

CHICKEN AND OTHER GOOD EATS; PAY ONLY 50c; HELP YOURSELF

Mrs. Lela Bupp, president of Loyal Daughters Sunday school class of the Christian church is busy appointing committees to prepare for the big chicken fry which the class will give Wednesday evening August 27th. It is planned to make this the biggest "fry" of the season.

The "Daughters" have decided that the most popular way of satisfying those who patronize them is to put all of the eats on the table and let the diners help themselves. The charge for a feast of this kind is only 50c. There will be no reserved seats. First come, first served.

What Will you do
When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night you find you very thankful there's a bottle in the house. Just a few drops, and the colic or constipation is relieved; or diarrhea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless. Castoria was never more popular with mothers than it is today. Every druggist has it.

Mrs. Richardson's Report on Sullivan's Community Affairs

(Continued from last week)

Shoe Factory Pledge \$100.00 Pledged meeting payments in full when due. We had 14 regular meetings. Thirteen homes entered Influence left behind. Every member taking some part at some time during the year.

Current Events, Legion Auxiliary and Past Presidents entertained. Lovington and Bethany entertained and local guest day. Refreshments served each time.

Campfire girls gave demonstration at first regular meeting. 2nd. Camp Fire Group.

Participated in High School homecoming, Float and dinner.

Sponsored Red Cross drive, \$230.00—200 members and several other donations. Good team work and thorough organization.

Book Week. Program, discussing literature suitable for all ages. Paper, "Adult Literature" sent to state office. Club voted to buy a book for library.

Several members gave a book or money to buy one. Also subscribed for "Federal News" for President and she for Library.

Bible study as Literature was given a place on our program.

Washington, D. C. and her statesmen were presented to us in quite an interesting and pleasing manner by one who had been there.

Illinois was studied from her early history, her historical spots, Art and Sculpture, her poets, authors and music.

The American Indian came in for his share of study and discussion for is he not by right of birth the real American?

Thanksgiving and Christmas weeks were observed with appropriate programs and music. A play "Those Christmas Gifts" was especially worthy of mention.

The club furnished two baskets containing Christmas dinners to poor; another was donated. The club helped pack and deliver 25 others.

The Girls Glee Club of the H. S. favored us with a number of selections one afternoon. A very interesting and instructive talk on Hawaii was given, illustrated with pictures and curios from this wonderful island. Bird and tree conservation was discussed, also wild flowers and gardens. The club held a garden and flower exchange. A History of Sullivan Community and its early social life proved very interesting and entertaining. Especially interesting were the pioneer incidents related by different members.

Several copies of the Kellogg

Peace Pact were typed and given out to the members.

Quite a treat was given the club in an Art exhibit. Pictures of the work of local people, some from neighboring towns, a traveling exhibit from Springfield; also collection from Co. Supt.'s office was shown. Paper on "Art" was sent to the State.

Shakespearean program was given.

Education Loan fund supported. Gave \$5.00 to Park Ridge school. Sponsored a benefit show. Pre-School Health Examination. Endorsed. Club trio has sung on several occasions and will sing at the district meeting in Monticello.

The following has been added to the above report:

"We have a Kiwanis club which sponsors the Boy Scouts and other boy movements. This club has a weekly dinner with local and outside speakers.

"The Community club is active in all civic affairs and took a leading part in the factory drive.

"One question in the questionnaire which the national organization submitted was: "What do you consider the outstanding accomplishment of your community during the year?"

"The answer to this was—our successful factory drive which included the raising of \$125,000. This point was stressed as being an unusual undertaking for the city of the size of Sullivan. A picture of The Brown Shoe Factory recently published in The Progress was included in the report.

"A feature which is emphasized by the "Better Homes in America" is a "Demonstration home." Owing to the fact that our factory drive was on, we did not feel that it would be wise to attempt a project of this kind. This no doubt affected our standing as to awards, also the fact that our factory drive was a commercial venture.

"Next year, we hope by the co-operation of the civic organizations to attempt a "Demonstration Home." Many neighboring towns and cities have done so successfully.

"This report is published in response to request and in order that those who worked in the civic organizations last year and bore the responsibilities of the same, may know how we are rated as a community by such an outstanding authority as "Better Homes in America."

Mrs. E. W. Richardson, Local Chairman, Better Homes in America Com.

MANY SULLIVAN PEOPLE VISITED PANA FORD SHOW

An interesting industrial and educational exhibit was the Ford Show, given under a tent at Pana the early part of this week.

These shows are being given in various parts of the country and the Pana show was nearest to Sullivan and was given partly for the benefit of Carl C. Wolf the local dealer.

A series of moving pictures and lectures showed the Ford plants in operation. Sources of raw material were shown and also the gradual process through which they were made into Ford cars. By-products of these raw materials are a big feature of Ford manufacture. Nothing is wasted. All unnecessary labor is eliminated. Machinery, more accurate than man can ever be, performs auto-natically some of the most difficult operations in the process of car manufacturing.

All models of Ford cars and trucks were on display. Lecturers explained the main features of car construction and operation. Instruments were exhibited which are used to gauge the accuracy of Ford parts.

Thousands of people visited this show each day. They asked questions. They did not come to be entertained but to learn. The whole show was a case of bringing to the attention of the people the wonderful facilities used in the Ford factories.

From Pana this show will be routed toward Indianapolis and will be in Mattoon on Friday and Saturday of this week.

Meeting the Needs of Millions of People

The low-priced automobile has brought greater opportunity and added hours of recreation to millions of men and women.

BECAUSE the automobile is such an important factor in the lives and prosperity of so many people, the purpose of the Ford Motor Company is something more than the mere manufacture of a motor car.

There is no service in simply setting up a machine or a plant and letting it turn out goods. The service extends into every detail of the business—design, production, the wages paid and the selling price. All are a part of the plan.

The Ford Motor Company looks upon itself as charged with making an automobile that will meet the needs of millions of people and to provide it at a low price. That is its mission. That is its duty and its obligation to the public.

The search for better ways of doing things is never-ending. There is ceaseless, untiring effort to find new methods and new machines that will save steps and time in manufacturing. The Ford plants are, in reality, a great mechanical university, dedicated to the advancement of industry. Many manufacturers come to see and share the progress made.

The greatest progress comes by never standing still. Today's methods, however successful, can never be taken as wholly the best efforts of the moment. Tomorrow must bring an improve-

ment in the methods of the day before. Hard work usually finds the way.

Once it was thought impossible to cast gray iron by the endless chain method. All precedent was against it and every previous experiment had failed. But fair prices to the public demanded that wasteful methods be eliminated. Finally the way was found.

A better way of making axle shafts saved thirty-six million dollars in four years. A new method of cutting crankcases reduced the cost by \$500,000 a year. The perfection of a new machine saved a similar amount on such a little thing as one bolt. Then electric welding was developed to make many bolts unnecessary, and to increase structural strength.

Just a little while ago, an endless chain conveyor almost four miles long was installed at the Rouge plant. This conveyor has a daily capacity of 300,000 parts weighing more than 2,000,000 pounds. By substituting the tireless, unvarying machine for tasks formerly done by hand, it has made the day's work easier for thousands of workers and saved time and money in the manufacture of the car.

All of these things are done in the interest of the public—so that the benefits of reliable, economical transportation may be placed within the means of every one.

FORUM

WHAT IS WRONG? (R. W. Hudson)

Say what is wrong, do you know, Why we get so little, aitch two O The aitch two O, that falls in drops To liven up our wilted crops.

Is it because, that we've been had This season so little rain we've had; The crops famish, the leaves roll and wilt, What is the fault, where is the guilt?

Say is it you, or is it me, Had we ought to cast lots to see. Has some one coveted and done wrong, And taken things that did not to them belong?

Has some one done like Achan of old Who coveted garments, Silver and Gold Who wanted goods and worldly pelf Transgressed God's call and fell himself.

Say what is wrong, or is it fate Or have we a Jonah in the Ship of State, Who has his duty, and oath ignored, That he should be cast oyerboard?

Is it because people have gone money mad, That our crops, has so little aitch two O had; Them that complain and make lots of fuss About too much grain, too much surplus?

Too much grain, and too little gold The farmer has no place his grain to hold Is it because he would raise too big crops That so little water on his fields drops?

The pasture bare, the grass don't grow Because it needs, some Aitch two O, This spring, so little rain or dew This fall his taters will be few.

Last year in Spring was the reverse Too much rain and water was our curse, Till awful late, the rain did fall The corn crop was not much good at all.

This season so little dew or rain we had It looks like the farmer has got in bad. With sorrow and grief, his cup o'erflows For he is bad in debt, can't pay what he owes.

With the small price for his wheat He has not the money his debts to meet. No matter how bad, they have got his goat, On him, they will more taxes vote.

So the farmer can work, stew and fret And curse the day, he went in debt But it makes little difference what he may say Taxes and his debts, he will have to pay.

Say what is wrong, does some one know? Instead of relief, our troubles grow Its the wrong kind of advice, that is our curse Instead of getting out of debt, we get in worse.

We will have to get it fixed in our gourd To quit buying things, we can't afford. Be kind and fair to our kith and

kin And quit paying high salaried men. And try to be fair and just to all Whether they be poor, rich, great or small And all should try to make life sweet So every one may have, enough to eat.
