#### Grade Schools Will Open Monday; Two Classes to S. T. H. S.

Crowded Condition Results Temporarily Because of Not Having a North Side Building; Prof. Brewer Issues Interesting Information.

The Sullivan grade schools will open Monday morning. Because of having no North side building, the two Fourth grades will go to the T. H. S. and the other grades formerly in the North side building will be accommodated in the South Side build-

is as follows:

Superintendent-C. L. Brewer. Arithmetic-Katherine Lehman. History-Etha Lindsay.

Drawing and Penmanship-Gladys

Reading—Elizabeth Gifford. Grammar—Fern Woodruff Geography-Grace Martin.

Music-Gertrude McClure 5th Grade 1-Marie Hoke 5th Grade 2—Hazel Hidden 4th Grade 1—Mabel Cazier 4th Grade 2-Juanita Durborrow. 3rd Grade 1—Mildred McClure 3rd Grade 2—Blanche Carroll 1st and 2nd Grades-Anna Mc-

Carthy. 2nd Grade-Mary Powers

1st Grade—Sarah Powers Prof. Brewer has prepared the following statement for publication relative to the beginning of this year's school work:

Grade School Opens Sept. 7 Work on the North Side grade building is progressing very nicely, but it will not be completed for some months, therefore it became necessary to provide other quarters for the children who have been going to that building. Rooms have been provided for these children at the South Side building. All first, second and third grade children will report for work at the South Side biulding.

Rooms have been secured at the High School building to accommodate the fourth grade children. All children of this grade will find their rooms near the South entrance at the High School building. These are splendid rooms and will accommodate these children very nicely. We wish to thank the High School Board and Principal Brown for this courtesy.

The fifth grade and the departmental school will have their regular

Since there are no mid-year promotions in our schools it is impossible to have a beginning class at the middle of the year, therefore we are asking parents who have children that ren, Mrs. Edna Bragg and family, Mr. will be 6 years of age by November and Mrs. Frank Bolin and family 1st to send them to school at the beginning of the year, (Sept. 7.)

We believe that all patrons know condition that some of the teachers will be working under unfavorable conditions. We desire your co-operation in the work of the school that the year's work will be successful and the teachers' work pleasant. As teachers we feel we are working with the most precious material of the community and we must not fail. The product we finish in our school, will in the main, enter the High School. If the student becomes a good High School student and later a good college student he must have a good beginning in the Elementary school.

Therefore the teachers of the Public school should have the loyal support and the encouragement of all the citizens of the community.

As the superintendent of the schools I desire to get acquainted with the parents of all the children order to accomplish the greatest good tur.

I shall be very glad to talk with work of the school. If your boy or be especially glad to have a confer- Community Club. ence with you, that we may be more helpful in our work with these students.

Every child will be provided with a book list and we are asking that all parents will see that these books and other materials are provided at once.

C. L. BREWER, Supt.

DAVIDSONS WILL MOVE

Dr. and Mrs. W. P. Davidson are preparing to move to Decatur about the 15th of this month. They sold their residence property here some months ago to Homer Shirey. They have lived in Sullivan 27 years and have taken an active part in all matters pertaining to the best interests of the Community. Dr. Davidson has been especially active in the county's organized welfare work.

Sullivan friends bid them farewell, with the hope that in due time we shall again number them among our residents.

## Have You Subscribed To The Shoe Factory Fund? **Driving Toward The Goal**

Committee and Workers Feel That Proposition Can be Put Over if Every-body Will Subscribe and Boost. Some of the Questions Usually Asked and Answered. Future of this City Bound up in This Project. Sullivan's Opportunity to Forge Ahead. Losing Population Which Goes Elsewhere to Seek Work.

How are the shoe factory prospects? Encouraging.

How much has been subscribed? Enough to make those in charge feel that the proposition can be put over. Who is subscribing? Everybody that has the future interests of this

city at heart. Who is soliciting? The shoe committee is on the job all the time. Dozens of other solicitors have lists of prospects and pledge cards and are giving the matter all the time they possibly can.

What factory are we going to get? There are several very god prospects, any one of which would give us the kind of a shoe factory which this city needs.

When do I have to pay my pledge if I decide to subscribe? You pay nothing, until a contract is signed assuring Sullivan of a factory. When such contract is signed you pay 25 per cent of the amount of your pledge. The balance is to be paid in three installments, each six months

How will the factory benefit me? If you are a working man, you've got the opportunity to get a good job. If you have children able to work, they need not leave Sullivan to find work to do. If you own property, a fac-T. Bolin and son Samuel, Mr. and tory and a live town will increase its-Mrs. Orville Jeffers, Mr. and Mrs. G. value. If you are in business, no W. Winn, Mr. and Mrs. W. K. Bolin, matter what line it may be, you have and family, Clifford Drew, Mrs. Sadie Drew, Miss Gertrude Wilson, Mr. the opportunity of doing more business if a big pay-roll is turned loose here weekly. If you are a retired Garfield Purvis and family, Rev. and farmer or business man you doubt-Mrs. W. B. Hopper, Mr. and Mrs. less own property here. It will increase the value of your property and give you a better kind of city to live in. If you are a farmer living near this city, your help will serve to make son and family, Mr. and Mrs. W. J. of Sullivan a better community in Huff and family, Mr. and Mrs. Felix which to trade; it will give you a better market for your produce. It will increase the value of your farm lands to have them located near a live, wide awake community.

L. L. Dolin, Mr. and Mrs. Earl Bolin who are doing it, realize that it will this city, opening on August 28, 1919. greatly benefit the city. They are a real future for this community.

Where will the factory be located? This matter will be decided later.

other cities are willing to pay this end of this city. amount for factories. If Sullivan Smith Bros. were not very anxious A big attendance is urged as the mark. Shoe factories are not bar-scheduled to assist in another big job. factory, is exactly what other towns that now have factories did do.

Can't Sullivan get along fairly well without a factory? Are we doing so grading has already started. It is ex-Miss Gertrude McClure, instructor now? Is it not a fact that property pected that the paving will be put in values are way down; people leaving this city in search of employment. Every new census shows a lower population; there is no demand for business rooms and locations. We cannot continue as we are and prosper. We must awaken the faith of a stroke of apoplexy at the home of the people in the future of Sullivan and when we do, this city will grow and prosper and such growth and prosperity will benefit all.

That is why it is the duty of ALL to help in putting over this big proposition. Sullivan's interests are your interests. The future of Sullivan is calling to YOU. Do not shirk your responsibility at this critical time. The shoe committee is counting on YOUR help. Give till it hurts, for it will return to you manyfold.

#### SHOE FACTORY

MAKES PROGRESS

Brown Shoe Co. Factory Output Has Reached 7,000 Pairs Weekly.

"A bee hive of industry" aptly describes conditions at the Brown Shoe factory in this city. The force of workers has been so increased as to number about 250 and will be further increased as the necessities of operation require. That there is no scarcity of applications for jobs is evidenced by the large number of applicants received from many states in the union, some of the applicants residing as far as 1,000 miles from Salem, and many of them former residents of this city, who hearing of the great wave of prosperity, want to return and have a share in it.

The factory is now and will furnish employment not only to those who come from the ranks of skilled labor, but also affords opportunities for others to enter a line of profitable employment.

The weekly output at the factory has increased over that of the first week of operation to 1,000 pairs of shoes. The output last week was approximately 7,000 pairs. From all indications this new industry will become a permanent asset in the community and all who contributed anything towards bringing it here will be proud of the achievement.-Salem Democrat.

GIVEN THURSDAY NIGHT Sullivan's last free band concert of series of ten was given Thursday night. The concerts were a decided success this Summer and drew big

The music was furnished by the Sullivan Community band under the able direction of Prof. John Lucas. Most of the band consists of High School students. Several of the older musicians of the city, assisted.

The business management of the band has been in the hads of O. C. Worsham the chairman of the Community Club band committee.

#### Rural Schools Are Back on the Job; **Teachers Manual**

Preliminary to Re-opening of Schools Teachers Met at County Superintendent's Office for Supplies, Saturday; Important School Dates.

The rural schools of Moultrie County opened Monday.

On Saturday the teachers of these schools met at the Court House with the County Superintendent, Mrs. Nettie L. Roughton.

At this meeting the work was discussed and the teachers were given necessary supplies. Among these supplies was the "Moultrie County Teachers Manual".

This book, which is a supplement to the state course of study, is more than usually interesting this year due to the fact that it contains all information pertaining to the requirements of standardization of one-room schools and also of the requirements of a "Superior" one-room school. The suggestions are given in detail, as prepared by the State Educational Department.

Placing this information at the disoosal of the teachers and school officers through this "Manual" will doubtless result in more "Standard" and "Superior" schools for this

Under the heading of "Coming Events" Mrs. Roughton has outlined the more important dates in the ensuing school year. They are as fol-

#### Poland Did The Ruth Act: Pushed Over 6. Out of 9 Scores

What a Whale of a Difference a few Home Runs make. Ezekiel Sharp contributes to Crowning Success of Sunday's Baseball Game.

Sullivan players capped the climax Sunday with their third straight win over the Arthur nine. Bunched hits of the long variety in the first, third and fourth innings sealed the fate of the visiting team, and the final chalkup of scores showed nine to five in Sullivan's favor.

Fritz Poland carried away the hitting honors of the day when he cracked a single, a double and two home runs out of five times at bat. Boob Hochstetler finished a close second with three singles out of five times up Harsh pitched a wonderful game, forcing all plays except ten, kept to the infield. Of these ten balls driven to the out field only three runs resulted, none of them being earned runs. Of the nine runs scored by Sullivan, five of them were earned.

Only one base on balls was given during the game, Eads walked Duncan in the eighth inning. Thompson started the game for Arthur but was replaced by Eads at the end of the fifth inning.

Before the game started Mr. Sharp gave the diamond a very thorough and rigid inspection, and pronounced it OK. The inspector furnished t comedy of the game during inter mission after the fourth inning wh he severely reprimanded one of the fans for boisterous conduct. A pro bable serious conflict was narrowly averted at this stage of the game, and peace again reigned.

The box score and game by innings

MOORE TELLS A SECRET

In Sunday's newspapers Allen F. Moore of Monticello springs the great sensation that Col. Frank Smith of Dwight is going to be a candidate for United States Senator.

to the honor which he so modestly

As a matter of fact the "Colonel's" candidacy is not such a surprise as Mr. Moore may deem it. Most people are aware that the Smith-Small-Moore combination has been busily campaigning for some months past and political combinations and manipulations have been going on ever since Senator McKinley returned and his friends have been framing things so as to dump the genial and got away with it. dollary Mac on the political garbage

Quite naturally McKinley and his henchmen like the public feed trough and have turned at bay against this onslaught, determined to fight to the

As Mr. Moore was formerly Mc-Kinley's political protege and he and harness, they naturally have a lot of holding office by mutual agreement. The split up in the McKinley-Moore political plum tree, puts these appointees into an awful fix. They know that McKinley has been their friend, while Moore was the fellow who really got them appointed.

They have to do some guessing as to which side of the fence they are going to jump to now. They can't remain in Moore's pasture and be friends with McKinley and they can't continue good friends of McKinley without getting in bad with Moore. Of course Charley Adkins is now Congressman-elect and he has been trailing around with McKinley, but politically, so far as influence and votes are concerned, Adkins is a very minor factor in the big fight which looms. His allegiance does not cut much ice, no matter which side he gets on. Perhaps his support would Business men are making more really be more of a liability than an money. Taxes are not so high. Af-

The McKinley-Smith battle for the aged. primary nomination next April will has ever seen. It will be one of those things. They're not always asking for political washings of dirty linen in which very wholesome truths will be told by those mixed up in it against their former cronies and office-holding bed-fellows.

non-partisan.

All of this economy is nothing more nor less than a smoke screen, being thrown up by skillful Republican manipulators to hide the looting and robbery which is going on back of the scenes.

They are keeping attention focused on the stinginess of Cal. Coolidge while they are dipping deep into the treasury and helping themselves to all they want of the people's money.

Through a slip-up somewhere in all of this misleading "economy" bunk, a Washington press dispatch recently Mr. Moore recounts all of the great was broadcast over the country, things that the Colonel has done for showing it cost over \$37,000,000 and to Illinois and why he is entitled more to run affairs of the Federal government in July of this year than it did in July of last year. No denial of this statement has been forthcom-

If it proves anything at all it proves that all of the Coolidge economy program is the veriest rot. The President may be as stingy as they make 'em; he may even have some economy ideas, but little do the looters care for that. They proceed from Europe this summer. Mr. Moore to get what they want. They stole the teapot Dome oil reservation and

The people of this nation are sick and tired of the squandering which has been going on at Washington since the day when Warren G. Harding was inaugurated president. Then came Coolidge and all of the economy bunk and the people took it at face value. They thought this parsimonious New Englander would really the Senator trotted well in double take steps to save this nation some money. It pleased the inside gang appointees in this district who are to have the people believe this. They are still a-feeding it to them in big

Coolidge economy is the big joke of the day. After having been in practice for a few years, government costs are jumping up about \$37,000,-000 per month. If that shows any economy, then we'll freely and willingly admit that we do not know the meaning of the word.

#### THE BETTER TOWN. THE BETTER JOB THE OTHER MAN'S LIFE.

The human being is a rather complex affair. He's never satisfied with what he's got, because he feels that it is not as good as he deserves.

To him his home town is never as

good as some other town nearby. In that other town things are booming. fairs are ever so much better man-

. That other town has a great fube one of the biggest fights Illinois ture. Those fellows are up and doing donations. They pull together. And so he wonders why in thunder the old home town can't be like that.

Fact is he does not know much about that other town. If it were the And we Democrats occupying place he pictures it to be, why everygrandstand seats can all have a whale body'd pick up and move there. If of a good time seeing our opponents he were there he'd be finding fault

with it too. That other town has its problems. It may be better organized to meet The favorite topic of the bunk them, but it is a safe bet that the felartists these days is "Coolidge lows who are doing the work are not Economy". When you pick up a the kind who always whine about the

greedy bunch of congressmen, of the pork barrel variety.

The Coolidge economy propaganda realizes. If he were to quit his pesthey send out from Washington are life would take on a much more pleas-

ILLINOIS

Try it sometime, some of you fel-

We humans not only envy the more likely to cause unhappiness, is envying the other fellow.

My how easy he makes a living! He does not get up as early as you do. He is always spending money and seems to be getting so much

more out of life. And to you it seems that he's get-

ting it all so easy. Now here is another case where you've got the wrong angle of this matter. That other fellow, whoever he may be, has got his problems too.

He works as hard or perhaps harder than you do. He puts forth greater effort and consequently he is learn. more successful. While you are envying him he's busy getting not only a good living but also getting some of the fun out of life.

You don't have to live the other man's life. Live your own. You don't have to handle the other man's job. Take care of your own.

If he be a rich man, he may be envying you, because you have no money and property to cause you troubles and worries. He may envy you the fact that you have but few taxes to pay. You may not need to figure an income tax. You do not have to lay awake nights to devise ways to keep your fortune from frittering away. Your relatives, if you are poor, are not anxiously waiting for you to kick off so they can start a helluva fight over the division of your estate.

The mortal most to be pitied is the one who lives in a stew of envy; who begrudes his neighbor what he has: who snickers and sneers when he sees some better mortal get ahead in

the world. The Good Book sums it up in the

following style: Ecclesiastes 2-22-24: For what hath man of all his labor, and of the vexation of his heart wherein he hath labored under the

There is nothing better for a man than that he should eat and drink and that he should make his soul enjoy good in his la-

WHEN IS MAN OLD? WASHING MACHINE PROGRESS. \$1,000 FOR EACH OF US. ROLLING THEM DOWN.

WHEN is a man old?

A Civil War veteran of Illinois, aged 88, is told by the judge that a man 88 "has no business to get mar-

A Pennsylvania man of ninety-one settles property on his children, then marries a woman of 45, who says her

self, saying life wasn't worth while at

but die?"

Some men are as old at fifty as anybody can be. Moltke at ninety was younger than many of the junior officers that stood in stiff respect about him. A man is old when his mind stops working along new lines.

The people of America have about doubled their incomes in a few years. The cash that Americans earn, or receive from investments, rents, from inherited property., is not far from ONE HUNDRED MILLION DOL-LARS A YEAR, almost a thousand dollars for every man, woman, and

For every 100 homes in the United States there are 29 washing machines. That shows progress, and room for more progress.

The family without a washing machine, unless the washing be "sent out," proves that some woman is condemned to needless slavery.

An electric washing machine and wringer, costing a few cents a day for current, makes of washing an amusement instead of hard work.

It makes it possible in a large family, with a busy mother, for the growing boys and girls to do the greater part of the week's washing and relieve the mother.

American ladies, it appears, entertain Parisians by wearing their stockings rolled down, showing all of the knee and part of the leg bare, below a short skirt.

Such women would represent the United States more usefully at home in front of American washtubs with their sleeves rolled up instead of having their stockings rolled down in

But there is a hygienic value in bare knees. All Esquimau women, even in coldest Arctic weather, arrange for an opening at about the knee to let the air in. If they didn't

do that, they would die for lack of than trade expected which resulted in

Weak fish will find it hard to survive in the automobile endurance other town, but a sin that is much contest. One big company announced another cut in prices yesterday, making the fourth cut in a year.

The highest engineering skill and business ability are devoted to giving do. He wears better clothes than you the public high grade automobiles at the lowest prices. That's valuable work.

When will commercial genius show the same energy in cutting the price of food "delivered?"

A scientist says that the young people of today have become "motor car wise." By instinct they avoid automobiles and adapt themselves to traffic. Older people seem unable to

Even chickens and dogs have learned something. They stay out of the road and are killed less frequently than they once were.

It would be good news if the young people of the generation would be "whiskey wise" in addition to being motor car wise.

During the next few years there will be more young people killed by whiskey than old people killed by automobiles.

A plague of butterflies, causing motor engines to become overheated, by clogging the radiators, suggests a gruesome possibility.

If the insect tribes with their horrible fertility, should get out of control, they could fill the air, destroy all vegetation, starve, suffocate and devour the human race and all other animals.

Nature fortunately attends to these things. Even the insect plagues of Egypt sent to punish sin did not kill all Egyptians.

#### KEMMERER HOME CHILDREN

T OHAVE MUSICAL TRAINING The management of the Kemmerer Orphan's Home have reason to be firm believers in making their wants known through the columns of the Tribune. A few days ago, after the last issue, which gave an account of a piano being presented to the Home, and it also stated there were children in the Home who would appreciate the privilege of having music lessons.

The Fischer Studio of Pana, has made a very kind offer. Miss Irene Nelson, a senior student will assist in the teaching, and it will all be done

under the direction of Mrs. Fischer. The Orphanage Board are grateful for this most valuable assistance, and the children are very happy in know-

ing they are to have music. The Home is crowded, the building for overflow is being put in order. The Home needs beds, mattresses, 2 dressers; 2 washstands; 2 bowls and pitchers; chairs; bed-room tables; dishes; a heating stove; some framed pictures.

Any one wishing to supply these articles kindly communicate with the Home or management.

The Home orchard is small and they are asking the housewives to put up a few extra jars of fruit or jellies. The kiddies all like fruit and the jelly is a real treat. Any one having apples to spare the Home will send for them.—Assumption Tribune.

#### **CURRENT MARKETS**

A slight decrease is noted in the amount of butter manufactured durnew husband is "old in years only."

Jacob Wettler, Swiss embroiderer, only seventy-four years old, shot himing the past week, but consumption is crease is not very great, the markets have strengthened.

Broiling chickens weighing up to 2½ lbs. and dressed roasting chickens "When he is forsaken, withered and shaken, what can an old man do tinct place in the lietary of the tinct place in the lietary of the American people. Dressed chickens weighing over 2½ lbs. and under 4 lbs. are neither broilers nor roasters, and as a general proposition, the family trade does not take kindly to them. Heretofore at this season of the year when these medium weight chickens are moving in abundance, they have, to quite an extent, been put in the freezer for export to England. Export outlets, due to larger imports of poultry into England from Russia, will not permit the carrying of medium weight chickens on basis of present costs. If the chickens are held back on the farm until they weigh at least 3 to 33 lbs. they should bring higher prices than if marketed

as medium weights. Receipts of live fowl both Chicago and New York are just a little lighter

A. E. McCORVIE, Superintendent

## Railroads take in more, but pay out more

The railroads have been handling the greatest volume of business ever known, and their average rate level is higher than in the years immediately prior to our entry into the World War. Because of the increased volume of business and the higher level of rate, the amount of money taken in by the railroads is of course greater than in our prewar years. And yet the owners of the railroads, the stockholders, are not so well off today as they were then.

The reason for this is that the increase in railway expenditures is greater than the increase in railway receipts. The amount of money taken in by the Class I railroads was \$2,325,000,000 greater in 1924 than in 1916. But their payrolls were \$1,260,000,000 greater; their locomotive fuel cost \$187,000,000 more; their other materials and supplies cost \$580,000,000 more; their taxes were \$183,000,000 greater. Including increases in other items classified as operating expenses, the total operating expenses and taxes of the Class I railroads were \$2,391,-000,000 greater in 1924 than in 1916. This means that, notwithstanding improved efficiency of operation, there was an increase of \$102.80 in operating expenses and taxes for every increase of \$100 in operating revenues. As a result, the amount remaining after operating expenses and taxes was \$66,000,000 less in 1924 than in 1916.

Meanwhile, in the face of this decrease, the need for a considerably increased return had developed. Between 1916 and 1924 the Class I railroads spent \$4,489,-000,000-much of it borrowed-for the improvement and extension of their properties. On this added investment. it is immediately evident, not one cent was earned in 1924; in fact, as figures show, the return earned in 1924 on the basis of the 1916 investment was actually \$66,000,-000 less than was earned in 1916.

The increased investment since 1916 has been of great and timely benefit to the public. It has enabled the railroads to expand their facilities to meet the constantly increasing needs of the country and to render highly satisfactory service. It has resulted in economies of operation which have kept the railroads as a whole going concerns in the face o fdeclining rates. This increased investment, however, has not yet begun to earn a return for itself. Moreover, since-interest charges come ahead of dividends and since the return out of which both must be paid has decreased since 1916, the owners of the railroads, despite increases in both volume of business and level of rates, are actually in a less favorable position today than they were before our entrance into the war.

Those who provide the facilities for transportation service must be allowed an equitable share in its rewards. The future of our nation demands that there be continued improvement and extension of railway facilities as business grows, and the money for this expansion must come, even more largely in the future than in the past, from those who are willing to accept the risk of ownership. This means that the earning power of the railroads must be safeguarded. There is no other solution.

Constructive criticism and suggestions are invited.

\* C. H. MARKHAM,

President, Illinois Contral System.

CHICAGO, September 1, 1925.

**CADWELL-ROSEDALE** 

James T. Wilson, Pastor. Interest a little below normal in church activities last Sunday. The Rosedale Sunday School numbered twenty-seven and the 11:00 o'clock Epworth League program was cancelled because of the absence of the leader. The Cadwell folks reported thirty-five present at Sunday School and twenty at Epworth League. Very good summer day congregations for preaching both morning and evening.

Cadwell society will conduct a bakery and general produce sale in Arthur, next Saturday, September 5th.

The program for next Sunday Rosedale—Sunday School at 9:45. Epworth League at 7:00 p. m. Preaching at 11:00 a. m. and 7:30 p.

Cadwell-Sunday School at 10:00 a. m. and Epworth League at 11:00 ing Wednesday evening Sept. 9th.

Only two more Sabbaths and then annual conference. Let us finish up the business affairs of the church in a satisfactory way. We hope to have a good report to make for publication in annual conference minutes.

#### FIRST CHRISTIAN CHURCH

Geo. M. Anderson, Minister. The church was delighted Sunday morning to see the following persons come forward, to unite with the church. Sister Briesler came forward and made the good confession. She will be baptized Friday afternoon, Bro, and Sister G. H. Iftner came forward to unite with the church by statement. Prof. Iftner comes from the Champaign University Place the Waynetown, Indiana, Christian church. We heartily welcome these into the fellowship and work of the church.

'Church Night" Friday evening of this week. We are expecting every member of the church present for the whole evening meeting. The program make these services not only a blesswill be as follows:

6:15 Basket supper. Bring your

own table service. 7:00 Song service and devotional period, led by Mrs. G. R. Fleming and Ed C. Brandenburger.

7:45 Business period. Reports from the four district captains as to their organization. N. E. district, Mr. and Mrs. Wood; S. E. district, Mr. and Mrs. Tussler; S. W. district, Mrs. Gaddis and Miss Bristow; N. W. District, Mr. and Mrs. Wiard.

8:15 Lecture by Dr. Royal J. Dye. Discussion and fellowship with Dr. Dye.

Closing prayer by Bro. Fortner. Read about Dr. Royal J. Dye, the speaker for the evening, elsewhere in this paper.

Next Sunday, the first Sunday in our fall work. We are anticipating night in September at 7:30 p. m. capacity audiences at all services of Text, John 3:36, "He that believeth the day. The Bible School, which be-gins promptly at 9:30 o'clock is led he that believeth not the Son, shall theme for the evening, "A New as leader. Roll call was responded to by Carl Hill. He makes the Bible not see life but the wrath of God School interesting and helpful.

The Lord's Supper, which is observed in the unified services, is night at the home of the pastor 618 about 10:30 o'clock. We urge that Grant street. Please remember our every one attending the morning Friday night Bible class at the same good vacation Sunday response in Mrs. Maggie Bence, vice president; service would come at 9:30 o'clock place. Both meetings at 7:30. Please and remain until the unified service bring your Bibles.

is dismissed, which will be about 11:30. This gives us a short, snappy, and helpful service. We ask for your

The Christian Endeavor will begin their meetings again Sunday evening at 6:30 o'clock. Mrs. Fortner, the supervisor, is looking forward to a real rally for the opening meeting. SULLIVAN, ILLINOIS

2 Blocks East of Square

SEPTEMBER 6TH AT 10:30 A. M.

# "What Is Man?"

7:30 P. M.

# "Opportunity"

Dr. Royal J. Dye, an outstanding national speaker, will speak at the church Friday evening, September 4th at 8:15 o'clock. Public Invited.

# The "Dope" on the Water Question

Almost every man and woman in Sullivan are now of the opinion that the new water supply project should be carried out. They realize that the city can never enjoy a good, healthy growth without an adequate supply of water. They have observed that every city that has grown and prospered has plenty of good water. They conclude from this observation that a good and sufficient water supply is necessary to the growth and development of this city. There was a time when many of our people did not so believe. So the sentiment has changed and the city officers are receiving encouragement. and the city officers are receiving encouragement. Everybody is boosting.

The first test wells have been completed, and the showing made by them bears out the predictions of the city's engineer. The test hole contractor, after examining samples of the water bearing formation taken from the first well, made the statement ation taken from the first well, made the statement that he would be willing to put down a permanent well, and guarantee it to produce 500 gallon per minute or over 700,000 gallons per day. Every one feels encouraged; everyone believes that the water problem will soon be solved; everyone believes that prosperity is about to come to Sullivan.

Let us all continue to boost.

The Sullivan Community Club

## Have You had Your Ride in the Better Buick

You may think you know Buick and Buick performance from having driven Buicks in the past. But you are destined to undergo a new motoring experience—you will discover a new Standard of Performance!

A performance wonderfully improved; 75 horsepower and more to meet the "go" in traffic and to take any hill in high. Engine dependability further insured by the three new seals for the famous Buick Sealed Chassis: air cleaner, gasoline filter, oil filter. Buick approved mechanical 4-wheel brakes for the constant protection of your family and yourself.

Thousands of people are taking rides in the Better Buick every day. If you haven't time to drop into the show room, a telephone call will bring one to your door.

#### CHANGES IN LOCAL WHOLESALE OIL BUSINESS

Leslie Atchison has bought out the interests of his partner Wm. H. (Buck) Fisher in the Tire and Battery station.

Mr. Fisher has bought the interests of Howard Huckelberry in the Superior Oil Company and that company now consists of the two Fisher brothers, Fred and Buck.

Mr. Huckelberry has not definitely decided what business he will engage

#### MARY AND JOHN

THE POPULAR NAMES John and Mary are the most fav-

ored names on the Illinois farm. This is revealed in the study of the names of 5,880 men and women from this state who had entries in the National Seed Corn Show. One thousand seven hundred eighty five merely gave their intials, and of the remaining 4,095, two hundred fifty-five were found to be Johns, by far the most popular name in the collection. William was runner-up with 196, and George, Charles, Frank and Henry came in the order named. Among the feminine entrants Mary was consid-

erably ahead of the others, with Hel-

en, Elizabeth and Dorothy following. That the farmer has a leaning toward "different" names is evident from the following unusual cognomens discovered in the records of Illinois and five other middle western states: Theophile, Hybo, Harty, Turla Esculine, Doise, O'Mille, Swan, Sweeter, Tray, Lone, Dail, Clean Garrett, Severt, Denn, Gaac Plya, Bena, Charie, Majella, Holland, Ornelius, Aschel, Booe Murad and Rots. Also he is not neglecting the more fanciful names such as Omar Delbert, Elaine, Laverne, Donnabelle and Ivanhoe. Exchange.

Policeman: "Not positive, your honor, but his wife says he brought

SWIFT & CO. OPENS PRODUCE STATION HERE

Swift & Co. are this Saturday opening a new produce buying station in the Terrace Block in this city. They will buy cream, eggs, butter, etc. from the farmers and will also buy from the dealers. This branch will be under the jurisdiction of the Decatur territory and shipments will be made to that city daily.

The branch will be in charge of W. G. Mallinson who with his family moved into the M. E. church residence property this week. Mr. and Mrs. Mallinson have eight children, seven girls and one boy. Five of these children will attend the grade schools and one is in high school.

#### PANSY REYNOLDS

(Contributed)

Miss Pansy Reynolds, daughter of Mrs. Asa LaValley, died at her home one mile north of Cooks Mills Sunday afternoon at 3:10, following a lingering illnesss of tuberculosis.

Miss Reynolds was born in Asley, Ill., on Oct. 17, 1907, being 17 yrs. 10 mo. and 16 da. of age when she died.

At the age of fifteen she was converted at the Gospel Mission in Sullivan. Ill. and was baptized by Rev. Roy Bradley of this city.

We all believe she tried to live a true Christian life and now is in a land where suffering and sorrow is unknown.

Besides her mother and stepfather, Mr. and Mrs. Asa LaValley, she leaves one step-sister, Miss Ada Flinn, of Cooks Mills and one sister, Mrs. Lewis Maxedon of Beloit, Wis., also a host of friends and other relatives pay for the two weeks the boys spent who mourn her departure.

Funeral services were conducted by Rev. J. M. Lively of Mattoon. Burial took place in the Pleasant Grove cemetery of Cooks Mills.

#### ROADWORKERS GET INTO ARGUMENT; CHAS. ELZY HELD TO GRAND JURY

Joe Steele and Charles Elzy who have both been employed by Highway Commissioner Joe Elzy, on road work, got into an argument Tuesday morning.

Mr. Steele swore out a complaint charging that Elzy attacked him with a hammer in an "attempt to kill and murder".

When arraigned in Police Magisstrate Lambrecht's court Thursday morning Elzy waived his preliminary hearing and was held to the grand jury in a bond of \$3,000, which he leaves all of the estate to her husband was unable to give, so was taken to the County jail.

#### ATTORNEY EMERY ANDREWS DIED ON OPERATING TABLE

Emery Andrews, prominent Mattoon attorney, who had considerable practice in the local courts, died suddenly Tuesday morning in the Memorial hospital in Mattoon following an operation for the removal of his tonsils. Dilation of the heart is given the juice, but I hardly think its so. as the cause of death.

Mr. Andrews was one of the attorneys for the defense in the Ray Munson bank robbery case.

GEORGE McILWAIN OF BETHANY INJURED IN DIVE

AT WYMAN LAKE SUNDAY of Mr. and Mrs. W. J. McIlwain of Lake City. Bethany was seriously injured Sunday afternoon in a dive at Wyman STATE HAS BIG TASK IN Lake.

In company with some of his friends he had gone to the top of the diving tower. He climbed up on the rail and dived off. When he failed to re-appear his friends became alarmed and life-guard Si Schoonover was called. In a short time he was brought to the surface unconscious. He had been under water several minutes.

Medical aid was summoned and the injured young man was taken home to Bethany. It was found that in diving he must have struck his head on some hard substance in the bottom of the lake. He sustained a severe gash on his head. After regaining consciousness, he was able to talk, but his body has been in a state of paralysis. He can eat liquid foods, but otherwise his condition has been unchanged since the time of the acci-

He is the brother of Elmer McIlwain of this city and is a second-year student in the Bethany High School. He has many friends here as he has been a frequent Sullivan visitor.

#### HEADQUARTERS CO. HAS GOOD SIZED PAY-ROLL

The money for the local Headquarters company's second quarter arrived this week. For training the pay total was \$381.28. The camp at Camp Grant amounted to a little over \$745.72. The exact amount was not available as Lieut. Pribble's pay had not yet arrived when this report was made.

## MAINTAINING PAVED ROADS

The building and maintainance of the State roads is only part of the duty of the Division of Highways, according to an interveiw with the State highway officials today. When a State road is paved, the State assumes full responsibility for its upkeep forever. In addition to maintaining the highways, it must exercise such control over traffic as to insure that the road are not put to improper use.

In the following statement, Col. C. R. Miller, Director of the Department of Public Works and Buildings, and Frank T. Sheets, Chief Highway Engineer, give an interesting example of one of the many problems the highway officials must face in preventing abuse of State bond issue

"We are constantly being besieged by requests from all parts of the State for permission to move houses and other buildings on our paved highways. Charged as we are with the responsibility of seeing that the enormous investment of the State in highway improvement is conserved to the utmost, and that our roads are at all times kept as free as possible of all traffic hazards, we have refused to grant such permits."

'Our attitude in this matter is sometimes misunderstood and conas arbitrary, but such is not the case. When heavy buildings are moved on the pavement, there is considerable danger of damaging or weakening the slab, due to an over-concentration of load at a few points. An equally great objection is that such operations interfere with the normal highway traffic to such an extent as to be highly inconvenient, if not actually dangerous, to drivers.

'We appreciate the fact that it is less expensive to move buildings on the paved State highway than in unimproved roads, but we must at all times hold the interests of the many above those of the few. It is for these reasons that we refuse to grant permits to move buildings on our paved roads. Furthermore, we are determined to take full legal action against anyone who attempts to put the State roads to such use without permission."

#### WE CRAVE APPRECIATION

What we all crave, even we may not know it, is the appreciation, the good will, the esteem, the gratitude of our fellow-beings. Happily, the universe is so ordered that a life of honest, honorable, unselfish effort chawed incessant, sence the fall of usually brings its meed of appreciation and reward. - B. C. Forbes, in Forbes Magazine.

This year he had planned to observe his 89th birthday anniversary in Grand Rapids and had promised a dinner to all of his comrades from Moultrie County and Decatur who Glen Rhodes, who graduated from might be in attendance. Naturally he was greatly disappointed to have illness upset his cherished plans. His friends will be glad to know that his

#### ARRESTED FOR SPEEDING

Ralph Turner of Decatur, was arrested this week on a charge of speeding. The complaint in the case is der. Joe Kastelic. The offense was committeed some weeks ago. Kastelic also has a claim against Turner for \$125.00 for damages done to his car. Turner pleads not guilty and will have a trial next Monday in Judge Lambrecht's Court. In the mean-time he is out on \$200 bond, furnished by his parents.

#### TWELVE O'CLOCK DINNER

Mr. and Mrs. John Floyd entertained fifty relatives at a pot luck dinner Sunday at their country home southwest of Sullivan.

The dinner was spread on tables under large shade trees. After dinner the time was spent in a social good time and also with music.

Those present were: Mr. and Mrs. Ross Thomas and son: Mr. and Mrs. Will Landers: Mr. and Mrs. Albert Landers and sons; Mr. and Mrs. Jas. Central College. Landers and family; Mr. and-Mrs. Raymond Shasteen and sons; Mr. and Mrs. Victor Landers and family; Rey. George Anderson and family; Mr. and Mrs. Howard Robinson; Mr. and Mrs. Charles Taylor and son of Lovington; Mrs. Eunice Sipes; J. E. Landers, Jerry, Bonnie and Ora Buxton and Cyril Conover.

#### WHY CAN'T MOULTRIE

COUNTY HAVE A FAIR AT ITS COUNTY SEAT? There is quite a bit of talk these days about organizing a Moultrie

County Fair association with headquarters at Sullivan. Other county seat towns are now having fairs and drawing big crowds from surrounding territory. Sullivan is the county seat of one of the best counties in the state. Our farm products and live stock products cannot

be beat. We have plenty of enthusi-

astic race horse men to insure a good racing card. Another thing that Sullivan has got is an ideal location for a Fair their residence in this city Tuesday to Grounds. The old fairgrounds at the Northwest part of the city has plenty of shade, a good track and lots of

other good features in its favor. It is too late now to plan for anything of this kind for this Fall but right now is the right time, to get started organizing the necessary association, if there is to be a fair here a year from now.

#### WILL CELEBRATE 50TH WEDDING ANNIVERSARY SEPTEMBER, 14TH

#### TOBE DAVIS BARBERING

HIS FLORIDA NEIGHBORS Tobe Davis who left here with Mrs. Davis and party, bound for Florida, on August 6th arrived at St. Petersburg in that state on Friday, August 14th. He took a look around, liked the town, applied for a job and on Saturday was busily engaged in bobbing, shaving and trimming his new found neighbors and friends.

#### FIRE DESTROYED BARN

Fire from some cause undeter-mined, Thursday night of last week, destroyed a barn on the premises of Thomas Reedy in the North part of this city. The fire department and neighbors closely guarded neighboring property to prevent sparks from setting any other buildings on fire.

#### HERMAN REEDY HELD;

**BROTHERS ARE RELEASED** Harlow and Delmar Reedy were released from custody Thursday afternoon of last week on advice of States men and their younger brother Hermoney from the Ran Miller home in Kirksville. Herman, the younger brother, assumed full responsibility grand jury.

#### BETCHER LIFE IT WILL

A real estate man reported the following at a shoe factory meeting this week: "I had a fellow out this afternoon and showed him a house. He told me 'If you get the shoe factory, I'll buy at your price'. I told him 'no you wont, for if we get that factory the price is going up'".

The first result of a factory will be a very much desired stiffening up of pensive in numerous instances. real estate values in Sullivan.

In Illinois it is twice as years. membered by the older residents of others who may care to call to do great. Touring and typhoid seem to

> Locating the source of typhoid fever infections has been very difficult this year, according to health of-Cases have been widely ficers. scattered, very few local epidemics being reported. It is felt that automobiles figure in the increased typhoid incidence in two ways. Typhoid carriers may travel widely from time to time, coming into contact with scores of people whom they would never see but for the motor car. Automobiles also take people, who otherwise would remain at home, into country towns and byways where they drink water from polluted sources and eat unsanitary food.

An epidemic of typhoid fever usually has a single source that can be more or less readily located and eliminated. Sporadic, widely distributed cases, like those occurring this year in many places, indicate a multiplicity of sources which are difficult to locate and hard to control. The situation resolves itself into a personal matter. If people wish to avoid this disease they must learn to eat and drink Attorney Patterson. These young from sources known to be clean and sanitary or else sterilize foods and

In the cities it is rather an easy matter to control water and milk supfor the theft and was held to the plies and thereby insure reasonable safety at all times. The multitude of private water supplies available along highways and the innumerable, as well as unsanitary sandwich counters that skirt the principal automobile routes make it impossible for health departments, as now organized, to either inspect or impose any sort of sanitary regulations. Every motorist must become a sanitarian and hygienist on his own account or elese take the chance which seems now to be ex-

> A malignant type of smallpox has been smouldering in the middle west for the past two or three years. Outbreaks varying from a few score to several hundred cases have occurred in Missouri, Kansas, Iowa, Minnesota, Colorado, Wisconsin, Michigan and Illinois since 1922. At Cedar Rapids 12 out of 55 patients died this summer. Nobody protected by a recent successful vaccination has caught the disease to date.

> The school bells have called 200,-000 Illinois children to the classroom for the first time. From now until Spring it will pay the parents to watch the health margin of these children very closely. Every normal child loves to learn and measure fully up to his companions. Physical defects and illness sometimes cause a child to get undue credit for being a 'bone-head".

> An hour with an oculist will mean more to the education of a child who has defective vision than a month with a teacher who doesn't appreciate his condition. Likewise a child with diseased tonsils will profit more by an operation than by keeping hours ter school with the teacher.

A movement is on foot in Chicago favoring the operation of the public schools throughout the entire year, shortening the daily classroom hours and distributing vacation periods. With sufficient medical supervision, the plan is a good one for several reasons. One is that the children will have greater opportunity for outof-door play throughout the year. As the short daylight hours so that his out-of-door life, which is vital to health, is concentrated largely in the summer vacation period.

A scar of successful vaccination against smallpox and a record of immunity against diphtheria ought to be considered as a part of the school child's equipment no less definitely than books and pencils. Schools are maintained for teaching children how to be successful in life. Certainly one of the greatest factors in success is good health. Avoiding preventable diseases which not only interfere with school progress but which may permanently impair health must therefore be regarded as an important factor in education.

PRICE OF OATS WARRANT

THEIR WIDE USE FOR HOGS Urbana, Ill., Aug. 31.—Since threshing, oats prices in comparison with those of corn and middlings are such that they warrant the rather extensive use of this grain in hog rations, according to W. E. Carroll, chief of swine husbandry at the College of Agriculture, University of Illinois. It is true that oats are not especially valuable for fattening hogs, because of their bulk, but they can be used to good advantage for the breeding herd.

"Pigs that are being grown out for the breeding herd as well as mature breeding sows and boars may be pretty largely fed on oats where the first met Curtiss, he thought that he price will justify it. If the hogs have access to a good legume pasture, good remember him saying so and I told results will follow the exclusive feedover and tell me, Bob, as soon as you him at the same time that it was ing of oats. They probably should be heard," I exclaimed, "and you know absurd. However, when his brother ground for the younger pigs and for not too great.

'Ground oats will be found especially valuable in the brood sow's ration just before farrowing and during the suckling period. While the sow is milking heavily, probably not more than half the ration should be "Yes, a funny coincidence. BEST BOY STOCK JUDGE

Urbana, Ill., Sept. 31- Donald Cameron, the 17 year old Peoria county farm boy who turned in the highest score in livestock judging at the recent state judging contest for boys' and girls' club members held at the College of Agriculture, University of Illinois, has an outstanding record as a club member. This is his fifth year in club work, he produced the first ton-litter of pigs in Peoria county, he was high individual in the boys' and girls' swine judging contest at the 1923 National Swine Show he has been president of his local club three of the five years that he has been a member and he now has three Dudoc-Jersey brood sows and 19 spring pigs which he has produced as a club member.

ALLENVILLE AND JONATHAN CREEK CHRISTIAN CHURCHES

The services at Jonathan Creek were well attended last Sunday. The morning audience was good and the spirit of the service splendid. In the evening the Y. P. S. C. E. of the Mt. Zion Baptist church were the guests of the society and a great service was held. The program was good and we are sure that the visit of the young folks was helpful to the local society. In the evening an unusually large crowd attended the preaching service The audiences and the interest in all the service is growing at this church.

Next Sunday will be preaching services at the Allenville church. Bible school will be at 10 o'clock. The subject for the morning sermon will be, Christianity and Life". In the evening the subject will be, "The Second Coming of Christ". The people living in the communities adjacent to these two churches are invited to attend all the services. The church is seeking to serve the community and we are sure that your presence and

#### DR. ROYAL J. DYE FAMOUS MISSIONARY TO AFRICA SPEAKS FRIDAY was very difficult.

Dr. Royal J. Dye, who will speak at the Christian church tonight, is one lishing a great church at Bolenge, of the outstanding missionary speak- which now has a membership of 2,ers of America. His strength as a 000. He had introduced the tithing speaker lies in the fact that he, him-system among the new converts which self, for many years, was a pioneer missionary in the midst of difficult conditions in Central Africa; and the added fact that he has a rare gift of making his auditors see vividly the conditions of the native people and the transformation which comes when they are converted to Christ.

Dr. and Mrs. Dye were in the group which established the beginning of the work at Bolenge in the Belgian Congo, one thousand miles inland from the west coast of Africa. Together with E. E. Faris, who had preceded them, Dr. and Mrs. Dye began work in Bolenge in 1899. They served until 1907 when Mrs. Dye's health broke and they were compelled to return before their second term ex-

Following this, Dr. Dye returned alone to the field for his third term of service. Having been attacked by germs of sleeping sickness, he, too, was compelled to return from the field. Since that time he has been a flaming torch for Africa all over America.

Dr. Dve was one of the pioneers in attacking the problem of sleeping sickness among the natives in Central Africa. He and Mrs. Dye also had much to do with the first work of reducing the language to written form from the native speaking di-

For many years Dr. Dye was the only doctor within 1,100 miles of the Congo river. The work at first was very difficult, and the influence of the witch-doctor very strong. With Dr. Dye's medical science, however, he was able to overcome the terror of witchcraft and after four years the first converts were baptized.

During the Dyes' second term on the field, the Christian Endeavor Society was established and Mrs. Dye made the first grammar and first translation of some of the gospels.

Following the second term on the field, Dr. Dye was instrumental in raising \$25,000 for building the mission steamer "Oregon" in order that held at the M. E. church in Sullivan, the tribes in the back country up the Sunday. tributaries of the Congo might be reached with the gospel message.

The early days were filled with hardships and dangers. The great majority of the people in the back

SULLIVAN,

country were cannibals, and as Bolenge is on the equator the climate

Dr. Dye was instrumental in estabhas largely continued to this day.

The station at Bolenge was taken over from the Northern Baptists for a small sum in the beginning and as the back country had not been explored no one knew the extent of the territory occupied by the Lonkundo speaking tribe. Dr. Dye made some of the first itineraries and opened up the back country in many villages. A recent survey had proven that this territory is at least 400 miles in extent from the river and forms a triangle with about one million people in it, with Bolenge at one of the points.

A study of the development of the work in Bolenge and the stations in the back country which sprang from it is one of the most interesting and thrilling in missionary history. Dr. Dye is a master in his description of conditions in this remote district of the world and also in his portrayal of the power of the gospel to have the lowest and most superstitutious of the world's population.

Miss Emma Evans is on the sick list Mrs. Dale Elzy is staying in Hamthat village.

# **Accept Deposits** And Make Loans

These are the two basic activities of a bank. Unless it be to get change or cash a check, you usually enter a bank for one of these two things.

This makes of a bank your financial headquarters. When your finances show a surplus, we can take care of them for you on open account, on interest-bearing time certificate, or if you want to invest in some reliable security, we can advise you.

When your business, your farming operations or other activities require additional finance, come here and talk things over. We are sure that we can be of assistance to you.

It is to your interest to thoroughly familiarize yourself with the service your bank can render you. Come in and talk matters over.

#### SUSAN WEAKLEY DIED

SUDDENLY, FRIDAY NIGHT Mrs. Susan Weakley, a pioneer resident of Moultrie county, died from a paralytic stroke very suddenly Friday night, August 28, at the home of her son Andy Weakley, near Bruce. Mrs. Weakley was in her usual health and the sudden farewell was a surprise and a shock to her family and friends.

Susan Robinson was been in Wilson county, Ohio, February 26, 1853. She came with her parents to Illinois in very early life.

She was married to John Weakley

Alma Butler and Andrew Weakley. Mr. Weakley and Mrs. Butler reside in the Bruce community.

Other near relatives surviving are, ten grandchildren, three great-grand-children, one brother W. C. Robinson of near Allenville. Three sisters preceded her in death.

Mrs. Weakley was converted in early life and united with the Methodist Episcopal church of Sullivan and remained a devoted member of the same until the time of her death. At the time of her death she was

72 years, 6 months and 2 days of age. Funeral services were held in the Sullivan Methodist church, Sunday afternoon at 2:30. The pastor, Rev. Milton Wilson delivered the funeral Thomas and Mr. and Mrs. Elmer J.-D. Butler, J. E. Butler and Ora Butler, grandsons and Fred Bragg, Claud and Howard Hilligoss grandsons by marriage.

Burial was in Greenhill cemetery.

U. will be measures, appropriating other milheld in Wyman Park, Thursday, Sept. lions of dollars for this work until ports the sale of a Chrysler 4 sedan Illinois Masonic Home, two, one over now the nation is committed to a program of vocational education through the secondary schools.

This federal and state money is distributed through the state treasury by the State Board for Vocational Education to the local schools for the reimbursement of the salaries of teach- day. ers of agriculture, home economies per cent of such salaries for full-time sionary society at her home Friday produced 53.7 lbs. fat. L. D. Seass work.

The object of all vocational ployment. The aim of vocational Mr. and Mrs. James Harsh. agriculture is to prepare for the work of the farm. The Vocational Law sets up certain requirements for the Finley, Sunday. local schools, which in agriculture are sane and practical. The teacher must have their regular meeting Tuesday ed an average of 38.8 to 36 lbs. fat be employed for 12 months and each boy enrolling in the course must enroll for 12 months and carry on six months of farm practice under the supervision and instruction of the teacher of agriculture. This farm work usually becomes a project in which the boy has a financial interest. Work is done, records are kept, studies are made and instruction is given, both in school and out, based upon the project which must be carried on for at least six months each year the boy is enrolled in the course. Here is a new and practical form

of education come to the boys of the Arthur; Mrs. Agnes Kellar, Sulcountry,—a college bred teacher, livan; Mrs. Eva Leggitt, Whitley with practical farm experience, a farm for a laboratory and a co-operating father to assist, and an organized course of instruction in the high school,-where is there a better opportunity to teach and to learn in that great basic industry of our country-agriculture.

There are over 160 departments of vocational agriculture in Illinois similar to the new department in S. T. H. S. and the general feeling throughout the state and nation is that such work is of a premanent value and its popular favor guarantees its continuance in all progressive communities.

The department of vocational agriculture in the local school stands ready to help, not only the boys who enroll in the classes, but all the agricultural interests of the community. We do not assume to tell the farmers how to run their business, but we do propose to teach practices, principles son and Homer Pifer spent Sunday and facts which farmers may use in in Taylorville. their business, and where we are unable to give the assistance sought, we shall endeavor to get in touch with is available in the interests of the

#### OURTH WELL BEING PUT DOWN ON PATTERSON FARM: WATER PROSPECTS GOOD

Well No. 4 of the series of test vells being sunk by the city South of nere was started this week. It is located on the Clyde Patterson farm, North of the McLaughlin well No. 1. It is planned to sink well No. 5 at a point near the road North of the Morgan school house.

Wells No. 1 and No. 3 showed up very satisfactorily. They show an abundance of water in good gravel formation. Well No. 1 is really the by helped him to right his car and adbest well thus far.

A late geological survey shows that the water bearing gravel in these wells is below the level of the present bed of the Okaw, plainly indicating that the water in this gravel is fed by the Okaw, and acts as a water reservoir even when the Okaw is at its lowest stage.

Messrs. Warren and Van Praag of the engineering firm which is directing the work are firmly convinced that a solution to Sullivan's water supply problem has been found. They were here Saturday to locate the last two of the five test wells. From here they went to Villa Grove where contract was let that day for a big paving job.

As soon as a definite location for the two big permanent wells is decided on the legal machinery will be set in motion to prepare the necessary ordinance and other actions necessary to go ahead with the proposed improvement.

#### REPORT OF MOULTRIE COUNTY DAIRY HERD IMPROVEMENT ASSOCIATION FOR AUGUST

Two hundred and two cows were tested officially for milk and butter fat production. One cow produced over 70 lbs. fat, five produced over 60 lbs. fifteen over 50 lbs. and a total of thirty-eight exceeded the 40 lb.

The highest producing cow for the month is a pure bred Guernsey owned by Leslie Horn. She produced 1730 bs. of milk and 70.9 lbs. of fat. This is the fourth consecutive month she has passed the 60 lb. mark.

The second highest cow is a purebred Jersey owned by P. B. Harshman. She produced 67.4 lbs fat. This cow led the association in July with 80.4 lbs. and was the highest producing Jersey in Illinois by a wide mar-

A purebred Jersey owned by J. J. Helmuth was third highest cow with 61.9 lbs. fat. She is a three-year old and was raised by Clyde Patterson and sold to Mr. Helmuth.

Two other cows made over 60 lbs. fat; one of these is owned by John Craig, the other is owned by Clyde Patterson.

Of the cows producing over 40 lbs. fat, eight are owned by A. J. Yoder, one producing over 50 lbs. P. B. Harshman had seven in the 40 lb. class, five of them over 50 lbs. Rush Weeks owned three, one over 50 lbs. J. J. Helmuth, three; one over 60 lbs. 50 lbs. Clyde Patterson two, one over 60 lbs. John Craig, two, one lbs. L. Wheeler two over 40 lbs. L. D. Seass one, W. Redfern one, Ralph Emel one, Leslie Horn one, J. H. Sharp one, N. D. Helmuth one, J. S.

Bicknell, one. J. S. Bicknell had the highest herd average. His pure bred Jersey cow had second highest herd average. Two registered and grade Jerseys averagthird highest herd. His twelve grade -Will Phillips and family of Jerseys showed an average production of 42.2 lbs. fat. The herds of P. B. Harshman, J. J. Helmuth, J. A. -The Daughters of Veterans will Powell and Clyde Patterson all showper cow.
