Progress Shown

Contrast Between Sullivan of Today And Half Century Ago is Startling.

The old saying, "Familiarity breeds contempt," applies to cities as well as individuals.

All who have lived in Sullivan for any length of time are inclined to take a good many things for granted. We accept as a matter of course our fine stores, our public buildings, our churches and schools, our splendid, streets and sidewalks, and our many other advantages.

Yet it was not so many years ago that Sullivan had none of these things, or at least none to compare with those of the present day. Many old timers—and they need not be so old, either-can remember certain seasons when farmers could not get to town through the mud. They can remember a good many other inconveniences, too, which the efforts of our progressive citizens have elimin-

It is well to think of these things upon the progress made here in the last score of years and to think how next twenty years.

That is the way our local business men feel about it, at any rate, as evidenced by the stirring business edithis issue. We urge every citizen to read every word of it.

BULLET KILLS ED LIBOTTE

Gays Rural Mail Carrier Shot by Midnight Visitors at Oil Filling Station Saturday Night. Died Monday in Mattoon.

Ed Libotte is dead. Somewhere at large in this country are two men who are his murderers.

Mr. Libotte was shot at his oil filling station at Gays near the hour of midnight Saturday after he had been roused from his slumbers to sell these men two gallons of gasoline.

The men escaped. Libotte was taken to the Memorial hospital in Mattoon where he succumbed to his injuries at 12:30 p. m. Monday.

The murder was one of the most cold-blooded ever committed within the confines of Moultrie county. The men guilty have good prospects of being the principal characters in a

Mr. Libotte and his son conducted this filling station. They took turns at staying there nights and

About midnight he was roused by some men with a car who wanted Billman, Don (Scotty) Templeton, suits and were all given the annual two gallons of gasoline. He went out to serve them. There was some argument about paying. The one man with promising pep and vim and if a told Mr. Libotte to throw up his hands. He did not do so but grappled with the man. The second man then came on the scene. He had Mr. Libotte's revolver which had been through his abdomen and one struck him in the thigh.

The men then jumped into their car. Some reports say that at this point they were joined by others who had lurked behind the garage and the car started West.

In their hurry to get away from the scene of the cowardly crime, the bandits turned a corner too short a mile West of Gays and the car went into the ditch. Here it was found by searchers a short time later. By the license number it was identified as

Schools are again in session. The machinery of the greatest public institution in America is again in motion directing the development of that intelligence which in years to come must take up the burden of running this universe.

Arthur is holding her big county fair this week. It's the greatest thing ever happened for that community. It is the natural outgrowth of a spirit of community pride and boosting. Hats off to Arthur! Those boys know a good thing when they see it and can all pull together and put it over in great shape. While Sullivan real estate men squabbled some years ago about sites for a county fair, Arthur buckled down to the job and

FRANK FARRINGTON

A man who has stood at the forefront of Illinois union labor for many years was a rawboned, loud-mouthed miner named Frank Farrington. He was of that type of man who inspired all who came in contact with him of his sincerity if not with any special ability. He could abuse the employers loud and long. His followers swore by him and loyally followed him and his advice.

In recent months this man Farrington came into prominence politically when he gave his ardent support to the candidacy of Col. Frank L. Smith as a candidate for the Republican senatorial nomination. He advised the miners and all union labor to support Smith. It was charged that he had sold out. The charge was vehemently denied. Frank Farrington sell out for a price! Preposterous!

Well the facts in the matter are that Frank Farrington did sell out. While still president of the Illinois miners, he signed a contract to work for the Peabody Coal Corporation, the largest group of operators in Illinois. He is to get \$25,000 a year.

After signing the contract he sneaked off to Europe until the storm would blow over. The storm came this week. Farrington's perfidy was exposed. He was communicated with and practically told his erstwhile followers to go to the devil, he'd do as he pleased. As a consequence he was kicked out of office and Illinois coal miners feel relieved to think that a traitor and double-crosser has been exposed and dethroned..

And we hope and trust that when this man Farrington gets back to join the plutocrats and draw his \$25,000 a year salary, he will be put on the witness stand by Senator Jim Reed's investigating committee and forced to disclose how much was paid to him to get him to atpolitical camp of Col. Smith in the late and lamented April primary.

Moultrie county Democrats have the livest organizations and bunch of candidates this Fall that they have offered the people for many years. They are out to win, with apologies to nobody.

DR. FRANK CRANE SAYS WE MUST LOVE ONE ANOTHER

The only practical plan under which human beings can expect to live together in peace is the Golden Rule.

We must love one another and do as we would be done by.

This is not an ideal Sunday School precept, but it is a rule that has teeth and claws in it. Unless we objey it we shall suffer. And not one party, but all parties suffer.

War has been demonstrated to be about as disastrous to the victor as to the vanquished. The successful allies in the recent great World War, such as Great Britian, Italy and France, are now almost as bad off as the unsuccessful group, consisting of Germany, Austria and so

War is not only cruel and ineffectual, but it does not pay.

It pays human beings in the long run to cooperate and not be content. As General Grant said, it is doubtful if any war was ever fought about an issue that could not have been better settled in some other way.

The great war makers are egotism, stubbornness, hate and fear. Jesus told us long ago that the only method of getting along together was by love and trust. We have not yet learned that His precept was based upon common sense and was not an impractical command.

Germany at this writing is reverting toward a reactionary government, as is Italy. England is in the throes of labor unrest. The ministry in France is maintaining itself with difficulty. Belgium is upset.

Wherever hate and fear and contention rule tempt to dleiver his union followers into the there is upheavel and disaster. These things cannot be permanently cured by an increase in force on any side, but only by an increase of charity and the spirit of compromise.

It takes a long while for human beings to learn how to get on with each ather. It is much easier to revolt and stand for our rights than patiently to seek a status quo.

The main thing for a people to learn is that there can be no abiding peace that is not founded upon justice.

The prophecy said in ancient times that righteousness and peace shall kiss each other. Until this is done there is no abiding harmony

Stealing is naturally despicable. There are many ways of stealing. We have as much or even more respect for the man who does his stealing at the point of a gun than we have for the slimy crook who by lies, If the United States Senate cannot overlook trickery and double crossing does his stealing and manages to keep within the pale of the law while so doing. At that a thief is a thief and a crook is a crook, no matter how he goes about getting what rightfully belongs to the other fellow.

With everybody touring, John Harris of this city thought he'd do likewise. On July 24th he was in Decatur. He rode a freight to Clinton and then worked the hard roads for rides North. He went as far as Windsor, Canada. He spent about a week at Clintonville, Wisconsin and shorter visits at other Wisconsin cities. He did not have a chance to ride with accommodating auto owners all the time and his report shows that he rode about 207 miles in street cars and trains. He returned to Sullivan, August 24th, having been gone just one month, travelled over a thousand miles and spent about \$40 in actual

Railway Taxes Mounting

The railroads are constantly seeking economies that will improve their service, reduce their rates or strengthen their earning power. That they are successful in such efforts is indicated by the fact that not merely one but all three of these important and worthwhile benefits have resulted from the notable railway economies effected in the last few years.

One item of railway expense has been going up, however, while most other items have been coming down. The taxes levied upon and collected from the railroads constitute one expense over which the railroads exercise no control, and railway taxes are increasing steadily in the face of reductions in nearly every other item of railway expense.

Going back ten years, railway taxes for 1916 amounted to approximately \$430,000 a day. Every year since then they have increased over the preceding year, and for 1926 they will exceed \$1,000,000 a day. In the last five years, a period of great economy in railway management and operation, the daily tax bill of the railroads has increased on the average more than \$47,000 from year to year.

Not only are railway taxes constantly increasing in the aggregate, but it takes a greater portion of total railway revenues to pay them. In 1920 it took 4.4 cents out of each dollar the railroads received to pay their taxes. In 1925 it took 5.9 cents. This year, present indications are, it will take between 6 and 7 cents.

Part of the increase in railway taxes is due, of course, to somewhat increased railway earnings and to improvements which have added to the taxable value of railway property, but the greater part of the increase is the result of new taxes and of increases in state and local tax rate. More than three-fourths of all railway taxes are levied by state and local governments, and the necessity for additional money to meet principal and interest payments on indebtedness contracted by these governments has been a considerable factor in making for greatly increased railway taxes. In the six years 1920 to 1925, inclusive, state and local governments increased their debts approximately six and three-quarter billion dollars. Principal and interest payments on outstanding bonds now consume about 10 per cent of state and about 20 per cent of local government expenditures.

The railroads ask neither favored treatment in tax rates nor exemption from any part of general taxation. They are willing to pay their share of taxes. But, since they practice economy themselves with such good results, they feel it is proper to urge economy in government, which benefits everybody. Most of the taxes that are levied on railway property are also levied on farm lands and buildings, stores, manufacturing plants and other forms of private enterprise. Taxes must come out of the productive activities of the country, and they are shared, indirectly if not directly, by everyone. The public, which pays all taxes in one form or another, is the ultimate beneficiary of all movements for tax reduction.

Constructive criticism and suggestions are invited.

C. H. MARKHAM, President, Illinois Central System.

CHICAGO, September 1, 1926

This is the song our boys sang overseas---but what does it mean to them, and us?

To them it was not a question merely as to their destination---it was an avowal of their intention to do the job ahead, whatever it might be.

We of Sullivan may well ask ourselves this question, repeatedly. Where do we go from here? What is the job ahead of us? Are we ready to do it?

Sullivan is a fine town now---but it is going to be a finer town tomorrow, next year, five years from now.

We have builded a solid foundation, and upon this foundation we shall rear a municipality which will be the pride and wonder of our county and the state.

Procrastination is the thief of progress. We must build now---and every citizen must put his shoulder to the wheel and do his share towards a better and bigger Sullivan.

We whose names are inscribed below have enlisted in Sullivan's Army of Progress. We want you to march with us---and the nearer we come to 100 per cent co-operation the more surely shall we build a city which will cause all who see it to envy

"Where do we go from here?" Who of us has the vision to see Sullivan as it will be a quarter century from now?

CORNHUSKERS ORCHESTRA DISPENSE HARMONY VIA THE BROADCASTING ROUTE

The Kirksville Cornhuskers orchsestra broadcasted a very successful program from WJBL in Decatur Saturday night between the hours of 9:50 and 11:20.

This orchestra is made up of 6 pieces of string music, the players being members of the Kirksville Community club.

They first broadcasted from Decatur on the night of August 2nd and so pleased their hearers that they were called upon for a repeat performance.

The boys are all hard working farmers but when it comes to play they are right there. One of these boys has a record of husking 227 bushels of corn in one day.

Our correspondent says that he only has this boy's word for this corn husking record but if he husks corn with the same energy he displays in the orchestra, it is doubtless true. The other boys also claim big husking records.

The boys have been engaged to broadcast again the latter part of September. They have received more messages of congratulation than any musical feature broadcated from Decatur, having 40 such expressions of appreciation and good will.

The next meeting of the Kirksville FOR RENT-4-room brick, modern. Community club will be held Monday night, Sept. 6th beginning at 6 p. m.

MOULTRIE COUNTY CHRISTIAN

Moultrie County Disciples of Christ experienced their first county conven- laxative that ought to produce some tion last Sunday in the Freeland Grove Auditorium. Delegations were union services were closed by singing present from every Christian church in the county and it was estimated School Superintendents and Pastors thanks. were introduced throughout the program and each gave a message or greeting from their respective places.

The program opened with Bible School at 9:30 o'clock. Carl R. Hill, superintendent of the local school, was in charge of this part of the program and the task of handling the ently. The Bible School hour was foldevotional talk. In his talk he mentioned the fact that the first church in Moultrie county was esablished in 1832 nearly a century ago.

Rev. E. R. Berry of Arthur delivered an excellent sermon on "Life's ron. Great Task". He first showed man's attitude to learn more fully the ways Quartet of life and that man should not be 2:30 p. m.—Oration, "My Ideal of satisfied until he had secured the best a Fox Hunt"—J. K. At the close of the afternoon meeting a business session was held during which time the following comrecommendations, John Dolan, J. W. and Eunice Dickson. Bundy, Jesse Lilly, submitted their report and was accepted by the convention. Part of this report was that this convention should be made an annual affair. The committee on organization, J. W. Hoskins, Frank Doughty and Willie Elder, submitted their report and same was accepted. They recommended that a county organization be affected and that the following officers be elected for a period of one year. Earl Clark, president; John Dolan, vice president; Mrs. Faye Munson, secretary and treasurer.

The committee on Time and Place, Ed C. Brandenburger, W. A. Bolin time and place set for next year will be the last Sunday in August and will be held at the Freeland Grove Audi-

CHURCH NOTES

FIRST CHRISTIAN CHURCH

Geo. M. Anderson, Minister. Next Sunday or the first Sunday in September marks the beginning of the fall work of the church and Bible School. There will be no snow on the ground neither will the grass be withered but it is, nevertheless, the time of years when we turn our backs upon the temptations of vacation and set our soul and hands definitely on the task of the church. Church interest should be like that of the home. The same pride that is manifested for the home should be manifested for the church. The same regularity that is expected in the home should be expected in

the church. The same loyalty that is found in the home should be found in the church. This is housecleaning time, let each member make the church sufficiently clean so that it will be a desirable place to abide. A house cleaning will be made of the church roll next Sunday morning.

Be present and answer to the call of your name. Names of persons who have moved away from Sullivan will be dropped from the active list of morning and evening and receive first faithful effort, by the grace of God. hand information about the present and future plans of the church.

The sermon subject for next Sunday evening will be "The All Seeing Eye." There will be a dramatic pre-lude given in connection with the sermon. This together with the special music and spirit of worship should make a very attractive service.

Mid-week services will begin Wednesday evening, September 1st. Your pastor will have charge of this meeting and will explain the nature of the midweek services during fall season. All who are interested in the welfare of the church are urged to be present at this meeting.

The Christian Endeavor will have its first meeting next Sunday evening at 6:30 o'clock. Chas. Kellar leader.

The Bible School meets each Sunday morning at 9:30 o'clock. If you are not attending Bible School elsewhere, you are cordially invited to attend and receive its benefits.

Sunday School at 9:30 a. m. Hugh Murray, superintendent.

The vacation season is about over and the travellers are returning. Plans for the Rally Day will be announced soon, so don't take a chance of missing the announcement

Morning worship at 10:45 a. m., in charge of the pastor, who will deliver the sermon.

Epworth League devotional service at 6:30 p. m. This will be a meeting preliminary to the installation service which follows at the hour for good, and doeth it not, to him it is evening worship. The plans for the various departments will be presented and discussed, and announcements for the future made. All young people should be present.

Evening worship at 7:30 The officers of the Epworth League will be formally installed at this service, and this department of the work of the church will be presented and explained. No one should miss this enthusiastic service. A very impressive installation service has been

Prayer meeting every Wednesday at 7:30 p. m.

All are welcome at the church where there are no strangers.

PRESBYTERIAN CHURCH

Next Sunday is the time when we should begin our work with some new zest in the Sunday School and church work. Most of the vacation days are gone. Now it is the time when we should think of hard work along with our play, and make the days brighter in the coming season with the effort we put forth to build up in the differ-

ent departments of life. The real hot days of the good old summer time are about past, and we can look forth to the autumn season with the thought of juicy fruit.

So may we rejoice that as the days are passing that we can bring forth fruit in our lives through patient, Sunday School at 10 o'clock and you are invited to join some class and have a part in the study of the word
