Fine Exhibits and Much Interest in Judging. George Iftner Judged Livestock. Cecil Shasteen Had Best Baby Beef.

The 4-H club show at Sullivan Tuesday was the largest show yet held. Twenty head of baby beefs all of them Angus but one was the high point of the livestock show. Cecil Shasteen took 1st place on Buck a small thickset Angus of the blocky type and won the favor of the judge in the beginning of the show. G. H. Iftner, farm adviser of Effingham county who was formerly Agricultural instructor in the Sullivan schools judged the livestock. Mr. Iftner did the work in a very creditable manner and after placing the animals he allowed the spectators the privilege of asking questions. Explanations were made for the decisions made which gave the boys as well as the onlookers information regarding the judgment made. The attendance at the show was over 500.

The judging of stock began at 10 o'clock and the awards were made on the girls clothing at the

## PROBATE MATTERS

Because Samuel Robertson has been absent from this county seven years and his whereabouts is unknown, steps were instituted by Howard Robertson in the probate court this week to administer the estate of the missing man. A hearing will be held Sept. 21st.

It was found that there is no inheritance tax due in the estate of the late Cash W. Green.

F. J. Thompson has been named administrator of the estate of the late Oliver Standerfer of Dunn. Bond was given in amount of \$500. The hearing will be the first Monday in October.

## Les Atchison and Buck Fisher Buy Building Site

A deal was closed this week whereby Leslie Atchison and Buck Fisher became owners of the 75x92 foot lot on the corner of Harrison and Van Buren streets. This is the property west of the Progress office. The owner of it was Dr. Ed Craig of Kentucky and Miss Hattie Houghlan is occupying the house now thereon.

The new owners expect to remove the dwelling house and build a one-story building to house the Tire & Battery Station and on the corner the Fisher Oil Company will have a super station. Offices for both companies will also be located in this building. Work on the new structure will begin in the very near future.

Mr. Atchison and Mr. Fisher are among the city's enterprising young business men and their new deal shows plainly that they have confidence in the future of Sullivan and are willing to back it up with their investments.

## HAROLD NEWBOULD AND LETHA BUSHART MARRIED TUESDAY

Miss Letha Bushart of this city became the bride of Harold Newbould, at 8 o'clock Tuesday evening, August 18th at the home of the bride's parents, Dr. and Mrs. E. E. Bushart at 1108 Harrison street.

The single ring ceremony was performed by Rev. L. L. Lawrence. The bride is the youngest daughter of Dr. and Mrs. E. E. Bushart and a sophomore in the Sullivan Township High school. The groom is a son of Mrs. Harley Bartley. His father was the late Sam Newbould. Because of the youth of the couple—the bride is 15 and the groom 20, the mothers of the contracting parties appeared in the office of the county clerk and gave their consent to issuing the license.

Following the ceremony and congratulations light refreshments of Angel food cake and ice cream were served.

Those present were Rev. L. L. Lawrence, Mr. and Mrs. Harley Bartley, Miss Enid Newbould, Wayne Miller of Champaign, Mr. and Mrs. John Bushart and granddaughter, Bernita May, Wilbur Bushart, Mildred Chaney, Mr. and Mrs. John Bracken and daughter Helen of Sullivan, Mrs. Sarah J. ## T-BONE CALF CLUB SHOWS AT ARTHUR FAIR

Ten Angus calves from the T-Bone calf club of Sullivan are entered at the Arthur fair. Most of these calves ranked high in the County Club show held here Tuesday and will undoubtedly carry off high honors at the Fair.

The boys showing are Junior Evans, Cecil Shasteen, Victor Shasteen, Charles Lane, Orris Lane, Joe Purvis and Jack Purvis. Many who have seen the 10 baby beebes belonging to these boys say that they make up the best club exhibit at the Fair. These calves are located in the Vocational Agriculture tent just north of the school building. The boys are camping on the grounds and caring for their calves during the week.

## D. ROBERTSON DIED SATURDAY IN DECATUR

Remains of Former Sullivan Resident Brought Here for Funeral Services. Burial was in Bethany Cemetery.

S. A. Douglas Robertson, former resident of Sullivan, died suddenly at his home in Decatur early Saturday morning. He had been in ill health for some months. After breakfast he had gone into his shoe repair shop and sat on a couch. When his wife entered this room about eight o'clock she found him sitting on the couch, dead. Heart trouble caused his sudden death.

He was a native of Moultrie county, having been born here on August 14, 1860. At the time of his death he was 71 years and one day of age. He was a member of the Sullivan Christian church.

His wife, the former Miss Eva Foster and six children survive him. They are B. B. Robertson of Modesta, California; Wade Robertson of this city; Ralph Robertson of Anaheim, California; Mrs. Frank Wolf of San Antonio, Texas; Mrs. K. B. Hamblin of near La-Place and Mrs. J. O. VanValey of Champaign. He also leaves his brother John Robertson of Gilbert, Arkansas.

Mr. Robertson spent most of his life in the shoe business. Up to eight years ago he was in business with his son Wade here. He then moved to Decatur and conducted a repair shop on North Water St.

The remains were brought to this city to the McMullin Funeral Home where they remained until Monday afternoon when they were taken to the Christian church where services were held at 2:30 o'clock in charge of Rev. W. B. Hopper. The funeral cortege then went to Bethany and burial was in the cemetery there.

The pall bearers were Fred D. Sona, E. O. Dunscomb, Herman Lambrecht, Charles Jordan, F. A. Brown and David Cummins.

Out of town folks here to attend the funeral were Mr. and Mrs. Van Valey and son Nate, Elmer Bailey and family, Mrs. Lela Armstrong, Mrs. Frank Roberts, Mr. McCrea, Gerald Garrett and several others from Decatur; Doris Hamilton of Mattoon, Fred Lindhorst of Paris, Mrs. Stafford of Herrick, Mr. and Mrs. J. P. Cordray of Bethany, Mr. and Mrs. Charles Hamblin of La-Place, Mr. and Mrs. J. O. VanValey of Champaign and Mr. and Mrs. K. B. Hamblin of Lintner.

The following Decatur ladies served as flower girls: Naomi Roberts, Lois Garrett, Lois Fleming, Cora Mae Ramsey, Ruth Dresback and Mrs. Howard Craig.

## BASEBALL

Manager John McClure's Sullivan Browns had a strenuous afternoon Sunday. Slated to play the Decatur Orioles, that game was cancelled and the Mueller No. 3 team came here instead. Another Decatur team called the Indees came here to play the Shell team but failed to make connections so they appealed to John for a game. By agreement the local team played both Decatur teams, each a 7-inning game.

In the first game with the Muellers Sullivan won easily 5 to 1. All of Sullivan's countere were made in the third inning. Decatur scored its one run in the first inning. Joplin and Patterson were battery for Decatur. Ezell and Smith pitched for Sullivan and Dowdy was behind the plate. This was fifth straight win for the Sullivan Browns.

Summary of score: R H E  
Browns 005 000 0 5 5 2  
Muellers 400 000 0 1 8 2

**Second Game**  
Swatting and puffing from the exertion of the first game the Brown's gamely attacked the second Decatur team. Toth pitched and Henderson caught for the visitors. Smith, Dennis and Ezell pitched for Sullivan while Dowdy and Carl Blue were the catchers. Fred Cogdal was umpire.

Both teams staged a 7th inning rally, but the Indees had too big a lead by that time.

Summary of score: R H E  
Browns 000 010 3 4 6 2  
Indees 200 110 3 7 10 0

Next Sunday the Browns play Charleston here and Camargo is booked for the following Sunday. A big game will be that on Labor Day when Ott Kinsel and his Sluggers will do battle with the Browns. The famous Pierson team is also scheduled to cross bats with the Browns early in September.

## Bruce Slaughter

The Middlesworth team which came to Bruce Sunday had been reported to be made up of real championship material. The results do not show this.

The Bruce boys with Misenheimer, Smith and Abbott on the pitching mound and Evans behind the bat, played rings around the visitors and held them scoreless. Bruce scored at will and could doubtless have secured more runs but it was too much trouble to tabulate so many. The score keeper got tired adding. The visitors were blanked so far as runs were concerned.

They were permitted two hits and had 7 errors charged against them. Kinsel's boys scored 22 runs, made 21 hits and because there was no need of being too careful they slipped for 6 errors.

For next Sunday's game Manager Kinsel has secured the Findlay team. This nine comes well recommended, but Ott says they will have to show their stuff as nobody can win a game at Bruce on reputation or recommendation.

## Pierson-Willard

The Willard Battery boys from Decatur were too strongly charged Sunday when they went up against the Pierson nine. All Pierson got out of the game was 6 hits and 6 errors. For the first five innings the score-keeper marked up ciphers for both teams. In the final four innings the Willards scored 8 runs.

Summary of score: R. H. E.  
Pierson 000 000 0 6 6  
Willard 000 001 034 8 12 2

The Willard battery was Celasko and Parrish. Carroll for Pierson and Celasko had a pitcher's battle for eight innings. The Pierson nine plays the Sullivan Grays next Sunday at 2:30. Carroll will be the pitcher.

Tuesday was Len Small day at the big Kankakee fair. Mr. Small is being courted by his former followers and they have proposed that he accept the Republican nomination for governor next year. Like a coy and gentle maiden the ex-governor has taken the proposal under consideration and will give his "Yes" answer at the opportune time.

All counties were represented at Kankakee Tuesday. Col. W. B. Hopper the Small lieutenant colonel for central Illinois led a Moultrie delegation consisting of Chas. F. McClure, Bert Fultz and Kay Yeakel. They came back enthused and optimistic.

## COMPLAINT MADE AGAINST USING ASA. CR. FOR SEWER

D. W. Carnine, who owns a residence property and tract of land in the southeast part of this city appeared before the city council Monday night to register a complaint against pollution of Asa Creek which runs through his land.

The city's sewage system empties into Asa Creek back of the old mill ruins. This is but a short distance north of the Carnine place. The pollution spoils the water of Asa Creek and in hot weather carries an unpleasant odor.

The city council took Mr. Carnine's complaint under consideration. This is not the first time complaint has been made and if the matter is taken before the state board of health some relief would doubtless be granted.

What such relief would be at this time is questionable as the city and its people are not able financially to put in the sewer system that is badly needed here.

## MOULTRIE CO. WOOL GROWERS ORGANIZE

About twenty-five men owning sheep met in the Master-in-Chancery's office at the Court House in Sullivan, Thursday evening, August 18th at 8 o'clock p. m. and organized the Moultrie County Wool Growers Association and elected L. D. Seass of Jonathan Creek township as chairman and G. D. Edmonds of Whitley township as Secretary-Treasurer for one year.

All townships in the county excepting two were represented at the meeting.

An annual fee of twenty-five cents for membership in the association was voted at the meeting.

The purpose of the Association is to handle any and all problems pertaining to the improvement of the sheep industry.

One of the problems discussed at the meeting was the failure of many owners of dogs to list their dogs with the tax assessors in the last assessment.

In one Township the assessor had only 76 dogs listed and the members of the Association found 38 which were not listed and the owner's names were turned in to the Board of Review for investigation.

In past years many sheep owners have received only 50% of the claims for loss of sheep being killed or injured by dogs and the association expects to see that in the future all dogs in the county are listed with the assessors and thereby increase the percentage paid on such claims.

The cup was presented Thursday afternoon from the show platform.

So Moses the servant of the Lord died there in the land of Moab, according to the word of the Lord.

And he (The Lord) buried him in a valley in the land of Moab, over against Bethpeor; but no man knoweth of his sepulchre to this day.

And Moses was one hundred and twenty years old when he died; his eye was not dim, nor his natural force abated.

Deuteronomy XXXIV 5-7.

### THEY NEVER QUITE LEAVE US

They never quite leave us, our friends who have passed Through the shadows of death to the sunlight above; A thousand sweet memories are holding them fast To the places they blessed with their presence and love.

The work which they left and the books which they read Speak mutely, though still with an eloquence rare, And the songs that they sang, the words that they said, Yet linger and sigh on the desolate air.

And oft when alone, and oft in the throng, Or when evil allures us, or sin draweth nigh, A whisper comes gently, "Nay, do not the wrong," And we feel that our weakness is pitied on high.

—Margaret E. Sangster.

## Writing an Editorial

Friend Reader: Did you ever sit down and belabour your brains in an effort to write an editorial? Perhaps you have, but the chances are that you have not—mostly not.

When you have something to write about it's a pleasure. When you haven't, it's a job.

You sit down and concentrate. The telephone rings. You answer it. Then you get the weary brains started off on a train of thought and in walks a customer to be waited on. That disposed of, you start to philosophize on some current event and in comes the foreman wanting some information about an adv.

Finally however, you get all set and interference ceases. What shall it be? What shall we (editorially speaking) write about. Community affairs? There are things that need touching up, but if you handle them right (as we see the right) somebody is going to get awfully peeved. We may lose a customer. Of course we've lost lots that way and are still going strong.

So let's pass up community affairs. Shall we write about Agriculture and tell the farmers how to make money? It would be nice if we could do that, but the chances are that they wouldn't take our editorial advice and we don't blame them much—it might not work according to theory.

Shall we give the Republican party a kick in the shins? There must be limitations even to such merited abuse. You have to use discretion in even political writeups. Of course there is always some phase of politics that may interest the people and consequently Politics is an old standby in editorial rooms of The Progress and all other great newspapers.

You may know that an editor is always tempted to give hell to something or somebody. That is not so good. That temptation must be restrained or the world will get an idea that the editor is an old crabby fault-finding grouch. You can't always be a booster either. A certain amount of boosting and bunk slinging may be all right, but if you overdo it, they'll laugh at you and your boosts roll off the minds and hearts of the gentle readers like water rolls off the back of ducks.

Shall we write a soulful soliloquy telling about childhood days, winter evenings, youthful hardships etcetera? That stuff goes good once in a while, but as a steady editorial diet, it hurts the circulation.

How about giving the readers the lowdown on the world-wide depression and its cure, or we might give Red Russia and its five year plan a half column or so. Not so good. We don't know much about the world wide depression, who does? We only feel the effects of it. Russia propaganda is so plentiful in the magazines, that a modern weekly newspaper could not be expected to add much to what is being said. The prize line of misinformation, is the news about Russia. We think it is. Perhaps we are wrong.

There is always the editorial temptation to pass judgment on something or other. Then too there is the temptation to write stuff that will appeal to other editors so they will clip and reprint. Of necessity, that wild desire must be suppressed.

Dropping the editorial "We" for a minute, let me tell you folks, that editorial writing is not so easy, as it may seem. Maybe you class it as one of the useless professions, if you regard writing as a profession. And who am I to say that you may be absolutely right?

You may ask this question and it is perfectly in order: "What's the use of having an editorial page? Many papers

do not." The question is germane to the subject of this one-sided discussion. We'll answer it.

—Every man in his work, if done well, must find a certain pleasure in creating, doing something that expresses his artistic soul, lifting high the banner of civilization—That's why editors write editorials. They like to let off steam, to tell the world their ideas, to mold public sentiment, to cater favor with politicians, to create the impression that they are smart guys and lots of other reasons equally meritorious or foolish. It's all part of the great game of makin' a livin' and its creative effort adds to the joy of briefly existing and passing through this mundane vale of tears.

So this, my friends, is another editorial and once again the question of "What shall I write" is almost solved for this week.

## Roosevelt vs Tammany

It is hard for some people to understand this man Franklin D. Roosevelt, governor of New York, and leading candidate for the Democratic presidential nomination in 1932.

What they can't understand is the fact that Roosevelt is apparently an honest man. He is not playing the political game the way politicians play it.

There is lots of rottenness in New York city government. Jimmy Walker, the mayor is a fizzle. The big Tammany bosses and their henchmen have been robbing and looting the city treasury. These crooks run for office as Democrats.

Things got so rotten some months ago that the Legislature at Albany took notice. A committee was named to investigate New York City's officialdom. This committee named an independent Democrat named Seabury to do the investigating. He did. The deeper he probed the more rottenness he discovered. Big Tammany men were all mixed up in the putrid mess of graft.

The committee was too limited in its powers to be able to get to the bottom of things. It looked as if the big crooks would wiggle out of the hole they found themselves in. So Judge Seabury appealed to Gov. Roosevelt for more power.

Gov. Roosevelt is a Democrat. He has never played around much with Tammany, but the fact that he's expected to be a candidate for President next year made it look as if he needed Tammany support. So the most reasonable thing, from the viewpoint of the Tammany chieftains would have been, to delay and dally along and not do anything in the end.

That is just what Gov. Roosevelt did not do. He saw to it that the Seabury committee had all the power it needs to dig to the core of New York's graft and stealing. Naturally big Chief Curry of Tammany wigwam and others of his kind are out to "get" Roosevelt.

The New York Governor had the chance to be either a real man or a slippery politician. He chose to be a man. And what's more, it is not going to hurt his presidential prospects. He will be nominated and elected.

A Democrat who is crooked has no more right to that party label than a crook of some other stripe can be a good Republican. The rank and file of both parties are composed of honest men and honest women. True, they are occasionally misled and worship false idols that their leaders furnish them.

Democrats and Republicans alike will hail with acclaim the exhibition of those sterling qualities that so well fit Franklin D. Roosevelt to be the next chief executive of this nation.

### MAD DOG CAUSES BIG COMMOTION; COUNCIL ACTS

Sullivan had a mad dog scare Friday night and Saturday morning. A big dog was romping all around the city and it is suspected that he bit many dogs during his night's rampage.

He appeared at the city light plant and when the man in charge came out to see what the rumpus was, the dog made a dash for him. Fortunately he had a broom in his hand and batted the wild animal alongside the head, knocking him over and permitting him to get in to the plant and close the door. He scared the watchman at the Brown Shoe Company factory.

The poor animal was dashing around the city, banging his head into buildings and chasing any dogs that came near it. Policeman John W. Pifer started pursuit and early Saturday found the dog on Water street. When he got out of the car the dog made a dash for him but the officer had his gun ready and dispatched him. It was later learned that the dog, a big collie, belonged to Ivan Myers who farms north of this city.

Because many dogs were exposed to attack, the City Council Monday night issued orders that for the next 30 days all dogs in the city must be kept tied or muzzled and strays will be promptly shot.

## WAY OF LIFE

By Bruce Barton

### ARE ALL THE CHANCES GONE?

You run across all sorts of surprises in the course of a business week. For instance, the vice-president of a big chain store organization was telling me a business story. And what do you suppose he based it on? The Bible.

He has charge of the company's personnel. It is a job to sort over a hundred young fellows in order to find the one who will start at small wages, work long hours, and fight his way up to the top.

The prizes are big, but the battle is hard, and only the toughest survive.

The part of the Bible to which the vice-president referred was the Feeding of the Five Thousand. Five thousand tired and hungry people. The Lord said, "Feed them."

His disciples, who were practical men, were agnost. "We can't do it," they protested. "It would take too much money."

Others urged: "Send them away." Finally a boy was discovered in the crowd with five small loaves and two fishes. Said my friend: "All they had to work with was what that boy had."

"So, with our company," he continued. "It's one of the leaders, yet there isn't a really brilliant man in it. We've all come up from the ranks."

"We can get money to do anything we need; but money alone won't do it."

"We can get materials and equipment."

"But all we really have to work with is what our four thousand boys have. They are going to decide what this business will be in the years to come."

When we had this conversation business was booming and all big industries were employing more people. Since then we have had a heart-breaking period of unemployment.

But, good times or bad times, the search for ability goes on. At the bottom of the depression the president of one great industry asked me if I knew where he could find a twenty-five thousand dollar man. The president of another said: "We have installed a system of compulsory pensions. We must make sure that this business will continue in the future to be run by young men."

The size and the set-up of business change, but their message to youth is just the same:

"Come on with you five loaves and two fishes. All we have to go on is what you boys have."

## Wahrheit Und Dumheit

Mertie—"Harry surprised me by telling me that we were going to take our honeymoon in France."

Gertie—"How nice,—and how did he spring it on you?"

Mertie—"He said as soon as we were married, he would show me where he was wounded in the war." —Exchange.

"Oh my dear" sighed the Arthur woman "courts and lawyers have given me so much trouble, that I almost wish my husband had not died."

I know of no business that does so much good and is still so little appreciated as the newspaper business. We are all inclined to take our newspapers for granted.—Roger Babson.

A storm was blowing up in the desert. The dude cowboy turned to the old timer and remarked: "I guess you'd welcome a rainstorm down here."

"Oh yas" drawled the old-timer, "not that it would mean so much to myself but that's the twins Jake and Jim who are nearly 30 years old. You know, I've seen rain."

Boss—Rastus, I'm sorry to hear that you've buried your wife."

Rastus—"But Boss, what else could I do? She was daid!"

Sullivan father: "So you'd like to marry my daughter, eh? Well, tell me young man what do you make?"

Lovington boy: "Nothing sir, I give you my word. Honest Mister, I don't even touch the stuff.—Adapted.

Lawyer: "So you were a witness to the accident. Can you describe the place where it occurred?"

Witness: "Yes sir, I can. Here are a half dozen pictures that I took of the scene of the accident and the wreck."

Lawyer: "Ah ha, and what's this? What caused you to take those pictures? Do you have any ulterior motive doing this?"

Witness: "Well, I figured that some lawyer would ask a lot of fool questions."

Frank L. Smith, elected and rejected U. S. Senator, now states that Jule Rosenwald, the big boss of Sears, Roebuck & Co., offered him stock in that concern that at one time would have been worth \$2,000,000 if he would get out of the Senate race. Smith says he refused to be so tempted. He did take Sam Insull's many thousands, however. Guess Frank is sore now that he passed up Rosenwald's gift. That's why he is making a belated holler about it.

After lots of silly fuss and overmuch publicity Jack Dempsey has finally filed suit to divorce his wife. The big boob!

"Kiwanian Oscar" has announced his candidacy for the Republican nomination for Governor. And who is "Oscar"? Why this brother Kiwanian of ours is none other than Oscar E. Carlstrom of Aledo and the official Bulletin gives him a big hand this week. Oscar's a great joiner and the Kiwanis editor recites that he is also a Modern Woodman, Odd Fellow, Moose, Elk, Mason, Knight Templar, a member of the Mohammed temple and the Springfield consistency. We respectfully ask the ministers to investigate Oscar's Mohammedan connections. You never can tell!

Another thing that hurts agriculture—it used to take six sheep one year to grow enough wool to clothe a fashionable girl; nowadays six silk worms can do the job in one afternoon.

It is not true that Almon Nicholson is building a fort on the rear of his Harrison street property. That's a classy and artistic rock wall that's going up. Almon and the contractors went to Missouri and got part of the Ozarks last week.

"What beautiful statuary you have on your court house lawn" exclaimed a tourist in passing through town last week. "Now look at that group there that represents labor, what could be more artistic or natural than that." Just about that time one of the group rose, yawned, stretched himself and changed position to get out of the sun. The lady gasped "Oh, what a mistake, why it's alive."

If President Frank McPheeters will permit a suggestion, let us offer this: about a half dozen bumble nests, rightly placed on the fairways and in the rough would be dandy hazards; likewise a hive or two of bees would liven up the golf course some. Let's have things sporty and different.

Sheep eat feeds otherwise wasted on the farm, make good use of stubble and rocky pasture, kill weeds, and leave fertility on high spots where it is most needed.

**ILLUSTRATED LECTURE  
AT LUTHERAN MISSION  
IS WELL ATTENDED**

The illustrated lecture on India, which L. Stuebe, pastor of the Lutheran Mission, gave at Freeland Grove Pavilion last Sunday evening was well attended and the information given about the large and populous country of India was both interesting and instructive. Knowledge of conditions in India does not only serve to make us Americans thankful for the freedom and other blessings which we enjoy in our country, but also gives rise to a desire to help the poor Hindus, especially in a spiritual way, for the chief factor which

keeps them in their present deplorable state is their heathen religion.

—Miss Mary Elizabeth Leeds returned Monday after spending 3 weeks with friends in Urbana. Miss Leeds will attend the U. of I. this fall, this being her senior year.

VALUE  
EVER BUILT  
INTO A  
FORD CAR**

The Beautiful Ford Tudor Sedan

**\$490**

(F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost.)

WHEN you buy a Ford car today, you buy what is unquestionably the greatest value in the history of the Ford Motor Company. Never before has so much beauty, comfort, safety and performance been offered at such a low price.  
The low price of the Ford is something to think about because it means an immediate saving of many dollars — always an important consideration. But far more significant than price alone is what you get for that price. When high quality is combined with low price, you may justly take pride in having found a most satisfactory purchase.  
See the Ford — ride in it — learn something about the value that is built into every part. The more you know about it, the more certain you will be that it is the car for you. It is literally true that when you "get the facts you will get a Ford."

**There's Power Aplenty in the  
McCormick-Deering 10-20**

THE McCormick-Deering 10-20 Tractor provides power in abundance for general farm work. It pulls two plows under all reasonable conditions and travels at good speed while plowing deep. For its size, the 10-20 has a great capacity for work—you can apply its power three ways — by drawbar, belt, or power take-off—to operate a variety of equipment throughout the year.  
The surprising strength of the 10-20 is due to the rigid one-piece main frame, in and on which are mounted the 4-cylinder engine, clutch, and transmission and differential assemblies. All important wearing parts are completely enclosed, protected from dust and grit, and run in a bath of oil. Handholes provide quick accessibility to all enclosed parts.  
Ask us how this remarkable, sturdy, powerful tractor can make power farming a reality on the moderate-size farm. We also have the economical McCormick-Deering 15-30 and the all-purpose Farmall.

**Can Your  
OIL  
Outrun  
Your Car?  
This 80 mile-an-hour OIL will!**

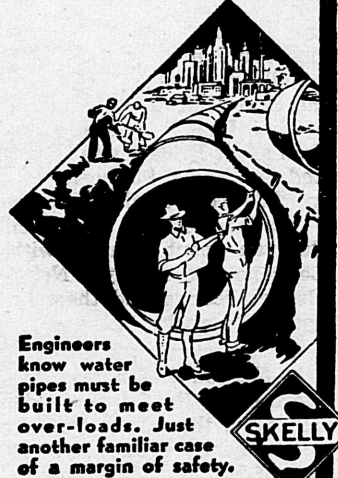

When you drive 25 or 30 miles an hour most any oil will hold up. But when you "step on the gas" and pass the 50 mile an hour mark—what about your oil? The Improved Tagolene is road-tested to 80 miles-an-hour and more, so you may enjoy a margin of safety at whatever speed you usually drive.

If 25 or 30 is your regular gait, we believe you need The Improved Tagolene, because the qualities Skelly Oil Company has built into this super-oil mean longer life at these speeds. Tagolene gives you the benefit of months spent in testing and re-testing by Skelly engineers so you may have the greatest margin of safety. We believe you want to benefit by these months of research—and to "check an' double-check" against repair bills in the future.

Only select paraffin base, Mid-Continent Oils are good enough for Tagolene. Every drop spreads out tissue-thin between all moving parts of the motor to give a steel-strong protective covering. Perhaps you feel your present oil is doing "good enough". But try a crank-case full of Tagolene and find out just what real lubricating oil is. We make this statement fully realizing there are good oils on the market.

same time. There are 95 girls doing club work and a checkup showing that practically every one of them had an exhibit in some form or another. Betty Jean Dolan and Bernice Osborn were the 1st prize winners in the style show in their respective classes.

Mary Ruth Elder had the best Secretary's book and Ruth Oliver the best project record book. Among the boys Ernest Winnings of Lake City received first honors for the best record book. H. P. Erwin and Ralph Emel judged the boys' record books.

Mrs. Bessie Wilson, Home Adviser of Coles Co. judged the clothing exhibits and style show. Mrs. Wilson did it in a very efficient manner and as quickly as possible.

The music for the club events, including the style show was furnished by the East Nelson orchestra consisting of Mrs. Guy Christie, Mrs. Dona Graham, Howard Christie, Charles Lane, Ruth Doughty and Cathryn Hughes. The music added to the occasion and was enjoyed by everyone especially after the Tug of War and running races when they were ready for a rest.

The quality of the animals was such that about 15 of the boys went to Arthur both in the beef as well as the dairy class. It is expected that the boys will find more competition there which will make the project more interesting.

WHO WANTS TO COLLECT SULLIVAN'S GARBAGE?

Sullivan people are perplexed with the problem of how to dispose of their garbage. Years ago most prominent citizens raised their own pork and fed the garbage to the hogs. Then the community got high-falutin' and objected to the perfume that was wafted from the hog houses, so hogs within the city limit are taboo.

But there still were chickens that would eat the table scraps, etc., and turn them into fries and eggs. Now folks have found that it is much nicer to do without chickens than with them. Chickens are getting less in the city limits each year. That eliminates another avenue of garbage disposal.

So what are you going to do with it? We have heard of folks who hired men to get the garbage and dispose of it. They'd get it a few times and then would return no more.

So the situation is this: either people must eat all of the food and have no leftovers—they must bury what they can't eat, or invest in neighborhood incinerators and burn the garbage.

Garbage is good hog food. Most of it can be fed to fattening porkers. Some fellow with ambition could fatten a hundred hogs a year on Sullivan's garbage and a little cheap grain. Not only that but he'd find the Sullivan people willing to pay a reasonable fee per week to have their garbage collected.

Here's a big business opening for some fellow who needs sufficient capital only to buy a few hungry feeder hogs.

FUTURE FARMERS AND THEIR DADS HAD BIG PICNIC MONDAY

(Continued from page 1)

Future Farmer boys of the Sullivan T. H. S. and their dads enjoyed a picnic and baseball game Monday, Aug. 17, at the Hoskins farm east of Allenville. The boys and their dads were guests of Homer Hoskins and his dad. Homer is president of the Sullivan chapter of Future Farmers of America.

The picnic was planned at the last regular meet of the club held at the high school in July. After some discussion it was decided that mothers, sisters, and other female members of the race would be excluded from the list of invited guests. No ladies were in evidence at the picnic, but nevertheless there were some mighty good lunches on hand, thanks to Maw, sister; or somebody.

Twenty-five boys and their dads were on hand for the lunch and watermelon feast at noon time.

The group got together about 11 a. m. on a shady meadow on the banks of the Kaskaskia river below the Hoskins residence.

CROQUET STILL MAIN SOUTH SIDE ATTRACTION

The croquet courts on South Main street still holds the center of the stage as an attraction for people living in that part of the city. Competition is strong and rivalry is intense. In order to get a better foothold for important drives the players have agreed to use a barefoot stance. This also saves the grass. Without any slippery shoe soles to bother them, the players toe in on the grass and shoot with deadly accuracy.

#### LUTHERAN MISSION

At Freeland Grove Pavilion  
Rev. L. Stuebe, Pastor.

Concerning the Bible the Lutheran church teaches that it is in all its words the Word of God; that consequently, all the facts related in it are absolutely true; that it is without error; that it needs no human interpretation; that it is the only divine truth known on earth; and that it should be diligently heard and studied.

Lutherans teach that God's Law demands perfection of heart, word, thought, and deed; that it wholly condemns all who transgress it; that it can not save sinners; and that its chief function since the fall of man is to lead us to the knowledge of our depraved condition.

The Gospel, according to Lutheran doctrine, is the special revelation of that which a loving and merciful God through Christ has done, and still does, for the salvation of mankind—that it freely offers to all sinners the righteousness which is in Christ Jesus; and that it will save forever those who trustingly accept its promises.

#### WAR OVER, LOCAL GUARDS RETURNED HOME SATURDAY

The annual field training period of the Illinois National Guard ended Saturday. The home boys arrived at 6:25 a. m. Saturday morning and after a good breakfast at the Waggoner cafe proceeded to wind up the two weeks' work, which consisted of checking in the equipment and being paid off. Everything was cleaned up by 10:30 a. m.

Everyone was well pleased with this year's camp from the Commanding General on down. The weather was ideal with just enough rain to keep the dust down and the air clear. The local boys all seemed to have a good time in addition to learning a great deal about military training. The boys who had been doing inside work before going to camp showed a great improvement in health in the two weeks. The reported gains in weight ranged from four to twelve pounds per man. Bill E. Dwyer won the regimental championship in boxing at 160 pounds and received a gold medal.

A number of Sullivan people visited the camp this year, also a few former residents living in Chicago and Rockford.

The distinguished guests of the camp included Gov. Emmerson, General Frank Parker, commanding the sixth Corps area, General William G. Everson, chief of the Militia Bureau, Washington, D. C. and General Abel Davis (retired) of Chicago, General Davis addressed the assembled division on Sunday morning, August 9th and his talk was broadcast over an NBC hookup. General Parker addressed the officers of the Division on Wednesday, August 12th and discussed the year's training and especially a tactical maneuver which had been held in the forenoon of that day in which the entire 7,500 men had been used. He expressed a desire that at some future time two or more divisions might be assembled at the same camp so as to give the officers and men a chance to see a large body of men deployed for action.

The entire division was passed in review for Governor Emmerson on Thursday, August 13th.

Friday was spent in breaking camp and preparing for the return to the various home stations, the local company returned by the way of Chicago with companies from Danville, Salem and Mt. Vernon over the Chicago and Eastern Illinois Railway. The only complaint that was heard in regard to the camp was that it did not last long enough.

#### KENNETH RONEY BADLY HURT IN AUTO CRASH

Kenneth Roney, former Sullivan grade school teacher and athletic coach is in the hospital at Shelbyville. William Reaugh, also a teacher and close friend of Mr. Roney's is in the hospital at Mattoon.

These men were in a collision Saturday evening about 5 o'clock a mile southwest of Windsor on the hard road in a smash up with an automobile being driven by Deputy Sheriff R. O. Watson of Shelbyville.

The Lovins ambulance at Windsor took Mr. Roney to the hospital. Mr. Reaugh was taken to a Windsor doctor's office and later to the Mattoon hospital. Latest reports say that his injuries are not as serious as at first feared.

At the hospital it was found that Mr. Roney had suffered a split knee-cap on his right knee, his right leg was out of joint at the hip and he sustained face cuts and bruises. No internal injuries have developed.

Sheriff Watson suffered some cuts about the face and bled profusely before the bleeding could be stopped. Mr. Roney says that Mr. Watson assumed full responsibility for the accident, saying he had been driving fast and cutting in. When he cut in front of the Roney car, he failed to make clearance, lost control of his car and all piled up in a jumble of damaged cars and wounded men.

When the editor and Loren Brumfield of this city called on Mr. Roney Sunday morning he stated that he felt certain he would be able to be out to take up his duties in the Shelbyville schools on September 1st. The only thing worrying him was the condition of his knee. The cap was split from right to left and the doctor had told him he might have some trouble with the knee joint for a time until the injury had fully healed.

A number of other Sullivan folks called at the hospital during the day to inquire as to Mr. Roney's condition. His father and some of his relatives from Dalton City arrived at the hospital shortly after the accident.
