Supervisors Named Judges of Election For Coming Year

Political Appointment Based on Vote Cast For Norman Jones and Len Small in Election for Governor in 1924.

The Board of Supervisors at its meeting this week named the judges of election for the ensuing year. Politically these judges are apportioned on the vote cast for governor at the 1924 election. In precincts where democratic candidate had a majority the democrats get two judges and the republicans one. Where the Republicans had a majority, the condition is reversed.

Those appointed are as follows: Sullivan No. 1—F. D. Sona, D, Les Atchison, D, Pearl Poland, R. Sullivan 2—Cora Brown, D, Geo. Roney D, Charley Clark, R. Sullivan 3—Guy L. ANOTHER BIG BALL GAME SCHEDULED FOR SUNDAY ON LOCAL DIAMOND

Last Sunday Sullivan baseball fans witnessed an exceptionally good game between the home team and the Modern Woodmen team of Decatur. Sullivan lost by a 4 to 0 score. Manager Sona immediately signed up the visitors for another game which will be played here this coming Sunday.

There have been several changes in the Sullivan lineup lately. Dennis and Sterling, the pitcher and catcher, who started the season with Sullivan have gone to college for the Summer. Harry Harsh pitched Sunday's game and his performance and control received much favorable comment.

Sullivan is determined to show the visitors Sunday that they cannot take two in row.

MOULTRIE COUNTY FARMERS TOUR TO UNIVERSITY THURSDAY, JUNE 24TH

Many reports are coming in of Moultrie County farmers who plan to go on the tour to the College of Agriculture, June 24. If good weather prevails farm work will be well caught up and a good sized delegation will go. The schedule is as follows: Leave Sullivan Square 6:30 a. m. Leave Lovington Main Street 7:00 a. m. sharp.

If weather permits we will go by the way of Hammond and Bement. Arrive at Main Building, College of Agriculture, 9:00.

From this point the tour will start on the minute. A guide booklet of the College of Agriculture can be secured at the Farm Bureau office.

The group of buildings to visit includes a beef cattle feeding plant, a poultry building, dairy house, dairy manufacture building, a horse barn and swine plant. In addition to these new attractions, there will be the old well established ones, such as the historic Morrow and Davenport plots, the orchards, gardens, feed lots and laboratories, which hold something new of interest to farmers and their wives every year. Indications now are that the experimental work on the college farm will be in favorable condition for inspection during the week.

Report to the Farm Bureau office if you plan on going.

Mrs. Permelia Grigsby Call to Her Reward After Long Useful Life

Was the Mother of Ten Children, Six of Whom Survive. Leaves 19 Great Grandchildren. Remains Laid to Rest Wednesday.

Mrs. Permelia Grigsby, one of Sullivan's oldest residents, died at her home in this city Monday morning. Had she lived until June 30th she would have been 90 years old.

She was born in Hancock county, Indiana, near Greenfield, June 30, 1836. She was the daughter of Washington and Rebecca Linder and was one of ten children, eight daughters and two sons. Eight of these preceded her in death, the surviving sister being Mrs. Rebecca Patterson.

She was married to Sanford Grigsby, June 22, 1855 in Indiana. To this union ten children were born. Her husband died May 3rd, 1915, after a happy married life of sixty years. From Indiana the Grigsby family came to this community about 44 years ago.

Four of the ten children preceded the mother in death. Those who survive to mourn her loss are Lon, William and John Grigsby, Mrs. Mary Hoke, Mrs. Sarah Denton and Mrs. Myrtle Stain. There are 29 grand children and 19 great grandchildren.

Mrs. Grigsby was an ideal wife and mother and always ready to help, not only the members of her family circle, but all neighbors and friends.

Funeral services were held Wednesday afternoon at 2:30 o'clock at the family residence and were conducted by Rev. G. M. Anderson of the Christian church. Interment was in Greenhill cemetery. The pall bearers were G. S. Thompson, Oliver Dolan, H. C. Shirey, H. V. Gifford, Ira Price and Albert Lucas.

Fireworks This Year For July 5 Celebration To Be Entirely New

Legion Preparing For Crowd of 20,000. Plenty of Variety in Amusements and Program of Entertainment.

Elliott Billman and D. K. Campbell are in charge of the Legion arrangements for Sullivan's big 4th of July celebration this year.

Mr. Billman has prepared the following statement for publication. It tells of what has already been done toward providing one of the biggest programs of amusement ever shown in Sullivan.

Mr. Billman says: In these days of great advertising and advanced business methods, the truth about Fourth of July programs is to be found not so much in the advertising that goes out from any community as in the executed contracts which remain hidden away in the office files of the committee. In these modern times no out-of-town attraction is certain to appear at the designated hour and place for your celebration unless it is bound by a contract. The American Legion at Sullivan is willing to have the worth of its program judged by the contracts which have already been executed with it and the additional contracts which will be signed within the next few days.

A trip was made in person, to the plant of the Illinois Fireworks Corporation at Danville last week, for the express purpose of acquainting ourselves with the method of manufacturing and the quality of the fireworks we expect to purchase for our program. Joe Porcheddu, president of the corporation, who learned his business in Europe under his father, a manufacturer there, who has been engaged in the business for nine years at Danville, and who sold eighty five per cent of the fireworks used in Illinois on the Fourth last year guarantees that our program will be from one-third to one-half bigger than last year. The set pieces will be a "complete change of program" from the display of last year. The daylight program will also be varied and more colorful. As an additional feature we are having special bombs built which will be thrown from an airplane at night.

Last year the committee never worked as hard on any one item of the program as they did to handle the crowd for the dance. This year, in order to permit every one to get their fill of dancing, the dancing hours have been lengthened.

Everybody liked the Californians last year, and all the Californians liked us, so they are coming back with the intention of playing their best to please us all.

In addition to contracts for the above, contracts have gone out to a parachute man and are expected back promptly executed at an early date. By these we will have pas-

Contract For Water System Let To James & Shinn Of Mattoon For \$90,912.28

Competition Plentiful. Eleven Bids Received. Successful bidder Nearly \$24,000 Below Engineer's Estimate. Will Mean a Very Substantial Saving to Property Owners. Work to be Started Next Month.

The Sullivan water distribution system will cost the property owners much less than the original estimate of \$129,39.16. The estimate now is about \$101,000.

When the bids were opened Tuesday for the contract for putting in the system the low bid was \$90,912.28. James and Shinn of Mattoon were low bidders.

At a special meeting of the Board of Local Improvements Thursday contract was awarded to that firm.

The engineer's estimate on this part of the improvement was \$114,844.40. The award was made at nearly \$24,000 under this figure.

The difference between the \$129,039.16 and the estimated cost of putting in the pipes, etc., which was \$114,844.40, was for court costs, attorneys fees, printing, levying assessments, etc. This amount being based on percentage of construction work cost will also be materially reduced, and on Thursday the estimate of the total cost was around \$101,000 giving a saving of about \$28,000.

This reduction will accrue to the property owners in an amount proportionate to their original assessment. Just what steps are necessary to make this adjustment had not been decided on.

Sullivan is fortunate in being in the market for this work at a time when contractors are eagerly looking for jobs. Eleven bids were made on the job and there is a wide variation in some of the figures as can be seen by the detailed table of bids which appears in this issue.

Some of the bidders were from quite a distance. Many were represented at the hearing. Material men and sub-contractors were also present. About one hundred men interested in the work were present in the City Hall when the bids were opened and read.

Mayor Patterson opened the meeting and Clerk E. O. Dunscomb read the necessary resolutions, etc. preliminary to the letting of the contract. The Mayor requested that as a matter of courtesy to the city, the successful bidder was asked to negotiate with some local agent for his surety bond.

Those acting in an official capacity at the hearing were the members of the Board of Local Improvements consisting of Mayor Patterson, E. O. Dunscomb, C. E. Hankley, Frank McPheeters and Dr. J. F. Lawson; city engineer Warren of Decatur; city attorney J. E. Jennings and attorneys R. B. Foster, McLaughlin & Billman.

The Mayor opened the bids and the clerk put his filing stamp on them. Each bid was accompanied by a certified check for over 10 per cent of the amount of the bid.

The contractors and others present carefully tabulated the figures on each bid as read by Mayor Patterson. The first bid read was the highest, being that of Murray-Warner Co. of Hoopston, for \$109,700. Bids then ranged lower and lower in price until number 10 was reached, which bid was that of James & Shinn. L. T. Hagerman & C. was the only local contractor bidding and his bid was third lowest received.

Work on the job is expected to be started some time in July.

James & Shinn are well known as contractors in this part of the state. They are working on several smaller jobs now. They had the sub-contract for laying the 10-inch water mains

Moultrie Had Eleven Graduates at U. of I. Commencement Mon.

Five Graduates of Local S. T. H. S. Receive Degrees. Total Number of Graduates is 1550. Dr. Kinley Speaks.

Moultrie County was well represented at the 55th annual commencement exercises at the University of Illinois, Monday.

Eleven of the graduates were from Moultrie county and five of the graduates are S. T. H. S. students.

One of these five is Glenn Younger Davidson, S. B., of La Place, who graduated here. The other four are Marion Glenn Creath, B. S., son of Mr. and Mrs. Elmer Creath; Mary Frances Hall, A. B., daughter of Mr. and Mrs. S. B. Hall; Harold Elliott Harmon, B. S., son of Mr. and Mrs. Fred Harmon and Helen O. Parks, B. S. Miss Parks is a daughter of Mr. and Mrs. R. C. Parks and now resides in Urbana. Other graduates who were former Moultrie county residents are William K. Whitfield, Jr., LL. B., son of Judge and Mrs. W. K. Whitfield, now residing in St. Louis; Josephine Ione Eden, B. S., daughter of Mr. and Mrs. A. E. Eden of Champaign; Charles H. Metzler, A. B., son of Rev. and Mrs. Metzler, who lived here in 1918-19.

The rest of the Moultrie county graduates are as follows: Harold Campbell Clendenen, B. S., Marie Howell, B. S., and Everest Loren Meede, A. B., of Arthur; Robert Noble Hoskins, B. S., and Harrison Thomas Logan, B. S. of Bethany; Telva Ruth Blythe, A. B. of Gays; John Hanson Bandy, B. S., Lake City and William Moses Morrison, B. S. of Lovington.

Practically every nook and corner of the great state of Illinois has one or more of its young people obtaining degrees from the University of Illinois this spring. The total number of degrees to be conferred by the University at this time on those young women and men who have finished satisfactorily the work required of them will approximate 1890.

The first of these were conferred Friday (June 11) at the commencement exercises held in Chicago for the graduates of the University's College of Medicine, College of Dentistry and school of Pharmacy. These totaled 341. By far the greater number were granted Monday, June 14 at the University. The total receiving degrees from the Urbana-Champaign departments of the University approximated 1550.

Dr. W. A. Pusey, formerly professor of medicine in the University and president of the American Medical Association delivered the address to the Chicago Department graduates and Dr. David Kinley, president of the University, was the speaker at the Urbana-Champaign exercises.

The baccalaureate address Sunday, June 13, was given by the Rev. Edwin H. Hughes, bishop of the Methodist Episcopal church for the Chicago area.

An ice cream social will be held on the Community Club grounds at Kirksville, Thursday night, June 24th. Everybody is cordially invited.

NEW ICE MAN, MAYBE
L. A. Crockett is planning to enter the ice and coal business in this city in the near future. He is now making his plans and arranging contracts with the factories. Sullivan now has one ice man, W. E. Martin, who bought the business of C. O. Pifer and Crystal Ice Co.

ROY DRIVES A "60"
Attorney Roy B. Foster this week, bought a new Chrysler "60" sedan from the C. H. Tabor Motor Sales. Lyman Wychoff bought a "70" coach. Used cars sold were: Claude Harris, Ford sedan; J. E. Burtcheard, Ford touring; Mindie Orr, (Foster's) Buick touring.

AIRPLANE BOOSTER TRIP FOR JULY 5TH

The American Legion has closed a deal whereby the Decatur Aviation Company will send one of its airplanes to this city June 30th or near that date. The plane will be supplied with advertising matter about the big celebration here on July 5th and will make a trip over all cities within a 50 mile radius, distributing the booster dope.

MOTHER'S PENSION
Mrs. Orna Nihiser, a Dalton City widow, has made application for a mother's pension to assist her in caring for her six children. Mrs. Mattie Harris is investigating officer. The hearing will be June 19th.

COMMISSIONERS NAMED
Decree of partition was granted Saturday by Judge Sentel in the case of Wirth vs. Wirth. I. W. McClung, O. F. Dolan and Henry C. Ray were named commissioners.

Close Contract For Decorating Interior Of The Court House

Supervisors Let \$6,500 Job to Chicago Firm. Get Applications For Highway Superintendent. Review Board Salary.

The Board of Supervisors Tuesday let a contract for the interior painting and decorating of the court house. The firm that will do the work is the William G. Andrews Decorating Company of Chicago. This same company two years ago, decorated the circuit court room.

The contract price is \$6,500 and provides for a thorough job of painting and varnishing not only of the interior walls and ceilings but also of the woodwork and furniture, pictures etc.

Bids were not advertised for although two were presented. C. F. McClure of this city presented a bid of \$6,850.

The successful bidder expects to start on the work in the near future and finish it within 60 days after it is begun.

\$500 to Welfare Department.
Mrs. Clyde Harris, county welfare worker, handed in a report of the activities of the Moultrie County T. B. Association. Last fall an additional \$500 was voted to this department for its work but for some reason was never paid. The board voted to make this amount available for work being done.

\$4.00 Per Day.
The salary of the members of the Board of review and clerk was fixed at \$4.00 per day. The board members are F. F. Fleming, A. J. Hirt, Elmer DeBurr and the clerk is Forrest Wood.

Supt. of Highways.
The term of T. C. Fleming as superintendent of highways has expired but he will hold over until his successor is named. In order to qualify for the job an applicant must be recommended to the State Highway Department by the supervisors. He then takes an examination and of the number passing such examination the board may make its selection. The applicants whose names will be certified to the state department are Guy S. Little, Carl McDaniel, Dick Lee and Frank McDonald. Mr. Fleming is a candidate for county clerk.

State Convention.
A call for four delegates from the board to attend the 40th state convention of county officials was received and it was voted to have the chairman name the delegates. Mr. Fleming failed to do so and will doubtless make the appointments later. The convention this year is at Geneva on August 31 and Sept. 1 and 2.

WHAT HENRY SAYS

One man whose opinions have had a great influence on the thoughts and ideals of the average American is Henry Ford.

Before the last presidential election Mr. Ford was heart and soul for Cal Coolidge. He did not hesitate to say so.

Things have changed. Mr. Ford publishes a weekly magazine called "The Dearborn Independent." In this he airs his views on all matters of public interest covering a very wide range.

In last week's issue he had this to say about the Coolidge administration:

"Perhaps the chief source of dissatisfaction throughout the country is the subtle and uneasy sense of the people that the country has come under strong corporation influence, that the Government has almost entirely succumbed to financial control. This in no sordid sense; no one has been bought or sold. But when the foreign policies of the Administration are dictated by one financier and the domestic policies of the nation by another financier, neither of whom has ever conceived a progressive thought, the people are quick to sense it. They may not know who the financier-foreign adviser of the President is; they may know the name of the other financier, but may

not guess the extent to which he runs things at Washington; yet they feel creeping through the veins of the nation an element which is not warm to the popular heart.

"We wanted and needed a business administration in this country. We wanted conservatism of the progressive sort. We wanted a cessation of government interference in business. But what we have got instead of a business administration is a corporation administration, which is not the same thing. And what we have got instead of progressive conservatism is a most amazing reactionism. And the cessation of government interference in business has had but one effect, to loose the most lawless elements of American business upon a career of exploitation, criminal in its recklessness, for which the country cannot possibly escape dear payment.

"Now, these are the things present, but largely inarticulate as yet, among the people. He is no friend of President Coolidge who would mislead him by silence on this point. Certain influences have been built into our Government whose effects, now ripening, are resented by the people. And what has begun at the polls is nothing to what will come unless the popular will in government is somehow substituted for the coterie-will in government.

"These are the things which men around the President are saying, but not to him. And somebody should say it to him, unless, as it may easily be, the President is proceeding upon the assumption that the financiers are the real rulers of the country and therefore the safest advisers of the Government. If this is the President's opinion, he is so wrong that the national reaction against such a position may sweep his party from power."

Just how much money would some of these Republican senatorial aspirants pay for a seat in the U. S. Senate? Millions were spent in Pennsylvania and Illinois by candidates in the recent primary. If an arrangement could be made whereby these seats could be auctioned off by Uncle Same to the highest bidder, we'd have money enough to pay off the national debt in a few years. One thing certain, however, no Democrat would ever have any show of getting into the Senate.

out his father's idea, cut off the head of his little brother, aged three. He killed the brother. Children imitate their parents. Be careful how you threaten, or set a bad example.

DID YOU EVER STOP TO THINK

By Edson R. Waite, Shawnee, Oklahoma
THAT some men follow the line of latest resistance, drifting into a dull routine which brings to their lives or to their city no good whatever.

THAT the life of accomplishments of other men stand as a monument to their energy, their ability and their judgment, and should spur to ambition the drones of a city.

That every city has men who did not start at the top, but men who started at the bottom and worked upward, keeping foremost in their minds the welfare of the home city, until the city moved forward and upward, and as it moved they progressed with it until it had reached the top of the ladder of success.

If you who are a laggard could realize the inner fire that is within the hearts of the progressive citizens of your city every instant, the burning determination that fills their every thought, you would say, "Those men cannot fail", and would join with them in that grand and glorious work of city building.

ONE TON TOM NO CHURCH TO SUE THE JAIL COMPLAINS I'LL CUT YOUR HEAD OFF.

Ancient rulers liked uncouth dwarf and strangely deformed creatures about them. In that respect the human race is not entirely changed.

In Los Angeles an undertaker builds an unusual coffin for Theodore Valenzuela, known to the circus as "One Ton Tom." He weighed 945 pounds.

People paid to see him. If he had weighed only forty-five pounds they would have paid to see him, and if he had had two heads, fat or thin, they would have paid more.

With "One Ton Tom" and everybody else too fat, the trouble is over-eating or defective metabolism. Part of our energy creates new tissue. When old tissues stays, you get fat. Beware of fat after fifty. It shortens life.

The good Bishop William Montgomery Brown, put out of the Episcopal Church for doing his own thinking, tried to compel the church by legal procedure to take him back. His lawyers sued "the Protestant Episcopal Church of the United States of America."

But the court says there is no such organization, no such thing for Bishop Brown to sue; so his suit falls to the ground.

The ager bishop is puzzled to know how an organization could be real enough to throw him out and not enough to stand a lawsuit. There are more mysterious things than that in religion.

We are all influenced by others. Students have protested against "unfairness and cruelty" that forced human beings to be present at religious services every day. So university officials made chapel attendance no longer compulsory.

Now the prisoners in jail at New Haven, Conn., says they also consider it "unfair and cruel" to make them go to chapel every day. They want the same rights as Yale students. But

they are willing to go to church once a week, whereas the Yale men demanded the right to stay away altogether. This shows how careful we should be to set a good example.

The French Minister of Industry discovers that fashion can affect a nation's prosperity. France makes silks, velvets, feathers, rules fashion. Women have been using little material in their dresses, and French industries have suffered. That is to change. Soon American women will find themselves wearing longer skirts fashions calling for many yards of goods.

Secretary Hoover, in an able speech, worries about our national morals. "The moral and spiritual may be submerged by our great material success." He did not say whether submergence would come from the bootleggers, hijackers and night clubs or from high finance.

In all ages good men have worried about the general condition of morals. One fine Roman emperor had to discipline his own daughter. But somehow the human race manages to stagger along, gradually improving. Every new generation, every new born baby, is a clean page on which a new story of progress can be written.

The Treasury Department, Bureau of Efficiency, Crane and Company, currency paper manufacturers, and the Bureau of Standards combined, after long research, announce that the life of a one dollar bill is only six months.

The average citizen can testify that

in some cases the life of a one dollar bill is less than six minutes.

CHURCH NOTES

THE GOSPEL MISSION

H. H. Smith, Supt. 9:30 a. m. Sunday School. 11:00 a. m. Morning worship. 6:30 p. m. Young peoples service. 7:30 p. m. Evangelistic services. Tuesday evening prayer meeting at 8:00 at M. A. Foster's. Regular prayer meeting at Hall on Thursday evening.

Some one has said "That true happiness was a by-product of service." We mission people want to be happy, therefore if we can be of service to you in any way at any time, you let us know, if we fail to know it otherwise. Or if you know of some one we can in any way serve if you will let us know, you will be doing us a favor, them a kindness and performing a duty.

I believe the Lord wants us to be helpful towards each other. This is one of the outstanding teachings of the Scripture, and it seems to me it is one of the most neglected; so many of us practice "every fellow for himself, and the devil for the hindmost." Well with that kind of religion, 'he devil surely will get his share. No wonder hell hath enlarged itself.

PRESBYTERIAN CHURCH

Last Sunday we were glad to see the fine attendance at Sunday School, and hope the same may be true of next. We had 85 per cent of the present enrollment in the classes of the day. This is very encouraging to those seeking to carry on the work, and we trust if possible that every member of the school will be present next Lord's Day. Your presence will be an inspiration to the boys and girls, and they need all the courage and inspiration you can lend. As one, who is older grown you may think you can easily fall out of the ranks, and you played your part in other days, but such is a poor ideal, and a wrong idea of life. You as an individual are a part of society, a part of the community, and you believe in the building up of our citizenship, therefore should lend your influence in the best way possible for the helping of the young. We owe some things to the other fellow, and no one can live alone and without the others help. Kindly bear this in regard to this great work as along other lines of business. This is big business. Subject for Sunday morning, "Jesus Mission".

Sunday evening, "Rule For a Happy Life." Every body welcome. Enjoy the good old summer time.

METHODIST EPISCOPAL CHURCH

C. D. Robertson, Pastor. Sunday School at 9:30 a. m. Hugh Murray, Superintendent. The best place in the world to spend the opening hours of Sunday. Morning worship at 10:45 a. m. The pastor will be in charge, and will preach. This is the best place to spend the hour following Sunday School. Epworth League devotional meeting at 6:30 p. m. The best place for young people to spend the evening hour.

Children's Day service at 7:30 p. m. The Sunday School will present the operetta, "The Stolen Flower Queen." This is a beautiful and tuneful operetta which will interest everyone. Prayer meeting every Wednesday evening at 7:30. The church where there are no strangers, welcomes everyone to all of these services.

FIRST CHRISTIAN CHURCH

Geo. M. Anderson, Minister. Vacation Church School is making fine progress. The enrollment increased each day the first week until it reached such a mark that they thought they would have to turn some of the children away. The teaching force together with the children are very happy in the work although it means more or less of a sacrifice for many of the teachers. Thus far all concerned are satisfied and the school has already proven itself to be a success. The school will close next week with two special exercises. The exhibit will be held either on Friday or Saturday evening and the special closing program will be held on Sunday evening. The whole school is looking forward to these two occasions.

The Bible School is still holding the Line. It is a temptation to get a little careless with the church and Bible School during the hot weather, yet with a little extra effort on the part of each family and individual concerned the line can be held and all will feel like something worthwhile has been accomplished. When company drives in on you early Sunday morning or Saturday evening be sure and invite them to attend Bible School and church services.

The Christian Endeavor Society is planning on a special program next Sunday evening at 6:30 o'clock. This will be the last program for the year and it is urged that all members and friends of the society be present. The officers and the committee in charge will appreciate a good rousing meeting with which to close their year's work. Reports for the year will be given and all business of the society will be taken care in such a way that it will be easily taken up again next September. All officers will hold over until the first meeting next year. Sermon subject next Sunday morning will be "Altogether Lovely" Sunday evening "God's Graveyard."

PARTITION SUIT FILED IN ROBINSON ESTATE

Mrs. Nettie Lilly has filed a suit for partition and dower in the estate of the late George W. Robinson who died in 1915. The suit, a friendly action, is directed against Mrs. Catherine Robinson, the widow and her children, all of whom are of mature age. They are J. K. Robinson, Daniel Robinson, Laura Green, L. H. Robinson, Cyrus Robinson and Andrew Robinson.

George W. Robinson died intestate leaving a tract of land, consisting of 21.44 acres. This tract is now tenanted by Daniel Robinson.

Mrs. Lilly asks that widow's dower in the tract be given Mrs. Catherine Robinson and that proceeds of the balance be distributed among the legal heirs.

CHEVROLETS HAVE RECORD BREAKING SALES THIS SPRING

For the first time in the history of the Chevrolet Motor company sales during the month of May have exceeded sales during April, according to figures just made public by the sales department of the company.

During May 70,935 Chevrolet cars were sold in the United States, making a total of 84,944 cars, including Canada and export, the largest number of three-speed transmission cars ever sold in one month by any automobile manufacturer. Sales increased by 23,650 cars over May, 1925, when 47,285 Chevrolets were sold in the domestic market.

For the first five months during 1926, up to June 1, 250,927 cars were sold in this country alone, an increase in sales of 84,138 over the same period in 1925, when 166,789 cars were sold in the United States.

A tremendous expansion of dealer representation is also shown, the number of direct and associate dealers representing the Chevrolet Motor Company increasing by 2,488 in the first five months of this year over the same period in 1925. On June 1, 1926, 8,398 dealers were merchandising Chevrolet cars, and on June 1, 1925 there were 5,910 dealers in the United States. Applications for dealers franchises still continue to pour in to the sales department daily. At the present time sales are running at the rate of more than 18,000 weekly. The best weekly sales record to this year was the week of May 2, 1925, when 10,700 Chevrolet cars were sold in the retail domestic field.

FORMER GAYS RESIDENT DIED IN MASONIC HOME

S. Z. Luby, a former resident of Gays, passed away at five o'clock Monday morning in the Masonic Home. Mr. Luby's death was sudden, as he was ill but a few hours, but he had been failing in health for several months.

Funeral services were held at 2:30 o'clock on Tuesday afternoon at the Union Congregational church in Mattoon, conducted by Rev. S. A. Hughart, assisted by Rev. C. L. Belknap. Burial in Dodge Grove cemetery. The Masonic chapter of Gays had charge of the rites at the graveside.

Mr. Luby was eighty-seven years of age, having been born on March 3, 1839, in Coshocton county, Ohio. He came to this vicinity with his mother when twenty-four years of age, and had lived here ever since.

On April 18, 1921, he went to the Masonic Home to reside.

Surviving are his wife, who was Mrs. Sarah J. Waggoner, and who is also at the Masonic Home, and one son, Bert Luby, living somewhere in the west. J. E. Luby of Mattoon avenue, a brother, is the only surviving member of a large family of sons and daughters.

MILTON HIGGS CARRIES AWAY 7 YEAR OLD WINDSOR GIRL

Milton Higgs, a moron, reverted to his old trick Wednesday night. About midnight he entered a house in Windsor and abducted a seven-year-old girl, whom he carried a half block or more before she awoke. Her screams aroused some of the neighbors and she was rescued without any physical harm. The sheriff was notified and Deputy Sheriff Hubner, was over and took Higgs in custody, presumably to return him to the Institute for Feeble Minded at Lincoln. Milton has been in the institution several different times. He gets paroled, or in some instances escapes and comes back home. Apparently the management just lets him stay here until he attempts an attack on some little girl when he is returned to Lincoln. Of course his parents are entitled to sympathy, but Milton's conduct is such that he should be kept where he can not do any harm.—Windsor Gazette.

ALLENVILLE CHRISTIAN CHURCH

The Children's Day exercises were successful both from the standpoint of the well rendered program and the great audience which was in attendance.

The morning service was well attended. The Bible School is making a good showing in the 'Hold That Line' campaign. We would suggest that you come next Sunday. It will be worthwhile.

Sunday morning our theme will be "The Secret of a Starved Soul."

The "Four Beasts" will be the subject for the evening sermon. This will be a study of the fourth chapter of the book of Revelation.

ILLINOIS FARMERS DON'T NEED MUSCLE SHOALS, SAYS FARM ADVISER

Bloomington, Ill.—Illinois farmers need nitrogen for their crops—but not the nitrogen fertilizer produced at Muscle Shoals, says Harrison Fahrnkopf, McLean county farm adviser, who recently returned from an inspection of the government's power plant.

"Muscle Shoals is valuable to produce ammonium nitrate for explosives, but the system of limestone to sweeten the soil, sweet clover to provide nitrogen and humus, and raw rock phosphate is the best for Illinois farmers," he says.

enger flying, a parachute drop from an airplane in the afternoon and again in the evening, and a display of bombs dropped at night.

The Princess Olga shows are under contract to be all set up and ready to go early on the day of the celebration. Their rides include a "Three-abreast" merry-go-round, a large Ferris wheel and a merry-mix-up. This carnival has been here several times before and has always given splendid satisfaction.

The advertising campaign commensurate with the magnitude of the celebration will be instituted soon. Auto banners, windshield cards, fireworks posters, carnival placards, a booster trip and newspaper advertising will soon carry the news to everybody within a radius of fifty miles. We had 10,000 people here last year. Our goal this year is 20,000.

Don't forget the baseball game, the horse races, the water sports and carnival, the band program and all the other attractions about which more will be written later. The committee knows that a crowd of 20,000 has all kinds of people with all kinds of tastes for amusement. It is their aim to have enough attractions going on at the same time and all the time to afford entertainment for everybody.

THREE MOULTRIE HERDS TOP LIST OF PRODUCERS FOR MONTH OF MAY

Urbana, June 17.—Three Moultrie county dairy herds lead the list of the 10 best herds in the state, according to the May report just released by the dairy extension service of the department of dairy husbandry, University of Illinois. Best cow in the state comes from Will county.

C. O. Patterson, Sullivan has the highest herd. His pure bred Jerseys averaged 1,062 pounds of milk and 53.3 pounds of butterfat. Second place is divided between J. A. Powell and Paul Wilson, Sullivan. In butterfat their herds ranked the same, with an average production of 50.2 pounds. In milk production, Mr. Wilson's four grade and pure bred jerseys averaged 959 pounds per cow, while the seven grade and pure bred jerseys belonging to Mr. Powell averaged 907 pounds per cow. Moultrie county is the only one in the state besides Stephenson county, to have more than one herd in the list. Stephenson county had two.

Records High. Butterfat records in the state were high in May. A pure bred holstein, belonging to Harsch Bros. & Son, Will county, produced 93.6 pounds of fat and led the list. She milked 2,530 pounds of milk, and was milked three times a day. The best 10 cows are all located in the dairy district of the north end of the state. Five of them were milked three times a day, one four times, and the other four, two times daily. They are all pure bred and bred holsteins. The lowest producer among the best 10 has 1,888

pounds of milk and 81.2 pounds of fat to her credit for the month.

Ralph Emel, Sullivan, had the highest cow in the Moultrie association. She produced 1,466 pounds of milk and 80.6 pounds of fat. In the list of highest producing cows in each association, she stood 11th in the state in a list of 27 associations. Two associations were not heard from.

500 Pound Club.

A pure bred holstein, belonging to W. R. Angle, Stephenson county, led the highest producing cows in the Illinois 500 Pound Butterfat Cow club at the end of the first five months. Her production then had reached 11,949 pounds of milk and 419.4 pounds of fat. There are 86 cows given in this list. The lowest one has a record of 7,633 pounds milk and 250.9 pounds fat.

"The cow is entered in the 500 pound butterfat club as well as the others in the herd will need plenty of good feed and careful management if their production is to be maintained on a high level this summer," says C. S. Rhodes, dairy extension specialist. "Give the cows the chance they deserve and you will be surprised."

DR. TAYLOR SAYS SOME FARMERS DO NOT CO-OPERATE FULLY IN T. B. ERADICATION

In the three years that T. B. testing of cattle has been carried on in Moultrie county, there have been 16,979 head tested to date, according to J. R. Taylor, veterinary in charge of the work. Out of that number there have been 690 reactors to go to slaughter.

Testing began in this county April 1, 1924. There was a halt in the work this spring of about a month and a half. Testing stopped April 1, and was resumed on May 17. Difficulties arising in securing the money for indemnities were responsible for the period of delay, but now the state is paying both its own share and that of the Federal government.

According to Dr. Taylor, more than 90 per cent of the cattle owners have voluntarily had their stock tested. With this amount taken care of, under the new law governing the

work, compulsory testing can be carried on here. Plans had been made for this to be done when the cessation order was issued in April. The statute provides that when three-fourths of the cattle of a county have been tested, then the remainder can be tested under compulsion. Nothing more has been done in that direction, Dr. Taylor says.

He has started on the third test for the county. There are 7,069 head of cattle in the county according to the 1925 report of the county board of review. Last year the number of reactors amounted to 5 per cent of the tested number. Dora township had the most of any one township.

As he is beginning his third round of the county, Dr. Taylor is finding a good many reactors again. Many farmers, he says, are lax about cleaning up their premises when infected cattle are found in their herds. Barns and lots are left as they were before, and the next visit of the veterinary finds tubercular cattle in the herds. Because of this condition, Dr. Taylor says, it is likely to be some time before this county can get on the accredited list.

DAIRMEN AND FARMERS SEE COUNTY'S BEST LIVE-STOCK ON FRIDAY'S TOUR

The Moultrie County Dairy tour Friday showed some most excellent herds. The tour was under the auspices of the Moultrie County Dairy Improvement Association and Farm Bureau. C. S. Rhode, dairy extension specialist of the U. of I. accompanied the tour.

Eighteen farms were visited as follows: L. W. Wheeler, Lew Sharp, E. E. Marquis, Harve Sharp, V. I. Warnings, Rush Weeks, Wilbur Reifern, J. S. Bicknell, John Craig, L. D. Seass, Masonic Home Farm, Ray B. Martin, Paul Wilson, E. F. Bayne, C. O. Patterson, Frank Emel, Clyde Emel, J. A. Powell and P. B. Harshman.

At each stop the owner showed his best individuals, his herd sire, if he had any, and his young stock.

Mr. Rhode was greatly pleased with the work that is being done and highly commended the local producers.

After the trip had been completed he gave the dairymen a lot of good advice relative to feeding, breeding

and general care of their herds.

He stated that the Moultrie County Association was the first in the state to have an average of 300 pounds of butterfat per cow for its first year's testing.

He urged an extension of the pure bred bull work now being done in this county, so as to give the dairymen the benefits thereof. He also urged the organization of calf clubs to interest the oncoming generation of farmers.

Relative to feeding he had the following to say:

"It looks like you are taking good care of your cattle, but I want to impress on you the advantages of sweet clover as a pasture crop. You can produce milk and cream cheaper on legumes and get along with less grain and bring your cows through in better condition. You can't eliminate grain entirely, but you can eliminate the high concentrates that you have to buy. The blue grass period is short. Sweet clover is high in protein and mineral matter and is succulent.

"Sweet clover is the best pasture we can have. The blue grass frizzes out early, it is practically gone now. Three quarters of an acre of sweet clover will furnish pasture for a cow for five months. Dairy products should be produced on sweet clover because it is cheaper."

KIBLER-MILLER

Mr. and Mrs. Sallie

—being the Confessions of a new wife... by Gladys Baker

CONSOLATION

"Nonsense, my dear, when you've lived as long as I have, you'll begin to know husbands and lovers are two vastly different men. And although they won't admit it, they are each true to type. I can tell you, I think just exactly why Curtiss went to the dance without you to-night and why he probably will have a good time. I couldn't anticipate her thought. She went on.

"He knows that he has you now for his own and he can go to a party and have a very relaxing, carefree time. Even flirting a bit, perhaps with all the time he is conscious of the fact that he has a sweet, charming wife at home. You furnish his backward you see, and he wouldn't even get a 'kick' out of dancing and chatting with those little debutantes if he had not won you first. Do you see what I mean?"

"Yes, I believe I do, because before we were married he didn't care at all about such things. But it's the lack of romance and sentiment between the two of us that makes me grieve. 'Romance,' she repeated, 'listen Sallie, I'm going to tell you something about romance that you've never known before.'

I leaned forward eagerly in my chair and she began.

"As for romance," she continued, "this is a bit of advice from an old woman, little Sallie, that I wish all wives who were starved for the thrilly bubbly kind of romance would understand. Don't expect the romance of moonlight and honeysuckle after you're married, except as an individual, and then you'll never feel your heart break because he fails to thrill with you to a sunset or a poem when he's probably thinking about stocks and bonds."

"Oh, but I couldn't live without romance," I mourned, "life would be cynical and matter-of-fact and cold." "But wait, my dear—there are many kinds of romance and just as you've adjusted your little girl ways to become a housewife and moulded your wishes and desires into others that are congenial to his, so will your conception of romance change—and it really should, dear child."

"What do you mean, Mrs. Wright, that there are many kinds of romance? I don't know but one kind, I'm afraid."

"Neither did I, at one time," she replied with a far-away dreamy look in her eyes, though her lips still smiled, "you'd be surprised to know that there's romance in keeping a well-ordered home, now wouldn't you my dear? Or in making everything so comfortable for Curtiss that he'd adore being here or that there's almost the same thrill in viewing row after row of shining jellies and jams, creative work of your own, yes," she reiterated, "just as much thrill as there used to be in seeking pink holly-hocks against an old stone wall."

How did you know I loved holly-hocks against—

"Against an old stone wall?"

"Why, yes."

"It's not unusual. Most women do, my child." "They are all disciples of Beauty at heart, but men? No, no, no—just as women are more susceptible to spiritual things, blind faith and ritual and such—to men these intangible things come hard, they've got to SEE with their eyes."

She reached for a dictionary in one of the book shelves on the wall.

"Look here!" she exclaimed, "just as I thought."

I followed her finger eagerly along the printed line.

"Romance—absurdity," she pointed out, "you see it was written by a man." She laughingly put the book back into its place on the wall and when she had reseated herself I begged her to go on.

"Oh, it's just that for one aesthetic man there are, I guess, five hundred who are not. That's why so many of the poets have woven this theme into their songs. It's not new. Fact is, it's as ancient as the hills and as immutable as the stars. Remember Faith Baldwin's lines?"

She leaned forward and there was a singing cadence in her tones: "Love caught me in a golden net All scented rose and rue Love lured me to a little house And set me tasks to do."

I look from out my window pane To Hills of Far-Away My feet grow weary for the roads Beyond the break of day.

But Love has such imploring eyes, I could not quench their light And so I bake and sweep and sew And—lie awake at night!"

For a moment there was silence in the room. It was as if the shadows still sang softly with the echo of her voice.

"That's strange that you should have thought of that verse for I was just repeating some of Edna St. Vin-

cent Millay, along the same line, when you came tonight."

"No, it really isn't, my dear," she shook her head, "that's what I'm trying to tell you—that the resentment and self-pity you felt for what you thought was romance leaving your life is a fundamental emotion known to almost every wife, who isn't a bride, and I'll wager you'll find one such idea in the repertoire of every woman who writes these little songs."

"I think I begin to understand," I exclaimed, "I was wondering tonight if there were others like myself who felt romance drifting away, but now you've made it so beautifully clear and I feel quite comforted that I'm not alone in this yearning for the pretty-poetic—the fairy things of life."

"You precious child!" My guest arose as she spoke, prepared to leave, "of course you are not. And, listen, my dear, keep your enthusiasm and keep appreciation for these things 'not made with hands'—for through them you will gain an inner joy that no circumstance or condition can take away. Then, when Curtiss does thrill over something that you, too, have found most dear, it will be a pleasant surprise and when he doesn't, you won't feel personally insulted at his neglect but," she concluded, "you'll just realize that he's a man."

"Long after she had gone it was like I had stood before the warmth of a cheerful, singing blaze. Instead of the disturbing, jealous thoughts that had filled my mind when I had pictured Curtiss at the dance, I felt strangely calm. This lovely woman's presence seemed to linger on. Her words were like a hand-clasp and I framed a little prayer, for, I knew, without a doubt, that I had found a friend."

We had thought that the last days of September would be cool as the first two weeks of the month had promised a release from the terrific heat which had extended over the entire South. But suddenly the weather changed and a wave of intense heat such as Birmingham had never experienced, began. Everyone who could arrange to do so, got out of town, but many had returned thinking the heat-wave had spent itself in the months ahead.

Curtiss worked many hours on the job of planning the new houses for the large mining settlement just out of town. He was trying to push the work through so that the men and their families could occupy the houses in the Fall. His concentrated effort on matters of business during the day, together with the unexpected heat, which continued even at nighttime, made him irritable and difficult to understand.

I began to realize that my summer had consisted of a series of drab, uninteresting days and my youth and natural love for responsive companionship rebelled.

There was another situation which the summer had brought and which caused me grave concern. So noticeable it was that even a non-suspicious nature, such as mine, could not fail to sense what was going on.

Letitia Evans' interest in my husband was increasing day by day and apparently so strong was his attraction for her that she made little pretense of caring who knew of her infatuation for a married man.

IN PENNSYLVANIA

Gifford Pinchot, the Governor of Pennsylvania, blazed in \$164,893.00 in his recent flunk race for United States Senator. This man is a reformer. He is a dry. He is what you would call a God and morality man. He has always posed as a better-than-thou. Sometimes he has been suspected of being a parlor socialist. He would make the world over again over night. We don't know whether he preaches what he preaches on prohibition or not, but guess he does. He prays where he can be seen of men. He wears a long face and heaves deep sighs and holds his head to one side in church, as if he had water in the upturned ear. Yet he is a multi-millionaire. He spends more money to get an office, by several times over again, than the salary it pays. What do you think he is after? The graft, of course. He says the honor. That's bunk. That's a flimsy excuse. Never trust a millionaire in politics. There's a reason. Pinchot does not hesitate to buy voters and to bribe the judges and the clerks of election. For what other purposes did he spend all of that money? None whatever! Yet he is the Simon pure an the immaculate. Bosh!—Belleville News-Democrat.

THE OLD HOME PAPER

Charles Moreau Harger It's printed old-fashioned and homely, Bearing name of a small country town;

With an unfeigned sneer at its wrapper queer, The postman, in scorn, throws it down.

But I con every line that it offers; Each item brings something to view.

Through the vista of years, through youth's pleasures and fears, And serves their keen touch to renew.

The death of the girl I once courted, The growth of a firm I once jeered, The rise of a friend I love to commend, The fall of a man I revered.

As I dream I drift dreamily backward

To the days when to live was a joy, I think and I pore, till the city's dull roar Grows faint, and again I'm a boy.

Rare perfume of green country byways, Fair music of mowers and bees, And the quaint little town with the streets leading down To the creek and the low-bending trees.

Around me the forms of my comrades,

About us earth's glories unfurled, Each hert undefiled, with the faith of a child, Looking forth to a place in the world.

And the papers tell how all have prospered, I follow their lives as they flow, Applauding each gain and regretting each pain For the sake of the days long ago.

Above all the huge city dailies With ponderous utterance wise, This scant page hath power to spread for an hour A fairland sweet to my eyes!

—The Cuba Patriot.

The Dangers Of Drugging For Fat

A middle-aged woman, an office manager for a large corporation in Vancouver, recently found her weight increasing to a point where she decided, as many women have, that she was 'too fat.' Instead of consulting a reputable local physician, she answered the advertisement of an American 'obesity specialist,' who averred that a capsule a day keeps the fat away. Without waiting for the second letter from this 'specialist,' which would have given her a reduced price, or for the third, which probably would have cut the rate still more, Miss Vancouver sent the equivalent of ten dollars, for which she received a box of twenty-one rather large capsules, completely filled with a yellowish composition, apparently moist and solid.

These were to furnish 'treatment' for a week, one capsule to be swallowed before each meal. Quite inadvertently she left one of the capsules on her desk, after she had taken half a dozen of them. Her assistant, standing beside that desk just before lunch, thought she saw the capsule move. A longer glance assured her that it did move. She called her superior's attention to the mystery. The capsule was opened and found to contain, buried in a gelatinous compound, a small but very active worm. Other capsules from the package were opened, revealing a similar worm in each. Laboratory investigation showed that all the capsules were similarly filled with crawlers and that each of these worms was a very young intestinal parasite.

On advice of her employer, the women wrote to the anti-fat concern, and by return mail received the explanation that the 'worms must have developed within the preparation,' and the further offer of five hundred dollars and complete free treatment for her silence. Meanwhile, two other 'treatments' were ordered by other persons. These when received and examined revealed the same living 'remedy' in each capsule. Action was taken against the 'obesity specialist' and he was fined, given a prison sentence, and for the time being put out of business. Six months of steady treatment by a local physician were required to relieve the woman of the worms she had taken in her first doses of the anti-fat capsules. Doubtless this sort of remedy would reduce corpulence—and also result in the death of the person taking it.

Probably the movement of the worm within the capsule was caused by the unusual heat of the sun's rays falling through a window as the pellet lay on the victim's desk. Except for this fortuitous accident, the disaster which inevitably would have overtaken this woman would not have been averted, and the anti-fat fakers would have had to their discredit another death. Terrible as is this example of the work of the swindlers in one department of medicine, it is the only incident on record in which internal parasites have been introduced into the human body as a 'cure' for obesity. Yet the medical associations of the several states and the American Medical Association in the past ten years have exposed more than 500 men and women as distributors of absolutely worthless and often harmful alleged remedies for corpulence, or plain 'fat,' as one prefers to call it.

It is virtually certain that not one of the advertised 'fat cures' of today will reduce the overweight of man or woman; it is positively established that any one of these 'remedies' can be obtained at the corner drugstore for less than fifteen per cent of its cost as sold by the swindlers; and in more than eighty per cent of the so-called remedies which have been analyzed and their purveyors exposed, some of the ingredients are harmful. Not a few of them are actually and actively dangerous to health and even to life itself. Without exception, the hundreds of 'fat cures' so far examined are offered at several prices, ranging from the first and highest, usually \$10 for a treatment, down to as low as \$1.50 for the same treatment. These successive prices are offered when the 'sucker' does not bite at the advertised price or the other and later pieces offered in the 'come-or' letters which follow the first intimation from the 'prospect' that he or she considered himself or herself too fat. This variation in the cost of the 'remedy' in itself should indicate to the interested man or woman that the cure is not so sure as it might be, otherwise such varied lures would not be necessary.

The desire to be slender causes thousands of American women—particularly those who lead comfortable, sheltered and leisurely lives—to throw away millions of dollars annually on these 'cures'. Virtually all of these so-called remedies are sold under two claims: First, that the patients need not diet; and second, that they need not exercise.

In the early days of this fraud, an extract of the thyroid gland—inactivity of which is one of the causes of obesity—was used by these anti-fat fakers, but this extract is so powerful and so dangerous when administered without proper study of the individual patient, that it has been abandoned by the great majority of them. Vinegar, lemon juice, bladderwrack, pokeberry, ordinary orange peel, and a score of other tart or bit-

ter tasting extracts are being used, none of them of any value in reducing fat.

The great gain in the fads of mental, religious and other forms of drugless quackery has led the anti-fat fakers into this field. You may now pay your good money to have your corpulence prayed off your bones, or even wished off them by the mental healer, without taking either medicine or exercise or paying any attention whatever to your diet, though doubtless it would be beneficial if one prayed over his potatoes, spaghetti or other starchy foods.—Dearborn Independent.

FREE LIFE INSURANCE POLICIES TO BE ISSUED TO SULLIVAN PROGRESS SUBSCRIBERS

We offer our subscribers the latest and most modern means of home protection. If you were to die today, what ready finances would your family have? Have you provided for your wife and children and their needs and education when your are gone?

\$1000 HOME PROTECTION POLICIES.

The most reasonable and inexpensive method of home protection is the MUTUAL plan. This plan is not new here. But you have never had the opportunity of getting a policy FREE. It has usually cost you from \$3.00 to \$5.00 membership fee to join. The regular enrollment fee of the Company which issues our policies is \$5.

THE PROGRESS OFFERS YOU THE POLICY FREE

The conditions are very plain and simple. If your Progress subscription is now paid in advance, if you are less than 55 years of age and can satisfactorily answer the questions in the attached application blank, you are entitled to a policy FREE. Not only this but any member of your family between the ages of 10 and 55 is entitled to a policy under the same conditions.

If your subscription is in arrears, pay up and you will be entitled to a policy. New subscribers are also entitled to share in this very liberal offer.

THE PROGRESS WILL NOT ISSUE ANY FREE INSURANCE POLICY TO ANY SUBSCRIBER WHOSE SUBSCRIPTION IS IN ARREARS, OR TO ANY MEMBER OF SUCH FAMILY.

WHERE DOES THE MONEY COME FROM?

How Can The Progress Make This Offer?

All mutual insurance companies are financed through assessments. Solicitors for memberships are usually paid the policy fee, which is from \$3.00 to \$5.00. Under arrangements with the company in which our policies are issued we are able to offer these policies FREE. You pay no membership fee to enroll.

Through the assessment plan the members of a mutual company are all one big family. If one of them dies, an assessment of not over \$1.00 per member is levied. The holder of the policy pays this assessment. The money so collected will be promptly paid to the beneficiaries of the deceased. In no case will such payment be over \$1,000. Until such time as the company has 1000 members (which we expect soon) the death benefit will be equal to \$1.00 per member for each member enrolled. For example—suppose the company has 700 members when you die. Your death benefit will be \$700. We expect to enroll a thousand members in a very short time.

After payment of the death benefits, the balance remaining, if any, will be placed in a reserve fund which belongs to the members of the Association.

A yearly fee will be charged to pay for secretary hire, printing, advertising, postage and such other incidental expenses.

WHAT IS THE TRIANGLE ASSOCIATION?

The company in which these policies are issued is the TRIANGLE MUTUAL PROTECTIVE ASSOCIATION. This is a Sullivan institution, sponsored by the leading business men of Sullivan.

The state has chartered this company. J. B. Tabor is president; J. L. McLaughlin, vice-president; Homer W. Wright, secretary; Dr. J. F. Lawson medical director. Others of the incorporators are J. H. Pearson, Ed C. Brandenburger, Guy Little, R. B. Foster, R. C. Miller and W. R. Robinson.

HOW MANY ASSESSMENTS

Nobody knows. It all depends on how many people die. Experience in other companies of this kind has shown that the yearly premiums and expense fees will not amount to over \$8.00 per year. This is an average figure. It may not amount to that much.

You cannot get insurance in any old line insurance company at anywhere near that figure. Mutual companies do not have big expenses and highly paid officials. They do not accumulate big reserves. They are conducted on a strictly mutual basis. The money raised by assessments is paid to the beneficiaries. Your neighbor's widow and her children, or whoever the beneficiary may be, gets it. There is no red tape and long waiting for payment. Payment is made promptly, just at the time when the money is needed most.

MEDICAL EXAMINATION

All old line companies require a strict medical examination. We waive that. You simply sign a statement that you are in good physical health. This and any other statements you may make are passed on by the medical director, and if accepted, policy will be issued.

WE PAY THE ENROLLMENT FEE

The Progress takes care of the policy fee that enrolls you into membership. We attend to all the details. If accepted into membership you pay your assessments and yearly expense fee to the secretary or treasurer. You have, however, nothing to pay UNTIL THE FIRST ASSESSMENT IS LEVIED.

Mutual Insurance is a good thing. Past experience has proven it to be a blessing to those dependent on the insured. You have never had a more liberal insurance proposition offered you, than this.

Fill out and send in the attached application blank or call at this office for further information.

Application for Membership

I hereby make application for policy in the TRIANGLE MUTUAL PROTECTIVE ASSOCIATION with the understanding that THE SULLIVAN PROGRESS will take care of my \$5.00 membership fee for enrollment in said Association. If accepted I will pay my assessments and expense fees as provided in the Constitution and By-laws of this Association:

Name (in full)..... Age (Next birthday).....
Address (City)..... (State).....

Have you had any doctor's attention during past year?.....
If so, state particulars.....

I certify that I am in good health and know no good reason why I should not be accepted as a member of this Association.

Applicant's Signature.....

To Whom Do You Desire Benefits Paid?

Name in Full..... Address.....
What is the relationship of this beneficiary to you?.....

PUBLISHERS' CERTIFICATE

To the best of my knowledge and bleief this applicant for policy in the TRIANGLE MUTUAL PROTECTIVE ASSOCIATION has complied with all conditions necessary to qualify him to receive the policy asked for.

C. I. P. S. COMPANY INSTALL LIGHTS ON HARD ROADS

The Central Illinois Public Service company is now installing lights on Route 25 north of Neoga by way of experiment to test the value of high-way illumination in the country. The installation is nearly completed and the experimental light system will soon be in full operation.

The experiential lights start at the north edge of Neoga and extend in the direction of Mattoon a distance of 3000 feet. Several types of lamps will be used to determine which will give the best results. The lights will be spaced about 300 feet apart. It is claimed that these lights will not cause a glare and that they are designed to throw the light on the roadway and not at the roadside.

WASH AWAY IVY POISON

Thorough washing soon after exposure to poison ivy reduces the danger of injury, says the United States Department of Agriculture. The poison usually requires some time to penetrate into the tender layers of the skin, and until such penetration has taken place much or all of it can be removed.

Make a thick lather and wash several times, with thorough rinsing and frequent changes of hot water, using ordinary alkaline kitchen soap. Running water is preferable for this purpose. If a basin is used, the water should be changed frequently. Even after inflammation has developed, thorough washing should be tried in order to remove from exposed surfaces of the skin all traces of the poison that can still be reached.

For the inflammation, simple remedies, such as local applications of

solutions of cooking soda or of Epsom salts, one or two heaping teaspoons to a cup of water, are helpful. Fluid extract of grindelia, diluted with 4 to 8 parts of water, is often used. Solutions of this kind may be applied with light bandages or clean cloths. Such cloths must be kept moist and discarded frequently in order to avoid infection. When the inflammation is extensive or severe it is best to consult a physician.

—Miss Hettie Emmonds was a Decatur visitor, Tuesday.

Excepting the Bible, Pilgrim's Progress has been translated into more languages and dialects than any other book. The number now exceeds 107.

The greatest earthquake disaster in all history occurred in China in 1556. More than one million persons were killed. Chinese tradition refers to it as "the time when the mountains walked."

The average weekly movie attendance in the United States is estimated at one hundred and thirty million.

JOHN ROYSE ESTATE APPROXIMATES \$43,000; INHERITANCE TAX PAID

Inheritance tax settlement was made in the county court this week in the estate of John A. Royse, a wealthy bachelor who died at his home in Sullivan township, some months ago.

Mr. Royse's wealth was about equally divided between lands and good bonds and certificates of deposit. The expense of administration of the estate and the funeral and other incidental costs are figured at \$4,116.42.

The heirs are as follows: A. R. Royse, brother, Olney, Illinois, \$8,428.24. Each of the following three sisters gets an equal amount: Adelia Hull, Bethany; Laura Everett, Kingsville, Mo.; Yensie Souther, Clebourne, Texas. Claude Lee, of Taylorville, a nephew gets \$4,214.12 and pays \$222.85 in inheritance tax; Herschel Lee and Clyde Lee, of Lovington, grand nephews, get \$2,107.06 each and each pays a tax of \$96.42.

The brother and sisters share came within the \$10,000 exemption and did not require any tax payment.

ASSUMPTION CHOSEN AS SITE FOR OLD FOLKS HOME BY PRESBYTERIANS

The Presbyterian Synod of Illinois in convention at Carbondale last week voted to build an old folks home at Assumption.

In summing up what this means to Assumption Editor Howk of the Tribune of that city has the following to say:

"Few people realize what this Big Charitable Institution means to Assumption. It is backed by the Presbyterians of the entire state of Illinois, outside of Chicago, and the entire plant will cost, perhaps, a sum from \$350,000 to \$500,000. The first building will cost about \$150,000 and the grounds will be a very attractive place. This Home will make Assumption known all over the state from Chicago to Cairo."

The Kemmerer's Orphan Home, with which most people of Sullivan are familiar, is located a few miles South of Assumption, and that city will now be the center of the Presbyterian benevolent institutions in this state.

A. W. SUTTON ANSWERED DEATH'S SUMMONS SUNDAY AT ALLENVILLE HOME

Anderson Ward Sutton, the village blacksmith of Allenville, died at his home there Sunday after a lingering illness.

He was born October 8, 1850 and at the time of his death was in his 76th year.

On March 29, 1874 he was united in marriage with Harriet Isabel Fowler who preceded him in death 15 years ago. To this union four children were born all of whom survive. They are C. W. Sutton of Neoga, C. F. Sutton of Sullivan, Mrs. Lulu Butts of Mattoon and Mrs. May Miller of Allenville.

On October 15, 1914 he was married a second time to Mrs. Laura Anderson of Janesville, who survives. The step-children surviving are as follows: Mrs. Walter Rarden of Lerna, Mrs. Ernest McMeachon of Casey, Henry Anderson of Wellsburg, Iowa, Mrs. R. E. Montonye of Mattoon, Mrs. A. J. Pettit of Allenville and the Misses Ruah and Katherine Anderson at home.

He was a member of the Christian church. He was also prominent as an Odd Fellow and served his lodge as chaplain for twenty-five years.

Funeral services were held Monday with Rev. G. M. Anderson of Sullivan in charge. Interment was in French cemetery Southwest of Allenville.

CARD OF THANKS

We thank all friends and neighbors for their kindness and sympathy during the illness and death and burial of our beloved sister, mother and grandmother Mrs. Permelia Grigsby. Especially do we thank for the floral offerings.

Mrs. Rebecca Patterson, sister. Lon Grigsby, William Grigsby, John Grigsby, Mrs. Mary Hoke Mrs. Sarah Denton, Mrs. Myrtle Stain and the grandchildren.

COUNTRY CLUB WILL CHARGE GREENS FEES; OTHER RULES ADOPTED

At a special meeting Monday night the Sullivan Country Club adopted recommendations made by a committee recently named to work out a proposition providing for charging greens fees from people who want to play on the course but are not members.

The greens fee will be \$1.00 per day, for one hole or a whole day's play.

Visitors cards may also be issued to any guest in the home of any of the members who may want the privileges of the ground for one month. The fee for such 30 days card will be \$5.00. No greens fee shall be charged the holder of such card.

A season's privilege card, good for the current calendar year may be issued to any person on payment of \$25.00 for men and \$15 for ladies. Such card shall carry same privileges as class A membership except that of voting. A season's privilege card shall not be issued to the same person for two consecutive years.

The grounds of the club are a source of great pride to its members. The fairways are like a velvety carpet of green and the "rough" is kept mowed to a moderate height. There is no prettier golf course in this part of the state.

FRED BOOKER GIVEN SURPRISE PARTY TUESDAY

Tuesday was Fred Booker's birthday and in honor of the event Mrs. Booker arranged a surprise party for that night. Those present were Mr. and Mrs. James Booze of Decatur, Mr. and Mrs. Carl Summitt, Mr. and Mrs. Harry Davis and son Robert, Mr. and Mrs. Henry Cummings, Mr. and Mrs. Will Hicks, Mr. and Mrs. Guy Booker and family, Mr. and Mrs. Jesse Hodge, Mrs. Mary L. GONE BUT NOT FORGOTTEN

There once was a daring driver who believed that some fine day with a speeding locomotive he'd dispute the right of way; He would just step on the throttle, then he'd airily look back And observe the shattered fragments of the engine by the track. Then he'd smile with satisfaction as along the road he tore— There once was such a driver, but there isn't any more.—Exch.

TO STATE FAIR

The committee which selects the boys to represent Moultrie county at the state fair school met this week and named William Elder of Jonathan Creek, Vern Kellar of Sullivan, Paul Welch of Dora township and Virgil Morrison of Lovington. The committee consists of F. F. Fleming, W. S. Elder and Mrs. Nettie L. Roughton.

The first two of these boys will be sure to go, as the county is entitled to two, but for the past several years permission was granted to send four.

STATE S. S. CONVENTION JUNE 22-23-24 WILL BE HELD IN GRANITE CITY

The 68th annual convention of the Illinois Sunday School Association (known since June 1st of this year as the Illinois Council of Religious Education) will be held at Granite City, June 22, 23 and 24th.

There will be expert help for all interested in Sunday School work. The best speakers will address the convention and there will be plenty of musical programs, conferences, banquets, programs and exhibits.

Granite City is located within easy driving distance of Moultrie County and can be reached over hard road routes 3 and 4. It is close to St. Louis and has excellent transportation facilities inter-city. The C. & E. I. railroad furnishes a direct route between Sullivan and Granite City.

Every Sunday School in the state is entitled to send delegates to this convention. Each Moultrie County Sunday School should send from one to five delegates and as many more as can possibly go.

The registration fee is \$1.00 and this is transferable but not returnable.

Mrs. E. G. Mayes, the president of the Moultrie County Association, urges all schools to select their delegates for this Granite City convention without unnecessary delay.

The first day of the convention is association day for all district officers. The first general session is on the evening of the 22nd. The closing session will be on the night of June 24th.

The big object of the Sunday School association work is religious education.

Moultrie county is doing excellent work along this line this year. Gays closed a very successful Daily Bible Vacation School on Friday of last week. This week Dalton City will close the largest school of this kind that it has had in four successive years. It has been a community school and the enrollment was 90.

Sullivan is having a large school of this kind in progress at the Christian church at the present time with an enrollment of over 100.

ORGAN RECITAL AT THE CHRISTIAN CHURCH

Gloyd Rose, organist, assisted by Albert Price on piano, will give a recital Sunday night at the Christian church from 7 to 7:30 o'clock preceding the church services.

The program is as follows:

Fanfare (organ)—DuBois.
By the Waters of Minnetonka—Lienurance.
A Southern Fantasy—Hawke.
Piano.
Enchanted Moments—Geibel.
Dance of the Wild Flowers—Wenrich.
Organ.
Melody—Dawes.
Romance—Zitterbart.

—Prof. G. F. Iftner will attend a meeting of the teachers of Vocational Agriculture at the U. of I. Monday of next week.

PINCHED PUNCHES

Officer Getz, Wednesday arrested Floyd Punches on a charge of speeding on Harrison street. Police Magistrate Lambrecht assessed a fine of \$20 and costs.

LOCAL FIRM GETS CONTRACT

The E. M. Hagerman plumbing firm of this city was awarded the contract last week for the heating and plumbing in the new \$30,000 Strasburg High School. The building contract was awarded to an Urbana firm.

USING LEFTOVERS

When white bread sandwiches are left from a tea or party, they may be used in this way: Beat two eggs with 1½ cups milk, adding a little salt. Dip the sandwiches quickly in the liquid
