Decatur Mohawks Put Up Good Battle; Greys Won by 5-3 Score

Fans Very Enthusiastic Over Showing Made by Son's New Team. Decatur Blues Will Be The Victims Next Sunday.

Sullivan baseball fans saw an exceptionally good game Sunday. Furthermore they are convinced that Sullivan has one real A No. 1 team this year.

Next Sunday another Decatur team will play here. They go by the name of the "Decatur Blues" and are said to be as good or better than the Mohawks which went down in defeat before Son's boys Sunday to the tune of 5 to 3. The "Blues" were defeated by Sullivan in a 3 to 2 10-inning game last year.

The first two and one-half innings were short and sweet. In the third, 2 singles and an error and Chipps walking, put the first run across for Sullivan.

With a man on second and third in the fourth inning Dennis brought the following play to plate and Sterling ran down two men unassisted.

Sullivan got next to Hill in the 4th and two singles, a walk and an error netted 2 runs. Hill was removed from the mound and Celasko from first base went to the mound. One more run was tallied before Decatur put on the lid.

Bunched hits and an error let Sullivan score another in the 6th.

The Mohawks rallied in the 7th and 8th and scored three runs by driving a few long ones, one being a 3-bagger by Grojohn. Decatur figured in a fast double play in the 8th.

The crowd Sunday was not as big as the week before although the game was better by far. Dennis pitched some real ball and Sullivan never really happened into a tight place throughout the game.

The play by innings was as follows:

THE GAME BY INNINGS

First Inning.
DECATUR—Dennis fanned Leshinsky. Chipps took Grojohn unassisted. Spicer singled past Galbreath, then stole second. Celasko struck out. **No runs, one hit, no errors.**

SULLIVAN—Read out, short to first. Pribble went to first on right fielder's error, but nailed at second on attempted to steal. Poland fanned. **No runs, no hits, one error.**

Second Inning.
DECATUR—Kostofski cracked a two bagger to center. Seitz, Hewitt and Hill passed out quietly via the strikeout route. **No runs, one hit, no errors.**

SULLIVAN—Chipps cracked one to left for two sacks. Purvis flied out to left. Hill picked up one from (Continued on page 3)

SULLIVAN REPRESENTED AT THE BIG DERBY

When "Bubbling Over" the great derby winner, won the biggest race of the year at Louisville, Saturday, at least a half dozen Sullivan voices joined in the clamor and the cheering. Matt Cummins is a sort of derby veteran and sees this race each year. He and Mrs. Cummins went to Louisville last week to visit relatives and be on hand for the big race.

Len Lovetts, Joe Waggoner, W. E. Martin and Ray Meeker motored to Louisville, Friday. They left here at 9 and got to Louisville at 6. They had good places to see the race but had to stand for hours before the big event took place.

On their return Sunday they stopped off at Rea Hollingsworth's big international tourists camp in Clay county to see how business was with "Jakey." They report that he has a very nice place and seems well started on the road to make a "million or more."

DR. TAYLOR RECEIVES ORDERS TO RESUME T. B. TESTING OF CATTLE

Monday Dr. J. R. Taylor again started making initial tests for tuberculosis in Moultrie county cattle. Prior to that time for some months the only work done was re-testing, due to the fact that the funds for paying the owners of condemned cattle had been exhausted.

The orders to resume first tests came from S. J. Stanard, Director of Agriculture, Springfield, Illinois.

Dr. Taylor states that he has found many re-actors in first and second tests and sometimes in a third test. Two annual or three semi-annual tests without finding T. B. in a herd places that herd on a state accredited list. The tests must continue however and if any T. B. is found the herd comes of the list until it can again make a clean showing at two annual or three semi-annual tests.

ADA ASHWORTH WILKINSON DIED IN CHICAGO; REMAINS BROUGHT HERE FOR BURIAL

Mrs. Ada Ashworth Wilkinson died at her home in Chicago, Thursday night of last week, following a short illness. She was 60 years, 8 months of age at the time of her death having been born September 13, 1865. She was the daughter of Mr. and Mrs. J. M. Ashworth of this community, both of whom preceded her in death. She is survived by her husband, John Wilkinson and one daughter Mildred. She also leaves her sister Miss Lute Ashworth who resides on a farm West of this city.

Mrs. Wilkinson was a graduate of the Sullivan High School and later was a teacher of language in that institution. She married John Wilkinson in 1898 and shortly after that went to Chicago to make her home.

While in Sullivan she was also engaged in business, being associated with the Phelps sisters in conducting a book store. In Chicago she followed this line of business and at the time of her death had a book store, selling old and rare books, pamphlets, etc.

She was taken ill about a week before death claimed her. The remains were brought to the home of her sister, Miss Lute Ashworth, where funeral services were conducted Monday afternoon by Rev. D. A. MacLeod of the Presbyterian church. Interment was in Greenhill cemetery.

MOULTRIE JERSEYS MAKE RECORDS THAT CAUSE DAIRY WORLD TO TAKE NOTICE

It has generally been conceded in this county for years that some of the best Jerseys in existence were owned by local breeders.

Merely claiming and conceding this did not establish a record however. It took a cow testing association to do that.

The first year's work of the association was very gratifying but no very startling results came of it. The tester, P. J. Smith, has not only been testing but he has also advised as to feeding, etc. These efforts have brought good results as is evidenced by the records of the present month.

These records as compared to other records in this state practically top the list.

Six herds in this county have averaged better than 50 lbs. of butter fat thus far. The high cow is one owned by Ralph Emel. She is a pure bred Jersey and her average is 90.7. Her first test showed 78 and a retest showed 83.

Whenever a herd averages better than 50 lbs. average the rules of the association provide that a retest be made within 24 hours. This is to verify the first test and is a check-up on accuracy.

Of the six herds which have established records this month that of Clyde O. Patterson ranks high with an average of 53.2 lbs. fat per cow. Next in rank are J. A. Powell with a pure bred and grade Jersey herd testing 50.2 and Paul Wilson with a herd that also tested 50.2.

Ranking next after Ralph Emel's Jersey are two cows owned by P. A. Powell, one with an average of 68 and the other with a 60 lb. average; one of Ed Bayne's Jerseys averaged 63 and Paul Wilson's 60.

Paul Harshman's herd has not been heard from this month, but it has some exceptionally good producers in it and so have many of the other Jersey herds in this county.

With these official records it appears that the Jersey breeders of Moultrie county ought to have a gold mine in the sale of good breeding stock. A system of co-operative selling and intelligent advertising will in time make Moultrie county a headquarters for dairymen seeking good Jersey breeding stock.

C. R. Patterson Starts Second Year as Mayor: Committees Named

New Licenses Granted and Other Business Transacted at First Meeting of Fiscal Year. Appointments at next Meeting.

The Patterson administration of the city's affairs entered its second year Monday night. The three aldermen elected in April were sworn in. They are Frank McPheeters in the third ward, C. E. McFerrin in the second ward and E. O. Dunscomb in the first ward. Alderman Dunscomb is the only new man on the council, the other two members having been re-elected.

As this was the first meeting in the new fiscal year, all licenses granted by the city were up for renewal. Those granted were as follows: Ed Linville to run a 6-table poolroom, fee \$150, with L. C. Lovelless and W. H. Walker as sureties; R. M. Gramblin for a 6-table poolroom, fee \$150 with S. T. Bolin and J. R. Pifer as sureties.

No Cigarette Protest.

There was some talk before the Council opened that a protest would be made against paying cigarette licenses. It was stated that wholesalers selling to J. H. Alumbaugh had contended that levying a cigarette license was illegal and that it was not being done in other nearby cities. Nothing of this kind developed, however.

The fee for selling cigarettes is \$25 per year. The following licenses were granted: Charles Getz, Ray D. Meeker, J. H. Alumbaugh, V. E. Hawbaker, Nellie Coventry and Frank McPheeters.

No applications for licenses were on hand from J. W. Finley, Joe McCabe, R. M. Gramblin and the Butterfly Shoppe. Officer Getz was instructed to inform these folks that they were not permitted to sell cigarettes until application with deposit of \$25 was made.

City Taxi Affairs

John W. Bushart, who has been doing some city taxi business since Wayne Conard has been too ill to run his bus, was before the Council. He has no license for doing taxi business in Sullivan. The fee is \$10 per year. He explained to the Council that the receipts were so small that he did not feel justified in doing city taxi business, if a license be required. His regular line of taxi work is to take people to and from the city, especially to the Masonic Home. He stated that he was under the impression that his state taxi license gave him the right to do this without having a city license.

After Mr. Bushart left, the Council discussed the matter and Mr. Getz was instructed to inform Mr. Bushart that no taxi business can be done in this city without paying the license fee.

Board of Improvements.

City Attorney J. E. Jennings presented a new ordinance for a Board of Local Improvements for the ensuing year. This ordinance was adopted. The board will consist of Mayor C. R. (Continued on page eight.)

What's a Democrat

HERE'S ANSWER

"A Democrat is one who believes in the fullest freedom of speech, press and religion; and separation of church and state; laws that bear equally upon all classes, without special privilege or monopolistic advantage; rights of states guaranteed by the Constitution and less national paternalism!"

MASONIC HOME CHAPEL

Sunday afternoon it was my privilege to visit the Masonic Home and while there attend church services in the beautiful chapel which is part of the new building which was erected the past year.

This was not an ordinary kind of service. While Rev. Anderson's discourse was good and the songs that were sung were full of the spirit of the hour and the prayers that were said, gave thanks and called upon God Almighty for a blessing in things spiritual, yet looking over the faces of those seeking God, a sermon far greater than words came to me.

You perhaps, were not there, so I will try to picture this sermon to you as best I can within the scope of my ability.

In the face of each of those worshipping there appeared indelibly engraven a long life's story. The trembling limbs and wrinkled brows showed the seams and furrows of life's sorrows and its joys, of its days of activity and toil and of the resignation which prompted them to come here to the Home and quietly await the end.

We read books. Fiction is fanciful and otherwise but to be read it must be entertaining. Fiction is a mirror of life, but right here was life in the fullness of itself. Each of these aged represented a life's story nearly ended. The last chapter will soon be written and it will not be a climax of great worldly achievement, but it will be an unostentatious return of the soul to its maker and of the body to earth "from whence it sprang."

See here some old grandmother. Feeble and tottering, yet dressed in her Sunday's best, she comes to the chapel each Sunday to worship. Her body may be aged but within her burns a spirit, devout and hopeful that the Master will soon call her to her reward and He will not find her unwilling to go.

Picture her, if you can, as she must have been years ago, her childhood in a happy home, her blooming into girlhood and then into womanhood. She was wooed and loved and loved in return. Happily wed, she was mistress of her home. Children came and played around the home. The days were happy. Life seemed full of promise and of joy. With the years came the Grim Reaper. The children, the husband, all she held dear were called by their Maker. She alone was left and the weight of years was upon her. Like a piece of driftwood on a stream she drifted now here, now there. Earthly belongings were few, so finally the kindly hand of the great Masonic Fraternity guided her into this quiet harbor, where surrounded by care, love and attention she too awaits the call to meet her loved ones on the other shore.

See that aged man. Was he a farmer? No, we believe not, although some here may be. But he looks more like a professional man. His body bent and infirm, yet the fire of life's zeal still burns brightly in his eyes. Here sits a laborer, or that is what he was during life's brighter and younger hours. That man was

formerly a business man. Oh, that I would know them all, and could pay a slight tribute to their days of usefulness and express to them the love which their fellowmen bear for them and for their useful lives.

One I do know. There sits Newton Beers, a man who in his day made his mark on the stage. An actor of no mean repute, in his days of activity he proudly trod before the footlights with the best of his calling. Now tall and spare, proud of his past, he gathers here in this chapel to hear preached the gospel of Salvation and the promise of eternal reward.

There sits Brother Craque, he of the silk hat and frock coat, whom we here in Sullivan all know well. Always bubbling over with story and anecdote and a vim and vigor which lacks but a new body in which to go ahead and conquer the world.

There in the rear are the feeble who were brought in in their wheelchairs. Their faces glow as they hear the words of Him who promised a haven of rest for all his children when earthly cares are laid aside.

With quavering voices they join in the songs of praise and with great reverence they bow in humble obeisance to the Great Father whose teachings are the foundation of the Home in which they are spending their declining days.

Home! Sweetest word of all! We like to think of home as the abode of mother and father and children, but Home as given to these deserving aged by the Masons is as noble a conception of ideal earthly residence as is the other. It is the cumulative result of the love which those of a great fraternity feel for their brothers and sisters. It is an example of the teachings of the Christ put into practical operation.

The Masonic Home in itself is a great sermon in brick and masonry. Every department of it again preaches of man's love for man. Every inmate of the Home is a story of a life whose last chapter will soon be written. Some perhaps can look back over life's trail and see things that they now regret that were done. Others can look back and feel that their lives were well spent and if they had to start all over, they might not do better.

In the quiet solitude of the chapel, standing on the portals of eternity, it seems that God is very near and you can almost here His voice, summoning his children with the welcome—"Well done, thou good and faithful servant, enter thou into the joys of the Kingdom" and in rapt anticipation of a long journey's end feeble lips seem to send the answer "Not my will, Oh Father, but thine be done."

THE WORLD'S GREATEST NEED

If I were omnipotent and wanted to do the very best thing possible for humanity there are certain things I would certainly not do. I would not give everybody money, for if each of us had a million dollars we would all be no better off than we are now. I would not give the world a perfect system of government, for good laws work mischief with bad subjects. I would not abolish sickness and the passing of life, for we learn more about the higher values of life from these two than from any other sources. I would not reveal at once all the secrets of science which normally it will require centuries to discover, for the best part of knowledge is the search for it. I would not disclose now all the useful inventions to be made in the next thousand years, for inventions do not come until the race is ready for them.

What I would do is this: I would send into the world a great wise, sweet and most manly man and let him stay just long enough for a few to fall in love with him and to get a firm impression of his character. His fame would surely spread through generations; we would love and adore him and grow gradually like him. Thus, it seems to me, I would do the most good and the least harm.—Dr. Frank Crane.

age, who in a six-day race in New York City ran more than 600 miles between Monday and Saturday and was subsequently elected Mayor of Long Island City.

That tough Irishman in the six days could have run any race-horse in the world to death.

Lightning at Bakersfield, California, strikes and destroys 500,000 barrels of oil in a Standard Oil tank—made of steel, presumably.

Is there no way of stopping such waste? What about a coating of reinforced concrete on the sides of the metal tank, or a coating of cheap re-claimed automobile tire rubber covering the whole tank? And especially what about lightning rods? Are they a delusion? Was Franklin's idea worth nothing, and did the Frenchman Danton impose on the public when he peddled lightning rods before he took charge of the French Revolution?

Americans eat more sardines per capita than any other race, which is good for sardine men, bad for sardine eaters. If this country depended less on a can opener and more on good cooking it would be healthier. Canned food, including canned sardines, is a blessing, a convenience and an economy. But it should not take the place of competent cooking, and too often it does.

Mr. Kingsmore, of Maryland, convicted of knocking his wife down and repeatedly kicking her, is moderately described by the poor wife as acting "downright ornery." The "ornery" gentleman was sentenced to five blows with the cat-o-nine-tails on his bare back.

What do you think of that punishment? Is it too much or too little? For the wife beater, five hundred blows would be too few. There are nine tails to a "cat", so the five blows will amount to forty-five stings.

DID YOU EVER STOP TO THINK

By Edson R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

J. M. Kemper, President of the Commerce Trust Company of Kansas City, says:

That for every business establishment in the United States there are 300 acres of cultivated land. There are no more large tracts of unclaimed tillable land in this country.

That the trend of population for the past three decades has been away from the farm and toward the city. If this condition continues, (and normally it will continue) the proportion of 300 acres to one business will be continuously reduced so that the same acreage will have to support an ever increasing number of non-producers of food-stuffs.

That the natural economic result will be an increase in the value of farm land and agricultural products. If the average 300 acres, now supporting the average one business, is required to increase its support to two average businesses, inevitably the value of land and its product will double.

THAT it would seem, therefore, that of all activities in this country, the farmer is the man whose economic position is best assured.

Students of economics are urging young men who are practical farmers to continue on the soil, studying and practicing methods of more intensive cultivation. It is more profitable to be an independent farmer than a dependent or even an independent city man.

Cutting time means bringing cities closer, helping business, making men's lives longer. A recent cut in time between Seattle and all the Pacific Coast south set a good example.

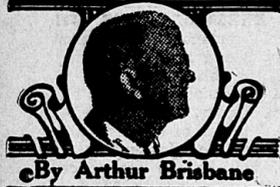

Soon passenger-carrying flying machines will bring Chicago seven hundred miles nearer to New York and two thousand miles nearer the Pacific.

Bernard Shaw says Great Britain must take the coal fields, nationalize and operate them, thus cutting out the industrial cancer that causes so much trouble. "Britain's Government must have the courage and the financial intelligence" to do this, says Shaw.

His suggestion will send a shudder through the rich coal mine owners, for he observes truthfully: "The mine owners themselves will supply money to buy their property, since what they get from the Government will be taken from them by collectors of the income tax, the supertax on estates and duties."

Now lo and behold, the railroads have done it! The shorter running time begins in October, and west-bound travelers will save one entire day in California for business or sunshine.

REMAINS OF LAD KILLED BY TRACTOR LAID TO REST NEAR OLD HOME IN FAYETTE

Funeral services for Calmar Bryan Albright, the young farmhand who last Wednesday met death in a tractor accident on the farm of C. L. Erwin, South of this city, were held at the family residence Thursday afternoon. The body was then taken to St. James, where interment took place Friday.

Obituary.

Calmar Bryan Albright, son of Kosciusko and Pearl E. Albright, was born near Vandalia, Fayette county, Illinois, Oct. 23, 1907 and died near Sullivan, Moultrie county, Illinois, May 12, 1926, aged 18 years, 6 months and 19 days. His early childhood days were passed near St. James. With his parents he came to Moultrie county, Feb. 18, 1919, where he grew to manhood.

Five years ago in a meeting held at the Church of God in Kirksville by Sister Ruth Marquis, he felt the need of salvation and gave his heart to God. He always had a jolly, cheerful disposition and a ready smile which made him many friends among both old and young, who will greatly miss him.

He leaves to mourn his loss, his father and mother, three brothers: Guy, Quintin and Irtys and four sisters: Perna, Bessie, Essie and Violet. He also leaves a grandmother, Mrs. Ella Tidd of Visolia, California and many other relatives and friends to mourn their loss.

A short funeral service was held at the home of Mr. and Mrs. K. Albright at 2 o'clock Thursday afternoon by Rev. C. D. Robinson of the Sullivan Methodist church. The body was then taken to St. James where funeral services were held in the Free Methodist church, by the minister in charge, at that place at 11 o'clock Friday morning and burial followed at the old Logogotee cemetery.

The floral offerings by his many friends, both of Sullivan and St. James, were many and beautiful.

Friends from this place attending the funeral at St. James were: Mr. and Mrs. Charles Erwin, Mr. and Mrs. Willie K. Baker and daughter and Mrs. Chester Kidwell. George Tidd of Decatur attended there also.

We wish to thank our friends and neighbors for their sympathy and assistance also for the many beautiful floral offerings at the time of the death of our dear son and brother.

Kosciusko and Pearl Albright and family.

PROF. IRTYS ALVEY OF DANVILLE, TO HEAD GRADE SCHOOL FACULTY

At the meeting of the board of education of the Tuscola grade schools, held recently, Professor Irtys Alvey, of Danville, was chosen as head of the faculty for the coming term, the present principal, C. A. Duemler, having tendered his resignation to the board at a previous meeting.

The principal comes to our school well recommended as an efficient and qualified instructor. He is an old Sullivan boy, graduating from the high school of that city and since completing his college work, has been teaching successfully in the Danville schools.

The coming of Mr. Alvey to Tuscola to assume charge of our grade schools will not be his first visit to our city. In 1916, when the local Democratic organization held its never-to-be-forgotten celebration ratifying the re-election of President Wilson, Mr. Alvey, then a student in the Sullivan high school, came to Tuscola and in big parade impersonated President Wilson.—Tuscola Review.

HAMMOND COMMUNITY HIGH

By a big vote in favor of the proposition, the Hammond Community High School district again came into existence last week. That community voted for a similar proposition some time ago but the Supreme Court declared the law under which the district was organized as unconstitutional. Hammond will now have a four-year high school.

SPORTSMEN MOVE TO SAVE STATE'S FORESTS AND TO DEVELOP NEW TIMEB GROWTH

Springfield, Ill., May 18—A 25 million dollar bond issue for the purchase and development of state forest was urged by H. C. Norcross, President of the Illinois Sportsmen's League in a communication received today.

This bond issue is similar to one passed by the last session of the legislature in Pennsylvania. It will be submitted to the voters of that state at the election this fall.

In commenting upon this proposition for Illinois, which will be the main issue before the Illinois Sportsmen's League at its annual meeting to be held at Belleville on May 26th, Mr. Norcross said in part:

"The forest and timber shortage in Illinois is serious. If the prosperity of our state is to continue, the restoration of forests is imperative. The restoration of our supply of song and game birds, game and furbearing animals and purity of water supplies in streams and lakes, are all closely related to development of forests.

"All available lands for hunting and fishing will soon be in the hands of a comparatively few wealthy men. The people of Illinois must act at once to save for themselves and their children the American principles of free enjoyment of every citizen of these valuable sources of healthful recreation.

"The creation of state forests should be of interest to practically every person in the state, as it means hunting, fishing, camping and other outdoor recreation for the man in ordinary circumstances, as well as the wealthy. It will cost at least \$25,000,000 to buy the land the state should own. Future generations will enjoy the benefits, so they should share the expense. This can be accomplished alone by the bond issue we propose."

Terrific Windstorm Swept through Moultrie Tues. Afternoon

Total Damage Done Amounts To Quite a Bit. Sheds, Barns and Trees Suffer Most From Sudden Gale Out Of The West.

Moultrie County was swept by a terrific windstorm Tuesday at 3:30 o'clock that did considerable damage. Barns were wrecked, poultry houses blown over, sheds demolished many trees blown down or limbs torn from them.

The biggest item of damage was the destruction of a barn on the Ike McClung farm southeast of Lovington. Reports say that houses were unroofed in various parts of the County.

At the Harley Woods home the garage was wrecked. The garage at the Titus school house was blown all over an adjoining field.

At the Drew home in Jonathan Creek a porch was blown away and other damage done.

A barn was blown to pieces on the farm occupied by Walter Bean, East of this city. At the Hiellan place near Lake City all buildings were partially unroofed. A horse was killed for John Snyder near Lovington.

The barn on the Arthur Herendeen farm was partially unroofed.

South of this city the garage and car of Will Selock was badly damaged. At the C. C. McKown farm it blew over the chicken house in which many hens were hatching, destroying practically the entire hatch. At the Walt Birch residence West of this city, a poultry house and other out-buildings were wrecked.

Very few farms escaped without some damage to the buildings.

In Sullivan many trees were broken and limbs were scattered everywhere. A part of the roof was blown off at the N. C. Ellis home. Many other minor damages were reported by people who were protected with windstorm insurance.

The storm followed a sultry afternoon and blew up in a very short time. Farmers in their fields experienced difficulty with their horses, but no serious accidents have been reported.

EARLY BROILERS TOO PLENTIFUL; PRICES LOW FOR THIS TIME OF YEAR

The poultry business is like most all other business of production. It is governed largely by supply and demand.

Farmers have been urged to get into the poultry business not only in this locality but elsewhere. Southern States have the advantage on early stuff for the poultry market and the big markets get their broilers long before local poultry raisers have them of marketable size. As a consequence prices are lower this year for springs than has been the case for some years. Local dealers were paying around 30c the early part of this week. A year ago the price was about 10c higher.

While this is true as pertains to spring chickens, the market is holding up fine on eggs which are being bought at 25c per dozen. The southern egg production has passed its crest and Northern states are now starting their eggs toward the bigger markets.

Quality of eggs and poultry is improving from year to year. Old hens were quoted at 25c per lb. this week, which is but 5c less than Springs. This older stuff can be routed into storage whereas the small Springs are not desirable storage stuff but must find an immediate market.

Lots of old fat hens which have laid their Spring egg crop and now have motherly instincts manifesting themselves, are finding their desires thwarted and instead of being given a nest of eggs to hatch, they get a trip to the market and from thence to the slaughter pen, the refrigerator and then cold storage.

Roosters too, are falling to the "Swat the Rooster" cry of progressive poultry culture. People are beginning to cull out their flocks thoroughly to make room for the young pullets which are to be the basis for Fall egg production.

—Miss Edith Bland, student nurse at Macon County hospital, who will graduate next month, underwent an operation for appendicitis at the hospital last week.

MAXEDON CHILD CHOKED TO DEATH ON PIECE OF APPLE LODGED IN THROAT
Local relatives have been apprised of the fact that Clara June Maxedon, 21 months old daughter of Mr. and Mrs. Lewis Maxedon, who live in Beloit, Wisconsin, choked to death on the night of May 4th.

A bit of apple lodged in the trachea caused the tragedy. The child died about 20 minutes after she started choking. Everything possible was done to give relief and two physicians were summoned but nothing could be done, as the particle of apple was too far down to be removed except by operation and that could not have been performed in time to save her. The baby was in apparent good health and not subject to choking spells.

Clara June was born in Beloit, July 30, 1924. She leaves her parents and one sister, Lodema. She also leaves her grandparents, Mr. and Mrs. Lewis Maxedon, Sr. of Sullivan and Mr. and Mrs. LaValley of Mattoon.

L. G. Hostetler, who has spent the past six months at his winter home in Daytona Beach, Florida, arrived home Friday of last week. Mr. Hostetler has spent much time this winter in touring Florida and gained considerable first hand information on business conditions. He reports that the real estate speculators have practically ceased to operate and business is now becoming stabilized with every indication that prosperity will be enjoyed there for many years to come. Mr. Hostetler tells about a certain Florida town, which a year ago had a population of 5,000, but now has a population of 20,000. Also that an extensive railroad building program is under way, many roads double-tracking through the state as well as extending their mileage into new territory that was never served before. The embargo on shipping building material into the state has now been lifted and to use Mr. Hostetler's own words, "The Florida boom is now greater than it ever was."—Lovington Reporter.

Explore Your Own Middle West

Pleasure places, wonderful scenery and unusual sights are within a short distance of your home—wherever you may happen to live in the Middle West. This great, rich section of our country has been unexploited, but no part of the world offers more to see and do.

Leave dull care behind and start out tomorrow in your car to explore your own country. Time? It doesn't matter. A day, a week, or a whole summer—it will be packed with pleasure. Money? It's not important. Camp beneath the stars, stop at rustic lodges, put up at smart hotels—as you wish.

Look over this short list. Check the things you've seen, and those you'd like to:

- 1—Wyandotte Cave, Crawford County, Indiana, the second largest cavern in the country. Eleven levels and a passage-way thirteen miles long. Near Corydon on State Highway No. 16.
- 2—Redwood Falls, a magnificent spectacle, in Ramsey State Park, Minnesota. Itasca Park Highway and State Highway No. 14.
- 3—Starved Rock, visited by Marquette and Joliet in 1673, the scene of the last stand of the Illinois Indians. A few miles from Ottawa, Illinois. State Highway No. 7.
- 4—Gorge of the Mississippi in Wisconsin with castellated heights of weathered limestone bearing a fantastic resemblance to fortresses of old, State Highway No. 35.
- 5—Mark Twain State Park in Monroe County, Missouri, on beautiful bluffs overlooking Salt River, where Samuel Clemens was born. Near Paris, State Highways No. 10 and 15.
- 6—Hutchinson, Kansas—a center of the salt industry and an extensive strata of pure rock salt which is probably the largest in the world. Highways No. 59 and No. 32.
- 7—The Kildeer Mountains, the most beautiful of the scenic spots of North Dakota. Near the town of Kildeer on the Mandan-Kildeer and Denver-Esteven Highways.
- 8—Miles of shaded shoreline along the Lake in Michigan. State Highway No. 11 and No. 22.
- 9—Spearfish Canyon, with its sheer walls and tumbling waters, forty miles of exquisite beauty in South Dakota. Custer Battlefield Highway from Rapid City.
- 10—Effigy Indian mounds built in the shape of various animals. Several bird mounds that measure 150 feet from tip to tip of wing North of McGregor, Iowa, on State Highways No. 13 and No. 19.

These are mere suggestions. Isn't the list an incentive to find out what is near you?

Motoring in the Middle West is an unalloyed pleasure. There are fine roads wherever you go—and Red Crown Gasoline all along the way.

Fill your tank with Red Crown Gasoline, get a good road map, and start out tomorrow. Rediscover your own Middle West.

DISTURBED SLEEP

Caused From Bladder Weakness. Nature's Way of Telling You of "Danger Ahead."

J. H. Hanford, 7155 Yale Ave., Chicago, Ill., says, "For two years I have been troubled with gravel. Many times it would cause me to get up eight to twelve times at night, and it was very painful. Lithiated Buchu cleaned me up in one week. I will be glad to tell or write my experience." Lithiated Buchu is not a patent medicine as the formula is on the label. It cleanses the bladder as epsom salts do the bowels, driving out abnormal deposits, neutralizing excess acid, thereby relieving irritation which causes disturbed sleep. It is not a cheap medicine. The tablets cost 2 cents each at all drug stores. Keller Laboratory, Mechanicsburg, Ohio. For sale locally by Frank McPheeters, East Side Drug Store.

TWO HUNDRED ATTENDED KIRKSVILLE COMMUNITY CLUB MEETING; C. & I. AGENT SPOKE

The meeting of the Kirksville Community Club was held Friday night. The features of the evening was an address by Agriculture Agent Filson of the C. & E. I. railroad. The meeting was well attended and the speaker was given close attention. Following the talk there were several other features on the program.

Mr. Filson's address proved to be very interesting.

He told that the climate and soil conditions along the C. & E. I. are very diversified and offered a good opportunity for growing many money crops. This territory is practically at the back door of the country's largest markets and is in a good position to compete with all other sections.

In the southern part of the state where the climate and soil conditions are right for fruit Mr. Filson is making a drive for over a million fruit trees to be set within the next year. He does not recommend fruit for Moultrie county, except for home use as we only get three crops out of ten.

He suggests that farmers of the black soil start now to build up their soil by the use of sweet clover, alfalfa, soy beans, limestone and other crops that will bring the nitrogen down and plant it into the ground where it is so necessary for plant life.

He advised farmers to keep more dairy cows, more hogs and other stock to feed your corn to when the price is low, "so you will not have to put your corn on the market when the price is low. Back yourself up with stock to feed your cheap grain to and be able to put it into a finished product of what is the highest in price at that time on the market."

The C. & E. I. railroad feels that it is a vital part of the community that it serves and its officials are interested in prosperity and contentment of the people in these communities. It will be its policy to continue to work closely with farmers and business men along the line to bring about a more prosperous condition of agriculture.

The C. & E. I. expects to some time this summer run an agriculture train stopping at each station. This is take the place of the dairy train which has made several trips over the road heretofore. Officials feel the change to

an agriculture train will be interesting and beneficial to all parts of the C. & E. I. line.

Mr. King division freight agent, also was present at the meeting.

After the talk a reading was given by Vivian Harsh which the crowd enjoyed. Music was furnished by the string orchestra.

About two hundred people were in attendance at this meeting. The Kirksville community club will hold its next meeting on the night of May 27th at 8 o'clock p. m.. It is possible that a play will be given if not a debate.

UNKNOWN MISCREANT CUTS FUNNY CAPERS IN SHERMAN BURCHAM HOME

The home of Mr. and Mrs. Sherman Burcham of Allenville was entered recently during the absence of the family by some person or persons unknown. All drawers, cupboards and boxes were searched, the family found on its return. The marauder was evidently not after money, for what money was in the house was not taken.

The most peculiar action was that of taking the marriage certificate of Mr. and Mrs. Burcham from its frame and tearing it to small bits which were scattered around the house. The family is at a loss to account for its strange visitor.

Allenville Brevities. John Hawkins visited his mother Mrs. Keller Saturday and Sunday.

Civilization, at its best, is a very thin veneer, and the more you polish it the thinner it gets.

Like people, when money isn't working it gets shiftless, and acquires bad habits.

Sunday School 9:30 a. m.
Preaching at 11:00 a. m.
Christian Endeavor 6:30. Subject, "Enoch."

Please remember song service and preaching after Endeavor. The literal meaning of the Heb. and Greek words variously rendered "son" sinner, etc. disclose the true nature of sin in its manifold manifestations. Sin is transgression, an overstepping of the law, the divine boundary between good and evil (Psalm 51:1; Luke 29). Iniquity, an act inherently wrong, whether expressly forbidden or not; error, a departure from right (Psalm 51:9; Romans 3:23). Missing the mark, a failure to meet the divine standard: trespass, the intrusion of self-will into the sphere of divine authority, (Eph. 2:1), lawlessness, or spiritual anarchy (1 Tim. 1:9), unbelief, or an insult to the divine veracity (John 16:9). Sin originated with Satan (Isiah, 14:12-12); entered the world through Adam (Romans 5:12), was and is universal, Christ alone excepted (Romans 3:23; 1 Peter 2:22); incurs the penalty of spiritual and physical death (Gen. 7:17; 3:19; Ezek. 18:4-20; Romans 6:13); and has no remedy but in the sacrificial death of Christ (Heb. 9:26; Acts 4:12), availed of by faith (Acts 13:38-39). Sin may be summarized as threefold: An act, the violation of, or want of obedience to the revealed will of God: a state, absence of righteousness: a nature, enemy towards God.

Prayer meeting at Mrs. Frank Coles, Anderson street on Wednesday night.

Bible class at 618 Grant street on Friday night. Both meetings at 7:30 p. m. We invite all of God's people to these meetings.

ALLENVILLE CHRISTIAN CHURCH

The attendance at all services Sunday was exceptionally good, especially the evening service. The people of this community are unusually faithful in their church attendance. However, there is room for more and we are sure you will find our service helpful.

Plans will soon be under way for an excellent Children's Day program.

The Bible school voted to enter the "Hold-that-line" campaign. This is in the interest of securing a good attendance at the Bible school during the summer months.

Next Sunday morning the sermon subject will be: "Objections to the Missionary Program Answered." This is an important theme and we desire a good attendance of the membership.

In the evening which is the evangelistic service of the church the theme will be: "The Healing of the Leper."

We are expecting Sister Ruth Marquiss-Castang in our midst soon. Further announcements will be given later.

PRESBYTERIAN CHURCH

With summer sun and showers all nature smiles, and hill and dale, as valley and plain presents a wonderful picture of God's infinite wisdom and grace. One cannot help but be impressed with the beauty that rests before us as we ride out along the country roads down along the river side. In fact no more beautiful scenery is seen any where at the present time, than in and near the community in which you live.

You might take a ride across the continent to the Pacific ocean or East to the Atlantic, and see some wonderful sights, but no more beautiful picture, than that which is possible to see right now in the old state of Illinois, and in the county of Moultrie. We too often fail to appreciate the good things about us, and the Paradise in which we live and go in search of diamonds in foreign fields, when they are in our own back yard. Take a look and think that those things have not come by chance; there is a great intelligence behind all, and we are blessed with the riches of natures gifts about us as well as in us. We can better appreciate the things of nature by drawing near to nature and Nature's God. Let us not forget to come before him with thanksgiving.

We look for a good attendance out to Sunday School next Sunday. If do not happen to be in attendance at other school, kindly drop in and join us in the study of the word. It might make you feel better for the day, and help some other soul to better enjoy life.

Subject for morning service "Faith In You."

Subject for evening, "God's Light In The Mists of Time."

We want all to feel that they are welcome at any and all of these services. If you spend an hour with us, you may better enjoy the day.

BOY SCOUT NEWS
The log cabin is now nearing completion. The roof was finished this week. We now have shelter for summer weather and soon hope to have it complete for all our needs. We wish it were possible to publish a list of all those who have been donating money, material and labor. Some of those who have donated the greatest amount of time and material, do not have scouts in their family but are interested in the other man's scout. The boys are hoping to show their appreciation in the near future by having a special camp program and dinner.

Joseph McLaughlin is the first local boy of the present troop to become first class scout. Joseph passed his final test last Monday night. To become a first class scout means a great deal of work and study. It is a worthwhile achievement and one that any boy will be proud of all his life. Joseph will be initiated next Monday evening and will be given the first class scout pin.
