The open meeting held here Friday night by Odd Fellows and Rebekahs was well attended, it being estimated that 400 or more were present. All lodges in this county and many from neighboring counties were well represented.

Grand Representative A. L. Yantis of Shelbyville was present and on behalf of Moultrie Lodge 158 presented 25 year jewels to seven of the local lodge's members.

The members so honored were Col. J. E. Jennings, Judge W. G. Cochran, Ç. F. McClure, John S. Miller, Hugh Roney, Mack Pea and Leslie Horn. Four more members were entitled to these honors but were not present for the presentation.

Mr. Yantis, who is a past grand master of the order, delivered a very appropriate address, the keynote of which was "Service", as embodied in Odd Fellow principles and prac-

COL. SMITH, THE FARMERS AND THE HIGH TARIFF

The Republican State Central committee is battling to the death for Col. Frank L. Smith the party's utilities candidate for the United States Senate.

They furnish the newspapers with publicity dope. In this dope Col. Smith outlines his platform, gives the devil to Prof. Magill and George Brennan and with a lot of silly platitudes tries to impress upon the voters his desirability as a representative of the people.

We have before us a bunch of Col. Smith's literature. In one entitled "Relief for Farmers" he says as follows:

"The situation of the farmers of Illinois and of the agricultural industry in Illinois is 29 serious, their plight is too grave, to be

matter. In one of his articles he states plainly and bluntly that the price of the American farmer's products is fixed in Europe, in a world market. In another place he says that the American farmer needs protection against Argentine and Canadian farm products and that the tariff keeps Argentine and Canada's wheat and corn and beef out.

If America's price for farm products is fixed in the world market, why in the name of common sense should Argentine or Canada or any other country want to ship anything in here when it can get as good a price any where else?

What protection does this tariff afford the farmer on his crop when his surplus is sold in the world market for the same price that Argentine or Canada or Russia or Turkey or Mexico can get? Where is the protection? How does it protect?

They tell you, and Col. Smith ably expounds this part of the tariff fallacy, that high tariff means high wages for laborers. It sure does. High wages mean high prices for what the laborer produces. You farmers pay those high prices. You sell what you grow in a world market, so where does your protection come in? Can you figure it out?

If you farmers and everybody in this co.:ntry who has his interests closely identified with the farming industry, will ever do anything for your own good, you will slap this high tariff robbery every time it bobs up its ugly head. You have paid and paid and paid, to give the eastern manufacturer the privilege of robbing you. You have been told that you are protected and now even the most brazen of the profiteer's spokesmen will admit that you never have had any protection. You sell your surplus in a world market. "The price", says Col. Smith, is made in Europe."

Col. Smith violated the laws of his state while he was on the state payroll. He would have you believe him innocent even though he admits getting and using \$150,000 of money from the utilities he was supposed to regulate. They tell you you must vote for him because he is dry. Is he? "In Chicago he's running on a wet platform. Downstate he is dry. The Colonel is this, that and the other, anything to get the votes; anything to get to the United States senate where he will most certainly be promptly kicked out if he ever presumes to claim his boodle-tainted seat.

You don't like Brennan! Well, what of Magill?

DR. FRANK CRANE SAYS THE DUNES ARE INDOMITABLE

Some time ago the writer visited the wild sand dune country of northern Indiana.

This sandy waste stretches along the southern shore of Lake Michigan between Gary and Michigan City.

The high sandhills are ages old. Some are "wandering dunes". Moving slowly through the years they have worked eastward. In their track new dunes are born. Others are fixed and on their sides sand cherries and stunted pines struggle for existence.

In a little while Queen Marie of Rumania, with her pretty daughter will be dining at the White House. The Queen will be able to tell her husband that she met one American that did not insist on talking about himself. H. G. Wells says that is our trouble, you know.

If the Queen will take a sheet of paper as big as a playing card she will be able to write on it all that the President will have to say, beyond politely answering direct questions

But when the interview is over the President will know a good deal about Rumania. He believes in listening and that's one reason why he s president.

Professor Jerome Davis, of Yale, reports an interesting talk with Sta lin, the real ruler in Russia. Stalin says Russia is willing to pay the money that foolish American bankers lent to Kerensky. Stalin really should do nothing of the kind. Those childish bankers grabbing at usurious interest rates and discounts, ought to digest that lesson.

They are now lending billions of the American people's money to various concerns in Europe. Many of these billions will never come back.

However, that's another story. The important point made by Stalin is that it might pay the United States to be friendly with Russia. Stalin said, "Russia now needs the United States. Possibly the day might come when the United States might need Russia's friendship." - 0 -

made the subject of irony

Mr. Smith declaims further:

"The laborer gets an American wage. The manufacturer, the miner, and every other producer 'gets an American price for his products. (Now note this) The prices the farmer gets are fixed in Europe. They are world prices. I am for the Americanization of the prices of farm products, and I believe that simple justice to the farmer demands that he be given such prices."

So far so good. Bear in mind what he says about where the price of the farmers products is fixed.

We turn the sheet and note another diffusion entitled "Protective Tarriff is the Real Issue.'

On this point the Democrats agree with Col. Smith to a certain extent. Farm papers and publications devoted to agricultural interests also agree that the tariff is a real issue, but from a different angle than does Col. Smith.

The protective tariff does not protect the farmer. Any farmer who has given the matter any though whatever knows this. Col. Smith would have them believe that it does and has the following to say about the matter:

"Do the farmers of Illinois want our tariff wall torn down? It is their protection nownot to the extent that it protects the manufacturer and the wage-earner, but a protection. It keeps the Argentine and Canada from dumping their surpluses into the American market, and protects the American farmer to that extent."

Over them the great invention of the age had a cradle and a culmination.

Here Octave Chanute made experiments with gliders, giving his information to the Wright Brothers later on. And here day and night great roaring planes fly overhead carrying the mails from Cleveland and Chicago.

The dunes have outlived the wilderness; they continue untamed in the heart of civilization.

In their enduring ruggedness there is a message of inspiration that helps one who feels it to "hold on" in the trials of life.

The face of the dunes is like the face of the common people. It is grim, determined, enduring.

It possesses neither the kingly grandeur of the towering mountains nor the object serfdom of impotent deserts.

Through the passing chiliads it has remained, remained in spite of wind and wave, remained one of the enigmas of geological endurance.

Buffeted, driven about, torn asunder, the particles yet remain, and remaining combine in lines that alter day by day, that move, that retreat, that advance; but lines that lie in the shadows of evening, gray, gaunt, beaten and deformed-but sublimely everlasting.

In the face of the dunes there is seen this example of endless endurance.

NONONONONONONONONONONONONON

Such rich returns on your money are very tempting and each year thousands of people invest their hard earned savings in "gold bricks."

To all appearances these investments are perfectly sound. Some very wise business heads have been fooled.

But the man who offers "get rich schemes" is thinking of only himself-he will be the one to profit, not you.

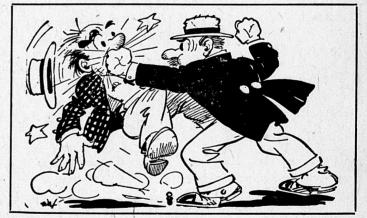

Good advice is this: "If you can't afford to lose-don't take any chances." If you really wish to invest there are many safe ways and we will be glad to help you. Our experience is at your service.

But the soundest investment of all is to put your money in the bank where principal is safeand good interest certain!

REV. HOPPER'S WORK AMONG UNFORTUNATES **NOW NUMBERS 57 CASES**

Rev. W. B. Hopper of this city who is field agent for the Division of Civilian Vocational Rehabiliation announces that in the territory which his work covers 57 cases have been and are now being taken care of.

Through this division of governmental activities, people who have become crippled or incapacitated for work throughout disease or otherwise, but may be taught some other line so as to be self-supporting are given aid in securing such instruction.

The following taken from the Centralia Evening Sentinel of last week gives a report of the work which Rev. Hopper has been able to do in that community:

"LOCAL RESIDENTS RECEIVE TRAINING ton.

W. B. Hopper, a field agent for the Division of Civilian Vocational Rehabilitation is in Centralia today on business in connection with that department of the state government. While here Mr. Hopper stated that the state is prepared, through Joint Federal and State funds to aid those residents of Illinois of employable age, who, through accident or disease are unable to engage in selfbeing instruction in the vocation that the individual is most fitted for.

Several residents of Centralia have received this training and placed where they have become selfsupport-Among them is Ephriam Locking. wood who accepted the opportunities offered him and received a complete course in broom-manufacturing. He now has a small, but profitable, factory on South Chestnut street and a business that is rapidly expanding as the public becomes better acquainted with his product.

According to Mr. Hopper two residents of Centralia have been placed in Brown's Business College and are receiving instruction that when completed will enable them to hold self-supporting positions. Hamilton Cole, who resides on Centralia Route 7, is another who is receiving aid from the department, his instruction being in fibre work. In addition to the instruction given, the department also assists in finding employment.

Men or women, incapacitated for gainful employment and who desire the service of rehabilitation as offered are requested to write to the Board of Vocational Education, Division of Rehabilitation, Springfield, Ill., and complete details will be furnished."

The Term of **States Attorney**

Is Four Years

At the election in 1924, the voters of Moultrie County elected A. A. Brown, State's Attorney under the laws then in force.

The Supreme Court, in an opinion handed down in the People etc., vs. Edwin Ray Munson, declared Mr. Brown could not act as State's Attorney before the Grand Jury without being a licensed attorney.

Mr. Brown then took the bar examination and was admitted to practice law by this same Supreme Court and is now a member of the bar.

In order that any indictments found by the grand fury might not in future be questioned, Mr. Brown, then resigned his office and was appointed State's Attorney by the Supervisors of Moultrie County until the next general election as the law provides, and he is now State's Attorney by virtue of this appointment.

Mr. Brown is now asking the voters of Moultrie County to reelect him as State's Attorney, that he may serve the balaxice of his term, which is two years. He feels that his record for the past two years should be considered and that his experience in the office and acquaintance with the important cases now pending will be of great value to the people of Moultrie County and would appreciate your vote on November 2nd. tot vol 6 or

ALLENVILLE CHRISTIAN **CHURCH NOTES** FIRST CHRISTIAN CHURCH

George M. Anderson, Minister. Maude Adams, a social worker of ational reputation has said, "A national reputation has said, "A fession at the morning service. In girl cannot meet this world without the afternoon a baptismal service a definite religious and home training".

The sermon subject for next Sunday evening will be "Overcoming (or overtaking) Evil." Regular church attendance may not be the most pleasant thing a person can do on Sunday, nevertheless there is a great deal of satisfaction that comes to the church goers in knowing that they have done their bit to influence the community for God and righteousness. If Godliness and righteousness can exist without the church then of course the church is not necessary.

Next Sunday morning your pastor will give the second of a series of sermons from the Epistle to the Philippians. It is suggested that those who are interested in these sermons, read a part or all of this Epistle. You might also time yourselves in reading the whole Epistle. An in-quiry might be made next Sunday morning as to how many have read part or all and how long it took you

to read the entire Epistle. "What you are not up on you're usually down on." "If the shoe pinches, it may be because you need a better soul." Bible School each Sunday morn-

D. A. MacLeod, Pastor Regular service next Lord's Day. May we bear in mind that this is the Lord's service and that we do Him honor and reverence by our presence; that we acknowledge our gratitude and allegiance to Him by the service we seek to render in this

We do well to lay aside the labor of the day for a little while and con-centrate our thoughts upon things that are above the material. There is a realm higher than the naked eye can see. We need to focus the eye of faith upon things spiritual, to realize the greatest sense of our own realize the greatest sense of our own being and what is the great reality in life. An hour of true worship helps us thus to do, even in the busy activ-ity of life. ity of life.

Please bear in mind the Bible study before the morning service. This study should bring us into the better frame of mind for the services of the day. Morning subject, "The Universal Appeal of Jesus". Evening subject, "Samuel in the Making".

COUNTY JUDGE Probate Court is opened at all times and there is no assistant authorized in law to act for the Judge. The duties can best be administered by the presence in person, found at the office in the court house and not in some private office mingled with other business; moreover unlike other Judges, the presence of the County Judge is

required in his court from early morning until late in the day. There are probate judges in the state serving more than twentyfive years-the people having the benefit of their experience and efficiency in their supervision of the duties peculiar to that office as to protection of estates and trusts relative to making reports-examination of bonds and matters arising and extending over many years. Many matters continue before the County Court for five, ten or even fifteen or twenty years, familiarity with the history of these matters is a great assistance to the Judge.

A judicial office should not be held by a practitioner, some of the best judges on the higher benches have never been practitioners. One accustomed to entering security bonds, receiving attorney fees, acting as guardian, conservator or acting as agent for minors or incompetents in estates or as subscribing witness to a will or in partition suits where interests of minors are involved, cannot in many such cases be a disinterested Judge (or exemplify the part of the blind goddess in the scale of justice) but will be compelled to call an outside Judge to preside at the hearing at an extra expense of ten dollars per day to the county. I am a candidate on the Democratic ticket for Treasurer of Moultrie County.

I served one term in this office from 1910 to 1914 since which time I have been engaged in farming in East Nelson township, where I have lived practically all of my life.

On the basis of past service which seems to have met with the satisfaction of all concerned, I respectfully ask the people of Moultrie County for another term in that office.

Any assistance in speaking a good word in my behalf during the campaign, and your vote on election day, will be appreciated.

To the People of **Moultrie County**

On November 2nd you will chose your sheriff for the next four years. I am the Democratic candidate for that office.

My past service in this county is an open book. I have filled this office twice and even those who oppose me now cannot find any flaw in the record.

I am attacked on account of age. My age is not such as will interfere with my faithful performance of the duties of the office of sheriff. Look over the record of Moultrie county sheriffs and you will find several that were older when in office than I am.

Another matter which is causing some who are not friendly to me some concern is the matter of who will be my deputy. I have promised this position to no one. I will not do so. The only promise I have to make to the voters is that no one now connected with the sheriff's office will be my deputy. It is my intention to select some young democrat, who has never been connected with the sheriff's office or with any county office, as my deputy. Who that will be I have not yet decided. He will be a man of family who can move into the jail dwelling and I will board with them.

I know that I can serve this county as sheriff satisfactorily and well. I know the duties of the office and I know I can perform them. I will give you the same service as I did in past years.

On that basis, I respectfully solicit your support before the election and your votes on election day.
