## Community Club Urges Early Action on Rt. 132 Sullivan to Bethany

Resolution Endorsing Plan Suggested by The Progress Passed Unanimously. Reported That Highway Department Will Not Give Consideration to Routes Where Location Is In Controversy. Other Interesting Business Before the Club.

The Sullivan Community club after a discussion at its meeting Monday night, relative to the matter of Route 132, passed a resolution urging action on that part of this route from Sullivan to Bethany. The resolution as passed appears on this page and copies of it have been forwarded to the highway department officials and legislators from this district.

It was specifically stated that Sullivan has no preference as to where this part of route 132 is located, but urges that the state make a survey and designate the location so work can be started toward getting the necessary right of way.

There was a general disposition to keep away from the fight which is being waged by Bethany to have route 132 located west

## Electric Rates in Sullivan Undergo Voluntary Reduction

Council Acts on Recommendation of Supt. Cunningham and Makes Cut. Financial Matters Undergo Clarification.

Electric current used in heating and cooking and refrigerating will be cheaper in Sullivan in the future. This reduction is provided for in an ordinance passed by the city council Monday night. The business of the municipal light plant is running along in fine shape and all obligations are being met promptly. This made the reduction possible.

The ordinance as passed appears in full on page 5 of this issue.

The old rate on this class of current was 5c per KWH for the first 50 and then the rate was 4c per KWH.

The new rate is 5c per KWH for the first 35 and then the rate drops to 3c. The reduction amounts to practically 25% on this class of service.

The Patterson administration will end about May 10th. In order to clear the decks for the incoming McFerrin administration a financial house-cleaning was instituted at Monday night's meeting. For a number of years warrants have been issued on certain funds to be paid into other city funds. The funds on which the warrants were issued were not always able to liquidate. As the indebtedness was simply an interchange between the various funds, it has been found advisable to call in all such outstanding vouchers and instruct the City Clerk to cancel them.

Through this action a lot of deadwood will be eliminated and the whole matter will be placed on a common sense businesslike basis. The biggest part of these outstanding vouchers had been issued in favor of the light plant and against the city lighting fund. They were what the city paid itself for lighting the streets with its own light plant.

Among other matters taken up at Monday night's council meeting was granting W. H. Walker permission to construct a driveway at the new filling and service station which he is erecting at the corner of Main and Jackson streets. The Coventry cigarette license was transferred to V. L. Benson the new cafe owner.

The matter of dispensing with watchmen at the crossings on Harrison and Jackson streets which has been pending for some time was again brought to the fore when representatives of the C. & E. I. appeared before the council to demonstrate the flasher signals which they ask permission to install to take places of the watchmen.

No definite steps were taken relative to this matter and it now goes over to the new administration.

## SUNDAY SCHOOL MEETING

The district and county officers of the Moultrie County Sunday school association will meet at the M. E. church in this city Friday evening, April 19th at 7:30 o'clock.

## Alderman Wolfe Died After Short Illness Wednesday

Council Member from Third Ward Had Given Much Time to Serving City. Was Veteran Thresherman.

Alderman Garrett (Tobe) Wolf died at his home in the southwest part of this city Wednesday morning. He had been ill since Thursday of last week with an attack of erysipelas. He had for some years been a sufferer from kidney disorders. This condition brought on a complication of ailments which resulted in death.

He was a native of Indiana, where he was born April 6th 1858 a son of Anderson and Patsy Wolfe. At the time of his death he was 71 years, 11 days of age. When he was about twelve years of age his parents moved to this community and he has made this his home ever since.

Mr. Wolfe was best known as a thresherman, as was his father before him. He not only followed this work locally but took a great interest in the Illinois Threshermen's Association which he helped to organize and in which he was a director from its inception until the time of his death. He aided in developing the mutual insurance and other beneficial features of this organization.

Some years ago he served several terms as alderman from the second ward in which he then lived. He later moved to the third ward and in 1928 was elected to represent that ward in the city council. His candidacy had the endorsement of the Community Club. He was thoroughly familiar with the affairs of the city and made a competent official.

In 1921 he was united in marriage with Mrs. Edith Blystone who with two stepsons survive him. The boys are Raymond and Ralph Blystone. He had no other near relatives. There are some cousins in the Bozell and Duncan families.

In fraternal matters he was a member of the I. O. O. F. and this lodge will participate in the funeral services.

Funeral services will be held today (Friday) at 2:30 p. m. at Christian church in charge of Rev. Barnett. A quartette consisting of J. Eden Martin, J. B. Martin, D. G. Carmine and O. F. Cochran will sing. The casket bearers will be members of the city council.

Burial will be in Greenhill cemetery.

## CHEVROLET SALES MAY HAVE A NEW BUSINESS MANAGER

Lieutenant P. K. Bryant has been here this week familiarizing himself with the affairs of the Capital Chevrolet Sales, which business is owned by his father J. W. Bryant of Lovington.

Lieut. Bryant and family came to Sullivan for a visit recently. He has been stationed at Honolulu and Panama during the past few years and was on his way to Annapolis and Columbia to take up a post graduate course when with his family, he stopped off in Lovington for a visit.

After arrival in Lovington his father discussed business matters with him and a deal was made whereby he will become manager of the Sullivan business, provided the government will accept his resignation.

Lieut. Bryant has been very successful and has advanced rapidly in government service, but his duties necessitate his absence from his family for months at a time and this has proven very inconvenient.

## ALLENVILLE TEACHERS

Mrs. Mae Frederick and Miss Marguerite Newlin have been re-employed as teachers at the Allenville schools for the next term.

—Paul and Sam Hostetter were Mattoon callers Saturday.

## Lovington Man Chosen to Head County Board

M. E. Foster Rounding Out 14 Years of Service with Chairmanship. Committees Named. Reduce County Veterinarian's Salary.

The Moultrie county board of supervisors organized Friday by electing M. E. Foster of Lovington township chairman. J. L. Mayes acted as temporary chairman. Frank Newbould of Sullivan township placed Foster's name in nomination. Before the meeting opened it was regarded as certain that O. C. Hoskins of Marrowbone township would be placed in nomination, but such action was not taken.

Mr. Foster was elected by acclamation. In taking the chair Mr. Foster stated that he is now serving his 14th year as a member of the board and this will be his third term as chairman. He stated that he would not have accepted the honor, except for the fact that he will retire after his present term.

After a recess the following committees were named for the ensuing year:

Finance—Newbould, Hoskins, Craig and Mayes.  
Officers Reports—Fleming, Edmonds, Craig and Hoskins.  
Purchasing—Dazey, Newbould, Lane and Mayes.  
Co. Claims—Craig, Edmonds, Fleming and Mayes.  
Building and Grands—Lane, Dazey, Newbould and Hoskins.  
Sewerage—Edmonds, Craig, Lane and Hoskins.

Pauper—Newbould, Hoskins, Lane and Dazey.  
Co. Farm—Dazey, Lane, Fleming and Newbould.  
Road and Bridge—Fleming, Hoskins, Craig and Edmonds.  
Hard Road—Mayes, Craig, Newbould and Fleming.  
Co. T. B.—Mayes, Hoskins and Edmonds.

Claims were allowed and routine business transacted. The matter of hiring a county veterinarian for the coming year was not disposed of and now comes to the new committee of which J. L. Mayes is chairman. A motion was made and passed that the salary for this job be reduced to \$3,000, which is less than is now being paid to Dr. Drum who has served two years.

**BOUGHT CORN AT PREMIUM; PAID IT WITH BAD CHECKS**  
Officials are looking for a man named Green, whose home is in Jasper county. He is wanted on a charge of confidence game. Recently Green, accompanied by a named named Tinch, appeared at the L. E. Daily farm in Whitley township. They represented themselves as corn buyers and offered 10c per bushel above the market price. They bought a load and paid for it by check. This check was good.

A few days later they returned for more corn. They had won the confidence of the Daily family by the first transaction and were permitted to haul off ten more loads. They paid for these ten loads by check on a bank at West Libertyville. These checks have proven worthless because of lack of funds to meet them. The total amount is about \$590.

Mr. Daily reported the transaction to Sheriff Lansden's office and a warrant has been issued for Green.

It has not been learned where the corn was marketed nor what became of the money that the two men realized therefor. Tinch is said to be a hired man of Green's.

## CORNELL MAN TO BE LOCAL AGENT FOR WABASH RY.

C. E. Moore of Cornell, Illinois has been appointed agent for the Wabash Railway in this city to succeed the late Arthur Dixon. The station has been in charge of R. Waters of Charleston during Mr. Dixon's illness and he will remain on the job until Mr. Moore comes which will be either May 1st or June 1st. The new agent is a man of family and several of his children are attending school. He does not want to take them out at this time, so if he does come here May 1st the family will not move here until the end of the school term.

Cornell is a small town located on the Forrest to Streator branch of the Wabash.

## LITERARY-MUSICAL CONTEST WINNERS IN STHS TUESDAY

A good audience was in attendance Tuesday night at the Sullivan High School gym to hear the Literary and Musical contest program. The winners of this contest will enter the county contest at Lovington on Friday, April 26th.

The winners of the county contest will compete in the Okaw Valley association contests—Glee clubs and musical at Tuscola May 2nd and Oratorical at Arcola on May 3rd.

Tuesday night's winners were:

## GETTING READY TO ENTERTAIN BANKERS

Local bankers are busily engaged in completing arrangements for the annual meeting of Group 7 of the Illinois Bankers Association to be held here May 13th.

The Merry Wives enjoyed a pot luck dinner at the home of Mrs. Genevieve Lowe Thursday.

## FOUR NEW SCOUTS

Four more boys have joined the Boy Scouts of this city. This brings the total up to 34. The new members are Dean Brackney, Leo Horn, Junior Dixon and Thomas Pickle.

Miss Genevieve Daum of Bloomington spent the week end with relatives.

## Edwin Markham Speaks at High School Saturday

Famous Poet Coming Here Under Auspices of Boy Scout Movement and Net Proceeds of His Lecture Will Be Used for That Purpose.

Boy Scouts are busy selling tickets for admission to the High School auditorium Saturday night at which time Edwin Markham, one of the greatest living poets, will deliver a lecture.

Mr. Markham's lectures are said to be highly entertaining and instructive. He stands high in

Edwin Markham.

the world of letters and on Monday of this week received notice of his election to the American Academy of Arts, the highest honor of its kind that America offers to its literary men.

Among Mr. Markham's most famous productions are "The Man with the Hoe" and a poem on Lincoln which was read at the dedication of the Lincoln monument on the banks of the Potomac at Washington, D. C.

He is coming here under the auspices of the Boy Scout movement and on invitation of Rev. G. V. Herrick the scout master.

At a meeting Tuesday night a campaign of ticket selling was inaugurated and groups of Scouts were placed in charge of members of the Scout committee with instructions to make thorough canvass of the city.

People who buy tickets will not only aid a very meritorious movement but will also have the pleasure of hearing one of the best lectures of the present age.

## RESIDENCE SOLD BY MASTER FOR \$703.50

To settle up the estate of the late Lura Wood, Master in Chancery Cochran on Monday sold the residence property of the deceased for \$703.50. Hagerman and Harsman were the high bidders. The place is located in the southwestern part of the city and consists of a house and outbuildings on 4 lots.

—Rev. and Mrs. G. V. Herrick spent Friday evening in Decatur.

## Citizens Ticket Elected All But One Candidate

R. A. Collins, Independent candidate Defeated Judge Lambrecht for Police Magistrate. McFerrin Will Again Resume Mayor's Chair.

The new mayor of Sullivan will be C. E. McFerrin. He will succeed Attorney C. R. Patterson who has ably served the city for the past four years.

The only upset in Tuesday's election was when R. A. Collins, running as an independent, defeated Judge Lambrecht on the Citizens ticket for the office of police magistrate. The contest between these two candidates brought out a fairly representative vote in what would otherwise have been a quiet election. Judge Lambrecht has served eight years as magistrate and established during that time an excellent record as an impartial and able jurist who decided all matters brought before him without fear or favor.

A number of the younger voters tried to organize a last minute political move with the object of placing Stanley Guyer, local attorney in the mayor's chair. This resulted in 35 votes being cast for Mr. Guyer.

There were a few scattering votes for aldermen but in no case enough to cut any figure.

The unofficial returns of Tuesday's election are as follows:

For Mayor—McFerrin, 1st ward 109, 2nd ward 132 3rd ward 102, total 341.  
Mayor—Stanley Guyer, 1st, 14; 2nd, 12 and 3rd 9, total 35.  
For City Clerk—J. E. Martin, 1st 117; 2nd 133; 3rd 113, total 363.  
Treasurer—A. R. Poland, 1st, 114, 2nd 133; 3rd 112, total 359.  
Police Magistrate—L. Lambrecht, 1st 73; 2nd 86; 3rd 63, total 222.  
R. A. Collins, Ind., 1st 92; 2nd 73; 3rd 68, total 233. Collins' maj. 11.  
For Alderman—1st ward, C. F. McClure 110; second ward, Harry Fulk 136; third ward H. Y. Kingrey 116.  
The total number of votes cast was near 500.

The new officers will take office the early part of May.

Mr. McFerrin will not be new in the office to which he has been chosen, as he filled the unexpired term of the late P. J. Harsh some years ago. He is night operator at the C & E I depot and is president of the Sullivan Building & Loan association. He has also served several terms as alderman.

## HOME TALENT HAS CANDY APPETITE

Both filling stations on Hamilton street near the I. C. Crossing were broken into sometime during the night from Tuesday to Wednesday and candy and pennies were stolen. Entrance to the buildings was effected with use of a small crowbar.

Sheriff Lansden says he is fully aware as to who the yeg-men are and that he traced them to within a short distance of their homes by candy wrappers which were thrown away as the sweets were being eaten.

## SULLIVAN MARKETS

Corn 81c; oats 41c.  
The first 1929 spring chickens reached the local markets this week. Monday Wadley's bought a number of fryers from Jesse Dickens. Several other purchases have been made since that time. The price for chicks weight 1½ lbs. or more is 36c per lb.  
A good run of old hens is also being marketed and the price ranges from 20c to 24c.  
Stags and old roosters are worth 10c per lb., and as the hatching season is almost over on the farm the "swat the rooster" movement has begun.  
Eggs Thursday were worth 22c per doz.  
Butterfat price was 43c per lb.

## Horse Stealing Gets Probationer Into Real Trouble

W. M. Wood Alleged to Have Stolen Horse of E. M. Bailey and Sold It to Wood & Little Who Then Sold it to Lowe Burwell.

Moultrie county has a man in jail who is accused of horse stealing. Automobiles are stolen every day—but stealing a horse in this motor age, is something out of the ordinary.

The accused man is W. M. Wood. The man from whom the horse was stolen is E. M. Bailey who lives east of Lake City.

Mr. Bailey bought this horse at the Ernest Elder sale near Dunn on February 21st. He took him home. On February 27th the horse was gone. A man named Smith brought Mr. Wood and this horse to Sullivan a few days before March 1st. Wood and Little bought the horse from Wood, without having any suspicion that there was anything questionable about the matter. On March 1st at a local combination sale the horse was sold to Lowe Burwell.

Mr. Bailey has been advertising for his horse in the county papers. He thought for a time

## E. O. Swisher Suffers Fatal Heart Attack

Well Known Resident Died Friday Morning. Funeral Services and Burial Held Sunday Afternoon.

E. O. (Kaiser) Swisher, well known resident of Moultrie county, and a veteran of the Spanish American war died at his home in upstairs rooms on the west side of the square early Friday morning.

He had long been in ill health. Thursday night he felt exceptionally good and a number of his friends were visiting with him until about midnight when all went to the Hawbaker Cafe for lunch. Mr. Swisher some years ago worked as night man at hotels and got into the habit of sleeping during the daytime. Mr. Swisher seemed to enjoy his mid-night lunch and returned to his rooms and turned in. Several hours later he suffered an attack of indigestion which resulted in death. His brother Al lived with him. He was not found dead in bed as has been erroneously reported, medical aid having reached him before he expired.

He was a son of Joseph R. and Elizabeth V. Swisher and was born in this city Jan. 9, 1875. At

## ILLINOIS CENTRAL WILL OBJECT TO SCHOOL BOND TAX

Col. J. E. Jennings is preparing a tax objection which the Illinois Central Railroad will file in the county court within the next few days.

The company objects to three items of tax which have been levied against it. The total amount which will go into litigation is \$755.60.

The biggest item is \$384.60 in school district No. 50, which is the Sullivan grade school district. This district levied a certain amount for school purposes, \$7,500 for building purposes and an amount approximating \$5000 for "Bond" purposes. This "Bond" levy is what is being objected to, the railroad claiming that there is no legal authority for making such levy and that all taxes that can be levied by the district must be for school or building purposes.

The same objection is also made to paying \$155.50 in District No. 68 which is the Bethany grade school district.

Another objection which will be filed is against \$214.50 for Dalton City. In making the levy for that village a mistake was made in the wording thereof. This is a technical objection, similar to one raised against Sullivan's levy some years ago.

## AUTO INSPECTORS HERE

A couple of motorcycle cops working for the state were here last week checking up on how the people of this community were abiding by the laws.

Several violators were warned, but no prosecutions are reported.

## RESOLUTION

WHEREAS the people of Sullivan are very anxious that Route 132 be completed without any unnecessary delay, and

WHEREAS there seems to be some difference of opinion as to where this route shall be located from Bethany toward Decatur and it appears that such differences may delay action on that part of Route 132, and

WHEREAS the biggest part of the section of Route 132 from Sullivan northwardly is that part from Sullivan to Bethany, and Sullivan has no preference as to its location, and

WHEREAS the construction at the earliest possible date of that part of Route 132 from Sullivan to Bethany would give to Bethany hard road connection with its county seat and also with Route 32, therefore

BE IT RESOLVED that the Sullivan Community club take up with the proper officials the matter of securing an early location and survey of Route 132 between Sullivan and Bethany to the end that the necessary right of way can be secured with all diligent speed, and

BE IT FURTHER RESOLVED that we invite and urge all who favor the early building of this road to co-operate in securing early and favorable acting looking toward the letting of contracts.

The above resolution was unanimously adopted at a regular meeting of The Sullivan Community Club held at The National Inn Monday night, April 15th, 1929.

## Editorial

A soft answer turneth away wrath; but grievous words stir up anger. 2—the tongue of the wise useth knowledge aright; but the mouth of fools poureth out foolishness.—Prov. 15:1-2.

The first part of my life I spent in joining things; the latter part I am spending in resigning. With the advent of twenty-one years came an access of the fever of belonging. For twenty years I allied myself with organizations of all kinds. \*\*\*\*

Slowly I made the discovery that the average organization is not a means of doing anything, but a substitute for doing. \*\*\*\* The typical lodge member finds in his lodge a substitute for the brotherliness, charity and helpfulness he ought to exert in daily life. \*\*\*\*

Every little group of men who get off in a corner and unite to improve themselves or their fellows eventually becomes a conspiracy against mankind.—Dr. Frank Crane.

### THE FARM RELIEF CONGRESS

All of the help that Congress will give to agriculture will be theoretical. It will be political and designed to make a pretense of fulfilling promises made prior to the November election.

The plans endorsed by farmers' organizations have been shelved. They were too direct. They carried within their makeup the threat of real practical results.

Let us cite a case for illustration: Four men jointly owned a number of farms. Two of these men were practical farmers. The other two were residents of a city, had never farmed and knew very little about the practical side of farming. The two practical farmers had difficulty in making their farms pay. The farms needed drainage; they needed fertilizer; they needed pure bred stock, better fences and a few other things of this kind.

The two farmers could not act to secure these things without the consent of the two city partners. They made their recommendations and appeal for action looking toward the betterment of farm conditions. They suggested a plan whereby the needed improvements could be made and the farms placed on a paying basis. They were dependent on their farms for a living.

The two city partners who had other sources of income, could not see the farmers' side at all. They had plans of their own as to what was wrong. They met and deliberated the matter, then told the farmers: "What you need is the ability to borrow money. We will make that money available. You must use this money to paint your fences white and your barns red. You must sow your roadsides to blue grass and have men keep these roadsides properly mowed. You must bathe your livestock regularly and use only certain prescribed kinds of milk pails. Your hired men must wear striped overalls instead of the plain blue kind and we will have a committee investigate the best kind of straw hats to wear while at work in the fields. We will work out a plan whereby the women will serve you a menu of foods as prepared by a committee of expert dieticians and another committee will select the songs that you shall sing, etc. We are sure that if you borrow the money we make available for you and furthermore live up to the recommendations that we shall make, you will find farm life more interesting and profitable. Your problems of drainage, fertilizer and fences may appear very important to you, but we find that you are mistaken in this matter and we, being men of finance, are in a better position to judge this matter."

That is about the situation as it applies to Republican plans for farm relief. The equalization fee and the debenture plans suggested by the farmers have been turned down cold. President Hoover, Secretary Mellon, Secretary Hyde and a few more professional politicians are telling the farmers just what they need and they are making \$500,000,000 in funds available which can be borrowed by the farmers to work out their salvation along the plans suggested by the professional politicians.

And on the strength of this "relief" which will be so magnanimously given to the farmers, watch and see what special favors will be given to the tax baron manufacturers. They will be given increases in their tariffs which will enable them to take away from the farmers far more than the "relief" plans will ever give them.

The farmers had their opportunity last November. They rejected it. They turned down their farm leaders and gave their problems to the professional politicians for settlement.

### REAL FARM RELIEF

While Congress will be puttering along with plans for fulfilling election promises for farm relief, a real sound plan for such procedure is being worked out, right here in our midst.

The big drawback to farming in past year has been that the farmer raised his crop, not knowing what he would get for it when he was ready to take it to market. Under this condition he would raise crops that often cost him more than he would realize in return, not figuring anything for his labor and farm investment.

We are getting away from that. The farmer is still taking chances on some of his crops, but not on all of them. We still plant corn and wheat and oats and potatoes

on the old basis. We do not plant soybeans and sunflowers in so blind a way, however.

The soybean grower can sell his 1929 crop right now before ever ground is broken or seed sown; he can do the same with sunflower seed; he can contract for their sale at a given price, with the option to sell at a higher price should the demand at marketing time, create such a higher price.

The man who cannot grow soybeans at the price offered, has the option to try and grow some other crop that may be profitable. If he does want to grow soybeans, however, he will know right now what the minimum price is that he will get for the crop.

If this plan of farm marketing is practical insofar as soybeans are concerned, why can't it be applied to other crops as well?

The grain speculator shies off of soybeans. There is nothing in this crop for him. If there are any profits they go to the producer. The price does not fluctuate so as to give the speculator an opportunity to gamble at the expense of the farmer.

The matter of having a price for crops before sowing was advocated by former Secretary Meredith as the only practicable way of placing farming on a sound, sensible basis.

The farmers have got to help themselves. They can do it. Relief through legislation is a cumbersome proposition which at its best will not be of much aid to the present generation.

Organize so as to sell your crop before you raise it, and you know what you are working for.

The laborer is worthy of his hire and let the price be fixed before the labor starts.

#### HOW HIGH ARE YOUR PHYSICAL IDEALS?

Physical ideals are as important as mental ideals. They are fundamental! Through them you are able to develop a foundation upon which the whole structure of human life must be built.

I have six daughters to educate, and I consider one of the most important phases of their education is a proper understanding of what their own physical personality should approximate, as well as a general knowledge of the physical nature of both sexes. Such knowledge gives a boy and girl a clean, wholesome attitude toward sex life. It saves them from the unwholesome attraction of "smutty" stories, and gives them a high standard of respect for their own bodies.

A boy who is ashamed of his body and knows but little of what his form should approximate, as a man, cannot enthusiastically or successfully work for the development of superior and splendid manhood.

If a young man has no opportunity to view finely developed feminine figures, his judgment in

selecting his life mate will be warped. How can he know that true beauty is based on health and strength and that his children may reap the tragedy of his ignorance?

And yet, every so-called reformer is working for the purpose of suppressing the presentation of undraped figures. He would take away from the human race the inspiration that aids and stimulates the development of priceless physical ideals.

Don't let him fool you. Nakedness and cleanliness go together. The more you are able to view perfect specimens of fully developed manhood and womanhood the cleaner and more wholesome your mind will be in reference to all physical things. Begin now—while you are young—to build up your ideals about physical beauty and health. Go to the art galleries for your inspiration. Find out the truth for yourself.

Purity needs no clothes; innocence needs no adornment. Set the very highest standard of physical perfection for yourself and the one who is to be your mate and don't let anyone talk you out of it.

#### THE HOUSEHOLD OF FAITH

Without faith, little that is worth while can be accomplished. Every heroic or great humanitarian deed recorded in history is a monument to unswerving faith. St. Paul in Hebrews, eleventh chapter, instances many notable examples of faithful men in action; it would do no harm if we read that story a little oftener.

We have plenty of such testimony here in America. By faith, George Washington, with his handful of ragged troops, was able to force a very powerful nation to capitulate. Faith in his God, his faithful followers, and himself.

By faith, the homely Lincoln hammered away through poverty, adversity and a bloody war,—until he drove the word "slavery"

from the statutes of the United States of America, and made his name immortal.

By faith, Woodrow Wilson, backed by a great liberty-loving people delivered a hemisphere from the menace of tyranny. Like Lincoln, he gave his life for principle, in faith that never for an instant wavered.

And Lindbergh's great achievement. Faith, faith, faith!

Man is the only creature capable of possessing faith; the lower animals have no need of it. When I see a faithless man or woman buffeted by waves of misfortune and discontent, my sympathies are awakened—but that doesn't help anybody; faith must be sought for, seized, held. It costs nothing; its value is greater than that of the costliest gems.

#### KEEPS CUT FLOWERS FRESH

At night place damp oiled paper over cut flowers, tying sides of paper to top of vase. Stand in cool place and flowers will keep much longer. This is especially true of roses.

Minks are so bold and courageous that they attack and kill for food animals heavier than themselves, such as the muskrat and the varying hare.

The states attorney was getting peevish at the evasive answers given by the witness. "Answer me yes or no" he shouted. "Your question can't be answered yes or no" the witness protested. "Any question can be answered Yes or No" the attorney explained. "Ask me one and I'll prove it."

"All right then" replied the witness "Have you quit beating your wife?"

It happened years ago. We were up in Oregon and calling on a young lady. She introduced us to her grandmother. The dear woman was old and rather deaf.

"Meet Mr. Brandenburg" said the girl. "What's the name?" asked Grandma.

"Brandenburg" replied the girl, shouting rather loudly.

"Now you'll have to pardon me," said Grandma "I'm awfully deaf, but it just sounds to me as if Mary were shouting Brandenburg, but never mind, I'm glad to meet you anyway."

**A SMILE**  
No one has ever added up The value of a smile; We know how much is a dollar's worth And how much is a mile; We know the distance to the sun, The size and weight of earth; But no one here can tell us just How much a smile is worth.

#### INSIGNIA OF DISCIPLESHIP

John 13:34, 35. Jesus said: A new commandment I give unto you, That ye love one another; as I have loved you, that ye also love one another. 35. By this shall all men know that ye are my disciples, if ye have love one to another.

PRAYER: With my whole heart have I sought Thee Lord, let me not wander from Thy Commandments.

#### 18 CHILDREN IN 9 YEARS. THE PRESIDENT WILL BOSS STRANGE OLD CHINESE McNARY ASKS ADVICE

Let ladies who feel they really "can't afford more than two children with every thing so expensive," consider Frau Alfred Voellner of Demmin, Germany. Twenty-eight years old, she has eighteen children, all under nine years of age. She had a boy in 1920, a girl in 1922 and four sets of quadruplets in 1923, 1925, 1927 and 1929, sixteen children in four births. All are alive, ten boys, eight girls.

It was said here during the war that because conquerors no longer dragged women away into slavery, Germany would soon recover. Frau Voellner confirms that.

Washington says President Hoover intends to be the boss of his party. He might well, since it gave him 22,000,000 votes. Republicans of the South are told the Republican party must be reconstructed there on a sound, permanent basis, on the assumption that the war is past and forgotten, and that the South will join Republican prosperity, politically, if the Republicans behave themselves.

Selling Federal offices to the highest bidder is to be stopped.

Some Congressmen insist that President Hoover must write a farm relief bill and let the party pass it. The President will probably say, "No, you write it and pass it. If it isn't too foolish I will sign it."

It is not easy to confer to a disorganized industry, millions of men on millions of farms, producing without method or plan, the prosperity enjoyed by well organized quantity production industry that pays good dividends.

A very old Chinese statesman named Wu Tze-Hui was one of three that, on their word of honor, guaranteed the life and safety of Li Chai-sun, governor of Canton.

Li Chai-sun was executed by the Nationalists in spite of the guarantee. The aged Wu Tze-hui considered himself disgraced and killed himself, although he had nothing to do with the execution of the man guaranteed. Many Westerners will find it difficult to understand that suicide.

Senator McNary, head of the Committee on Farm relief, asks John D. Rockefeller, Jr., Henry Ford, Charles M. Schwab, J. P. Morgan, Paul M. Warburg and Owen D. Young to give advice.

That interesting collection of farmers would probably tell the farmers first of all to organize their business, eliminate lost motion and time, including an hour and a half for the hired man to harness and unharness the team. But Rockefeller, Schwab and Young decline to advise. Morgan is in Europe. The farmers will have to work out their problem.

Sir Hubert Wilkins plans to cross the Arctic in a submarine, under the ice, to map out the depth of water, shape of the basin containing the Arctic, etc.

He would follow cracks in the ice, coming up every twenty-four hours to recharge batteries.

Thus, for thousands of years, the seal and walrus have explored Arctic and Antarctic seas. They have known how to keep holes in the ice open all through the winter, for breathing and observation. The lower animals show us, we improve on their methods.

When the season for the furnace is over, it is a good plan to clean out the fire pot and ash pit entirely, take down and clean the smoke pipe and store where it will not rust, and give the furnace a coat of paint that comes for the purpose. If possible, have the flues of the chimney cleaned at this time. This work should be done before any of the special spring house-cleaning is attempted, since more or less dust and ashes will be blown through the house.

## Hints for the Home

by Nancy Hart

### APRICOT FRITTERS

For a tempting breakfast special—beat together 3 eggs, 1 cup milk, 1 tablespoon sugar; add dry ingredients sifted together—1 cup flour, 1 teaspoon baking powder and 1 teaspoon of salt. Chop 1 cup drained canned apricots and add to the batter, beating well. Drop from spoon into deep hot fat and fry to light brown. Drain and serve with maple syrup.

### CHICKEN WITH VEGETABLES

Cut meat of a roasting chicken in pieces and put a layer in casserole; sprinkle with flour and seasoning and a little water. Add a layer of diced assorted vegetables, seasoning and butter; repeat, cover the dish and cook for 1 1/2 hours in moderate oven. Then pour over the whole a cup of cream and cook ten minutes more.

### POTATO OMELETTE

Mix 2 cups of Lyonnaise potatoes with 1/2 cup diced cooked bacon, 1 egg well beaten, 1/2 cup milk and tablespoon chopped parsley. Pour into hot pan with 2 tablespoons butter or bacon fat and cook over moderate heat until browned.

### BEST COAT HANGERS

If you cover metal or wooden coat hangers with velvet the garments will not slip off as they do on uncovered hangers or those covered with silk.

### CLEANING WINDOW SHADES

When white window shades become soiled, rub them with a rough white flannel cloth dipped in flour.

### REMOVES WATER SPOTS

Rub a little white talcum powder around rings left by water or cleaning fluid, then brush gently with a soft brush and the marks will disappear.

### HOME-MADE PISTACHIO

A very good pistachio flavor can be made by combining equal parts of vanilla and almond extract.

### WHEN HANGING PICTURES

Put two small rubber-head tacks near the bottom of frame on back of picture and dust cannot collect and mark the paper.

### THE TOWHEE

Fern Reedy 8 one

Among the many beautiful songsters this spring, have you noticed the Towhee. If you have not taken note of him, look for a bird with restless activity. He is like a small child that just can't be still or quiet. The Towhee is always making a great deal of noise, and at the same time fitting about frequently in a brush pile, but his favorite haunt is near the edge of a timberland. The Towhee is always near the ground, that being the origin of his so-called name, "The Ground Robin" which many people call him.

It is very sad for a great many of the Towhees because of their habit of always being near the ground, hence it is easy for cats, weasles, foxes, and other predatory animals to have a fine dinner with Mr. Towhee as the main dish. The reason so many Towhees are killed is because the young leave the nest before they can fly, following the old birds around, and in that way the young are easily caught by varmints. Although the Towhee is protected by the law, the law cannot "fine" predatory animals or keep them from killing the Towhee or any other bird.

The Towhee is a medium sized bird of about eight and one half inches in length. He is about the same size as the Robin, only a little more slender. The Towhee's upper parts, throat, and breast are black; his belly is white, sides rufous and his three outer tail feathers are white. The female's colors are the same as the male's only duller. Nature has arranged nearly all female birds a duller shade than the male for the protection of the young.

The Towhee has no song, but several calls such as "chewink" and "pilla-willa-willa." Another call is "joree" from which the people of southern Illinois have derived the name "Joree" for the Towhee.

The Towhee comes to us in March and leaves in October or September. The male comes first and searches for a suitable location for the nest. Then the female comes and if she likes the location and surroundings, the nest is started. The male also leaves first in the fall. This is true with most all of the birds east of the Rocky Mountains.

The Towhee's range is from southern Canada as far south as North Carolina. His winter range is from southern Illinois to the gulf. The Towhee is just a summer resident here.

The nest is found on or near the ground, made of heavy grasses, rootlets and fibers. The Towhee's nest is somewhat like the Robin's only the Towhee's isn't plastered. There are four eggs, finely spotted with chocolate

## Wahrheit und Dumheit

"I just came home from Clay county, where I saw Pa and Ma on the old home farm" remarked a citizen the other day.

"How are they getting along with farming nowadays?" asked a bystander.

"Well, just middling fair. Pa did purty well last year with the gasoline but lost a little money on oil. Ma did fine, however by selling sandwiches and pop. Field crops, you ask! Well I be durn, but I just natcherally forgot to ask about that."

An elongated farmer from Brushy Bend stopped in front of Len Loveless' show window one day recently. He seemed much interested in the white blocks of salt that were displayed there.

Finally he walked in and asked Harry Foster: "Is them thar the biggest ones you got?" pointing toward the salt.

"Why yes, they are" said Harry.

"Well I guess I can't use them then. I did want to buy a tomstone for my wife, but I wanted one a little bigger than those."

And as he walked out he was heard to sadly mutter "The old lady sure is gettin' weakly and can't last very long now."

A little Darky had arrived at Mose's home and a friend who called around asked what the baby's name was to be.

"We's decided to call him Electricity" said the proud father.

"How come, you call him such a fool name?" asked the guest.

"Well, de wife's name am Dinah and my name am Mose, and if Dinahmose do not make electricity, tell me nigger, what do they make?"

In line with the above here's an old one that you may have forgotten:

A little pickaninny starting school was asked what her name was and replied "Fertilizer Jones".

The school ma'am was of course surprised and thinking she had not heard aright remarked: "You said Fertilizer, surely you don't mean to say that's your name?"

"Yes ma'am, that am my name I was named after Dad and Mom. Dad's name am Ferd and Mom's name am Liza, so when I come they just named me Fertilizer."

Rice paper is not made from rice. Catgut is from sheep and not cats. Irish stew is an American invention; chop suey is hardly known in China; Linen collars are made of cotton; most dries like a drink of liquor; and such is life.

The town was full of bums last week. These harbingers of Hoover prosperity seem to be always hungry.

In a certain part of this city lives a woman who is known as "hard boiled" when it comes to dealing with this class of folks.

The hobo made his usual plea—hungry for two days and just about starved.

"You seem able bodied and healthy" she remarked coldly. "You ought to be strong enough to work for your meals and make a decent living."

"Ah yes, my dear lady" remarked the diplomatic hobo, "And you are beautiful enough to be in the movies and if you were what hot competition you's give Clara Bow, but then I suppose by choice you live the simple life here in this beautiful city."

Did he get a meal? You just bet your sweet life he did.

Years ago this editor did considerable door to door soliciting, not for food, but for orders for newspapers. An old time solicitor in coaching us on the matter of approach to a prospect told us this, and believe me it worked:

"When a woman opens the door, no matter what her age may be, always ask her "Is your Mamma home?"

Sam Palmer was waiting on a customer at Hall's store. "Lady, we have a nice line of toothpaste, perhaps you could use some."

"Oh gracious no, Mr. Palmer, I don't need any. Not any of my teeth are loose."

A hog never gives anything away when he squeals.

The young are altrical. The food consists principally of insects, but the Towhee eats seeds and berries. The Towhee is more insect-eating than the Robin. The Towhee belongs to a class of Finches of which the Sparrow is a member.

**Church Notes**

**ST. COLUMBA'S CHURCH**

Church services will be held at St. Columba's Catholic church Sunday at 8 a. m.

**PRESBYTERIAN CHURCH**

John C. Irvine, Minister

10:00 a. m.—Sunday school.  
11:00 a. m.—Morning worship.  
6:30 p. m.—Christian Endeavor.  
7:30 p. m.—Evening Service.  
The services were well attended over Sunday considering the weather conditions. "Every one bring one" is a motto if adopted by every regular attendant the house will soon be too small.

Can you not enroll one new one in the Sunday school and church service within the year?

**GOSPEL MISSION**

Sylvester Egan, Pastor.

Time of services as usual.  
Matt. 20:6, 7—"Why stand ye here all the day idle? They say unto him, Because no man hath hired us."

There are a lot of folks standing around waiting the eleventh hour to arrive, sure they expect to go to heaven when they die, they expect when the eleventh hour call comes to go out into the Lord's vineyard and labor one hour and get the same reward as those, who labored thru the heat of the day. I do not remember of ever talking to man but that he expected some time to be a Christian.

There was a reason for these men standing idle in the market place at the eleventh hour, and the reason was, no one had asked them to work. The man who has sat under the pleadings of the gospel, who has looked out upon the world bruised and torn with sin, who has oft looked out upon the harvest fields white to harvest, cannot say to the Lord when the chilly waters of death creep

around him, that no man has asked me. Paul tells us to make out calling and election sure, and we don't want to take any chances. No man cometh to the father except the spirit draw him, and what if the Spirit does not draw at the eleventh hour?

**METHODIST CHURCH**

G. V. Herrick, pastor.

In spite of the inclement weather last Sunday a great many of our people were present at all services. Every church needs more people who are not afraid of Sunday weather. Ever sincere Christian needs to lay special emphasis upon this matter of church attendance. Others may be indifferent, prejudiced or skeptical the Christian must remember that the requirements of God do not change like the models of automobiles to suit the demands of the hour. We all have time to do our duty to God and the church. There are in each year 5,840 waking hours. If we take the time to repeat the Lord's prayer each day for 1 year we spend four hours in prayer. If we read ten verses from the Bible each day we spend nine hours reading the Bible. If we average one service in church each Sunday we have spent 52 hours in that way. This leaves 5,775 we have used for ourselves. Can anyone convince himself that he will be able in the Day of Judgment to say to the Judge of all the earth, "I didn't have time." Lets give reverent attendance upon the appointed means of grace.

Sunday school at 9:30.  
Morning worship at 10:45. Subject "Almighty God Bless Thee."  
Epworth League at 6:30, leader, Jean Whitfield.  
Evening worship at 7:30, subject "Doubting Castle."  
Special music at all services.

**19,480 Stockholders receive dividend checks this quarter**

In order that the public generally in the territory served by the Company may have an opportunity to learn of the current activities of the Company in rendering service to its present and new customers, there is reproduced below the Dividend Letter which is sent to stockholders with each quarterly dividend.

Dividend Letter  
of the  
**Central Illinois Public Service Company**  
SPRINGFIELD

**DIVIDEND LETTER OF THE**

**TO THE STOCKHOLDERS:**

During the last quarter your company had a net increase of 844 electric customers, adding to its lines 1,002 kilowatts in lighting, 6,504 kilowatts in power and secured power contracts aggregating 953 kilowatts. The contracts for power include municipal pumping at Mattoon, Royalton, Brookport, Nokomis, Jonesboro, Greenview, Oakland, Carterville, St. Francisville and New Holland; electric power to operate the boat works of the Grafton Boat Works Company at Grafton, a slope mine near Carrier Mills belonging to the Harrisburg Fuel and Engineering Company, the Model Dairy plant at St. Elmo, and a new contract covering large power requirements for the U. O. Colson Company's plant at Paris, used in the manufacture of advertising novelties.

Your company's commercial activities continued in a very satisfactory manner. The outstanding campaign of the past quarter was the sale of 2,717 heating pads during the month of February. This result was 271 per cent of the quota established for the campaign.

On March 1, your company announced the filing of reduced electric rates with the Illinois Commerce Commission to become effective in approximately 400 communities in Illinois and adjoining territory served. The reduction covered residence service, commercial lighting service, schedule B retail power service and farm service.

The reduced electric rates effective on all electricity used on and after April 1, 1929, is the result of a voluntary reduction by your company.

The increased use of electricity by a majority of customers since the last reduction, together with further operating efficiencies, have made possible these lower rates. Lower residential service and commercial lighting service electric rates are largely dependent on increased consumption by a majority of customers.

New electric franchises and/or street lighting contracts have been granted your company by 20 communities.

**CENTRAL ILLINOIS PUBLIC SERVICE COMPANY**

The Illinois Commerce Commission during the last quarter granted your company certificates of convenience and necessity to serve the following cities and towns:

Ina	Wolf Lake	Shumway
Ewing	Bourbon	Alto Pass
Whittington	Bowen	Dow
Jewett	Cooperstown	Glenarm
Crab Orchard	Beecher City	Alexander

Why is it possible to manufacture more economically in a small town? The reasons are simple. Land is cheaper. Taxes are lower. Congestion and shipping tie-ups are eliminated. Fatigue is reduced; contentment, interest and morale in general improved. Labor costs are less—yet the small communities' wages actually give to the worker more purchasing power than inflated wages in the big city.

Today, 400 Illinois towns have requisite transportation and through the important service supplied by your company the electric power facilities to enable the manufacturer to take advantage of this important manufacturing opportunity. Their growth is accelerated by the swift satisfaction of this basic community need.

The picture on the last page of this folder shows the insulator assembly for one of the three wires of the Ohio River crossing at Mound City which interconnects the transmission system of your company with that of the Kentucky Utilities Company. This enormous insulator assembly weighs 3,000 pounds and holds one of the wires on the 4,525 foot span across the Ohio River. It was specially designed for this important duty by the Engineering Department of your company.

Respectfully yours,  
**CENTRAL ILLINOIS PUBLIC SERVICE COMPANY**  
Springfield, Illinois. April 15, 1929.

Each quarter the number of stockholders receiving dividend checks on their shares of cumulative Preferred Capital Stock in this Company are shown at the top of this advertisement. As an investment, this stock has safety of principal, high net dividend yield, and is tax free in Illinois. If you are interested in receiving one of these dividend checks you can secure full information regarding this security, from any employee.

CHAPTER I  
What's the Use?

Grandmother Page refused to budge. I turned her over again, but there was no sign of life. I squirted gasoline into her cylinders, but she didn't seem to care for it.

As you may have surmised, Grandmother Page is a relation of mine only by adoption and purchase. She originally was created and assembled by Page Motor Company of Detroit, but that was so long ago that her years fully entitle her to title of "Grandmother."

She has had a hard life, too. For four years she has been going nearly everywhere that I go, and for a long time before that she was the traveling companion of a suburban real-estate man who could sell gold bricks to placer miners. I suspect that he taught her some of her deceitful tricks.

It must have been from him that she got her love of the country. She revels in green fields and running brooks and sandbanks and mud-holes. Whenever she finds one she always wants to stay there all day. The farther it is from the city the better she likes it.

I personally am fonder of the city, and when she decides to remain all night on some road fourteen or fifteen miles from anywhere I have sometimes walked home rather than share the sylvan solitudes with her.

Under my breath I murmured: "Durn you, Grandmother," and hit the engine a vindictive tap with a monkey wrench.

"Maybe there is no gasoline in the mageto," suggested Maryella who had watched my struggle from the front seat.

I made no reply. When some one begins offering me suggestions after I have tried every known trick on a stalled motor I find that the only way to preserve my reputation as a gentleman is to keep absolutely silent.

Even Maryella, whom I have been trying for two years to persuade to become Mrs. Tom Bilbeck, can draw fire from me on such a dynamic occasion.

"We've got to get home Tom," she fretted. "There's a rehearsal of 'Pygmalion and Galatea' tonight, and if we're away they can't do a thing."

No reader, we are not actors, I am positive of that. Our stage-work receives mention only in the society column. We perform for charity before people who have to like us because we represent such worthy causes. Whenever the Social Settlement sends up a yell for funds we spend about a thousand dollars' worth of time enticing five hundred people to part with fifty cents each to hear us forget our lines.

When Belgium needs bread or the Fiji Islanders run out of pants, who comes to the rescue regardless of consequences? The Sheridan Dramatic Club!

And now we were doing "Pygmalion and Galatea" for the Old Soldiers' Home, which needed some new window shades or an electric piano, I have forgotten which.

"Besides," continued Maryella, shivering slightly, "it's getting colder and I think I felt a drop of rain a minute ago."

"That being the case," I observed sarcastically, "we'll start."

"Let's" she encouraged.

Grandmother Page and I repeated our justly celebrated repertoire of tricks, from adjusting the spark-coil to putting gasoline in our eye while lying prone under the tank. Each separate adjustment was preceded and followed by reducing exercises with the starting-crank.

"Jim Cooper has a self-starter on his car" Maryella observed sympathetically while I was trying to catch my breath.

"Then why," I inquired in icy exasperation that I regretted instantly, "why don't you marry Jim Cooper, if you're crazy about a self starter?"

"Oh!" exclaimed Maryella, inarticulate with rage at my remark. "You have no right to insult me like that!"

"I didn't mean to insult you, dear."

I forgot Grandmother Page for the moment in my anxiety to square myself for my tactical blunder.

It was the wrong move. My very humility made her think that she really had been offended in some way, so she dabbed at her pretty eyes to see if she could scare up a tear. She could not. That made her more angry.

"I know one thing," she stated, clanging out of the seat. "I'll never ride in your old car again as long as I live!"

She started down the road. "I'll walk home first!"

Why are girls of twenty so adorable—and why are men a few years older such fools about them? The answer to that question may explain also why I followed her through the dusk that was part twilight and part gathering rainstorm.

"Listen, Maryella," I called after her. "Be reasonable."

No response.

"You can't walk all the way home. It's ten miles."

"I'd probably have to walk anyway," she observed dispassionately, "so I might as well get started before dark."

That remark about walking home anyway was the crowning insult to me and Grandmother Page. It hurt me more because it was probably true. I turned back angrily. She trudged on.

Down the road came a purring motor. I had hardly expected a car to pass that way. I had purposely chosen a back-country road for my drive with Maryella that day. This machine was coming from town.

I looked at a turn of the road around which it would presently appear. Maybe it was a friend of mine.

The car rounded the turn. I swore under my breath.

It was the racing runabout belonging to Jim Cooper. No situation that I could imagine would please him more and me less than that in which we were placed.

He pulled up alongside of Maryella, who had proceeded two or three blocks before he arrived. After a short parley she got in beside him. I gnashed my teeth, but thanked Heaven that I would soon be alone to express my opinion on automobiles, nature, human being and things in general.

No such luck. The car was coming on toward me. It pulled up alongside of Grandmother Page.

Maryella looked off across the fields on the other side of the road, but the driver got down from his seat and inspected Grandmother Page.

"What's the matter? Won't the engine run?"

Jim Cooper is the kind of man who would ask a question like that. His sense of humor is very low, just above that of an anthropoid ape. When bromidioms were being passed around he took one of each.

"I'll admit that he is rather a good-looking chap. His hair just escapes being too blond and he has a wisp of a mustache such as you see on the men in the clothing advertisements.

Nature did all she could for the outside, but let him go without filling in the place which was originally intended for a mind. Whatever people seem to be doing he does without questioning whether there is any sense in it. He plays golf because so many others seem to enjoy it, not from any love of the game. He is one of Maryella's admirers for the same reason.

Maybe I am prejudiced, but I can't believe that he really appreciates her adorableness.

Maryella is flattered by his attention, not knowing what a small tribute it is. The fact that he asks her opinion on every move he makes, from changing brands of tooth-powder to buying a summer home, caters to her love of power.

"Are you sure you've got gasoline in the tank?"

Jim Cooper continued his ruthless assault on the remaining shreds of my temper.

"The trouble is in the spark," I volunteered briefly, looking around for a weapon in case he should ask another question.

"Oh! Can I give you a lift home, old man? Of course, there isn't an extra seat, but you could sit on the gasoline tank at the rear. I think it will hold you."

He surveyed me doubtfully.

A slight snicker from the lady in the car spurred me to a quick refusal.

"No, thank you. I'll have my car going in a few minutes."

"Oh! Miss Waite told me it wouldn't go at all."

"Did she?" I murmured politely.

"I didn't know that she was interested."

"Maybe we had better wait," he suggested, "until you get started, and follow you into town and then if anything goes wrong we can pick you up along the road."

"Please don't!" I urged, with just a shade of feeling showing in my voice.

"Just as you say, old top. I'd like awfully well to help you if I could."

He got back into his car and insulted us once more with the subdued but efficient purr of his electric starter. Then waving at me airily, he turned about and disappeared in a cloud of dust toward the city.

I sat by the roadside and told myself that I was probably one of the seven worst "fussers" in the United States and the Dominion of Canada. I had played my game like a fifteen-jeweled boob. The first rule for making a girl eat out of your hand is never to let her know when you get mad. The second is not to be sorry if you do. I had a blow-out in both rules.

While I sat there it began to drizzle, but I thought too little of myself to care to move, so I didn't. Instead I recollected with delightful pain how eminently desirable Maryella was.

Slim and slender and cool-looking, she was obviously the handiwork of a beauty-loving god who wanted to show what he could do. But she had eyes, dark one, that came from no heavenly work-shop. In them there was a bit of temper, of daring and an invitation to come along that was irresistible.

If a man must lose his head over a woman Maryella's type offers the utmost justification. If you had any curiosity and a wee bit of nerve, you make up your mind that you would have to find out whether to believe her eyes or the rest of her face.

Up to that afternoon I had been doing pretty well, too. Not having money in bales, I had started against Cooper with a considerable handicap. He worked short hours in his father's office, which would eventually be his; while I plugged away for a salary—a good one, but nothing that would make the mint work overtime to keep up with me.

There is no use concealing what my job is. A good many people know already from having seen my name signed at the bottom of a column of alleged humor which I conduct daily for a syndicate of newspapers. Any one who has read my stuff knows that I work hard for my money, especially when I write verse.

Besides my syndicate work I do all the big stories for the Daily Mail, which is the principal morning paper of our city. It is pleasant because I do not have to be in the office constantly like a regular reporter. When they need me they send for me. When there is a big political convention or a disaster or a sensational murder I usually cover it.

I had been offered a job as war correspondent, but I declined. Just because Irvin S. Cobb got back with all his arms and legs attached is no sign that they wouldn't be able to hit the next fat man that went over.

When I was thoroughly wet through so that it didn't make any difference what I did, I decided that I might as well start for home. It would be more comfortable to die of pneumonia in my own bed. So I got up and sloshed over to the car to get my coat, which I had laid aside when the contest between me and Grandmother began.

Just by way of a passing expression of my feelings I gave the crank a turn.

"Bang!"

The engine started. I stood in the rain a full minute longer relieving my mind before I mounted to my seat and steered Grandmother Page back over the sloppy roads to the city.

What was the use now?

**KEEP THE MILK, BUT PLEASE RETURN BOTTLES**  
Chal Newbould is a patient sort of fellow, but he is getting all riled up at the way some folks are treating him. They steal the bottles of milk right off his own private porch. That's bad enough, for milk costs money, but these same crooks haven't got the good manners to bring the empties back with them when they come for some more.

Edgar McKenzie who is Chal's milkman insists that the bottles must be paid for, as any good milk man would. So in desperation Chal broadcasts the message "Steal the milk if you must, but please return the empty bottles."

It is even suspected that some of the women making fancy vases are doing the stealing just for the sake of getting the bottles.

**SULLIVAN THIRD**  
The Sullivan Concert band which was taken to Springfield last Saturday by Prof. Moore to participate in a State High school band contest was so badly outnumbered by competing bands that it landed in third place. There were but 3 entries in this particular class. Taylorville won first and Beardstown 2nd. These bands had 72 and 120 players as compared to Sullivan's 20.

This was Sullivan's first entry and it received much favorable commendation for the showing made. They were outclassed in numbers more than in ability.

**TEACHERS APPOINTED**

### COMMUNITY CLUB URGES EARLY ACTION ON R. 132 SULLIVAN TO BETHANY

(Continued from page 1)

of that city to connect with route 169. Dalton City is opposed to this routing. This raises a controversy which tends to delay action.

Postmaster McPheeters stated that he had been in Springfield several times lately relative to this matter and that he and his associates had been assured that no new road contracts would be let at the present time and that no action would be taken on roads in controversy even when road building will be resumed under the new gas tax money. He stated that the state highway department was urging that county boards and highway officials in the counties get together and decide what roads they wanted designated as state aid roads on which the counties' share of the oil tax was to be spent.

Co. Superintendent of Highway Gus S. Little stated, however, that Chief Highway Engineer, Frank L. Sheets had advised that Moultrie county lay off any such procedure until the location of routes 132 and 133 had been definitely decided on.

J. L. Mayes and Mike Welch of Dalton City were present at the meeting but did not actively participate in the discussion. Mr. Mayes when called upon stated that Dalton City's contention was that Route 132 should be located as at present mapped, which is to the east of the I. C. tracks.

Bethany had been invited to have representatives present to join in the discussion but none were here.

After the discussion had been participated in by many of those present, the resolution which appears on page one was presented and after amended as suggested by J. L. McLaughlin, it was passed unanimously.

### No Airport Site

The committee named at last meeting to find a suitable temporary airplane landing field reported that it had been at work, but had not succeeded in finding a suitable site.

Postmaster McPheeters stated that he had had several communications from the department at Washington, D. C. relative to this matter. In one such communication the department described the field at the County Farm, which had been under consideration. It wanted information of the report that this field had been selected. Some one must have sent this description to the Department, as the club had not taken such official action. The Post Office department is anxious that all county seat cities have available airplane landing fields.

The committee was instructed to continue its activities in matter of Making Sullivan "air-conscious," looking toward future needs of the community in this line.

### The Scout Work

J. L. McLaughlin as chairman of the club's Scout committee stated that excellent work had been done along that line and that 30 Scouts had been enlisted with a prospect that more would soon join. He stated that Scout quarters had been secured in the I. O. O. F. building in what was formerly the Woodmen's lodge room.

### Three Farm Advisers

Farm adviser J. H. Hughes, and former advisers C. C. Turner and A. L. Higgins were present and each was called upon for a short talk.

### Elections

The elections committee was urged to give the matter of electing the Citizens ticket on Tuesday their attention. Four of the candidates, C. E. McFerrin, Judge Lambrecht, C. F. McClure and H. Y. Kingrey were among those present and responded with short talks when called upon.

### Industrial Outline

The industrial committee had nothing to report, but the chairman of the club read a pamphlet, issued by a trade publication, outlining plans which are being successfully followed by communities who are seeking to attract industries.

### Fourth of July

The matter of having the club sponsor the annual 4th of July celebration was brought up and on behalf of the Legion, George A. Roney stated that the Legion boys were ready to co-operate in the matter but were unwilling to shoulder the entire responsibility. A motion was made that the club name a committee to co-operate with the Legion in discussing plans for the proposed celebration and that when this committee is ready to report a special meeting of the club be called to give the matter consideration.

### ARTHUR AUTO ACCIDENT

Mrs. Jasper Poland and son Bobbie were both thrown from their car and injured, in a collision with a car driven by Davis Campbell in Arthur Monday afternoon. Davis escaped injury but two young ladies in the car with him were slightly injured. Both cars were wrecked.

### ALLENVILLE COUPLE WILL OBSERVE 59TH WEDDING ANNIVERSARY

Mr. and Mrs. Hiram Judd are today (Friday) observing their 59th wedding anniversary at their home in Allenville. They are the parents of Mrs. D. G. Carnine of this city and have several other children.

In honor of this anniversary their son W. F. Judd of Bloomington has written the following poem and dedicated it to his parents:

\*\*\*

### "MOTHER AND DAD"

In memories hall of yesterday  
Mid scenes of childhood lore,  
A child again I fain would be  
Playing 'round the door.  
I cherish now those days of old  
When I, just a lad  
Was there at home together  
With mother and with dad.

A child again of yestermorn  
I never more can be  
With sister and with brother  
Gathered there at mothers knee  
Memory alone keeps record  
Of those cherished days we had  
When there at home gathered  
With mother and with dad.

I see again the little church  
Where often we have heard  
The preaching and expounding  
Of God's Holy Word.  
We surely did enjoy ourselves  
And happy times we had  
Worshipping God together  
With mother and with dad.

And when we've seen the last of earth  
Have crossed the stormy sea  
We see the heavens open  
To welcome you and me  
No other joy in heaven  
Will make us quite so glad  
Than to be at home forever  
With mother and with dad.

### E. O. SWISHER SUFFERS FATAL HEART ATTACK FRI.

(Continued from page 1)

the time of his death he was 54 years, 3 months and three days of age.

By occupation during his younger years he was a blacksmith. He took an active interest in Democratic politics and served as deputy sheriff and constable and twice a candidate for the Democratic nomination for sheriff. His last such race was in 1922.

He enlisted and served his country during Spanish-American war. Of late years he has been an invalid, suffering with heart trouble.

He was never married. He is survived by his brother Alva Swisher, sisters Ada Swisher and Mrs. Edith Corbin of this city and brothers LaMonte Swisher of Decatur and Charles Swisher of St. Louis. His parents and four brothers preceded him in death.

The remains were taken to the C. A. Corbin home Friday and from there to the M. E. church Sunday afternoon where services were conducted by the pastor, Rev. G. V. Herrick. Interment was in Greenhill cemetery.

A quartette consisting of Mrs. Frank Newbould, Mrs. Elmer Richardson, J. E. Martin and Hugh Murray sang at the church services. The casket bearers were Robert W. Martin, Mel Gifford, Vern Hawbaker, Earl Harris, F. O. Hawbaker and W. F. Jenkins. Out of town people here for

the funeral services were the following: Mr. and Mrs. J. E. Austin of Champaign, Mr. and Mrs. Carl Ekiss, Mrs. LaMonte Swisher, Mr. and Mrs. Raymond Stengel, Mr. and Mrs. Joe Swisher, Jim Taylor, Miss Foster, Emmett Swisher and Mrs. Cecil Baison of Decatur; Mr. and Mrs. Frank Swisher and daughter Dolores and C. J. Swisher of St. Louis and Mrs. Don Ledbetter of Pierston.

**You Save Money 4 Ways!**  
WHEN WE SERVICE YOUR CHEVROLET  
Genuine Chevrolet Parts—When we service your Chevrolet we use genuine Chevrolet parts for all replacements. They not only wear longer and give better satisfaction, but they also cost less to install—for they fit the first time, without any expensive hand fitting.  
Flat Rate Charges—All our service charges are based on a low flat-rate system, worked out by Chevrolet factory experts. All our work carries the minimum charge for first-class workmanship and genuine Chevrolet parts—and you know in advance just what the expense will be.  
Specially Trained Mechanics—Our Mechanics are specially trained in Chevrolet service work, and can perform every service operation intelligently. Furthermore all work is done to the regular factory tests for accuracy—eliminating the necessity for readjustment.  
Specially Designed Equipment—Our shop equipment is specially designed for Chevrolet service work. Every machine is built to do one job perfectly—and in the most efficient manner. Thus you save money in four different ways when we service your Chevrolet!

**You buy 73 years' experience in gardening when you buy Ferry's purebred Seeds**

If you had gardened for 73 years—had raised tons of produce—had watched the plants and weeded out inferior strains till only selected quality results—you would know the seeds best to plant.

[There is 73 years' experience in gardening back of Ferry's purebred Seeds. Ferry has done the experimenting for you. Ferry knows that these seeds are the children and the grandchildren of vigorous, purebred plants—seeds whose families for generations have produced vegetables of fine flavor and tenderness, flowers of supreme color and beauty.

These are the seeds you want in your garden. Ferry's thousands of tests each year help determine, so far as is humanly possible, that they will produce and produce correctly in size, color, vigor, and flavor.

Buy Ferry's purebred Seeds at "the store around the corner." They are fresh for planting now. Write for Ferry's Seed Annual. Its garden facts make it more than a catalog. Address D. M. Ferry & Co., Dept. H, Detroit, Michigan.

Give your garden its best possible start with Ferry's purebred seeds.

CLIVE EKISS LANDS 90-DAY JAIL SENTENCE

The patience of the court, being exhausted, Clive Ekiss, who has treated with contempt all orders of the court instructing him to help support his children, was given a 90-day sentence in the county jail to meditate over his actions.

Ekiss has been in court several times on matters growing out of non-support of his family. He has consistently given assurance that he would mend his ways and pay what the court instructed him to pay, but has failed to do so.

He was brought into court Friday on a citation for contempt of court.

ASKS MOTHER'S PENSION Mrs. Fairy McElroy has filed a petition in the county court asking for a mother's pension to assist her in supporting her three children, aged 6 to 8. These chil-

dren are now in her mother's care. The whereabouts of their father, Gail McElroy is unknown. Mrs. McElroy has been a Sullivan resident for some years, in the employ of local restaurants.

**HORSE STEALING GETS PROBATIONER INTO REAL TROUBLE**

(Continued from page 1)

that the horse had strayed. Then in some way he heard that Mr. Smith had trucked a grey horse to Sullivan. He investigated. Smith described the horse, that he says Wood claimed belong to him. Wood had paid Smith for taking the horse to Sullivan. Bailey came to Sullivan Monday. He verified what he already knew and went to the Burwell farm where he easily identified the horse as his property. Sheriff Lansden on Monday evening gathered in W. M. Wood. That man claimed that the horse had been sent to him by his brother who lives at Iola, Illinois. It was later found that this brother really lives in Lovington and that Wood stabled the horse at his home several days before he had Smith bring him to Sullivan. Tuesday Mr. Bailey went to the Burwell farm, explained the transaction and claimed his horse. Wood & Little paid back to Mr. Burwell the price he had paid.

Wood, the alleged horse thief was out on probation when all of these transactions happened. At the October term of court he entered a plea of guilty to having robbed a garage at Lake City. He made a plea for probation and it was granted and he was released. Shortly thereafter the garage in question was destroyed by fire.

The charge to which he plead guilty last fall was burglary and carries with it a penitentiary sentence of one year to life. It is doubtful whether he will be tried on this new charge. He may be taken to the penitentiary on the previous charge, with this new charge pending against him when he is turned out.

He waived his preliminary hearing Tuesday on this horse thief charge and is being held under bond of \$1,000 to await the action of the grand jury.

**PIANO TUNER AND REPAIR MAN PLANS SULLIVAN RESIDENCE**

F. S. Pearce, an expert tuner and repair man this week established headquarters in this city at the Gramblin Boarding house. He came here from Decatur and plans to make Sullivan his home. He has had many years experience in his line of work.

He says that the idea that radio is replacing the piano in homes is erroneous. There may have been a lull of uncertainty but the piano is as popular now as ever. The number of pupils on piano now compares favorably with those years when radio was unknown.

**ELVA PEARL DREW**

Elva Pearl, the infant son of Mr. and Mrs. Clifford Drew died at the family home in Jonathan Creek township Tuesday. He was born July 28th, 1928.

Funeral services were held at the Jonathan Creek church Wednesday afternoon, conducted by Rev. C. E. Barnett. Casket bearers were Raymond Beals, Roscoe Beals, Melvin Beals and D. L. Beals.

**A CORRECTION**

It was reported last week that the man with whose car D. G. Carmine's car collided at the intersection of Worth and Jackson streets was Loren Rhodes. This was an error. The man was named Kline and is in the employ of Ed Heiland.

Mr. Carmine has had his car put back into a good state of repair.

**NEW EDITOR AND BUSINESS MANAGER FOR REPORTER**

Darold Fleming of Rensselaer, Ind., has joined the editorial and business management staff of the Lovington Reporter, entering upon his new duties the first of last week. He comes to the Reporter from the United States Publisher of Springfield, Ill., and is a graduate of the School of Journalism of DePauw University of Greencastle, Ind.

Mr. Fleming is authorized to collect old accounts for the Reporter as well as make contracts for new business and any courtesies extended to him will be appreciated by the publishers.—Lovington Reporter.

**CHILDREN OF MR. AND MRS. SAM PURVIS ILL**

Jack Purvis, son of Mr. and Mrs. Sam Purvis, who reside southeast of this city was operated for appendicitis in the Mattoon hospital Wednesday.

His brother David underwent an operation in Springfield Thursday for the removal of one of his eyes.

Joseph another brother suffered an attack of appendicitis last week but has sufficiently recovered to be able to attend school.

**COUNTRY CLUB LUNCHEON**

The first luncheon of the season of the ladies auxiliary of the Country club was held at the club house Tuesday. A golf tournament was held among the ladies in the afternoon.

**SCHOOL ELECTIONS REGISTER MORE VOTES THAN USUAL**

Quite a bit of interest was shown in the school elections Saturday. A movement to write in the names of several women who were anxious to serve as board members, brought out a comparatively big vote.

Another thing that helped some was the fact that through an error the name of Dave Cummins had been left off the ballot for member of the High School Board. Until just a few days before the election it was generally understood that Guy L. Kellar's term was expiring this year. Mr. Kellar himself was under this impression and a petition to place his name on the ticket had been filed. On Friday preceding the election it was discovered that Mr. Kellar still had a year to serve but that Dave Cummins time was up. It was too late to file a petition for Mr. Cummins to get his name on the ballot so friends got busy Saturday and urged voters to go to the poll and write in Mr. Cummins name. This was done. A total of 189 votes were cast at this election.

The returns were as follows: For president—H. C. Shirey, 168, Wes Mariner 1, Dave Cummins 1 and Jessie Tichenor 1.

For board members, 2 to be elected—Ed C. Brandenburger, 154, Dave Cummins 109, Jessie Tichenor 14, Marie Pifer 8, Guy Kellar 1, Ada Chapin 1, Clara Brandenburger 2. Mr. Cummins would have had many more votes but voters who wrote in his name failed to put a cross in the square before his name. The same applies to Mrs. Tichenor and Mrs. Pifer, who would have had about twice as many as the returns show, if all ballots on which their names were written had been properly voted.

The judges and clerks of election were Cora Fleming, Inez Kelso, R. B. Foster and Guy L. Kellar.

**Trustees Elected**

U. G. Dazey was reelected as school trustee for the full three year term and I. J. Martin was chosen to fill the unexpired term of Harve Scott, deceased. There are two years of this term to serve. The other trustee is John Graven. The main duty of the trustees is to name the treasurer and Cash W. Green will doubtless be reappointed.

**Ticket Elected.**

More interest than usual was taken in the election of the Grade School board of education and 90 votes were cast. The polling place was at the Dedman Harness shop and the judges of election were Mrs. Ada Chapin, Mrs. Jessie Edwards and Noah Smith.

The result of this election was as follows: For president—J. L. McLaughlin 81, Jesse Tichenor 5.

For board members—Chester Horn 87, Burney McDavid 75, Jessie Tichenor 1, Wade Robertson 4, Roy Patterson 1.

The holdover members of this board are Mrs. Chapin, Mrs. Edwards, Don M. Butler and Frank Gibbon.

**FARLOW JURY DISAGREED**

The jury which heard the evidence against Jim Farlow, on a burglary charge in the circuit court last week was out from 10:30 Thursday morning until Friday morning, when it reported that it could not agree. It stood six for conviction and six for acquittal. It was discharged and Mr. Farlow was taken back to jail to await a new trial.

The prosecution feels that its star witness, Glen Welton, who was brought here from the Pontiac reformatory to testify, did not impress the jury very favorably and weakened the state's case.

Farlow was charged with having broken into the Meeker confectionery in April 1928 and robbing the cash register.

**I THANK YOU**

Though failing of election, I nevertheless, want to thank all my loyal friends for the support they gave me at the polls Tuesday.

L. Lambrecht.

**IRRITABLE BUT TIDY**

At a meeting of the Domestic Science club, held at the home of Mrs. Fred Harmon Friday afternoon the subject for discussion was as to which kind of housewife was most desirable, the happy and slouchy kind or the tidy and irritable kind. The subject was debated by Mrs. Nettie Gifford, Mrs. Emma Davis, Mrs. Florence Sabin and Mrs. Mary Lanum. Guests present acted as judges and found in favor of the irritable and tidy type of housewife.
