. The flurry in the Marine bank caused a sensation in Illinois banking circles. The resigning officials took immediate steps for the organization of a new bank.

Quincy.-Frank O. Pennington, a Quincy.—Frank O. Pennington, a school-teacher of Colchester, was arrested on a warrant charging him with beating Katherine Nee, eighteen-year-old daughter of John Nee, a wealthy farmer. The teacher accused the girl of cheating in an examination. When she denied the accusation, Pennington struck her eight times in the face, making the blood flow and blackened one eye, it is alleged. Miss. Rea Burford, a senior, attempted to interfere and Pennington struck herin the face, knocking her to the seat, it is said. He is out on bond.

Centralia.—Mrs. Ellen Cade heads

Centralia.—Mrs. Ellen Cade heads the Progressive township ticket named at the convention. She received a majority of the votes cast over her four opponents for tax collector. The Moose named a full ticket as follows: Supervisors, Owen W. Thomas, W. J. Adams; assessor, Thomas G. Harmon; town clerk, W. R. Parkinson; highway commissioner, Eliner G. Baldridge; justice of the peace, N. A. Geyer; constable, Harry McMillen, and school trustees, Fred Cawley, John M. Sand-

Centralia.—Fire destroyed the shoe heel factory operated here by the American Shoe Stock company. The loss is about thirty-five thousand dollars. Insurance of \$25,500 was carried, on building, stock and machinery. H. B. Abbott of St. Louis is president of the company.

Peoria.—Mrs. C. W. Brownell has filed suit in an English court to regain possession of Twittel castle, part, of historic Flodden field and other-property in England belonging to Gen. Robert Durley Blake, of whom she claims to be an heft.

Bloomington.—While inspecting his farming property near Sallsbury, Mo., Fred Speckman, rich retired farmer of near Havans, was struck by a train, and killed. He was aged sixty-eight, years.

Decaur.—Richard B. Roderick, a. Wabash conductor, was shot and fatally wounded by Ed Phipps, a Wabash engineer, following a quarrel over Mrs. Phipps. Phipps gave himself up.

Page Wollowing

self up.

Pana.—Following a session of the Red Men's lodge the structure collapsed. It was a four-story brick. The loss is \$15,000. One hundred members of the Red Men had a narrow escape, having left the building shortly before the collapse. Two hundred persons who attended a dance in an opera hall adjoining the Red Men's hall passed in front of the building less than five minutes before it collapsed. Vandalis.—Edward Brown, father of County Clerk G. A. Brown, and a pioneer settler of Payette county, is dead at his home at Brownstown. He was eighty-eight years old.

explosions. utside of Chicago one fire was caused from dust explosion; one by the explosion of fash light powder; \$2 from defective flues; ten from chim-neys burning out; 48 from stoves being too near wood; and 125 of unknown

Milk Business Growing.
Increasing enormously of late years, the dairy industry of llimois is now a matter of millions where formerly it was measured by the thousands. Farmers are heginning to realize that there is more money in selling milk and cream than in almost any other branch of the rural industry.

Most of them have dropped the idea of butter making, except for their private use, and instead, are selling the lacteal fluid at large profit to themselves. It has been computed that the creameries of Illinois are paying out fully \$10,000,000 annually for milk and cream. In the Kane and McHenry county district alone a half million dollars is being paid out each month to dairymen of the vicinity.

The present season has been ideal for the dairy industry. The mild fall and timely rains resulted in first-class pasture up to December, the result being that the output of milk and cream has compared favorably with that of the summer months. Ensilage, exten after grass, makes the milk better than it has been for many years. The fly is the great pest of cattle, and these insects have been gone a long time.

There has been considerable fall

these insects have been gone a long time.

There has been considerable fall feed in addition to grass, which has supplied the cows with nourishment. The cows shring somewhat with the cold, and it is necessary to increase the amount of feed to maintain the supply of milk. Dairymen say that the present mild weather is the best that could be devised for milking.

Farmers in the dairy districts of Illinois work the year round, while their neighbors, who do not pay any attention to this industry, are idle during the winter months, the dairymen, on the contrary, are raking in the dollars 12 months out of the year. The more severe the weather the greater the dividends. The dairy farmers can afford luxuries which those who ignore this feature can never hope to secure.

output of milk increases from 40 to 50 per cent between September

Commercial Federation Meets.

Officers and members of the Illinois Commercial federation held a district meeting at Jacksonville, at which representatives were present from Chicago, Peoria, East St. Louis, Sullivan, Granite City and Centralia. Sullivan, Granite City and Centralia. President E. C. Ferguson of Chicago delivered the principal address. Willis Evans of Peoria told of the work secomplished and of the large number of commercial organizations that are coming into the state federation. President Ferguson declared that a chamber of commerce is no longer themeans only of establishing factories, but a directing force in the building of of cities and the making of men.

Miners Meet in Murphysboro.

The annual convention of the seventh sub-district of the United Mine Workers met in Murphysboro with nearly 150 delegates from southern Illinois representing a membership of more than 23,000.

e report of Charles A. Sullivan district secretary-treasurer, showed a balance of more than \$25,000 and an ingrease of nearly \$11,000 in 1913.

Sidney Smith Named Leader.

The Illinois Stallion Registration board, in its annual meeting organized for the coming year's work. Sidney Smith of Springfield, one of the two members, was elected president for the coming year. Other officers elected were: "Vice-president, Phil Haner, Taylorville, another new member; auditor, A. N. Abbott, Morrison; general field superintendent, Dr. O. E. Dyson, Chicago, state veterinarian. The board discussed principally routine business in addition to the carrying out of the annual election.

it would be the certified were will and the control of the control of the control of the certificates. Champaten Whether Secretary Woods will recognize the certificates and honor them has not been determined. It was stated the terms of the two employes in his office now holding the positions named in the certifications will not expire until the first of the coming month; by which time the secretary is expected to announce his course.

Hold Conference in Springfield.

Representatives of telephone interests of the state held a conference with the state utilities commission re-garding the relation of the new law

garding the relation of the new law to the phone companies. The Independent Telephone association, the mutual companies not members of the independent association, the Bell and the Interstate companies all had representatives at the hearing.

At the opening of the conference, which was held in the senate chamber, former Gov. Richard Yates, a member of the utilities commission, explained the purpose of the meeting and stated that it was the aim of the commission to obtain the views of the telephone interests on the application of the new law.

law. O. F. Heery of Carthage, former

O. F. Heery of Carthage, former chairman of the railroad and ware house commission, addressed the conference as a representative of the Independent Telephone association.

A bulletin will be issued by the commission within a short time, outlining the course the commission will take in reference to the telephone companies.

State Laundrymen's Meeting

The twelfth annual convention of

the Laundrymen's Association of Illi-nois opened in Springfield.

The two hundred delegates were the guests of the Springfield laundrymen at a theater party at the Majestic theater, after which the company went to the Leland hotel for a Dutch lunch.

to the Leland hotel for a Dutch lunch.
Reports from officers of the association indicate a flourishing condition, and a large number of additions were reported to the membership.

The convention was called to order by President F. C. Lagen of Joliet. The Rev. George T. Gunter, pastor of the Second Presbyterian church, offered the invocation. In the absence of Mayor John S. Schnepp, Assistant City Attorney Charles S. Andrus welcomed the laundrymen to the city.

The chief address of the morning

comed the laundrymen to the city.

The chief address of the morning was delivered by Fred C. Schwedtman, vice-president and general manager of the Racine-Sattley company of this city, representing the National Association of Manufacturers. He spoke on the subject "Accident Insurance and Workingmen's Compensation." The lecture was illustrated with lantern slides and motion pictures.

Mr. Schwedtman gave indorsement

tern slides and motion pictures.

Mr. Schwedtman gave indorsement to the present workingmen's compensation act, stating, however, that the law was imperfect and needed changing to be effective and just. He urged the formation of local safety standards established by the National Association of Manufacturers.

He declared that the rates of acci-dent insurance would be reduced as-safety appliances were installed, and expressed himself as favorable to a governmental school and exposition to teach lessons of safety and to demonteach lessons of safety and to demon-strate safety devices after French and German methods.

O. L. Bear of Toledo, Ohio, member of the American Society of Engineers, spoke on "The Utilization of Waste Heat." The address by C. W. Sawyer of this city on "How to Keep Accounts That count" was omitted, owing to the condition of Mr. Sawyer's vol

Chicago Man Is Appointed.

Chicago Man is Appointed.

Charles Nicholas Hebner of Chicago was appointed by the state public utilities commission as secretary of the commission, with a salary of \$5,000 per year. Mr. Hebner has been in the office of J. Z. Murphy, chief engineer of the hicago Railways company and member of the board of supervising engineers of the Chicago Traction company, having charge of the distribution of expenditures properly chargesble to capital, renewal, maintenance and operating account.

Earth's Gloom and Uncertainty Ended on the Morning of

T WAS Easter morning in the gar-den. Weeping women were wend-ing their way to the sepulcher to anoint the body of Jesus. Four evan-gelists tell the story. "While it was yet dark," says John: "As it began to

yet dark," says John; "As it began to dawn," says Matthew; "At early dawn," says Luke; "Very early... when the sun was risen," says Mark, All spake exact truth.

Who ever marked the boundary line between darkness and twilight? Who ever saw the instant when night began to melt away, and the first glimmer of dawn began to steal up the starlit sky? It was dark when the women started for the sepulcher. It was dawn when they arrived.

It has been dawn ever since. When

It has been dawn ever since. When "the stone was rolled away" the night of earth's gloom and uncertainty was

of earth's gloom and uncertainty was forever gone.

"As it began to dawn." Nature was in harmony with the wondrous event. Some subtle, silent power began gradually to dissipate the blackness of night. A faint flush appeared in the eastern sky; little by little it grew in brightness; the darkness shrank away in fear before its oncoming splendor. The full day was at hand. The sum shot its first way over the The sun shot its first ray over the hilltops and all the world burst into

End of Doubt and Gloom.

Language cannot portray the ineffable glory of the dawn. But the emails giory of the dawn. But the sunrise of the Easter morn in the garden paled before the splendor of the soul's more effulgent day. What a sunrise was that; what a universal emancipation; yea, what a resplen-dent noonday, when Christ, the con-queror of death, brought life and im-

queror of death, brought life and immortality to light.

To the early disciples this hour was the end of doubt and gloom and dark forebodings. They now understood words that had previously had no meaning. The Father's "house of many mansions" became to them real. The life to come was no longer a fancy, but a fact. The hopes awakened by Christ's teaching and wondrous career were now among life's most substantial certainties.

The light of that first Easter morn has never grown dim. Nay, more, the

has never grown dim. Nay, more, the passing centuries have only carried its rising splendor farther up the sky. The dawn has expanded into the fulness of noonday. In other words, the thought of immortality has wrought its vitality into the very fiber of the producer of the thought of the producer. of this modern age. It is the motive power of all our progress, the refiner and purifier of the world's best life. and purifier of the world's best life. Back of our hope, of our ardor, of our passion for continued existence, of our conscious worth, of our eternal outlook, of all our happy anticipations of the life to come, is the radiant light of the first Easter morn. The Voice that said "Fear not!" to the astonished and bewildered disciples in the garden has ever since been banishing the world's fear. Into believing hearts everywhere have come a great certainty and an abiding joy. In spite of controversy and doubt and wonder, and incapacity to fathom the mysteries of the supernatural, the wonder, and incapacity to fathom the mysteries of the supernatural, the heart of mankind has come more and more to rest upon and rejoice in the miracles of Christ's physical resurrection, with its consequent proof of the soul's immortality.

Means Spiritual invigoration.

Easter has become the most spiritually invigorating day in the calendar of the church. It brings into clear light the grounds of its faith and the certainties of its risen and regener.

certainties of its risen and regener-ate life. In all its best representatives today mankind has its eye on the fu-ture. It looks up and on and off and far away beyond all material horizons. salize, we live in the World Unseen. The greater includes the less. "Otherworldiness" is not the peril of the present age. Were it not for the spiritual realities of Easter we would forget our true inheritance. Eternity has always been the inspiration of time. The future beckons us with larger incentives than can be found within the narrow compass of the present. Our truest hearts and hopes are there. And this is why we sing, and press forward so eagerly and so confidently in our on-ward way. Every here and prophet and saint, every victorious soul, whether apostle or martyr, who has fought the good fight, and finished his course, and kept the faith, has done so in happy anticipations of the homeland. His inheritance and crown of sleptonessess were there. of righteousness were there.
"As it began to dawn." Earth's day

is bright in proportion as it catches its light from the glory of the first Easter morn in the garden—Rev. Dwight Mallory Pratt, D.D.

Eager for Gospel.

The eagerness of the Brazilians to hear the gospel is evidenced by many of them walking from 20 to 30 miles to attend services. One missionary writes: "I cannot attend to all the in writes: "I cannot attend to all the invitations to go and preach in new places. Fifteen years ago, when I entered the work, I was always glad and anxious when we heard of a new place to preach or of some person who was interested in a gospel; now everywhere the doors are open, the people anxious to hear, and we are unable to improve these good opportunities. Then no papers would publish any Protestant articles, not even by paying; now nearly all periodicals publish news and announcements and ask for articles from Protestants.

conful of salt and a dash of pepper. six eggs are used, three whites are tree than four where quality, not santity, is preferred. Beat them the a fork until a spoonful can be ted as if it were liquid without inging to the rest. Put in a tablespoonful of butter and sit in a thin pan, strain the egg into set on a hot part of the range and soon as the edges begin to cook parate them from the edge of the m with a thin knife or spatula; owly, and gently, rock the pan back of forth so that the uncooked porn runs down next the pan, until the hole is creamy. Now commence the of rolling. On the side next the undle start the roll, curling it over null start the roll, curling it over null start the roll, curling it over null start to be eaten without standing dosing a degree of heat. Cool neiet is ruined omelet.

For a three-egg omelet the formula two whole eggs, two yolks of eggs, ree tablespoonfuls of milk or one blespoonful of water, pepper and the poaching eggs the bottom of the

in poaching eggs the bottom of the skillet should be brushed with oil, then partly fill with boiling water that is not allowed to boil or simmer after slipping the egg in from the cup into which it has been first broken. If the water is slightly salted and a teaspoonful of vinegar added, it is an improvement. The eggs must not be old or the white will dissolve. Forty-eight-hours after laying gives the best results in poaching. Let the yolk be nearly covered and do not disturb until the albumen has set. Remove with a skimmer.

Mock Sausage. Soak dry bread in cold water, take out the superfluous water by squeezing the bread in the hands; take as much cold meat chopped fine as bread. If the meat is very fat use less meat, mix and season with sait, pepper and mix and season with salt, pepper and sage, stir in one raw egg to bind it together, make into small cakes and fry in spider. They should be rolled in flour, and will fry better if made several hours before frying. If want, ed for breakfast get ready to fry the night before. You can use the fat parts of flank corn beef or any other fatty or unshapely meats you have.

Cream one-quarter cup butter, add gradually one-half cup sugar, the beat-en yolks of two eggs and one-third cup molasses, sift together one and one-half cups flour, one-fourth cup cocoa, one-half teaspoonful soda, one teaspoonful cream of tartar, one tea-spoonful each of cinnamon and mace, one-half teaspoonful nutmeg, onefourth of clove; add flour to the creamed mixture alternately with one-half cup cold black coffee. Last fold in the whites of the eggs beaten until dry.

Colors Restored. Blue stockings, especially a very delicately tinted kind, which have taded, can have the color restored by dipping them into hot water in which common bluing has been poured and some lumps of alum dissolved, or they can, together with white stockings, be can, together with white stockings, be recolored; and so continue to do a great deal of service. To the alum add dye instead of bluing, and so resurrect the faded pink and blue and tan colored hostery which has col-

Sait Adds to Flavor of Coffee.

A pinch of sait adds much to the flavor of coffee, The coffee pot should, of course, be aired, and it is a good plan to leave a little water, in which some soda has been dissolved, stand in the coffee pot to neutralize the effect of the acid in the coffee. A strong soda solution should be boiled in the not once a week. Coffee with-out sugar is more easily digested, and less harmful than coffee with either cream or sugar.

Tomate and Cheese Lunch.

For a tasty lunch, take one small can of tomatoes and one-half pound cheese (mild). Put tomatoes in a deep dish and cut cheese into small squares. Put into tomatoes, placing a few bits on top; cut one onlon up fine and a pepper. Put into oven and bake 15 minutes. This is enough for four people and costs no more than 25 cents.

IERELY A LAW OF NATURE

What at First Looks Like a Peculiar ity of Running Water is Easy of Explanation.

Have you ever noticed, when the water has almost all run out of the bathtub, how the light particles on the surface seem then to race out much faster than the water? As a matter of fact, they are traveling faster than most of the water; but no faster than that on the surface.

The reason is not far to seek. Runming water, even in a river, goes at different rates; but fastest on the top surface right in the midle of the

surface right in the midle of the stream. Friction with the sides and bottom makes the water there go more slowly. So the light particles on top of the water in the bathtub, rush ahead at a good rate.

This peculiarity in rivers is utilized by boatmen when they have to go up a swift stream; they always paddle up near the bank. And at curves, as the water swings outward, they take the inside bank; for there the water is almost still. On the other hand, in coming down, the very center of the coming down, the very center of the stream is chosen.—Sunday Magazine.

Tidal Wave Submerges Island.
Iniskeerach, a small island lying off
Arranmore, on the Donegal coast, and
having a population of about ninety
persons, has been almost entirely submerged by a tidal wave.
Roused by the roar of the waters,
the residents were able to escape with
their lives, but suffered severe loss of
property, chiefly in regard to their

property, chiefly in regard to their stocks of seaweed stacked ready for help-making. The tidal wave reached Arranmore also, but the conformation of the land there protected the neigh-borhood from the ravages of the wa-

Argentina a Good Customer. Argentina is the foremost South American country as a market for products of the United States, our products of the Content States, our sales thereto in the last calendar year having been \$55,000,000 in value, compared with \$40,000,000 to Brazil and \$52,000,000 to the remaining 12 countries of that continent.

Ample Explanation. "Hello, Mike, where did you get that black eye?"

Why, O'Grady's just back from his honeymoon an' 'twas me advised him t' get married."

It's easier for one to enjoy doing a thing if grim necessity isn't demand-ing it.

WANTED TO KNOW The Truth About Grape-Nuts Food.

It doesn't matter so much what you ear about a thing, it's what you know that counts. And correct knowledge is most likely to come from personal

"About a year ago," writes a N. Y. man, "I was bothered by indigestion, specially during the forencon. I tried several remedies without any perma-nent improvement.

"My breakfast usually consisted of catmeal, steak or chops, bread, coffee

and some fruit.
"Hearing so much about Grape-Nuts,
I concluded to give it a trial and find

"So I began with Grape-Nuts and cream, soft boiled eggs, toast, a cup of Postum and some fruit. Refore the

end of the first week I was rid of the "By the end of the second week all traces of indigestion had disappeared and I was in first rate health once more. Before beginning this course of diet, I never had any appetite for lunch, but now I can enjoy the meal at noon time."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Res-

Another Proof.

Representative Henry, whose objection to American girls marrying earls and counts is well-known, said at a recent dinner in Waco:

"Take the Cinderella story. The

prince, you will remember, rejected the two old and ugly sisters, and then the beautiful Cinderella slipped on the glass slipper and the young man made her his bride."

Mr. Henry paused, then he added:
"This story is but another proof that
the girl who marries a title puts her
feet in it."

GREAT MASS OF PROOF TO

Reports of 30,000 Cases of Kidney Trouble Some of Them Sullivan Cases,

Each of some 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neigh-borhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urbary disorders. This great mass of proof includes over 80,000 recommendations. Sullivan is no ception. Here is one of the cases.

Norll Parris, Sullivan, Ill., says: "I wish to join others in recommending Doan's Kid-ney Pills is the hope that many others who suffer from kidney trouble, may learn of them end be led to give them a trial. For them and be led to give them a trial. For three or four years I suffered from pains in the small of my back and if I worked hard, I was worse. The kidney secretions were un-natural and showed that my kidneys were at fault. Having Doan's Kidney Pills brought to my attention, I procured a supply at Hall's Drug store and I had not taken them long before I was relieved." before I was relieved.

Price 50 cents at all dealers. Don't simp ly ask for a kidney remedy—get Doan's Kid-ney Pills—the same that Noril Parris had. Foster-Milbura Co., Props., Buffalo, N. Y

Coins of Small Value.

Doubtless the smallest coin in the world diroulates in the Malay peninsula, simply a thin water made from the realnous juice of a tree, and has current value of about 1-10,00th of a cent. In the southern parts of Russia the peasants use a coin of such small value that a quarter of a million of them are worth no more than \$1.25. The old Japanese mouseng was worth 1-112th of an American cent. In Portugal the reis is the lowest In Portugal the reis is the lowest standard of value, but no 1-reis pieces are coined. A 3-reis piece is equivalent to 6-100ths of a cent.
