Believing extra sales would result, Skelly is breaking precedents in the oil industry-it is offering high test (as high as 72 degrees) and top octane (anti-knock) rating. It is giving both in one gasoline, Skelly Aromax, and at no extra cost.

Tailor-Made Gasoline

But Skelly goes even farther. Skelly Aromax is also tailor-made for local conditions.

During test runs in each community, a research engineer in each car makes 44 entries in his records every 15 minutes, and these thousands of observations are sent to the Skelly research laboratory. These facts, which no other oil company has, give Skelly engineers the definite information on which to tailor-make each. carload of Skelly Aromax Gasoline.

One feature tailor-making assures is quickstarting. Your gasoline is made to vaporize instantly in a cold motor at lower than 7 a.m. temperatures for your community. Skelly Aromax "takes hold" right now, for its finely vaporized mist ignites instantly.

These three comparisons show you why Skelly Aromax gives you most for your money, at no added cost:

IN MEMORIAM

In memory of Grandfather Patterson, known to many as "Uncle Billy" who passed away a year ago this December. The following lines written by

Mrs. William Short, formerly Miss The Three Angels. Mayme Dale, a granddaughter of Betty Foster, Jane Gibbon, Uncle Billy's. Charleen Butler.

"To Our Beloved" We know you are not dead, dear

Graadfather Although we saw your body fair

Lie so still within the casket Like a gem of beauty rare.

We know you are but sleeping That last long peaceful rest, That your soul still hovers over Those whom you loved the best.

We can't forget, dear Grandfather, your laughter; Also the sunshine of your smile,

The many kind deeds you did for us all And the things that made lite
