struck out 12. The score shows that gram. Findlay pitcher was tossing them to a stronger team, however. The score was Bruce 18-Findlay 3. Ott Kinsel's boys were credited with 12 hits and charged with six SULLIVAN FOLKS errors. Findlay had 9 hits and 15 errors.

A good crowd was present.

Next Sunday there will be two games for one admission. Kinsel's Sluggers play the strong LaPlace team in the first game. In the second game the Judy Candy Company nine of Decatur will clash with the Orange Crush team from Mattoon. These teams are evenly matched and a good game is assured. The Bruce-LaPlace game ought to prove an interesting, peppy session.

THE SUMENAN PROCEESS

TENTH INSTALLMENT

It was indeed very plain what they thought about Peter. The friendly, admiring smiles with which they said good-by to Rowena froze into cold disapproval in So Rowena retired to the rumble quite cut up over it all.

"Don't you care," said Rowena. "When they find out how things really are, they'll be so mad at me for fooling them that they'll rebound your way and think you're quite the nuts.'

"Well," said Peter, "there's one thing sure. Everything in the world has happened to us now. From desert sands to mountain mud, from separate floors to bridal suite, we've run the gamut of the unexpected. Nothing will surprise kissing Cupids-It was the last me after this."

"It was like this. At first he was simply overjoyed to have me back and then in about an hour we got to talking about it and he got madder and madder and said he really didn't know whether he wanted to ruin his future by marrying a woman who had no more sense than that. So naturally I broke the engagement and gave him back his ring. I put my things in my bag and called up Rackruff to find out where I could catch you, and here I am. Learn what a difference six cylinders make

Step out of any other low-priced car into a Chevrolet, and learn the difference six cylinders make.

"Idle" the engine-and the whole car remains steady. Open the throttle-the power flows evenly. Accelerate-throttle down-go fifteen or fiftyand this smoothness stays with you whatever you do. It's actually built into the motor-and objectionable vibration never even starts!

Yet smoothness is only one of many six-cylinder advantages. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smoothness doesn't tire you out. There's greater flexibility, because the powerimpulses of a six overlap. And a six is much easier to handle!

If you raise the hood of a Chevrolet and watch the engine running so smoothly, you'll realize that six cylinders also mean greater dependability.

And remember when you do-that no other car is so economical to operate as the Chevrolet Six.
