This was done one evening when Jenkins was admitted into the jail at his request to visit the prisoners. As he is well known locally it was not thought that he had any criminal intentions while making this visit.

The saws have been found by the sheriff in an old mattress which he cell shows that an effort was made to

Two theories are advanced for Jenis based on a transaction early last Summer. Jenkins' car had been stolen and was never recovered. The father of the boy who had stolen the car, sent the Sheriff \$500. Out of this amount the Sheriff bought Jenkins a new car and returned the balance to the man who sent it. Jenkins at that time declared that he was entitled to the entire amount. The other theory is that Walling may have hired Jenkins to get the saws for him.

It has been learned that Jenkins did not buy the saws himself but gave the money to a young man about town Tobe Webb is acting as deputy mits buying the saws and giving them and the change to Jenkins.

LOWDEN VS. COOLIDGE The battle is on. The son of the New England hills vs. the farmer of

the Illinois prairies. Frank O. Lowden, former governor of Illinois wants to be President. He came near his goal back in 1920 when he sought the Republican nomination at Chicago. The big Eastern capitalist bosses did not want him. The result was the nomination of Warren G.

Then came the convention of 1924. The country had gone Coolidge-crazy. Folks believed what was told them about "Cautious Cal" and fell into capitalism's trap and elected their

servant to the presidency.

The Coolidge bubble is deflating. When the wind is all let out there will be nothing left. The Coolidge wave was a sort of fad while it lasted. People are beginning to do some real hard thinking.

Nobody is doing more of this these days than the farmers. They have already seen the delusion of the tariff snare and they are sitting up and taking notice of big business' well laid plans to keep the Coolidge regime in power for another term.

They can't see this stuff at all and they are beginning to look around some. On the horizon, big as life, looms the figure of Frank O. Lowden. The ex-governor is some politican. He is laying his wires and when the juice is turned on, wont Cal and his followers get one awful shock? If a presidential primary were held in Illinois or any other agricultural state right now, the people would be "coolish toward Coolidge" but "loud for

THE MONKEYS TRIED IT. IMAGINATION'S POWER. CORN LOW, HOGS HIGH. ZERO WILL HELP.

Charles Garland, an earnest young New Englander, inherited a large fortune, refused at first to take the money, saying no man had a right to money not earned. He changed his mind and drifted into a sidetrack. Convinced, perhaps, that he was an original thinker, he decided that marriage was an unnecessary institution. Now he is arrested, because a young child born on his farm died, having for its mother an unmarried girl.

The young man should realize that his experience was tried by our alleged simian ancestors for thousands of years before man appeared, and abandoned by our human ancestors of 100,000 years ago.

Not to do away with marriage, but to make men WORTHY of it, is the task of the human race. "Away from than "Back to nature."

Citizens of Minnesota get from their State University interesting information about their state. It contained the beginning of life on this planet, in the form of algae, two hundred million years ago. The first life store. Boy Scout work that may be of came as soon as the earth's temperature fell below the boiling point.

One of the first real animals was an ancestor of our frogs and salamanders, living on land and in water, with a foot four inches in diameter. It is from the five toes of the salamander, you know, that we get the five fingers on each hand, according to the evolutionists.

Mathematicians wish that salamander had had six toes. That would have given us the duodecimal system instead of the decimal system, which it based on our ten fingers and thumbs. The duodecimal system would be a great improvement on the decimal, twelve having four divisors, ten having only two.

Mr. Green, of the American Federation of Labor, predicts an early end of the coal strike, now distressing the East and other parts of the country. The thermomenter at zero may help. FIRE IN ARCADE BUILDING THURSDAY NIGHT, DISCOVERED BEFORE DOING MUCH DAMAGE

The uptown of Sullivan had a fire scare Thursday night of last week when crossed wires under the floor of the offices of the Grain Brokerage Company set fire to the woodwork.

Harry Shipman and Thornton Bromley saw smoke issuing from an upstairs window on the south side of the building. Investigation showed that the rooms were full of smoke and an alarm was turned in. The fire had by this time gotten a good start on the framework and had also gotten into a pile of old papers on the floor. Chemicals and water extinquished the flames before much damage was done

Tenants in this building are the Star Art Studio, the A. H. Miller In-surance Compnay, S. B. Hall, storage, and the grain office on the second floors, the Linville poolroom and the Palmer Confectionery on the main floor. The upstairs rooms were all filled with smoke and some damage was done in each. The confectionery suf-A policeman dashed in, arrested fered loss through water soaking the man "pointing the gun" at Demp- through the ceiling and dripping onto the downstairs floor and fixtures.

The alarm occurred about 7:30 and the fire was all out a half an hour

SOLVED THE PROBLEM

"I was almost distracted with stomach trouble, gas and colic attacks and didn't know what to do. I had tried everything I heard of, and the doctor's medicine did not help me A friend told me about MAYR'S "one dose will convine" and it has solved the problem, as I can now eat anything and have no distress." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by druggists everywhere.

Mr. Herbert Hoover, Secretary of Commerce, addressing a convention of the National Association of Railroad and Utilities Commissioners, said, while discussing the necessity of state rather than federal regulation of electric utilities:

"There is growing an interconnection between districts by which the ebb and flow of seasonal or daily surplus of this commodity---electricity---moves from one district to another

"I wish to amphasize a distinction that has an importance in all conception of regulation, ignorance of which has been responsible for much misapprehension. This interconnection simply means the sale of sur-, plus power from one district to another and does not bear any more implication of 'trusts' and 'giant monopolies' than the interchange of cars between different railway systems. And it has the same economic and public advantage as does the interchange

CHURCH NOTES

FIRST CHRISTIAN CHURCH

Geo. M. Anderson, Minister. The sermon subject for next Sunday morning will be "Miracles". What disposition shall we make of Miracles in this day of science and practical living? Are the Miracles of the Bible antiquated and discredited? If all Miracles of the Bible are authentic, of what use are they to this present generation? Why did God choose to use miracles during Bible times? These and other questions will be discussed during the morning worship hour.

The Local Boy Scout Troop will have a special service in their honor Elder J. V. Brady to a good sized next Sunday evening. Christ was a great out-of-door man. He did most of his preaching in the open. We read of him spending all night on the plains, in prayer. Christ's first duty was to God. "He must be about his father's business". was Jesus motto when he was but 12 years old. Thus the scout of today resembles the Christ in as much, as his ideal is to spend as much time as possible in the open or out in God's great out-ofdoor. A boy becomes of scout age at

There was just enough coffee to make one cup around. Needless to ay, all went well until this gentleman drank his alloted share; then came papa's undesired question, "Come, Charles, won't you have another cup of coffee?"

"Oh! No, thank you. Although the coffee is fine, I do not care for any near \$25.00.

Still papa urged, and even mama, who unfortunately did not know of the shortage on coffee, proudly added, "Of course, you must have some more. Our Nellie is getting to be quite a cook."

'Well, perhaps just a little," consented Mr. Swigget.

A look of wild dismay spread over my face, and I notice a smile of commouth. Still mama urged. I frowned, Lots 1, 2, 3 and 4 of Block 2 of M. and the gentleman politely choked, and then persistently declined.
