#### **New Water Soon** Available as Pipe Is Being Put In

Two Digging Machines Now on the Job. Council Legislates as to Rules Which are to Govern New Supply.

The Sullivan city council passed a water ordinance Monday night which provides for rates to be charged for service and other incidental matters not now covered in the previous water

It prescribed the manner in which connections shall be made with the new mains and specified that copper pipe shall be used within the uptown for all connections between the mains and the property lines.

The work of laying the new mains Chautauqua Opens started Monday. James & Shinn, the contractors have two digging machines at work.

As soon as is feastible the new water source will be connected up with the old mains and a plentiful supply of water will be available. The old source of supply has not been sufficient during the hot Summer weather and the lack of water has caused some distress especially at the greenhouses and to other parties who depend on it for commercial purposes.

When the new supply is made available all users will be put on the new rate. The water running through the old pipes may not be very palatable, but it will be cut over into the new maines as rapidly as they are laid the program so appealing to the gen and tested.

Property owners can be connected with the new mains at any time before January 1st without cost, except for the material and work. After January 1st, 1927 the city will charge a fee of \$5.00 for a permit to tap on.

up Proved Costly and Todd's Greys Piled Up One Sided Score.

Sunday's baseball game was rather loose affair on the part of the Colored Giants from Decatur, and as a result a 16 to 5 score was the outcome, In the fifth inning eight scores were made by Sullivan, with only two hits tallied. A few of the colored boys just simply "blowed up", and booted the ball around like a football team. Only one earned run crossed over during this inning.

A good crowd attended the game and most all were disappointed somewhat, in that some of Decatur's players failed almost completely in fielding, which accounted for such a difference in the final score.

Harsh pitched the first five frames and with the exception of the third, did an excellent job of it. In that particular inning they got to him for five singles and before the lid was clamped back on, four runs were over the plate. Smith, for Decatur, scored the other run in the fourth frame, after driving a nice 2-bagger to left center.

Poland relieved Harsh on the mound at the start of the sixth and the game finished without a run more for Decatur.

Reed and Poland were in a slump at batting for the day but took all fielding chances. Ford also failed to get a blow to his credit. Tabor and Knobloch divided the hitting honors with two singles each. Pribale drove a dandy 3-bagger to right in the seventh which was the record for the day. Reeder and Waymire took all

a hit each, Waymire's being for two sacks in the fifth. Spotty Pribble is getting a blow or two regularly now, with all base stealing records to his credit for the sea-

A big crowd attended the union services in Freeland Grove auditorium Sunday night. The orchestra was fine and much appreciated. Sunday night Rev. Robertson of the M. E. church will preach. Those who have never had the pleasure of hearing Rev. Robertson have a delightful surprise awaiting them. Let's fill the auditorum to capacity Sunday night. Out of town people are especially invited.

If you could just keep people from talking about the weather, or about poor business conditions, what a dandy world this would be!

#### ONE HUNDRED YEARS AGO

Just one hundred years ago George Stephenson, the father of the steam railway, drove his first train between Stockton and Darlington, England. In spite of the crowd's skeptical gibes, the little train of six small cars, carrying a load of almost ninety tons, with a few audacious passengers huddled together in one car, and the intrepid George at the throttle, moved off. Increasing its momentum at every turn of the wheel, it attained the unheard-of speed of fifteen miles an hour and arrived at its destination far ahead of schedule. Having made the journey without mishap, the return trip developed into a triumphal run and, when Stockton was again reached, more than six. hundred persons were riding in, on, or under the tiny coaches.

That was the beginning. The mighty railway systems of today are the outgrowth of Stephenson's little train.

Watch your chickens this time of the year. Now is when the lice and other vermin get in their dirty work and suck the vitality.

Why knock on the weather? We need this hot weather to make the corn grow. Illinois weather is the best that the Creator dishes out anywhere. Think of all of the varieties which we have here. It's in this mixture of weather that God brings to perfection his best type of men and women. Don't cuss the weather. Enjoy it.

#### OUR FRIENDS ARE PART OF US

Written for The Progress by Dr. Frank Crane.

I confess to being strongly affected by this liquor that runs from heart to heart through the spirit veins that web the fabric of all souls. When I meet one who does not like me it gives me a kind of depression, I am sick at my stomach a bit, I want to run.

Some people enjoy enemies. They enjoy the spiritual attack. Dislike rather tones them up.

But there are those, including me, who have such weak heads the least intoxicating draught of sympathy or antipathy sets them humming.

This class includes also dogs. I have just been over to see a lady who has a dog she calls Ford. Her husband is in the automobile busi-

ness. I will not offend by saying what Ford looks like. There is a point of ugliness, especially in dogs, which when passed begins the realm of beauty. He is a sort of glorified microbe. But his main trait is affection.

Ford is a veritable sensitive plant. When his mistress speaks crossly to him he shrinks like a withered leaf. His light of life has gone out. He is killed. He is the picture of utter, abject

And when she speaks kindly he ties himself into bowknots, leaps, runs, barks, laughs and turns somersaults.

So when I say I am human as a dog, I feel to

Sympathy, ethyologically, means "suffering with," and we usually use the term for the communion of griefs only. That is good of course. It helps a lot for any one to feel sorry because you have bumped your nose. Still, it is a deal easier to share grief than joy. People who understand our moods of happiness are rarer than they that comprehend our woe. If you would be my real and longed-for friend, I pray you cultivate a capacity for sharing my lighter moments. Then I know that you are genuinely sympathetic, that between us run the cords of a unity of heart and soul that mean something.

You can't escape. Sometimes you think, when you have been particularly oppressed by the woes of others, that you would be happier if you could crawl into your shell, shut out the rest of humanity and get along with your own personal joys and glooms.

But it will not work. To retreat from your kind is as if the land ran away from the rain or the flowers hid from sunshine. It means dryness, hardness and death.

There are certain goods you get from life as you go along. For instance, there is food and drink for your belly and clothes for your back. shelter for your head and money for your pocket; there is the impact of familiar things at home, the cat and the dog and the old blue china tea set; there is a cigar for a man and a new dress for a woman; there is a deal of enjoyment one way and another, but not the least considerable of all satisfactions in this vale of tears is that warmth which comes to the cockles of your heart when you meet the man who takes to you and believes in you and the woman who understands and likes you.

This world would be a poor slave-pen if all appreciations were banished and there were no more greetings of friendship and fat hours of fellowship. For good or ill my friends are a part of me, and so are my enemies.

The most damaging knocker that any city can have is the one who keeps knocking the other fellow because he does not boost the burg. Boosting a city is a sort of individual and collective proposition. You've got to do your share of boosting first. Do it 100 per cent perfect and the other fellow will by and by fall

#### CONSTITUTIONAL AMENDMENT BALLOT

Proposed Amendment Adding Section 14 to Article IX of the Constitution of the State of Illinois.

This proposed amendment imposes no new taxes. It affects no existing exemptions from taxation. The provision concerning the "two-thirds" vote (contained in the proposed Section 14) applies only to such future tax and exemption legislation as may be pursuant to, that is "under the authority of this section." It does not apply to past legislation, nor to such future legislation as may be under the general powers of the General Assembly nor as may be only under one or more of the old thirteen sections. The rates under the provided of the control of the the new methods of taxation authorized by the amendment will require a only known heirs at law, legatees two-third vote. Splendid interest was manifested at all services last Sunday. The Bible School is holding up in a very commendable way. There were many who gathered around the Lord's table at the morning worship hour and received the benefits of a spiritual feast. The evening union services was also well attended and a fine spirit prevailed.

The pastor will give a series of short talks each Sunday morning just preceeding the Lord's Supper. The purpose of these talks will be to reveal the Scriptural teaching concerning the Lord's Supper.
