FINAL \$25,000 MUST BE SIGNED UP BEFORE ANY CONTRACT SIGNING WITH THE SHOE CO.

Drive Monday Passed the \$100,000 Mark, While Executive Committee was Busy Re-organizing Plans and Assorting Unsigned Pledges

Farmers Were Called On Today

While Prospects Look Bright, There Must Be No Let-Up in Efforts until Goal of \$125,000 is Reached. Cannot Sign Contract Now and Raise Funds Later. Brown Shoe Company Would Reject Such Procedure. The Goal Must Be Attained Before Success of Drive is Positively Assured.

Monday the Brown Shoe factory fund passed the \$100,000 mark. Several merchants turned in their quota pledge cards and a number of smaller subscribers also signed up.

It was a rather quiet day in the campaign. This was due to the fact that the committees in charge were hard at work on the task of sorting over the unsigned pledge cards, checking up on those that had signed and generally getting things in shape for a renewed effort.

O. E. Lowe, in charge of the Farmers solicitation committee was very busy all day districting his rural territory and lining up workers for Tuesday.

Monday night the workers met at headquarters. There was no speech making, or anything of that kind. A spirit of quiet determination prevailed the atmosphere. There were no congratulations on the work done, but rather all were looking at the work still to be done.

Any doubt as the need for reaching the \$125,000 goal was dispelled. That amount is positively necessary before any contract can be signed with the Brown Shoe Company. The workers realize this. They know that this final \$25,000 will be hard to get, but they are firmly determined that at this stage the drive shall not fail.

Relative to the drive among the farmers, Guy S. Little stated that if any of the farmers do not want to make the cash donation, they can bring in livestock or machinery to be sold at the combination sale Saturday and that the funds realized on such donations can be turned into the factory fund. No commissions will be charged on such sales.

There was an apparent willingness on the part of all present to do their share in the work ahead. As territory was assigned, no excuses were heard. That is one very encouraging thing about this drive. The workers are given an assignment, they are told what to do, and they let their work and their business wait until they have done their share in the factory drive.

Mr. Lowe's rural solicitation committee was assigned to school districts and the organization was as follows:

- MILLER Dist.—John Grider and S. H. Oliver.
- ALLENVILLE—Farley Young and J. B. Tabor.
- VERNON—Dr. S. W. Johnson and Rev. J. C. Irvine.
- PALMYRA—Tobias Rhodes, J. J. Harsh.

- BAKER & HARMONY—Walt Stricklan and Roy Fitzgerald.
- BRUCE & MORGAN—Carl A. Dick and George A. Roney.
- UNION—Frank Newbould and A. Hagerman.
- PULLTIGHT & MT. PLEASANT—Clarence Miller.
- CUSHMAN—Dr. A. K. Merri-man.
- JULIAN & HENTON—Russell Shirey.
- REEDY—Charles Lansden and Walt Jenkins.
- NAZWORTHY & FORREST—E. A. McKenzie and H. S. Butler.
- DUNN—George L. Todd.
- E. HUDSON—W. H. Fisher.
- NEWCASTLE—Rev. C. E. Barnett.

HER FIRST CHECK
Little Catherine Nichols started off her financial life Saturday in a rather conspicuous manner. She is the daughter of Mrs. Mabel Nichols. She heard of other children pledging to the factory fund and decided to do likewise. Her mother consented to her request. She signed a pledge and then signed a check in payment—the first time she had ever done such a thing.

Editorial

Help Finish the Job

A task only partly done, develops into an aggravating nuisance.

You hear people say "They have the \$100,000 raised for the shoe factory. Let's go. We can raise the balance as it is needed."

That is poor logic. It is poor business judgment. It is impossible for the executive committee for one minute to entertain such a plan. The contract can not and will not be signed until the full \$125,000 is subscribed. The goal is set for the required amount. That amount is \$125,000 and it must be raised NOW.

Read carefully the statement of facts which has appeared in these dailies. You will note that besides the \$100,000 that the Brown Shoe Company requires as a community investment in its factory, our community must also furnish certain other things. It must provide a site and good walks leading up to it; it must provide a railroad switch. It must pay the factory's taxes for ten years and must pay for the water used during that period of time. Actual experience in other cities that have secured Brown Shoe Factories under the same kind of contract offered us, have proven that it will take at least \$25,000 to meet these expenses. At Mattoon it actually took \$26,000.

With the experience of other communities before us, we have a definite basis to figure on. We know that we have not set the goal too high at \$125,000.

The executive committee assures the community that there will be a careful accounting of every item entering into this proposition. Every dollar taken in and every dollar paid out will be recorded. After meeting all obligations, a careful audit will be made of the factory fund. Every dollar not needed will be paid back to the subscribers. The audit will be published so all can verify any item that they may wish.

Furthermore you are entitled to know that every officer of the factory drive organization and every worker is doing his part without salary or compensation of any kind. Not only that but these folks have all met their quota and many of them are among the biggest subscribers to this fund.

There never has been anything that welded the community interest of Sullivan and its neighboring territory more closely than this drive has done. There never has been so perfect a working organization that has tackled its task so wholeheartedly and has worked so persistently and faithfully toward a desired goal.

The \$100,000 so far subscribed has practically all been subscribed here in Sullivan. A few thousands have come from the farmers and from friends of the city. Some contributions have come from as far as Southern California, from whence S. W. Smysor sent his check and best wishes. A few of the wholesalers have responded. Most of them are sending words of commendation and good will, which quite naturally, do not go very far toward making up the \$125,000.

Please do not talk cutting quotas. Please do not ask it. The executive committee expects to put this thing over in a way that is fair and equitable to all. Everybody who has already signed has an interest in this matter. The aim is to handle the entire proposition on a basis of fair dealing that will leave no sore spots when the full amount shall have been subscribed.

To you who have not signed, please look at this matter in a reasonable light. You may think your quota high. Others thought likewise but knowing that what was asked of them was necessary to put the drive across, they have signed.

Let us cite you an instance. A workman and his wife, who both work by the hour, came to headquarters one night recently. Their quota was \$50. That was a lot of money for that couple, for their earning power is limited and so are the years before them.

"We have come to sign for what we can give" said they. Their quota card was taken out of the box. It said \$50. "That is too much" said they "we have decided that we can give \$25 and have brought the cash with us." Their plea was legitimate. It was reasonable. But the \$25 could not be accepted without breaking faith with those who had signed

their full quota. After a little argument, they saw the justice of this contention, signed for the \$50, paid down the \$25 and after leaving the office the man gave the old bell a shove to ring out to the world that they had done their just part.

That is the sort of spirit that is putting Sullivan to the front. That is the sort of spirit that will make this drive a success. I will venture to say that based on earning power and present property possessions, that \$50 quota was as high as anybody in this city has been asked to pledge.

This was but one instance. It is not an isolated case.

Let us cite you another. Saturday night we were sitting at headquarters. A young man walked in and said "What is my share in putting this drive across?" We did not know him. Doubtless none of us had ever seen him. We asked him his name. "I am _____." I own a little property in this city. You doubtless do not know me as I am on the road most of the time." One of the folks looked up the quota and said "Well, your share is \$100." "Very well" said he "Make out the pledge for that and I'll sign it."

Farmers have walked in and signed up though they live as far as a dozen miles from this city. One such remarked "Don't print my name, or people will think I'm crazy, to come all this way to make a pledge, but I want to see this thing go over." We assured him that his name would appear and that instead of people thinking him crazy they would classify him as one of the most progressive young farmers of the county.

Now you folks who have not yet signed, why not give the old town a lift; why not make the finish of this task easier for those who have worked at it so hard and long? You will benefit in some way, for the town will benefit as a whole and that includes you. You do not want to be left out on this drive? You can't very well afford that.

Get on the band wagon and ride with the booster crowd. You have worried about this matter and have debated long and hard with yourself as to what you had best do. Get the matter off your mind and heart and get that signature on your pledge. It will make you feel better. It will enlist you in the ranks of Sullivan's boosters and you will feel like giving a shout of joy and singing a song of victory when the news spreads over the land that Sullivan has reached its goal. The world is waiting to hear the glad tidings.

Help put this proposition over and you will know that Sullivan has insured its future, it has provided work for those who want to work, it has restored confidence in the days ahead. It will join the ranks of such other cities as Charleston and Salem and the sisterhood of cities where Brown Shoe Company factories have brought pay-rolls and prosperity.

Boys Playing in Powell Hayloft Started Fire

Youngsters, Innocent of Any Intention of Wrong Doing, Were Trying to See Litter of Kittens. Loss Covered by Insurance.

A few little boys anxious to see six little kittens Saturday evening were the cause of starting a fire that destroyed the barn on the J. A. Powell place at the southwest corner of this city.

Dean Selock, grandson of Mr. and Mrs. Powell had entertained several of his little friends at a wiener roast in the Powell orchard. Following this the boys went to the barn. In the hayloft was a nest in which were six little kittens. Dean wanted to show them to his friends. It was getting dark in the loft and one of the boys who had a match suggested that they start a fire in a big box setting there so as to get light to see by. The suggestion was carried out and of course disastrous consequences followed. The flames got into the baled alfalfa and the boys scurried out of the loft. Dean retained presence of mind enough to open a barn door and let some horses out. The others hastened to tell Mrs. Powell of what had happened. Help gathered speedily and the tractor and some other machinery were gotten out. Quite a quantity of baled hay, oats and some other grain were destroyed.

The Sullivan fire truck responded to the call but could do nothing to save the barn. The Powell farm is owned by Russell Bauman of Warrensburg, who bought it last Winter. He had \$1250 insurance on the barn and Mr. Powell had insurance on the contents. This is the second barn that has burned on this site. A previous one was struck by lightning and burned some years ago, shortly after Mr. Powell bought the farm from J. K. Martin. The present structure was reared on the same foundation, and this foundation seems to have suffered but little in Saturday's fire.

Mr. Bauman who was here Sunday expects to move to this place in February and Mr. and Mrs. Powell will move to the Tobe Lovins farm in Shelby county, west of Kirk station. Mr. Powell is the owner of a famous herd of Jerseys, which in production and show type have recently attracted much attention.

ILLINOIS DAY NATIONAL DAIRY SHOW, TUESDAY

OCT. 15 AT ST. LOUIS St. Louis, Mo. Sept. 30—Illinois Day at the National Dairy Show will be Tuesday, October 15, and preparations are under way to insure a large attendance from every county especially those in which dairying has received special attention. Special trains are being organized in several communities and in other motor cavalcades are being formed for the trip to St. Louis. Very low rates are offered by all railroads.

In a talk dedicating the great Arena, where the National Dairy Show will be held, Secretary of Agriculture Hyde a few days ago pointed out the growing importance of the dairy industry and congratulated the people of the Middle West upon the fact that this National exposition of dairying and decided upon a permanent location in St. Louis.

In addition to the dairy show, where 1500 or more perfect cattle of the leading dairy breeds and a display of dairy products, machinery and supplies covering several acres will be shown, there will be a poultry show and a horse show of national proportions. A great operatic chorus of 1000 voices and a concert band of seventy five pieces will furnish music and there will be many entertainment features.

Entries for the show, make a total of nearly 1500 head, Jerseys leading with 427; Holsteins, 358; Guernseys, 237; Brown Swiss, 146 and Ayrshires, 108. Both Canada and Cuba are represented. Among the Illinois Exhibitors are: A. E. Bower & Son, Bush-ton; Schultz Bros., Galt; H. C. Horneman, Danville; Ernest Holland, Harrisburg; Birtus Higgins & Son, West Salem; Henry Keesler Danville; Mr. and Mrs. Chauncey McCormick, Naperville; Louis Thompson, Harrisburg; Myron and Eugene Young, Bismark; Elmwood Farm, Deerfield; Hyde Park Farm, Palos Park; J. V. McCarthy, Joliet; Jessalee Malla-lieu, East St. Louis; Rock River Farms, Byron; Silver Glen Farm, St. Charles; B. F. Adkins, Newton Jackson D. Hoge, DuQuoin; Maurice Russell, Newton; H. J. Schweitert, Chicago.

PROSPEROUS RAILROADS GIVE BETTER SERVICE

Since the railroads help business, business men in turn should be interested in the railroads, according to L. A. Downs, president of the Illinois Central System. The maxim "live and let live" is thus made the basis for his October letter to the public.

As proof that the progress of the railroads has contributed greatly to the favorable business situation that now exists, Mr. Downs points out the adequate supplies of cars, locomotive and other facilities, the reduction of the time freight is in transit, the speeding up of passenger trains and the exactness with which schedules are maintained. Improved railway service, he explains, has reduced inventories, stabilized prices and prompted regularity of supply and demand. The rule necessarily works both ways. The railroads must prosper in order to help other lines of business to prosper," Mr. Downs concludes.

VIC GROTE HAS BOUGHT TABOR GARAGE BLDG.

Another real estate deal for uptown property was closed Monday when John L. Guingrich sold to Victor Grote, the garage building, generally known as the Tabor garage. C. H. Tabor was the last occupant of the front part of that building. Sid Cool still maintains an auto paint shop in the rear thereof.

The title in the property has changed hands several times in recent months. The Missouri State Life Insurance Company has carried a mortgage on it.

Mr. Grote who is now in the garage and automobile business at the corner of Harrison and Hamilton streets expects to move his business to his new property.

1,200,000 CHEVROLETS ON MARKET SINCE JUNE 1

Detroit, Oct. 5—The Chevrolet Motor Company announced here today that more than 1,200,000 of the new six cylinder Chevrolet cars have been placed on the road since the first of the year.

This achievement accomplished in little over nine months, is three times the best showing of any other manufacturer of six cylinder cars in a calendar year and tops Chevrolet's record total for the entire year of 1928.

It is now certain that six cylinder production will set a world record this year, surpassing for the first time in the history of the industry the output of four cylinder cars. This leadership of the sixes will come about chiefly because of Chevrolet's record showing this year.

Chevrolet factory officials declare that the dominating reason back of the leadership of the six is the public preference for the advantages which this type of construction affords. They point out too the influence of great volume production, which has enabled the industry to get six cylinder prices down to the lowest on record and has made it possible for Chevrolet through maximum volume to offer six cylinder performance at a price that formerly bought only a four.

With a new yearly record already assured, Chevrolet factories are continuing on the biggest Fall production program ever undertaken by the company. Nine assembly plants and seven large manufacturing plants are facing the busiest final quarter that Chevrolet has ever known.

The heavy Fall factory program was made necessary, it was explained, to bring production up to the level of the demand and make possible quicker deliveries to owners.

MOULTRIE HAS FAIRLY GOOD DIVORCE RECORD

Moultrie county during 1928 had 92 marriage and 16 divorces, according to official statistics. In 1927 there were 79 marriages and only 12 divorces.

In this respect Moultrie's record compares well with other counties in the state. In the neighboring county of Macon there were 804 marriages and 200 divorces last year; Coles county and 74 divorces and 386 marriages; In Peoria county the divorce rate was about one third of the marriage rate, there being 532 divorces to 1434 marriages.

Our neighboring county of Shelby had only 22 divorces to 200 marriages. Cook county had 37,566 marriages and the divorce figures are about one fourth of this, or 9,385.

For the entire state the number of marriages in 1928 was 79,725 and total number of divorces was 15,703. In the same period of time 172 marriages were annulled.

BROOMCORN CUTTERS IN AUTOMOBILE SPILL

Early Monday morning Levi Wells took his Chevrolet and accompanied by Albert Myers, Link McCune, Louis Castang and Frank Welsh started for the Leonard Riley place north of this city where they were going to cut broomcorn.

Near the W. E. DeVore place the car skidded on the wet oiled road and got out of control. It turned on its back in the ditch. The occupants crawled out, decided they were not hurt, put the car right side up and headed it back to this city. The top of the car was the only thing damaged, but the broom corn cutters did not go to work.

REV. HOPPER'S OFFICE TERM EXPIRES OCT. 15

Rev. W. B. Hopper, who for the past four years has been serving in the department of Rehabilitation and Vocational Education for the central portion of Illinois will be out of his job on October 15th.

Rev. Hopper's duties were under the jurisdiction of the state and federal governments. The appointive power is vested in the governor and his appointments usually get Federal sanction. Gov. Emmerson has named new men on this work in Illinois and Rev. Hopper's duties will expire October 15th.

The department in which Rev. Hopper has been serving looks after people who are crippled and endeavors to train and educate them so as to be self-supporting.

Rev. Hopper's appointment came through former Gov. Len Small. He was his chief lieutenant in this county and when the Emmerson avalanche swept Small out of state politics, there was very little hope that Rev. Hopper would long be continued in his office.

HERE IS A REAL TON LITTER OF CHESTER WHITES

William McKown an ag student of the Sullivan Township High school has a real ton litter of hogs at the home of his parents, Mr. and Mrs. C. C. McKown on the hard road north of this city.

On the day the litter was six months old it weighed 2310 lbs. There are twelve pigs in the litter. Two of these were hand fed when small and never did as well as the other ten or the total weight would have been considerably more.

SULLIVAN WON OVER ASSUMPTION BY 8-7 SCORE

Sullivan sport enthusiasts were much elated Saturday afternoon when Coach Dennis' high school team upset all predictions and defeated the strong Assumption eleven by a score of 8 to 7.

Last year Assumption had defeated Sullivan and it was generally conceded that the Assumption team was better this year than last. It may be but the Sullivan lineup gave a very good account of itself and kept the visitors from scoring in the last two quarters.

Coach Dennis had the following boys on the battle line: J. Gramblin, LE, Christy LT, Hogue, LG, C. Freeman, C. Brumfield RG, Shirey, RT, Lundy RE, E. Freeman QB, Hoskins LH, Horn RH and Ward FB.

This coming Friday the Lovington team will play here.

DAHLIA STORAGE

The one difficult phase of dahlia culture is successful storage of the dormant roots. As soon as the tops are killed, lift the plants and cut the tops off 8 to 12 inches above the crown. Let the tubers dry in the air for a few hours and store them in a frost-free cellar that is not too dry. If the cellar is too warm or too dry, as is apt to be the case, store the roots in barrels filled with dry sand or sawdust. Great care should be used not to injure the roots in digging as decay that starts in a wound will soon spread to healthy roots.

TUCK SHIPP SAYS "I'M IN FOR MORE IF IT IS NEEDED"

"Come on tell the bad news" said John (Tuck) Shipp when the factory solicitors called on him last week. They unfolded the pledge. It was quite big, but Tuck never even blinked. He grabbed a pen and attached his signature while he remarked "Well, that was easy."

This morning Tuck walked into The Progress office and stated that he wanted the public to know that he was very much interested in the success of this drive and if others do not come across with their share he is ready to do even more than he has already done.

"You put that notice in the paper and I'll pay for it" said Tuck. "I want folks to know that I'm strong for this factory. If everybody could realize what this will mean to Sullivan, it would not take much longer to put it across."

It is fellows like Tuck and his attitude in this matter that put the bright spots into the life of the workers for the fund.

GRAND JURY WILL MEET OCTOBER 7TH

The grand jury which is recessing will meet again on October 7th and not on October 9th as was stated last week. Judge Wamsley will hold circuit court here again on October 16th.

—Mr. and Mrs. Henry Wright of 325 N. Austin Blvd. Chicago, spent the week end here with Mr. and Mrs. James Wright.
