## Booster Meeting Told Factory Subscription Success Seems Assured

Rain Kept Many Away From Big Chicken Fry, but Booster Meeting Was Well Attended. City Hears About Water and Other Improvement Plans.

A steady drizzle of rain Monday evening interfered with the success of Sullivan's Booster chicken fry in Freeland Grove. Preparations had been made by the ladies of the Christian church to serve about a thousand but less than one third that number came. There were very few out-of-town people.

Following the supper a community booster meeting was held, the attendance at which was very good. A number of booster songs were sung after which President Robinson of the Community Club opened the meeting. None of the speakers from Charleston or Flora could be present, so local talent was employed to do the boosting.

Prof. C. L. Brewer, superintendent of the public schools was introduced and made a splendid talk setting forth the advantages of co-operation and the values which will accrue to Sullivan if it succeeds in its efforts to secure industries.

**Water Engineer Talks**  
Mr. Warren of the engineering firm of Holbrook, Warren & Van Praag of Decatur, was called upon to tell what developments had been made along the line of getting a water supply for this city. He went into detail to explain just how underground water supplies were located and displayed a map showing the underground pre-glacial valley South of this city as proven out by the five test wells which have been drilled in that neighborhood. He was emphatic in his statements that this underground gravel bed held a sufficient quantity of water for all present and future needs of this city.

He told of the wells which are to be sunk and which will have a guaranteed production of not less than 500 gallons per minute. In advertising for bids to put in these wells, such a 500-gallon per minute guarantee will be required of the contractor to whom contract for the work is awarded. The system of financing the improvement was also explained (Continued on page five)

## MANY GUESTS AT JENNE WEDDING CELEBRATION

One hundred and seventeen guests sat down to the big dinner Monday at the home of Mr. and Mrs. Henry Jenne. The occasion was the 50th wedding anniversary of that couple. Many more guests had been expected and preparations had been made for their entertainment but the bad weather prevented them from coming.

Mr. and Mrs. Jenne were showered with congratulations and gifts and their many friends wished them many happy returns of the day.

## LEWIE DAVID MOVING BACK TO SULLIVAN

Lewie David who has been conducting a hardware store at Gays for the past two years, has sold his business and will move back to Sullivan next week. He has rented the John Bupp residence property on Market street. He will be associated in the hardware business with his father, J. M. David, on the South side of the Square.

## SULLIVAN CONTRACTORS GET SHELBYVILLE CONTRACT

The Shelbyville Board of Education last week awarded the contract for the construction of a new grade school building in that city to Hagerman & Harshman of this city for a consideration of \$94,716.

## The Shoe Factory Fund is Now up to \$75,000.00 Mark

The committee in charge of the campaign to raise a bonus fund to secure a shoe factory for Sullivan announces that it has secured subscriptions totalling \$75,000.

To this fund there are but 180 subscribers.

The committee now feels that there is no doubt but that the \$100,000 fund can be raised.

The plan now is to rest the campaign for the present or until such time as the committee can present to the people of Sullivan a definite proposition from one of the Established Shoe Manufacturing firms.

After securing such proposition a short intensive campaign will be put on to secure the needed additional \$25,000.

A day will be set on which merchants will be asked to close their places of business and, together with their clerks, get out and work for Sullivan's future. Everybody in Sullivan will be expected to work and to contribute. A few people cannot do it all. It will take enthusiastic and concentrated effort to reach the goal.

**Sullivan Needs a Pay Roll and we Will Get it  
— Then See Sullivan Succeed**

## HOWARD HUCKELBERRY IN THE GRAIN-BUSINESS

A deal was closed on Wednesday of last week whereby A. F. Davis of Arthur sold his elevator at Fairbanks to Dr. F. C. Phillips of that city and Howard Huckelberry of Sullivan.

The elevator was built by the Davis Bros. in 1902.

Howard Huckelberry who was engaged in the oil business with Fred Fisher of this city until recently when he sold his interest to W. H. Fisher, will move to Fairbanks and conduct the business.

## ROUGHTON DIVORCE CASE

Mrs. Virginia Roughton has filed suit for divorce from her husband Kenneth Roughton, to whom she was married at Charleston September 11, 1922. In her petition she charges desertion. Mrs. Roughton is a daughter of F. J. Thompson of this city. She will enter the U. of I. this month to continue her studies.

—Mrs. McLaughlin of Salem is visiting at the home of her son J. L. McLaughlin.

## ODD FELLOWS MEET TONIGHT AT LOVINGTON

The monthly district meeting of Moultrie County Odd Fellows will be held at Lovington tonight (Friday). A special program, something very much out of the ordinary, is promised and a record attendance is expected. Prominent workers in the lodge from other places have promised to be present. Those having no conveyance, are asked to be at the Tire & Battery Shop about 7 o'clock.

## AUTO TURNED OVER

Mr. and Mrs. J. M. Mosby and daughter, while driving by the Roy Martin farm South of this city, Sunday, were shaken up and bruised when their car skidded on the muddy road and turned over, throwing the occupants out.

**MCCUSKER GROCERY — Joe King's** fancy gorphum; Mich. Elberta peaches; Damson plums; white pickling onions; Grime's Golden apples; Goldenheart cantaloupes; celery; head lettuce; crockery ware; flour; feeds and work clothes.

## MRS SARAH ADALINE ELDER ANSWERED DEATH'S CALL

Mrs. Sarah Adaline Elder, well known resident of the East Hudson neighborhood Northwest of this city, died Tuesday after an illness extending over a period of several months.

Mrs. Elder was a daughter of Mr. and Mrs. Jefferson Hudson, pioneer resident of this part of the state. She was born in Sullivan township about a mile from the place where she spent practically her entire lifetime.

On February 28, 1911 she was united in marriage with Samuel Elder. Five children survive from this union. They are Ernest Elder of Bethany, Marie, wife of Ezra Shelby of Lovington and Neva, Lena and Edith at home. She also leaves her sister, Mrs. Barbara Horn of this city and two brothers Jerry Hudson of Lovington and Isaac Hudson of this city. One grand child, Ella May Shelby also survives.

Funeral services were held Thursday afternoon at the Christian church and were conducted by Rev. G. M. Anderson. Interment was in Greenhill cemetery.

Pall bearers were John Bolin, Art Alumbaugh, Orman Newbould, Dave Cummins, Henry Daum and Dr. S. W. Johnson.

## W. C. T. U. ELECTED OFFICERS AT COUNTY MEETING

The county meeting of the W. C. T. U. held in Wyman Park last week was well attended and the superintendents made interesting reports of the work which has been done during the past year.

All former superintendents were re-instated except Mrs. Flora Creech, who was promoted to the office of County Evangelist superintendent. The prize for the largest increase in membership during the past year was awarded to Whitley Union.

Officers elected are as follows:  
Mrs. Helen Davis, president; Miss Minnie Edwards of Bethany, vice-president; Mrs. Harriet Clendenin of Arthur, secretary and Mrs. Agnes Kellar, treasurer.

## MRS. GLENN WILLIAMSON

Mrs. Glenn Williamson a well known matron of Dalton City, died Monday after several months of sickness. She leaves her husband and two brothers, I. J. Weaver of Collinsville and M. V. Weaver, formerly of this city but now a resident of Charleston. The funeral was held Wednesday. Interment at Bethany.

## Prospects Very Good For Winning Football Eleven This Year

School officials and coach plead for whole hearted support from the community. Loyalty of home folks spurs boys on to victory.

Will the people of this community support their football team, loyalty and give it the encouragement which will send it forth to victory?

This is the question which school officials ask. They know that on it depends the success of the season which will be started here Saturday, September 26th when Assumption comes here for the opening play.

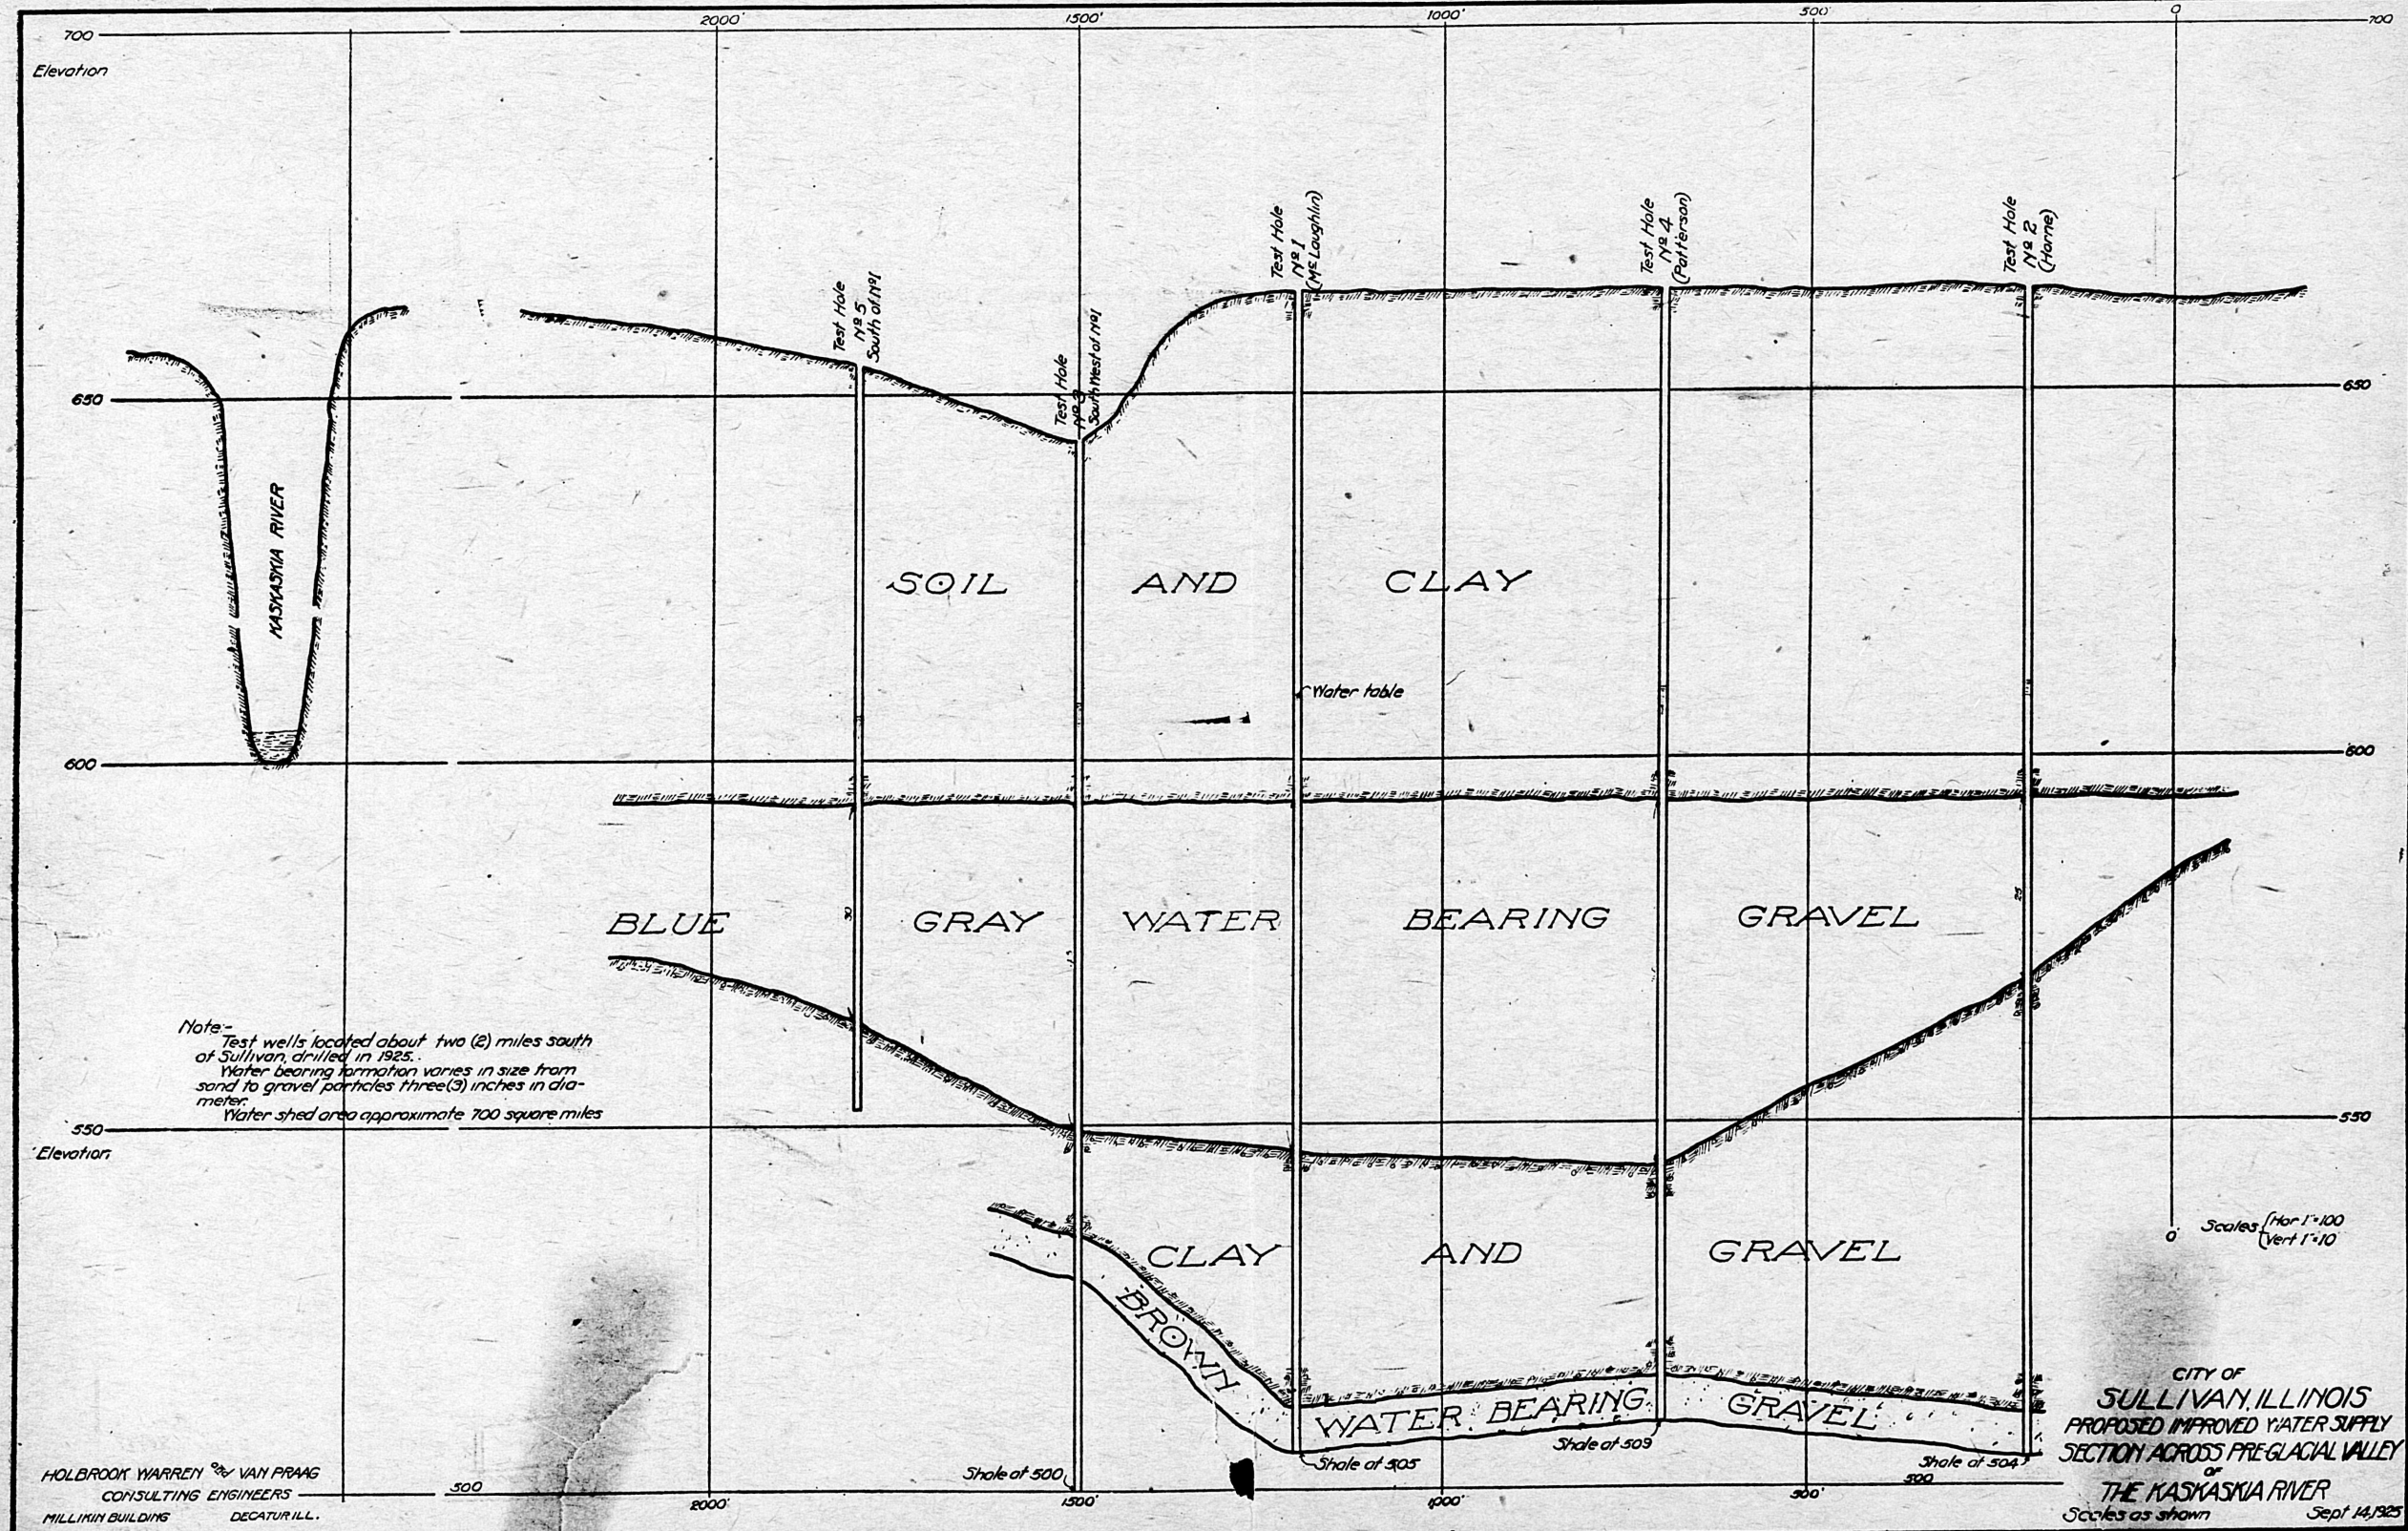

Coach Sterling and Assistant Coach Dennis say that they are going to have a good team. Practice has developed the fact that Sullivan will have an eleven this year that ought to win.

Seven of last year's players will be seen in line and there is plenty of new material available to build not only a good first team but also a good second team. Four games have been scheduled for this second team.

A tentative line-up, which may see some changes before the opening game is as follows:

Quarterbacks: Baker and Roley; halfbacks: Tusler and C. Purvis; full back, Captain Kenneth Purvis; ends: John Miller and Percy Ledbetter, possibly Fleschner; tackles: Yarnell and Buxton, possibly Kenneth Lowe; guards: Wilson, J. Kelly and Dolan; (Dolan will not be here for the first games as he will attend the State Fair School); center: Grigsby and Fleschner. Out of this material Coach Sterling proposes to construct his team to face Assumption.

The schedule is as follows:  
Sept. 26 Assumption at Sullivan.  
Oct. 3 Sullivan at Arthur.  
Oct. 3 Central Junior High at Decatur. (Second team)  
Oct. 10 Sullivan at Atwood.  
Oct. 16 Lovington at Sullivan.  
Oct. 17 Sullivan (Second team) at Arthur. (Second team)  
Oct. 24 Central Junior High at Sullivan. (Second team)  
Oct. 30 Bement at Sullivan.  
Oct. 31 Arthur (Second team) at Sullivan. (Second team)  
Nov. 7 Shelbyville at Sullivan.  
Nov. 13 Sullivan at Findlay.

### IF YOU'D LIKE TO WIN

If you think you are beaten, you are;  
If you think that you dare not you don't;  
If you'd like to win, but you think you can't,  
It's almost a "cinch" that you won't.

If you think you'll lose, you've lost.  
For out in the world you find  
Success begins with a fellow's will:  
It's all in the state of mind.

Full many a race is lost  
Ere even a step is won.  
And many a coward fails  
Ere even his work's begun.

Think big, and your deeds will grow;  
Think small, and you'll fall behind;  
Think that you can and you will;  
It's all in the state of mind.

If you think your outclassed, you are;  
You've got to think high to rise;  
You've got to be sure of yourself  
before  
You can even win a prize.

Life's battles don't always go  
To the stronger or faster man;  
But soon or late the man who wins  
Is the fellow who thinks he can.

### NOW FOR ROUTE 132

The paving on Route 32 from Windsor to Cerro Gordo is practically finished. A few small jobs remain, which will be taken care of in due time. This gives Sullivan an outlet to the North and to the South. At Windsor Route 32 connects up with Route 16 which crosses the State from East to West and at Cerro Gordo the North end connects up with another hard road.

Sullivan owes the State Highway Department a vote of thanks for the royal way in which she has been treated in this matter. While other cities has been squabbling about road right of ways and locations, Sullivan has handled the matter in such a way as to get just what she wanted and she got it without any bluster and antagonism.

The reason for this was that Sullivan, through its Community Club decided on what it wanted. It then proceeded to send its committees to Springfield where facts and figures were presented to the proper department.

Sullivan was fortunate in having as one of its active boosters, a man close to the Governor, Rev. W. B. Hopper. Through his influence, backed up by the Community Club, Sullivan got the road routed where she wanted it and there was no delay in the building.

Another man, however, also deserves great credit for the speeding up

of the road work. That man is O. E. Lowe, chairman of the board of supervisors road committee. Mr. Lowe and his committee, which consists of himself as chairman and F. F. Fleming, A. M. Blythe and M. E. Foster, assisted by T. C. Fleming the County Superintendent of Highways, worked hard and persistently in getting the right of way for the roads. Only in two cases, Geo. Monroe and Elmer VanGundy, both non-resident land owners, was condemnation court action necessary to get the right of way.

In all other cases the road committee secured for the people of the county the very best available terms and prices.

This took a lot of diplomatic work. Omer Lowe knew how to handle the job. Moultrie County was fortunate to have him in the right place at the right time.

But the hard road work is far from done so far as Moultrie County is concerned. We want Route 132 built next year. This is the route from Mattoon to Decatur. Just what road will be followed between these cities is doubtful. One thing certain is that the road will pass through Sullivan and Bethany. Efforts are being made to have the road routed past the Masonic Home and this will doubtless be done.

It has been rumored that Route 132 would be one of the first roads to be built out of the \$100,000,000 road bond fund. Efforts will be made to have this done.

It will take a thorough working organization to do this. Such an organization, managed and directed by Rev. Hopper can and will get results.

We can't sit back with a grin of satisfaction because Route 32 is finished. Let's get busy now and start work immediately on getting favorable action on Route 132. It ought to be easier than in the past, because we have had the experience which shows how results can be achieved.

**"I READ IT IN THE PROGRESS"**  
The Progress is always ready to boost for anything that may be of benefit to this community. If the present editor has established a principle in the six and one half years that he has edited The Progress we believe it to be that of boosting the community.

If it is for the good of Sullivan we are for it. Sometimes these things are not necessarily good for The Progress. That is a secondary consideration. We are for Sullivan, first, last and all the time and are ready to take our chances so far as we are personally concerned.

Now how about Sullivan and The Progress? If you folks feel that The Progress is a good thing for Sullivan, reciprocate by giving it a boost once in a while.

We really feel that we are getting out a better paper now than we have heretofore. We are better acquainted with the people whom we serve and as our acquaintance widens we can write about more people and stories about people you know are what makes a newspaper interesting.

New subscribers are enrolled weekly. Some quit. Some die. We take pride in keeping our list culled

out. The papers we mail out go to a live list of subscribers. You folks who read this know it to be true.

We blow our own horn. We believe in advertising and we do a lot of it.

If you like The Progress and believe in the principles which it upholds, tell folks about it. If you read anything that especially appeals to you say that "I read it in The Progress". If you have any advertising to do or know anybody that has a sale to advertise or bills to print, put in a good word for The Progress. You won't regret it, neither will he.

A newspaper is really a sort of co-operative institution. Its success depends on the good will of the community it serves. If you feel that we are doing some good, do us a good turn when the occasion offers.

When you read a merchant's advertisement, tell him that "I read your ad. in The Progress."

Perhaps modesty ought to forbid an editorial like this, but we have never been accused of being any too modest where a good cause is concerned.

Your weekly copy of The Progress is more than just a newspaper. You get newspapers from the bigger cities. They contain lots of stuff that does not interest you, because the publishers have no particular interest in you. They want your money. They want to put the advertisements of the big city stores into your home. Further than that they don't care a whoop about you.

Now your home town paper is different. You know the editor. He's one of you. He's interested in those things that interest you. He's a friend on the job to help wherever his personal help is needed.

His paper that reaches you weekly full of items carefully selected, with always the thought in mind that they are to interest you. Even the advertisements are directed to you. They are written to interest you and to induce you to deal with the home folks—the home town merchants.

Your children, if you have any, read The Progress. It tells them about folks they know. A paper of that kind gets to be a family institution. It's not perfect by any means. You can help make it better by a little co-operation. If you will do a little boosting where boosting does good; if you will speak a good word once in a while or send in some news items we'll be everlastingly grateful and we'll work our darnedest to merit your good will and respect.

### BE A BOOSTER

Do you know there's lots of people sittin' 'round in every town, Growlin' like a broodin' chicken, Knockin' every good thing down? Don't you be that kind of cattle, 'Cause they ain't no use on earth, You just be a Booster Rooster; Crow and Boost for all you're worth.

"If your town needs boostin' boost 'er;

Don't hold back and wait to see If some other fellow's willin'— Sail right in; this country's free. No one's got a mortgage on it; It's just yours as much as his; If your town is shy on boosters You get in the Boostin' biz.

If things don't seem to suit you, And the world seems kinder wrong, What's the matter with a boostin'— Just to help the thing along? Cause if things should stop a-goin, We'd be in a sorry plight; You just keep that horn a-blowin— Boost her up with all your might.

If you know some feller's failin's Just forget 'em, cause you know That same feller's got some good points; Them's the ones you want to show. Cast your loaves out on the waters, 'They'll come back, 's a sayin' true, Mebbe, too, they'll come back 'but-tered' When some feller boosts for you." —Exchange.

## This Week

By Arthur Brisbane

**BUSINESS IS GOOD. SHE DIDN'T CRY. PITY POOR NEW YORK. THINKING IS HARD.**

Business IS GOOD. Tell that to your inquiring friends. The value of crops will be TEN THOUSAND MILLION DOLLARS. Farmers are more cheerful, prices good.

Commercial business in cities is improving steadily. Extraordinary showings will be made for August by many department stores and other big institutions.

The state of New York pities itself because it pays \$500,000,000 income tax, almost a third of the entire national tax.

New Yorkers shouldn't forget that if they pay \$500,000,000 it is because forty-seven other States send all their wealth to New York banks, spend millions in New York shops, and hotels, and allow New York's high finance to tap with its corporations and its interlocking ownerships the sources of wealth all over the United States. Since New York gets so much come,

it should be content to pay the tax.

"President Coolidge will leave the coal situation for the present to Congress and hopes there will be no profiteering in the meantime." So reads the dispatch.

That is a large hope, for "in the meantime" many dealers have raised the price fifty cents a ton. With the public, panic-stricken, rushing to buy that means comfortable profiteering.

Mrs. Elsie Eaton Newton, Ohio lady, found herself facing the emptiness of life, with her two daughters married. Many ladies would have sat down to have a good cry. Mrs. Newton went to Marietta College, worked hard, got her A. B. degree, with her two grandchildren sitting in the audience, to cheer.

Now she is Dean of Women in Marietta College, and happy.

There is no life emptiness, except in the brain. Keep that busy and life is all right, even if your daughters are married and your husband dead.

The next generation will read about "the navy patrolling the route," to save the fliers if necessary, and that will seem as strange as to send an automobile with a carrier pigeon in case it should fall down.

Mr. Konkle in New York, to prove gratitude for the recovery of his son, supposed to be hopelessly ill, will build a 65-story building, partly religious, partly commercial, made up of a church and a hotel, with 4,500 bedrooms. Ten per cent of profits will go to missionary work, looked after by the son. The father will look after the profits.

The dining room will hold 2,000 in the tallest building, thus far, in the United States.

This religious building contracts interestingly with the old sinful Tower of Babel, which probably was about one-half the proposed height of this 65-story hotel.

The great Bernard Shaw, in a mood of unusual but accurate humility, says the world a thousand years hence will know nothing about him except that the great French sculptor Rodin, once made a bust of Shaw, biographical dictionaries will contain this:

"Shaw, Bernard; subject of a bust by Rodin; otherwise unknown."

Even that's an overstatement, for in a thousand years Rodin won't be remembered any more than Shaw.

Rodin in art, 1,000 years from now will be as unimportant as Kipling in literature or Shaw in philosophy.

After war broke out, the Czar put Russia on a cold water basis, stopping the sale of vodka absolutely.

This column then suggested that absence of whiskey would mean more cold thinking by Russians, and that one result of such thinking would be the absence of the Czar. That prophecy was fulfilled.

Now Bolshevism restores vodka to its old alcoholic power—about forty per cent.

Men to whom thinking is new dislike the unpleasant sensation and effort.

And government that want to rule in peace find their work easier when the crowd ruled is well supplied with whiskey.

### STRICKLAN SCHOOL HOUSE BROKEN INTO

Early Sunday morning, about 2:30 o'clock, Sam Burtcheard who lives southeast of this city, called Sheriff Ashbrook and reported that somebody had broke ninto the Stricklan school house and that there was light in the building. The Sheriff, accompanied by Constable Foster, hurried to the scene. On the way they met an auto coming toward Sullivan. They stopped it and searched it but could find no liquor. When they arrived at the school house nobody was to be found. It is presumed that some fellows, with a thirst, had selected the school house as a place to do their drinking and to stay all night, but later changed their minds.

## HAPPY BIRTHDAY

## ANNIVERSARY

Albert Myers of 1116 Lewis street, arranged a happy surprise for Mrs. Myers by having a number of his neighbors and friends to come together Sunday for a big basket dinner. It was the fifty-sixth birthday anniversary for Mrs. Myers and it proved to be a very happy event.

Mrs. Myers has been blind for many years not being able to see since she was six years of age. She is of a happy disposition and loves company. Her home is a meeting place for all of her neighbors. By scheming for several days they effected a complete surprise for her. In the morning, she was invited to drive to the Methodist church and attend Sunday School and preaching services. She is a frequent attendant at church and this part of the day was a great pleasure to her. When she returned home a little after the noon hour she found the following persons there to greet her and to ask permission to stay for dinner. She extended to all a hearty welcome. A bountiful spread for all prepared by neighbors and friends.

The guests present were, Mr. and Mrs. H. H. Hawkins, Mrs. Emma Dingman, Mrs. Mary Hanrahan and son Ralph; Mrs. Elizabeth Maxey, Mr. and Mrs. Fred Foster, Mr. and Mrs. Carl Summitt, Mr. and Mrs. Gilbert Booker, Mr. and Mrs. Levi Wells, Rev. and Mrs. Milton Wilson and son Robert, all of Sullivan.

Decatur guests—Mr. and Mrs. William Myers and daughters May, Dorothy and Jean; Mr. and Mrs. Roscoe Shepherd and daughter Bon-

nie, Mr. and Mrs. J. O. Dawson and son James Richard.

The daughter Miss Hortense Myers assisted the mother and father in caring for the guests. It was a happy day for all.

## SURPRISED BY FRIENDS

Mrs. J. C. Reeder was pleasantly surprised Friday evening when a number of her friends gathered at the home of her parents Mr. and Mrs. J. E. Burtcheard, and tendered her a farewell party as Mrs. Reeder and children left Sunday for Arthur where they will make their future home. Mr. Reeder is engaged in the barber business in that city.

Mrs. Reeder received many nice and useful gifts for her new home. The evening was spent in a social way and refreshments of ice cream and wafers were served.

Those present were: Mrs. Henry Hess, daughter Bernice; Mrs. Violet Blackwell, Mrs. W. L. Booker and granddaughter; Mrs. Wm. Sams and two children; Mrs. George Lansden, Mrs. Bessie Gaddis and daughter; Mrs. Hugh Murray; Mrs. Charles Hochstetler and children; Mrs. Frank Witts, Mrs. Rose McCarthy and daughter Helen; Misses Golda Creech, Mary Cutright, Golda Cooley, Nell Coventry, Leota Stain, Grace Grider and LaVerne Chaney, Bessie Bertscheard, Mrs. J. E. Bertscheard and Mrs. J. E. Reeder and children.

## TENTH WEDDING ANNIVERSARY

Mr. and Mrs. John Bathe celebrated their tenth wedding anniversary Wednesday, September 9th at their country home, North of Sullivan. A number of relatives were present. The party was in the nature of an alumnium shower and Mr. and Mrs. Bathe received many nice gifts.

A two course dinner was served at seven o'clock, after which the time was spent in a social way.

All departed late, wishing Mr. and Mrs. Bathe many more happy anniversaries.

## Better BUICK owners are Masters of the Road

Once you have driven the 75 horsepower, 75-mile-an-hour Better Buick;

Once you have wheeled it over some particularly tough hill—in high gear—gaining speed all the way;

Once you have observed the way it assumes the lead in traffic;

Once you have checked its economical gasoline consumption against your friends' cars—

Then you will realize fully that the Better Buick, with its 75 horsepower Valve-in-Head engine, gives you power—speed—and inexpensive performance like no other car you have known.

The best way to discover how very much the Better Buick has added to the pleasure of driving is to drive a Better Buick. We have one waiting for your telephone call.

The pupils of the school are arranging a program to be given at that time. All interested are invited to attend.

## ROAD WORKERS LEAVING CITY AFTER COMPLETING WEST END CONNECTING SLAB

The hard road strip in the West part of this city was completed Saturday afternoon. It has not yet been opened to travel. Neither has the road South of the city from Hamilton street to the Horn place been opened. Work of putting the dirt shoulders on the road is progressing steadily.

Most of the equipment which Smith Bros. used on the local job is being shipped to Cisne, Illinois on Route 25 where the contractors have a 12 to 15 mile piece of roadway to finish this fall.

Joe Minter, who had been in charge of the local job, has gone to Missouri where he will superintend the construction of a 24 mile slab. Sullivan folks will miss Joe Minter and the rest of the road working crew. They were a congenial, hard-working bunch and leave many good friends in this city who regret their going to other fields.

B. A. Wrede and Ivan Riley will be here for some time to finish up details of the work and office activities. Mr. Wrede is staying at the home of Mrs. Helen Davis. He would like to dispose of about 500 cubic yards of ground which was removed from the right of way West of this city and about 150 cubic yards South of the city. His phone number is 336-Z.

## WALTER ROSE

Walter Rose died at the home of his mother, Mrs. Asia Rose in Windsor, Wednesday night, following a stroke of paralysis. Funeral services were held Thursday and interment was in Sand Creek. The Rose family was at one time prominent in this community, having lived on the farm where Guy Kellar and family now reside.

## LEAVITT BARN BURNED

The barn on the farm of Mr. and Mrs. Carl Leavitt about a mile West of this city, burned to the ground Saturday night between the hours of 10 and 11 o'clock.

It is rather a mystery as to how the fire started. It is supposed that a tramp may have slept in the hay mow and used matches. If such was the case he got away without being seen.

In the barn was a quantity of grain and some hay, harness, etc. No livestock was in the structure at the time.

—Mrs. Hannah Duncan and daughter Miss Hattie and Miss Susie and son Perry Duncan of Iowa, are visiting at the home of Mrs. W. A. Duncan and Mr. and Mrs. Del Duncan in this city this week.

## PROMINENT SPEAKERS; SMALL ATTENDANCE AT DISTRICT FARM BUREAU MEETING

"Too many fairs" was given as the apparent reason for a small attendance at the 19th district Farm Bureau Convention held in the Circuit Court room in this city, Wednesday.

A good program had been arranged but the attendance from neighboring counties, which are in this district, was rather small.

The morning's speaker was President Sam Thompson of the Illinois Agricultural Association. He discussed the many and varied problems which confront the farmers of Illinois.

The first speaker in the afternoon was F. B. Barton representing the 17th congressional district. He explained the Association's legislative program and gave the farmers an insight into how new legislation is secured at Springfield.

Following Mr. Barton was Prof. E. C. Hayes of the Social Science Department of the U. of I.

Prof. Barton's talk was largely along the lines of stabilizing economic conditions by adopting methods to insure world peace. He had recently spent some months in Europe investigating conditions there. His talk tended to show that only through some international organization like the World Court can there be any stability which will insure against future devastating wars.

The next convention for this district will be held December 9th at Monticello.

### BOOSTER MEETING TOLD FACTORY SUBSCRIPTION SUCCESS SEEMS ASSURED

(Continued from page one.)

by Mr. Warren. Under this plan the water supply must pay for itself through use of the water. Only receipt from the water department can be applied to retire the water certificates which will be issued to pay for the improvement.

**Mayor Reports Progress**

Mayor Patterson was then called to the stage and told about the work of the present city council, its ambitions and its aims to do something really worth while for Sullivan.

He stated that as a preliminary to putting Sullivan on a better financial basis, a plan had been adopted providing for prompt payment of all city electric and water bills before the 20th of each month. Out of the funds so realized meters have been bought and at the present time no consumer gets service on a "flat rate". They all pay for what they use.

He expressed himself very optimistically relative to the proposed water supply and stated that prospects were good that the three railroads passing through this city could be secured as water customers and if such arrangements can be made these railroads will use approximately 150,000 gallons of water daily.

**To Improve Light Plant.**

An interesting thing said by Mayor Patterson was that the Council has under consideration a plan for re-equipment of the light and power plant by which the cost of producing "juice" can be cut 50 per cent below present cost of production. No action will be taken along this line, however, until the water situation is well in hand.

The Mayor complimented the city on the "new spirit" which seems to prevail. This spirit is one of boosting improvements. It shows a re-awakening in the faith of the future of Sullivan.

**Report on Shoe Factory.**

The meeting was then turned over to Chairman McLaughlin of the shoe factory committee. After making a good talk he called upon Rev. D. A. MacLeod and Rev. G. M. Anderson, both of whom made talks boosting the efforts of Sullivan to progress along industrial lines.

John Gauger, director of the shoe factory campaign, was called to the stage to tell people what has this far been done. He was roundly cheered when he reported that the pledges already received amounted to more than \$70,000. "This has been done" said Mr. Gauger, "without making a very strenuous and systematic campaign. We want to boost this figure up to \$75,000 and then we can go to St. Louis and definitely ask for a proposition for man old line factory, for we can be certain that the balance can easily be raised.

Mr. Gauger explained why the factory committee has not divulged the names of the old line companies who are good prospects for a Sullivan branch factory. Too much publicity along this line would result in other cities trying to get ahead of Sullivan. He expressed his firm conviction, however, that if Sullivan's committee can go to St. Louis within the next week and present pledges totalling \$75,000 to those who contemplate building a branch factory, a contract can be signed for such factory without very much delay.

He stated that plans had been made for a drive Tuesday in which at least \$5,000 more was to be raised.

Mr. Gauger has been in close touch with this entire proposition and his optimistic way of presenting the matter to the booster meeting seemed to assure that success was in sight.

With a few more remarks by Mr. McLaughlin, who made a special plea to the women to "get sold" on the proposition and help put it over, the meeting adjourned.

### PRESBYTERIAN

Last Sunday we were glad to see such a nice increase in the number in our Sunday School. It is possible that there are some who have yet failed to note that it is about time to get into the harness for the work of the church year. This is just a little reminder that we would like to see all who are interested in the church work present at some of the services of the day. We would not think much of a man if he spoke of his home and failed to make his presence known in the same, at least if he failed to show up there, you would know that he had forgotten the same. There are some people to talk of being so and so, and it is true in all churches, that they somewhat are a minus quality. There is a revelation of the fact as to how much they think of their church home, and how long it would be maintained if it wholly depended upon them. It is well to think this over.

Subject for next Sunday morning service, "Prayer as Working Power". Evening subject, "Doing One's Best."

### Anne Spurns Sallie's Suggestion

Anne was the center of a gay group that crowded the punch bowl at the far end of the room. She was drinking the "Joy water" that had been elaborately spiked.

Each time it was offered to me, I refused. The regularity of the life I had been living had changed my perspective and made me see the danger of drinking.

Then too, during those days of abstinence, I had learned how pleasant it was to awake with a song on my lips from sheer bodily health, eager to begin the routine of the day without any of the dull aches. But what on earth had happened to Anne? She was partaking freely of the punch and complimenting the "kick", which she declared in loud tones, she enjoyed.

My thoughts raced back to a year ago and I wondered how it was that, just by living, the viewpoint of two persons could have been so changed. It was evidently due to the experiences through which we had passed. With me, the result was that I regarded life through more serious eyes while Anne had apparently been left with the desire to throw discretion to the four winds and taste of a gay career.

"Tell you what, it doesn't pay, this goody-goody business," she announced to anyone of the group who chose to hear. "Used to confine my pleasure to foreign places and be oh so good at home. But I've thought it all out and from now on I'm gonna be wild."

She was feeling the effect of the punch which she was not accustomed to drinking and I saw that the chaperones were beginning to sharpen their claws. I would have spared her the little mean gossip that would be flying from tongue to tongue before dawn.

I made my way quickly to her side. "Listen, Anne," I whispered, touching her arm, you're not used to taking anything with such a fancy wallop as this and it's mixing your words. Come along, let's get up to the dressing room until it wears off."

"Go 'way she commanded, "I know what I'm doing. From now on the tables 're turned, I'm gonna have a good time, D'yer hear? I might as well go long."

She pushed me aside.

Someone caught me by both arms looking upward I caught the eye of Curtiss Wright. He had just come to the edge of the punch bowl and when Anne pushed me I fell into his arms. The man in the Lieutenant-Colonel's uniform was, of course, his brother of whom I had already heard.

I glanced in the direction of Anne. She was staring at the uniformed man at our side. Her face blanched and she turned her head swiftly as if to avoid his eyes. She looked around excitedly and taking Ted Billing's extended arm started in the direction of the doorway—beyond which was the star-flung night—and cars.

"That was splendid of you" Curtiss began. Then he had heard the words that had passed with Anne during the exciting scene.

## CHURCH NOTES

### METHODIST CHURCH

Milton Wilson, Pastor

Little time for writing. Much abbreviated report. Fine interest in prayer meeting last week. Sunday was a day filled with good things. The Sunday School numbered 172 and the Senior Epworth League was attended by 31. The public worship was well attended both morning and evening. The special number given by Mrs. Bert McCune and Miss Mildred McCune was beautiful and helpful. A broken violin string interfered with the orchestra playing Sunday night and our people were much disappointed.

The collecting of funds for annual budget has been completed. All bills accrued against the church for the year have been paid. If time permits a copy of the financial report of the church for the year will be made for publication next week.

The pastor starts for annual conference at Beardstown at noon Tuesday. The session will be likely to close on Monday evening, Sept. 21. At that time the various churches will know who is to be their respective pastors for the year.

The every member canvass for next year's budget will be made Friday, Saturday and Sunday, September 25, 26 and 27.

The program for next Sunday: Sunday School at 9:30 a. m. and Epworth League at 6:30 p. m. No preaching services and no Junior League.

Mr. Henry Jenne will have charge of the prayer meeting on Wednesday night.

### THE GOSPEL MISSION

H. H. Smith, Supt.

9:30 a. m. Sunday School.  
11:00 a. m. Morning worship  
6:30 p. m. Young Peoples Service  
7:30 p. m. Evangelistic services.

Cottage prayer meeting on Tuesday evening, announced at the Sunday evening services.

We had a good attendance at young peoples service on Sunday evening, with Miss Freda Williamson leading. We enjoyed having you all; come again. Glad to see so many of the young people out for the Sunday evening service. God wants young people, people with young blood. The enemy has taken his stand, and it has become a hand to hand fight today. God wants men and women, boys and girls who will buckle on the whole armor, and follow the captain (Jesus Christ) into the very thick of the fight. Come on young people, let's go over the top for Jesus.

### FIRST CHRISTIAN CHURCH

Geo. M. Anderson, Minister.

Parsonage 2105 Jefferson St. Phone 185.

Last Sunday was a red-letter day for the Bible School and church. The Bible School rallied with an attendance of 252. Both morning and evening services had capacity audiences. Those having part in the special High School and Go-to-College Service were: Mrs. C. R. Hill, Gloyd Rose, Fern Garrett, Roy Patterson, Prof. Brown and G. H. Ifner gave short talks on different phases of college life. Helen Chase, Wm. Dedman and Wm. Heacock, the Girls quartette and Mrs. G. R. Fleming furnished the special music. It was pronounced as a wonderful service in every way.

The church observed its first mid-week service last Wednesday evening at 7:30 o'clock. It was an encouraging meeting in as much as there were about 38 or 40 present, many of whom had some part in the meeting either by prayer or reading the scripture. We are expecting the number to increase from week to week and that many more will have some part in the prayer life of the church.

We have but two Sundays until the beginning of the revival meeting. The time is short and too much emphasis cannot be made as to the value of these hours of preparation. No doubt every member of the church will want to have some part in this special work. Some people get warm and ready to work the day the revival is to close. How much better it will be if each and every member will warm up to the work now during these hours of preparation. Then we will not need to waste valuable and good fuel in the early days of the meeting. Come to all meetings and hear and see what is going on.

Bible School begins promptly at 9:30 o'clock.

Lord's Supper at 10:30 o'clock.

Morning sermon subject, "Big Business".

Christian Endeavor meeting at 6:30 o'clock.

Evening service at 7:30 o'clock. Sermon subject, "A Moral and Spiritual Clinic".

You are invited to have some part in these services.

Your pastor is to speak to the High School students Friday afternoon 1:15 o'clock at the H. S. Auditorium.

### BAPTIST CHURCH

A. J. Burville, Pastor.

Sunday School 9:30 a. m. Preaching 10:45 a. m. subject "Seven Things About Salvation".

Christian Endeavor at 6:30 p. m. The subject "Christ came to save sinners".

The doors of the church were opened on last Lord's day morning to admit three more new members into our church. This makes five adult members that have come into our church this month. It does not look as if a change of officers is doing any harm to our church. Rather it seems to be taking on new life. One of the members comes from the New Hope Baptist church, about 6 miles from Pana,

Illinois. I am acquainted with this church. I preached in the Iler Baptist church for some time. This is about 3 miles from the New Hope Baptist church. There is some fine people belonging to this church. Please remember our Sunday night service at 7:30 p. m. We sing three or four good, old time songs before the sermon. We try to run our Sunday night service for one hour. We had quite a nice little crowd out on Sunday night. The mid week cottage prayer meeting will be at Mrs. Noah Welch's this coming week again in the South part of the city. We had a fine meeting out there last time we were there. Please remember our cottage prayer meeting at the parsonage, Grant street, Friday night. Both meetings at 7:30 p. m. Please bring your Bibles. Come with us and we will do thee good.

Tuesday Club at her home this week. Mrs. Clara McDonald received the Club prize and Mrs. Ella Dearduff the guest prize. Mesdames Eva Hoel Sarah Erhardt and Ella Dearduff of Tuscola were out of town guests.

Miss Lelah Howell, English teacher at Bethany, spent week end at home.

—Mr. and Mrs. Fred Booker returned Friday from a motor trip. They visited Beloit, Madison and Green Bay, Wisconsin. They had expected to go further North in that state but were prevented from doing so by condition of the roads. On their return trip they came through Chicago and spent some time in that city. Mr. Booker is head mechanic at the C. H. Tabor Motor Sales.

—Mrs. Frank Witts, Mrs. Rose McCarthy, Misses Golda Cootey and LaVerne Chaney spent Friday in Decatur.

—For blacksmithing or horseshoeing, see H. V. Siron, Sullivan.

# 1,050,000 TONS OF WATER

This is what our present city administration is planning to furnish the city each year out of one pumping unit. Another unit, to be used as a reserve, will furnish an equal amount. Whether this can be done will depend, of course, upon locating a sufficient quantity of water bearing material, and the results of the drilling of the test wells to date indicate that such a source of supply will soon be located. It would take a train of 30,000 tank cars 150 miles long to carry that much water.

If such a supply of water can be obtained, and distributed over the city, the water question of the city will be solved for many years to come. It means lower insurance rates, greater fire protection, better living conditions, and less danger of an epidemic of disease. And what is more to be desired, it means GROWTH and expansion.

We endorse the plan whole heartedly. We think such results are worth going after. Don't you?

Father Burtle sailed from Montreal the early part of July with a party on a pilgrimage to Rome. In that city they visited the Vatican and were received by Pope Pius.

**SPENT FORTUNE IN SEARCH**  
I spent \$1,800 in 7 years treating with physicians, some specialists costing me \$10 a visit, only to at last say that nothing could be done for me, that I had cancer or ulcers of the stomach. I suffered awful pains in my stomach, but after taking a few doses of Mayr's Wonderful Remedy these all disappeared and for 3 years am feeling fine. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis or money refunded. For sale by druggists everywhere.

# Test Holes Show Underground Stream of Water Available to Supply Demands of This City

(See Engineers' Sketch on Page 1.) Pre-glacial Valley of Okaw Found to Have Nearly 50 Feet of Water Filled Gravel and Coarse Sand at a Point About Two Miles South of This City. This Water Bed is Below Level of Present Okaw River Bed. Solution for Sullivan's Water Difficulties Now in Sight. City Officials to Push the Work Along. If no Obstacles are Struck New Mains May Deliver Water to City by January 1st.

The drilling of a series of test wells South of the city of Sullivan has just been completed under the direction of the City Council and the results indicate that there is an immense ground-water stream located in the vicinity of the McLaughlin farm. It is very gratifying to the City Council and to the citizens of Sullivan who assisted in financing the drilling of a number of test wells, to know that a satisfactory water supply can be secured within a distance of two miles of the city.

The sketch of page one shows a cross-section North and South across both the pre-glacial and present valleys of the Kaskaskia river. It is extremely interesting in this connection to note that the test wells prove the fact that the pre-glacial valley which is filled with a blue gray water bearing gravel, lies at a lower level than the present bed of the Kaskaskia river, thus affording an immense underground storage basin.

No. 1 test well was located along the hard road South of Sullivan at a point about 300 feet South of the North line of the J. L. McLaughlin farm. In drilling this well, the drillers penetrated approximately 68 feet of soil below which was found 48 feet of coarse water bearing gravel ranging in size from that of sand particles to gravel particles 3 inches in diameter. Below this bed of water-bearing gravel was encountered a formation of clay and gravel with little water bearing qualities and at a depth of about 151 feet a brownish sand and gravel was encountered to a depth of 157 feet. This last named bed of sand and coarse gravel was 6 feet in thickness and contained a remarkable supply of water, considering its thickness. Immediately below this formation a sandy shale was located which indicates the base of what is known as the glacial drift.

## Five Test Wells.

In order to determine further the width of the pre-glacial valley and the nearest point to the City at which a permanent supply of water might be developed, additional test wells were drilled as follows: No. 2 test well was located on the Horn farm, East of the hard road and approximately 1,000 feet North of test well No. 1. No. 3 test well was located on the McLaughlin farm approximately 1,000 feet North of test well No. 1. No. 4 test well was located on the Patterson Farm approximately 500 feet North of test well No. 1. No. 5 test well was located on the McLaughlin Farm approximately 500 to 600 feet South of test well No. 1. It will be observed from the study of the accompanying profile or cross-section of this area that the pre-glacial valley of the Kaskaskia river contains an immense and valuable water bearing gravel deposit ranging in depth from 25 to 50 feet and having a width of approximately 1/2 mile. Additional data secured from other wells shows that the water bearing gravel formation tapers off to a depth of approximately 6 feet North and South of the old valley. It is also important in this connection to consider the fact that the pre-glacial valley of the Kaskaskia river extends from the Northeast to the Southwest very much as the present valley of the Kaskaskia river, although in places the original valley does not underlie the present valley, as has been demonstrated by the drilling of the test wells referred to. A further reference will be made to this point under the following head.

## Geological Formations

In order to better understand the nature and character of the formation from which it is planned to develop a water supply for the city of Sullivan, Illinois, it will be of interest to consider briefly the history of the glacial formations in Central Illinois. Previous to what is known as the Illinoian Drift, there was developed on the bed rock of the state an irregular erosional surface. In general, this surface dipped to the South, but in it there were carved deep valleys and between the valleys there remained elevated remnants. The whole surface was covered with a residual soil.

When the Illinois ice sheet advanced over the state, carrying with it a load of material consisting of clay, pebbles and boulders, it removed and incorporated within itself most of the old soil and a great deal of the underlying bed rock. The ice sheet was of such tremendous proportions that it passed over the irregularities of the pre-glacial surface as if they did not exist. But as the ice advanced, some of it was being constantly melted and the waters derived from this melting sought escape in the pre-existing valleys. The waters carried with them a load of material set free by the melting of the ice which had held it, and this material was deposited along the channels followed by the waters. This is the pre-Illinoian gravel found in some places just above the bed-rock.

The test holes drilled under the direction of the City Council indicate the bed-rock formation referred to above and also the pre-Illinoian gravel just above the bed-rock.

After the retreat of the Illinoian ice sheet, there occurred a period suf-

ficiently long to permit a soil to form on the till and during which complete systems of rivers with their tributaries were cut in the surface of the till. These streams did not always coincide with the courses of the pre-glacial streams. In fact, they rarely did so. Consequently the valleys of the later streams were formed sometimes through till and sometimes through bed-rock where they cut down through the divide between the pre-glacial valleys.

Then came the advance of the Shelbyville ice sheet, which in turn was unaffected by any irregularities in the pre-existing surface. The fact is that the pre-glacial valleys are but partially concealed by the Illinoian Drift Sheet and with this fact in mind, it will be readily understood that the general direction of the pre-glacial valley of the Kaskaskia river coincides in a general way with the general direction of the present valley of the Kaskaskia river, although, as stated previously, the original valley need not necessarily underlie the old valley at all points.

Very definite data has been secured in this connection in studying the local situation and the location of the pre-glacial valley has been fixed not only in the vicinity of the McLaughlin farm, but also a distance of several miles to the East and Northeast, where remarkable water bearing gravel formations have been located on the Purvis and Martin farms, and although Southwest of the McLaughlin farm, where the same character of water bearing formation has been explored on the Lowe farm. With a general knowledge of the characteristics of such pre-glacial valleys, and particularly of their relation to the surface topography, it is possible to quite definitely fix the location of the old valley in an Easterly and Westerly direction.

In this connection it is very interesting to know that the pre-glacial valley of the Kaskaskia river will receive the underground drainage from a territory of approximately 700 square miles in extent, and not only that it will receive this underground drainage, but also that with the sub-

stantial depth of water bearing gravel a tremendous underground storage basin is available. In other words, the city of Sullivan, through its investigations and studies, has located a veritable underground river, containing an unlimited supply of pure water, filtered by nature's own processes.

## Personnel

Considering the progress which has been made on this important project by the present City Council, it will no doubt be of interest to recall just who the members of our City Council are at the present time. They are, C. R. Patterson, Mayor; W. H. Boyce, clerk; J. E. Jennings, city attorney; and the following aldermen, Frank McPheeters, Charles Hankley, W. H. Birch, C. E. McFerrin, Dr. J. F. Lawson and J. E. Swisher.

The engineering firm of Holbrook, Warren and McNPraag, Decatur, Illinois, has been retained by the City Council of Sullivan and this firm has directed the studies and investigations briefly outlined above.

The Layne-Bowler Company of Chicago, Illinois, has drilled the test wells above described. It is very gratifying to know that the City Council is carrying forward their studies and investigations in this connection, has had the most cordial cooperation of the Community Club.

During the period of investigation, the State Geological Survey, through Dr. M. M. Leighton, has rendered a very valuable service and the City officials have unhesitatingly sought every possible source of information, in their efforts to secure a proper and permanent solution to the water supply situation of Sullivan.

## Development Plans.

Having definitely located the existence of an adequate supply of water within easy access of the city, it is now contemplated that a plan of financing will be worked out and that construction will be undertaken at the earliest possible date. The Water Certificate Plan appears at this time to be the most logical one for financing the construction of the necessary wells, pumping stations and supply main to the city, and it is proposed to introduce an ordinance for the issuance of such water certificates within a period of a very few days. Considering the progress which has been made during the term of the present city officials, and considering the enthusiasm of the general public, it is safe to predict that an adequate and permanent supply of water will be delivered to the city limits of the city of Sullivan before the end of 1925.

## FINES ASSESSED IN

### LOCAL POLICE COURT

Police Magistrate L. Lambrecht started the week by the assessment of fines Monday morning before 8 o'clock.

Elmer Dawdy, who had been arrested for being drunk pleaded guilty to the charge and was assessed a fine of \$50 and costs. The penalty was made rather heavy because Mr. Dawdy is classed as an habitual offender. Not being able to pay up, he was sent to jail.

Ralph Ferguson and William Johnson got into a fistic argument Sunday night and were gathered in by officer Getz. When brought into court Monday morning, both entered pleas of guilty. Ferguson was fined \$13.50 and costs and Johnson \$10 and costs.

On Saturday Homer Hawkins was tried on a charge of speeding. He was represented by Attorney Mattox. A change of venue was asked for and Judge "Daddy" Brown was called in to hear the case. Officer Getz made the complaint. The offense took place on Saturday night a week previous. Mr. Hawkins and John Bupp were on their way to Bethany. They passed a car occupied by Officer Getz. Their defense was that in passing Mr. Getz it was necessary to speed up. The officer stated that he had to speed up to 27 miles an hour to get the number of the car that passed him. After hearing the evidence Justice Brown assessed a fine of \$25 and costs, totalling \$38.60.
