COOLIDGE VS. LOWDEN. "PROSPERITY" VS. THE FARMER

Pick up any big city newspaper nowadays that is friendly to President Coolidge and his administration, and somewhere you will see mention of the wonderful prosperity which this country enjoys.

You will see the propaganda of tax reduction, whereby Secretary Mellon and President Cal plan to return some of the income tax which was paid the past year.

You are told that the country is prosperous and that the prosperity which we "enjoy" is due to the wisdom of Mellon and Coolidge.

How do you like all that bunk, when you think of 50c corn?

Do you see any great signs of prosperity hereabouts?

Last Spring a Republican President and a Republican Congress had the opportunity of doing something for the farmers. They turned down flat all proposed legislation which looked toward farm relief.

High protective tariff makes the Eastern manufacturers prosperous. It shuts off competition and gives the power to this privileged class to sting the farmer for anything he has to buy. The Republican party stands pat against any change in the tariff. The farm relief legislation proposed would, in a way, have applied the tariff protection principle to the farmers troubles, to his benefit.

The corn harvest is here. The crop has been raised under discouraging and heart-breaking conditions. The farmer now wallows through the mud and shucks his crop. The selling price ranges from 40c to 52c. The average yield, even here in the black cornbelt will be only about 40 bushels per acre. The price for corn is less than the cost of production, not counting the producer's work.

And still the capitalistic Coolidge administration keeps spreading its "prosperity" bunk.

Calvin Coolidge will doubtless seek re-nomination and re-election. Are the farmers going to stand for it? Like slaves, bound with the party chain, will they swallow all of the bunk which the so-called "independent" papers and magazines are handing out?

"Independent" publishers often deride papers who hold firmly to party principles. Like a common street-corner prostitute these "independent" magazines, and small-town parrots, are ready to sell what influence, principle and virtue they may have to the highest bidder. The pay may be an advertising contract, or printing job, or in the case of the bigger fellows, tariff favors and big boodle.

Republican farmers in Illinois are seriously considering breaking away from the Coolidge fantasy. They see Coolidge as a false alarm, a never-was, who got into office because the people thought he was what he never has been.

Frank O. Lowden is a prospective candidate for the presidency. The agricultural states, middle West, West and South are being permeated with the Lowden-for-President sentiment.

Frank O. Lowden would have been nominated in 1920 if some of his workers had not made the mistake of dealing with the wrong bunch of crooks down in Missouri and started a convention scandal. As a result Warren Gamaliel Harding was nominated and elected and his friends and advisers started stealing everything they could get their hands on, and broke the old man's heart. Death came to relieve him before the perfidy of Daugherty, Fall, Doheny and the rest of that salacious crowd, was fully exposed.

When the pre-convention campaign gets under way, there will be Coolidge with his "prosperity and tax reduction" bunk. Frank O. Lowden will have something more substantial to offer in the way of proposed farm relief.

A convention between Southern and Northern farmers was held recently at St. Louis. Out of this convention the following plan for farm relief was evolved. On it will doubtless be based the Lowden candidacy and it will be known as the "Lowden Plan":

- 1. A temporary unneeded surplus breaks the price of the entire crop.
- 2. Public welfare demands the temporary segregation of such surplus.

3. A government revolving fund is needed for this purpose.

4. The surplus should be handled by co-operatives under the jurisdiction of a competent federal farm board.

5. The cost of handling the surplus should be charged against all growers of that particular commodity.

On that sound economic ground American farmers have taken their stand, and their forces will grow in strength until victory is achieved.

THE TRICKY MAN

A man of our acquaintance recently made a sum of money by edging a life-long friend into a corner and tricking him. He didn't take the money at the point of a gun, but he robbed his friend just the same. Shrewdness and trickery may easily win for a time, but in the end a man will not get far unless he is honest, dependable and trustworthy. Persistence, determination, backbone, are necessary to success. A man must believe in himself if he would succeed. He cannot believe in himself after he has profited by an unfair deal. "A good name is rather to be chosen than great riches." If you have wronged a man you cannot look him in the eye and if you cannot look people straight in the eye they soon learn to look upon you as a crook. No crook was ever happy or contented or respected.

Shrewdness and trickery may win an immediate reward, but the square-shooter gets the most game in the long run.—Shelby County Leader.

DR. FRANK CRANE SAYS

THE WORLD GOES ON

A scientist tells us that the world will not end for at least 999,998,000,000 years.

So it appears that there will be time for a number of generations to carry on the accumulated knowledge and folly of their fathers and to make experiments of their own—the sum of which process is known as progress.

Whether the scientific gentlemen may be mistaken a few months one way or the other does not much matter.

The importance of the statement lies in its psychological effect.

The idea that the world will spin on, bearing countless generations of changing men, is in itself a stimulating one.

The old conception of a world that would end in a few years was a paralyzing one.

If the world would surely end in a short time, men of former times asked themselves, why keep any accurate record of history? Why carry on extensive scientific experiments? Why bother about changing social conditions greatly? Why begin long-time projects of improvement when there would be no time to complete them?

The idea that the world will go, to all practical purposes, forever, tends to turn men's minds to the problems of making it a better place to live in.

It will force them to face the problems of getting along amicably with one another, which means the elimination of war.

It will force them to turn their attention toward the combating of disease and the installing of new sanitary improvements to safeguard health.

The same scientist says the earth has been in existence about two trillion years, or something like one-five hundred thousandth of the length of time it will continue beyond us.

This makes us realize that civilization is just beginning, that mankind is taking the first faltering steps on a long career.

It mitigates the despair occasioned by the childmindedness of the crowd, the lack of progress in mankind and the insanity of the late war.

The idea that the world will continue indefinitely is humbling, stimulating and encouraging.

It may inspire awe, but it will never stifle into stagnation as did the conception of the world as a temporary thing in which the end was eternally imminent.

WAR WITH MEXICO

In spite of the war to end war, in spite of the Christian spirit that ought to prevail in this Thanksgiving and Yuletide season, there is talk of war between our own country and Mexico.

Diplomatic relations between the two countries are liable to be severed at any time, so delicate the situation, and so strained the relations.

What are they going to fight about?

Nobody knows.

Who will have to pay the cost of war?

The people, both in blood and money.

Who makes and declares war?

Never the people.

Always the rulers.

We will be made wild and blood-thirsty through mendacious and exaggerated propaganda, skillfully disseminated and scientifically planted.

If we are going to lick Mexico, let's do it quickly, in the interest of mercy and humanity, and then, for the sake of future peace, annex the country from the Central American state lines to the Rio Grande.

Through our process of benevolent assimilation, tried and proved in the Philippines, we can eventually civilize and Christianize the Mexicans, Aztecs, Indians, Greasers, rebels and all.—Belleville News-Democrat.

WHEN S. O. GETS BUSY. LAFAYETTE YOUNG. DRINK AND LIVE—OR DIE? CHINESE PUNISHMENT.

A flaming, bursting volcano on an uninhabited island in the Caspian Sea terrifies the inhabitants of Baku. It shook the land all about, changing the night's dark clouds into flaming color.

Gradually the superstitious inhabitants will get over the shock and forget it.

And by this time, probably, agents of Mr. Rockefeller's Standard Oil have been instructed to stake out claims on what is left of that island. The Standard Oil men read in the paper, "Eruptions from the volcano consisted of great columns of oil-soaked earth, accompanied by sheets of flame 300 feet high."

The passing of Senator Lafayette Young, of the Des Moines CAPITAL, following closely upon the death of Colonel Nelson of the Kansas City Star, Frank A. Munsey of the New York Sun, and Victor Lawson, of the Chicago Daily News, is a loss to sincere and useful newspaper work in the United States.

Lafayette Young devoted his life and all his energy to the welfare of his State and his nation, and both will miss a courageous and able man.

The recent death of Houdini puzzles Conan Doyle because Houdini never drank, never smoked. Some doctors would say that helps explain his death. Able men told E. H. Hariman he would have lived a longer life had he drunk light beer, and relaxed.

They even say that teetotalism is safe only for those that do very little thinking, and do that little gently.

That's a terrible insult to prohibition and ice water, but that is what able scientists say. They say also, by the way, that a sure path to early death is bootleg whiskey.

One-sixth of an inch yearly seems small. But that would be a foot and a half every century, and with such a sinking Pike's Peak would be below the Atlantic Ocean in much less time than it took the horse to change to a one-toed animal.

Dr. Milliken says science and feeble human imagination can form no conception of the universe. That is easy to believe.

When Professor Michelson of Chicago University, a great scientist, was asked, "Do you think I might by careful study get some idea of modern mathematics?" he replied with characteristic modesty, "You might; but I can't understand it."

All we know is that it is a very big universe, and that we are small microbes on a little grain of sand. Nevertheless, we have a right to be proud, if only because we can actually think about it and try to understand it.

The Chinese have found it necessary in some places to revive ancient methods of punishment. One, most unpleasant, increases the criminal's ears to a gigantic size. Six arrows are pushed through each ear, and left there for days. When they fall out, his ears are enormous. That helps the public to identify criminals.

They had another unpleasant punishment in the days of the Empire. The criminal was stretched out and sawed in two lengthwise. That has not yet been revived.

The wise deplore smoking by women, at least until they finish having children. Hitherto men have done the foolish thing, women have been wise, and children have had at least half a chance.

But, after all, it is the individual woman's business to decide about smoking.

1926 Again Chevrolet's Greatest Year

In 1925 Chevrolet astonished the automotive world by attaining an annual production never before reached by any manufacturer of gearshift automobiles.

Thus, for two years in succession, Chevrolet has broken all its previous records and has set a new mark in automotive history.

This splendid achievement results from a steadfast adherence to the fundamental Chevrolet policy of building a car of the finest possible quality to sell at a low price.

That the vast majority of buyers now demand a car of this type—and that Chevrolet has been successful in building such a car—possessing the highest degree of smooth performance, smart appearance, and economical operation—is proved by Chevrolet's success during the year now drawing to a close.

THANKSGIVING AND

BIRTHDAY CELEBRATION

Mr. and Mrs. Thurman Campbell entertained at six o'clock dinner on Thanksgiving the following guests: Mr. and Mrs. J. F. Craft, Orville Craft and wife and daughter June; Alfred Daum, wife and son Junior; Mr. and Mrs. Thurman Campbell and

daughter Elsie Mae. The occasion was a celebration of the birthday of Mrs. Campbell's mother, Mrs. J. F. Craft.

Herman A. Seelow at Eureka Plans to be Missionary; is Former S. T. H. S. Student

Some years ago a young lad attended the local High School two terms. He then went to Shelbyville, which was nearer his place of residence, and graduated from there.

The lad's name was Herman A. Seelow. He was one of two sons of a German widowed mother, who had married a man named Reed. Among young Seelow's friends here was Mrs. America D. Lilly. He is now a student at Eureka College and has written Mrs. Lilly the following letter, which through her courtesies, we are permitted to publish as Herman's many friends will be pleased to know that he is doing well.

"Eureka, Ill., Nov. 25, 1926
"Mrs. America D. Lilly,
"Sullivan, Illinois.

"My dear Aunt:
"It has indeed been some time since I have heard from you.

"I am still at Eureka attending college and I will take my degree in the Spring of '29'. I was in Eureka all the time last vacation, except for ten days when I was home recovering from a tonsil operation.

"I am first assistant fireman at the college heating plant. I make almost enough money at this to meet my expenses. I will practically finish my work in the Bible department this year. I will then turn to Science, Philosophy and Psychology, taking also some Social Science. I am doing good work in spite of some of the handicaps I have, the greatest of these being the time it takes to keep house and cook. I and Rev. Irwin Barclay, another ministerial student from Bloomington, rented a two-room house and batch. He graduates this year.

"I have completed my English course and will finish my Greek this year. I may study Hebrew at the U. of Chicago when I take my A. M. degree or get Hebrew while I am at Harvard. You might be surprised, but I am only 26 and beginning to get bald-headed.
"I am not preaching and will not until my senior year, unless I change my plans as I make good money here and am not away from home week ends.

"We had a big snow with us for almost two weeks. It is just leaving. I enjoy my school work much; more than I did last year. Each year seems to be many times better than the year before.

"I recall with pleasure the many kindness shown me in Sullivan and the happy times I spent in the high school, especially under the untiring efforts of Prof. T. H. Finley and the two great and good instructors, Miss Olive Martin and dear Charlotte Baker. They were no respecters of person, my shabby appearance and unprepossessing and awkward ways did not deter them from bestowing unparalleled attention upon me.

"When I think of the Christian church in Sullivan I recall the good things given me by Rev. Hopper and many others and there is a sacredness stamped in my heart when I recall the pulpit there for it was there I gave my heart and life to the All-Wise being, the Creator of all.

"A penniless boy, I started for what I hardly knew or realized, but planned to get all I could in Eureka, then a time in Chicago and finally after receiving my A. M. go to Harvard and if I can still add rounds to my ladder, I hope to be a great missionary in a foreign field, doing my part in winning the world for Christ.

"Many look with burdensome eyes on contribution to the support of Eureka College, but if they knew what it does for such boys as I, they would never regret us assistance.

"As I look over my life, I sometimes try to discover what inspired me to be a minister and a great scholar. The most persuasive things

I am proud to say, are the impressions Mr. Reed (his step-father) has left upon me. He married mother, cared for us two fatherless boy and today he can say 'I have given to the world a minister, a lover of all humanity.'

"I can never repay Mr. Reed, yet I will see to it that his two boys have a college education and university training if they want it. Lincoln, a motherless boy, saved a nation. I can see no reason why I, with just as good an opportunity, cannot reveal to humanity God through Jesus Christ. I have chosen the task and death alone can turn me aside.
"I remain your nephew,
"Rev. Herman A. Seelow."

CHURCH NOTES

ALLENVILLE CHRISTIAN CHURCH

Next Sunday morning the subject will be "Bewitched From Christ."

In the evening we will bring a message on "Conversion of Cornelious." While the attendance at the services are good, yet there are many people in the community who do not attend service at any church. There are a number of children who should be in some Bible school.

The members of the church should do some personal work. Invite these people to our services. We will do them good.

BRETHREN ASSEMBLY

A. J. Burville, Pastor.
Sunday School at 9:30 a. m.
Bible study and communion at 11:00 a. m.
Christian Endeavor at 6:30 p. m. Subject, "The names of Satan".
Please remember our prayer meeting on Tuesday night instead of Wednesday and the Bible class at the home on Thursday night instead of Friday night.

Our quarters in the Terrace block are cozy and warm. We are having it papered. We invite all of God's people. The neighborhood is a quiet and peaceable one.

METHODIST EPISCOPAL CHURCH

C. D. Robertson, Pastor.
Sunday School is at 9:30 a. m. every Sunday morning, and there is room and welcome and profit for all who will come. Hugh Murray is superintendent and there are associated with him a corps of efficient teachers and also officers to say nothing of the home-like feeling which makes this the church where there are no strangers.
Morning worship at 10:45 a. m., with sermon by the pastor, and good music.

Junior League at 2:30 p. m.
Epworth League devotional at 6:30 p. m. This is Epworth Herald Day, and the League will present a playlet at the devotional meeting which demonstrates something of the nature and value of the Herald.
Evening worship at 7:30 p. m. in charge of the pastor.
Prayer meeting every Wednesday evening at 7:30.

CHURCH OF GOD

Pastor, A. L. Childress
Sunday School 9:45 a. m.
Preaching service 11:00 a. m.
Preaching service 7:00 p. m.
Wednesday evening prayer meeting at 7 o'clock. Cottage prayer meeting will be at the home of T. A. Reedy in the north part of town.
God is still on his throne and hears and answers prayer. He is blessing our efforts in the services from time to time. As we look back about a year ago and view our work, we can truly say it is marvelous what God has done since that time.

Especially our Sunday School which has grown so much both in numbers and interest. We are to be

gin our revival December 10th to continue indefinitely.

Rev. J. C. and Edith Millsbaugh, who reside here, but are at present in the evangelistic work elsewhere, will conduct the revival. There will probably be other gospel workers and singers present. All are invited to attend.

PRESBYTERIAN CHURCH

Time flies, whether we will it or not, and we are now marking time in the last month of 1926. The thought is, are we keeping peace with the passing day, making real progress, and true development with the light of every new day and every new date in the passing year. Time goes like the electric flash, and if we waste it foolishly today it will waste us tomorrow. The today of life is ours. We cannot well live in the golden days of yesterday, for our today is so full that if we are awake we will find enough to keep us busy. The present is ours, the future lies before us, the past is but a memory. But the past has made for the present, and the present is bound to make for the future. The harvest gathered tells of the seed, and the fruit picked spells of the tree. Seed, soil and harvest counts, and speaks of life, in every sphere. What of it, in your life and mine?

Subjects: Sunday morning, "The Tree and the Fruit".
Sunday evening, "Fragments"

Debt Drive Over the Top.

About two weeks ago the church finance committee started out to raise \$1200 which was the total church indebtedness. The drive is not yet completed but they have already surpassed their goal about \$300. Carl R. Hill, chairman of the committee, began raising this amount by calling for special donations at the close of the church services two weeks ago. He met with a very liberal response and donations have been coming in regularly since the drive began. Another report will be given at the close of the services next Sunday morning.

Organizations Make Special Donations
The Ladies Aid was first with a liberal contribution of \$50; Then came the Loyal Women's class with a

\$20 donation toward the church debt. The Christian Endeavor Society came third with an offering of \$5. Last but not least, the Loyal Daughters came to the rescue with an offering of \$500. This liberal response has been an encouragement to the whole church and we are all happy to know that we will end this year's work with a little balance in the treasury. Thanks is due the finance committee and any and all who had anything to do with this special drive.

Devore Family Receives Honor.

W. E. Devore and family received the honor last Sunday morning in Bible School for having the largest 100% family present.

President Wilson has said, "No study is more important than the study of the Bible. There is no more effective agency for such study than the Sunday School."

John Wanamaker: "I know no other work that begins to compare in results with that attained by the Sunday School."

The Bible School is the best place for the whole family on Sunday morning.

Read the third chapter of Philipian this week. The sermon subject next Sunday morning will be "Jesus, the Goal of Life."

"Family Quarrels" sermon subject Sunday night 7:30 o'clock.

GOSPEL MISSION

H. H. Smith, Supt.
9:30 a. m. Sunday School
11:00 a. m. Morning worship
6:30 p. m. Young Peoples service.

7:30 p. m. Evangelistic services.
7:30 p. m. Tuesday evening, cottage prayer meeting and Thursday evening, prayer meeting at hall.

On Sunday evening we enjoyed very much the preachers message from the text, "Judge Not That Ye Be Not Judged". We liked it because of the truth of it, and that it reached us right where we live. So often, we are inclined to say "It was a good message, and didn't it hit Mr. So and So, or I hope Mrs. So and So will profit by it." Not so, that was not why we liked it, but we liked it because it hit us. The medicine prescribed for me, will never reach the diseased parts, if I pass it on for some one else to take.

Now I wonder if that is the reason so many of us are so often spiritually sick. It is not the drops of rain falling in the adjoining field that create the moisture that causes the grain of wheat to spring into new life and bring forth fruit, but it is those drops which fall directly onto the grain and are appropriated unto itself. And by the way, the process through which

the grain of wheat goes through previous to new life, is not very picturesque, but that which comes forth in newness of life is very beautiful. Now apply this to your own death and decay to things of the world, the picture is much the same.

—Rev. Burville and family spent Thanksgiving Day at the home of Mrs. Frank Cole, Anderson street.

—Born to Mr. and Mrs. Roy E. Algood, a son, Robert Eugene. * This is their second child and second son.

TWO FORMER NEIGHBORS MEET AND DISCUSS MATTERS
(Contributed)

Two former neighbors who had not heard from each other for a number of years, met on the streets of Sullivan one day last week.

Their names were Hiram Smith and John Jones. On talking a few minutes they found that they lived within a few miles of each other. In recalling old times they chanced to speak of a little school district not many miles distant.

Smith said to Jones: "Remember old Minor?"

"Sure I do," said Jones. "Does So and So still live there?" "They sure do," said Smith. "Have you heard about the Minor P. T. A.?" "No." "You haven't? I'm surprised. My! you must come out and renew old acquaintances, and attend our meeting. We just organized last Spring. Just held two meetings that spring and say! We sure are making things hum. We now have a piano in our school house. And of all the music, you should hear it! We had a splendid program last Spring and had some fine music. And now that we have our piano we are going to beat that yet. The district and P. T. A. united in getting the piano, so that it will be the property of the Minor school."

"And I want you to know, the fathers as well as the mothers and elder sons and daughters are interested. And say, we joined the State Association and sent four delegates and our president, Mrs. Walter Purvis, to the convention at Neoga, November 15.

"We were the most recently organized and also the best represented and went the farthest to attend the convention of any P. T. A. represented there. Of which we are justly proud. Mr. V. Campbell represented the fathers. We are sure working, and the co-operation can't be beat."

"Two other schools are becoming interested and should they affiliate with us we could be known as the 'Triple M. T. A.' and then we can put on a program that will be well worth the effort to put on as well as to attend. And listen, we have a splendid program for December 8. Wait a minute, I believe I have a copy of it in my pocket. I'm on my way to present it to The Sullivan Progress. I'll just read it to you. If you can't remember what's on, you'll find it in the county papers."

"We may also have our District Regional Director, Mrs. George Rudy of Mattoon, with us. Don't you like the sound of that program?"

Jones, "I sure do."

Smith: "Fine! Be sure to tell all your neighbors, as we appreciate good crowds and good attention out there. And please tell every one they have a cordial invitation to come and bring some one else. Remember the date, December 8 at 7:30 p. m. prompt, rain or shine. Come early so you can get a seat. Well, I must travel one. So-long, hope to see you and your family at Minor P. T. A. Dec. 8th, 7:30 p. m."

The invitation is to you, readers of The Sullivan Progress.

—Mrs. Angeline Wright, son Ed Wright of Norwood, N. Y. went to Altamont Tuesday where they visited Mrs. Wright's daughter Mrs. Ray. Mrs. Homer Wright accompanied them and spent the day with relatives at Vandalia.

Everybody Is Helped
Everybody Should Help

Tuberculosis in this country is a threat against your health and that of your family. There are more than a million cases in this country today.

The germ from a single case of tuberculosis can infect whole families. No one is immune. The only sure way is to stamp out the dreaded disease entirely. **IT CAN BE STAMPED OUT.** The organized work of the tuberculosis crusade has already cut the death rate in half. This work is financed by the sale of the Christmas Seals.

Everybody is helped by this great work—and everybody should help in it. Let every member of your family stamp all Christmas Seals, letters and greeting cards with these able little warriors against disease. Everybody, everywhere, buy **CHRISTMAS SEALS**—and buy as many as you can.

FATHER-SONS BANQUET AT JNO. CREEK A SUCCESS

Jonathan Creek church was the scene of a very enjoyable gathering and banquet on Thanksgiving eve. The occasion was a Father-Sons banquet which was served by the ladies of the church. Two tables, the entire length of the church auditorium, were filled with good things to eat to which the dads and lads did full justice.

Special music of the "pep" variety had been arranged and added much to the general good feeling that prevailed. Mrs. John Dolan was in charge of the music.

John Dolan presided as toastmaster. Among the speakers were Rev. Earl Clark of Bethany, who spoke on the work of young people in religious matters. Ed C. Brandenburg spoke on the duties of parents in co-operation with their children in Sunday School and church work.

After the close of the program a social hour was spent by all present.

The oldest man present was Asa Johnson, who observed his 89th birthday Sept. 12th. The youngest lad was David Purvis, 10 months old.

Among the U. of I. students who spent the Thanksgiving holidays here were: Keith Grigsby and Fred Reese.

JUST LIKE A MAN

"My husband suffered for several years with stomach trouble. He often had colic attacks that put him to bed. But a man can't stand the pains that a woman can. He thought he was going to die and the doctor's didn't seem to help him any. Like a drowning man grasping for a straw he tried MAYER'S, which a nurse told us about, and now he is entirely well and eats anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by druggists everywhere.

A LESSON FROM THE HEN

When a hen lays an egg, she cackles---and thus she advertises her achievement to the world.

Sullivan can take a lesson from the hen. For Sullivan has many achievements to her credit---but sometimes that we do not cackle enough.

Are we "hiding our light under a bushel" --- are we failing to proclaim our achievements to the world?

Look around you. See Sullivan's splendid churches and schools, her delightful streets, her public improvements, her beautiful homes, the contentment which prevails here.

Have we told the outside world about these things? Just in proportion as we do this will others want to come here, and will Sullivan flourish and prosper.

No letter should ever go out of Sullivan without some good word about the city. No visitor should ever depart without feeling that he is leaving the best town in the state.

It's a job for all of us --- our newspapers, our merchants, our professional men, ourselves as individuals -- to let others know what we think of Sullivan

Do this long enough, and often enough, and Sullivan will be known throughout the length and breadth of the land.

MUSIC NOTES

A Christmas cantata, under the supervision of Mrs. Roney, will be given in the High School Auditorium, Thursday, December 10th at 8 o'clock.

A concert by the Band will also be given at the same time. The program consists of the cantata, the concert and two readings.

The soloists for the entertainment are as follows: William Heacock, Paul Harshman, Rose Eden Martin, Ruth Pifer and Agnes Wright. Meda Harris and Eileen Hagerman will sing a duet and Evalyn Finley, Alice Harris, Lloyd Brown and William Dedman will sing in a quartet.

The public is cordially invited to attend this entertainment as the money received will help pay for the band uniforms which have been bought recently.

ATHLETIC NOTES

Sullivan High School finished one of the largest seasons of football ever played by Sullivan teams. Having lost but two games, tied three and won six. Sullivan had one of the lightest teams in this part of the state, averaging about 140 pounds.

We are sorry to lose Captain Colie Baker, quarter back "Red" Hoskins, full back Herman Martin and tackle Bill Dedman, but we feel that we have some men who have acted as understudies for them, will be able to give good account of themselves next year.

Due to the faithful coaching of Mr. Dennis and the hard practice of the players, we feel that the season has been exceptionally successful. Since we started the season with two letter men and lost one of those at a critical time just before the Arthur game.

The first official practice started Monday night for basketball. The squad consist of about twenty men who have been working hard this week.

"California Fig Syrup" is Children's Harmless Laxative

Children love the pleasant taste of "California Fig Syrup" and gladly take it even when bilious, feverish, sick, or constipated. No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels without cramping or overacting. Contains no narcotics or soothing drugs.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup

The Value of Good Service

The remarkable improvement that has been effected in the efficiency and economy of railway operations has exerted a great beneficial influence upon the economic life of the country. In support of that view we have the well-informed testimony of the Secretary of Commerce, Mr. Hoover. In his recent annual report upon commercial conditions in the United States, Secretary Hoover made the following statements with respect to railway service:

"Probably the most outstanding single industrial accomplishment since the war has been the reorganization of our American railroads. Our transportation not only was demoralized by government operation during the war but had suffered chronic shortages and insufficient service, not only after the war but for many years before. The annual loss from this periodic strangulation in transportation was estimated in the department's annual report of 1925 to amount to hundreds of millions a year.

"The railroads during the past five years not only have built up adequate service and given a complete correction to these ills, but they have, by great ability of their managers, greatly reduced transportation costs and thus made rate reductions possible which would not have been otherwise the case."

These accomplishments are a matter of record. For example, in the year ended June 30, 1926, the railroads handled more loaded freight cars, carried more tons in the average freight train, moved freight cars more miles per day, performed more freight service per employe and received a smaller average revenue per ton-mile of freight service than in any of the five fiscal years preceding.

The result of this great improvement upon the whole economic fabric of the country has been far-reaching. It has stabilized and increased the efficiency of all production and distribution.

A share of the credit for improved railway conditions belongs to the splendid co-operation between the various industries and the railroads. Outstanding examples of this co-operation are the regional advisory boards, composed of shippers and receivers of freight, which help the railroads to forecast traffic conditions and to obtain more efficient use of their facilities.

If the railroads are to continue to provide good service, with its beneficial effects upon all production and distribution, there must be a continuance of conditions favorable to successful railway operation. The railroads as a whole must be allowed to realize net earnings sufficient to safeguard their credit and to make possible the further expansion of their facilities. The difference between good service and poor service is nothing more nor less than the difference between adequate and inadequate railway net earnings. Good service is worth many times its cost.

Constructive criticism and suggestions are invited.

L. A. DOWNS,
President, Illinois Central System.
CHICAGO, December 1, 1926.

GENERAL NEWS

There was no school last Thursday and Friday because of Thanksgiving. The teachers all enjoyed their vacations away from Sullivan.

Some new rules took effect Monday, depriving us of many privileges we have enjoyed in the past. A brief summary of them are as follows:

1. We must leave the assembly hall only by the slide, or with a written consent of a teacher. This excuse will be given if the teacher deems it necessary.
2. All things, like getting books from the library and securing excuses from the teachers must be done during the four minute intermissions between classes.
3. If late to an assembly study period an excuse must be secured from the teacher that detained you.
4. Excuses for the first hour and the music period will be furnished at the office.
5. In the past years and up until this Monday, the time limit for speaking in the assembly was five minutes but it has been lowered to two minutes and also there can be but two people speak at the same time.

CLASS NOTES

The Freshman class is starting the "Last of the Mohegans."

No Engine Fumes in Buick Closed Cars!

In the 1927 Buick, the new Vacuum Ventilator pulls engine fumes and gases from the crankcase and ejects them outside the car.

This vital new Buick improvement does away with noxious odors. It adds greater luxury and pleasure to enclosed car operation.

The Vacuum Ventilator serves another very important purpose. With it, crankcase vapors have no opportunity to condense and dilute the oil. Owners of 1927 Buicks are advised to drain their crankcase oil only 4 times during the year.

For luxury, and for economy, own a Buick.
