Moultrie County Gave Bruce Campbell Big Vote, But He Ran Third in State. T. J. Anderson Is the Democratic Choice for Legislature; Dunlap and Clifford Candidates for State Senate.

#### Moultrie Sentiment Strong For Roosevelt

Illinois Democrats in Tuesday's primary nominated all candidates who had the endorsement of the State Central Committee.

Judge Henry Horner was the choice for governor; the Republicans nominated Len Small by a big majority over Custer and Carlstrom.

In Moultrie county Bruce Campbell, the downstate candidate for governor, received a 865 Democratic majority. He did not run equally well in other downstate counties.

For Congress D. C. Dobbins of Champaign county was an easy winner. His closest rival was Carl Weilepp who piled lows: up a big vote in Macon county. Moultrie county Democrats gave R. D. Meeker a small majority. Dobbins ran second and

Dr. Lawson's name was not on the ticket, but the name of Carl A. Dick was on for re-election for president.

Voters wrote in the name of Dr. Lawson. When word spread through the uptown that this was being done, a heavy vote was cast between the hours of six and seven o'clock. More than 100 votes came in from 6:30 to 7.

The total vote cast was 284. Last year it was 1006. The result Saturday was as fol-

After it was all over he was informed as to what had been done and declared that although he had in no sense of the word been a candidate, he would heed the wishes of candidate for governor.

Mr. Dick had served as president one year.

The new board will consist of holdover members Guy Kellar, A. A. Hollonbeck, Howard Wood and A. R. Poland; new members Raymond Shasteen and C. B. Freeland a secretary. The secretary for the past year was Brandenburger, who was not a candidate for re-election. The other member who did not seek re-election was Dave Cummins. The matter of hiring teachers was then taken up. It was voted to offer Mr. Scheer re-employment as principal at a substantial cut in salary. He took the offer under consideration. In line with action taken by other school boards, the contracts to be offered to the local teachers will be at a cut in salary as compared to what they have been getting. After discussing the salary proposition, the board adjourned, without taking any definite action toward re-employment.

Grade School Re-elects The election for president and trict. members of the grade school board was held in the Dedman store. J. L. McLaughlin was re-elected president and Chester Horn and Burney McDavid were re-elected Mrs. Ada Chapin, Donald M. Butler and J. F. Gibbon.

#### **ROBINSON FAMILY LEFT SATURDAY** FOR CALIFORNIA

Sullivan Loses Some of Its Most Worthwhile Citizens. Health and Other Considerations Prompt the Change in Place of Residence.

Saturday morning Mr. and Mrs. W. R. Robinson left Sullivan for Galesburg, where they will be joined by their daughter Miss Clara and will then drive to California.

They will make their home in that state. Their destination is Ventura where Mr. Robinson's brother lives. Their daughter Catherine (Mrs. James Simpson) also resides in southern California.

One reason for leaving here was the state of Mrs. Robinson's health. It is hoped that California climate will prove beneficial.

The Robinson family came to Sullivan from Abingdon, Ill., in midsummer of 1919. They bought the Knickerbocker furniture and undertaking business, located on the southeast corner of the Square where the Farm Bureau now is. Later they moved into the Titus building on the north side of the square. Last fall they bought the old Birchfield hotel on East Harrison street and remodelled it into a funeral home and took up their place of residence there. After selling the business to Shanks Brothers some months ago, they took a suite of rooms in the National Inn, preparatory to winding up their business affairs so as to be able to leave for California.

#### VOTERS FOLLOWED PROGRESS ENDORSEMENTS

In last week's Progress, we stated how we would vote in the Democratic primary and gave our reasons therefor. It is interesting to note that all our selections were approved by the voters of this county Tuesday:

Majorities for Progress candidates over their next highest opponents were as follows:

Dieterich 253; Campbell 865; Donovan 585; Hughes 525; Barrett 545; Martin 810; Snell 305; Lukenbill 182; Nesbit 432 over Monroe; Pfeiffer 11 over Brennan; Johnston 489; Freeman and Eads by big majorities and Clifford 179.

It was suggested that voters write in the name of Franklin D. Roosevelt for president. About 500 did this but only 279 put the necessary cross in the square in front of the name. It plainly showed that the sentiment of Moultrie county Democratic voters favors the nomination of Roosevelt for President.

If you can pry the sacred Roll apart
And buy another shirt or shoe or collar
And act as if it didn't break your heart;
If you have faith in those with whom you labor,

And trust in those with whom you make a trade; If you believe in friend and next door neighbor And heed examples pioneers have made;

If you expect the sun to rise tomorrow

If you are sure that somewhere skies are blue— Wake up and pack away the futile sorrow For better days are largely up to YOU!"

#### REPLACING ONE GOOD MAN WITH ANOTHER

Moultrie county Democrats Tuesday selected Ivan (Cot ton) Wood as their candidate for circuit clerk. He defeated Cadell West. These are both fine fellows. It was difficult for many voters to make a choice but Mr. West was a man employed and Mr. Wood was a man out of employment and this influenced some voters. Moultrie county has never had a more efficient official than Mr. West, but Cotton Wood is market?" of the same type. He is worthy of every favorable considera tion. He stands high with all who know him.

If the voters elect Cotton Wood to the office of circuit clerk next fall, they will assure for themselves the same courteous, economical and efficient service which has been given them during the eight years that the office has been held by Cadell West.

#### Old Len Small Stages a Come-back

And they went and nominated Len Small. This sums up the action of the Republicans in Tuesday's Republican primary race for governor. And a lot of Republicans do not like the outcome one bit.

The Republican party, following the 1930 election when in Wall Street is that they have the foresight and courage to make the state gave James Hamilton Lewis near 800,000 majority in his race for the Senate, has gone to pieces.

SULLIVAN SCHOOL BOARD REPLIES TO MRS. JOHNSON

April 14, 1932.

Mrs. C. C. Johnson Rockford, Illinois. Dear Madam:

The publicity given your letter ation. written to the Sullivan Progress recently has caused considerable comment and we therefore are writing you to call attention to some things that you evidently completely overlooked in your communication. Many of our people have resented your criticism of our school system when it is clearly apparent that you are not familiar with the situation at this time

#### In Emergencies **Your Telephone** Is Priceless

A fire in your home or buildings would mean a great loss. A serious accident might be fatal unless you could reach the doctor at once. Or you might even be the victim of thieves or prowlers.

In emergencies like these, a telephone is priceless. At such times, its value is beyond comparison of costs. If you didn't have a telephone, you might regret it all the rest of your life.

Make sure that your loved ones are protected. See that they (and you) have a telephone handy—always. Call our office and we'll gladly help in every way we can.

and excruciating pain. I used about every remedy recommended to me, including Violet Rays, but derived no benefit.

"In the summer of 1931, the knee had assumed a size seven inches larger in circumference than the other knee. I was now persuaded to try MUSCLETONE, and am thankful to say at this time the swelling has gone and the limb is as near normal as I can hope for. I can now walk about, go up and down the stairs without a cane or assistance of any sort, and most important—no pain. In fact, I am as well as anyone can hope to be at my age and weight.

"This is not a paid for testimonial. It is printed at my solicitation in the hope that anyone afflicted as I was or with deep seated pains, aches or swollen joints may know of this wonder remedy, which to me is worth its weight in diamonds." Yours very truly, GERTRUDE SOISSONS, (signed). Lexington, Kentucky.

Muscletone acts by absorption. Nothing is taken internally. There is nothing to affect stomach or heart. But pain stops completely—almost instantly. The medical principle behind Muscletone is to neutralize accumulated toxins through the skin and effect quick restoration of congested tissues. All good druggists have MUSCLETONE. Large size \$1.00. . DIVIDEND LETTER OF THE

TO THE STOCKHOLDERS:

On February 23, 1932, the city of Quincy granted your company franchises for electric and gas service, both franchises covering forty-year periods. The city of Quincy, the largest city served by your company, is noted for its many industries. In addition, during the last quarter, electric franchises for fifty-year periods were granted your company in three communities. Street lighting contracts have been signed with six communities, all but one

has negotiated a contract with the city of Paris for electrical energy to operate its municipal pumping station. Development of your company's natural gas service took another forward step recently when the Illinois Commerce Com-

of them for ten-year periods, while one

community has granted a thirty-year fran-

chise for gas service. Your company also

mission granted permission to serve the city of Quincy with natural gas. Your company now furnishes, or has permission to furnish, electric service to 470 communities in central and southern

Illinois.

A Growing Market The fact that a greater use of electricity frequently replaces other household expenses offsets, to a considerable degree, the adverse effects of prevailing business conditions upon the purchasing power of many households. The result is that the use of electric service suffers no such decline as that experienced by so many other commodities and services during a period of reduced business activity.

To the function of lighting, an increas-

ing variety of other uses of electricity have

CENTRAL ILLINOIS PUBLIC SERVICE COMPANY

been added in the course of the past several years, each gaining acceptance on its merits as a more convenient and more economical method of performing household tasks. In each case the use of an electrical appliance is measured against the alternative method and cost, and the growth of household use of electricity shows that the decision is more and more in favor of applying electricity to household work.

The less favorable business conditions of the past year slowed up the increase but did not change the general tendency. Until every household is obtaining every possible advantage of the conveniences and economies which electric service makes possible, a constantly growing demand for electricity may confidently be expected from the nation's twenty million homes.

On the last page of this folder is a view of the Company's all-modern electric substation at Quincy, Illinois. The substation proper, shown at the left, receives power from the Company's general transmission system at 33,000 volts, and steps it down to lower voltages for local distribution in the city of Quincy and surrounding territory. The building, shown at the right, houses the control switchboard, voltage regulators, and switch gear for low voltage distribution circuits. The low voltage circuits are controlled by metal-clad switch gear, embodying the latest safety features for protection and consistent electric serv-Respectfully yours,
