Treasurers Must Publish Statements

People are Entitled to Know How Their Public Funds are Spent. Case in Henderson County Results in \$100 Fine for Supervisor.

The question is raised occasionally as to whether or not it is necessary for treasurers handling public funds to publish reports of their transactions.

The law in this regard is very plain and does not give city councils, town boards or similar organizations authority to advise treasurers not to comply with the requirements.

In the city of Sullivan the council has for a number of years taken it on itself to advise against publishing detailed reports as the law provides.

A case of this kind against a treasurer was recently tried in Northern Illinois. The decision was as follows:

"People of the State of Illinois for the use of W. H. Mohr vs. W. R. Smiddy, supervisor of Lomax Township, Henderson County, Illinois, for neglect to publish Annual Financial Statements in a newspaper. Hearing was at the court house

Donald Moses and Harry Nichols are not guilty of stealing coal from the Bolinger school northwest of Arthur.

A jury so decided in the circuit court Monday after hearing the evidence in the case. The young men had been indicted by the March grand jury on charges of burglary and larceny. Unable to give bond, they had been in jail since their arrest on January 24th.

The trial is being referred to in court circles as a "States Attorney field day." The prosecution was represented by States Attorney K. B. Foster. The court named attorneys for the defendants. The attorney for Moses was R. W. Martin the Democratic candidate for states attorney; for Nichols the attorney was Francis Purvis the Republican opponent of Mr. Martin.

PEARSON ATTORNEY GOES TO JAIL FOR GIVING POOR ADVICE

James A. Ryan, attorney for Mr. and Mrs. Jack Pearson in their bankruptcy case several years ago, must serve a six-months sentence in the Jackson County, Illinois jail and pay a fine of \$500.

Following the troubles which the Pearsons got into in settling the affairs of their bankrupt clothing store Attorney Ryan of St. Louis, who was their legal adviser, advised them to perjure themselves in testimony given at hearings before referee.

Such testimony got Mr. and Mrs. Pearson in bad in the Federal courts. When they confessed that they had acted on advice of attorney, the attorney was indicted for subornation of perjury and in his trial before Judge Fred L. Wham in East St. Louis Federal court, was convicted and sentenced. He appealed from this sentence. The circuit court of appeals this week upheld the conviction and sentence.

The play takes place in a room on the 8th floor of a large hotel. The Bartons are giving a farewell dinner for Edgar and Robert who are leaving the next day for the war which has just been declared.

While they are waiting for the last guest to arrive, their conversation naturally drifts to war and the new methods of combat.

Robert, commissioned as an aviator, tells of the new gas bombs he will use in attacking the enemy's territory.

This new gas is now effective and more deadly than any yet used. They feel quite secure and certain of victory because of this advantage over the enemy.

Their discussion is interrupted by the waiter who comes to announce that their dinner has not been sent up and that he can get no response from the kitchen. An attempt is made to telephone the hotel office but no one answers. The elevator is not running. They become aware of a deathly silence throughout the building;

What has happened? Come and see Wednesday evening at 8:00 at the Methodist church.

Brown Official Addressed H. S. Students

George Coslow Who was Instrumental in Bringing Factory to Sullivan was Guest of Local Friends Monday.

The Kiwanis "Vocational Guidance" speaker at the high school Monday was George Coslow of St. Louis. He told about the Brown Shoe Company, about shoes and how they are made and what they are made of.

Mr. Coslow is well known here in Sullivan. He was the advance or "contact" man for the Brown Shoe company. He came here and looked the city over at various times and finally decided that this would be a good place for a factory. So there is a feeling among the men who know Mr. Coslow that he deserves credit for bringing Sullivan a shoe factory.

When Chairman Don Butler of the Kiwanis Vocational committee asked the Brown Shoe Company for a speaker to address the students on "manufacturing" the task was assigned to Mr. Coslow. He made a very interesting talk and showed the various leathers and skins used in the manufacture of shoes. He also told of men who have worked their way to positions of wealth and authority in the shoe business.

When Mr. Coslow arrived in this city at about the noon hour, he came to the community headquarters—the National Inn—and there had luncheon with Supt. Kohlhauff and Tommy Lyons of the local factory, Supt. Dieckman who accompanied him and Chester Horn, J. L. McLaughlin, Clint Coy, Dr. D. M. Butler and Ed Brandenburg.

Some of these men accompanied him to the high school where they were joined by others. Carl Hill introduced the speaker at the school. Those at the school who had not been in the Inn party were Paul M. Hankla, Purvis Taylor, Carl Hill, Frank Shell and O. J. Gauger. Sullivan has a warm spot in its heart for George Coslow. He is always a welcome guest.

NEW MOVES MADE IN BANK CASE INVOLVING RECEIVER VS. J. A. WEBB

In the circuit court Monday, the Receiver of the M. & F. State bank was given permission to amend John A. Webb, former president of the bank. In the amendment between \$11,000 and \$12,000 in notes are mentioned, ownership of which, so the receiver holds, is in doubt. It is asked that the court impound these notes until the matter can be passed upon.

Attorney for Mr. Webb filed a motion to dismiss the injunction granted the receiver some time ago and that Mr. Webb be permitted to proceed with collection of interest and principal of the notes in his possession.

No date has been set for arguing these matters.

In Alvey Case

TRACK BEING REBUILT; BIG BARN FOR HORSES AT OLD FAIRGROUNDS

Dirt is flying at the old west-side race track. Carpenters are busy. The old fairgrounds site is a scene of activity.

W. B. Kneedler of Effingham who recently acquired the fairgrounds and track through purchase is spending some money putting it into shape. Big tractors and graders are widening the track and packing it down.

Hagerman & Harshman, contractors, started Monday on the work of building a 30 by 60 barn in which there will be ten box stalls 12x12. No work has as yet been done of remodeling the residence property, but Mr. Kneedler is figuring on that improvement.

There was a time when this was one of the famous race tracks in the state. Under Mr. Kneedler's management the community has hopes of a development that will bring back some of the glamour of the olden days.

M. E. YOUNG PEOPLE GIVE PLAYS SHOWING THE HORRORS OF WAR

The question of who is coroner? has been solved. W. R. Robinson, though in California, continues as a citizen of Moultrie county and consequently continues to hold the office of coroner. He several years ago authorized Dr. J. F. Lawson to act as his deputy during his absence, and that act is still in full force and effect.

The board of supervisors recently named F. F. Fleming of Arthur, one of its members, as coroner to fill the vacancy caused by Mr. Robinson's going to California. The statute forbids such appointment. States Attorney Foster asked Attorney General Carlstrom for an opinion in the case and this opinion is to the effect that it is "incompatible" for a supervisor to hold a county office.

Under these conditions Dr. Lawson will doubtless fill the office until the expiration of Mr. Robinson's term December 1st of this year.

L. W. McMullin of this city and Royal Stone of Windsor are the two candidates for this office who will be voted on November 8th.

SAMUEL DAVIS NAMED EXR. OF MOTHER'S WILL

The will bequeaths various pieces of personal property to the children and then specifies that of the remainder all are to have equal shares. The will was made August 20, 1927 and witnessed by J. D. Harding and Olive M. Stone.

FIRE BURNS MEADOW AND STRAW STACK

Somebody Monday set fire to a meadow belonging to Jesse Byrom west of this city. There was a heavy dry growth on the field and the flames travelled rapidly. When Mr. Byrom saw the fire he and the women folks hurried to the field. The women carried water from a stream nearby and wet the sacks and the men slapped the fire out. A straw stack was in the path of the flames and was destroyed and five acres of meadow were burned off. Mr. Byrom thinks some careless boys were responsible for the fire.

Saturday morning Weakley was working in his yard. Unpleasant words had passed between members of the two families that morning. When Delmar Stevens returned from uptown he started to

SLUGGERS AND SWANS WILL OPEN BASEBALL SEASON AT BRUCE

The game starts promptly at 2 o'clock. Admission will be 25c. Ladies free. Derby Belt will be umpire.

The Sluggers are in fine shape to meet this strong Decatur team. They have played three practice games. They beat Bethany 17 to 4; Lake City 18 to 2 and took a beating from Windsor 9 to 4.

Manager Kinsel last year staged some good games and attracted a big crowd of fans to his Bruce diamond.

His lineup this year, to start in Sunday's game is as follows: Cadell Abbott, catcher; Cecil Armstrong pitcher; Legs Ledbetter 1st base; Fritz Poland Jr., 2nd base; Earl Abbott 3rd base; Cotton Combs shortstop; Frank Baugher leftfield; Earl Freeman center field; Bill Kinsel, right field. Innocent Men In County Jail Big Burden To Taxpayers

These are days of economy. Taxpayers are eager to save money in the operation of schools and of government. For every dollar that is taken out of the public treasury they want service.

Our archaic system of court procedure as it applies to criminal prosecutions is the bunghole in the public money barrel out of which the dollars saved elsewhere disappear.

Let us call your attention to one case. On January 24th Sheriff Lansden arrested Donald Moses and Harry Nichols. They were accused of stealing coal. The case could have been tried on the day following (if court procedure were predicated on money-saving and reasonable lines) but such can not be done under our present system.

The two young men were locked up in jail. They could not give bond when bound over to await grand jury action. In March the grand jury met. We are told they did not give the case much of their valuable time, but on the apparent facts, indicted the two men for burglary and larceny. Bond was fixed at \$1000 each. This of course they could not give.

After plenty of delay (the necessity for which is hard to see) the men were brought to trial Monday morning. Twenty four petit jurors were asked to report for duty. Out of these twenty four, twelve were selected to hear the evidence. Then they found the accused not guilty.

Now what did all of this cost the county? Item No. 1—100 days of board in the county jail at \$1.00 for each man, total \$200; Item No. 2—one summoning of jury and payment of said jurors, \$96; these two items total nearly \$300. This does not take into consideration sheriff's fees, time spent by the states attorney and court, by grand jury, for court bailiff and stenographer, and fees earned by other court officials. These would doubtless have been incurred if a more speedy trial had been given the accused. The coal stolen was worth perhaps \$5.00.

This editorial is not a criticism of the court, the states attorney, sheriff or any other official. It is an indictment of the silly criminal prosecution system which, with its accumulating expense, hangs like a millstone around the necks of the taxpayers.

Let us cite you another case. Charley Weakley in a fit of rage Saturday did some carving on the neck and belly of Delmar Stevens. He is now in the county jail. All facts pertaining to the case are known. Before he can be brought to trial a grand jury must pass on the matter, to see if the case is of enough importance to merit a trial. Unless the March grand jury is recalled specifically for this purpose this case will go over to the September grand jury which meets in the latter part of that month. In the meantime, unless he can furnish bail, Mr. Weakley will lie in the county jail, fed at taxpayers' expense.

There is no sense or justice in these delays. If Moses and Nichols are innocent, as the jury decided, who will recompense them for the 100 days they spent in jail? Nobody. There is no provision in law to provide such compensation. If a jury many months from now finds that Charley Weakley acted in self defense, who'll pay him for time lost in jail?

The delays in law enforcement are not inducive to living within the law. Quite generally they favor the criminal and not the people. Through delay, witnesses disappear and many of the important details pertaining to the crime are overlooked or forgotten.

So when you look for ways to economize, do not overlook the courts. There economy can be effected. Every effort to speed up justice, is an effort toward greater respect for law, and a move to save the money of over-burdened taxpayers.

Our courts—and they are nothing more or less than servants of the people who have created them—can, if they will,

shake off the shackles of hide-bound precedents, and become more responsive to the demands of the times.

As a closing argument, remember this—it cost Moultrie county \$200 in meals for Moses and Nichols, while they were waiting to be tried for a crime which a jury says they did not commit.

They Worry About The Democrats

"When you Democrats have a chance to elect a governor or president, you get things all messed up and end in a fight."

Many of our Republican friends have expressed themselves of the above sentiment lately. They are very much worried about us Democrats. They don't like the way Al Smith is acting up. They express sympathy that our candidate for governor is not a member of a Christian church. They even give the impression that they want us to nominate candidates who will be entirely satisfactory to the Republicans.

For all of this kind sympathy, we express our thanks and appreciation. It seems that the worry is all on the Republican side. We Democrats are rather well satisfied the way things are going.

Democrats are a scrapping, fighting bunch of fellows when it comes to the matter of politics. They have no steamrollers to flatten out the insurgents in the party ranks. A Democratic primary is a free for all fight—and may the best man win. That is Democracy.

As opposed to this is the Republican machine rule. The Republicans do not really want President Hoover renominated. They can't very well help themselves. They are enough Federal employes on the government payroll to renominate any president. The rank and file of the voters really have nothing much to say about the matter. It does but little good for the Republicans to start any fight nationally within their own party. The payroll machine flattens them out—and woe be to that man who defies the tenets of party regularity to express his feelings about matters political, if such feelings are contrary to the powers that be!

Our Republican brethren in the big newspaper business have been trying their derndest (that's a good word even if you can't find it in the dictionary) to promote trouble in the Democratic ranks. Every time Al Smith opens his mouth with a wise-crack at Gov. Roosevelt, they spill barrels of ink on their front pages to tell the world about it in lurid and exaggerated reports. Every time two prominent Democrats express contrary opinions on some public question the Republican editors and syndicated propagandists say "Sic 'em" and then are disappointed when the boys will not "sic".

Democrats will do well not to expect too much comfort and assistance from the dyed-in-the-wool, standpat Republicans. They may snort and howl at some things their party and its candidates stand for but on election day they vote on the principle that "the worst Republican that was ever nominated is better far than the best Democrat that was ever born." And they stay right in the fold.

But there are independent Republicans just as there are independent Democrats. On them the party shackles rest lightly. They have the balance of power when it comes to voting. You never hear them say much during a campaign. They let the other folks do the talking. From such talk and from the conditions of the times as they affect their welfare, they draw their conclusions and vote accordingly.

Many Democrats of this congressional district always voted for William B. McKinley; likewise for Len Small. They voted for Hoover four years ago. Two years ago the independent Republicans repaid the Democrats when they went to the polls and cast their ballots for James Hamilton Lewis for senator.

We believe this is a year when these independent Republicans will not vote for Herbert Hoover for president. It matters little whom the Democrats may nominate, they will get millions of these independent Republican votes. To them Roosevelt, Garner, Baker, Ritchie and even Al Smith look much better than four years more of Hoover administration.

In Illinois we firmly believe the Independent Republicans want no more of Len Small, Frank L. Smith, Big Bill Thompson and their kind of office-holding.

The Democrats are not going to make any mistakes this year. There may be a little fuss in national affairs just as there was in state affairs preceding the primary, but when the National ticket is selected in June, you will find that all will fall in line in the march to victory in November. And in the lead, with the old warhorses of Democracy will be found marching the independent Democrats and the independent Republicans. The battle cry will be "A change is desirable; to approve things as they are is unwise and can lead only to disaster."

In Little Old New York

A pigeon wandered into a Fifth Avenue shoe store the other day and the fact was recorded in the city's newspapers.

There is a suburban development where the houses are rather oddly constructed. The first floors are given over to a garage and furnace room. The living-room, dining-room and kitchen are on the second floor. Bed rooms and bath rooms are on the third floor.

There was a time when drug stores derived most of their income from selling medicines. A centrally located retail drug store here in New York recently sold 50,000 books in a month, not one volume selling for more than a dollar.

There are 22,150 horses left in New York City. What's equally interesting is that the city has 406 blacksmiths.

Nearly 2,000 saddle horses are to be found within the city limits. Horse-back riding is very popular

here in the city parks and in the suburbs.

WAY OF LIFE

By Bruce Barton

RYTHM

Looking back, the record would be something like this:

Unbounded optimism; "new era"; everything's going to be all right.

Collapse; disillusionment.

Fear.

Fear compels thought "The fear of the Lord," says the Bible, "is the beginning of wisdom." Until we are thoroughly scared we do not start to recover.

Congress was thoroughly scared when it convened last December, and it has been the most sensible Congress in a long time. Business has been thoroughly scared, and more constructive business thinking has been done than for many years. Bankers have been thoroughly scared, and we shall have a sounder banking system.

The greatest impression that this experience has made on me is a fresh realization of the rhythm of human existence. The race does not move in a straight line forward and up, much as we should like to think so. It swings.

It swings too far to the left, bumps its nose, and swings back, too far to the right. In the course of these great swings its edges forward.

But most of us fail to sense the rhythm. We are looking for a fix-dness, a finality which does not exist. We do not realize that change is the one unchanging fact in the universe; that because a situation is so today is the one sure reason why it will not be so tomorrow.

In these depression periods we question everything. We probe with doubts. We react. And the reaction is beneficent.

For twenty-five years we worshipped "scientific progress." Now we wonder whether a lot of this so called progress did not consist merely of filling up the world and speeding it up. We begin to wonder whether less things and more thinking may not lead to the happier life.

In education we have been devoted to the practical, to training men and women to do things. We are swinging back to the old fashioned idea that education is an enrichment of the spirit and not a filling of the brain.

In government we have multiplied laws and bureaus and taxes. Now the worm is turning. The taxpayer rebels; government must simplify, deflate.

We had a great period of misdirected idealism, a passion for educating everybody, "improving" everything, enlightening the world. Now we are beginning to suspect that the older civilizations have fully as much to teach us as we have to teach them.

Action and reaction, ebb and flow, trial and error, change—this is the rhythm of living. Out of our overconfidence, fear; out of our fear, clearer vision, fresh hope. And out of hope—progress.

FIND BODY IN RIVER

The body of R. C. L. Huntze, traveling salesman, who had visited Windsor garages and blacksmith shops for the last twenty years, was recovered from the Mississippi river at St. Genevieve, Mo., Thursday. Mr. Huntze had been missing since January 19, 1932, and all hope of ever finding trace of him had been abandoned. When the body was found his billfold and all valuables were missing, which led to the belief that robbery was the motive behind his death. Mr. Huntze's home was in St. Louis. He was well known in other Central Illinois towns. A. E. Wall informed us of the disappearance shortly after it had happened, but the finding of the body is the first knowledge of what had become of the missing man.—Windsor Gazette.

I. J. MARTIN TELLS ABOUT J. J. MARTIN

Editor Progress

Sir:

I almost quit writing for the newspapers several years ago when I took my third and last retirement from the publishing business. I think you will bear me out in the statement that in all the time since then I have not written more than two or three items for The Progress.

My cousin J. J. Martin occasionally writes quite interestingly and entertainingly for the paper and I learn that I have been given much credit by people who do not look carefully to the signature. Recently a friend who noticed the signature a little more attentively suggested that I have the printer give my name correctly. He was surprised to learn that my name was not really intended.

My cousin has a talent for versification that I do not possess at all. I think I can sometimes write prose that is rather sensible and I could write rhyme with the help of a rhyming dictionary. I also learned a little about poetical meter in school; but in contriving to write verses with either rhyme or meter I always found that the lines lacked sense. I envy the writer who can put thought and feeling into metrical language; but I have no wish to accept credit that belongs to others so when a friend who lives a thousand miles from here recently complimented me for such production I could not accept the compliment.

I have no wish to repudiate or disclaim the sentiments generally contained in the communications to The Progress for which I have been given unmerited credit. On the contrary I usually find myself in agreement with most of the suggestions and conclusions. The latest incident was an approval of what my friend thought I had written about married school teachers. Now I have never thought that an otherwise competent school teacher should be denied employment simply because she had been foolish enough to get married. You know they may be perfectly sane in all other respects.

I have no wish to criticize members of the board of education even when they adopt what may seem to me a narrow and illiberal rule or method. I have served on boards and I know something about the difficulties of the situation. School officers seldom get as much credit as they deserve and I think very few of them disregard the broad interests of the school, the parents and the children and look upon their office as merely a "job dispenser."

Again let me say that Mr. John J. Martin is the writer of occasional communications to the paper and he is fully capable of discussing the matters he writes about. For many years he was a good teacher and was also admitted to the bar. He is now retired both from teaching and the practice of law and lives on his farm in North Okaw township. While not in the ordinary sense a politician, he is a well informed, progressive democrat. He forms his own opinions and is always capable of supporting them with convincing argument.

I presume that, although he resides in another county, he reads The Progress because it is the most interesting democratic paper within his range of acquaintance. I hope to see more of his writing and I hope readers will give him full credit for what he writes.

Truly yours
I. J. Martin.

POLITICAL POEM

There was a poor voter and what do you think?
He lived upon nothing but victuals and drink,
Victuals and drink were the chief of his diet,
And now he has neither and cannot keep quiet.
Republican voter,
If I've heard true,
Was the strangest fellow,
That ever I knew.
He asked for a panic
To keep him awake.
And said he liked Hoover
Better than cake.
He'd rather drink soda,
Than Bourbon and Ice,
He ate up a wage cut,
And said it was nice.
He stayed in the market
Until it fell through,
And he'll vote the straight ticket,
In the year '32.

Chorus:
Rockabye, Hoover, on the tree top,
When the wind blows, the market will drop.
When the boom breaks, the prices will fall,
Down will come Hoover,
Curtis and Small.

The Preacher: "I disapprove very strongly of women smoking."

The Farmer: "Oh, I dunno. Ma's been smoking for a good many years."

Preacher: "What, does your wife smoke?"

Farmer: "I'll say she does. She tends to the smoking of the hams and sides every spring. We got a special house, we call the 'smoke-house' and Ma tends to all the smoking in there."

First High school girl: "I like a man with a past."

Second H. S. G.—"I like a man with a future."

Third H. S. G. "The man with a present always interests me."

The late William Wrigley, Jr., who made millions through advertising, was once asked why he did not stop advertising after he had built up the world's largest chewing gum business.

"Did you ever hear of trainmen taking off the locomotive after they had got the labor moving?" asked Wrigley.—Labor.

BELIEVE 'EM OR NOT

Have you heard some of the marvelous stories told about the mountain folk of western North Carolina?

It is said that in some places the land is so steep, almost perpendicular, the farmers have to use a shotgun for a corn-planter.

It has also been reported that in order to save labor, the potatoes are planted in rows running up the side of the mountain instead of across the field in the opposite direction; a flat rock is placed in the bottom end of the row and at harvest time the stone is removed and the potatoes roll down in a sack placed at the mouth of the ditch.

We are told that one day a man passing along a trail found an injured man lying by the side of the path. When questioned as to how he got hurt the man said, "I fell out of that d— cornfield up there."—The Log.

Farmer: "Where did you learn to smoke cigarettes?"

Flapper: "In Decatur."

Farmer: "It's a good thing you didn't go to Norway. I hear they smoke herrings there."—Exchange.

Teacher: "Tommy, why do ducks and geese fly north in the springtime?"

Tommy: "Because it's too far to walk?"—Exchange.

They tell a story about a Decatur lawyer. He can't read his own writing when it gets cold. One day he wrote out an order for groceries and left it at the corner grocery to be filled. The wind blew it outdoors. A tramp picked it up and took it to a prescription druggist and got a quart of hooch on it. The druggist looked it over carefully and decided that he might have made a mistake. It looked like a passport to him. He pasted his picture on it and used it in a tour of Europe. When he returned he took off the picture and threw the writing away. It blew into a housewife's yard and she used it successfully as a cake recipe. The daughter said it was music and played it on the piano. The folks happened to live next door to this lawyer and his family. The women visited back and forth. The housewife showed the recipe to the lawyer's wife, (the only person in the world who could read it) She exclaimed: "Well, now I know why those groceries John ordered, never reached me in time for dinner!"

Outside the storm raged, The deafening thunder rolled and the lightning flashed almost continuously. Presently a bolt struck Mr. Jones and knocked him completely out of bed. He rose, yawned, rubbed his eyes and said: "All right, dear, I'll get up."—Exchange

ADVICE TO PREACHERS

Some one has truthfully said that no souls are saved after the first twenty minutes of preaching. Intellectual digestion is somewhat like physical digestion. To much food for thought adds the intellect just like too much food for the stomach results in indigestion. It is not how much the preacher says, but rather what he says and how he says it, that will aid the spiritual growth of the listeners.

"What do you mean by holding my daughter on your lap?"
"I'm afraid she'll play the piano and wake the neighbors."—Pathfinder.

'One Hour with You' featuring the Frog (Frenchman) with the big wide grin—Maurice Chevalier. Hot stuff! You can't help liking Maurice.

For All the Kids. All the boys and girls, no matter what their age, have some time had the ambition to sit astride a horse, flourish a gun and be a red-blooded hero. Now it stands to reason that they can't all realize this ambition in person, but they can get the thrills second-hand by seeing their favorite movie actors do the stuff. That is one reason why Tom Tyler is popular. He does what you'd like to do. In 'Single-handed Sanders' Saturday matinee and night you'll see some action, romance, danger and heroism.

The Mystery Trooper serial is going strong. Oswald the Rabbit will have some nonsense for you and there will be a romantic journey to the outposts of the Foreign Legion. (W. H. Sherburn is invited to see this show as a guest of The Progress.)

Arlen and Oakie. You saw them in 'Touchdown' and they come a-skimming through the sky—plunging to earth in another thriller that dares to be different. The heart of the world is with the young airmen of today—winging with them to new unbelievable heights. The name of the picture Sunday and Monday is

JACK OAKIE in Paramount Pictures

'Sky Bride'. We are told there is a lot of impetuous love-making and Virginia Bruce is a nice kid to make love to. Robert Coogan is the mischievous lad in the picture. If you like a show that has a lot of airplane stuff in it, you'll like 'Sky Bride.'

Three other features are on the program—Charley Chase in a comedy, your old pal, Mickey Mouse in 'Minding the Baby' and Pathe News. Tell the folks. 'Are You Listening?'

That's the title of a picture which depicts the backstage of the Radio World. You'll get a lot of information on how radio rackets are worked. Incidentally there is

a good story mixed up in it and a big cast of second rate players put on the show. Let us list them: William Haines, Madge Evans, Anita Page, Karen Morley, Neil Hamilton, Wallace Ford, Jean Herscholt, Joan March, John Miljan and a few others. It is Bill Haines' first serious film. The four girls are all blondes—maybe natural, maybe peroxide. Manager Hays offers, as dessert, two comedies.

Johnny Weismueller. 'Wow girls, here's the picture you've been waiting for! Here's a lot of he-man stuff—gosh, what a thrill you'll get! They call it 'Tarzan, the Ape-Man' and columns and columns of dope have been written about this picture. The Literary Digest even devoted considerable space to it. It is the old Tarzan plot—the white lad grown to manhood in the jungles. There is plenty of 'monkey-business'

Maureen O'Sullivan

and trick photography. Johnny Weismueller was a world swimming champion before he went into the movies. Johnny is built like the girls love them and in the picture little is hidden of Johnny's wonderful development. The sweetie is a lass named Maureen O'Sullivan. We guess that her name in real life is 'Lena Schmutz' or something like that.

But all razzin' aside, this Tarzan is a great picture. You'll like it. There is also a Talkertoon and Pathe News.

'WHO KILLED EARL WRIGHT?'

Widely Heralded Murder Trial To Be Held Monday Night, May 16, At 8 p. m.

Sullivan residents won't have to leave their own streets to see and hear a murder trial, for one is to take place at the Methodist church on Monday night, May 16th at 8 o'clock.

A young man, Frank Lloyd will be 'tried' for murder, and the whole setting will deal with the 'killing' of a man by his friend, whom, it is shown, was under the influence of liquor at the time he struck the blow which snuffed out a life, left a widow and family of fatherless children.

The 'Trial' is being put on in cooperation of the churches and is a means of pointing out a lesson in prohibition law enforcement. Twenty-five prominent local leaders of this city will take part in this trial. The complete cast of characters will be printed in this paper next week.

JURY FINDS MOSES NOT GUILTY; NICHOLS ALSO INNOCENT

(Continued from page 1) who saw the coal stealing and was shot at by the thieves; Charles Lansden and Charlie Getz who made the arrests and Rudolph Lorenz.

For the defense the witnesses who proved an alibi for the accused were the two defendants, and Ben and Jessie Nichols, Ray Carter, Clarence Bilibrey and Melvina Nichols. A statement of confession which the accused were alleged to have made were ruled out. The defendants testified that they had been promised immunity on the shooting charge provided they signed a confession to the stealing. The States Attorney denied that any such promise had been made.

The state's witnesses swore that the crime was committed between the hours of 7 and 8 o'clock in the evening. The witnesses for the defendants established an alibi when they swore that the young men were elsewhere at the time the offense was committed.

The jury which heard the case consisted of Albert Underwood, Ed Reedy, V. P. Winchester, W. J. Elzy, Perry Taylor, William Kaigley, John Kracht, Charley Hankley, George Oliver, Dale Warren, Elmer Atherton and Mose Price. The jury evidently believed the alibi witnesses and had a reasonable doubt as to the guilt of the defendants so it found them "Not Guilty" after an hour's deliberation.

Nichols is out on parole from Pontiac for robbing a school house in Piatt county and is being held awaiting arrival of the parole officer. Moses has been released and will give bond for his appearance on the shooting charge. This case will be heard in the county court, the indictment being "assault with deadly weapon."

MAY DAY LUNCHEON FRIENDS IN COUNCIL AT NATIONAL INN

(Continued from page 1) by the president-elect Mrs. Ray Isaacs. Mrs. Hill gave a review of the year's work done by the club.

Poetry, written by Mrs. Guy Pifer and Mrs. Wm. George, regarding the club's work and study, was read by Mrs. Hill, and at the close of each month's verse, a stunt was put on by the ladies of the month designated in the poem.

Monthly Stunts

The club year begins in October and the stunt for the October table was a song and tap dance by Joan Shell with Miss Lula Clark accompanist.

For November the romance and marriage of John Alden and Priscilla was enacted by Mrs. E. A. McKenzie, Mrs. Clint Coy and Mrs. J. L. McLaughlin with Mrs. Clyde Patterson as reader. All these ladies wore the costumes of that period.

For December a Christmas tree was lighted with Mrs. Margaret Todd acting as Santa Claus. Mrs. Gladys Whitfield also gave a short talk regarding Christmas. The song "Jingle Bells, Jingle Bells" was sung by the club with Miss Ruth Tabor as leader.

The month of January was represented by a clock striking out the old year and bringing in the New Year. Mrs. Frances Acuff read a paper on "Things in line for the New Club year."

The month of February was described by four children wearing colonial costume and dancing the minuett. They were Marilyn Baker, Marian Moore, Paul Bryant Jr., and Dickie Lawrence.

March Was Irish Mrs. Guy Little read an Irish poem for the month of March and Mrs. Guy Pifer read two Irish jokes.

Mrs. G. R. Fleming, Mrs. R. B. Foster, Mrs. Mattie Harris and Mrs. Fred Sona represented the month of April wearing raincoats and carrying umbrellas and put on an April Fool stunt.

The month of May was represented by Eleanor George and Jacqueline Patterson with the crowning of the May queen.

The eight ladies at the "June" table gave a Commencement exercise. Mrs. Adilla Burns played the part of the Dean of the Babbling Brush Academy and was introduced by Mrs. Everett Hays. All the ladies received diplomas.

Miss Ruth Tabor sang a patriotic song for July with Mrs. G. A. Sentel at the piano. Sparklers were lighted and balloons were burst to represent cannon crackers.

There Was a Circus

A circus was put on by the ladies of the August table with a parade before the circus. Those who took part in this program were Mrs. Frank McPheeters, Mrs. L. L. Lawrence, Mrs. Glenn Shanks and Mrs. Glen Kilby.

For September Labor Day was portrayed by Mrs. Paul Bryant, Mrs. Will Gardner, Mrs. C. E. McPheeters and Miss Mamie Patterson, each lady sawing a board as their part of the program. This was the close of the program.

A rising vote of thanks was extended G. R. Henderson for the use of the National Inn dining room, also to the outgoing officers for their year's splendid work. Mrs. C. R. Hill introduced the president-elect, Mrs. Ray Isaacs who gave a short talk requesting the cooperation of the members for the next club year.

It was voted to have Dr. Whiteman of Springfield give a lecture and a Health picture will be shown in connection with the lecture some time this month. Everett Hays has given the club permission to use the Grand Theatre for this purpose. And then the club adjourned.

CHAS. WEAKELY IN JAIL FOR TRYING TO BEHEAD DEL. STEVENS

(Continued from Page 1)

In a few minutes the battle was on. Stevens threw a rock. Weakley pursued him with an open knife. One version says the rock-throwing started the trouble while another says that Stevens threw the rock after Weakley had started chasing him. After a chase over into Stevens' yard Weakley caught up with Stevens and began to hack at him with the knife.

He ripped a gash about four inches long into the left side of the abdomen, which however failed to penetrate the abdominal wall. He also hacked him in the left side of the neck, inflicting a deep gash, which for a time was considered quite serious. After getting in these two blows Weakley was knocked down and out by the wounded man.

Stevens was wildly indignant by this time and picked up a big rock to finish his adversary. At about this stage of the game William Stevens appeared on the scene. He took the rock away from his brother and took him into the house. He was bleeding profusely. The Sheriff and a doctor were called. Weakley, still groggy from the haymaker that had laid him out, was taken to the county jail.

Saturday afternoon Weakley appeared before Justice Lambrecht and waived his preliminary hearing. He was placed under \$2000 bond to await grand jury action. This bond he was unable to give and so remains in jail.

Weakley is 37 years of age, a carpenter by trade and has never been in trouble before. The place where Stevens lives and where the cutting took place is next door to the house where John Shipp was shot and killed last year.

A MOTHER'S DAY STORY ABOUT PEOPLE YOU KNOW Special—(By Dorothy Watkins)

As children gather in the A. J. Sexton home on Mother's Day, they think of the dear mother who has gone to her heavenly home and second thoughts go to their older sister Bertha, who has indeed been a second mother to this one brother and six sisters.

She has helped all in every way a mother could, remembered all the big and little things they like and enjoy, father, brother and sisters.

Two weeks ago the children were at the family home in honor of a sister who lives in Missouri and there were twenty-seven present counting the grandchildren. This means a lot of work, baking and cooking but Bertha does this gladly for them and they enjoy the day at their old home again.

Miss Sexton has one hobby and this is keeping books for her father's 380 acre farm. She has kept these books for years and can tell you what eggs, cream, corn or wheat was several years back.

One of the things she enjoys most is reading.

Let's all of us send or give all mothers a word of love and thanks every day instead of one day a year. I think Mothers Day is one of the nicest days in the year to

look forward to and think praise and honor should be given to all second mothers for indeed they deserve it.

Miss Sexton lives with her father on his large farm nine miles northeast of Sullivan.

UNCLE WALTER BIRCH'S PET COON DISAPPEARS

Now if anybody happens to have this pet coon, please return it to Walt. He may pay a reward.

Where Does She Get Her "Pep?"

SHE doesn't look seventy. Nor feel that old. The woman who stimulates her organs can have energy that women half her age will envy!

At middle-age your vital organs begin to slow down. You may not be sick, simply sluggish. But why endure a condition of half-health when there's a stimulant that will stir a stagnant system to new life and energy in a week's time?

This remarkable stimulant is perfectly harmless. It is, in fact, a family doctor's prescription. So, if you're tired of trying every patent medicine that comes along, tell Dr. Caldwell's syrup pepsin. Take a bit of this delicious syrup every day or so, until you know by the

way you feel that your lazy liver is again active, and your bowels are poison-free.

Men, women, and children who are run-down, who tire easily, get bilious spells or have frequent headaches, are soon straightened out when they get this prescriptional preparation of pure pepsin, active senna, and fresh laxative herbs. (Syrup pepsin is all the help the bowels need, and you do not form the very bad habit of always taking cathartics.)

Keep a bottle of Dr. Caldwell's syrup pepsin in the house, and take a stimulating spoonful every now and then. It is all that a great many people ever take to keep strong and vigorous, and absolutely free from constipation.

NOW WHO WAS RIGHT; CHARLEY OR THE JURY?

Sheriff Lansden tells this story about his recent prisoners, Donald Moses and Harry Nichols. The jury in court Monday found them "not guilty" but the Sheriff says that the prisoners in jail at the time the boys were brought in said "guilty."

When he brought Moses to the Lansden hotel, he had as guests behind the bars, Charley Jackson and Jud England. The Sheriff told Moses, "I have a man in jail who is a mind reader. He'll look at you and tell you what you did." Moses was skeptical.

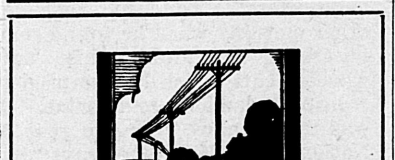

Charley Jackson told him: "Stand under the light there, so I can see your face." Moses did. "Huh" remarked Charley, "you've been heavin' coal." Moses was astonished.

Later Jackson explained to England: "How did I know? Why that was easy. It was a cold night. His nose was running and while he worked on the coal, he wiped it occasionally. Didn't you see coal dirt all over his nose?"

With a little practice Charley would make a good Sherlock Holmes and we'd almost bet that if he had the time to devote his talents to the case, he could find the Lindbergh baby.

A Home Without Telephone Service Can Be Mighty Like a Prison

The house without a telephone has no quick communication with the outside world. There is no cheery ring of a friendly "telephone visit"—no happy, sudden invitation—no pleasant, timely exchange of greetings—and no immediate news of the "away from home" members of the family or the old folks.

And this home is apt to be mighty like a prison. Like a prison, too, it may affect the health of the household—because there are so few outside interests. Make sure your home is healthy and happy with a telephone. Just call our office and we'll arrange for it.

4-H CLUB NEWS

Many former 4-H boys are working their way through college by the egg route. This is the way it is done. At a number of the state colleges special facilities are available for such boys to carry on the project. One of the best places to see how this plan is working out is at the Connecticut State College. Here there are three special laying houses for fowls and they have been kept going at full capacity. It is hoped to add two more. Five boys are now making use of the three, and not only earning most of their needed funds, but carrying on in a very practical way their poultry studies.

Fourteen boys have made good use of the facilities for producing eggs, not counting the five now employing them. Detailed records of feed and other costs are kept by the boys and turned in to their professors. While the housing is supplied, the student is required to buy his feed and other supplies outside the college. The records of these and the other boys preceding them are clear proof that the plan is successful, says A. J. Brundage, state club leader. A sophomore made \$515.00 with 125 White Leghorns. That was a few years back when prices were better. Income these days is less, but so are college expenses.

There is no other kind of project which lends itself quite so nicely to this purpose as poultry. The fowls do not require a large space, they are objectionable to few persons, they entail a modest investment and provide a quick turn over of capital. Students who have kept at least 100 fowls have averaged better than \$200 profit during the school year, and have had the exercise and experience to boot.

Frank Niederwerfer, for example, started poultry work in 1928 in a small way. But he went after

big results, and got them. His 31 Leghorns made an average profit of \$8.17 per bird. Next year his 95 hens produced an average of 195 eggs and a profit of \$3.50. The run of commercial flocks is \$2.25. This boy soon became an outstanding judge. He also went into dairy work and won a place on the team which went to the national dairy show. He has won something like \$1,000 in cash prizes and has almost as much in property.

How the Railroads Are Fighting Back

In the effort to make ends meet, many railroads have discontinued trains, closed stations, curtailed purchases, reduced wages, laid off employees, suspended dividends.

Such economies have led some to say that the railroads are retreating under fire. That is not true.

Although forced by necessity to exercise the greatest economies, the railroads have also made numerous rate reductions, increased the safety, speed and dependability of trains, introduced new travel comforts, tried out pick-up and delivery of package freight, intensified their sales efforts to improve their earnings.

It is a struggle against odds of unequal regulation and subsidized competition, but the railroads are making that struggle with determination and resourcefulness. They ask and deserve the support of the public.

Constructive criticism and suggestions are invited.

THE WEATHER

Farmers are planting corn. These last two days have been plenty warm. The early part of the week was not so pleasant. Some farmers figure that they might be able to buy a crop cheaper this year than they can grow one, but they've got the habit of raising corn and they would raise it if they got nothing for it. What else is there for a farmer to do? He's got land and he's got time. If some politician could show the farmer how he could make money out of his time and land without raising crops, he might get a hearing.

Trees are about leafed out. Among the casualties of the March cold weather are pear trees. Sunday we saw a big pear orchard southwest of this city that was dead—not a sign of life on any of the trees. We note here in town old gnarled Kiefer pear trees that have given up the ghost. Pears may be scarce one of these days. We are not much given to predicting but venture a guess that if we have any fruit at all this year it will be apples and cherries. Illinois will have but a small fruit yield as compared to the immense crop picked last year.

We heard a new sad story about depression the other day. Orman Newbould says times are so hard that he's trying to have one old hen raise 41 chicks.

Chicago's No. 1 public enemy is now No. 40,886 in the Federal penitentiary at Atlanta, Georgia. Chicago was afraid of Al Capone. It petted and pampered him, but Uncle Sam stepped in and made the Big Shot look like a popgun. Uncle Sam got Al because Al refused to pay Uncle a fair share of the loot he was gathering together. Capone was the uncrowned King Al, the first, in the reign of Volstead.

If this old world can hold on for a few weeks more, relief is in sight. The graduates of the high schools and colleges will then take the job off the hands of us older, inexperienced guys and instead of hoping that prosperity is "around the corner" they'll sneak up on old Pros. and kick him out in the open. Don't discourage these graduates. They've got what we older folks lack—unbounded optimism and pep.

Gov. Roosevelt took another licking in California Tuesday. That is just too bad, but his campaign is moving right along. Lot of these votes he is not getting now will line up for him at the proper time in the June convention in Chicago. Watch Jack Garner the Texas statesman—if anybody can take this presidential nomination away from Roosevelt it will be this Texan, and he is fairly good as Texans go.

—Mrs. Lee Goldberg who spent two weeks visiting at the home of her sister, Mrs. Nan Miller, departed for her home in Clinton, Ind., Monday.

—Mrs. O. J. Gauger held an old fashioned "Quilting Bee" at her home Tuesday afternoon.

—Mr. and Mrs. John Bupp were in Olney Wednesday to consult specialists in regard to Mrs. Bupp's health.
