THE SULLIVAN PROGRESS

The pride of thine heart hath deceived thee, thou that dwellest in the clefts of the rock, whose habitation is high; that saith in his heart, Who shall bring me down to the ground?

Though thou exalt thyself as the eagle, and though thou set thy nest among the stars, thence will I bring thee down saith the Lord. -Obadiah 1:3-4.

He had gotten in bad. In company with some of his rough-neck friends he had robbed a bank. Naturally he was sorry, but at the same time rather hard boiled. He was taken prisoner. That was unexpected as he thought he had covered his tracks. But a good friend of the family was ready to go his bond for a certain commission. He got out of jail. A sharp lawyer defended him. He saw a long hard fight ahead to keep out of the penitentiary. His share of the bank loot was small. The bondsman's commission and the lawyer's fee were big. Would they drop him when his funds were exhausted? Perhaps. So he needed more money: To get it he helped rob another bank. The law made it easy for him to do that. He was at liberty. He needed money. Doubtless the first charge would result in conviction, so who can blame -A page from every day life. him?

THE LAMENT OF SENATOR DENEEN **GREGORY FOR STATE TREASURER** WHAT THE COMICS TEACH

Senator Deneen in his talk here Saturday was rather bitter against the insurgents in the Republican ranks, who have joined with the Democrats to oppose some of the things that the "regular" Republicans are trying to do at Washington.-The Senator, by inference, gave the assurance that he was regularly and dependably Republican.

He stated that the country in the election of 1928 in dorsed the Hoover policies and the platform of the party as adopted at Kansas City. Therefore, President Hoover ought not be handicapped in putting his ideas of legislation into effect.

That looks reasonable, does it not?

Let's look into the matter a little deeper, however.

Who are these Republicans who are throwing a monkey wrench into the Hoover legislative machinery? Are they a bunch of outcasts who opposed Hoover's election? Far from it.

It all seems to hinge on a matter of interpretation. Just what are the Hoover policies and just what did the Repub-

but we do wish that we could jump across the imaginary political line just long enough to mark a ballot for Charles A. Gregory of Lovington, who is a candidate for the nomin-

FRIDAY, MARCH 21, 1930

ation for state treasurer on that ticket. We sincerely hope that Mr. Gregory lands that nomination. We're for home folks, especially if we know them well and know that they are qualified. About the only mistake that Charles Gregory ever made that looks rather glaring in our opinion, was when he identified himself with the Republican party, but he doubtless inherited his politics, so you can't blame him very much at that.

The small counties like Moultrie don't have much of a look-in with the Republican slate-makers. The big guns in the G. O. P. Illinois hippodrome seem to have selected a so I believe, each in his own way, man named Clarence Buck as their candidate, but there are men interested in friend Gregory who are no amateurs at political manipulation and vote corralling and the whisper but just what can he buy with it? is coming down the line-"Don't say that I told you, but Charley Gregory has an excellent chance to land that nomination." We hope he does. If he makes the riffle, we'll cross over in November and give him a good Democratic vote. We'll scratch a ticket any time, if we can help to put a Moultrie man into a state office. Though Elmer Bowers, John Elliott and some of the brethren may deny it, we do will be just as wet, and underadmit that there are some pretty good fellows on the Republican side. They were born there.

Being interested in the most direct route to the hearts of the masses of the people, I have long wondered just what is the quality a newspaper comic must have in order to win its sunshine; he can not bribe the wide approval. My study has led me to three conclusions: ocean to give him any more invig-First, a comic like "Mutt and Jeff" appeals to the vagabond spirit. We like these two scalawags because they are so his estate. carefree, irresponsible, and adventurous. Second, their ugliness and stupidity contribute to any sense of superiority we may have ourselves. In our most awful nightmare we bring him any sensation a particle never find ourselves in situations so utterly embarrassing and devastating as this pair encounter in their daily adventures. Think of taking your best girl to a restaurant and being thrown out because you could not pay the bill! Jeff Candidate Announcements has been thrown out of the worst and the best places. Third this series of comics shows that men who are supposedly We are authorized to announce good friends often feel like humiliating each other. It tends to "debunk" a form of false friendship.

That consummate fool, Andy Gump, boasts like a champion, and then yells for his wife the moment he feels a pain. Uncertain though we may be of ourselves, we do not, in our lowest moments, see ourselves at his level. This tends to encourage us. And Jiggs, the pitiful character in Bringing Up Father! Married to a shrew, he is harrassed and beaten beyond the imagination of the most hen-pecked husband. How sweet his adventures must be to those benedicts who take daily punishment.

Charlie Chaplin has tapped the same universal sympathy for ne'er-do-wells who talk or tip-toe through life, doing everything wrong, making mistakes in etiquette, trying to appear to be something they are not and getting caught. Charlie Chaplin lets us see that fools though we may be announce that Chester L. McKim ourselves, there is still a bigger fool upon whom we may

smile patronizingly and indulgently. My interpretation of the million-dollar stage success, "Abie's Irish Rose," conforms to the same formula. The mary April 8, 1930. Your support characters in this play are kindly human beings who do everything wrong at the first try. No one can see them in action without feeling that here is a group of prize jackasses. This accounts for the hilarity of the audiences that see this play. They go home in a glow of self-approval. -Imperial T. M. Magazine

The Way of Life BY BRUCE BARTON

"THEREWITH TO BE CONTENT'

I ran across this paragraph in sings which he has and I have not the note-books of Samuel Butler: are insignificant. "I imagine that life can give nothing much better or much formed, not from without but worse than what I have myself from within. experienced. I should say I have "There is no duty we so much

proved pretty well the extremes of mental pleasure and pain; and does almost every man.'

Charles M. Schwab, at last reports, had more money than I-Three meals a day. They will cost more to serve than my three, but if Charlie enjoys them any more he is going some.

A roof over his head. It will be a wider and steeper roof than mine, and more rain will run off it; but the rain that runs off mine neath I shall be just as dry. A good night's sleep-if he's

painful proposition for some of the young ladies, judging by the way they walk. But as Abe Lincoln said: "This too, will pass."

The other day we asked a prominent farmer, who is one of Governor Emmerson's official family "cheat." Now to tell us about every farmer who grows wheat knows what cheat is, but at that it seems to be a rather mysterious grain. When the winters are hard and the wheat plants are badly frozen, a crop of cheat usually follows. Now the disputed quertion is "Does wheat turn to cheat under unfavorable weather conditions, or is cheat a grain which thrives in weather that is bad for the wheat." In other words what and why is cheat? If any farmer wants to explain this matter or state his views on the subject, send in your communication. For announce that John E. Jennings is thirty long years we have been a candidate for County Judge, wondering what cheat is and we hope some day to know. The man cratic primary, Tuesday, April we asked recently, immediately 8th. He respectfully solicits your got into an argument with another fellow and we are unenlightened as ever.

petroleum...

Combine unusual advantages in a new motor oil — better lubrication at extremes of temperatures, both high and low - reduction of carbon to a marked degree - no "thinning out" in the crankcase.

ONLY OCCASIONALLY is it pos-sible to announce an advance in manufacturing methods that makes so important a difference in results.

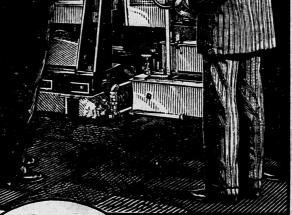

New Iso-Vis Motor Oil was perfected by leading oil engineers working for more than a year in our labo-ratories at Whiting, Indiama.

Notice its color. It is rich amberdue to the fact that the sturdy body of this oil is not obtained by adding undistilled parts of the "crude". It is a wholly distilled motor oil.

Comparisons in accurate engine tests show a reduction in carbon formation far below most premiumpriced oils.

In addition, New Iso-Vis has what engineers call a "wider viscosity range". It works better both at high engine temperatures and at extremes of cold.

Most important of all, perhaps, Iso-Vis actually resists dilution and does not thin out in the crankcase. Note the sturdy body of New Iso-Vis as you drain it out after many hundreds of miles of driving. Compare it with

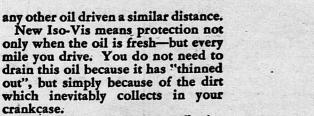

A GROUP of engineers from leading technical schools inspect the re-search laboratories at Whiting, Indiana.

THIS experiment proves that New Iso-Vis does not "break down". Used Iso-Vis is poured through a special filter. The filter removes the crankcase dirt only—and the oil itself is exactly the same as when freshly distilled.

New Iso-Vis means protection not only when the oil is fresh-but every mile you drive. You do not need to drain this oil because it has "thinned out", but simply because of the dirt which inevitably collects in your

a Complete Service

We are equipped to build your basements either for your old house or a new one.

1st-If it is a basement under your old house and it is necessary to raise it, we have the jacks and timbers necessary for a safe and careful raising.

2nd-Our excavation equipment consists of a large dirt conveyor which elevates the dirt from under the house to the yard or truck. If it is necessary to move the dirt from the yard, we have dump trucks for that service.

If a block wall is desired, we have a large stock of basement and foundation blocks on hand at our plant yard and have men to lay them in the wall.

If a poured concrete wall is desired, we have the forms, concreting materials and mixers necessary to give you a first class job.

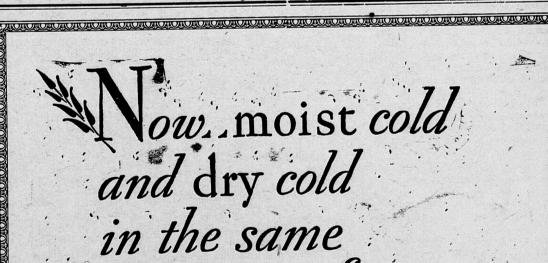

We also lay concrete floors and do necessary drainage.

This complete service and equipment enables us to do your basement work at a minimum expense to you.

WHY WAIT LONGER FOR EGG PRODUCTION WHEN HAYES SUPREME CHICKS LAY SOONER?

One of our customers said that upon finding eggs in the nest when his Buff Orpington pullets were only 114 days old, he thought his neighbor was playing a joke on him. But now he is convinced it was only the usual characteristic of Hayes Supreme Chicks.

WHY RISK YOUR ORIGINAL MONEY ON CHICKS YOU DON'T FEEL SURE OF, WHEN YOU KNOW HAYES SUPREME CHICKS MAKE MORE MONEY?

Another customer -- a woman -- wrote us: "I don't know if it will interest you to hear about the White Orpingtons I received from you last May. As this was my first experience with chickens, I think I did good. I had 25 pullets and they started to lay November 26, and to April 1st, they laid 1,305 eggs." Buy your Pane Paris Hayes Hatcher,

Frigidaire equipped with the new Hydrator now offers an extra service See our special demonstration today. Al

Now, you can have moist, reviving cold for vegetables and dry, frosty cold for meats and other foods - both in the same cabinet. You can have the right type of refrigeration for every kind of food. You can enjoy a new convenience in your kitchen: All of these advantages are brought to your home by the new Frigidaire Hydrator.

Celery comes out of the Hydrator crisp and brittle. Lettuce takes on a dewdrenched freshness: Tomatoes become

firmer. Parsley, cress and other garnishes almost seem to grow again!

You'll want to know more about the Hydrator. And you'll want to know more about the "Frigidaire Cold Control." You'll want to see and examine the beautiful cabinets in rust-proof Porcelain-onsteel inside and out. So make it a point to attend our special demonstration.

New Device for the Deaf No Larger Than a Dime

Latest Type Phone Has Concealed Sensitive Transmitter Capable of 104 Variations.

This device with its small receiver, has been produced by the Dictograph Products Corporation, and is, the result of twenty-five years of scientific experimentation to produce an aid to the hard of hearing which will be both practical and almost invisible.

We, as agents for this wonderful aid to the hard of hearing, want the people around Sullivan to have a chance to see for themselves just what it is, and know the benefit derived from its use; therefore we have made arrangements for our Mr. Grosch to be in Sullivan, Wednesday, March 26th. He will have with him a number of Models of the Accousticon and will be glad to demonstrate their use.

Our Headquarters will be at Robinson's furniture store, and hours 10 a.m. to 4 p.m.

Don't forget the date and place, tell all your friends, and meet Mr. Grosch there that day.
