

WEATHER

Chinch bugs — soybeans — corn
These things, in order as stated, are foremost topics of conversation in farming communities.

Bugs are far too plentiful; seed beans are scarce; bugs are attacking the cornfields.

Farmers are building bug barriers; some say the bugs will soon fly and barriers will do no good. Back in 1910 when Democrats were howling about "Tariff Barriers" we heard Champ Clark make a speech in Brazil, Indiana. Said he: "I'm not worried about these tariff barriers. Flying machines are being developed. You can't stop them at barriers. They'll fly over and deliver their merchandise tariff-free."

Now there is danger that bugs will pay just as little attention to crude oil barriers when they get ready to fly.

One thing can be said in favor of the bugs—only one. They are quiet. They do not chirp or sing.

While chinch bugs have been bothering farmers, city folks have had a visit from another kind of insect—crickets. There were a real nuisance in the uptown for a time and it was quite a common sight to see show windows vacated of merchandise while crickets disported themselves therein. Nobody has learned what the crickets wanted in town.

There have been showers during the past week. Right here in Sullivan we have not had anything more than a few weak, sickly sprinkles. We could use about an inch of rain each week.

The heat is oppressive. One day this week we had a hearty wind. Dust and grit filled the air. Pity the poor housewives who like to keep their homes clean! There is no relief in sight, apparently, unless the property owner digs down in his own jeans to pay for needed street oiling.

Soybeans are worth from \$1.50 per bushel up for seed. They are scarce.

If the closed M. & F. State bank ever gets that Federal loan it has applied for, the depositors may receive a pleasant surprise. Getting such loans is a slow process. Why? If the government wants to be of help, why are all its financial transactions so confounded slow? Do NOT expect to be surprised very soon.

The raspberry season is here. Toothpick sales are increasing.

You seldom hear people bragging about the weather unless you get up early.

Unhappy is the jobless man, who can do naught but sit and sweat.

Being idle gracefully is an art. We have a few such artists in this town.

Uncle Sam is going to give Illinois another \$9,590,788 for road building.

The Glorious 4th is coming; no fireworks program on the lake shore this year.

Last year the nation's 4th of July death toll was—66 dead in traffic; 42 drowned; 6 killed by fireworks. Apparently this could be listed as a blood sacrifice on the altar of liberty.

Let's be a little more careful this year.

It pays.

7500 Gallons Chinch Bug Oil For 250 Farmers

Battle Against Pest Rages on All Corn Fronts. Corn Storage Plan Benefits Farmers. Government Gives Drought Relief.

7500 gallons of government purchased chinch bug barrier oil was distributed to 250 farmers between 6:30 and 10:30 a. m. Saturday by the Moultrie County Farm Bureau. On the basis of distribution this amount of oil will be used to maintain 150 miles of barrier.

Another car load of the oil was immediately ordered by the local organization but the time of arrival or quantity was not known. In the meantime, the Shelby-Effingham Service Co. is trying to obtain sufficient oil to supply the demand. Large government purchases of this material makes it very difficult to secure any oil elsewhere.

A line of farmers started forming in front of the distribution plant at 4 a. m. Saturday and the news spread so rapidly that the west end of Sullivan was soon clogged with all the vehicles with cans and barrels. The distribution was well organized and the only charge to the farmer was the actual cost of labor used in dispensing the oil, etc., or 1c per gallon. The Government bought the oil and paid transportation to Sullivan but the cost of unloading and dispensing had to be borne by those receiving the material. The method of handling the barrier material in this county was endorsed by University authorities.

Council Talks About Paved Street Drainage

Several engineers from Springfield were present at Monday night's council meeting to discuss the project of drainage for the state paved routes through the city.

The council did not discuss its street problems nor the petitions that the dirt streets be oiled to allay the dust nuisance and preserve their present grades.

Drainage is not much of a problem these dry days, but dust is an ever-present nuisance.

THE N. Q. Q. CLUB

The N. Q. Q. club and the south creek division of Ladies Aid of the Jonathan Creek church met at the home of Mrs. T. J. McIntire and pleasantly surprised her with a pot luck dinner Thursday. She was presented with a quilt and several other gifts for the home.

Bruce Downed by The White Swans

The Decatur White Swans (colored) defeated Bruce Sunday 7 to 4. The outcome of the game was a surprise. In the early part of the game Bruce had an easy lead. Then it rained into the Bowl. The ball got slippery and Misenheimer lost control. The visitors delighted in the shower and with a "whoopie!" they got hot and "blooie!" went the game, so far as Bruce was concerned.

Misenheimer struck out 21 allowed but 4 hits. The Swans moundsman struck out 7 and was hit safely 9 times.

Next Sunday Strasburg will play in the main game. As a curtain raiser the Bruce "White Kids" will play the Decatur "Black Kids". These youngsters are in the 16-year old class and a peppy game is in prospect.

HOSKINS FAMILY NEAR ALLENVILLE IN REUNION

Fred Hoskins and family of Bridgeport, Connecticut arrived last week at the home of his parents Mr. and Mrs. John Hoskins of near Allenville. Saturday Harold Hoskins arrived home after serving a four year's enlistment in the U. S. Marines.

Fred Hoskins, who is director of Christian Education in the Congregational church in Bridgeport went to Oberlin, Ohio Wednesday of this week to attend a convention. He will then return here for a longer vacation with his family and parents.

Sunday night he preached the sermon in the Allenville Christian church. The Hoskins boys are graduates of the Sullivan Township high school.

OLD SUBSCRIBERS

Since making our offer last week to old Progress subscribers we have had a hearty response. You'd be surprised to know how long some people have been subscribers. Many learned to read newspapers by reading The Progress. The paper is now in its 78th year of publication.

Bldg. & Loan In Good Condition

The Sullivan Building & Loan association held its annual meeting Tuesday night. C. R. Hill, secretary, made his report which showed that the organization is in excellent condition.

The public accountants who had made an examination of the association's books reported that the condition of the association was the best that they had seen in any city in a number of years.

A complete annual statement of the association appears on page 6 of this issue.

Not only has the association held its own but it has progressed and the earnings on serial stock and loan stock have been around 11 per cent. The other stock bears a straight 6 per cent interest rate, payable semi-yearly. Mr. Hill reported a bigger demand for 6 per cent stock than the association could accommodate as only a limited amount had been issued.

The association does not own real estate at this time and did not find itself obligated to start any foreclosure suits during the past year.

Mr. Hill stated that one reason for the good condition of the real estate business here was the fact that the shoe factory has created a demand for rental property and home ownership and practically all property is earning its way, thus making it possible for the people who have borrowed through the association to meet payments with commendable promptness.

Following the official report, the association re-elected George A. Roney, Chester Horn and Webb Tichenor to the board of directors. Holdover directors are C. E. McFerrin, C. R. Hill, Frank McPheeters, P. M. Hankla, Raymond J. Getz and E. O. Dunscomb.

After the meeting, the directors went into executive session and re-elected the following officers: C. E. McFerrin, president; Webb Tichenor, vice president; Frank McPheeters, treasurer and C. R. Hill, secretary.

Band Concerts Draw Big Wednes. Crowds

The free band concerts on Wednesday nights draw big crowds to Sullivan. This is one form of entertainment that seems to be growing in popularity from year to year.

There is quite a bit of shopping on band concert nights and people from all parts of the county gather here to visit, relax from their daily cares, and have a general good time.

Robert B. Edmiston Died In S. Dakota

Word was received here Monday night of the death of Robert B. Edmiston of Ottumwa, South Dakota.

Robert was a former Sullivan boy graduating from the local high school and working as telegraph operator at the Wabash station. From here he transferred to the Chicago & Northwestern R. R. and served as agent at Cedar Rapids and Dubuque, Iowa.

About eighteen years ago he went to South Dakota and engaged in cattle raising near Ottumwa, where he died, Monday, June 18. He leaves his wife, Grace Graham Edmiston at Ottumwa. Robert was the brother of W. E. Edmiston of Cooks Mills neighborhood and Mrs. Charles Edwards and Miss Emma Edmiston of Sullivan.

Interment was at Nowlin, South Dakota.

Ras Selby Is New Golf Grounds Keeper

Since Shelve Tarter has relinquished his job as grounds keeper for the Sullivan Country club, "Ras" Selby is in charge. He has caddied several years and is thoroughly familiar with the work. He is also qualified to "take on" any stranger who may want to go a round with a fellow who shoots near par.

When Ras gets hurried and bothered in his work, his brother and under study "Cec" is always near to lend a helping hand.

Mr. Tarter will cater to the appetites of the thirsty in his new drink emporium on the east side of the square.

HIGH SCHOOLS TO GET STATE DISTRIBUTIVE FUND

For the first time, high schools will this year share in the state distributive funds. Heretofore such funds were paid only to grade schools.

Supt. Walker is busy compiling the school records to show how much the Moultrie schools are entitled to. It will be over \$5,000. This money will be taken from the state gas tax funds and will assist in reducing tax levies for high school purposes.

NON-HIGH PAYS PART OF TUITION BILLS

The Non-High school board of education met Tuesday and allowed 65% on claims of high schools for tuition. All non-high students attend high schools and the district pays their tuition. Prospects are that this year a larger percentage of tuition claims will be paid than last year. Available funds apportioned on high school tuition claims last year amounted to only 74%.

No More Chinch Bug Oil Coming

Charles Shuman, president of the Farm Bureau, received word Wednesday morning that Moultrie county will get no more chinch bug oil for barrier purposes.

The early supply here did not meet requirements and request was made for more. The state is unable to supply the demand.

Otis Dinger Drowned In W. Okaw Monday

Otis Dinger, 16 year old Lovington boy met death by drowning in the river west of Lovington Monday afternoon. With some young boys he had entered the river which was high following a heavy rain. He stepped off into a hole, and being unable to swim, was carried away by the undertow. Malcolm Johnson fishing nearby hurried to the scene and started diving for the body while the other boys ran to Lovington for help. The body had washed about 30 yards downstream before found. It had been submerged 35 minutes. Efforts at resuscitation failed.

He is survived by his mother, several brothers and sisters. Corner McMullin held an inquest. The verdict was accidental death by drowning.

Stolen Car May Have Been Used by Robbers

On Friday morning Sheriff Lansden took possession of an abandoned car at the intersection of routes 32 and 132 west of this city. By the license number, ownership was traced to Harry Lynch of Decatur. Mr. Lynch had reported his car stolen some time between 3 and 4 o'clock Friday morning.

That same night several stores were broken into in Dalton City. A mail pouch was stolen but later recovered near Mt. Zion. The officials feel that the stolen car was used in this robbery and then abandoned.

On the following night similar burglaries were reported from LaPlace.

U. S. Open Golf Champ

Philadelphus June 22—Olin Dutra (above), giant Californian, crashed through to the U. S. National Golf Championship in the 38th annual playing of the classic. Ill and playing under great physical strain Dutra came from behind in the final day to nose out Gene Sarazan by one stroke.

How Moultrie Drought Relief Will Be Handled

Only Farmers in Actual Need Will Be Helped. Emergency Relief Commission Will Be in Charge of This Branch of Government Aid.

The Moultrie county emergency relief committee will administer such drought relief funds as may be made available to this county through the Illinois Emergency Relief Commission, according to its chairman, Frank C. Newbould, who today received official notice from the State Relief commission that Moultrie county has been designated as a "secondary" drought area by the United States department of agriculture.

Under the basic program as outlined by the commission, the funds for drought relief will be supplied by the Federal Emergency Relief Administration upon request of Governor Henry Horner. A total of \$500,000 has already been granted to Illinois by the Federal Emergency Relief administration to be used for this purpose during June. The administration of funds will be under the Commission which administers all Federal emergency relief funds in this state and it in turn will use its county emergency relief committees in the counties which have been designated as part of the drought area by the United States Department of Agriculture.

Who Gets Drought Relief

Under the program developed by the commission, drought relief will be given only to farmers who are unable to provide for themselves needed feed and seed. The Moultrie county emergency relief committee will furnish enough

DAYS

Daughters of Time, the hypocritical Days
Muffled and dumb like barefoot dervishes,
And marching single in an endless file,
Bring diadems and fagots in their hands.
To each they offer gifts after his will,
Bread, kingdoms, stars, and sky that holds them all.
I, in my pleaded garden, watched the pomp,
Forgot my morning wishes, hastily
Took a few herbs and apples, and the Day
Turned and departed silent. I, too late,
Under her solemn fillet saw the scorn.
—Ralph Waldo Emerson.

Williamson Is Acquitted.

A jury in a Springfield court found Hiram L. Williamson and his secretary, Miss Machin, not guilty of conspiracy to defraud the state of Illinois.

The two had been indicted on a charge of misusing their offices to assist others in taking money out of the state treasury, via payroll checks.

The beneficiaries of the act were two men in Alledo, Illinois. One was Herschel Blazer a newspaper publisher and the other was a banker named Petrie. The sum paid to these men was alleged to be over \$7,000.

Checks were issued out of the office of Oscar Carlstrom, then attorney general, to employees in the office of Mr. Williamson, then state printer. These employees endorsed the checks and turned over the money which was then sent to the Alledo men.

If there was any conspiracy the attorney general was in it as deep or deeper than was Mr. Williamson. The Alledo men, on the receiving end were badly smeared too.

The silly excuse given for payments to Blazer and Petrie, in the sneaking, round-about way was that they were "special investigators" for the office of the attorney general and he did not deem it advisable to tell the public who these Sherlock Holmes were for fear it would interfere with their work. That is why their names never appeared on the payroll.

When the two receiving conspirators were placed on the witness stand they made both Carlstrom and Williamson look foolish and silly for they testified of no special investigating that they had done.

The jury, sizing up the situation from every angle, evidently reached the conclusion that if there was any guilt, Williamson and his secretary were only accommodating friends in the deal and did not personally profit thereby, so they acquitted them.

It was customary under Republican administration in Illinois to pay out vast sums of money without getting anything in return. Usually it was done more openly, however. Huge salaries were paid to officials who did nothing to earn them, except to accept the paychecks and cash them. They were directors, commissioners, etc. They held title of office. Subordinates did the work.

One of the policies of the Horner administration has been "This stealing from the treasury of the state of Illinois must stop." Furthermore, nobody has been placed on the payroll merely as a political reward. They must be able to deliver the goods or they are not wanted.

We do not believe that the Williamson and Carlstrom cases are exceptional. If close scrutiny is made of the Republican office holders' records preceding the Horner administration, many more such cases can be uncovered. Mr. Williamson, former state printer and Republican publicity agent, is a sort of outstanding mark and the Democrats have evidently picked him as an "awful example" to teach a lesson in official decency and honesty.

Forging Ahead; Dangers Of Relief.

Throughout the country generally, business is looking up.

Men are working; men are striking. Manufacturers are fighting; goods are moving.

We are still a far way from a moderate measure of prosperity, but we are on the way.

Strikes are a sign of prosperity. A few years ago men did not strike. Employers did not squabble with their employees.

Why? Well, for one thing, factories were closed and employers had no demand for their products; in the second

place, men were not working, consequently had no jobs to strike on.

Farm prices are about 150 per cent higher than two years ago. The program of crop reduction will bring into play the old system of supply and demand — which may mean higher prices.

The government is pouring the balm of relief into the nation's troubled wounds. The people have confidence in the government. The only trouble may be the development of the bad habit of running to the government for aid when it is not really needed.

Some years ago, the writer was president of the Moultrie Red Cross. A devastating hail storm passed over here. Red Cross headquarters at St. Louis sent "case" workers here to size up the situation and give aid where needed. Some people clamored for this aid. Several cases, very worthy, brought forth this response: "I know I'm hard hit, but I'll get by. Give support to my neighbor, he needs it more than I do."

If that same spirit of independence would prevail in the government relief activities, it would help toward recovery. Instead, however, the spirit often found is this: "If I can get government relief, why should I work? If my neighbor is entitled to this relief so am I."

Let Us Pension The Aged.

Old age pensions are coming. Some states already have them. President Roosevelt approves. Sentiment generally favors them. Eventually it will be the law of the land.

We believe in it. Next to guarantee of bank deposits it is one of the most sensible things ever proposed.

Remove the dread of a poverty-stricken old age, and you will have removed one of humanity's heaviest and oppressive loads. There will be no more hoarding. Mankind will be set free to live normal lives. No longer will people have to make money their God and trust in it for the needful things of old age.

Take a small percentage of man's earnings during his producing years; add to this a very substantial inheritance tax on exorbitant fortunes and you will create a fund which will make it possible to pay every man and woman, a liberal pension after they have passed the age of 60 or 65.

As a companion measure, let there be unemployment insurance, safe-guarded so as to prevent racketeering.

If government insists on exploiting the people with exorbitant taxes, let government give them something adequate in return.

We have in this country today aged people, good citizens, who in their day have paid thousands of dollars in taxes, but who, through no fault of their own, have lost their lives' savings and face penury and the poor-house in old age. Shame on a country that permits such things to happen!

We have had the experience; will be profit thereby?

Editorial Shorts

The Chicago Tribune Sunday bemoaned the effect of the Roosevelt administration on farmers and price of farm crops. It emphatically declared that the farm relief plans were a flop.

Let us cite a few figures: In the middle of June 1932—when Herbert Hoover was president—grain prices here were as follows: wheat 36c; corn 22c; oats 14c; now note the Roosevelt prices as paid here last week: wheat 86c; corn 53c; oats 38c. It seems that these prices clearly answer the Tribune argument.

When Congressman D. C. Dobins returns from Washington to look over his political fences, he will find them down in some places and some of the veterans, disappointed through lack of bonus legislation, have left the reservation and are following Charley Fletcher the Republican candidate. Mr. Fletcher is a veteran. What he is all promising, we do not know, but the bait is doubtless alluring.

Reports from Springfield say that Lieutenant Governor Thomas Donovan may resign to accept a Federal judgeship. As a successor, John C. Martin is suggested. Mr. Martin is at present state treasurer. He cannot succeed himself. The office of lieutenant governor would be a stepping stone to his nomination for governor by the Democrats in 1936.

Democrats at Springfield have done many meritorious things for Illinois. They lack the proper press agent to broadcast the news throughout the state; they lack enthusiastic Democratic papers to whom things up. Governor Horner's treatment of the 95 Democratic newspapers in the state is not such as to cause the editors to tear their shirts in his behalf. Behold, however, our Republican newspaper brethren! They are telling untruths and misrepresentations about Governor Horner and the Democrats with gusto and glee. They are tackling the job wholeheartedly with joy unrestrained.

WE TOO!

The newspaper code under the NRA has an opportunity to do something for newspapers which newspapermen should long ago have done for themselves, a thing which jealous and bitter rivalry has prevented.

It has the power to demand accurate statements on circulation. It has the power to put an end to lies, and cheating and false rep-

resentation through padded circulation figures.

The News being honest in its circulation statements would welcome the exercise of that power.

Sunday School Lesson

by Rev. Charles E. Dunn

Lesson for June 24th. Micah 4:1-5

Golden Text: Luke 1:33.

At the end of this Quarter we can testify to the supremacy of that Great Figure near to whose Person we have, in the course of our studies, all come.

Suppose we think of those qualities in the Master that endear Him to us. Surely He is wonderful in those virtues essential to fullness of character. Think of His adroitness, His skill in avoiding the traps set for Him. Think, too, of His quickness so sharply etched in Mark's brief gospel, where "Straightway" is a favorite word.

Then also we remember His clearness, one of the most important of moral qualities. How transparent in meaning are the Beatitudes, the Golden Rule, the Lord's Prayer, the parables! And we recall His charm. We do not know the physical characteristics of Jesus. But we can be sure that He was goodly to look upon, that He had, as the poet says, "a sweet, attractive kind of Grace." There are references in the gospels to Jesus "looking." He looked upon the people, on His disciples, and on the rich, lovable young ruler. We can picture to ourselves something of the beauty of that look.

And how deep was His emotion! It is said that Marcus Aurelius had a face that never changed. But the face of Jesus continually revealed the play of lights and shadows inspired by His deeply sensitive nature. He "rejoiced in spirit." He "sighed deeply." He became angry. And always was He "moved with compassion."

And what patience! How long-suffering with those petty, quarrelsome disciples! Peter was a sore trial, yet He called him a rock.

And how astounding His achievement! There seems to be no decline in the authority of Jesus. The old, old story is as compelling as ever. With Lamb we can agree that if Shakespeare should come before us, we would rise, but that if Jesus appeared, we should kneel.

HEADS AND TAILS

State police officers William Hostetter and Beldon Turner were checking cars Sunday night at the intersection of Main and Jackson. They spotted 14 cars without tail lights and 10 with defective headlights and gave orders to have these defects remedied. A car without head or tail lights, or with defective ones, is a menace to the traffic and may result in collisions.

National Guard To Have 4-Day March

Tentative plans for the annual encampment of the Illinois National Guard including unusual arrangements for the training of guard units and related organizations have been made public by Major Roy D. Keehn. The encampment of the 33d division will be held from August 4 to 19 at Camp Grant.

The new feature of this year's training, adopted with the approval of Gov. Horner, who is Commander in Chief of the Guard, provides for a four-day march into Chicago, the various units taking different routes but all meeting for a parade on Saturday, August 18, Governor's day at the World's Fair.

This year too, it was announced by General Keehn, the review of the troops in Chicago will include a line of march outside the World's fair grounds so that residents and visitors in Chicago may see the parade without having to attend the fair.

"We have revised the plan for the march into Chicago," said Adjutant General Carlos E. Black, in discussing the tentative program, "so that the men will receive training that they have not heretofore had on the trip to Chicago. It will also give the railroads which carry the troops part of the way, some new experience and will bring into cooperation various communities along the line of march."

"Heretofore, all men have entrained at one point, but this time the march has been so arranged that some units entrain at Elgin, others at DeKalb and Sycamore, and others at Genoa or Kirkland."

"All units will arrive in Chicago on Friday, August 17 and be in readiness for the review on the following day. After the review Cook county units will return to their armories to be disbanded and units of other sections will entrain for home that evening."

Hints for the Home

by Nancy Hart

When you are making gelatine, use a pitcher to mix the powder and water; then when the ingredients are ready to put into the mold you'll find it simpler to pour.

If your bread shows signs of molding, hold the sides of the bread over a gas flame for a minute. The heat will kill the mold spores without drying out the bread to any appreciable extent.

You can keep parsley fresh by putting the stems in a glass of water to which you've added a slice of lemon or a teaspoon of vinegar.

Put your mixing bowl on a folded towel when you are beating ingredients with one hand and adding material with the other. The bowl won't slip on the towel as it does on a smooth table surface.

To achieve that delicious white-and-gold appearance of fried eggs, fry them in a piping hot skillet with a tight cover over it.

Warm your pie plates on top of the oven before putting the crust in to bake. This will prevent a soggy crust.

Sullivan Ag. Boys Win 3rd Place In State-Wide Contest At U. of I.

Of 190 Schools Competing, Sullivan Out-Judged Only by Atwood and Mt. Carmel. Lawrence Filson and Frank Horn now "State Farmers." Filson Also Elected Vice-President for Section 11.

Sullivan Vocational Agriculture boys came home Saturday from the State Future Farmer meeting and judging contest held at the U. of I., bringing with them a considerable share of the honors and tokens awarded for accomplishment.

Frank Horn and Lawrence Filson received the degree of "State Farmer" and gold keys as awards for outstanding project work, qualities of leadership, scholastic attainment and thrift habits. Each has more than two hundred dollars productively invested including sizeable savings accounts built up from their own efforts; both have average school grades of better than 85 in all high school subjects; both have served one or more years as an officer in their local F. F. A. organization as well as having represented their school in competitive activities such as judging teams, athletic events, etc.; and both have carried on outstanding project work in pure-bred swine, corn and other farm crop enterprises.

Sullivan has three other State Farmers in William McKown, Charles Lane and Homer Hoskins. These boys have continued to demonstrate their worthiness of honors awarded them. McKown and Lane have established enviable records as students at the University of Illinois while Hoskins has been performing in his home community on the farm.

Not more than one percent of the State F. F. A. membership may become "State Farmers." Thus relatively few receive that award. Only 78 out of the 8000 vocational agricultural students in Illinois were able to qualify this year. Even if more had met minimum requirements only 80 could have been elected.

The highest honor available in the F. F. A. organization is that of "American Farmer." To receive that award a boy must have served as a state officer in his organization, have productively invested at least \$500.00 and have definite plans for starting farming in addition to the requirements for "State Farmer."

Lawrence Filson was elected to a state office this year and hence will have an opportunity to try to qualify later on for "American Farmer." He will serve this year as one of the fifteen vice presidents and will preside over all Section XI meetings including the Section public speaking contest. It will be his duty to make arrangements for holding all F. F. A. section meetings and to secure judges for the section speaking contest as well as looking after other sectional F. F. A. activities.

In the judging contest Sullivan

ranked third as a school in the judging of all classes in direct competition with 190 other schools from over the state. 1939 boys took part in the contest as members of the various teams in the judging of corn, grain, poultry, dairy cattle and fat stock. Sullivan had a team in each division and made a total score of 3681 points out of a possible 4800 and was beaten only by Atwood with 3733 and Mt. Carmel with 3748 points. Each of the three high ranking schools received a large plaque, just alike except for the wording which distinguishes them as to rank. Other schools ranking among the first five were Bement and Olney.

Sullivan's grain team ranked 9th in the first day's contest but moved up to 7th in the second work out on Saturday. The fat stock team stood 3rd at the close of the first day but dropped down to 6th the second day. The corn and poultry teams ranked between 10th and 15th and the dairy team 22nd in the first days contest. Only the ten high teams from each division worked the second day. The poultry team scored 602, dairy 745, fat stock 921, corn 690 and grain 823 points.

Of course its easy to say things might have been different, but two of Sullivan's regular team members failed to show up Friday morning making it necessary to substitute on both the corn and poultry teams at the last minute. These substitutions probably cost Sullivan the difference between third and first rank. An average of five points per ring for each of the sixteen rings judged by the substitutes would have given Sullivan 80 additional points when only 68 were needed to win first place. It must be added however, that the two substitutes did commendable work considering their experience.

Individuals who ranked among the first ten in the contest were: Chester Daum in the judging of hogs and beef cattle and who also won 5th place in all round fat stock judging; Lawrence Filson, 2nd in wheat and 4th in all round grain judging; Cecil Shasteen placed in hog judging and Frank Horn tied for 10th place in corn judging. Ribbons were awarded to all individuals who ranked among the ten highest.

Sullivan's teams were: In fat stock, Chester Daum, Cecil Shasteen and Robert Miller; Dairy—Robert McKinney, Bill Sentel and Cecil Campbell; Grain—Lawrence Filson and Harold Bathe; Corn—Frank Horn and Junior Horn; Poultry—Loren Jenne and Wayne Wilson.

Job
In the Bible Study class this evening we are to study the book of Job synthetically. The essential problem of this book is the discussion and answer to the question: "Does the sin of righteous man cause evil to befall him?"

Then the tornado came through Mattoon. Many people looked upon it as the judgement of God, because the people were living so loosely. Many perhaps look upon the infestation by the chinch bug as being a result of waywardness on the part of the people.

Read the book of Job and attend this Bible class for its discussion of this subject and the synthetic treatment of the book of Job.

THE GOSPEL MISSION

Over Post Office.

9:30 a.m. Sunday school.
7:30 p.m.—Evangelistic services.
7:30 p.m.—Bible study, Thursday.

Please remember June 28th, the date Brother Sweitzer will be here. Is. 26:4 "Trust ye in the Lord for ever."

The thought in the text is that of a constant or fixed trust, not in the material or visible things, but in the Lord Jesus, who needs not material or visible things to work a fulfillment of our trust in him.

Too often we find our selves very much concerned and agitated about the things over which we have no control. This is evidence that we are not trusting. A complete trust brings faith to our hearts, faith in Him who is able to do the supernatural, and with faith there comes peace and quietness.

We find so many trials in life over which we have no control. These trials naturally become care. He invites us to cast our cares on Him, for He careth for us. It should be a wonderful consolation to us in these days of so much uncertainty that we have One who

has never violated a trust that was placed in Him.

PRESBYTERIAN CHURCH

Rev. G. M. Garber, Pastor

A full rounded community life depends upon the proper use of all the institutions in the community. One cannot have a strong community and neglect any of the elements which go to make a well balanced community life. The church should be accorded its place, for it plays its part in making civilized life possible. It is a shortsighted policy that leads men to neglect the religious side of life, for that side of life is the guarantee of the joys that men hope to enjoy in other walks of life, for that side of life is the guarantee of the joys that men hope to enjoy in other walks of life. You are invited to attend the services of this church.

Sunday, June 24:
9:45 Sunday school.

11:00 The morning service. This service will be a most interesting and worthwhile service. Miss Mildred Chapin, who was valedictorian of the Class of 1934 at the University of Illinois will give her valedictory address at this service. Mrs. Fitzgerald, of Peoria, will sing a vocal solo. The Rev. S. P. Taylor of Mattoon, a former pastor of this church will be present and will assist with the service. The pastor will preach a short sermon.

6:15 The Young People's Forum will meet in the manse.

CHRISTIAN CHURCH

C. E. Barnett, Pastor

"Twenty Fourth of June" No! not Grace Richmond's book of that title, but the Sunday when the obligation and opportunity of our church in properly closing the missionary year is upon us. Two great objectives have been before us: Equal last year's giving. Show the largest possible increase as a share in recovery for missions and benevolence. We have already reached these objectives, but the latter should be made still larger, and it will be as the various organizations collect and forward all funds to the United Christian Missionary Society before June 30. "Let Missions Share in Recovery."

The members of the Christian Endeavor are practicing self denial this week in order to bring a goodly offering that their apportionment for the Damoh Orphanage may be met. This offering will be received at the regular meeting on Sunday evening at 6:30. Levia Elder will lead with a second "Mind" study. "The Mind of Christ on Fear and Worry." Another contest has been suggested. This matter will be discussed in the business meeting. Be there!

All services of the church will be held Sunday at the following hours:

Sunday school at 9:30 a.m.
Preaching services at 10:30 a.m. and 7:30 p.m.

Christian Endeavor at 6:30 p.m.
"One can produce oranges without a tree just as easily as morals without Christianity."

Delegate's Report Of F. F. A. Convention

June 14-16—Loren Jenne and Lawrence Filson, F. F. A. delegates attended the sixth annual Convention of the Illinois Association of Future Farmers of America. They attended the swimming contest events held in the new gym Thursday morning. The first Future farmer meeting was held in the afternoon.

The afternoon session was called to order by Milburn D. Munn of Capron who was president of the Illinois Association F. F. A. Robert Lilly of Tower Hill read the secretary's report as the secretary was absent.

A short talk on the progress of "The Illinois Future Farmer" was given by Edgar Horgis who was State Reporter of F. F. A.

President Milbourne De Munn gave a short address of Welcome. His address was followed by the announcement of the nominations for the State Farmer Degree.

Among the names announced were Frank Horn and Lawrence Filson. The nomination for American Farmers were read shortly after those for the State Farmer Degree.

The Section meetings were called and special reports of activities of various chapters were given by delegates. The election of vice president for Section 11 was held. Loren Jenne succeeded in getting the nomination and the election of Lawrence Filson for vice president. It was decided that the next section meeting would be held at Decatur at the same time of the meeting of the Agriculture Teachers Ass'n.

The delegates assembled once more after the section meetings were over and some business was brought before the assembly.

There was some discussion about limiting the nominations for State Farmer degree to 1 out of every 25 boys in each local chapter. This plan was rejected by the vote of the delegates and the system that was used in the past will be continued.

There were some other business matters settled and the work committees were appointed. The third act of "The Green Hand", a play, was given very successfully by the Mendota Chapter.

The evening session was called to order with the opening ceremonies by the Tolono chapter. The music was furnished by the Walnut band.

The swimming trophies were presented and shortly afterward an address was given by Bob Zupke, football coach at the U. of I. The finals of the public speaking contest were held in which six section winners were entered. The winner Charles Farley of Dekalb with his presentation of "Organization for Farmers" received 1st award, a handsome gold wrist watch, furnished by Gov. Horner. Second and third awards went to Robert Jones of Polo and Noel Esmon of Mt. Vernon, respectively. The Second and third place trophies were cups furnished by the Illinois Agricultural Teacher Ass'n.

The candidates for State Farmer degree who had previously been nominated were elected, including Frank Horn and Lawrence Filson. The State Farmer keys were presented.

Following the presentation of the keys came the closing ceremonies and adjournment for the first day session of the convention.

Friday evening, June 15th the meeting was brought to order by the opening ceremonies given by the Sraabona chapter. The assembly was again entertained by the Walnut F. F. A. Band. After the contest announcements for those who were to judge the next day in the finals, trophies were presented for the winning Soft Ball team. Harrisburg chapter won the cup. Also a cup was presented to the champion horse shoe pitcher.

"The Follies" were held to entertain the group. Stonington chapter won first place with their "Little German Band". Reports were given by the chairman of the commit-

tees appointed on the first day of the convention.

The election for the state officers was held and Edgar Horgis of Sparta was election president; Morris Cantzert of Dwight was elected secretary and treasurer and Adolf Reckenburg was elected reporter. This brought to a close the sixth annual convention of the Illinois Association of Future Farmers of America and the meeting was adjourned.

HOW MOULTRIE DROUGHT RELIEF WILL BE HANDLED

(Continued from page 1)

relief to enable the farm family it is aiding to maintain itself. It will not undertake to provide the materials needed to maintain a very large supply of live stock or to seed a very large area of land, for were it to do this it would be going beyond the scope of furnishing relief.

In carrying out this program, the Moultrie County Emergency Relief committee will receive assistance from Governor Henry Horner's Farm Debt Adjustment committee and from Charles Shuman, Moultrie County Farm Adviser, who will furnish information regarding the needs of individual farmers.

Each farmer who is in need must make a personal application for assistance before he can be aided, according to Chairman Newbould. These applications will be received at the office of the Moultrie county Emergency Relief committee in Sullivan.

Must Be "Actual Need"
"It must be borne in mind that drought relief is a relief measure," said chairman Newbould. "As a consequence, it is available only to those who are in actual need. The mere fact that a farmer has suffered losses through drought does not make him eligible for drought relief, as he may have private sources of revenue through which he can meet his losses. To be eligible for drought relief, a farmer must be in need of feed and seed with which to maintain himself and family and must be unable to supply them for himself."

"Because of this regulation, only a small percentage of the farmers in Moultrie county will probably make application for this assistance. We expect to aid everyone who really needs help, but it would be impossible to furnish assistance to every farmer who may have suffered from the shortage of rain, and we are expecting the farmers of Moultrie County to cooperate with us to the fullest extent in carrying out this program."

Loan Assistance
Direct grants of feed or seed to needy farmers in Moultrie county will be discontinued as of June 27, and beginning June 28, assistance to farmers in the county requiring aid will be furnished through loans which will be further announced by Mr. Newbould, chairman of the Moultrie county emergency relief committee.

Instructions to this effect were received today by Chairman Newbould from the Illinois Emergency Relief commission, which is administering drought loan program in the 77 counties of the state recently designated in the secondary drought area by the United States Department of Agriculture.

The program is under the supervision of J. H. Lloyd, assistant director of the Illinois Department of Agriculture, who at the direction of Governor Horner, was recently appointed director of drought relief for the Commission.

The administration of the program in Moultrie county is under the supervision of the Moultrie County Emergency Relief committee, whose Relief Administrator, Mrs. Dorothea Williams Jensen, is in direct charge. In accordance with the procedure adopted in acting on application for grants of feed or seed, the county relief officials will work in cooperation with acting county farm adviser, Charles Shuman, and members of the Moultrie County Farm Debt adjustment committee, consisting of Chairman George Reuss, Bethany; Henry Hortensine, Gays; O. J. Gauger, Sullivan; W. F. Schaale, Arthur; and T. P. Ellis, Lovington.

Requirements
For a farmer in Moultrie county to be eligible for a drought relief loan, he must, as a result of the drought, be in need of feed for his livestock and/or seed for replanting forage crops, and must be without cash or credit facilities with which to provide these needs.

While a farmer who has received a grant may also, if it needs warrant it, receive a loan, the value of his grant, plus the amount of his loan, must not exceed \$200.00.

Farmers in the county who can qualify for loans through the Production Credit Association of the Federal Farm Credit Administration will not be eligible to receive a loan under this program, according to the announced plans.

The county relief committee has set up a plan for the issuance of warrants direct to applicants who

are found to be in need of this assistance, chairman Newbould said. This procedure was adopted at the suggestion of the State Relief commission in order to expedite the rendering of relief to the individual farmer. The farmer, however, must use the cash obtained through a loan for the purchase of feed for his livestock and/or seed for planting of forage crops.

In connection with the inauguration of the drought loan program in Moultrie county, chairman Newbould further stated that those farmers, who because of the drought, are receiving shipments of feed or seed are entitled to the freight reduction tariff rate applying to the emergency drought counties.

Freight reduction certificates can be obtained from either Farm Adviser, Charles Shuman, or from Mrs. Dorothea Williams Jensen, Relief Administrator for the Moultrie County Emergency Relief committee.

Dalton Falls To Shelbyville In 11th, 4 To 3

Fourth Straight Loss for Dalton by One Run Margin. Both Teams Score Evenly in Practice Tilt. Benton Clouts Homer, 3 Singles.

By Jim Scott

Shelbyville — The Dalton Grays dropped their fourth successive contest by a one run margin here last Sunday when Shelbyville came from behind in the eleventh, counting twice for a 4 to 3 decision in a battle royal which came under the heading of an exhibition game.

Both teams were loaded with several members of the famed Pana Blues, a fact which may explain why they were so much alike in scoring procedures. Dalton tallied a run in the second, then Shelbyville bounced back with one in their half of the frame. Dalton tried it again in the fourth and once more Shelby nullified it with a marker in their half.

Both contingents then went scoreless up to the eleventh when Dalton negotiated another run to go into a 3 to 2 lead. That, of course, was the cue for Mr. Cutler's hirings to tie the score. But lo, they forgot to stop after having completed their task and before they realized it another run had trickled in and the ball game was theirs.

Trio Leads Dalton
And it was a rather odd conflict in another respect as the three supposedly weak hitters in the Dalton crowd accounted for every one of the 10 hits gleaned off Okay Honefinger, the Charleston college athlete from Pana.

Kidwell, the phenomenal shortstop, rattled off three singles; "Peanuts" Schlesinger connected for a triple and two singles; while Herb Benton emerged from a protracted slump with a home run and three singles. So with only three fellows taking a hand in the clouting, it was inevitable that the bingles would be widely distributed.

Benton exploded the first and most important of his heroics in the second. After the first two hitters to face Honefinger had struck out, Herb skied a four base wallop beyond the reach of the left fielder.

Two force outs aided Shelby in tying the score in their half. Walker led off with the first of a three hit series, took second on a walk to Crow and scored when Lowery and Lantz batted into successive force outs.

Nip and Tuck
The Grays threatened in the third on safeties by Kidwell, Schlesinger and a base on an error. But Honefinger met the occasion by fanning H. Clark, Reno and Leskd.

However a like amount of material was turned into a run in the fourth. Emorick was safe at first when Crow juggled his grounder. Benton singled him to third, from where he scored on Roper's fly to center. Benton was later caught off third, and Schlesinger then threw away a perfectly good triple when Pitcher Clark followed with a strikeout.

Although Shelby loaded the bases with but one gone in their half, they could get home but one tally. Walker singled and Crow was plunked by a pitched ball. Clark took care of Lowery at first, but followed by passing R. Martz. Honefinger, the pitcher, showed his versatility with a single which again tied up accounts.

Came the 11th
Both fingers then kept an orderly house until the eleventh. Benton started the Grays' half by gaining first when Walker fumbled his grounder. Roper was out, Walker to Lowery, Benton moving to second on the play. Schlesinger was hit by a pitched ball. Clark batted to the shortstop, and Schlesinger was forced at second. Benton went to third on the play and then crossed in on a single by Kidwell.

Only three men saw action in Shelby's game winning rally in their part of the eleventh. Walker doubled and scored on Sanronski's triple. Lowery then pounded out his first base hit of the afternoon to send in the Pana Italian.

Dalton City 010 100 000 01—3
Shelbyville 010 100 000 02—4

Errors—Pabst, Roper, Schlesinger, Visseur, D. Martz, Walker 2, Crow. Two base hits—Visseur, Walker. Three base hits—Schlesinger, Saronski. Home run—Benton. Struck out—By Clark 4; by Honefinger 11.

SPEAKING OF SPORTS

BY JIM SCOTT

They overhauled the Illini league in a recent meeting at Bethany, accepting Shelbyville as a replacement for the Sullivan Indians and installing John Weidner as president.

Mr. Weidner, a Dalton grainman should make the league an ideal prey, for he has followed the game since he was a young buck and is especially interested in semi-pro ball. Already he has given more time and money to the league than has any of the managers.

I think the fates cut Mr. Weidner out for a salesman. The writer has been soliciting ads in the various league towns to pay for the printing of large placards bearing the schedule. Mr. Weidner not only volunteered to help, but worked the little village of Dalton by himself, selling 13 ads, a number which represents about every business house in the village.

S O S
The Shelby club is managed by congenial Mr. Cutler, who operates a profitable beer parlor. His pitching will be handled by Okay Honefinger, a Pana boy who attends Charleston T. C. The supporting cast includes the classy Duke Beem, Lefty Walker and the King brothers. Floyd Dietz, a Shelby resident, will continue to hurl with the Dalton Grays.

S O S
There are some fans who regard Illini loop baseball as being on a par with that played in the Class D. leagues of the country.

There may be something to their belief as the House of Hale, with over 40 performers to draw from, fell below the 500 mark in the first half.

S O S
Shelbyville is favored to cop the second half. And now that Bethany has strengthened its lineup by adding Dutch Seybert and Bean, an Assumption battery, and Dalton has further reinforcements in three of the best semi-pros in Pana the problem: "Just who is going to do the losing in this second half?"

Well, I'll nominate Bethany for one and you may pick another. Anyway you look at it a tight race is in the offing with the winner assured of several reversals for its record.

S O S
Softball is doing much to restore the balance of power in Arthur, where previously the musicians brought home all the silver trophies and the athletic teams all the last places.

Right now the Arthur populace is as proud of its softball team as it is of one Francis Stevens, a cornetist. To date the club is undefeated in the Inter-City league, and only recently they outslugged a strong Mattoon ten in a contest in which Bill Davenport, the county's No. 1 golfer, poled two homers in one inning.

The Mattoon lineup included the two Bales brothers, who hardball with the Boosters', and Bob Spicer the 6 feet 4 inch cage star.

S O S
Bill Terry, the Giant pilot, seems to thrive on bad publicity and is standing pat on his decision against granting interviews.

Recently when Mr. Terry showed his discourtesy to the gal who covers all the St. Louis games for an East St. Louis paper, he received a few sharp blasts in return. This young lady, a wife of a St. Louis newspaperman and a former Brooklyn sob sister, is said to be masculine to the extent of chewing her tobacco.

S O S
Ernie Orsatti of the St. Louis Cards writes movie scenarios. . . . Blondy Atkinson, the sparkplug of last winter's Shelby high cage team, is one of the leading performers of the Bethany softball

league. . . . The Babe Ruth fountain pen is a creation of ingenious Christy Walsh, the Bam's manager and ghost writer. . . . Lou Gehrig recently passed Hornsby as runner-up to Babe Ruth in the all-time home run competition. . . . Major league umpires pay \$120 for their serge uniforms. . . . And here's a tough little item to digest: When Shorty Hale was a popular Midwest jockey he weighed scarcely over 100 pounds. . . . The four Ferrell brothers of Guilford, N. C., are now affiliated with the Red Sox baseball firm. . . . Wes and Rick are with the parent club, while George, an outfielder, and Marvin, a pitcher, are with the Columbia Sandlappers, a Sox farm. . . . Incidentally this department likes Boston in the American league derby. . . .

Glenn Wright, the once great Pirate shortstop, who was forced out of the league by an ailment in his throwing arm, is now with Kansas City. . . . Manager Peckinpaugh has kindly switched him to a second base berth, in the belief that the shorter distance will afford him a chance to heal. . . . The two minor league home run sensations, Joe Hauser and Buzz Arlett, are keeping Minneapolis at the top of the American Association heap. . . . Hauser takes No. 3 position in the lineup while Arlett has the cleanup assignment. . . . Together they have banked out 50 circuit drives. . . .

Pim Goff, a State Normal athlete is now with the San Antonio Missions while John Pace, property of the Boston Braves, has been sent to Harrisburg of the NY-P league. . . . Carey Selph, the supposedly great second baseman who came to the White Sox two years ago in the winter draft, is managing the Houston club of the Texas loop. . . .

Al Hazzard, a former University of Illinois hurler, drew his release from the Peoria Tractors just before the circuit blew up. . . . Inability to hit caused Manager Joe Judge of the Baltimore Orioles to bench himself. . . . Marty Peters of Peoria is slated to direct this year's Notre Dame eleven instead of Toni Mazzotti. . . . The Los Angeles Angels, the runaway club of the Pacific Coast loop, has 60 victories to its credit. . . . Three-fingered Floyd Newkirk, the Illinois college product, is one of the ranking twirlers in the International league. . . . He works for Newark and is helped along by frequent home run blasts off the bat of Vince Barton, a former Cub. . . .

Portside Tom Sunkel of Paris, Ill., has launched his baseball career in the Penn. State Assn. in a pretentious manner. . . . He fanned 19 batters in his first two starts. . . . **S O S**
Phil Cavaretta, the Chicago Cubs' 17-year-old Lane Tech athlete who rose to prominence in the American Legion tournament, should be ready for the big time in a couple of seasons. At least that is the prediction. . . .

The squatty little Italian was playing first base for Peoria, and when the league disbanded he was transferred to Reading. With the Tractors, versatile Phil also performed in the outfield and in the final contest took the mound to hurl his club to a 3 to 1 victory over Springfield. . . .

Cavaretta, entrenched himself as a favorite with the Peoria fans on opening day when he socked a single, double, triple and home-run. Nor did his hitting subside with this gesture, for at the finish he was toting a .320 average. . . . **S O S**
Milton Boeck, who came to the White Sox last summer from the University of Wisconsin, is somewhat of a baseball vagabond this spring. The Sox shipped him to Sacramento, which passed him on to Dallas of the Texas league. The Steers, in turn, were unimpressed

by the youthful collegian so they turned him over to Longview of the West Dixie loop.

Perhaps Mister Hale should get in touch with the Longview management.

—S O S—

Using all home talent save Fred Celasko, Macon was able to defeat every other Illini league club during the first half race.

Hints for the Home

by Nancy Hart

Your rugs will look like new if you scrub them with a stiff brush moistened in diluted ammonia and rinse them off with the garden hose when hanging on the clothes line.

The next time one of the children has a birthday, decorate the cake, using alphabet macaroni colored with vegetable dyes to spell out the child's name.

When you're frosting a layer cake, if the upper layer shifts after placing it on the lower, use four toothpicks to keep it in place till the frosting has set.

Take the vinegar and spices from your sweet pickles and preserve them until you are making a salad dressing. You'll find it gives your dressing a new and delicious flavor.

The following folks were entertained at the home of Mrs. Clara Swisher, Sunday afternoon: Mr. and Mrs. Will Jones of Decatur, Mr. and Mrs. Homer Harris and Mrs. Lucille Poland.

Jennie Seitz Elected President Girls Circle

The Girls Circle met at the home of Margaret Garrett Monday evening, June 18, celebrating their first anniversary since organizing. At 6:30 a pot luck supper was served followed by ice cream and cake served by the hostess.

After the evening lesson the business meeting was conducted. New officers for the coming year were elected as follows:

President—Jennie Seitz.
Vice President—Mabel Leeds
Secretary—Margaret Garrett
Treasurer—Doris Seitz.
Pianist—Wanda Stroll.
Division leaders—Alta Elder and Olive Dazey.

The next meeting will be held at the home of Jennie and Doris Seitz July 16.

During the past year 7 members have been added to the Circle which had a charter membership of 10. Twelve meetings have been held. Dues each month are sent to the United Christian Missionary Society for Missionary work.

Macon Edges Out 5-3 Win Over Bethany
Bethany Completes First Half Season Without Victory. Heavy Stick Work of Ralph Lancaster Features.
By Jim Scott
Macon—Sometime this summer the Bethany Merchants are going to win themselves a ball game, but as to just when this writer doesn't care to venture a prediction.
Last Sunday, in the first half finals, Macon experienced a touch of sympathy for our unfortunates, so holding in reserve Freddy Celasko, their ace slasher, they were able to dole out the Merchants' eighth successive defeat by but a narrow 5 to 3 margin.
But the vicissitudes of our struggling Merchants meant nothing to Ralph Lancaster, the host's caloused third baseman. Mr. Lancaster had, on the previous Sunday, connected for a single and a pair of doubles, so this Sunday he reversed the procedure, tossing in a triple and a pair of singles to blast aside Jo Toth just when he thought himself on the threshold of his first pitching victory.
Player Shortage
Bethany made an attempt to pug up some of the gaping holes in their defensive machine by adding Pitcher Dutch Seybert and his battery mate, Bean, of Assumption. However additional leaks oobbed up. One was at first base, where Vernon Craig deserted in favor of Oklahoma, and another was left field where Finch of Decatur usually holds forth.
Finch, it seems, had wandered in the Market street gambling den the night before and showed up for the game unfit for service. Someone skilled in the use of a black-jack had lacerated certain portions of his face into an ugly pulp.
After Manager Art Gibbons had summoned his three substitutes: McCord, Fitzgerald and Harry Snow—he found that he was still one shy. So taking the only alternative he trotted himself out to rightfield. Although it was some years ago that the good Bethany skipper turned the half-century mark, he nevertheless was able to conduct himself up to Merchant par, cracking balls on three occasions to the infielders.
Unroe Steady
Unroe, the second string Macon twirler, ran through this lineup without serious difficulties and turned in seven strikeouts to Toth's five. Both slingers gave up eight hits.
Bethany's two Snows, Jim and Harry, were particularly cool to Toth, thrice deceiving him with errors. Jim however proffered his apology in the form of safeties on his last two appearances.
Bethany got the jump on Macon with two runs in the third. With one away, Toth doubled, then Seybert drew a base on balls. Geo. Gibbons survived on Celasko's muff in center field, Toth scoring and Seybert pulling up at third. The latter crossed the plate while Unroe was attending to Bean at first.
Macon also used a walk in getting back one of these runs in their half of the inning. Jostes drew the ticket and, after taking second while Combe was going out via the shortstop, ran home on the first of Ralph Lancaster's series.
R. Lancaster Delivers
Consecutive singles by Workman and Celasko plus a fumble by J. Snow enabled Macon to even the score in the fourth. They then put on another successful drive in the fifth to go into a 4 to 2 lead. R. Lancaster's second single and a faux pas apiece by the Snowmen were the chief ingredients.
With one gone in the Macon seventh, Tomlinson doubled over the fence in right and a moment later was on his way home when Ralph Lancaster shot a sizzling triple over second.
After fanning on his first three attempts, Harold Fitzgerald, Bethany's rangy recruit, started the ninth off in the proper direction when he dropped a double to right. Harry Snow and Manager Gibbons proved unequal to the occasion, but Jim Snow came through by poking the ball out to left enabling the runner to score. Toth then brought to an end another one of his unprofitable Sunday afternoons by lifting to the second baseman.

COTTON BLOSSOM SINGERS AT M. E. CHURCH MONDAY
The Cotton Blossom Singers, negro students from the Piney Woods School, Piney Woods, Mississippi, will give a great musical program at the Methodist church next Monday night. Singers from this same school were at the M. E. church four years ago this fall, and highly entertained a capacity audience. Everyone is cordially invited to attend this musical. A free-will offering will be received for the work of this school in Mississippi which is inter-denominational.

Dated at Decatur, Illinois, this 18th day of June, A. D. 1934.

"There are several more Mattoon cars; there is one from Decatur and here is another Decatur car" so ran the conversation as we drove around the uptown Sunday evening and found our way through a near traffic jam.

And what brought all these cars to town? The show at the Grand theatre. A lot of radio punks from some Chicago station were here in person to do some capers on the stage—and oh, how the people do like that sort of thing!

That's the nice part, however, about Mr. Hays management of The Grand. He has a sort of uncanny hunch that tells him what people want to see.

Nobody seems to have taken seriously our invitation issued last week to write sketches of 100 words or less, on pictures you have seen, for publication in this column.

Outstanding Friday night: — ELISSA LANDI — some time in the early part of this century Countess Caroline Zanardi-Landi gave birth to a girl in Venice Italy. The kid got a peachy education and later decided to become a writer. She was induced to become an actress instead and has done well. She heads the cast "Sisters under the Skin" which shows here Friday night.

The second picture is "The Hell Cat." "Hell" is a favorite word to use in movie titles. We read recently where about twenty good pictures included this graphic word in their titles. Robert Armstrong, the header, is a son of Saginaw, Michigan. He was born to opportunity for his folks were pretty classy. Ann Southern, the spitfire female in the play has English-Danish blood in her veins and first sent forth squalls in Valley City, North Dakota. Her mamma, Annette Yde was a concert singer and that eased her daughter into the entertainment world. This picture will have a lot of newspaper misrepresentation in it. You'll like it.

Your Saturday show is different. It is called "Call it Luck" and the leading performers are "Pat" Patterson a clever lass, Herbert Mundin, a real comedian and Charles Starrett a sort of Valentino lover. See "Our Gang" in "The First Roundup", cartoon and serial.

Big Stuff — Viva Villa. Wallace Beery as Pancho Villa, the famous Mexican bandit chieftain of pre-war days is a character you'll never forget. This is a really great picture and is a study in Mexican geography and history. Stuart Erwin plays the role of Johnny Sykes an American newspaper man, a friend of Villa. There are plenty of thrills, plenty of love, deceit and treachery. Beery is ably assisted by Leo Carillo, Fay Wray, Donald Cook, Stuart Erwin, George E. Stone, Joseph Shilkraut, Henry B. Walthall and others. At times as many as 10,000 people appear in the cast. It took ten months to make it. 100 cameras were busy on the job. Now, after all this trouble, can YOU miss it?

Tuesday And then comes a girl's struggle for love, guidance and sympathy within a sepulchral hall of snobbery—name of picture—"Finishing School"—Tuesday only; stars — Frances Dee, Billie Burke, Ginger Rogers, Bruce Cabot and John Halliday; also good comedy, adventure and News reel.

Under Legion Auspices The picture Wednesday and Thursday nights is given under the auspices of the American Legion, Moultrie County Post No. 68.

This picture is reputed to show war scenes long hidden in official vaults. It shows the 33rd, 42nd and 86th division in action.

A Charley Chase comedy will also be shown as well as News events and Screen Comedy.

Farmers Gain by Corn Storage Plan

Increased Value Of Illinois Sealed Corn More Than \$8,250,000.00

Illinois farmers who obtained 45 cents per bushel federal loans on sealed corn are ahead more than eight and one quarter million dollars financially based on current prices of around 53 cents per bushel or more at country points, according to a statement received today by the Moultrie County Farm Bureau from the Illinois Agricultural Association. Figured at current prices in feeding sections of western, Illinois where corn is bringing 55 to 60 cents per bu. the gain would be even greater.

When the movement for corn-loan program was first initiated by the Illinois Agricultural Association, corn was selling for less than 25 cents per bushel. And just before the loan program was put in to effect corn was priced at approximately 35 cents per bushel at country points.

The Corn-loan division of the Reconstruction Finance Corp., Chicago, reported June 14 that approximately \$25,000,000.00 is still outstanding on corn loans in Illinois. This means that around 55,000,000 bushels are still under state seal.

Were it not for the corn-loan project much of this corn would by now have been moved into the hands of grain buyers and speculators.

By holding the crop farmers have profited to the extent of 15 to 20 cents per bushel. Only a 15c advance on 55,000,000 bushels represents an appreciation of \$8,250,000.00 on corn covered by federal loans compared with its selling price before the loan program was put through. Not only that but such farmers still have corn which may be badly needed for feed within the past year.
