DR. FRANK CRANE SAYS NAGGING HELPS SOMETIMES

Judge John W. Summerfield is authority for the statement that nagging sometimes does a husband good.

It is probably upon the principle that we all need petty annoyances in order to develop patience and poise.

The philosopher sees some use in our friend the devil. There could be no courage without danger, there is no virtue without temptation, there is no commendable temperance that does not resist a desire for excess.

Evil is a shadow, and where there is no shadow there can hardly possibly be any light.

In the same way fleas and insects of all sorts are needed in order to keep us alert.

Reasoning in this line it may be a good thing for a man to be nagged a bit to prevent him going stale.

It would not do for him to have things too easy. Character does not develop in a uniformly favorable environment.

Of coure no man would choose nagging nor beg for it, but his philosophic height is largely determined by how he responds to it when it comes his way.

He can either be irritated and annoyed by it, or he can deliberately hold his course and ignore it. It can make him a lesser man or a greater man, according as he uses it.

Anyhow he cannot help himself, and he ought to study how to turn this disagreeable element of his surroundings to his advantage.

In a play some time ago called "Lonesome Like," a man who had been used all his life to being nagged was suddenly called upon to undergo the death of the nagger. He enjoyed his liberty for a while, but finally got so lonesome that he took up with his grandmother simply because she scolded him. He found out that he was very lonesome without this continual female supervision. A man can get used to anything, and probably he can turn nagging to his advantage and comfort.

In the matter that affects the keeping of the county's finances and records, the people are entitled to a very thorough investigation of any and all offices that may be involved.

When a county employs an auditor and pays a big price for an audit of the books of its officials, the people who pay the bill are entitled to the publication of a detailed report showing the condition of such offices. Secrecy of the results of an audit seems to defeat the very purpose for which it is intended. Hupmobile Millions More

to make Hupmobile Six the Finest Six under 2000

Hupmobile has spent many extra millions the last 18 years to build superior quality into Hupmobiles.

Hupmobile continues to spend extra millions today to make its Six the finest Six under \$2000. Hupmobile has always built only one way—it has always kept faith with its own standards. That's why the name Hupmobile means as much as it does.

That is why you can buy this great Six in the absolute assurance that it gives you Hupmobile performance, value and economy.

Owners reap the benefit—and Hupmobile finds its six-cylinder car in growing demand month after month and year after year.

Those extra millions show in far finer workmanship, in far more thorough inspection, in better steels and in building to scrupulously close measurements.

Hupmobile could build its great Six to ordinary standards, and it would still be one of the foremost cars in America from the standpoint of acceleration, of comfort, of steering and riding ease, of roadability.

But it would not have that surpassing smoothness, that wonderful dependability, that ability to stay away from the repair shop months on end, which make the Hupmobile Six the great car it is.

Hupmobile Six a Leader, Also, in Complete, Modern Equipment

What goes into a motor car is vastly more important than what goes on it. You will not buy, of course, on mere externals and non-essentials, but on proven performance, dependability, long life, and low cost of maintenance. To superiority in these fundamentals, however, the Hupmobile Six also joins the latest and most complete equipment to be found on any car in its price class.

Oil filter, gasoline filter — low gasoline consumption, thermostatic heat control, snubbers, vision-ventilating windshield, dash gasoline gauge, clear vision bodies, color options — Mohair upholstery in latest mode, walnu grained panels on instrument board and window ledges, 4-wheel brakes, special vibration damper, headlights with tilting beam lenses and double filament bulbe.

Sedan, five passenger, four-door, \$1385. Coupe, two passenger, with rumble seat, \$1385. Touring, five-passenger, \$1325. Equipment includes 30 x 5.25 balloon tires, four-wheel brakes. All prices f. o. b. Detroit, plus revenue tax.

A little boy was told that he must go to a hospital to have his tonsils and adenoids removed. The youngster was not visibly disturbed by the prospect, according to a visitor who called with his mother. The visitor found the little boy deep in thought, and questioned him to find out if he were afraid. The reply was addressed partly to his mother, "Mamma, I ain't 'fraid of going to the hospital. I'll be brave and do just as they tell me. But I'm not going to let them palm off a baby on me, like they did to you when you was there."

DEMOCRATIC CHAIRMAN CONFIDENT OF VICTORY

Washington, D. C., Sept. 21.-The results of the state primaries, the last of which have now been held, have given Chairman William A. Oldfield of the Demogratic National Congressional much encouragement in his drive for Democratic control of the next-House, he announced today.

"As the results of the countrywide primaries, he said, "the Democrats have pleaed before the country perhaps the finest, most outstanding and most active candidates that ever aspired to membership in the House of Representatives. This is equally true of candidates for the Senate and for the various state offices."

Chairman Oldfield explained that the drive for the "biggest and best Democrat in each district" had been begun early last Summer. "The caliber of our candidates," he declared, "speaks for the success of our ef-

MOSQUITO ATTACK

Mosquitoes by the million and bilion has staged an attack on humanity in this part of the country. Due to the rains every puddle of mud, every grass grown plot, every stream or forest, in fact every square foot ground for the pests who rise in their might and stab anybody who happens to be near. They are the most bloodthirsty of foes for not only do they run their sharp sabers into their victims but they feast on their blood. Every man, woman and child is a lunch counter for the attacking foes and even livestock, poultry, etc. is also suffering.

Oakland Furnaces

There are some things that you demand of a furnace; Heat with a minimum amount of fuel; Cleanliness; durability and ease of opera-

All of these are embodied in the Oakland.

The fire pots are made with straight sides instead of tapered, giving a larger actual grate area and consequently a larger heating capacity. This furnace is self-cleaning.

These are only a few of the good features of this furnace. There are at least a dozen other reasons why this furnace is the ideal one for the
