BY MARY W. STANLEY GIBSON.

A boy's will is the will.

And thoughts of youth are long, long thoughts '

It was more than twenty years ago, said the distinguished law yer who told me the following story, that I was sent from Boston to pay a visit to some cousins I had never seen, and who lived on a farm, "away up in Vermont," as we were accustomed to say at school, when we talked over my proposed journey, all thro' the time for "recess." My twelfth birtiiday had not quite come to an end, when the driver of the Pointret "stage" nudged me in the side with his whip-handle as I sat beside him on the box, and pointed over a hill to our right, with a significant look. I stood on tiptoe and gazed with all my might, seeing, for my pains, a straggling series of houses, with a church tower in the centre.

"What is it?" I asked curiously. "Pointret, said the driver with an air of importance, as he got his four horses in order and flourished his whip over their heads, before making a triumphal entry into the town. I sat down with a drerier feeling than I had ever had in my whole life before. Where was the possibillity of extracting any "fun" out of that dreadful little place? And- my uncle lived far out among the hillswhat were the chances of wolves and bears coming out of the pine woods, and helping themselves to a tidbit in the shape of a Boston boy?

Occupied with these thoughts, as we dashed noisily up before the postoffice to leave the mail, I did not notice any of the people who were standing round the door of the village "avern" just beside it. But by andby a strong pull at the leg of my trowsers nearly brought me to the ground, and looking down, I saw brown-faced, bright-eyed boys of my own age, who flung up their caps, and shouted, and beckoned to a tall weather-beaten man on the piazza to come to them.

"Wait till I get down and I'll thrash you both," I said, defiantly, at which they burst out laughing, and ran to drag the tall man out of our way. By the time I was safely down he was by my side, together with

"Well, Charlie," he said, good-naturedly steeping down to take my hand, "I suppose you hardly know your old uncle. The last time I saw you you were in long clothes; and now, bless me, what a young gentleman you have grown to be! Glad to see you, my boy, and so are these lads, for they gave me no peace till I towards me. came for you to-day,"

"Are these my cousins, sir ?" turning to the boys I had threatened to bent mine and raised it, flushed to

"It is a long road that has no turn ing," says the old proverb, and I re ally began to believe we were traveling on that identical highway, with its sterile-looking table lands, and dark pines on either side, till we suddealy rounded a corner and came in sight of a red, one-story farm-house, with its barns and ont-houses lying across the read. There was a pine forest at the back, a maple grove at the right, and a beautiful little brook running through the meadow just below the barns. It was nearly dark but the windows of the great kitchen were all aglow, between fire and heavy, but I scouted the idea, and candles, and as we rattled up to the Jenny herself turned her face todoor it flew wide open, and a tall, stout, good-natured looking woman a regular farmers wife, with her blue and white callico dress, black alapaca apron, and snowy cap, stood on the threshold to welcome us.

"Where's Charley? Where's the ony?" was the first cry, for she had aken an interest in the orphan boy my consins, who slept manfully and beyond all others. Uncle Gray han- noisily in the same open chamber, ded me out as it I had been a young and revolving in my young mind puppy, and she caught me in her problems like to these: Suppose that arms and cried over me a little, say- I was eight years older than Jenny, ing how my poor mother would have (for she was only four.) why, when rejoiced to see me grown so tall and I was twenty-five (and no man ought n their childhood, and I had my mother's face,—this was enough to ensure me a welcome from "Aunt Susan," though none of her blood was flowing in my veins. I went into the kitchen clinging closely to her on the table; but first there was a general search round the room, and general cry,-

"Why, where is little Jenny?"

I pricked up my ears at the ques tion. I approved of the name of Jenny—it was one of my favorites. When I asked aunt Susan who bore it, she laughed and said it was her little girl, who was shy, and had run away when I came. A lond halloo from the pantry, whither the two boys had gone, interrupted her, and in they came, having made a chair ot their hands, whereon their sister sat like a young queen, with an arm around each brother's neck. I lost my heart at the first look. Little knows, but during those two weeks Jenny was the most magnificent of of my visit he used several pair of childish brunetter, with large, dark eyes, flashing out from clusters of chesnut curls,—a red mouth that did nothing but laugh and sing, -a form and at night, but laughing and chatlike a fairy, and the loveliest little tering over the farm like four young feet and hands I had ever seen. That evening was a glorious one to me. Partly because we all sat up around the fire, roasting chestnuts and drinking last years eider, till the clock struck ten, - partly because my aunt fold me stories of my mother's school-days, and the boys listened with open months to the anecdotes of mine,-but chiefly because little Jenny, who was a thorough coquette in her small way, crept from her father's knee while he was soberly smoking his pipe and reading his paper, and cane and stood at mine, looking up in my face with eager curiosity, and playing with the gilt butions on my blue jacket. "Take me up, Consin Charlie," she whispered, at last; and, my tace burning again, I lifted her to my

When she spoke or moved I felt a choking in my own throat, big hoy sa I was, and I was only too glad when the general move came, and the wagon was reported at the door.

o'clock A. M.

Preaching every Sunday, at 11 o'clock, at the Christian church.

Now is the Time!

Owing to the tightness of the times in the almost total failure of the money crop this year, we have reduced the terms of our paper to the small amount of \$1,25 a year! Persons sending us ten dollars, with as many names, will receive ten copies of this paper for one year! Let every man who fells an interest in the affairs of our county, and thinks a newspaper should be kept up here, take hold of this matter, and our subscription list will soon number a thousand. If you want a better paper you must help us to make it so. So, lay hold!

J. R. EDEN will make his bow next week, as political editor of this paper. Business in the courts has engaged all his time recently.

At a recent Black Republican convention held in Chicago, the Harper's Ferry outlaws were endorsed in all they done, by the members of that convention. One Mr. Jackson, of Dayton, Ohio, spoke in substance as follows:

"I was born in Virginia, but think I have lived long enough in Ohio to have my heart imbued with the principles of Abolitionism. One of my relatives was imprisoned the other day at Harper's Ferry; but my heart was nevertheless with those who there attempted to cast of the bonds of slave-In Ohio, the Abolition cause is flowrishing finely. It this year we have elected a thorough and uncompromising Abolitionist .-The same is the case in the Senate district composed of Butler and Warren counties; at the election just held they have elected, in that district, a good Abolitionist."

Read the description of the recent insurrection at Harper's Ferry, which is given at considerable length elsewhere in to-day's paper. This is the most shocking affair that has ever occurred in the history of our country. This is some of the fruits of the Black Republican Abolition party!

Home Magazine, November number is at hand. Oh, what a warm reception this gem of a magazine has every time it makes its appearance in the home circle! Is there a family in Moultrie county not blessed with 'the light of its presence'? Yes: and we would say to all such, that the next volume commences in January, which would be a good time for subscribers to begin. Send in your names now. A club of four, \$1,25 each subscriber. Address, T. S. Arthur, Philadelphia.

Our exchanges, and many of our distant subscribers, received no paper last week, as we had only time to issue a small advertising sheet, in consequence of being detained at the Shelby circuit court.

Harper's Ferry.

The Baltimore Exchange of the 18t contains the following particulars of the late negro insurrection at Harper's Ferry:

At an early hour yesterday morning our city was thrown into a state of excitement by the publication of a dispatch from Frederick, stating that a negro insurrection had broken out up into molasses, our duty carried in the town of Harper's Ferry, that us with the crowd, to obtain some the insurgents had taken possession of the place, seized upon the armory, and were proceeding to imprison the citizens and liberate the slaves of the adjacent country.

The intelligence at first seemed so improbable that little credit was given it, but the reception of other dispatches of the same purport, and the non-arrival of the train from the west due at 5 a. m., gave color of truthtulness to the statement, and the newspaper offices were beseiged by an anxious and increasing crowd. office of the Baltimore and Ohio danger.

The company's dispatches are of the same purports as the above, but they think the statement exaggerated. The company's officers are buawaiting the arrival of Phelps' train, (the conductor who telegraphed them from Fredrick,) to learn particulars, &c., before sending out the express. It is due in halt an hour.

ARRIVAL OF THE TRAIN.

Shortly after 12 m., the express train arrived, and we obtained from Conductor Phelps the following

The following particulars of the affair have been obtained from the officers of the train, viz: Mr Jacob Cromwell, baggage master, and Mr Wm Wooley, engineer. They state that their train [the regular passenger train from the west,] reached a

They were then informed by the night bridge tender that when he proceeded to relieve his colleague he discovered that the light on the bridge had been extinguished, and that his colleague was missing. This party stated further that he supposed his colleague had been murdered or waylaid. He was not long in a state of suspense, as three men suddenly came upon him with violent outcries which caused him to flee, whereupon the parties discharged firearms at him, which fortunately did not take effect. It further appeared that a colored man, well known as a baggage assistant, upon reaching the ferry was also shot at, several balls penetrating his back, and inflicting wounds of a serious character.

At first Conductor Phelps was at the party—a man of rather prepos sessing appearance, and supposed to be nearly sixty years of age-appeared, and stated that he preferred hold-ing communication with the conductor. Mr Phelps went over alone, and was told by the same man that he and his party had determined not to allow another train to pass over the road, but that they would give him five to ten minutes to get his train through.

In the meantime, other persons from the train ventured across the bridge above the Ferry, and soon coming into contact with the rioters, who were reputed as about two hundred in number, half of whom seemed to be black, j one of the party, a passenger, was captured. The train was delayed by the proceedings until half-past six o'clock, when steam was raised and they reached the Arderson or something similar thereto

Camden station at noon to-day. Upon the train leaving, Mr Phelps was particularly requested by the leader of the gang to state to the superintendent of the road, that under no circumstances would another train be permitted to pass Harper's Ferry. During the night a large two horse wagon, laden with wheat, came in from one of the neighboring counties of the State. The rioters immediately seized the driver, took possession of the wheat, and loading the schicle cut off all communication with weapons from the armory, sent it back up the country.

The engineer states that he took particular notice of the crowd, which he thinks numbered at least three hundred persons; that amongst them were several strapping negroes who occasionally shouted out that they longed for liberty, as they had been in bondage long enough. The ringleader, who is said to be named Anderson, made his appearance at Harper's Ferry five or six days ago, and They since that time has been driving a arsenal.

round the place in an elegant barouche, drawn by four horses.

These officers report that the U nited States Armory and the neigh-boring country have been taken pos-session of by the rioters, all of whom are well armed with short rifles and other United States arms. When the workmen of the armory repaired there for the purpose of resuming work they were seized by the parties, forcibly dragged within the gates and imprisoned.

A number of the party proceeded to the proprietors of the hotel near the armory, and in an authoritative tone ordered breakfast for fifty or sixty persons, adding that they were determined to keep possession of the place, and live in the best manner.

A passenger furnishes the follow ing corroborative testimony:
The express train reached Har-

per's Ferry about 1 o'clock this morning. On arriving the clerk of the Wager house informed Capt. Phelps, conductor of the train, that serious trouble was existing in the town, and

He stated that a large body of men had mysteriously come into town during the evening and night from the surrounding country, and were about to take possession of the place-that they had already shot one man dead railroad company as watchman and baggage agent, or patrol watchman.

Another person was ascertained to have been severely wounded, and being missing it was thought he had been thrown into the river. The insurrectionists, when they approached the conductor of the train were armed with muskets, and notified him the most peremptory manner that if he attempted to proceed tarther it would be at the risk of his

The bridge across the Potomac was filled with the insurgents, all of whom were armed. The conductor deemed it most prudent to romain, as he feared some terrible accident in attempting to cross the bridge, supposing that its arches or timbers might ave been cut.

Every light in the town had been previously extinguished by the lawless mob. The train, therefore, remained stationary, and the passengers terribly affrighted remained in the cars all

The hotels were closed and no en-

rance could be had into them. All the streets were in possession of he mob, and every road, lane, and avenue leading to the town, guarded or barricaded by them.

The men were seen in every quarter with muskets and bayonets. It was thought that there were not less than from 250 to 300 of the insurgents .-They arrested every citizen they could find, and upon threats of death pressed them into their service. This was done without respect to persons, including many negroes.

This done, the United States Arse-

During the night the rioters sent word to the landlord of the Wager hotel, that they required meals for for ly-five men, who were inside the arsenal yard, and for as many outside as might want something to eat. To this the landlord replied that he could not meet their wants.

Very soon an armed force of several men was dispatched to him, with preemptory orders that he must leave in five minutes or take the consequences. Fearing his life would be required to pay the forfeit, he complied, and gave them all the eatables he had.

It was thought there were probably 200 rioters in the arsenal.

The captain of the outlaw band, or person who seemed to be the prime mover, was a middle-aged man with gray hair, beard and moustache. His name was signed to a paper or note as

He assumed to be chief of the insurrectionists, and was heard to say, in addressing the conductor, that "if you knew me and understood my motives them, you would not blame me much."

This person also announced, in a bold, determined manner, that if he was interfered with or resisted, his party would instantly set fire to the town and destroy it, with everything therein. He likewise threatened to burn down the railroad bridge, and

In another speech, the marauder chief was heard to exclaim: "If you knew my heart and history, you would not blame me."

The government watchmen and the railroad watchmen were the first persons arrested by the rioters.

One man was killed instantly, another was found having been shot through the body, and believed to be dying.

A good deal of firing was heard at different points.

The negroes were armed or given arms instantly upon being pressed into the service of the outlaw band.-The ringleaders were desperate and

No passenger belonging to the raiload train was injured, nor did there appear to be any disposition on the part of the outlaws to molest them beyond detaining the cars. There were but few ladies on board.

THE LEADER OF THE INSURRECTION.

We were informed last night that Anderson, the leader of the rioters, is noted Abolitionist and agent of the parties at the North on the subject. Underground Railroad. He is from Troy, New York, and has heretofore made frequent visits to Harper's Ferry. His conduct toward the black population on these occasions had been noticed and involved him in suspicion. He is represented as a most determined and dangerous man, and one who is likely to cause a great deal of trouble before he will yield. The negroes rely upon him and will implicitly obey his directions.

A considerable number of the boys from different sections of the city, took their departure on the train, containing the military companies, among Carl Loveday, Richard Loveday, and Richard Pryor, with a military coat, light pants and hat. There was some fifty or sixty others, all appearing to be in the same party. One individual was armed with a long ducking gun, carrying over his shoulders an immense shot pouch filled with buck shot; another had on a cocked hat and mili tary roundabout, with two horse pis tols in a belt on either side of him -Those in charge of the cars attempted to prevent some of these characters from going on board, but they seemed bent on a fight, and pleaded hard for a chance to take part in the fray, and soon filled up one of the cars.

The train consisted of eleven cars he first contained liquor and provisons, six cars were filled with the miltary, and the remainder were occupi ed by passengers and citizens not in uniform, and by the principal officers of the road.

We were informed yesterday upon good authority that the conductor of a freight train upon the Baltimore and Ohio road had occasion on Saturday night to stop his engine at a point near Harper's Ferry, and was surpris ed to observe a gathering of from two to three hundred negroes in a grove west of the village. The circumstance struck him as extraordinary at the time, but soon passed out of his mind.

A FUGITIVE SLAVE TAKEN FROM THE U. S. DEPUTY MARSHAL AT OTTAWA BY THE

BLACK REPUBLICANS

OF THAT PLACE.

The following special dispatch came to us by telegraph at 9 o'clock

OTTAWA, Ill., Oct. 20. A fugitive slave, belonging to Mr. Richard Phillips, of Missouri, was to day, about 11 o'clock, a. m., resened by prominent Republicans of this city from the United States deputy marshal for the Southern district of Illinois, in the presence of Hon. J. D. Caton, chief justice, at his chambers. The slave was brought from Union county before the judge, on a writ of habeas corpus. J. N. Albright, deputy narshal, claimed to hold him under a writ issued by the Southern district of Illinois under the fugitive slave law. The prisoner was remanded, and just as the judge had finished making out the order, and before he had left the room, a fanatical crowd of Republicans rushed upon the marshal, forcioly took the fugitive, and hurried him into a close carriage prepared for the occasion. The team went out of town on a run, with a crowd of Republicans following hooping and yelling. The chief justice, after giving his decision, made some remarks to the crowd stating, that, although their sympathies might be aroused in behalf of the prisoner, he hoped, out of respect to himself, his friends and neighbors would not attempt to violate any law; that he would regret to be made the unwilling instrument of bringing a person on a writ of habeas corpus into a place where the law could not be executed. His personal request, and the majesty of the law, were, nevertheless, alike disregarded .-- Chicago Daily Times. lord be god out We have just received the 1st

LATER FROM HARPER'S FERRY

Baltimore, Oct. 20. In a conversation held with Capt. Brown, yesterday, in the presence of Senator Mason, Hon Messrs. Fault. ner. Vallandingham, ect., he made several answers which clearly dem. onstrates the complicity of numerous persons in the northern, western, and eastern States. He refused to an. swer the question whether he had conferences with Giddings, of Ohio. About his Virginia expedition he admited he had correspondence with and had numerous sympathisers in all the free States.

Dispatches were received here from Hagerstown which declare that Cook's wife certainly went to Har. risburg on Tuesday, and took board. ing in the same house with Brown's daughter-in-law.

The sheriff and his deputy of Ha. gerstown followed Cook as far in Greencastle to day, and the impression there was that Cook had left for Chambersburg, Pa. The impression at Hagerstown is that Cook passed through last night. The sheriff was credibly informed at Greencastle that a load of boxes passed through there on Tuesday for Washington county, loaded with rifles, pistole, and pikes. The stage driver of the Chambersburg line also confirms the statement in regard to Cook's wite.

Harper's Ferry, Oct. 20. Scouts are out in the mountains searching for Cook, but there is no doubt that he has ere this passed the Pennsylvania line, and is far on his way towards Canada.

Every stranger that comes here is looked upon with suspicion, and eeveral have been arrested on the charge of being spies. Mr. Lee, a gentleman from Charlotteville, was bro't in to-day under arrest, causing great excitement. He was soon recegniz-

ed and discharged. Mr. Oald also left for Washington last evening, thus virtually leaving the prisoners in the hands of the

Virginia authorities. The hearing of the cases before the examining court of justice will probably take place to-morrow, when it is probable the prisoners will be

removed to Wytheville for trial. Capt. Brown is not considered in any danger from his woulds, though Stevens will, it is thought, not survive. He, however, has a powerful

constitution and may recover.

Gerrit Smith's letter is as follows: Petersboro', June 4th, 1859 .-Capt, John Brown-My dear triend: I wrote you a week ago, directing the letter to the care of Mr. Kearney. He replied, informing me that he had forwarded it to Washington; but as Mr. Morton received last evening a letter from Mr. Sanborn, saying your address would be your son's house, viz: West Andover, I therefore write you without delay, and direct my letter to your son. I have done what I could thus far for Kansas, and what I could to keep you at your Kansas work. Losses by endorsement and otherwise have brought me under heavy embarrassment the last two years, but I must neverthe-

less continue to do, in order to keep United States Commissioner of the you at your Kansas work. I send you herewith my draft for two hundred dollars. Let me hear from you on the receipt of this letter. You live in our hearts, and our prayer to God is that you may have strength to continue in your Kansas work. My wife joins me in affectionate regard to you, dear John, whom we both hold in high esteem I suppose you put the Whitman note into Mr. Kearney's hands. It will be a great shame if Mr Whitman does not pay What a noble man is Mr Kear ney! How liberally he has contributed to keep you in your Kansas work. GERRITT SMITH Your friend,

MANUFACTORY

Fellow citizens, I would say to you that I will have the best of machinery put up and in running order, by the 18th of this month, for the manufacture of the Chinese sugar cane into Molasses and Syrups. Mr. Hedges, of Chicago, will be here on the 14th of this month to set up and give the mill a start. The mill is warranted to make as good, if not superior, Syrups and Molasses to any, manufactured in New Orleans or elsewhere.

I will manufacture the cane up into molasses for half, or for 25 cents per gallon, if the cane is delivered at the mill in good order for pressing.

I am gratified to inform the public, that I shall be able to manufcture from 200 to 300 gallons every 24 hours;and this being the case, I can work up over 100 acres this season. Persons wishing their cane worked up, will please give us their names with the amount of acres raised by them.

DIRECTIONS For Preparing the Cauc.
